Report of the Minister of Lands and Forests of the Province of Ontario

For the Year Ending 31st October, 1923.

To His Honour the Lieutenant-Governor of the Province of Ontario.

MAY IT PLEASE YOUR HONOUR:

In accordance with the provisions of the Public Lands Act I have the honour to submit for the information of Your Honour and the Legislative Assembly a report for the fiscal year ending the 31st day of October, 1923, covering the operations of the various services under the jurisdiction of the Department of Lands and Forests.

The services are so different and the operations under them so diversified that my preface must of necessity be rather general, the treatment of each being more exhaustively dealt with under its special appendix.

LANDS.

During the past year the interest of the prospective settler has been manifested by the large number of inquiries made from different sources and requests for information relative to the attractive features of homestead land in the arable sections of the Crown domain. In actual land transactions in the way of entries for free grant locations there has been a slight decrease compared with last year, but in sales of lots for settlement purposes the yearly average has been maintained.

Ever-increasing interest is taken in the Great Clay Belt where the opportunities of hewing out and making permanent real homes are presented. The alluring features of this great tableland, with its ready supply of pulpwood to tide over the settler in his pioneer years, and its richness of soil, have considerably encouraged active settlement. A recent official tour of Northern Ontario revealed the extensive areas cleared and brought under cultivation within recent years and the vigorous efforts of individual settlers, who are generously treated by the building of roads, seed-grain supplies and advances in the way of Government loans on easy terms. The general demand of the newer sections is more roads and when reasonable assurances are granted that such will be forthcoming the settlers' hopes are continued and their efforts furthered in the way of formulating plans for encouraging friends to settle near by and thus develop community life.

Sales of lots in Government Town Plots showed a substantial increase over the preceding year, a noticeable example being at Kapuskasing on the Trans-continental Railway, where a thriving centre is now firmly established as was predicted in 1917. A large up-to-date pulpmill is being operated by the Spruce Falls Company. The land contiguous to the town is practically all occupied by actual settlers, much of it being well cleared and extensively utilized, one settler practically within the town limits having, in addition to his substantial clearing,

a large number of cattle, an important dairy industry and, above all, unbounded confidence in the agricultural future of the section. This successful settler is one of its original soldier settlers of the Farm Colony, whose faith in the North's potentiality and persistence in the trying years have been amply rewarded.

A contemplated paper mill and a further development of the pulp industry at this point assure a larger community and a local market for the settlers' products. This situation is but typical of other points in the Great North.

While the appalling fire of October, 1922, that ravaged an extensive area in the fine farming section of the Southern Clay Belt traversed by the Temiskaming and Northern Ontario Railway, resulted in severe losses, the sufferers, through well directed Government and other organized effort, are rapidly recovering. The fire-swept centres are fast rising from the ruins of but a year ago and the substantial building programme already carried out with the projects under way indicates clearly the indomitable energy of the people and their unending faith in Greater Ontario.

CLERGY.

Under this heading the sum of but \$134 was received on old sales. This source of revenue has been practically exhausted as nearly all old sales have been cleared up.

COMMON SCHOOL.

The sum of \$1,418.89 was realized from this source, but this was all on account of the payment of long-standing arrears.

GRAMMAR SCHOOL.

An occasional sale made in years gone by is consummated by the occupant of land paying up and acquiring patent. An amount of \$196 was collected in this class.

UNIVERSITY.

Lands set apart for the support of the University were sold to the extent of 3,163 acres, for \$1,806.89.

CROWN.

Agricultural and Townsites revenue amounted to \$107,900.26 while lands leased for various purposes brought a return of \$87,632.01. The total area sold and leased comprised 154,018.94 acres.

FREE GRANTS.

No additional free grant land has been opened recently, consequently the suitable areas are becoming considerably less each year. In the area of land located during the year a decrease is shown, a total number of 718 persons selecting land as compared with 1,013 last year. During the same period, however, 113 parties purchased a total area of 5,757 acres adjacent to their homesteads. A total area of 90,143 acres was located to new applicants and 54,349½ acres were patented to 411 settlers who completed their clearing and cultivation during the past 12 months.

For various reasons it is expedient in some cases for settlers to exchange lots or assign to other settlers and make new and more suitable selections. To enable more satisfactory settlement in this respect, 225 settlers assigned their holdings covering 28,080 acres.

PURCHASED LANDS.

There has been a very marked increase in the area sold during the year, from 121,817 acres last year to 138,130 acres. The number of settlers in sale territory continued to increase last year, reaching 978, while the previous year 894 settlers purchased land.

As a result of continued and systematic inspections the speculator is being eliminated, and the settler encouraged in completing settlement. It was necessary to cancel only 355 sales during the year, which is about one-third the number cancelled in 1922. Compared also with the previous year, when 140,775 acres were cancelled, it was necessary to cancel only 52,273 acres, while the increase in patents is 143, the total number being 471. This improved condition of affairs not only affects local conditions but very materially assists municipal organizations and community life generally.

RANCHING LANDS.

The ranching industry is somewhat on the increase. Last season was exceptionally dry with the result that sufficient winter fodder in some instances was not produced. More careful selections of grazing areas are being made of land which is naturally well watered. The sheep-raising industry is being continued, a very substantial herd being now ranched north of Cochrane on the T. & N. O. Ry. extension.

Fur-farming is also on the increase and considerable marsh areas are being acquired, particularly for the protection and propagation of muskrats. The areas leased are as follows:

Ranching.....	3,570 acres.
Fur farming.....	26,104 acres.

MILITARY GRANTS.

Under Act 1 Edward VII, Cap. 6, and amendments thereto, there have been issued 13,998 Military Certificates.

As a result of legislation last year, limiting the time in which to locate to the 30th April, 1923, a larger percentage of the outstanding certificates have been located or surrendered to the Crown.

There were 21 certificates surrendered to the Crown for the \$50 commutation money. The small number thus surrendered is accounted for by the fact that the land is worth more than the cash value of the certificate.

During the year 273 certificates have been located on 41,823 acres, making a total of 8,686 certificates actually located on land.

There were 480 acres purchased by three certificates being applied in payment thereof, making a total of 806 certificates which have been thus applied on land.

Of the locations already made under certificates 220 were covered by patents issued during the year, making a total of 7,750 which have been thus disposed of by the Department.

A large area, 15,752 acres, which had been located to 100 veterans who neglected to perform settlement duties within the time required by the Act, was cancelled and the land redeemed by the Crown.

The total number of certificates that have therefore been disposed of is 12,802, leaving 1,196 that are still outstanding.

ACCRUALS AND COLLECTIONS.

The total accruals for the year's timber and pulpwood operations totalled \$3,708,410.23, although the entire revenue of the Department amounted to only \$2,693,421.14, or about one and three-quarter million dollars less than the preceding year, this being partly due, it is believed, to the inability of certain lumber firms to liquidate their assets covering the season's cut until it was too late to remit before the end of the fiscal year and also to the closing of the collecting year on time and not extending it into the following month as was the practice within recent years.

It must also be borne in mind that included in the 1922 revenue was over \$420,000 paid in by Shevlin-Clarke Co. in settlement of the legal action the then Government had taken against the Company.

The sale of Agricultural Lands and Townsites with Crown Leases, including Provincial Parks, etc., amounted to \$209,535.85; Casual Fees \$1,858.41; Refund Items \$96,595.44. From the Woods and Forests the Revenue was \$2,385,431.44, made up of the following items: Bonus \$931,013.87; Timber Dues \$1,152,068.90; Ground Rent \$97,545.08; Transfer Fees \$7,915.15; Fire Protection \$196,888.44. (See Appendix No. 4, page 24.)

It should be pointed out that timber dues outstanding at the end of the year amounted to \$2,561,405.88, in addition to \$154,804.85 for ground rent and fire charges, and as the bush operations for the ensuing season are expected to be equally as large as during the last it is confidently predicted that the revenue column will be considerably enlarged next year. While the uncollected revenue from timber operations may be regarded as high it must be remembered that the Crown holds as collateral at the end of the year, in the form of cash deposits alone, some \$1,979,121.20, without regard to additional protection in the form of personal and Guarantee Company bonds.

DISBURSEMENTS.

The total expenditure, less Civil Government, of the Department for all services (exclusive of those rendered under the Northern and North-Western Ontario Development Acts, for which see Appendices Nos. 40 and 41), was \$3,621,233.95. Some of the more important items were: Crown Lands Agents' Salaries and Disbursements \$23,437.99; Homestead Inspectors \$27,032.24; Crown Timber Agents \$42,873.05; Fire Ranging \$1,067,202.22; Forest Ranging and Measurement of Timber \$487,046.91; Reforestation \$214,547.12; Algonquin Provincial Park \$46,747.67; Quetico Provincial Park \$10,870.55; Rondeau Provincial Park \$14,377.72; Surveys \$168,277.80; Colonization Roads \$827,855.98; Commissions re Sundry Investigations \$28,518.90; Litigation of Constitutional and Other Questions \$18,047.93; Special Warrants \$424,387.02; Clearing Townsites and Removing Fire Hazards \$99,896.73. (Additional details are found in Appendix No. 6.)

The entire expenditure for the year ending 31st October, 1922, as set out in the Public Accounts for that year, was \$4,649,622.28 for all services operated and controlled by the Department of Lands and Forests, while the Expenditure for the year just closed on 31st October, 1923, is slightly over seven million dollars, or a total increase in round figures of \$2,405,000.

This increase is made up as follows, round figures being used in each case:

Outside Service and Surveys	\$ 715,000
Colonization Roads	156,000
Northern Development Branch Statutory Expenditures	1,188,000
Special Warrants	346,000

\$715,000—*Outside Service and Surveys.*

Over 50 per cent. of this increase is due to an extension to the Fire-ranging Vote. During the past year the timbered areas of the Province were visited by unprecedented fires and the entire outside fire organization had to be largely augmented and special provision made to meet emergent conditions and unexpected demands were thereby made upon the Crown.

Forest-ranging: Over 25 per cent. of the increase is due to the additional expenses involved in paying the scalers, all of whom are now appointed and supervised by and under the direct control of the Government represented by the Department. But while this increase is shown the fact remains that a large percentage—over half—of this money ultimately comes back as revenue to the Crown, because under the system obtaining the timber operators in some instances return the full 100 per cent. and in others 50 per cent., according to contract, of the scalers' expenses to the Crown.

Clearing townsites of fire hazards accounts for \$90,000. Surveys of townships, the running of meridian lines, etc., required \$13,000 beyond last year.

Reforestation cost over \$60,000 beyond the previous year, this being due to the adding of two new forest stations and properly equipping them, and also enlarging by several millions the nursery stock of the forest station at Norfolk.

\$156,000—*Colonization Roads.*

Increased requests for direct and by-law grants for colonization roads to provide for the township needs required over \$150,000 in excess of the year 1922.

\$1,188,000—*Northern Development Branch.*

This by far is the biggest increase in the expenditure under the jurisdiction of the Department of Lands and Forests it being provided for by Statutory enactment, the Government enactment being the Northern and Northwestern Development Act. This additional amount was devoted to the building of new trunk and lateral roads, making permanent improvements to old ones—the putting in of culverts, and the general supervision of roads in the north country; persistent and insistent demands emanating from the newer sections were emphasized by reference to the extensive expenditures on the public highways in old Ontario and to the claims that older Ontario was being more favoured than the newer part; the encouragement of settlement, the promotion of industry and the general desire to link up the various settled portions in the North with connecting roads, prompted, no doubt, the added expenditure in the road items. In addition to the increased expenditure on roads generous relief was granted to the settlers in the way of supplying seed and furnishing necessaries subsequent to the great fire in the fall of 1922. This catastrophe increased the expenditure under the heading of assistance to settlers, which is included in the Northern Development expenditure, by over \$275,000. Farm implements have been purchased and supplied to the fire sufferers on standing collateral.

\$346,000—*Special Warrants.*

The increase in Special Warrants of over \$300,000 is more than accounted for by a Special Warrant of \$400,000 having been passed as the result of a surrender from and a treaty with the Mississauga and Chippewa Indians covering some 21,000 square miles in the northern part of old Ontario, to which area the Indians claimed title, no surrender ever having been made to the Crown. Under a special agreement made in May, 1923, between the Provincial and

Dominion Governments a Commission was appointed and empowered to get surrenders and execute Treaties, which has been done on the basis of a compensation of \$500,000, of which \$100,000 is yet to be paid.

BUSH OPERATIONS.

Logging: Evidences of an improved tone in the lumber market, following the somewhat pessimistic outlook in 1921 and part of 1922, and of an assurance that dealers contemplate a continued demand for building material are reflected in the bush operations during the past season.

The output of pine, the basic log timber from Crown Lands for sawlogs, boom and dimension timber, approximated 325,000,000 feet B.M., or over 75,000,000 feet B.M. more than the previous year, while sawlog timber, other than pine, was cut to the extent of 50,000,000 feet B.M., possibly 13 per cent. less than the preceding season. A considerable increase is recorded in the cut for piling purposes.

Pulpwood to the extent of over 400,000 cords was cut from Crown Lands during the last fiscal year as against less than 300,000 cords for 1922. In addition over 200,000 cords were cut free of dues, this coming from settlers' lands.

PULPWOOD INDUSTRY.

New mills opened at Kenora, where the Backus Company have an installed daily capacity of eighty tons, and at Kapuskasing, where the Spruce Falls Company are producing seventy-five tons pulp daily. At Kenora a paper mill is being built to be operated in connection with the pulp mill, while at Kapuskasing the Company is contemplating the erection of a paper mill.

Operations are under way at Fort William towards the erection of pulp and paper mills by the Great Lakes Company, while extensions have been made on the plant at Nepigon formerly held by the Nepigon Fibre Company but now controlled by Guaranty Investment Corporation, Limited, who will reopen the mill on a sixty-ton daily capacity basis.

The completion of the new mills at Fort William and Nepigon and the determined efforts of the Fort William Pulp and Paper Company, the Thunder Bay Company and Provincial Paper Mills at Port Arthur, to continue operations to their limit, assure a permanency to the pulpwood industry at the head of the Great Lakes and makes certain a ready market in the near future for the full development of the great hydro power at Cameron Falls on the Nepigon River.

A new and important pulpwood industry is being projected by the Continental Wood Products, Limited, at Elsas, on the Canadian National Railway, some two hundred miles west of Sudbury, where the Company are obliged to erect a kraft-mill, which will consume, not only spruce and balsam but much of the poplar, tamarac, jackpine, etc., hitherto unmarketable. A large sawmill is now in operation and the pulp plant will probably be completed by the end of the year 1924, as the site has been selected and plans put under way for the starting of construction in the spring of 1924.

The establishing of this industry is in pursuance of an agreement made between the Crown and the Company on the 10th July, 1923, as the result of the purchase by the Company under public competition of an area of 1,049 square miles, situated in the watershed of the Trout and Chapeau Rivers in the Districts of Sudbury and Algoma. A 75 ton kraft pulp mill employing an average of 100 persons for 10 months of each year, and costing at least one and

one-half million dollars, must be in operation before June 1st, 1925, and a paper mill of at least 35 tons capacity when the Crown directs. (For Agreement see Appendix No. 46, page 228.)

To enable the Spanish River Pulp and Paper Mills, Ltd., now operating three large mills at Sault Ste. Marie, Espanola and Sturgeon Falls, to have additional raw material to supply their existing concerns or extensions thereof or additions thereto, a special agreement was made with the Company under the Crown Timber Act whereby an area approximating 3,000 square miles in the Districts of Algoma and Sudbury was granted. The agreement was made 15th May, 1923, and certain prices fixed by Order-in-Council, 13th September, 1923, such prices, however, to obtain for two years only. (See Appendix 44, page 219.)

Under date of the 12th July, 1923, an agreement was made between the Crown and the Abitibi Power and Paper Company for an area of 2,500 square miles more or less in the District of Cochrane. This Company owns and operates at Iroquois Falls, on the Abitibi River, a large pulp and paper mill of a daily output of 400 tons newsprint, and consistent with a desire to ensure continuous operation and the employment of a large number of workmen, the Crown granted this additional area, the agreement to be approved and prices fixed by Lieutenant-Governor in Council. (For copy of said agreement see Appendix 45, page 224.)

For a complete list of timber sales throughout the year and the prices received see Appendix No. 43, page 208.

There are several Crown Timber Agencies throughout the Province and as no regular audit or inspection of their office records or methods was in force it was found necessary to appoint an official to discharge this duty. As the varied operations throughout the forest regions of the Province have become most extensive and each District Agent is restricted to his own territory it was deemed advisable for the purposes of establishing reasonable uniformity and properly correlating the different operating services to have a general supervisor of bush operations. It was considered in the interests of economy and efficiency that the dual responsibilities of inspecting agencies and supervising operations could be exercised by the same individual; consequently an official was duly appointed in the person of Major J. I. Hartt, a practical bushman of long and wide experience, who is now functioning with good results.

GENERAL.

Timber surveys and cruises were continued with a view to estimating the timber wealth, air craft being utilized in collaboration with land parties. Important cruises were made in the Nipigon Forest Reserve to acquire first-hand knowledge of the timber and watershed situated there to enable the Department to more readily deal with the important and varied questions arising at the head of the lakes with respect to continued service to and assured permanency of existing pulpwood industries, all of which are of necessity linked up to the Hydro-Electric development of this region.

Valuable detailed information was secured by the Forestry Branch through the air service in conjunction with land parties, on the Mississauga Forest Reserve. The residents of the north shore of Lake Huron and likely investors are keenly interested in the future development of the great natural resources of this reserve, and the inventory now being made will be utilized in reaching a conclusion on the best methods of handling the resources.

The fire-ranging staff was faced with a herculean task the past year by reason of the abnormal drought that continued uninterruptedly in certain

regions. Considerable areas were burnt, but fortunately these cannot be charged as a distinct loss to the Crown, as sales were made of scorched and burnt limits on reasonably fair prices in order that the timber might be cut and removed before becoming uncommercial. Complete statements of the fire ranging operations may be found under its own appendix.

Lands under License: The area covered by Timber License where the holder pays regulation ground rent and fire charges at the end of the year, 31st October, 1923, was 817,768³/₄ square miles.

Pulp Concessions: Area covered by pulp concessions exclusively amounts to 36,938 square miles, on which fire charges at the rate of \$3.20 per square mile are payable.

SUMMARY OF TIMBER REVENUE.

Bonus.....	\$931,013 87
Timber Dues.....	1,152,068 90
Ground Rent.....	97,545 08
Transfer Fees.....	7,915 15
Fire Protection.....	196,888 44
	\$2,385,431 44

CULLERS' EXAMINATION.

Examinations for Cullers' Licenses were held in August, at Callander, Thessalon and Kenora, when 26 candidates succeeded in passing, each being thereafter entitled to act as culler under the Act. A list of the successful candidates may be seen in Appendix No. 9, page 35.

A large percentage of candidates were rejected, due in some measure to the candidates' inability to pass the practical test in the scaling of logs where deductions due to defects are necessary. Numbers coming from pulpwood regions with but little knowledge of and no experience in pine, though skilled in measuring pulpwood, fail in the pine examination.

As the Department has found difficulty at times in getting qualified scalers for pulpwood without reducing the pine staff, provision will be made by an amendment to the Ontario Cullers' Act to enable a candidate to secure a pulpwood license.

CROWN SURVEYS.

Surveys of Crown lands in the northern part of the Province consisting of base and meridian lines, township boundaries, lake and river traverse, have been carried on in compliance with the several instructions issued.

Town plot subdivisions of land patented since 1910 have been approved pursuant to R.S.O. 1910, chapter 34, as follows:

Kirkland Lake Addition.—Part of mining claim T.C. 711, Township of Teck, District of Timiskaming (Wright-Hargreaves subdivision).

Swastika Addition.—Part mining claim L.4485, 4486 and 8869, Township of Teck, District of Timiskaming (Simpson subdivision).

Timmins Addition.—Part of south half lot 12, concession 3, Tisdale, District of Cochrane (Bartleman subdivision).

Timmins Addition.—Part of north part lot 2, concession 2, Mountjoy, District of Cochrane (Wilson subdivision).

MUNICIPAL SURVEYS.

Pursuant to sections 15, 16 and 17 of the Surveys Act, petitions for the resurvey of lines laid out under competent authority have been received from the Corporations of the Municipalities of:

Township of Lancaster.
Township of Harvey.
City of Brantford.
Township of Sunnidale.
City of Toronto.

Surveys performed and confirmed were:

Part of the 5th concession of Township of Williamsburg.
Part of the town line between the Townships of Niagara and Grantham.
Part of road allowance between lots 31 and 32, 1st concession, Township of Lancaster.

Detailed reports of the several surveys will be found in appendices 20 to 34, inclusive.

PROVINCIAL PARKS.

Ontario abounds in natural recreation grounds and no better evidence of its great asset in this regard is found than in those areas specifically set apart and classed as parks.

Algonquin Park, in the older part of the province, is the rendezvous of tourists both summer and winter from all parts of the continent. Its attractive features are loudly praised by all who experience its delights, and the tourist traffic resulting therefrom, with the attending circulation of money, is in itself a very important factor in the business of the country. Of still greater importance is the park from the viewpoint of fur industry and game-hunting. The large area, protected as it is by some forty government rangers throughout the entire year, has proved a veritable breeding ground for the red deer, whose supply in contiguous grounds might have long since disappeared had it not been for this haven of protection. A large restricted field like Algonquin Park, so admirably adapted for the propagation of muskrat, beaver, mink, marten, etc., assures adjoining territory of a more certain trapping ground, and as long as poachers can be successfully kept outside of the park limits, natural reproduction will result and adjacent trapping grounds will be fed.

Rondeau Park, in Kent County, picturesquely nestles itself in a peninsula of Kent county, extending into Rondeau Bay, and, for its size, some seven thousand acres, is credited with having more red deer to a square mile than any like area in the province. Its wide stretch of water beaches on both sides, with excellent bathing and boating facilities, its dreamy bowers of woodland and magnificent mixed forest, excellent tourist sites and its general exclusiveness, all tend to captivate the visitor who becomes a summer resident by securing a lease from the Crown.

Quetico Park, containing over one million acres, is situated in Rainy River, on the international boundary, and is the home of the finest quality of a red and white pine stand. Timber operations are being conducted on a basis of a brush-burning experiment in the hope of assuring a regrowth under favourable conditions. Hunting and trapping is forbidden in the park, and the care and protection thus afforded the animals conduce towards the rehabilitation of the surrounding hunting and trapping grounds.

In the display at the Canadian National Exhibition held last year, the Department transplanted a small corner of park life from Northern Ontario to Toronto, where thousands viewed it with pleasure and profit.

COLONIZATION ROADS.

On this service \$827,855.98 was spent, or \$156,671.50 beyond that of the previous year. Commitments respecting direct grants along with by-law requests made early in the year had to be met. The construction and maintenance expenditure for Colonization Roads is a direct benefit to those portions of the country receiving no benefit from the Provincial Highway system. For the details of road and bridge construction and the expenditure under this head see Appendix No. 38.

NORTHERN DEVELOPMENT BRANCH.

Approximately three and one-third million dollars was spent under this Branch during the past year, the details of which, with respect to the construction and maintenance of roads and bridges and the advancement of settlement and colonization, will be found on pages 125 to 158 inclusive, while the details of loans issued to settlers are on pages 159 and 160.

FORESTRY BRANCH.

FOREST FIRE PROTECTION.

Last season developed one of the most serious forest fire losses since 1917.

This was owing to the very dry condition prevailing throughout Northern Ontario in the autumn of 1922, so that the spring of 1923 opened with practically no water in the swamps. In some of the outlying regions no rain occurred to influence the situation until July. This dry period entailed the placing of a large number of men on the staff at an early date, and owing to the serious weather conditions in late September the staff was kept on much later than usual.

Weather conditions accounted for a large increase in the expenditure on ordinary ranging. It also accounted for over \$100,000 additional cost in extra fire-fighting.

Of 1,343 fires occurring during the season, 670 did not get beyond ten acres in size, while 932 did not get beyond 100 acres in size. The total acreage burned over of all classes was slightly over 2,000,000 acres, of which 593,000 was timber land.

Improvement Work: During the last season the outstanding lines of improvement work carried out was the erection of six permanent steel lookout towers, and 23 wooden towers, making in all 117 towers erected to date in Northern Ontario,

Telephone lines were built to connect up lookout points. In all some 300 miles was constructed during the last season. This gives us 636 miles of telephone line now completed in Northern Ontario in connection with forest fire protection.

Equipment: In addition to the ordinary equipment purchased during the past season, the Department invested in 54 portable gas engines and pumping units with 2,000 feet of hose for each. These pumping units are found to be indispensable in connection with handling the forest fire situation. In many districts this past season they saved the situation.

Of our increased expenditure about \$60,000 was expended on these fire fighting units. We now have 88 units in use. Part of the increased expenditure

required this season was in the replacement of blankets and tents used to supply the fire sufferers in the Haileybury district during the previous autumn.

Forest Survey: Continuing the plan of a general forest survey of the province, the Forestry Branch during the past season conducted forest survey work over two areas, comprising 9,200 square miles.

The preliminary work of making an aerial sketch map of the eastern portion of the Nipigon watershed was completed during the past season. This entailed the covering of an area of about 4,800 square miles, and required 104 hours' flying.

An additional area, comprising the northern portion of the Mississagi Forest Reserve, was completed during the past season, covering an area of 1,400 square miles with an aerial survey combined with detailed ground party work. (See Appendix No. 42.)

REFORESTATION.

Provincial Forest Stations: The development at the Provincial Forest Stations has gone on during the past season in a normal way with a few improvements. At the Norfolk Station a seed-extracting plant was established. At Midhurst Station, Simcoe County, main buildings were erected, and ground broken for a nursery site. Preparations were made for a water system and it is expected that this coming summer the nursery organization will be well under way.

Nursery Stock: The following is a summary of the nursery stock, including one-year-old seedlings and transplants, growing at the various forest stations:

Norfolk County (St. Williams).....	16,411,230
Durham County (Orono).....	3,454,600
Simcoe County (Midhurst).....	2,093,000
Hendrie.....	1,511,000
Sand Banks.....	1,449,000
Kemptville.....	300,000
Total.....	25,218,830

Plantations: The distribution of planting material for various purposes was continued during the past season and the grand total of plants put out in various forms of planting amounted to 1,911,068.

Seed Collecting: The past autumn was a splendid year for the collection of red pine cones. It was usually difficult to secure seed of this tree in large quantities, but during the past autumn a large amount of cones was collected, so that we will be guaranteed red pine seed for the next two or three years.

JAS. LYONS,
Minister.

Department of Lands and Forests,
Toronto, October 31st, 1923.

APPENDICES

Appendix No. 1.
Return of Officers and Clerks of the Department of Lands and Forests, for the year ending October 31st, 1923.

Branch.	Name.	Designation.	When Appointed.	Salary per annum.	Remarks.
Solicitors Branch.	Hon. James Lyons	Minister	1923, July 16	\$6,000 00	
	Hon. B. Bowman	Minister	1919, Nov. 14	6,000 00	
	W. C. Cain	Deputy Minister	1903, Mar. 1	5,100 00	
	F. J. Niven	Minister's Secretary and Secretary to Department	1897, May 27	3,000 00	Transferred from Files Branch, October 8, 1923.
	A. Ferguson	Assistant to Deputy Minister	1913, Dec. 15	2,700 00

Appendix No. 9.

CULLERS' EXAMINATION.

Three examinations were held during the year, one at Callander, one at Thessalon and one at Kenora, on the 29th day of August, 1923.

Twenty-six candidates were successful in passing the examination, and were duly granted licenses authorizing them to act as cullers.

List of parties who passed the Cullers' Examination on the 29th day of August, 1923, and were duly granted licenses on the 10th day of September, 1923.

Name	Address	Place of Examination
Bissonnette, J. A.	Fort Frances	Kenora.
Colley, John W.	Sturgeon Falls	Callander.
Cowan, S.	Port Arthur	Kenora.
Carnihan, H. M.	Fort Frances	Kenora.
Cameron, N. S.	Stratton	Kenora.
Graydon, J. C.	Kenora	Kenora.
Gillies, J. P.	Blind River	Thessalon.
Horn, J. M.	Kenora	Kenora.
Hooper, W. A.	Kenora	Kenora.
Hook, D. E.	Kenora	Kenora.
Johns, C. H.	Sudbury	Callander.
Kennedy, Thos. J.	Lakefield	Callander.
Kennedy, James Stanley	Thessalon	Thessalon.
Knight, George E.	Pakesley	Callander.
	(License issued Jan. 4, 1924.)	
L'Abbe, Philip	Port Arthur	Kenora.
Lacasse, P. D.	Port Arthur	Kenora.
McMillan, F. J.	Blind River	Thessalon.
McGillivray, James A.	Blind River	Thessalon.
Nault, Thos.	Sault Ste. Marie	Thessalon.
Ruxton, James	Pakesley	Callander.
	(License issued Nov. 29, 1923.)	
Sutherland, J. W.	North Bay	Callander.
Spence, S. D.	Espanola	Callander.
Shaw, Allan	Keewatin	Kenora.
Shrumm, W. F.	Stratton	Kenora.
Snider, Roy	37 Emmerson Ave., Toronto	Thessalon.
Waller, Thos. F.	North Bay	Callander.

P.S.—Conway, Harold, Barry's Bay, examined at North Bay; Jones, W. J., 107 Marchmount Road, examined at North Bay; who presented themselves for examination in 1921, were granted Culler's License after obtaining further experience of one year, the former on the 16th August, 1923, and the latter on the 18th April, 1923.

JOHN H. HOUSER,
Chief Clerk.

W. C. CAIN,

Appendix No. 15.

HONOURABLE JAMES LYONS,
Minister of Lands and Forests,
 Toronto, Ont.

Sir,—Surveys were carried out under instructions from this department during the past year comprising the running of approximately 200 miles of base and meridian lines; 600 miles of township outlines; 2,000 miles of lake and river traverse, subdivision of two townships into lots and concessions and various timber and other miscellaneous surveys.

BASE AND MERIDIAN LINES

Phillips & Benner, Ontario Land Surveyors, Port Arthur;
 K. G. Ross, Ontario Land Surveyor, Sault Ste Marie, Ont.,
 were engaged on base and meridian line work in the territory west of the Nepigon Forest Reserve, district of Thunder Bay, north and south of the Canadian National Railway.

TOWNSHIP BOUNDARIES

J. W. Fitzgerald, Ontario Land Surveyor, Peterborough;
 Charles V. Gallagher, Ontario Land Surveyor, South Porcupine;
 McAuslan, Anderson & Moore, Ontario Land Surveyors, North Bay;
 Sutcliffe & Neelands, Ontario Land Surveyors, New Liskeard;
 Speight & VanNostrand, Ontario Land Surveyors, Toronto;
 H. J. Beatty, Ontario Land Surveyor, Pembroke,
 were engaged on the survey of township boundaries in the districts of Sudbury, Cochrane and Algoma.

T. J. Patten, Ontario Land Surveyor, Little Current, subdivided the township of Mongowin, district of Sudbury.
 G. P. Angus, Ontario Land Surveyor, North Bay, subdivided the westerly part of the township of Thorning, district of Cochrane.

LAKE AND RIVER TRAVERSE

James S. Dobie, Ontario Land Surveyor, Thessalon, traverse of English River, district of Kenora.
 R. S. Kirkup, Ontario Land Surveyor, Port Arthur, traverse of Minnie-takie Lake and Big Sandy Lake, district of Kenora.
 C. R. Kenny, Ontario Land Surveyor, Sault Ste Marie, traverse of Moose River, district of Cochrane.
 J. T. Coltham, Ontario Land Surveyor, Parry Sound, traverse of part of Kabinakagami River, districts of Algoma and Cochrane.
 T. G. Code, Ontario Land Surveyor, Cobalt, traverse of part of Kabinakagami River, district of Cochrane.
 D. J. Gillon, Ontario Land Surveyor, Fort Frances, traverse of Seine River, district of Rainy River.
 C. H. Wilkins, Ontario Land Surveyor, Hastings, traverse of Canoe and Smoke Lakes, in Algonquin National Park, district of Nipissing.
 Lang & Ross, Ontario Land Surveyors, Sault Ste. Marie, traverse of part of Sturgeon River and Upper English Rivers, district of Kenora.

TIMBER BERTH SURVEYS

- Timber line in Township 9 Z, district of Sudbury, by J. W. Fitzgerald, Ontario Land Surveyor, Peterborough.
- Timber lines in the township of Kittson and east of the township of Brigstocke, district of Timiskaming, by Sutcliffe & Neelands, Ontario Land Surveyors, New Liskeard.

MISCELLANEOUS SURVEYS

- Survey of summer resort parcels on Rama Island and also on islands near mouth of the Severn River, by C. E. Fitton, Ontario Land Surveyor, Toronto.
- Survey of summer resort parcels at Bruce Beach in the township of Huron, county of Bruce, by E. D. Bolton, Ontario Land Surveyor, Listowel.
- Survey of parcels of land at Severn River, crossing Canadian Pacific Railway, township of Matchedash, county of Simcoe, by L. D. N. Stewart, Ontario Land Surveyor, Toronto.

C. E. Fitton, Ontario Land Surveyor, Toronto, carried on the inspection of survey work in the field during the past season.

Detailed reports of the several surveys for which returns have been made during the year will be found in Appendices 20 to 34, inclusive.

L. V. RORKE,
Director of Surveys.

Toronto, October 31st, 1923.

Appendix No. 16

Statement of Municipal Surveys confirmed during the twelve months ending October 31st, 1923.

No.	Name of Surveyor	No.	Date of Instructions	Description of Survey	Date when confirmed under Ont. Statutes 1920, chap. 48, sec. 11-18, inclusive
1	George L. Brown..	720	July 2, 1919.	To survey the road allowance between the 4th and 5th concessions of the township of Williamsburg across lots 10, 11 and 12, in said township, and that stone or other durable monuments be placed to mark the boundaries of the same.	June 30, 1923.
2	Frank N. Rutherford.....	731	Aug. 24, 1922	To survey the road allowance between the townships of Grantham and Niagara, extending from the Queenston and Grimsby Provincial Road to the lake shore road, and to plant durable monuments to mark the said road allowance as set out herein.....	July 16, 1923.
3	E. T. Wilkie.....	732	Nov. 22, 1922	To survey the original road allowance between lots 31 and 32 in the 1st concession of the township of Lancaster, county of Glengarry, from the Provincial Highway south to the St. Lawrence River, and to plant standard iron monuments to mark the said original road allowance.....	July 7, 1923.

L. V. RORKE,
Director of Surveys.

W. C. CAIN,
Deputy Minister of Lands and Forests.

Appendix No. 17

Statement of Municipal Surveys for which instructions issued during the twelve months ending October 31st, 1923.

No.	Name of Surveyor	No.	Date of Instructions	Description of Survey
1	E. T. Wilkie	732	Nov. 22, 1922	To survey the original road allowance between lots 31 and 32 in the 1st concession of the township of Lancaster, county of Glengarry, from the Provincial Highways south to the St. Lawrence River and to plant standard iron monuments to mark the said original road allowance.
2	Oliver Smith	733	Mar. 19, 1923	To survey the original road allowance between the 13th and 14th concessions across lot 21, in the township of Harvey, county of Peterborough, and plant standard iron monuments to mark the limits of said road.
3	Roger M. Lee	734	June 2, 1923.	To survey that part of the city of Brantford, in the county of Brant, lying between the westerly side of Rawdon Street and the centre line of Stanley Street and between the southerly side of Colborne Street, and the lands of the corporation of the city of Brantford on the north and to plant durable monuments to mark the several street lines within this described limit.
4	A. G. Ardagh	735	June 22, 1923	To survey the line between the 15th and 16th concessions of the township of Sunnidale and the road allowance between lots 3 and 4, 6 and 7, 9 and 10 in the 16th concession.
5	Speight & Van Nostrand	736	Aug. 22, 1923	To survey the street known as Spadina Crescent in the city of Toronto, in the county of York, as shown on registered plan D 33.

L. V. RORKE,
Director of Surveys.

W. C. CAIN,
Deputy Minister of Lands and Forests.

Appendix No. 20

SURVEY OF TOWNSHIP 9 Z, DISTRICT OF SUDBURY

PETERBORO, ONT., December 7th, 1923.

Sir,—I beg to report that, agreeable to your instructions dated August 30th, 1923, I have completed the survey of the line between the east and west halves of township 9 Z in the district of Sudbury and beg to submit herewith plan—timber plan, field notes and accounts, all of which I trust will be found satisfactory to your department.

I commenced the survey at an iron post planted by myself earlier in the season to mark the three-mile point on the north boundary of the township 9 Z and from this point I ran due south astronomically six miles, three chains, and seventy-six links where I intersected the north boundary of the township 8 Z, surveyed by Ontario Land Surveyor James Dobie in 1913. As I had taken an observation on Polaris for azimuth on June 27th last at a point just eleven chains and sixty-three links east of my present starting point—particulars of which I have given in the accompanying field notes. I did not think it necessary to observe again at the exact starting point. The country south, for the first thirty-three chains and twenty-five links, is rocky and was burnt over in the year 1921 and there is now on the ground standing and fallen dead spruce—Banksian pine, white birch and poplar with small poplar springing up. At the above-named point we reach the green timber consisting of spruce from ten to twenty inches in diameter, white and yellow birch and Banksian pine up to sixteen inches in diameter, and a fair quantity of white pine running from ten to thirty inches in diameter, the above size and class of timber, with the exceptions of very small patches of swamp and brule, continues to the end of the line. The country is of a very rolling rocky character and is absolutely devoid of agricultural land, but to my idea contains much valuable white pine and other classes of timber. We had snow and a very hard frost on the 13th of September, the weather continuing cold and cloudy for the balance of the work, so that I was unable to get another observation. I am glad to report, however, that according to my own chainage on the north boundary of township 9 Z, and that of Mr. Dobie's on the north boundary of the township 8 Z, I have succeeded in practically dividing the township into east and west halves.

I have the honour to be, Sir,

Your obedient servant,

J. W. FITZGERALD,

Ontario Land Surveyor.

*To the Honourable Minister of Lands and Forests,
Toronto, Ontario.*

Appendix No. 21

SURVEY OF PORTION MISSISSAGA RIVER

LITTLE CURRENT, ONT., February 21st, 1923.

Sir,—I have the honour to submit to you the following report on the survey of a portion of the Mississaga River which I have made in accordance with instructions from your department, dated April 26th, 1922.

I left here on June 3rd, by motor boat, with a part of my party and on arrival at the mouth of the Mississaga River engaged more canoemen.

Aubrey Falls, Mississaga River.

Going up a heavy rapids on Mississaga River.

I started the work near mining location No. 3 in Gladstone township and on the completion of that section of it proceeded up the river to find the next starting point, the east limit of the township of Otter. Although we watched carefully for that line we missed finding it partly through underestimating our speed. When we finally located our position the camp had gone well up into Berth F, so I decided to complete the survey of that portion on our return down the river. On the completion of the work through Bark Lake and up to the intersection of the north boundary of Berth T, the north boundary of the Mississaga Forest Reserve, we found that on account of the very low water it

was unadvisable to return down the Mississaga and returned by the canoe route to Biscotasing and railway to Little Current where we arrived on the 26th of September.

As directed, posts, numbered and properly marked, were planted well above flood water at intervals not exceeding about one mile and at every lot or township line which we found. The posts are all of cedar with the exception of a few tamarac ones where cedar was not convenient. Where there was soil a hole for the post was dug about two feet deep and where loose stones were to be found, a cairn or mound, usually four to five feet wide at the base, was built around the post. The cairns are noted in the field notes.

On the heavy rapids or falls levels were taken to ascertain the fall. On all considerable falls of water check levels were also made.

There is considerable white and red pine and in places there appears to be an enormous quantity of it as indicated in the notes. The kind and size of timber and brule country was carefully noted throughout.

On nearing Bark Lake a good deal of tamarac up to six inches in diameter was observed.

Along the whole course of the river and lakes the soil is sand and sandy loam and gravel with occasional beds of cobble stone. In only one or two places was any clay subsoil noticed. There are no great tracts of farming land.

Away from the river and occasionally along the river there are rocky hills and ranges of rocky hills from 50 feet to 200 or 300 feet high.

Minisinokwa, Lower Green and Bark Lakes which we surveyed, are very attractive and contain many desirable islands. The hills around those lakes are mostly well timbered and slope beautifully down to the waters. There are also many fine sand beaches on those lakes.

With the returns I am forwarding a number of films of photographs made of some interesting spots in the country traversed.

I have the honour to be, Sir,

Your obedient servant,

T. J. PATTEN,

Ontario Land Surveyor.

*To His Honour, Minister Lands and Forests,
Toronto.*

Appendix No. 22

SURVEY OF SHORE LINE AND ISLANDS, LAKE OF THE WOODS,
DISTRICT OF KENORA

FORT FRANCES, ONT., February 24th, 1923.

Sir,—I have the honour of submitting this report on the traverse survey of the shore line and islands in the southern part of Lake of the Woods, made under instructions from the Department of Lands and Forests, dated May 18th, 1922.

This survey being a continuation of that made in 1921, was conducted on the same system, the original surveys made by the Dominion Government forming the basis: the surveys on the ground and the plans thereof being prepared to correspond with ranges 22, 23, 24, 25 and 26, east of the principal meridian.

The survey was commenced immediately after the receipt of instructions, the main shore traverse commencing at a post marked 12 M. planted at the end of the traverse made in 1921. This post is at the westerly extremity of the peninsula between Stoney Portage and Stevens Bay, which form part of Sabaskong Bay.

The various islands were traversed in the usual manner:—polaris observations being taken during the course of the work—observations at elongation were taken at all main observation stations, while time observations, based on the tables supplied by the department, were taken at various points on the traverse as the work progressed.

In making the traverse of the main shore separate traverses were made of the different parts, Turtle Lake and Obabikon Lake being also kept separate. The fixed notes have been prepared for each of the divisions separately as follows:

1. *Stevens Bay*—From the 12 M. post at the end of the 1921 traverse to a point nearly due north therefrom.

2. *Sabaskong and Button Bays*—From the end of the traverse No. 1 to an iron post marking the west extremity of the south boundary of I. R. 35 B, omitting Turtle Lake.

3. *Turtle Lake*.

4. *Obabikon Lake South*—Commencing at the end of traverse No. 2 ending at the end of traverse No. 5.

5. *Obabikon Lake North*—Commencing at an iron post marking the south west angle I. R. 35 B, thence to the end of traverse No. 4.

6. *Miles Bay*—From the same point of commencement as No. 5 to the end of the season's work.

Mile posts were planted continuously from 0. miles at the aforesaid 12 M. post on traverses 1, 2 and 5, except when the traverse crossed Indian reserves on which the posts were omitted—traverse 3, 4 and 5 were posted separately.

Continuous traverses were run through the islands, connecting with the main shore traverse and with various points on the traverse made in the previous season. The whole system finally closing on a post planted in 1921 at station 68 on the traverse of Dawson Island—G. 1793.

During the progress of the survey the courses and distances of the traverses were worked out by latitude, and departure in the same manner as in 1921, while the island traverses were plotted, and any errors detected were rectified by re-reading angle and distances until the traverse closed satisfactorily.

Plans and field notes have been prepared in the same manner as those of last season; island description and acreage being shown on each plan.

In some general descriptions of the islands given in 1921 holds good for this season's work. There are many very fine islands for summer resort purposes, on nearly all of which there is valuable white, red or Jack pine timber.

There was no delay in the season's work from heavy wind. The survey was held up for a day or two in October on account of very dense smoke from forest fires, principally in Minnesota.

The plans being prepared in accordance with the original ranges, should be joined to those of last season with no difficulty.

I have the honour to be, Sir,

Your obedient servant,

D. J. GILLON,

Ontario Land Surveyor.

Honourable Minister of Lands and Forests,
Toronto, Ontario.

Appendix No. 23

SURVEY OF LAKES AND RIVERS, DISTRICT OF TIMISKAMING

COBALT, February 28th, 1923.

Sir,—In obedience to your instructions, dated July 25th, 1922, to traverse certain lakes in the district of Timiskaming, I have the honour to report as follows:

ROUTINE OF WORK

The work was commenced with the survey of Reuben Lake on August 7th. Completing this survey we moved camp on August 14th to Redwater Lakes. Surveyed Rankin Lake, Upper and Lower Redwater Lakes and moved to Boyce Lake on August 23rd. On September 3rd, we moved to Wicksteed Lake and carried on with the survey of this lake to the south boundary of the township of Kenny, completing the survey and moving to Cobalt on September 23rd.

The following is the mileage of traverse:

Reuben Lake.....	13	miles.
Rankin Lake.....	4 $\frac{1}{2}$	"
Upper and Lower Redwater Lakes.....	10 $\frac{1}{4}$	"
Royce Lake.....	16 $\frac{3}{4}$	"
Wicksteed Lake.....	58 $\frac{3}{4}$	"
Total.....	102 $\frac{3}{4}$	"

METHOD OF SURVEY

The method of survey was the same as in previous years, *i.e.*, transit and stadia. Particular attention was taken in the blazing and marking of trees on islands and at about one mile intervals along the shore.

In cases where township lines crossed the lakes they were properly posted at one chain in perpendicular width from the shore. Bearing trees were marked and both posts and bearing trees are shown in the plans and field notes.

DESCRIPTION OF LAKES

Reuben, Rankin, Upper and Lower Redwater and Boyce Lakes are all very similar as to shore line. The shore line being fairly high and mostly rocky. The timber differs somewhat. This is shown on the plans.

Wicksteed Lake, this being farther south than the lakes previously mentioned, the overburden along the shores is heavier and in many places is a good clay loam—most suitable for farming. The country around the lake has been timbered over for years. There is a very extensive brule to the east of the north part of the lake, apparently running a little to the east of south. I walked over six miles through this and it continued farther. The plan shows the timber close to the shore at different parts of the lake.

Owing to the lake level being raised, we had considerable difficulty at some places in making the survey. This was more or less overcome by having the rodman take compass shots through the flooded timber from the several points on which he gave me readings, estimating as nearly as possible the distance

to the shore. These are shown in the field notes, but are not shown on the plans, as they are not measured distances. The points at which stadia shots were taken are marked with blue chalk on the trees and if it is required actual measurements may be taken any time in the winter.

Accompanying this report are:

Plans—Reuben Lake, Rankin Lake, Upper and Lower Redwater Lakes, Royce Lake, Wicksteed Lake.

Diary.

Field Notes—one book containing all notes.

Time book.

The above is respectfully submitted.

I have the honour to be, Sir,

Yours obedient servant,

T. G. CODE,

Ontario Land Surveyor.

Cobalt, Ontario, February 28th, 1923.

Appendix No. 24

TRAVERSE PART OF ENGLISH RIVER, DISTRICT OF PATRICIA

THESSALON, ONT., April 24th, 1923.

Sir,—In accordance with your instructions, date April 18th, 1922, I spent the summer of 1922 in making a traverse of part of the English River and lake expansions of the same, and beg to submit the following report.

The survey was commenced at the outlet of Lac Seul and continued down stream as far as Indian Lake where operations were discontinued for the season. A careful traverse of the main river and all lake expansions, including Mattawa River, Shallow Lake and Little Shallow Lake was made. In addition to which the survey of Trout Lake River, Cedar River, Long Legged River and Wabigoon River as far as the first falls on each of these streams.

The survey was made by the usual method of transit and stadia, controlled on some of the larger lakes by triangulations expanded from carefully chained bases. Astronomic observations were taken very frequently and bearings were checked by long control sights wherever circumstances would permit.

At frequent intervals along the shore, averaging about a mile apart, substantial wooden posts were planted in cairns of stones. Each of these posts with very few exceptions was planted at a transit station. The posts were numbered consecutively from one upwards, each post being marked with the letter P, followed by the number of the post, thus "P. No. . . ." All posts were marked with a proper scribing iron.

All islands within the limits of the survey were carefully traversed and tied to transit stations on the main shore. The islands were numbered consecutively from one upwards. Most of the islands were marked by a post set in a substantial mound of stones, the post being marked with the letter "I" followed by the number of the island, thus "I. No. . . ." In some cases an island was marked by a prominent tree blazed conspicuously and marked

in a manner similar to the posts. In cases where there were no trees and where it appeared likely that a post would be moved by ice, no distinguishing mark was left, but all such islands can be easily identified by reference to the plan of the survey.

At each of the rapids and falls where there is any possibility of future hydro-electric developments, a site was laid out to provide for such development. These sites are all large enough to control the various water powers and provide ample room for the construction of such dams, flumes, and other structures as may be necessary. The lines around these sites were not cut out on the ground, but are indicated on the plans and the proper position of these lines is marked on the ground by substantial posts in mounds of stone, erected on each of the projected lines a sufficient distance back from the shore to ensure their permanency. These posts are marked with the letters W.P.R. to indicate water power reserve.

No levels were run at any of these falls as all information regarding the heights of the different falls, flow of water, etc., had already been obtained by the Ontario Hydro Power Commission and by the Dominion Water Power Branch of the Department of Interior. In addition to this a line of precise levels has been run during the past few months down this portion of the English River by the Geodetic Survey Branch of the Department of the Interior, Ottawa.

A copy of the field plan of my survey showing the location of all monuments planted during the season was sent to the Geodetic Survey Branch last fall, in order that the standard bench marks established by their parties could be tied to the monuments planted by myself wherever possible.

The English River forms the boundary between the districts of Kenora and Patricia. It is a large stream as is shown by the fact that the discharge as determined by the Ontario Hydro-Electric Power Commission's engineers at Oak Falls, on October 19th, 1915, was found to be 9,358 cubic feet per second. There are several sites suitable for water power development on a large scale, and the large stream flow coupled with the splendid facilities for storage, render the power possibilities of this river of great importance. The Dominion Water Power Branch of the Department of the Interior has collected very complete data regarding the power possibilities of the English River and the reports are available for those who are interested.

The English River flows from Lac Seul in a general westerly and south-westerly direction. The first falls occur a couple of miles down stream from Lac Seul, where Upper and Lower Ear Falls, which are only about a quarter of a mile apart, drop twelve feet and nineteen feet respectively, giving a combined drop of approximately thirty-one feet. From Ear Falls the river continues with gentle current for a distance of about fourteen miles to Camping Lake. This lake is over two miles across and a short distance below the lake the river breaks through a narrow gorge less than a chain across at Manitou Chute, where there is a drop of three and a half feet. A quarter of a mile down stream is situated Manitou Falls, where there is a total drop of twenty-eight and a half feet in a quarter of a mile. The combined head at Manitou Falls including Manitou Chute would be about thirty-two feet, which with the large stream flow of the English River would make a power of great importance. There is a very good site for the construction of a dam at the foot of Manitou Falls.

Between Manitou Chute and Manitou Falls, Cedar River enters from the southeast. This river was traversed for about two miles up to the first falls. The portion of Cedar River traversed is fairly wide and flows with a sluggish current through a clay country and is bordered for the most part with

grass and willow flats with hills behind timbered with large poplar, spruce, jack pine, balsam, etc.

From Lac Seul to Camping Lake the English River flows through a clay country. The immediate shore in many cases is low, particularly around the many small tributaries which flow into it, but generally speaking rises considerably a short distance back. There are some rock exposures but not many, and they are mostly covered with a heavy mantle of clay. The most prominent rock exposures are at Upper and Lower Ear Falls. The prevailing timber along this stretch of river is large poplar with much spruce and balsam throughout. For a couple of miles above Camping Lake the banks are flat and covered with grass and willows for some distance back.

About two miles above Camping Lake a large stream called the Mattawa River enters from the northwest. At the junction of the English and Mattawa Rivers, the Hudson's Bay Company formerly had a trading post which has been abandoned for some years and the buildings have entirely disappeared.

The Mattawa River flows from Shallow Lake which is situated about four miles up stream from the junction. The Mattawa River widens out in places into small lake expansions and the banks generally speaking are of clay, the general characteristics as regards both land and timber being similar to the portion of the English River above described.

Shallow Lake is about ten miles long and four wide with a long narrow bay reaching off to the west from the southwest corner of the lake for about four miles. The main axis of the lake is almost due north and south. The shores on the west side are for most part high and rocky, and in many places well timbered with spruce, jack pine, poplar, balsam, birch, etc. There is, however, quite an extensive area of burnt country on the west side about two to four miles north of the outlet. The east side is much lower and flatter than the west side and there are more shallow and muddy bays with gently sloping clay shores. Generally speaking this side of the lake is well timbered with poplar, spruce, balsam, etc.

At the north end of Shallow Lake, Red Lake River enters. This river drains a fairly extensive system of lakes of which Red Lake is the largest. The Hudson's Bay Company have an outpost on Red Lake and it is in that vicinity that silver was reported to have been discovered recently, and where considerable prospecting is now being done. The survey was carried up Red Lake River as far as the first falls, which occurs only a short distance from the mouth of the river, where a spruce post marked "P. No. 40" was planted in a mound of stones on the west side of the river. The river here drops eight feet over a ledge of rock, but it is reported that in years of exceptionally high water this fall is flooded out.

At the northeast corner of Shallow Lake, there is a shallow bay full of weeds into which empties a wide, sluggish stream which flows from Little Shallow Lake about four miles distant. This stream flows in a long, sweeping bends through a clay country and the shores are low with grass and willow flats extending back to timber which consists mostly of poplar with spruce scattered throughout.

This river leaves the northwest corner of Little Shallow Lake which is over six miles long and nearly four miles wide at the widest place. The west side of Little Shallow Lake lies roughly parallel to the east side of Shallow Lake and much of the country between the two lakes does not appear to rise to a great elevation.

On the west side of Little Shallow Lake there is a series of iron-bearing

rocks showing exposures of magnetite banded with silica, and at one or two points some diamond drilling has been done. One of these drill holes was tied to transit station No. 739, which is about four miles south along the west shore from the outlet of the lake. Drill cores were also seen on the west shore near transit station No. 748.

The north, east and south shores of Little Shallow Lake are generally low and flat and in many cases no distinct shore line exists, and a foot or two difference in elevation of the water of the lake would submerge considerable areas that were comparatively dry at the time the survey was made.

About three-quarters of a mile east of the outlet of Little Shallow Lake a river about two chains wide at its mouth enters a shallow marshy bay. This river was traversed for a distance of over seven miles and a half where it divided into two branches. At this point the river is about half a chain wide and flows with a gentle current through clay banks about ten to twelve feet high. The country along the lower stretches of this river is very low with areas of grass and willows studded with clumps of poplar. In one or two places, however, high rock ridges are visible not far back. The banks of this river gradually get higher as one goes up stream. There are some areas of poplar and spruce of good size to be seen along the stream, but a considerable area has been burnt.

Trout Lake River enters Little Shallow Lake in a marshy bay on the east side. The shore line here is so indefinite and the bay so full of weeds and rushes that it is difficult to distinguish the mouth of the river until one is right into it. This is a much larger stream than the one just described, but the general characteristics of the banks as regards elevation, soil, and timber are about the same. The survey was carried up Trout Lake River, a distance of a little over ten miles to the first portage, where a substantial post marked "P. No. 50" was planted in a stone mound on the north side of the river.

The territory described so far in this report appears to be largely a clay country, and there is a considerable area of good agricultural land on both sides of the English River and Mattawa River and east of Shallow Lake and adjacent to Little Shallow Lake and the streams tributary to it. It is difficult to say how extensive this clay area is, but it is undoubtedly large enough to warrant further exploration.

A most important feature affecting a large portion of this whole area, however, is the fact that at times the English River and tributary waters are subject to very serious flooding. This appears to be caused by the fact that at Manitou Chute the English River is less than a chain wide and the gorge through which the river rushes is of such a character that the water is held back and rises many feet during the freshet season. On Shallow Lake and Little Shallow Lake the extreme high water mark as shown on the rocks along the shore is over twelve feet above the level of the lakes at the time this survey was made. Such a flood occurs only occasionally but when it does occur, owing to the low nature of much of the country, large areas are completely submerged. Had such a freshet or one anywhere near like it occurred during the season of 1922, it would have been impossible to have carried on this survey until it subsided.

In view of these facts any proposal for water power development which would necessitate the raising of the waters of Shallow and Little Shallow Lakes, such as a concentration of all the available fall on the English River between Lac Seul and Manitou Falls at Manitou Falls, would require careful examination in order to estimate the amount of damage that would be done by flooding.

From Manitou Falls the English River runs west for about three miles

to Lower Manitou Falls, where there is a drop of about 15 feet. In this stretch of river there is a drop of about a foot, as there are a couple of places where the current is very strong. The banks are mostly high and rocky, covered with a growth of poplar, spruce, jack pine, birch, etc., much of it of good quality. The north bank is lower than the south and there is one low area through which a small creek runs that extends back for a considerable distance.

Below Manitou Falls a short distance the river enters Barnston Lake and from here as far as Indian Lake where the survey was discontinued for the season, the general characteristics of the river and country adjacent are much the same. The English River here consists of a series of short river stretches connecting lake expansions, some of which are quite large. From the west end of Sandbar Lake, which is connected to Barnston Lake by a short river stretch on which there is a small rapid known as Barnston Rapids where there is a drop of a foot and a half, the general course of the river is south to southwest. The prevailing rock formation is Laurentian, the strike of which is east and west. The lakes occupy troughs in the granite and gneiss, the general direction of which follows the strike of the formation, the result being that the lakes generally speaking lie east and west and the river stretches connecting one lake with another cross the formation and run south and southwest. One result of this has been that the general travelled route along the river crosses the lakes instead of running lengthwise of them, and the lakes are much longer than would appear from observation along the travelled route. Oak Lake for instance is shown on the published maps of this section as being about seven or eight miles long, whereas its length is really nineteen miles.

Long Legged River flows into the north side of Wilcox Lake about a mile west of the English River. This river drains a system of lakes lying to the northwest. The survey was carried up this river a distance of nearly seven miles to the first falls where a post marked "P. No. 108" was planted in a substantial stone mound just west of the bottom of the falls. This river is two chains wide at the mouth with easy bends and sluggish current through a flat clay valley with higher ground some distance back. The banks near Wilcox Lake are low and flat with grass and willows for some distance back from the river. As one goes up stream the banks rise slightly and the quality of the timber improves, poplar, spruce and jack pine predominating.

A short distance below Wilcox Lake there occurs a series of three falls known as Oak Falls. The upper two of these are close together, and the lower one is about three-quarters of a mile down stream. Lower Oak Falls drops immediately into Oak Lake. The total fall in these three pitches combined is twenty-two and a half feet. Between Oak Lake and Maynard Lake there is a river stretch with a fall of about a foot. At the outlet of Maynard Lake there is a short, heavy rapids where the river takes a drop of nine feet into Tide Lake. The banks here are rocky and rise rapidly a short distance back from the river on either side so that it should be possible to concentrate all the fall from Manitou Falls to Maynard Falls at this point. This would give an available head of about fifty feet which would provide a power concentration at this point of considerable magnitude. The question of the amount and value of the land that would be flooded, however, would have to be carefully looked into, although the character of the country is such that I venture the opinion that the damage from flooding would not be nearly so great as would occur in the case of the power concentration previously mentioned as a possibility at Manitou Falls.

Below Maynard Falls the river flows through Tide Lake and Ball Lake and empties into Indian Lake where the survey was discontinued for the season.

There are no rapids in this section of the river and only a couple of places where there is even a strong current.

Wabigoon River enters the southeast bay of Ball Lake, and the survey was carried up this river as far as the first falls which occurs a couple of miles up stream. A post marked "P. No. 192" was planted in a mound of stones on the north side of Wabigoon River to mark the end of the survey in this direction.

The general characteristics of the shores of the river and lake expansions from Manitou Falls to Indian Lake are very much the same. The shores are generally rocky and either high at the bank or rising a short distance back from the river. In the upper stretches of this section occasional small areas of clay similar to that seen farther up stream are seen, but as one goes down stream these clay areas become less frequent. There are, however, many places where the banks are quite low, these places occurring mostly where the small streams enter the main river or its lake expansions and at the ends of the many deep bays which often terminate in fairly extensive marshes. Some of these areas are quite large and in case of power developments involving the raising of the water levels, contouring would be necessary. Such areas are roughly sketched on the plans which accompany this report, but no attempt was made to determine the exact extent of these areas.

The rock ridges on the whole are more prominent as one goes down stream. The roughest country seen during the season is in the neighbourhood of Ball Lake. Much of the Ball Lake country has been burnt over not many years ago, and the fact that the rocks are more exposed than where the country is covered with a heavy growth of timber, makes the hills stand out all the more prominently.

The prevailing timber is poplar, spruce, jack pine, birch and balsam, the relative abundance of each being in the order named as far as could be judged without detailed examination. The greater portion of the country as seen from the water has escaped the ravages of recent fires and there are some large areas where the timber is of fair size and good quality. The largest area burnt over in recent years occurs to the west of Tide and Ball Lakes.

There are a few scattered groves of red pine and occasionally a few white pine but they are not frequent and considering the country as a whole are not of great importance except for local building. At Oak Fall and on the portage at Maynard Falls a few stunted oak trees were seen, and near transit station No. 1595 on the large bay running east from Maynard Lake, a few wild plum trees were found bearing fruit of excellent quality.

This country should be much more popular with tourists than it appears to be. Hardly any travellers were met with during the summer and most of these were on business of some sort. There is no sign of occupation except a few trappers and Indians' cabins at intervals along the river. And yet there is here a country of great natural beauty, easy of access and where the conditions for canoe travelling cannot be excelled. Long water stretches with portages both few and short, good camping sites, and moose, deer and small game in great abundance. The fishing is excellent and above all there is the primeval forest dotted with lovely lakes in all their glorious beauty.

The English River forms part of one of the oldest routes into northwestern Ontario and has been used by some of our earliest explorers. On the north shore of Tide Lake, about half a mile northwest of Maynard Falls, members of the party discovered two old stone fireplaces marking the site of what had once been a fairly large building. One of these fireplaces is intact but the

other was broken into two parts by the roots of a tree over a foot in diameter which had grown up inside the site of the old building. The timber which has grown up since the building was destroyed is over one hundred years old. Some hardy pioneer of a forgotten generation had made this his headquarters and passed on leaving no record but the mute story of the ruined hearth. What a story those stones could tell! Incidentally the fine trees that have grown up on this old site are a living proof of how nature could solve the problem of reforesting our waste lands, provided we could eliminate the fires which are such a terrible menace to the timber resources of our country.

During the season Dr. E. L. Bruce of Queen's University made a geological survey of the area covered in this report, as well as the territory drained by the Red Lake River, and his report will be made to the Department of Mines so that it will not be necessary for me to touch on the geological features of the country. I might say that Dr. Bruce and his assistants made many trips inland from points on my survey and obtained much more information as to the country back from the water than I was able to do, as my time was entirely taken up with the survey operations.

During the season a little over 645 miles of actual shore line were traversed, including 232 islands. The plans of the survey consisting of a series of tracings showing all measurements taken in connection with the above, as well as notes as to the character of the country, timber, areas of possible flooding, etc., have all been forwarded to your department.

With this report are included a schedule of the islands, showing the numbers, nearest transit station, area and a short description of each island, together with my accounts in triplicate.

I have the honour to be, Sir,

Your obedient servant,

JAMES S. DOBIE,
Ontario Land Surveyor.

*The Honourable the Minister of Lands and Forests,
Toronto.*

Appendix No. 25

TRAVERSE OF WABIGOON LAKE AND OTHER WATERS,
DISTRICT OF KENORA.

PORT ARTHUR, ONT., July 29th, 1923.

Sir,—I have the honour to report that in accordance with your instructions, dated April 18th, 1922, I have made a traverse survey of Wabigoon Lake and other waters in the District of Kenora, and beg to submit the following report:

I commenced the survey at the iron post, marking the north boundary of Indian Reserve No. 27 at the point where it intersects Little Wabigoon Lake. The whole of Little Wabigoon Lake (lying south of the south boundary of Southworth township), Rock, Turtle and Moose Lakes, Grassy Bay and River, Minnehaha and Peak Lakes, were then traversed.

The country surrounding these lakes is generally rolling and rocky. It has suffered extensively from fire, no doubt due to mining operations there in the early days, and the timber now is practically all second growth of various sizes.

The shores of these lakes, with the possible exception of Minnehaha Lake, are, in my opinion, unsuitable for summer resort subdivision—where the shores are not all rock—that is, when they are composed of high clay banks, extending back, erosion has usually occurred, and in the lower shores, the land had been flooded back for a considerable distance, leaving dead standing timber, old logs, long grass, reeds, etc., in the water, so as to be almost impassable in a canoe, or by any other means. The details of this, however, are shown on the plan.

On the 7th day of June, I tied the traverse into the south boundary of Southworth township, east side of Little Wabigoon Lake, and proceeded the next day to big Wabigoon Lake. Here we continued the traverse, starting from the north boundary of Indian Reserve 27, previously mentioned, and continuing along the south shore until we tied into the south boundary of Van Horne township.

I, then, according to instructions of date 27th June, 1922, carried my traverse along the north shore of Big Wabigoon Lake, across the townships of Van Horne and Zealand, in order that the situation of the eroded clay banks should be properly designated.

On the 26th of June, I was instructed to continue my traverse covering Mile, Trap, Doré, Ingall and Ukik Lakes, all south of Contact Bay. I started out on this part of the trip on the first day of August. Mile and Trap Lakes are very small with high rocky shores. Here quite a few red and white pine were noticeable but were too scattered to be of any economic value.

Doré and Ingall Lakes are long and narrow with high, rocky shores. The surrounding country is very rough and rocky. In consequence, there are no areas fit for agriculture.

Ukik Lake is broken up into long, narrow, rock bays, which usually end up in low, marshy places.

There is a portage about a mile long from Trap Lake to Doré Lake ending up in a marsh or bay about a quarter of a mile long. This portage is very rarely used, except possibly as a winter trail.

There is a portage of about ten (10) chains on the outlet of Doré Lake, and three short portages on the outlet of Ukik Lake.

At the first is a falls nine (9) feet and the last three are falls having natural heads of eighteen (18), twelve (12), and twenty-four (24) feet respectively. There is a good site for a dam at the first falls but as the drainage area is so small, the resultant horsepower would be negligible.

On completion of this traverse work, I returned to Big Wabigoon Lake and subdivided Islands R.K. 185 and R.K. 196, and plans of same accompany this report, as instructed. There are several other islands which were large enough for subdivision but I considered that the nature of the shorelands was unsuitable for summer resort purposes, more especially on account of the erosion which has taken place, the sheer banks and the pollution of the water. There are one or two places on the north shore of Wabigoon Lake in the townships of Van Horne and Zealand which would make good summer resorts, but they are small and scattered.

All angles were measured with the transit and the distances obtained by stadia. The main stations were plotted day by day on cross section paper

on a scale of twenty (20) chains to the inch and by this means any error in the traverse was at once located and corrected. Frequent observations for meridian were taken and copies of them accompany this report.

At intervals of about a mile apart on the shore, prominent trees were blazed on the side next to the lake and marked thus, "1, 2, 3," etc. In like manner trees on islands were marked by the letters "R.K." followed by the number of the island. These points were tied into the nearest transit station and the bearing and distance recorded in the field notes. Posts were planted well above the high water mark, at points where we tied into known lines.

The details as to shore lands, trees marked, measurements and all posts planted are shown on plans accompanying this report.

All these lakes are well supplied with fish—pike and pickerel being most plentiful. Moose and Red Deer were also very plentiful. Beaver and muskrat were noticed at one or two points, but seem rather scarce.

Accompanying this report are three plans covering the whole traverse on a scale of twenty (20) chains to an inch; plans of subdivision of islands R.K. 185 and R.K. 196 on a scale of ten (10) chains to an inch; a table giving a short description of each island and its acreage; the field notes of the traverse and my accounts in triplicate; the accounts of the day work and the diary, I am sending under separate cover, all of which I trust that you will find correct.

I have the honour to be, Sir,

Your obedient servant,

ROY S. KIRKUP,
Ontario Land Surveyor.

*To the Honourable the Minister of Lands and Forests,
Toronto, Ontario.*

Appendix No. 26

MERIDIAN AND BASE LINE, DISTRICT OF THUNDER BAY

PORT ARTHUR, ONT., October 31st, 1923.

Sir,—In accordance with your instructions, dated April 15th, 1923, we have surveyed a meridian and a base line in the District of Thunder Bay and have traversed a portion of the Albany River and beg to submit the following report:

The meridian was a continuation of that surveyed by K. G. Ross, O.L.S., in 1921, and the survey of it was commenced at the centre line of the right of way of the Canadian National Railway about one mile east of Allanwater Station. The mileage of this point was 60 miles plus 32.683 chains and the mileage of the northern terminus of the line, that is where it intersects the south shore of the Albany River, is now 121 miles plus 63.45 chains. A traverse of the Albany River was made from the northerly end of the meridian to connect the same with the easterly limit of that Indian Reserve on the south shore of Lake St. Joseph which was surveyed by J. S. Dobie, O.L.S., in 1912. From the 84th mile post in the meridian the base line was run west, in six mile chords of the parallel of latitude, to intersect the boundary line between the districts of Kenora and Thunder Bay. The length of this line was 35 miles plus 10.09 chains.

Iron posts were planted at the points indicated in your instructions and it was found necessary to erect nine witness monuments. One short iron post was planted and another should have been placed at the intersection of our base line with the district boundary, but our cement had become dampened and useless.

Observations were taken frequently and these will be found recorded in the field notes on the proper pages. Owing to smoke and cloudy weather we were not able to get an observation at the point of commencement until four days after we were in the field and about four miles of line had been completed.

TOPOGRAPHY

The land along the meridian slopes gradually to the north and few hills about fifty feet in height were found along it. In various places the rivers divide into two or three channels to reunite several miles farther down. The Flint River was the most erratic in this peculiarity. The section for many miles south of Lake St. Joseph and the Albany River is filled with a network of lakes and rivers so that it is possible to travel in almost any direction by waterways. Pine Lake was the largest lake seen which was not previously shown on any maps we have seen. The width of this lake east and west may be fifteen miles.

As the base line crosses the general run of the waterways it was found to be considerably rougher than the meridian. Lake Savant is the most important topographical feature along this line. The shore line of the lake is nearly all of a rocky nature and a considerable amount of the timber along the shores has been destroyed by forest fires but the islands, which are very numerous, are mostly green and some afford excellent camping places. One of the survey trial lines of the Grand Trunk Pacific Railway follows closely along the course of the base line but this appears to have been run merely as an exploration line.

SOIL

The agricultural possibilities are negligible. Along the Canadian National Railway and for thirty or more miles north of it the whole surface is covered with rounded boulders some being twenty feet in height. Towards the northerly end of the meridian areas of sandy soil of considerable extent occur but none seems to furnish any promise as farm lands.

ROCK FORMATION

The Department of Mines attached Mr. J. P. Johnson as geologist to our party and his report will cover in detail the various formations. The only favourable locations for prospecting noted were on the north end of Lake Savant where areas of quartz bearing schists may disclose gold and just south of the 120th mile post on the meridian where a considerable outcrop of magnetic ore was noticed.

TIMBER

A timber plan accompanies this report. This will show the areas of green timber and of burned. We would say that fifty per cent. of the territory covered this season is still green and of sufficient size for cutting now. Along the meridian from the point of commencement as far north as the 90th mile there is as good an average stand of spruce and jack pine, of suitable size for pulp, as we have seen at any place in this district. This area also extends west along the base line to about the 13th mile.

North of the 90th mile on the meridian and more particularly as the Albany river is approached, forest fires seem to be of an ever-recurring nature and as the country is very seldom traversed during the summer months by any person save the Indians from the reserves on Lake St. Joseph, it would seem that they are responsible. The waterways are not patrolled by forest rangers north of Lake Savant. One very serious fire was started some distance south of our base line and this burned for nearly two weeks during the latter part of June. It covered an area roughly estimated at forty miles in length and ten miles in width and destroyed a great amount of good timber.

On the first twenty-four miles of our meridian only a few balsam trees were noticed and there was nowhere any great number of this species. Cedar was also very scarce. Spruce and jack pine in about equal amounts would predominate for miles at a stretch. It is doubtful if the northern jack pine is as good timber as that farther south as the larger trees seem to have developed a great deal of rot.

We had expected to see large areas of open swamp and muskeg as we proceeded north but nearly all the swamps and lowlands were well timbered

ROUTES, ETC.

Our first and second camps were on the Allanwater River. We then moved along the line to the portage going into Flint Lake just north of the 69th mile post. The Allanwater route was found to be properly mapped. We used Flint Lake and Flint River, with its various expansions, to the 80th mile. From here our supply men went east by way of the north branch of the Flint River and returned to the line at the lake in the 83rd and 84th mile. This route was rather a difficult one as it was found that between the first and second lakes east of the line there was a drop of more than one hundred feet, the river flowing rapidly between straight rocky banks. Better time would have been made by following the line. From the 84th to 100th mile there was no route found to parallel the line that was of any benefit to us. Explorations were made on each side of the line but any lakes found were too far distant to be of any benefit. There is a well used route coming into the lake in the 95th mile. Most of the travel over it seems to be from the east and most likely connects with the lake in the 104th mile. This lake is used as a camping ground for many families of Indians during the rice season.

Supplies for the northerly end of the meridian and for the base line were brought in from Bucke Station over the route shown on your maps going into the south end of Lake Savant. This route continues north to Lake St. Joseph and is used by the Hudson's Bay Company as its all year mail route and for light freight during the winter months. In all there is less than four miles of portage from the railway to Osnaburgh Post on Lake St. Joseph. This route is shown approximately on our plan. Eagle Lake and Pine Lake (local names) are possibly much larger bodies of water than we have shown them to be. There is a direct river route from Eagle Lake to the meridian. This crosses in the lake in the 100th mile. This was not used as it was found to be full of stones. It is used for light travel about as much as the lake route to the west of it. Our supplies were taken over the lake route to the 104th mile. From here to the end of the meridian the supply men remained with the party and we made all moves by canoe.

On the base line the route mapped by the Grand Trunk Pacific survey was used for transport and camping and was found correct. It will be noticed that Long Lake does not extend nearly as far north as shown on your maps.

On our return to the track we proceeded south from the end of the base line via Long, Cliff, Island, Lewis and Tawatinaw Lakes. From Lewis Lake to Tawatinaw Lake there are two routes but the one following the river is the easier.

WATER POWERS

Some of the falls and rapids on the Allanwater River will make good power developments. There are numerous falls and rapids on the other rivers but the flow is small in most of these.

GENERAL

Big game was comparatively scarce throughout the entire country and very little evidence of new beaver workings was seen, but this may be accounted for by the fact that we were travelling over well used routes most of the time.

Pickerel and pike are numerous in all the lakes, especially the former. Lake trout were found in Lake Savant. Speckled trout are said to be plentiful in some of the streams but none were caught.

Many of the northern lakes are filled with wild rice. This is gathered in large quantities by the local Indians.

We were unfortunate in having our entire camp outfit destroyed by fire on May 24th. The fire was evidently started through the carelessness of one of the members of our advance party. No damage was done to the surrounding forest save burning over about five acres of brush.

Accompanying this report you will find the usual notes, plans and accounts.

We have the honour to be, Sir,

Your obedient servants,

PHILLIPS & BENNER,
Ontario Land Surveyors.

*The Honourable the Minister of Lands and Forests,
Toronto.*

Appendix No. 27

SURVEY OF BASE AND MERIDIAN LINES, DISTRICT OF THUNDER BAY

SAULT STE. MARIE, ONT., November 14th, 1923.

Sir,—I have the honour to submit the following report on certain base and meridian lines in the District of Thunder Bay, surveyed during the summer of 1923 under instructions from your department, dated April 15th, 1923.

I left Sault Ste. Marie for Bucke, Ontario, via A. C. & H. B. Ry. and N. T. Ry. on Monday, July 2nd, with a party of six. We stayed over night at Franz and were joined by four Indians from Chapleau. When we arrived at Bucke at ten o'clock on Wednesday morning I found my assistant, R. P. G. Laurence already there with Indians from Lac Seul, together with Mr. T. L. Gledhill, the geologist who was to accompany the party. Our provisions and canoes had already been transported to Sturgeon Lake by wagon under the kind supervision of Mr. Halvorsen, the Hudson's Bay Company manager, so that we were

able to camp on the lake that evening. On Thursday, July 5th, we moved down Sturgeon Lake and after cacheing the bulk of our supplies at the outlet, made two portages down the Sturgeon River and camped at a point from which we could run the first six miles of our line. We commenced cutting line on July 6th, finished on August the 28th, and arrived back in Sault Ste. Marie on September 3rd.

Our place of beginning was the 120th mile post on O.L.S. Niven's boundary between the Districts of Thunder Bay and Rainy River. We then ran east astronomically on six mile cords, a distance of approximately 78 miles to the westerly boundary of the Nipigon Forest Reserve. Our posts were numbered from 1 to 35 m. 33 c. 78 l., 1 to 24 m. and 1 to 17 m. 45 c. 75 l. respectively. From our 24 mile post which is 59 m. 33 c. 78 l. east of Niven's line, we ran north astronomically to the C. G. Ry., a distance of approximately 13 miles, 63 chains, 23 links and south astronomically a distance of 12 miles. This completed our work. These latter two lines were run north and south when we arrived at their starting point on our base line. Seventeen per cent. of the territory traversed by our line was water.

The party consisted of twenty-two in all, made up as follows:

- 1 Surveyor.
- 1 Assistant.
- 2 Chainmen.
- 1 Cook.
- 1 Cookee.
- 5 Axemen.
- 6 Packers on line.
- 4 Packers with the freighting canoes.
- 1 Geologist attached to party.

This distribution was maintained throughout the whole course of the survey.

SOIL

There are no areas in the country traversed suitable for agriculture. The covering is uniformly gravel, sand and boulders.

GEOLOGY

Inasmuch as a geologist was attached to the party, I did not pay particular attention to rock out-croppings. We did not encounter any valuable minerals.

TIMBER

With the exception of the country west of Sturgeon Lake, through which the first nine miles of our line passes, the entire area traversed was poorly timbered. Fires have run through it all at various times and only a pocket here and there has escaped. In some cases second growth timber has attained a diameter of eight inches, but the majority of it is still very small. The growth throughout is a mixed bush of spruce, balsam, poplar, banksian pine, and white birch.

WATER POWERS

There are no water powers worthy of note.

GAME

Moose and red deer are very plentiful. Fur-bearing animals are scarce on account of the proximity of the railway. There are great numbers of part-ridges and rabbits.

FISH

Pickerel, pike, whitefish, perch and suckers are found in abundance in all the lakes and rivers.

This is my report.

I have the honour to be, Sir,

Your obedient servant,

K. G. Ross,

Ontario Land Surveyor.

*To the Honourable the Minister of Lands and Forests,
Parliament Buildings, Toronto.*

Appendix No. 28

CERTAIN TOWNSHIP OUTLINES, DISTRICT OF COCHRANE

TORONTO, October 31st, 1923.

Sir,—We have the honour to submit the following report on the survey of certain township outlines in the District of Cochrane, performed under instructions from your department, dated 15th April, 1923.

Canoes and other equipment had been left the previous summer at Smooth Rock Falls, on the Mattagami River, so in June the party for the season's work was assembled at this point, preparatory to descending the river.

The party left on 15th June, and travelled down the river as far as O.L.S. Sutcliffe and Neelands' first base line of 1921. This line crosses the Mattagami River about a mile and a half below the mouth of the Kapuskasing River. From the crossing, the party packed the supplies and equipment six miles east over the base line to the northeast angle of the township of Clay, established by us the previous summer. Wet weather delayed the party on the trip, and it was 25th June before the line work was begun.

We commenced our line at our old post marking the northeast angle of the township of Clay, and from that point ran north nine miles between the townships of Sheldon and Howells. The north boundaries of the townships of Sheldon and Howells were run, respectively, east and west from the nine mile post. The former line was carried to Sutcliffe and Neelands' meridian run in 1921, and the latter is a meridian run by ourselves in 1911. We continued westward past this meridian between the townships of Harmon and Mowbray for about three miles and the end of the line was left there for the time being. The party then returned to the northeast angle of Howells, and extended our meridian north between the townships of Cockshutt and Traill to a base line run by Messrs. Sutcliffe and Neelands in 1921. The meridian was then continued north between the townships of Emerson and Hamlet.

The post planted in 1911 to mark the southerly extremity of the east boundary of the township of Hecla was picked up about sixteen chains west of our

line. The northeast angle of the township of Emerson was then established by running the north boundary line of the township east through this post, to intersect our meridian. The boundary line was then run westward to the meridian run by us in 1911. This completed the portion of our work east of the Mattagami River.

The party then proceeded up the river to the line between the townships of Harmon and Mowbray, left partly completed earlier in the season. It was extended west across the river to within convenient distance from the westerly corners of the townships. We then returned to the river, and continued up stream to the crossing of Messrs. Sutcliffe and Neelands' first base line, the point from which the party had, at the beginning of the season, travelled eastward. The party then packed westward along the base line to the northwest angle of the township of Clay. From the post marking the corner, the line was run west between the townships of Mowbray and Hopkins. Considerable difficulty was found in locating the north end of the meridian forming the west boundary of the township of Hopkins, as the corner was in an extensive brule now covered with a dense growth of alders, poplars and birch. The iron and wooden posts marked IX M were finally discovered four chains and forty-seven links south of our line. The base line was extended westward between the townships of Guilfoyle and Boyle, to intersect the west boundary of Guilfoyle established in 1906. The intersection lies about fifty chains west of the Opazatika River.

Returning to the northwest angle of the township of Hopkins, the meridian between the townships of Mowbray and Boyle was run, and the north boundary of the township of Mowbray completed to the intersection. The base line between the townships of Bradley and Boyle was run westward and as the west boundary of these townships has not yet been run the final post was planted at IX M. We then ran north between the townships of Bradley and Harmon and produced the north boundary of the township of Harmon west, eleven chains and seventeen links to an intersection, thus completing the summer's work. The last line was cut on 1st September. The return trail to the railway was made via the Mattagami and Ground Hog Rivers, and Fauquier was reached on the 3rd of September.

The first part of the season was favourable for survey work, but the weather became broken about the middle of August, causing much loss of time while running the last forty miles of the survey.

A two-chain steel band was used for measurements throughout the work. On broken ground, measurements were made with the aid of a clinometer and the horizontal distance was deduced from the vertical angle. Occasions for triangulation were few as the lines crossed few lakes, and the Mattagami River at the north boundary of the township of Mowbray was the only river crossing which could not be measured directly with the band. The Opazatika River was barely more than two chains wide at the point struck by our line, and no difficulty was found in making the measurement with the band. A poplar tree marked by O.L.S. Kenny on his traverse of the Opazatika River was located and tied in to our line.

Frequent observations of Polaris were taken throughout the survey and the notes of a number of these are embodied in the field notes.

The wooden posts used were made of cedar where available, but as a rule spruce or jack pine had to serve. All were at least six inches square and firmly planted. Iron posts were planted to mark each third mile and the township corners. A number of these, however, were placed as witness posts. Several

of the points to be marked fell in muskeg and soft ground. Where it was thought that the ground was not solid enough to form durable pits and mounds, a wooden post was planted at the true point and the iron post was planted as a witness post on the nearest solid ground with the required trench and mound. No short iron posts were used. In two cases, the regulation iron posts could not be sunk flush with the ground, and substantial stone cairns were built around them. Stone was not available for mounding posts at more than a few points. The posts so mounded are indicated on the notes.

On account of the extent of old brule crossed, suitable trees for use as bearing trees did not exist near a considerable number of the posts planted. In most cases, however, the notes show that two trees of some sort were marked.

GENERAL FEATURES

The larger part of the area traversed by our lines is drained by the Mattagami River and its tributary, the Pike River. The remainder, or western part, is drained by the Opazatika River.

Our meridian east of the Mattagami River followed somewhat closely the course of the Pike River. The Pike River originates in a number of small streams rising in the northern portion of the townships of Howells and Sheldon. These streams have dug ravines, sixty to seventy feet deep, in the sandy ground, and as a consequence the northern portion of these townships, especially near our meridian between them, is very broken. The streams themselves are clear and cold, and are well stocked with speckled trout.

In the next tier of townships, the river flows swiftly between clay or sand banks, twenty to forty-five feet high, through gently rolling or flat land. Approximately two miles below the south boundary of the township of Hamlet it enters a rocky gorge about two miles long, emerging at the level of the coastal plain where it is bounded by low lands, muskeg and swamp.

In general, the land along the meridian seems to fall to the north in two main steps; the first at about the north boundary of the townships of Howells and Sheldon, and the second opposite the gorge mentioned above.

The last four miles of the east boundary and the north boundary of the township of Emerson were run through country eighty-five per cent. swamp and muskeg.

West of the Mattagami River the axes of the ridges seemed to lie approximately east and west. Our line along the south limits of the townships of Boyle and Mowbray followed one ridge, and the line along the north boundary of these townships followed another. Most of the valley between these ridges drains to the Opazatika.

SOIL

The soil over the larger part of the area surveyed is a light sandy loam or straight sand. Perhaps twenty per cent. of the soil examined was clay. Probably, however, the proportion of clay is greater than would appear from such examination as we were able to make. The lower lands were deeply covered with moss, and the soil could not be so readily identified. The best soil seen from an agricultural standpoint was along the south boundaries of the townships of Boyle and Mowbray.

TIMBER

The major portion of the land traversed by our lines was swept by fire twenty to twenty-five years ago, and a strip about six miles in length along our east meridian was burnt over two years ago. This latter burn seems to extend for a considerable distance toward the Abitibi River on the east, and

for six or seven miles to the west. The area burnt by these fires extends from beyond our south boundary. The fires were only stopped on the north by the extensive muskegs in the northern parts of the townships of Emerson and Hamlet.

East of the Mattagami River practically the only timber left is in the spruce swamps comprising not more than twenty per cent. of the area. Some of this is of a size suitable for pulpwood. The second growth is largely birch and poplar or alders and willow. An exception to this is on some of the sand hills in the northern part of the townships of Howells and Sheldon. On them a dense growth of young jack pine has sprung up.

West of the Mattagami River, the destruction is not so complete. Several areas of a few square miles have escaped. Along the south boundary of the township of Mowbray in particular, we saw some good pulpwood. In the southerly part of the township of Harmon there is a considerable area of green bush. This is a mixed stand of jack pine, spruce, poplar and birch. The second growth west of the Mattagami River seems of a more valuable quality than that east of the river.

ROCK

Little rock was seen on the lines of survey. The rock observed was granite or granite gneiss. Rock is exposed on the banks of the Mattagami River in many places, and in the gorge of the Pike River mentioned above. No economic minerals were identified.

WATER POWER

Traverses of the Mattagami and Opazatika Rivers have been obtained by your department. A casual inspection is sufficient to show that large development of power is possible on the Mattagami River and to a lesser extent on the Opazatika. The surveys of the rivers will, of course, indicate the power possibilities better than any estimate by us. The Pike River is too small and distant to offer any inducement for the immediate development of water power.

CANOE ROUTES

We reached the scene of our work via the Mattagami River, from Smooth Rock Falls, but after the first trip, utilized the Ground Hog River instead above the junction of the two rivers. This is the shorter and better route. The route via the Ground Hog River and the Mattagami River, is considered to be the best one from Moose Factory to the railway. The portages are in excellent condition. The Opazatika is said to be good between our crossing and the railway and below that to be difficult except at the higher stages of water. The Pike River is not travelled.

FISH AND GAME

Moose were plentiful, especially in the area west of the Mattagami River. Partridge and rabbits were seen more often than usual. Beaver work was fairly common. The head waters of the Pike River are well stocked with speckled trout and the fishermen of the party made some good catches of pike and pickerel in the Mattagami River.

We have the honour to be, Sir,

Your obedient servants,

SPEIGHT & VANNOSTRAND,

Ontario Land Surveyors.

*The Honourable Minister of Lands and Forests,
Toronto, Ontario.*

Appendix No. 29

CERTAIN TOWNSHIP OUTLINES, DISTRICT OF SUDBURY

PETERBOROUGH, ONT., October 31st, 1923.

Sir,—I beg to report that, agreeable with instructions from your department, dated April 15th, 1923, to survey certain township outlines in the district of Sudbury, that I have completed this work and beg to submit herewith my plans, field notes and report, all of which I trust will be found complete and satisfactory to your department.

I commenced the survey at an iron post planted by myself in 1916 at a point on the north boundary of the township of Hall, two miles west of the northeast angle of that township. After getting an observation for azimuth at this point, I ran four miles west. I then moved my camp to Turnbull Creek on the Canadian Pacific Railway and from the iron post planted by Ontario Land Surveyor Stewart in 1892 to mark the line between township No. 16 and Cavell, I ran south to intersect the line between the townships of Cavell and Hall. I continued this line south to the north boundary of the township of Hubbard. I then returned to the northwest angle of the township of Hall and from this point I ran west along the north boundary of the township of Faust to intersect the meridian line surveyed by Ontario Land Surveyor Niven in 1902. Having completed this work I moved west along the north boundary of township 9 Z, recently surveyed by Ontario Land Surveyor Mooney, to a point two miles, sixty-eight chains and thirty-seven links west of the northeast angle of that township, and from this point I continued west making Township 9 Z six miles wide on its northern extremity. From this point, I ran south to intersect the north boundary of township 8 A and north 6 miles. I then returned to the northwest angle of township 9 Z and ran west six miles along the north boundary of township 9 A from which point I ran south to intersect the north boundary of township 8 B and north six miles. I then returned to the northwest angle of township 9 A from which point I ran west along the north boundary of township 9 B. I then ran south to intersect the north boundary of township 8 C and north to intersect a line run this season by Ontario Land Surveyors McAuslan, Anderson and Moore. I then returned to the northwest angle of township 9 B and ran west six miles along the north boundary of township 9 C, from which point I ran north to again intersect the line surveyed by Ontario Land Surveyors McAuslan, Anderson and Moore.

Having finished this part of the work I moved to Woman River Station on the Canadian Pacific Railway and from the iron post planted by Ontario Land Surveyor Stewart in 1892 to mark the northeast angle of township No. 19, I ran west 12 miles connecting with my own work and that of McAuslan, Anderson and Moore. Wooden posts made of the most durable wood in the locality and at least six inches square and three feet high were planted at the end of every mile, excepting where that point fell in a lake or river, in which case the post was planted on the line at the nearest shore. At the end of every third mile the iron posts supplied by your Department were planted and pits and mounds made according to instructions.

All the country covered by these eleven townships is very rough and rocky and almost completely devoid of agricultural land, nor does there appear on the surface any indications of the existence of economic minerals. Four or

five of these townships, however, contain an immense quantity of valuable timber, the location of which will be seen on the timber plan. The whole country is traversed by numerous creeks and lakes containing considerable good fish, particularly pike and lake trout. Moose and red deer are also very plentiful in this locality. In the lowlands between the hills are found the usual swampy tracts covered with spruce, dead and decaying tamarac with alder and willow underbrush and considerable windfall, the average size of this timber runs from two to ten inches.

I have the honour to be, Sir,

Your obedient servant,

J. W. FITZGERALD,

Ontario Land Surveyor.

*The Honourable Minister of Lands and Forests,
Toronto.*

Appendix No. 30

SURVEY OF TOWNSHIP OF MONGOWIN, DISTRICT OF SUDBURY

LITTLE CURRENT, ONT., November 19th, 1923.

Sir,—I have the honour to submit to you the following report on the survey of the township of Mongowin, in the district of Sudbury, performed under instructions from your department, dated Toronto, June 1st, 1923.

The manner of the survey was carried on as nearly as practicable to conform with the instructions.

Several iron posts were planted at the intersections of survey lines, as recorded in the field notes. In the Lacloche Mountains, in the southern portion of the township, on account of there being very little soil, none were planted.

Where practicable at all the posts were well mounded up with stones, most of the mounds, or cairns, are from three to five feet at the base, and where there was a depth of soil a hole was dug about two feet deep, and the post set up firmly in it. Nearly all the posts are of cedar.

In the appendix to the field notes will be found the notes of my survey of the outlines of the Wallace Mine locations, including Block A, which I made in January, 1900, for the late Thomas Flood. All possible information regarding the original survey of the locations, and a letter of explanation, were obtained from the then Director of Surveys, Mr. Kirkpatrick, before proceeding with the survey.

The evidences which I found on the ground of the west limit of the Whitefish River Indian Reserve are rather unsatisfactory. With the exception of its intersection with Lake Huron, and a short distance from there, and the intersection at West River, which latter one I found in 1920, also a cairn on the north shore of Raven Lake, which is said to be the northwest angle of the Reserve, the blazes which I have seen seem to be only a reblazing in a haphazard way, and made probably 20 to 30 years ago.

On page three of the instructions of above date, reference is made to an apparent discrepancy between O.L.S. Bolger's survey of the first concession west of Wallace Mine, at the shore where it connects with O.L.S. Alex. Vidal's survey of Wallace Mine, lot 5, I did not find any discrepancy there, nor elsewhere.

The soil throughout the township is nearly all a stiff clay. There is some sandy and sandy loam on the south side of the Laclache Mountains. In some places there are tracts of soil unbroken by rock, probably from 10 to 15 acres in extent, but generally it occurs in small patches between the rocky ridges. A settler in lot 11, concession 6, has, however, cleared about 35 acres which seems very little broken by rock. Probably from 20 to 30 per cent. at least of concessions 1, 3, 4, 5, 6, is tillable. Concession 2 is very much broken by the Laclache Mountains.

The rock formation is almost entirely Huronian. North of Raven Lake it is mostly clay slate and various schists. In the central portion there are also occasional small ridges of diorite, or diabase. On lots 7 and 11, concession 3, there are prospects of mineral, somewhat developed. The Laclache Mountains, extending across the southern portion, are mainly quartzite. Where they extend easterly into the Whitefish Indian Reserve, there occurs along the Algoma Eastern Railway a large hill of chert.

As shown in colour on the timber map north of Raven Lake, concessions 5 and 6, it is nearly all old brule, with an occasional small patch of scattered timber. In concessions 3, 4 and part of 5, there is considerable fair sized balsam, spruce, cedar, poplar, white and yellow birch, hemlock, jack pine, maple, tamarac, ash and some black spruce. A good deal of it is merchantable. There is also considerable large red and white pine in this area. In concessions 1 and 2 there is the same timber, also some scrub red oak and ironwood. The merchantable pine has been pretty well cut out of this area. There is a tract of old brule, with little good timber, lying between Fox Lake and Block A.

West River, between Raven Lake and Marsh Lake, on account of being dammed up is mostly sluggish, and is from 20 to 40 feet wide. Below Marsh Lake it is a succession of narrow gorges for some distance, and in this section some power might be developed on it.

I have the honour to be, Sir,
Your obedient servant,

T. J. PATTEN,
Ontario Land Surveyor.

*The Honourable Minister of Lands and Forests,
Toronto, Ontario.*

Appendix No. 31

TRAVERSE OF SHORE LINE OF LAKES MINNIETAKIE AND BIG SANDY,
DISTRICT OF KENORA

PORT ARTHUR, ONT., December 14th, 1923.

Sir,—I have the honour to report that in accordance with your instructions, dated April 10th, 1923, I have made a traverse of the islands and shore lines of Lakes Minnietakie and Big Sandy, both in the District of Kenora, and beg to submit the following report:

I commenced the survey at the intersection of the southerly boundary of Drayton township and the westerly shore of Lake Minnietakie and continued southwesterly along the shore of said lake to the mouth of Pickerel Narrows.

PICKEREL NARROWS

This bay runs in a general direction southwest, a distance of twenty miles and varies in width from five to eighty chains. The shores and banks are, generally speaking, rock, rough and very steep in places with high rocky hills surrounding it, burnt bare in places by fire which has swept all of the area at one time or another.

Two rivers are tributary to this bay (which is by far the longest in the whole lake). The one from the southwest about a chain in width empties out of Big Sandy Lake; this is still water with the exception of its upper reaches near Big Sandy, where there are some small rapids and the remains of an old dam, which was used in the early days. The other one enters from the southeast and is twenty-five feet wide and is remarkable for the fact that it falls twenty-eight feet at its mouth, thus showing up the nature of the shore line at this point.

I continued the traverse, doing both sides of the Narrows at once, to Blackfish Portage, which is the end of the Narrows and portage to Big Sandy Lake. I tied into Niven's meridian line en route, and was very lucky to find the post as the country had been well burnt over and there was no semblance of a line. I then traversed the portage and Big Sandy Lake continuing the Portage to Dinorwic where I arrived on the 29th of June.

BIG SANDY LAKE

This lake, as its name implies, is a big sandy lake. There are many sandy beaches but the rock and gravel beaches are by far in the majority. The westerly shore appears to be very rocky on the points and shallow, making it difficult to land a canoe or boat. In fact I found this difficulty throughout the whole lake. It seems very shallow and can churn up and become a turmoil in the shortest time of any lake I know.

The beaches, mostly rock and boulders, have been piled up, both on main shore and islands for a distance of twenty links to three chains by the action of the water or ice in the old days when the water was raised by dam on the outlet of this lake. The difference from the present to the old water level is approximately nine feet. The bays with the sandy beaches would be suitable for summer resort lots but the others are eliminated on account of the shallowness, rocks and reefs.

PORTAGE TO DINORWIC

This portage, approximately nine miles long, varies in width from just a trail to one chain and even wider in some places. The portion near the lake is rather rough, rocky and high, but it drops down gradually to Dinorwic. The latter part of the road is mostly clay and in dry weather one could not wish for a better road.

This leg of trip was then complete and we transported men and what supplies we had left back to the mouth of Pickerel Narrows where I had cached the bulk of the supplies. I then continued traverse around the various bays of Minnietakie Lake till we reached Twin Lake on the 25th of July.

TWIN LAKE

This is more in the nature of a long narrow bay from Minnietakie Lake than a separate lake as its name applies. The strip of water that connects

it with Minnetakie is in the nature of a river but one cannot detect a current. It is very marshy and full of wild rice and reeds and it was only with a great deal of difficulty that we were enabled to push our canoe through. The southern portion of this lake is surrounded by high rocky hills covered mostly by Banksian pine, poplar and white birch. The bays are long and narrow ending up in low marshy places.

I then continued into the southeastern bay into which the English River empties, tying into the English River power reserve line as we proceeded. This is, in my opinion, the best part of the main shore of Minnetakie Lakes for summer resort lots. The big rounding bays are mostly of a sandy nature and the country lends itself generally to this purpose. In fact there are already several locations laid out; the big majority, however, are on islands.

I connected up with the south boundary of Drayton township, where it intersects the easterly shore of Minnetakie Lake, on the 7th of August. I had no difficulty finding the post, although the country has all been burnt over.

I then traversed what remained of the islands. This took me considerably longer than I anticipated, when I wrote you on the 4th of August, on account of adverse weather conditions, but we finally did complete them and returned to Sioux Lookout, entraining for Port Arthur on the 16th of August.

There are two hundred and thirty-seven islands in both lakes ranging from small rocks to islands six and seven miles in perimeter, also numerous reefs which are shown on the accompanying plan. The acreages and description of islands is appended hereto.

At intervals of about a mile apart on the shore, prominent trees were blazed on the side next to the lake and marked thus: "1, 2, 3, etc." In like manner trees on islands were marked by the letters "R", "K", followed by the number of the island. These points were tied into the nearest transit station and the bearing and distance recorded in the field notes. They are also recorded on the accompanying plan in red. Whenever we located a suitable spot, a short bronze metal post was cemented into the rock with Portland cement and a wooden post was planted alongside in a mound of stones as a reference point, both posts being marked similarly. These posts are shown circled in red on the plan which accompanies the report. Posts were planted well above the high water mark at points where I tied into known lines.

All the details as to shore lands, trees marked, measurements, bearings and posts planted are shown on the plan.

A Watt transit and D.L.S. stadia rod were used throughout with the exception of two occasions, when I had the misfortune to fall into the lake and wash out my cross hairs, when I used a Davis & Son six-inch transit with good results. With the latter transit, however, I had to use a constant of .9434 for every chain read on the rod. The main stations were plotted by latitudes and departures every day on the cross section paper on a scale of twenty chains to the inch so that any error which might creep in was at once located and corrected. Frequent observations for meridian were taken, and copies of them accompany this report.

GAME

Both these lakes seems to be well supplied with pike and pickerel, but the fishermen met with did not seem to have very good luck. No trout were seen at any time throughout this trip. The red deer and moose are the most plentiful of any part of the country that I have yet been. Beaver and muskrat are present in small numbers.

WATER POWER

No water power was encountered of any commercial value except perhaps the English River Falls which has already been investigated.

In conclusion I would suggest that almost any of the islands in the north-easterly section of Lake Minnetakie, the southeasterly bay and the lake shore on the southern part of Drayton township, adjacent to the easterly boundary of the said township, have portions which would be suitable for summer resort lots. The water is pure and various springs are spotted here and there, both on islands and main shore, which makes for better camp conditions. The only adverse feature being that the lake is fairly shallow and there are rocks and reefs lying just underneath its surface which makes it bad for navigation.

Accompanying this report there are two plans covering the traverse on tracing linen on a scale of twenty chains to the inch, a table giving a short description of each island and the acreage, copies of observations and my accounts in triplicate, all of which I trust that you will find correct.

I have the honour to be, Sir,

Your obedient servant,

ROY S. KIRKUP,

Ontario Land Surveyor.

*The Honourable Minister of Lands and Forests,
Toronto, Ontario.*

Appendix No. 32

READJUSTMENT SURVEY IN THE TOWNSHIP OF BLOUNT, DISTRICT OF
TIMISKAMING

NORTH BAY, ONT., November 27th, 1923.

Sir,—I have the honour to submit the following report on the readjustment of survey in the township of Blount, District of Timiskaming, performed by me under instructions from your department, dated October 16th, 1923.

I left North Bay on October 21st, 1923, with a party of five men and travelled to Cochrane, remaining in Cochrane over night. The following morning travelled by motor truck with supplies to where the Temiskaming and Northern Ontario Railway crosses the south boundary of the township of Blount.

The posts planted to mark the front and rear of lots one to thirty-six concessions A and B of survey made by me in October, 1922, were removed and bearing trees for same obliterated. The iron posts planted last year at one chain and seventy-five links in perpendicular width measured westerly from the centre line of the Temiskaming and Northern Ontario Railway on the north limit of the road allowance of concession I and on the southerly limit of road allowance at concessions II, IV, VI, VIII, X and XII remain but the marking on same have been obliterated.

The blazes on the following lines were scored by making three axe marks on the blaze facing the line:—

1. Line west astronomically across lot 21, concession 1, at 59.49 chains north of southerly limit of concession 1.

2. Line across lot 16, concession III, at 59.59 chains north of southerly limit of concession III.

3. Line across lot 17, concession V, at 59.49 chains north of southerly limit of concession V.

4. Line across lot 23, concession V, at 59.49 chains north of southerly limit of concession V.

5. Line across lot 19, concession VII at 59.49 chains north of southerly limit of concession VII.

6. Line across lot 25, concession VII at 59.49 chains north of southerly limit of concession VII.

Posts were planted and marked in the prescribed manner to define the fronts of the following lots which were removed last year.

Lost 16 to 21 including concession I.			
Lots 15 to 21	"	"	II and III.
Lots 16 to 22	"	"	IV and V.
Lots 17 to 24	"	"	VI and VII.
Lots 20 to 25	"	"	VIII and IX.
Lots 20 to 25	"	"	X and XI.
Lots 20 to 25	"	"	XII.

In addition to the list of lots that have been settled, sent in with my report last year, there has been the following:

A Mr. Wilson of Cochrane has built a frame house, 16 x 20, on old lot 9, concession B, which is at the rear of the readjustment survey of lot 19, concession III. This makes two settlers on lot 19, concession III, as a Mr. Dominic Noel has built on this lot last year.

There is a small clearing at the southeast corner of lot 24, concession XI.

Near the southeast angle of lot 22, concession XI, there is a small log cabin.

At the rear of lots 21 and 22, concession XII, men were engaged in cutting timber for the erection of camps for the Major Moffatt settlement.

Accompanying this report are field notes and accounts, all of which I trust will be found complete and satisfactory.

I have the honour to be, Sir,

Your obedient servant,

G. P. ANGUS,

Ontario Land Surveyor.

*The Honourable Minister Lands and Forests,
Toronto, Ontario.*

Appendix No. 33

TRAVERSE OF MOOSE RIVER, DISTRICT OF COCHRANE

SAULT STE. MARIE, ONT., December 7th, 1923.

Sir,—Under instructions from you, dated April 5th, 1923, to survey the Moose River from the confluence of the Mattagami and Missinabi Rivers down stream to Moose Factory and beyond to the mouth of the river, I commenced organizing for this work May 5th, 1923, and proceeded to Clute via Cochrane. At Clute I bought supplies, etc., and had it teamed to the landing on Frederick House River and left May 13th, en route for Moose River via Frederick House and Abitibi Rivers.

The trip to Moose River passed off without mishap of any kind. It took considerable time to make the trip. Being heavily loaded I could not take the full loads on some parts of the river.

Having barely enough supplies when I landed at Moose River to make the survey, I found it necessary to work from "fly-camps", leaving the cook and one man at the main camp, and about every three or four days, he supplying us with bread, etc. The "fly-camp" was picked up each morning, carried in two canoes while surveying, and pitched again towards evening. I find this to be the most effective method of surveying a large river or lake.

I finished the survey with quite enough supplies to make the trip out, which took more time than usual, on account of the water in the rivers being very low.

The Moose River traverses through banks of clay from ten to thirty feet high and is swift and rapid, particularly from its source to the French River.

During the survey of the upper part of the river, rapids were not noticeable at high water stage, but the current is fast and heavy, so much so, that lining or poling up stream, with even light loads, is the only way good progress can be made.

The river has a quick "run-off" and with the exception of a few places is shallow for the greater part of the width at low water stages.

The river bed from its source to within seven miles of Moose Factory, is principally limestone, or limestone covered with clay, gravel and boulders. Great stretches of limestone and gravel bars will be found, reaching as far out as ten chains from either bank of the river throughout its entire length.

The islands of the river are generally high and made up principally of clay soil suitable for agricultural purposes, and sparsely timbered with poplar and birch, some balsam and spruce.

The up stream end of the majority of islands are high with almost sheer cut banks having been annually torn away by spring floods carrying high floats of ice at a great speed, and at the same time depositing high boulders weighing almost a ton. I have seen, when the river got low, long wide gravel shoals show up, the well defined tract of these boulders made during spring floods, which gives the instance of how turbulent these great rivers are during high water period.

The Moose River forms a basin for three of the largest rivers in this section of the north, viz: the Abitibi, Missinabi and the Mattagami, besides numerous other smaller rivers and creeks, as the French, Cheepasch and Kwaatobahegan rivers.

The Moose River at its mouth is about three miles wide, and at low tide is shallow in many places. The natives of this district have noticed quite a change, in the last twenty years, in the way of new islands and water channels being formed, due to the tons of silt and debris brought down the river during flood season, and again being shoved back by tides, which affect the river upstream to the mouth of the French. A study of the plan in connection with this report, will give more plainly the way in which this section of the river is changing. For instance, Maidman's Island is known to have been made up in the manner already stated. It is also apparent the connection Butler's Island is making with Maidman's Island.

Most of the island area in the vicinity is high enough to not be affected by spring floods or high tides and the soil, a clay loam, is excellent for agricultural purposes.

The Hudson Bay Company's post on Factory Island is a good example of the farming possibilities existing in this district. This may also be said of the country through which this great river traverses. There are a few cleared pieces of land in this vicinity yielding wonderful crops of root vegetables, hay, oats, barley and berries. Although the summer seasons are short the growth is very rapid.

The timber along the Moose River consists chiefly of poplar, spruce, balsam and birch, and from a pulp standpoint I would consider it only fair.

I have the honour to be, Sir,

Your obedient servant,

C. R. KENNY,

Ontario Land Surveyor.

Appendix No. 34

TIMBER LIMIT LINES, TIMAGAMI FOREST RESERVE

NEW LISKEARD, ONT., November 3rd, 1923.

Sir,—In compliance with instructions bearing date of August 30th, to survey two limit lines, one in Kittson township and the other east of Anima Nipissing Lake, we proceeded to said work, October 3rd, commencing work at the two mile post on the north boundary of Kittson. Weather conditions prevented our getting an observation at this point so the theoretical angle was turned off and the line surveyed south astronomically to the northwesterly shore of Trout Lake, said point being the southerly end of said line.

Posts of durable material were planted at each mile, mounded with stones and properly referenced by bearing trees and blazed on two sides in the direction in which the line was run.

After completing this work we proceeded to Anima Nipissing Lake, camped where the second limit line was supposed to intersect the east boundary of Kittson and walked east to the starting point and ran west astronomically intersecting said east boundary 1.72 chains north of the two-mile post and making an intersection angle of $90^{\circ} 02'$ measured from north to east. Durable posts were planted every mile, mounded with stones and referenced the same as the first line.

It was impossible to obtain experienced axemen at New Liskeard so we had to get them at North Bay, consequently the transportation expenses.

Accompanying this report please find attached field notes and chainer's affidavits and under separate cover pay list and account in full.

I have the honour to be, Sir,

Your obedient servants,

SUTCLIFFE & NEELANDS,
Ontario Land Surveyors.

*The Honourable Minister of Lands and Forests,
Toronto, Ontario.*

Appendix No. 35

ALGONQUIN PROVINCIAL PARK

ALGONQUIN PARK, ONT., November 21st, 1923.

HONOURABLE SIR,—I beg to submit my annual report for the fiscal year ending October 31st, 1923.

Our staff is composed of a superintendent, two chief rangers, thirty-two park rangers and a housekeeper. One ranger, J. P. Foran, died during the year, and four new rangers were added to the Park Staff.

IMPROVEMENTS

Five new rangers' houses were built. Eight of the old houses had new roofing put on them, two houses had new foundations placed under them, new windows, etc., making them almost as good as new. A number of the

houses were re-chinked and plastered and other small repairs made. Nine new stoves were placed in rangers' houses, required to replace old stoves that were worn or rusted out, and several cooking outfits were replaced. New blankets were distributed to any of the rangers on request. Portages and roads were much improved. Several new portages were cut out. The credit for the roads and trails is due to the Forestry Branch, assisted when possible by members of our staff. Telephones were placed in the Eagle Lake and Sligo Ranger Houses and attached to the Forestry Branch lines. The telephone situation is very much improved, returns to the Department from this source being \$329.88.

GAME

Game has increased in the Park, especially among the fur-bearing animals, such as beaver, otter, mink, marten and fisher. Deer are not so plentiful, disease among them during the winter of 1922-23 and the increased number of wolves, no doubt, accounting for same.

There was the usual amount of illegal trapping in the Park; our rangers succeeding in bringing in six of the offenders. Fines were imposed amounting to \$357.45, which was forwarded to the Provincial Treasurer through the Department. Nine different trappers' outfits were captured or destroyed. 109 traps were brought in to headquarters and possibly as many more destroyed. Nine rifles were also captured, all in poor condition, and a quantity of raw furs was taken and forwarded to the Department for disposal.

FISH

We placed 1,000,000 salmon trout fry in fourteen different lakes along the railroad in the southwest part of the Park.

Fishing was very good throughout the Park waters, many sportsmen going to the northern parts of the Park reporting excellent results. The revenue from the sale of Fishing Licenses amounted to \$2,579.00 and \$101.00 was collected from the sale of Guides' Licenses.

LOTS AND LEASES

A few applications were received for parcels of land upon which to build summer cottages. Only two cottages were built. A number of the summer residents built small additions to their cottages and a great many of the cottages were painted. The revenue collected from rents amounted to \$869.59, which was forwarded to the Department.

Other revenue collected was the sale of firewood amounting to \$14.25. Summer residents were given the down timber and floatwood in the lakes, free of charge, for firewood, on condition that all debris should be cleaned up. This has resulted in considerable cleaning up along the lake shores and the removal of much danger to canoeists from floating driftwood. Rental of the Park team brought in \$195.50. \$72.00 was also paid direct to the Department by the Canadian National Railway for work done by the Park team while the pumping station was being built.

The number of fires throughout the Park was less than usual. Only two fires amounted to anything. One in Hunter Township started by lightning, and the burning in an old slash left by the big fire of 1914 required a lot of hard work to keep it from running into the green timber. The cleaning up of this slash wood is a real benefit, having removed a dangerous menace to life and further destruction of forest in the Park. In the township of Boyle a bad fire

raged for a couple of days, during which time high winds prevailed. The Forestry Branch, assisted by a number of the Park staff, got this fire under control. I may say that the increased efficiency of the Forestry Branch is largely responsible for the greater number of the fires being put out before any great damage was done. Tourists and members of the different Boys' Camps in the Park put out several small fires while travelling through the Park. Cigarettes are, possibly, the greatest menace to our forests and if visitors could be persuaded to use a pipe with a cover, the number of fires would be reduced. Very few fires result from careless campers as this class is fast disappearing. There is always the danger of fires along the railroad and I would recommend that a small gasoline engine and hose be purchased for the Park staff at Algonquin Park Headquarters, also a small gasoline car so that it could be sent to any point in a hurry and in this way greatly assist in keeping fires under control and extinguishing them while they are still small.

There is one girls' camp (Northway) in the Park. This is a select camp and only a limited number of young ladies are accepted. Miss F. Case of Rochester, N.Y., is in charge.

There are four boys' camps in the Park. Ahmek Camp, in charge of Taylor Statten, is considered the best camp of the kind in America. There are three other camps for boys from the United States, "Pathfinders" at Source Lake, H. J. Norton of Rochester being in charge; "Waubeno Camp" at Cache Lake, with H. F. Standerwick in charge, and "Minie Wa Wa Camp," with W. L. Wise of Bordentown, N.Y., in charge. There is a friendly strife amongst the different camps as to which will have the best record regarding fires, etc. A fine type of manhood is being developed that will show the results of early training in the forests of Northern Ontario.

In the Park there are fifty-one rangers' houses. There are four townships that have no rangers' houses, while a number have only one house. We should have at least twenty-four new ranger houses built so that our staff can successfully cover the Park. There are 255 miles of Park border to guard with 120 miles of railroad to watch for poachers and only a staff of thirty-five, all told, to cover twenty-eight townships and nine half townships. These facts I respectfully submit for your consideration.

I have the honour to be, Sir,

Your obedient servant,

MARK ROBINSON,
Superintendent Algonquin Provincial Park.

*The Honourable James Lyons,
Minister of Lands and Forests,
Toronto, Ontario.*

Appendix No. 36

QUETICO PROVINCIAL PARK

KAWENE P.O., ONT., October 31st, 1923.

HONOURABLE SIR,—I beg to submit my report on Quetico Provincial Park for the year ending October 31st, 1923.

During the year the staff consisted of about seven rangers, and as the Park contains 1,000 miles and as all water routes are patrolled entirely by canoe the number of rangers is altogether inadequate. During the winter months the rangers' principal duty is to guard against poachers, and I am pleased to say that owing to the vigilance of the rangers, few, if any, have gained illegal entrance to the Park. There are, however, a few points which must be carefully guarded, chiefly the American Boundary and that covered by the Shevlin, Clarke Company's lumbering operations.

I regret to state that on April 29th we lost one of our rangers, presumably by drowning. Although a careful search was made for the missing man no trace of him could be found, so we were forced to the conclusion that he ventured on the then insecure ice and was drowned.

On June 25th and again in July we were visited by severe hail storms that did much damage to roofing, etc., and caused much work and expense. The portages on all old canoe routes were cleaned of fallen timber and growing brush and six new portages cut.

Fur-bearing animals are steadily increasing, particularly beaver. They may be seen in numbers during open water, swimming about and paying little attention to gasoline boat or canoe. On one occasion I have seen five otters sporting themselves and on another six. Deer and moose do not seem to be as numerous as formerly, but I think this is due more to the animals changing their feeding grounds to later burnings or cuttings rather than to any decrease in numbers.

Two fires occurred on the Park this summer, one, near the American Boundary, which did very little damage, burning about eight or ten acres of underwood, the other, on T.B. 48, the extent of which I have not yet learned.

I will require for the coming season one twin cylinder 7 h.p. heavy duty gas engine for purpose of towing the barge as the engine now used for that purpose is much too light, thus rendering it unsafe to tow horses as often required. I will also require two 17 ft. canvas canoes for use of rangers. I would also recommend that a fire pump, such as is used by the fire rangers with 1,000 feet of hose be placed at headquarters for fire protection. This pump could be carried on the gasoline boat now at headquarters down the French River and Pickeral Lake, a distance of twenty-five miles if necessary. There is no protection, whatever, at headquarters for fire and usually with only one or two men about in case of fire little could be done to protect buildings and equipment.

If I may be pardoned for doing so I would suggest a few changes in conditions.

1. That the superintendent be given power to engage rangers to the number allowed by the Department without having to have recourse to Toronto for authority, thus giving him an opportunity to secure more efficient men.

2. That the number of rangers be increased to twelve, these to patrol in winter and afford fire protection in summer, thus putting all rangers on the Park under one head. The fire rangers are paid more for their services than

the park rangers although the duties are the same, thus causing a friction and jealousy, which can scarcely be overcome in any other manner.

At the time of writing, and for three days previous, we are having a very severe storm, alternate snow and rain with strong wind from the northwest, making it impossible to travel, therefore the mailing of this report may be delayed.

I have the honour to be, Sir,

Your obedient servant,

HUGH McDONALD.

Superintendent Quetico Provincial Park.

*The Honourable James Lyons,
Minister of Lands and Forests,
Toronto, Ontario.*

Appendix No. 37

RONDEAU PROVINCIAL PARK.

MORPETH, ONT., October 31st, 1923.

HONOURABLE SIR,—I beg to submit my report for the fiscal year ending October 31st, 1923.

Rondeau Provincial Park has had a great many visitors this past season, and its popularity is well established as a favoured summer resort. Tourists come from far and near, and cannot say enough in its praise as being one of the finest natural parks in Western Ontario, and as an ideal spot for a real holiday.

Situated as it is between Rondeau Bay and the blue waters of Lake Erie, it is unexcelled as a beauty spot for the erection of summer cottages, which may be built either on the Bay side or on the Lake side as the parties may

Superintendent's House—Rondeau Park.

desire. Each side has its advantages. The Lake beach is admittedly one of the best fresh water bathing grounds in the Dominion and the fresh breezes from Old Lake Erie are most invigorating. While the Bay side has its advantages in the way of fishing, sailing, canoeing and motor boating, it has also good bathing grounds, as in places the bottom is sandy.

The Bay is about seven miles long and from two to three miles in width, and as it is practically surrounded by land it is ideal for aquatic sports of all kinds. In the fall when the wild ducks and geese are flying south the marshes of reeds and wild rice are full of birds and it is a most interesting time for hunters.

Rondeau Park proper covers about 5,000 acres and the greater portion of it is well wooded with all kinds of valuable timber, considerable pine, walnut, whitewood and all other varieties of hardwood being found here, and all the trees are tall, straight and well proportioned and are wonderfully free from all parasitic growths or fungi.

In this beautiful woods may be seen any number of deer. They have become very numerous of late years so that each season as many as can be disposed of for venison are being shot. This last year 129 carcasses were disposed of in this way, being sold on the Park by the carcass, which brought in a revenue of over \$1,000.00 and as they have hitherto destroyed the young growth in the forest to a great extent, already a difference can be noticed in the growth of young shrubs in certain portions of the Park where the deer were wont to browse. We have a small enclosure of about twelve acres in which are confined about sixteen deer. These are of great interest to visitors.

Our beaver colonies are thriving well. There are at least three families and their work shows that they lead a very busy life and are increasing in numbers.

The black squirrels are very numerous, hundreds of the little furry animals being seen and heard chattering throughout the forest.

Owing to the ravages of some red foxes, which have invaded the Park this last year, our stock of wild turkeys and Canadian wild geese has diminished somewhat in numbers.

We have been fairly successful this year in rearing pheasants. A goodly number of English Ring-necks have been liberated from year to year, and we receive many reports from points outside the Park, where the birds have nested and hatched and are thriving wonderfully well. We have also supplied eggs to those who have desired to rear them and in some cases they have been very successful in raising the young pheasant. Our aviary is well stocked with all varieties, such as the Golden, the Silvers, the Reeves, Lady Amhersts, Chinese and English Ring-necks.

Considerable improvements have been carried out in the Park this year. Roads to the extent of about five miles have been gravelled.

The restaurant was thoroughly overhauled, and an addition built to it, which makes it much more convenient in every way.

The pavilion was shingled.

Two new lavatories equipped with Kaustine equipment were completed on the Lake side.

The two bath-houses were moved together and fitted with lockers. An office was placed between them. This has been greatly appreciated by the public and has been very satisfactory.

We must mention also how much the Hydro-Electric has been appreciated in the Park. It was installed in July, 1922, and has proved a wonderful boon

to the place which was formerly in dense darkness. It has not yet been placed in all the cottages but probably in due time will be.

The total number of cottages at present on the Park number 130. A number will be built this coming season. The lots are nearly all taken, so in all probability a new survey will be made at an early date.

As each year brings more visitors to Rondeau Park, the erection of a summer hotel is one of the necessary requirements. Many are asking for such accommodation, and if this was provided it would fill a long-felt want.

I have the honour to be, Sir,

Your obedient servant,

GEO. GOLDWORTHY,
Superintendent Rondeau Provincial Park.

*The Honourable James Lyons,
Minister of Lands and Forests,
Parliament Buildings,
Toronto, Ontario.*

Appendix No. 38

TORONTO, ONT., October 31st, 1923.

Honourable James Lyons, Minister of Lands and Forests, Ontario.

SIR,—I have the honour to submit herewith the report of the Colonization Roads Branch of the Department of Lands and Forests for the fiscal year ending October 31st, 1923.

The report, as has been the custom for a number of years, is in tabulated form, and shows the details of the work and the expenditures in the various townships which were made directly by the Government, and also the grants which were made to municipalities passing Colonization Roads By-laws.

At the end of the statement is a summary or recapitulation of all the expenditures made during the year.

The total expenditure for the year was \$827,855.98. Of this amount \$514,236.72 was expended directly by the Government upon roads and bridges in three hundred and thirty-one different townships. The amount expended upon inspection and miscellaneous services was \$44,464.74, and the balance, a sum of \$269,154.52, was distributed as grants to one hundred and ninety-nine municipalities, which had passed Colonization Roads By-laws.

There is no doubt that the Colonization Roads Branch is playing an important part in the development of the Province in that area where assistance is given, in aiding agricultural, lumbering and, to some extent, mining industries.

The fostering of the tourist trade is not the least important of the functions of this Branch.

Attention has been given during the past fiscal year to the surveying and locating of new roads, and of diversions from roads previously constructed.

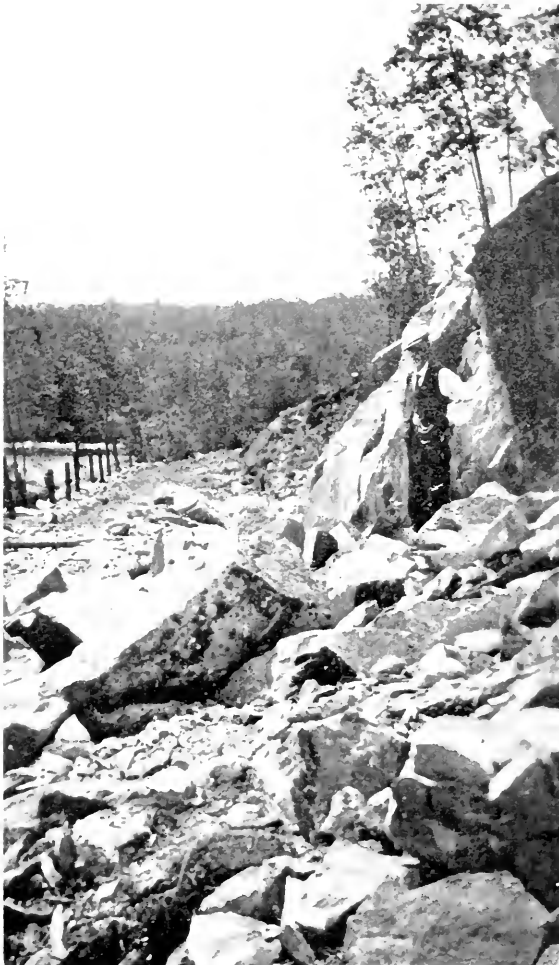

Municipalities and district organizations are co-operating to some extent in our work, but there is still room for improvement. I believe that if all grants were conditional on those benefited being compelled to assume some fraction of the burden of, and responsibility for, every expenditure, better results would be obtained.

All of which is respectfully submitted.

I have the honour to be, Sir,

Your obedient servant,

C. H. FULLERTON,
Superintendent Colonization Roads.

Appendix No. 39

TORONTO, ONT., October 31st, 1923.

To the Honourable James Lyons, Minister of Lands and Forests, Ontario.

SIR,—I have the honour to submit to you the report on the construction and maintenance of highways and bridges, under the provisions of the Northern and Northwestern Ontario Development Act, 1912, and amendments, during the season ending 31st October, 1923.

The "Maintenance Patrol" system on the principal roads, assisted by construction parties where extensive betterments become necessary, has been again followed, with increasing success, a very marked improvement in the general condition of the roads being noticeable during all periods of the open season.

Stoney Creek bridge—International Highway.

Many of the secondary roads have been extended to meet the requirements of settlement, and the tabulated statement also shows that considerable progress has been made in connecting up and extending trunk roads in practically every district to provide "through routes" as far as possible.

Extensive betterments have been made on existing trunk roads, by surfacing many stretches with crushed stone where gravel was unsuitable or difficult to procure.

The surveys referred to in last year's report, which were started with a view to the construction of a road to connect Timiskaming District with the roads in Southern Ontario, have not yet been completed, the survey of the suggested route northwards from Sturgeon Falls and Field, being now arranged for.

All of which is respectfully submitted.

I have the honour to be, Sir,

Your obedient servant,

C. H. FULLERTON,

Director, Northern Development Branch.

Appendix No. 40

NORTHERN DEVELOPMENT BRANCH

SECTION 1 (D)

FARMS

Under this sub-section expenditures were made in connection with the purchase of two additional town lots in the town of New Liskeard, as additions to complete the demonstration farm there; and also in the payment of accounts incurred for the erection of additional farm buildings, fences, and other improvements upon the farm. The property is now being operated as a demonstration farm by the Department of Agriculture.

The experimental farm at Hearst has also been maintained by that Department, and payments were made by the Northern Development Branch in respect of supplies for seeding land, fencing, and labour.

The total expenditure on these accounts was \$11,036.39.

FIRE RELIEF COMMITTEE ACCOUNTS

The Northern Ontario Fire Relief Committee, constituted after the fire in Northern Ontario on October 4, 1922, found that the amount of the contributions they had received from various sources was not sufficient to meet the requirements. Representations were made by the Relief Committee to the Government as a result of which it was decided that money be provided out of the Northern Development fund, under the provisions of Section 1 (d) of the Northern Development Act, to be used for the payment of accounts incurred by the Relief Committee, after being audited and passed by the Department as represented by the Northern Development Branch. The accounts cover materials, supplies, feed and other necessities of the settlers. Further provision was made for the payment of accounts incurred for similar objects in connection with the fire near Norembega, east of Cochrane, in 1923. The amount expended under these heads was \$282,060.99, the accounts being rendered to the Fire Relief Committee, approved by them and forwarded to the Northern Development Branch, where they were audited prior to payment.

In the emergency after the fire of 1922, a considerable quantity of army equipment was loaned by the Department of Militia and Defence for the immediate use of the fire sufferers. As living accommodation, equipment and other supplies became available for the fire sufferers, the articles so loaned by the Militia Department were returned. It was found, however, that a considerable quantity of the equipment had become unfit for military use and was not acceptable for return to stores and was, therefore, charged by the Militia Department against the Fire Relief Committee. The account amounted to \$73,742.32; and provision was made to meet this charge out of the Northern Development fund.

Payment was made of a portion of the account amounting to \$15,748.28, the remainder being left over to be taken care of either by the replacement of the articles by repurchasing, or by cash remittance.

SAWMILLS

In order to provide the fire sufferers with sawn lumber from local supplies, two portable sawmills were provided by the Northern Development Branch, operated in the vicinity of New Liskeard. The cost of these mills, together

with their operating expenses, amounted to \$4,503.55. The work was under the immediate supervision of the local Crown Timber Agent.

SECTION 1 (E)—CREAMERY

The New Liskeard Creamery, which was operated by a manager under the Northern Development Branch, was taken over on the 27th of March last by the Department of Agriculture. Prior to that time the expenditures in connection with the operation of the institution amounted to \$3,975.63, which was paid by the Branch out of the Northern Development fund.

SECTION 2 (1)—SEED GRAIN

In accordance with the practice adopted in 1915 and continued during succeeding years, seed grain was provided by the Northern Development Branch for distribution to those settlers and farmers in Northern and Northwestern Ontario who wished to take advantage of the opportunity of securing a sound quality of seed in return for lien notes secured upon the property of the purchaser. The total quantities of seed required showed a considerable reduction as compared with those of the previous year, owing to more favourable crop conditions prevailing in the season of 1922. Exclusive of the supplies for the Temiskaming fire area there was supplied 4,206 bushels of oats, 306 bushels wheat, and 468 bushels barley. The seed was all purchased in Ontario; and wherever supplies of the requisite quality were available, preference was given to the purchase of local stocks. The distribution was made as formerly under the immediate superintendence of the District Representatives of the Department of Agriculture, or officers of the Northern Development Branch.

The situation in the Temiskaming fire area in the district of Haileybury with reference to seed requirements was exceptional, and special measures were taken in consequence. The Fire Relief Committee, who had been active in supplying the needs of the fire sufferers in other respects, did not extend their operations to the supplying of seed and this work was, therefore, performed under the Northern Development Act. Whereas in other districts throughout the North seed was limited to oats, wheat and barley, the requirements in the fire area necessitated the supply, in addition, of red clover, 12,554 pounds; alsike, 7,660 pounds; timothy, 46,690 pounds; mixed seed, 4,400 pounds; peas, 1,454 bushels. This was required to reseed cleared land that had already been seeded but burned over, and in addition, to seed down additional land cleared by the fire. Oats were supplied to the amount of 10,914 bushels; wheat, 1,200 bushels and barley, 1,522 bushels. The terms granted to the fire sufferers were somewhat more liberal than those usually applied, the lien notes instead of becoming due on the 1st of December, 1923, were extended to the 1st of March, 1924. The mixed grass seed purchased for this area was obtained in Northwestern Ontario. The whole of the local arrangements for the purchase and distribution to the fire sufferers were carried out by the district Agricultural Representatives who received also the co-operation of the Superintendent of the Demonstration Farm at New Liskeard.

The total expenditure incurred in the purchase and distribution of the seed amounted to \$35,698.75.

SECTION 2 (1)—AGRICULTURAL IMPLEMENTS FOR FIRE SUFFERERS

One of the consequences of the fire in the vicinity of Haileybury on October 4th, 1922, was that many of the farmers lost the whole of their agricultural implements along with their other property.

The question of replacing the implements was discussed by the Honourable the Minister with the Ontario Fire Relief Committee, and on the 7th of March, 1923, it was decided that those who had lost farm implements in the fire should make application to the Fire Relief Committee to replace their loss. The Committee was then to pass upon the applications and transmit those approved to the Northern Development Branch. The Branch would then order the implements to be supplied. The terms ultimately decided upon for the sale of these implements to the fire sufferers were that the cost price of the articles was divided into three equal amounts, for which promissory notes were signed by the purchaser. These notes were made payable respectively on the 1st of October, 1924, 1925 and 1926 with interest at the rate of 6 per cent. per annum from the 1st of October, 1923, and under the authority of Section 2 (1) of the Northern Development Act, 1918, a lien was placed against the land of the purchaser.

The implements to be supplied included seed drills, plows, disc harrows, scufflers, smoothing harrows, mowers, hay rakes, binders and wagons. Negotiations were entered into with the principal manufacturers of these implements in Ontario, with the result that satisfactory arrangements were made for the prompt shipment of the various implements on favourable terms.

In all, some sixty varieties of the various types of implements were asked for by the fire sufferers, and as the applications were received and the promissory notes prepared and signed the shipments were promptly made by the various companies. Very valuable co-operation and assistance was rendered by the officials of the T. & N. O. in the handling of the distribution.

The total number of implements ordered was 655, purchased from nine firms. Two hundred and eighteen farmers took advantage of this arrangement as follows:

Township	No. of	
	Purchasers	Amount
Armstrong.....	14	\$3,070 56
Beauchamp.....	5	1,532 00
Brethour.....	12	3,090 31

Savard.....	2	341 22
Sharpe.....	1	161 63
Tudhope.....	1	35 47
	218	\$45,952 76

The cost of implements purchased was \$46,771.37; the total amount of the promissory notes given in exchange was \$45,952.76, and in addition \$738.89 was received in cash, making a total sum realized of \$46,691.65. One of the chief difficulties encountered in this work was the limited time available from the date when the decision was made to provide the implements, and the time when the articles were required for seeding; but by giving preference in shipping

to the implements most urgently required, the necessities of the case were met. The provision of these implements proved to be a very valuable help to the farmers of the fire stricken area.

SECTION 2 (4)—SCHOOLS

Under this subsection expenditures were made out of the Northern Development fund in connection with the completion of the alterations and extension of the former Stock Judging Pavilion at New Liskeard, situated on the lands of the Demonstration Farm, for the purpose of a Continuation School. This work was commenced in the previous financial year.

The expenditure for the year ending 31st October, 1923, amounted to \$32,137.77.

Road-making in Peterborough County.

Appendix No. 41

46 RICHMOND STREET WEST, TORONTO,

19th December, 1923.

To the Honourable the Minister of Lands and Forests.

DEAR SIR,—It affords me pleasure to present herewith a report of the business of this department to the end of October, 1923.

The Department continues to give careful consideration to each application and advances money on the basis of the valuation of the actual improvements that have been made to the land.

It is a pleasure to be able to refer to the manner in which interest payments have been made, which from the accompanying statement you will observe is 90.32 per cent. of interest due.

The Department frequently receives advice that the loans of this department have been a great help to the development of the property on which the loans have been granted, and the object seems to be that the settler is desirous of getting sufficient land developed to enable him to carry stock.

With reference to the loan granted to the Kenora Dairy Company, you will observe from the report that this company failed, and the Department anticipates that there will be at least a loss of 50 per cent. in connection with this loan.

All of which is respectfully submitted.

F. DANE,
Settlers' Loan Commissioner.

MEMORANDUM OF LOANS TO CREAMERIES AND OTHER LIKE ASSOCIATIONS TO OCTOBER 31ST, 1923

Applications and Loans

The Sudbury Co-operative Creamery Co., Ltd.....	\$24,000 00
The Kenora Dairy Co-operative Association, Ltd.....	13,000 00
Producers' Co-operative Creamery Co., Ltd., Lavallee, District of Rainy River...	3,500 00
Total.....	\$40,500 00

Note.—The Sudbury Co-operative Creamery Company and the Producers Co-operative Creamery Company of Lavallee are in active operation and have promptly paid the amounts falling due on their loans. The Kenora Dairy Co-operative Association failed to operate successfully and went into liquidation on March 8th, 1922, having failed to pay any portion of their loan or interest.

The land was deeded to the Crown on December 30th, 1922, and registered in Land Titles Office at Kenora on January 2nd, 1923, as No. 5882: also Bill of Sale covering chattels on January 3rd, 1923, as No. 919, by the Clerk of the District Court at Kenora.

The standing of the account is as follows:—

Principal.....	\$13,000 00
Interest as at June 1st, 1923.....	1,818 35
Total.....	\$14,818 35

The Department sold a quantity of cans to the Sudbury Creamery Company for which \$225.00 was received, leaving balance of amount outstanding to be \$14,593.35.

Appendix No. 42

REPORT OF THE FORESTRY BRANCH, 1923

SIR,—The report of the work of this Branch for the year ending October 31st, 1923, is given under the sections of Forest Fire Protection, Forest Investigations, Reforestation and Forest Pathology.

I.—FOREST FIRE PROTECTION

(1) Legislation

The "Permit Area." as designated in an Order-in-Council dated the 18th day of May, 1917, was by an Order-in-Council dated the 1st day of June, 1923, extended to cover the entire Province within the Fire Districts. The benefits derived from this extension were, for the balance of the season, immeasurable.

Forest protection requires the unstinted support of the general public. The individual in the woods does not accept sufficient responsibility as a citizen. The result is, in many instances, gross carelessness and indifference in causing fires, and flat refusal to assist in fighting them.

The exceptionally dry periods experienced this past season, and the resultant serious fire situation, emphasized more strongly than ever the need for jail sentences as an alternative to a fine for certain infringements of the Act.

The failure on the part of the general public to give co-operation towards the suppression of a forest fire, not only makes compulsory fire-fighting extremely advisable, but points to a crying need for legislation placing the onus of proof for responsibility of a fire on the person occupying the land on which the fire occurs.

The appointment of certain superior field officers as justices of the peace for the purpose of taking cognizance of offences against the provisions of the Act or the Regulations is also desirable.

(2) Organization and Personnel

The Western Inspectorate, comprising the districts of Kenora, Rainy River, and Thunder Bay as far east as White River on the Canadian Pacific Railway, and Tashota and Caramat on the Canadian National Railways, was under the supervision of one Forest Supervisor, with headquarters at Port Arthur. This Inspectorate was divided into seven Chief Ranger Districts, namely Kenora, with headquarters at Kenora; C.G.R. Western, which consisted of a supervisory patrol over the Canadian National Railways from Fort William to Ophir, headquarters at Sioux Lookout; C.G.R. Central, headquarters at Armstrong; Rainy River, headquarters at Fort Frances; Thunder Bay, headquarters at Port Arthur; Nipigon, headquarters at Macdiarmid; and Longlac, headquarters at Longlac.

The Cochrane Inspectorate, comprising the territory along the northern line of the Canadian National Railways from the Quebec boundary west to the eastern boundary of Nipigon Reserve and extending north to the Albany River and James Bay, was supervised by one Fire Inspector with headquarters at Cochrane. This area was divided into eight Chief Ranger Districts as follows: C.G.R. Eastern, headquarters at Grant; Hearst, headquarters at Hearst; Kapuskasing, headquarters at Kapuskasing; Cochrane, headquarters at Cochrane; Abitibi, headquarters at Lowbush; Matheson, headquarters at Matheson; Timmins, headquarters at Timmins; New Liskeard, headquarters at New Liskeard.

The old Sudbury Inspectorate, which included the territory adjacent to the Canadian Pacific Railway from Mattawa and Bigwood to Sault Ste. Marie and White River; the southern line of the Canadian National Railways from North Bay and Pickerel River to Jellicoe; the Algoma Central and Hudson Bay Railway from Sault Ste. Marie to Oba, and the Temiskaming and Northern Ontario Railway from North Bay to Elk Lake, was divided into the Soo and Sudbury Inspectorates, with the territory along the Canadian National Railways from Caramat to Jellicoe being added to the Western Inspectorate.

The Soo Inspectorate, which extended from Cutler to Sault Ste. Marie, and from Chapleau to White River on the Canadian Pacific Railway; from Dunrankin to Caramat on the southern line of the Canadian National Railways; and from Sault Ste. Marie to Oba on the Algoma Central and Hudson Bay Railway, was under the direct charge of a District Forester, with headquarters at Sault Ste. Marie, who was assisted by one Forestry Assistant and one Fire Inspector. The six Chief Ranger Districts were Hornepayne, with headquarters at Hornepayne; Oba, headquarters at Oba; Franz, headquarters at Franz; A.C.R., headquarters at Sand Lake; Mississagi South, headquarters at Kendiogami Lake; Blind River, headquarters at Blind River.

The Sudbury Inspectorate extended from Mattawa and Bigwood to Cutler and Chapleau on the Canadian Pacific Railway; from North Bay and Pickerel River to Dunrankin on the southern line of the Canadian National Railways; from North Bay to Elk Lake on the Temiskaming and Northern Ontario Railway; and from Sudbury to Little Current on the Algoma Eastern Railway. A District Forester with headquarters at Sudbury was in direct charge of the area, and was assisted by one Forestry Assistant and one Fire Inspector. Another Forester was placed in charge of each of the Sudbury and North Bay Chief Ranger Districts, with headquarters at Sudbury and North Bay respectively, each being directly responsible to the Forester in charge of the Inspectorate. There were ten Chief Ranger Districts; Foleyet West, headquarters at Elsas; Foleyet East, headquarters at Gogama; Mississagi West, headquarters at Chapleau; Mississagi East, headquarters at Biscotasing; Timagami West, headquarters at Mattagami Post; Timagami East, headquarters at Timagami; Webbwood, headquarters at Webbwood; Sudbury, headquarters at Sudbury; North Bay, headquarters at North Bay.

The organization in the territory south of Lake Nipissing and within the Fire District, was the same as in 1922, there being three Inspectorates—Georgian Bay, Algonquin, and Trent, each in charge of a District Forester, assisted by a Forestry Assistant.

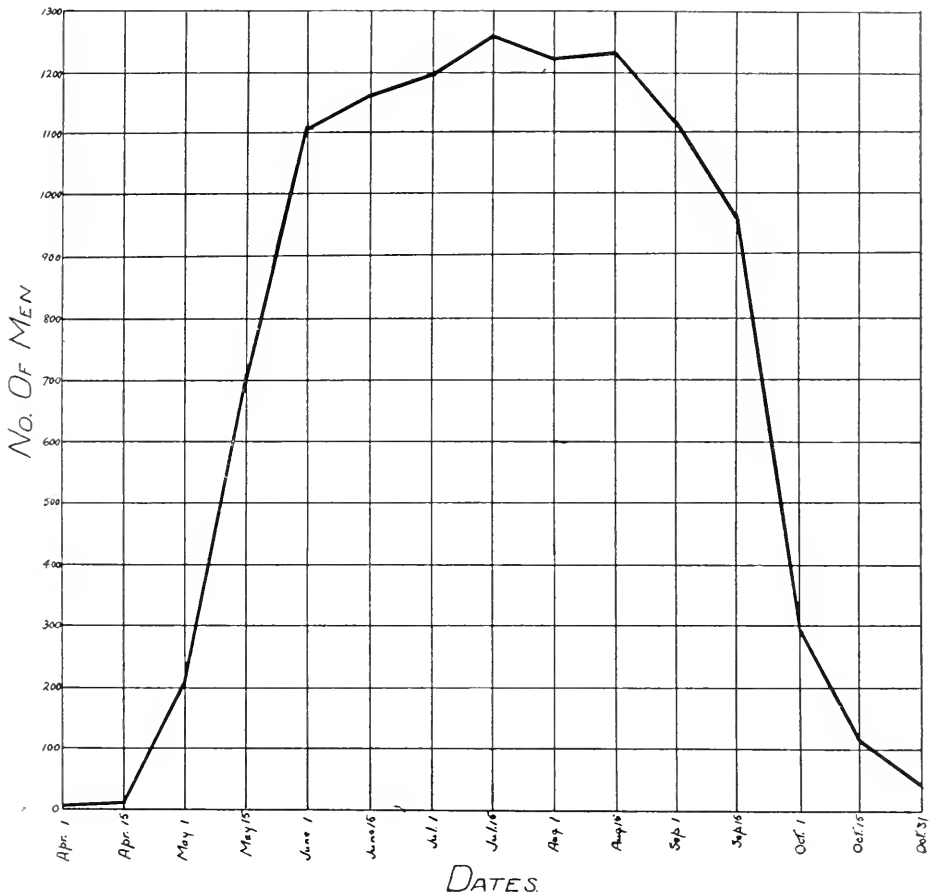

The Georgian Bay Inspectorate, with headquarters at Parry Sound, comprised the area along the Canadian Pacific Railway from Lovering to Bigwood, and along the Canadian National Railways from Rathburn to Pickerel River, Rama to North Bay, and Depot Harbour to Ravensworth. This area was divided into two Chief Ranger Districts, Georgian Bay West with headquarters at Parry Sound, and Georgian Bay East with headquarters at Powassan.

The Algonquin Inspectorate, with headquarters at Pembroke, included the territory from Pembroke to Mattawa on the Canadian Pacific Railway, and from Pembroke to North Bay and Douglas to Ravensworth on the Canadian National Railways. There were two Chief Ranger Districts, Algonquin North with headquarters at Pembroke, and Algonquin South with headquarters at Brule Lake.

The Trent Inspectorate consisted of the balance of the Fire District, the area extending from Kinmount and Bannockburn to Wallace on the Canadian

NUMBER OF MEN ON TEMPORARY STAFF AT DIFFERENT PERIODS.

1923.

National Railways, and from Addington to Maberly, and Oconto to Ashdod on the Canadian Pacific Railway. There was one Chief Ranger District, Trent, with headquarters at Dacre.

The total field supervisory staff for the seven Inspectorates, which were divided into thirty-six Chief Ranger Districts, consisted of twelve Foresters, one Forester Supervisor, three Fire Inspectors, thirty-six Chief Rangers, and eighty-three Deputy Chief Rangers. This allowed direct supervision of one Chief or Deputy Chief Ranger to every ten rangers.

The average daily force, including the Chief and Deputy Chief Rangers, was as follows: April, 24; May, 692; June, 1,160; July, 1,251; August, 1,218; September, 797; October, 133. The largest number of men on duty at any one time, including 119 Chief and Deputy Chief Rangers, was 1,267.

Including the Chief and Deputy Chief Rangers there were 205 men on duty on the first day of May. By the 15th of the month the number had increased to 699, and by the first of June to 1,104. On the 15th of June the total number was 1,166; on the first of July, 1,198; on the 15th of July, 1,257; on the first of August, 1,220; on the 15th of August, 1,223. In some of the outlying dis-

tricts it was possible to discontinue some patrols the last of August which reduced the number on duty the first of September to 1,115. Men were taken off duty from then on as conditions permitted, the total number on duty on September 15th being 968, and on the 1st of October, 291. A short period of dry weather the first few days of October necessitated the continuance of some patrols longer than usual, keeping the total number on the pay roll up to 111 on the 15th of the month. Men kept on duty after that date were largely engaged on improvements or repairing equipment.

The need of a permanent skeleton staff composed of the Chief and Deputy Chief Rangers has become more apparent each season. The number of rangers in a Chief Ranger District varied this past season from fourteen to fifty-eight. Both Chief and Deputy Chief Rangers should be on duty earlier in the spring than is now possible in order that they may arrange their organization of, on the average, thirty rangers before the early fire season. They should also be on duty longer in the fall to overhaul equipment and work on permanent improvements.

To successfully fill the position of a Chief Ranger, or of a Deputy Chief Ranger, for so far as possible only men who may eventually become Chief Rangers are appointed to the positions of Deputies, a man should be an experienced woodsman, have organizing and executive ability, be able to handle men, be able to deal with the public, be energetic, and above all, be loyal to the organization of which he is a part. Men having these requirements, and who seek the positions, are not plentiful. If a permanent system of appointment could be adopted the efficiency of the organization would be greatly increased at a small additional increase in the total pay roll, which without doubt would be more than offset by the reduction in the extra fire-fighting costs. There is sufficient work to keep a skeleton staff composed of these men employed throughout the winter months, and in addition, it would afford an opportunity for organizing some system of instruction of these men.

(3) *Expenditure.*

The expenditure for the fiscal year was \$1,062,956.24, classified as below, with the figures for the preceding years given for comparison. Against this expenditure, protection accounts for the year totalled \$196,888.44.

(4) *Fires*

There was little precipitation in the late summer and fall of 1922, resulting in a small amount of moisture in the ground when cold weather set in. The snowfall during the following winter was heavier than usual, but when the break-up came towards the end of May the exceptionally warm weather and prevalent strong winds carried off the snow so quickly that little of it was absorbed by the deeply frozen ground. The surface of the ground and the covering litter rapidly dried out, and instances occurred of fires starting in areas which three days previous had been covered with snow.

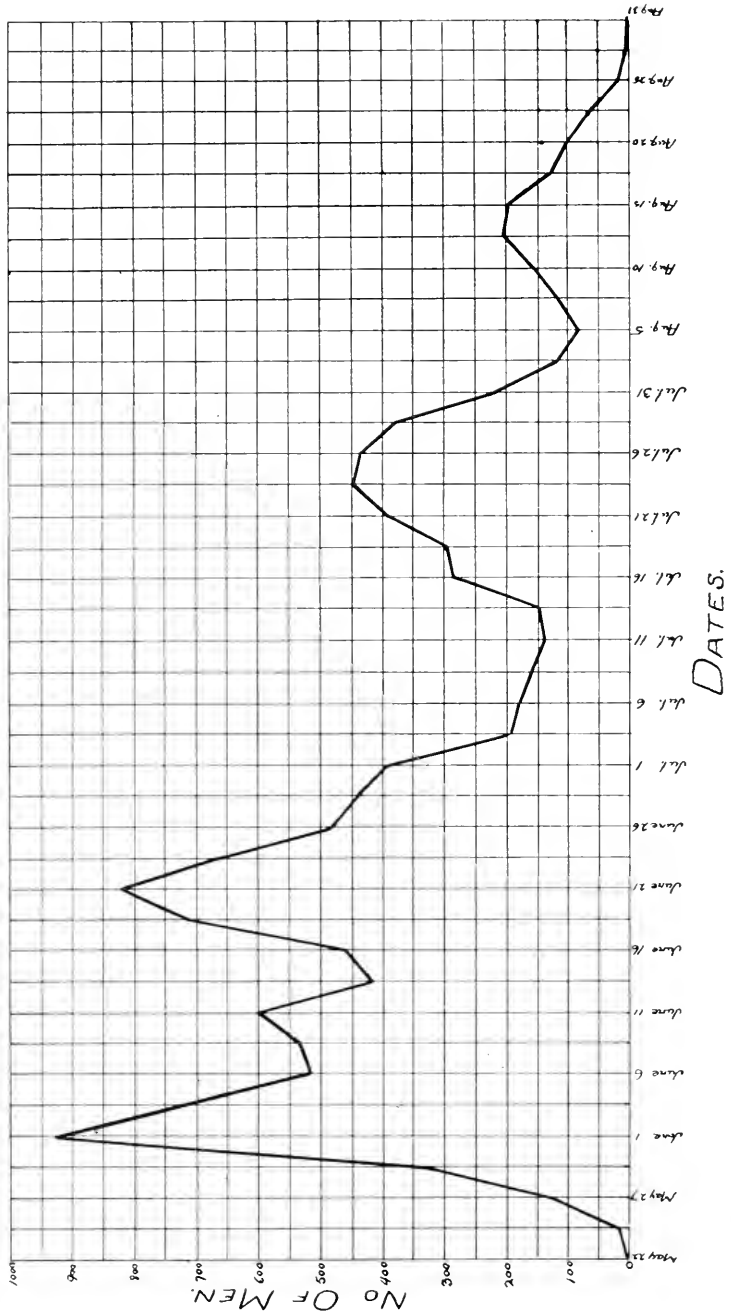

The last week of May and the first week of June was the worst fire period of the season, fires being reported from all parts of the Province. The peak was reached on the 1st of June when there were over 900 extra fire-fighters on duty, in addition to the regular staff of 1,104 on that date. Scattered light showers occurred on the 2nd of June and intermittently from then until the middle of the month when the number of extra men had been reduced to slightly over 400. A second seriously dry period then set in and on the 21st the number of extra fire-fighters had increased to 800. This period was followed by heavy showers and conditions were normal until the middle of July, when

CLASSIFICATION OF EXPENDITURE

ITEM	1923	1922	1921	1920	1919	1918
Pay roll	\$535,810 35	\$417,023 88	\$433,463 02	\$398,919 61	\$405,212 30	\$416,500 00

Extra fire fighting	143,508 13	40,969 67	65,267 79	41,491 24	58,863 92	1,445 00
Express, postage, etc.	28,083 20	9,561 17	7,926 65	5,401 02	5,646 47	5,365 00
Air operations	86,404 71	23,437 84
Repairs, upkeep, etc.	7,419 24	17,670 45
Miscellany	15,328 44	23,598 77	31,331 01	2,331 08	5,955 02	6,054 78
Gasoline and oil	7,485 69
Rent	5,251 41
Brush-burning	229 00
Advertising	14,066 45
Total	\$1,002,956 24	\$643,902 63	\$610,534 74	\$506,107 71	\$528,071 51	\$486,131 78

the third outbreak occurred, which was less serious than either of the previous two, the number of extra men employed reaching a total of 450. By the 1st of August normal conditions again prevailed. Another outbreak occurred the second week in August, but was not general throughout the Province as were the others. The last critical period was in October and was confined mostly to the southern districts.

*NUMBER OF EXTRA FIRE FIGHTERS
ON DUTY DURING HEIGHT OF FIRE SEASON
1923*

Settlers were responsible for 170 fires, or 12.7 per cent. of the total. Of this number 26 were permit fires which got beyond control. It is worthy of note that the number of fires caused by settlers did not increase in proportion to the increase in the total number of fires, due in no small degree to the application of the Permit Regulations to include that portion of Northern Ontario formerly exempt.

During the season twenty-two convictions were secured for setting out fires contrary to the Regulations. The majority of these occurred after the extension of the Permit Area.

Campers, by which is meant berry-pickers, picnickers, tourists, trappers, Indians and prospectors, were charged with 167 fires, or 12.4 per cent of the total. It was not possible to definitely place the responsibility for any one of these fires. The adoption of the Travel Permit for certain districts, at least during hazardous periods, may be necessary to secure greater caution on the part of people in the woods.

Railways are known to have caused 249 fires, or 18.5 per cent. of the total. In part these can be attributed to "hang-overs" from early spring burning in cleaning up the rights-of-way, the fires burning deep into the dry ground and breaking out again days after all indications of fire had disappeared on the surface. In some cases fires were definitely traced to locomotives which, on immediate inspection, failed to show any defects in the fire protective appliances.

The fires of railway origin were distributed as follows:

AVERAGE NUMBER OF RAILWAY FIRES PER HUNDRED MILES OF LINE THROUGH FOREST SECTIONS

RAILWAY	1923	1922	1921
Canadian National Railways (exclusive of northern line).....	6.2	*3.2	*3.7
Canadian Pacific Railway.....	5.3	2.7	3.9
Canadian National Railways (northern transcontinental line only)	2.0	2.4	1.8
Temiskaming and Northern Ontario Railway.....	7.3	7.3	6.3
Algoma Eastern Railway.....	1.1	4.5	5.9
Algoma Central and Hudson Bay Railway.....	3.0	4.2	0.6
	4.9	3.3	3.7

*Former C.N.R. and G.T.R. figures combined.

RAILWAY	Per cent. of Total Number of Railway Fires					
	1923	1922	1921	1920	1919	1918
Canadian National Railways (exclusive of northern line).....	45.9	*36.1	*47.9	*36.4	*28.1	*38.8
Canadian Pacific Railway.....	32.5	25.3	29.8	27.9	26.3	24.9
Canadian National Railways (northern transcontinental line only).....	7.6	13.3	7.9	16.4	25.9	21.8
Temiskaming and Northern Ontario Railway.....	9.6	14.5	10.6	9.9	17.9	10.5
Algoma Eastern Railway.....	.4	2.4	2.8	5.0	0.3	2.9

	100.0	100.0	100.0	100.0	100.0	100.0

*Former C.N.R. and G.T.R. figures combined.

Lightning is known to have caused 74 fires, or 5.5 per cent. of the total number. Of this number 16 were in the Sudbury Inspectorate, and 32 in the Algonquin Inspectorate.

Logging operations were responsible for 58 fires, or 4.3 per cent. of the total. Seventy-six fires, or 5.7 per cent. of the total were due to miscellaneous known causes.

A total of 549 fires, or 40.9 per cent. were classed as unknown. In many cases the cause was fairly definitely set, but proof could not be obtained.

A total of 1,343 fires were reported with an area burned of 2,120,148 acres. Of this total, 554 fires, or 41.2 per cent., were confined to areas of 5 acres or less; one-half the fires were kept within 10 acres in size, and 69.4 per cent. of the total within areas of 100 acres or less.

CLASSIFICATION OF BURNED-OVER AREA

FOREST CONDITIONS	1923		1922	1921	1920	1919	1918	1917
	Acres	Per cent.	Per cent.	Per cent.	Per cent.	Per cent.	Per cent.	Per cent.
Timber land.....	593,569	28.0	13.4	13.2	14.7	26.8	15.8	19.1
Cut-over land (some timber left)	312,184	14.7	20.2	25.2	38.8	27.3	37.0	39.2
Young growth (below six inches)	775,012	36.6	25.2	20.2	26.7	25.3	23.5	19.5
Barren and grass land.....	439,383	20.7	41.2	41.1	19.8	20.6	23.7	22.2
	2,120,148	100.0	100.0	100.0	100.0	100.0	100.0	100.0

The area of timber land burned over was 593,569 acres, or 28.0 per cent. of the total area burned, as is shown in the above table. This percentage is attributable to the increased percentage of large fires completely getting beyond control.

Cut-over land formed 14.7 per cent. of the total area burned, and land upon which young growth existed 36.6 per cent., or a combined area of 1,087,196 acres. While the amount of timber land burned over is serious, the area comprised in the former two classes is equally a serious matter as it is from such classes of land that our future timber crop will be secured, and every fire on such areas not only means a longer lapse of time before lumbering operations may be carried on, but in many cases a deterioration in the species of trees on the areas.

The area of barren and grass land burned over totalled 439,383 acres, or 20.7 per cent. of the total. Much of the barren land, which formed the greater part of this area, at one time was covered by merchantable timber. Repeated fires have, however, reduced the bulk of it to little better than a rock desert upon which merchantable timber will not again be available for very long periods of time.

CLASSIFICATION OF FOREST AREAS BURNED OVER, 1923

RANGER DISTRICT	Number of fires	Timber land, mainly coniferous, i.e., softwood	Timber land, mainly hardwood	Cut-over land, some softwood left	Cut-over land, some hardwood left	Young growth, mainly coniferous	Young growth, mainly hardwood	Barren land	Grass land	Totals (acres)

(5) *Permits*

A total of 5,907 permits were issued during the season, covering an area of 54,784 acres, as compared with an average of 6,739 permits covering 26,260 acres for the seasons 1917 to 1922 inclusive. Of this number, 5,677 permits were issued in 207 townships, 159 in unsurveyed territory, and 25 for railway rights-of-way, these latter covering an area of 22,488 acres. With the increase in the size of the Permit Area a corresponding increase is naturally to be expected in the number of permits issued and the acreage burned over. In June however, when a great amount of burning is usually done, the hazard was so great that permits were refused in most localities. The number issued in July and August was also small. It was necessary for the first time to keep the Permit Regulations in operation during October owing to the unusual weather.

STATEMENT OF PERMITS ISSUED

(6) Equipment

The expenditure required annually for the replacement of equipment is necessarily large in an organization with a field staff of over twelve hundred men, but the purchase of additional and improved fire-fighting equipment must not be overlooked. Forest protection to-day depends largely upon organization and equipment, especially on the mechanical side. The combating of fires with effective means has also a desirable influence in raising the general spirit of the personnel to reduce fire losses.

Of the total expenditure of \$127,186.92 on equipment this past season, almost one-half the amount was invested in portable forest fire-fighting units and hose. Fifty-four of these units, or pumps as they are commonly called, were purchased, with 2,000 feet of hose for each, and paid for themselves many times over this one season. They not only took the place of manual labour, which was not always available, but enabled the control of fires in places where otherwise it would have been impossible.

That no towns nor settlements were burned and no lives lost was due in some instances only to the morale of the field staff and their work with the pumps. During early June five northern towns were seriously endangered, but in each case it was possible with the use of two or three pumps to check the fire before buildings were destroyed. In one instance the situation became so critical that the women and children were placed on a special train ready to leave the town, but the rangers, with their faces muffled with wet cloths so hot was the blaze, were able with three pumps to check the fire and not one building was burned within the town limits.

Even after the close of the forest fire season the greater part of one small town, in which is located a Chief Ranger headquarters and storehouse, was saved from destruction by a fire which started within the town itself. The pumps had been stored away for the winter, but the one man at the headquarters was able to have them in operation in a very short time and the fire was stopped with comparatively small loss.

These instances demonstrate the usefulness of the forest fire pump in protection work. The average life of a unit is not definitely known, but it is at least five years. The initial outlay therefore, distributed over this period makes the annual charge reasonably small. There are now 88 pumps in stock but many more are needed.

In districts where the roads will permit, light delivery trucks are used to good advantage. They provide a means of rapid transport for men and sup-

plies in case of fire, aid a Chief Ranger in the supervision of the district, and in the more thickly settled areas where many burning permits are issued enable the covering of a large territory by one man. Nine such trucks were purchased this past season, six of these being replacements. It is desirable that more be purchased next season, from the standpoint of economy as well as efficiency.

In some of the northern districts railway motor cars take the place of the motor trucks, permission being obtained from the railway companies for the operation of the cars over their lines. While not as effective as the automobiles, because of their limited routes of travel, they are almost indispensable especially where the train service is infrequent. Light cars which can be handled by one man are used for inspection work, while for general use a heavier car capable of pulling a loaded trailer is used. All of these cars can carry two men with a pump and 500 feet of hose. A total of nine were purchased during the season, two of these being replacements.

In outlying districts where there are neither roads nor railways and on large lakes, motor boats are used, the most common type being the lumberman's pointer equipped with a medium duty motor. In some waters these boats are necessary for the transport of men and supplies, while in others they are a means of economy in that the two boatmen can cover a patrol which would take from four to six canoe-men. They are also the safer method of travel on the larger lakes. Four pointers were purchased this past season, one cabin cruiser, and one open cruiser.

The replacement of condemned tents and canoes requires the purchase annually of a number of both, in addition to those required for new patrols. Spares must also be kept on hand for the use of extra fire-fighters. A total of 345 tents were bought during the season, and 120 canoes, the number of tents being exceptional, occasioned by the number required for the large gangs of extra fire-fighters.

A total of 3,055 pairs of blankets were bought, this large number being due in part to the supply required for the extra men on duty during the bad fire periods, and in part to the replacement of a large quantity sent to the fire sufferers in the vicinity of Haileybury in the fall of 1922. Most of the blankets purchased during the past season were made up with distinctive markings.

The major equipment in stock at the close of the fire season for use by the 1,200 rangers, consisted of 88 portable fire pumps, 156,500 feet of hose for use with these pumps, 13 automobiles, 27 railway motor cars, 151 railway velocipedes, 29 motor boats, 3 motor canoes, 690 ordinary canoes, 31 riding saddles, 4,300 pairs of blankets, 957 tents, 2,185 axes, 546 grub and ordinary hoes, and 2,541 shovels.

(7) *Locomotive Inspection*

As in previous years two men were employed throughout the season on the inspection of fire protective appliances on locomotives operating on railways under the jurisdiction of the Dominion Board of Railway Commissioners, these men acting under appointments as officers of the Board.

A total of 41 round-houses and gravel pits were visited periodically, and 1,760 locomotive inspections made, covering 866 locomotives. There were in addition, 21 inspections of locomotives operated by lumber companies, bringing the total number of inspections up to 1,781. The table below shows a steady increase in the number of inspections made each season, and a steady decrease since 1918 in the percentage of locomotives found defective; this percentage in 1923 was only 2.5.

LOCOMOTIVE INSPECTION, 1923

 *Former C.N.R. and G.T.R. figures combined.

(8) *Improvements*

The past season was anything but favourable for improvement work, the fire situation keeping all men busy until well into late summer. In spite of this however, considerable was accomplished, most of the work being done by the regular ranging staff.

A certain amount of work is necessary each spring on all portages and trails totalling several hundred miles, to clear them of windfalls and debris accumulated during the winter months. In addition to the accomplishment of this, over 100 miles of new trails were cut during the season.

A total of 55 ranger cabins were erected, most of these having log walls and a pole roof covered with paroid roofing. Nine storehouses were built and three others enlarged, two canoe sheds, seven garages and two boat houses.

The largest building was the combined boat and storehouse at Parry Sound, this being a galvanized iron L-shaped building with a plank frame. The boat-house is 36 feet square with three boat slips, and is equipped with a two-ton combined chain hoist and trolley. The storehouse is 22 feet wide and 50 feet long, with skylights throughout. The whole building is set on piling driven to an average depth of 10 feet. The construction of the building was under the direct supervision of the District Forester.

The number of lookout towers was increased by the addition of six 80-foot steel towers and 23 wooden towers, the latter all being put up by the rangers themselves.

Several telephone lines were built with a total of 299.5 miles. Principal among these were the following:

French Lake to Sturgeon Narrows and north end of Agnes Lake, Rainy River District, ground circuit.....	50	miles
Larder Lake to Mt. Chiminiss, Matheson District, ground circuit.....	11	"
Kenney to Red Cedar Lake, North Bay District, ground circuit.....	28	"
Parry Sound to Go-Home Bay, Georgian Bay West District, ground circuit.....	30	"
Killaloe to south-east corner Niven Township, Algonquin South District, ground circuit.....	46 $\frac{1}{4}$	"
Pembroke to Brent, Algonquin North District, metallic circuit.....	78	"
Gilmour to lookout tower in Cashel Township, Trent District, ground circuit.....	13	"

A light field telephone cable similar to that used for military purposes has been found very satisfactory for temporary telephone lines. Eighty-two miles of this type of line were in use during the season.

The total permanent improvements now consist of 253 cabins, 32 storehouses, 18 garages, 7 boat-houses, 2 canoe sheds, 17 steel lookout towers, 100 wooden lookout towers, and 636 miles of telephone line.

SUMMARY OF PERMANENT IMPROVEMENTS

Inspectorate	Cabins	Store-houses	Garages	Boat-houses	Other Buildings	Steel Towers	Wooden Towers	Telephone Lines, miles

*Combined boat and storehouse.

(9) *Air Patrol*

Aircraft for forest fire detection were used in Ontario for the second time last season. A main flying base was established on Ramsay Lake near Sudbury, and a sub-base on Trout Lake near North Bay.

Patrols were made over the northern part of the Georgian Bay and Algonquin Inspectorates, the greater part of the Sudbury Inspectorate, and the eastern part of the Soo Inspectorate, during the peak of the fire season in May and June, covering an area of approximately 40,000 square miles. Systematic patrols were confined to a part of the Sudbury Inspectorate over an area of 8,100 square miles.

The total flying time for the season was 430 hours, the bulk of this being done by the H.S. 2 L type of machine, with occasional flights by a Vicker's "Viking" machine. The flying season extended from the 22nd of May to October 15th, with from two to five machines available.

New fires located by the patrols were reported either by dropping messages to the ground staff, or by telegraph or telephone upon the landing of the machine. Owing to the inability of the H.S. 2 L machines to either land on or take off from small lakes, they were used only twice during the season for transporting men and equipment to specific fires.

The operations during the two seasons in which aircraft have been used have clearly demonstrated the following facts:

1. That for sighting and locating forest fires aircraft have no equal.
2. That for country similar to that in the western part of the Province, where the expenditure necessary for an efficient ground detection system makes that system prohibitive, patrol by aircraft is the best solution.
3. That in country similar to the above, the use of aircraft of the type available at the present time will not allow a reduction in the ground staff in that territory sufficient to affect the total pay roll. These machines can be depended upon for detection only, or for transportation for very limited distances. The rangers must therefore be located in the area patrolled to combat the fires reported to them. They may be taken from long canoe patrols and engaged on improvement work at definite points known to the airmen, but they cannot be taken from the territory.
4. That air patrol has a great moral effect both upon the people in the patrol area and upon the rangers themselves.

5. That a special type of machine should be designed for this class of work. The machines available at the present time are not entirely suitable in that the operating costs are high and the "performance" low.

(10) *Brush Burning.*

During the winter of 1922-3 an experiment was conducted in the Algonquin Inspectorate to determine the possibilities and probable cost of brush disposal in connection with logging operations. Two gangs of six men, each in charge of a Deputy Chief Ranger, were engaged on this work, one in a pine operation and the other in a pulp operation. In both cases a maximum of slash was produced as everything was taken out from which a log could be obtained. The system of piling and green-burning was followed throughout.

Little difficulty was experienced in getting the brush to burn, even when wet, although the burning operations should follow the cutting operations as closely as possible to prevent the covering of the slash by snow.

The cost of an operation of this kind varies with the depth of the snow, condition of the weather, density of the slash, and the attitude and experience of the men engaged on the work. Under conditions similar to those existing on the above area slash from a pine operation should be disposed-of at a cost of from seventy-five cents to one dollar per thousand feet, and from a pulp operation at a cost of from forty to fifty cents per cord.

II. FOREST INVESTIGATION.

During the past season two large forest survey projects were undertaken. The details of report on these surveys it is hoped will be published at a later date. The following is a summary of the work accomplished.

MISSISSAGI FOREST SURVEY

1. *Area.*—The territory covered in the following report comprises the Mississagi Forest Reserve, in all some 5,100 square miles, but of this area 700 square miles is held under timber license and was not surveyed. The Mississagi Reserve may be generally located as lying within the triangle formed by the main line of the C.P.R., the Soo Branch of the C.P.R., and the Algoma Central.

2. *Object.*—To obtain an estimate of all standing timber of merchantable size and to prepare a type map showing forest types and drainage systems. An effort was also made to collect data for the construction of composition stand tables, paying most attention to the reproduction in the young growth stands, also measurements were made on white pine for the construction of a volume table based on taper.

3. *Organization.*—Field work was organized as a combination of ground estimation and aerial forest type mapping.

(a) *Ground Work.*—Five separate parties were employed, made up of twenty-seven forestry men and twelve others as cooks and packers. Work commenced May 22nd to 24th with each party having a specified piece of country for their season's work. For most of the men September 20th closed the season. But an extra party was organized to remain another month.

The strip method was used by the ground parties to obtain type boundaries and representative tallies for the estimate, width of line

varied from eleven to thirty-three feet, thirty-three feet being used in pine stands. Lines were run at one-half mile intervals unless it was quite apparent that a particular stretch of country had no timber of commercial value, when only a sample plot of the type would be taken.

Three timber types were recognized:

Coniferous—less than 20 per cent. hardwood.

Mixed—20 per cent. to 80 per cent. hardwood.

Hardwoods—less than 20 per cent. conifers.

Each of the above was further classified to show second and young growth stands.

- (b) *Aerial Type Mapping*.—Two foresters were engaged on this work with a main base at Biscotasing and two sub-bases at Como and Kirkpatrick lakes. Roughly, one-half of the area was mapped in one hundred and fifty flying hours. Aerial type work was as far as possible confined to country where the timber was of non-commercial value or which was unusually difficult of access to the ground party.

4. *Results: Drainage*.—The whole reserve falls into four main drainage basins, a small area in the north being in the James Bay drainage. Down the west side the Montreal, Batchewana and Goulais rivers all flow to Lake Superior. The third and largest area is drained by the Mississagi and tributaries, while the fourth comprises a small area in the southeast draining into the Spanish.

Topography.—The area is well-drained, there being less than two per cent. classed as muskeg. Across the north and east half there is little relief, the country being made up of a succession of low rolling hills. From the Wenebagon river westward, however, more rocky outcrops are noted and the whole could be termed hilly. The rivers in this western section all have steep sides and many falls and rapids.

Forest Conditions, General.—In distribution of species, the reserve marks the northern limit of hard maple and yellow birch and also of commercial white and red pine. For while pine occurs north of the reserve, the quantity, 125 million board feet on 4,000 square miles covered by the Missinabie survey, or fifty feet per acre, is insignificant. An approximate figure for the Mississagi Reserve would be 500 feet board measure per acre. This pine appears to be typical, for when the volume table prepared from measurements made on the reserve was compared with existing tables very little difference was noted. In general, the whole area may be termed a transition between the southern type of forest and the more northerly spruce-balsam forest.

Types, General.—The mixed type is largely composed of jack pine, spruce, balsam, and in two-thirds of the area, white and red pine in varying quantities. The hardwoods in the mixture are chiefly white birch, poplar, and in the south-west a scattering of hard maple and yellow birch.

The coniferous type is represented by stands of pure spruce, jack pine and spruce mixture, and white and red pine mixture. White and red pine also occur in pure stands. The coniferous types are generally confined to more poorly drained areas, low gravelly plains and rocky uplands.

The hardwood type is confined to the south-westerly part of the reserve. These hardwoods, maple and yellow birch, occur generally on uplands having a north or west exposure. The maple and yellow birch are living at the northern limit of their distribution and are generally stunted, crooked and limby, with a great prevalence to heart rot.

5. *Cost*.—Flying, \$17,700; ground work, \$23,000.

NIPIGON AERIAL FOREST SURVEY

Area.—The territory covered in the following report includes the eastern half of the Nipigon Forest Reserve in the District of Thunder Bay, together with adjacent territory, mainly draining into Lake Nipigon, though beyond the reserve boundaries, in all some 4,800 square miles. In detail, the boundaries are as follows: Windigo Bay (Lake Nipigon), north along Rapid creek to the north line, Canadian National Railway; east to the Pikitigushi river to White-clay lake; east down the Ogoki river to Otter river; south up the Otter river; down the Makoki river; up the Kapikotõngwa river to the reserve boundary; east to the northeast corner of Nipigon Forest Reserve; south by the eastern boundary of the reserve to the height of land (Great Lakes-James Bay watershed); along the height of land to Fecteau lake; west to the reserve boundary; along the reserve boundary to Hydro falls on the Nipigon river; north along the Nipigon river and the east shore of Lake Nipigon to Windigo bay.

Procedure.—Orient bay, on the Canadian National Railway, at the south end of Pijitawabik bay on Lake Nipigon, was used as a main base of operation. Subsequently, a sub-base was established on a small island in Ombabika bay near the mouth of Ombabika river, in order to facilitate working over the northern area, and to minimize ineffective flying time.

The work commenced on June the 9th and was completed on July 13th. It was carried out by two foresters, who sketched the areas flown over from the front cockpit of flying boats. One forester had had previous experience at this particular kind of work, while the other received training during the course of the operation.

The sketching was done on mounted maps, scale one mile to the inch, which showed, when finished, all lakes, large streams and rivers, as well as the forest types. These mounted maps were cut to a size of approximately 12x18 inches, covering an area of six six-mile townships each. This was found to be the most desirable size of map for sketching work in this type of country.

As soon as a field sheet was finished to the forester's satisfaction, it was transferred to a field base map, scale two miles the inch. In this way the base map was kept up to date, and any errors in tying in field sheets discovered before leaving the operation, and corrections made.

In cases where types were not readily recognized from the air, landings were made in suitable lakes in order to permit an examination of the types on the ground.

Topography.—Topographically, that part of the above territory draining into Lake Nipigon is similar to the north shore drainage basin of Lake Superior. The surface is rough, and broken by deep ravines, with numerous lakes of irregular outline and occurrence, scattered very generally throughout the whole region. Streams are usually short and rapid. Soils are typically shallow and coarse.

Where the territory under consideration extends beyond the Nipigon drainage into Hudson Bay waters, a more or less gradual modification towards the flat, poorly-drained country, typical of the greater part of this whole basin, is distinctly noticeable, particularly in the north and northeasterly direction.

Forest Distribution.—Consideration of the territory from this standpoint divides it immediately, on a basis of fire history, into two sharply contrasted areas of very unequal size, which may be conveniently referred to as the Northern and Southern Areas, respectively, having as a rough common boundary the north line of the Canadian National Railway.

(a) Northern Area—

The northern area, some fifteen hundred square miles, or 30 per cent. of the whole, is unusually dry, or lacking in lakes and rivers, and has been subjected to severe and repeated burning, so that, with the exception of 100 square miles of moderately good spruce pulpwood in the northwest corner, tributary to James Bay drainage (see type map), fully 85 per cent. may now be classified as barren, burned and muskeg, with a liberal 15 per cent. allowance for the scrubby remains of former timber stands fringing watercourses, and in damp hollows.

Under the above conditions it was not considered advisable to expend the time or run the risks necessary to prepare a detailed type map of this territory.

(b) Southern Area—

South of the northern line of the Canadian National Railway, very much less country has been burned over, at least within the last eighty years.

(1) General Forest Conditions—

Due to the rugged character of the country, and lack of soil, the area as a source of timber is rather disappointing. Rocky uplands, sometimes fairly level, with very thin soils, bounded by quite abrupt boulder-strewn slopes, and covered with either open park-like stands, or undersized slow-growing stands, are of common occurrence and might be taken as typical of a great deal of the southern area.

Better stands are confined to lake basins, valleys, and scattered sand plains, with a few notable exceptions, where best quality mixed stands occur on high plateaus.

(2) Occurrence of Types—

The predominating type is a mixture of spruce or jack pine with poplar and birch, though occasionally both spruce and jack pine enter into the mixture.

Pure conifer follows mixed, in order of frequency of occurrence. It is found as both a lowland, pure spruce swamp and as an upland type, although in this latter situation there is frequently a slight mixture of birch and poplar.

Pure birch and poplar stands occur in such small patches that the type was not differentiated, but was thrown in as a mixed type.

(3) Species occurring in commercial quantities—

Black spruce, white spruce, jack pine, balsam, poplar and birch.

(4) Species occurring in non-commercial quantities—

White pine, red pine, black ash, cedar, tamarack.

(5) One hundred and four hours' flying—

Four special landings for sample plot work, and investigation of timber conditions.

(6) Cost—

Approximately, one-half cent per acre; total cost, approximately, \$15,000.

III.—REFORESTATION

PROVINCIAL FOREST STATIONS:

- Norfolk County (St. Williams).
- Durham County (Orono).
- Simcoe County (Midhurst).
- Kemptville Transplant Nursery.

FOREST PLANTATIONS:

- Sand Banks.
- Hendrie.

TREE PLANTING:

- Private Planting.
- Demonstration Plots.
- Inspection.

SEED COLLECTING.

NORFOLK COUNTY—(ST. WILLIAMS)

Seed beds were sown during both the spring and fall season. Fall seeding is being favoured and is now possible since a surplus supply of seed is available. A more equal division of labour is, however, the chief incentive toward fall seeding as this relieves at least one imperative operation during the spring rush.

SPRING SOWING OF CONIFEROUS SEED

NURSERY LINES

During the spring, 2,927,700 transplants were lined out on an area of approximately fourteen acres. The season's planting indicates rapidly increasing production.

SPRING TRANSPLANTING OF CONIFERS

SPECIES	Age. Yrs.	Origin	No. of Seedlings
Scotch Pine.....	2	Norfolk County	242,000
Scotch Pine.....	1	Norfolk County	446,000
Red Pine.....	1	Simcoe County	1,140,000

White Spruce.....	1	Simcoe County	25,000
Red Cedar.....	2	Norfolk County	700
Totals.....			2,927,700

In recent years fall transplanting of one and two year old seedlings has given satisfactory results. Heaving and winter browning is guarded against by protective permanent hedges, intervening rows of sorghum and mulching with rye straw or strawy manure.

FALL TRANSPLANTING OF CONIFERS

SPECIES	Age. Yrs.	Origin	No. of Seedlings
White Pine.....	1	Simcoe County	242,800
White Pine.....	2	Simcoe County	735,000

On account of increased seedling production it has been found necessary to become more intensive in our nursery practice. This means an almost continual cropping of the productive area, which in turn demands heavy fertilizing. Both animal and commercial fertilizers have been applied as tabulated below:

FERTILIZERS

Additions to Property.—Two very necessary buildings were constructed this year. A two storey frame shed 20' x 60' was built to meet the demands of inside storage space for seed bed rails, stakes, frames, stringing tables, lath mats, crates, crating material and various sorts of dressed lumber requisite to every forest station.

Norfolk County leads in tree planting. Many plantations originated several years ago and are now bearing an annually increasing quantity of cones. The requirement of a seed extracting plant long felt, has this year been overcome, by the building of a three storey concrete structure 20' x 30' in dimension. This plant is capable of meeting maximum demands for many years to come, and is a most important addition to the station.

Roads.—All woods roads have been brushed and widened.

One and three quarter miles of new fire line 24 feet in width was cleared and grubbed, while a narrower 16 foot belt one mile in length was cut, delineating three one-hundred acre lots.

With the exception of a short fire line of 650 yards yet to be cleared, the entire thirteen lots comprising the station, are now protected by these fire roads. All old lines have been maintained by discing and plowing.

Silviculture.—During the past winter and early spring, eighty acres of mixed hardwood type on Lot 23, Concession 6, was subjected to improvement cutting. An additional area comprising approximately one hundred acres of brush land on Lots 19, 20, 21, 5th Concession, has been cleaned up in anticipation of planting permanent stock during the ensuing year.

Protection.—Three men were employed during the summer months on the work of eradicating members of the family "ribes," for the prevention of the white pine blister rust. No report of an outbreak of this disease was recorded. The immunity belt was considerably enlarged.

The work of the white pine weevil was apparent and, curiously, more prevalent during the latter part of June and in July. It cannot be said, however, that more damage than usual was caused by this pest. Infected leaders and all trees showing disease were destroyed.

No fire damage occurred on the property in spite of the fact that the spring season was an exceptionally dry one. Several neighbouring fires were reported and assistance sent from this point.

The stock list of material at this station is as follows:

DURHAM COUNTY—(ORONO)

As this has been the first full season's operations our work has been more of a preparative and organizing nature than any extensive nursery work. This consisted in the establishing of windbreaks around the outside of the whole area, the lining out and establishing of permanent nursery roads, repairing of fences, etc., besides general soil culture operations.

Nursery operations were as follows:

Seeding.—Spring sowing commenced April 30th and continued until May 19th, a total of 92 beds being set out.

SPRING SOWING OF CONIFEROUS BEDS

		3,045,750

Grand total..... 3,454,600

Fertilizers.—The greater part of the operations in connection with the nursery area were confined to cultural operations for soil fertility, upbuilding and tilth improvement. In this connection a crop of Fall rye was ploughed under in May and buckwheat, planted immediately after as a weed eradicator, was ploughed under in early July. An application of hydrated lime was also made to correct soil acidity.

Fertilizers, other than green manures, applied during the year may be summarized as follows:

Animal		Mineral			
Manure (tons)	Dried Blood (lbs.)	Acid Phosphate (lbs.)	Sulph. of Ammonia (lbs.)	Mur. of Pot. (lbs.)	Hyd. Lime (tons)
34	250	400	125	250	15

Additions to Property.—During the early part of the year one of the two houses situated on the property was completely renovated and enlarged by one room to accommodate the sub-foreman. The interior was replastered and redecorated. A shed at the rear of this house was also painted and made weather tight to serve as a temporary tool-house and work-shop.

A headquarters house was built, consisting of seven rooms and an office. The house is frame, 30' x 30', and is of the storey and a half bungalow type. The headquarters was also connected with the Hydro-Electric system in the village. Construction of the necessary 1,000 feet of line was carried out in such a manner as to permit of the development of power should this later be considered advisable.

Roads.—The road connecting the forest station with the village was placed on a permanent basis, while several of the more necessary nursery roads were lined out, graded and gravelled to improve internal communication.

SIMCOE COUNTY—(MIDHURST)

Spring transplanting commenced on April 26th, and continued till May 30th. The seedlings were received from the St. Williams Station.

SPRING TRANSPLANTING

SPECIES	Age (years)	No. of Plants
European Larch.....	1	170,000
Red Pine.....	1	338,000
Scotch Pine.....	2	121,000
Jack Pine.....	2	258,000
Total.....		887,000

Fall transplanting commenced on August 22nd and finished on September 9th. A few hardwoods were transplanted on November 10th. The fall stock was also received from St. Williams.

FALL TRANSPLANTING

SPECIES	Age (years)	No. of Plants
White Pine.....	2	295,000
White Pine.....	1	240,000
White Spruce.....	2	125,000
Norway Spruce.....	2	80,000
Red Pine.....	1	137,000
White Cedar.....	2	45,000
Honey Locust.....	1	2,000
Hard Maple.....	1	4,000
White Elm.....	1	5,000
Total.....		933,000

Total number of transplants 1,820,000.

Extensive seed bed work was not undertaken this year on account of lack of watering facilities. Four seed beds of white pine, jack pine, Scotch pine and white spruce were sown on May 25th as an experiment. These did well. It is intended to put in a large number of seed beds in the spring as a water system will be installed.

Forty-five acres of old stump land were planted with Scotch and jack pine. These were quite successful in protected places, but on open plains on account of prolonged drought the grasshoppers played havoc with plantations. Planting next spring will largely be shelter belts and hedges. Two mixed hardwood plantations were also planted, and these did extra well.

The nursery ground has been manured and worked. Cow peas were grown as a soiling crop. It is thought that this is too far north as they did not develop well, but no definite conclusions can be drawn as this was an exceptionally dry season. Owing to the dry summer seeds sown in June never germinated. Seventeen acres of rye were sown this fall to be turned under next summer. Buckwheat was also used as a soiling crop. Five acres were stumped and cleaned up.

Silviculture.—During the fall improvement cuttings in second growth maple, ash, elm oak and poplar were carried on. Weed trees, badly formed trees, and standing dead timber were cut for cord wood. Piling and burning and lopping were used in brush disposal.

During early winter a swamp is to be cleaned up. Considerable cutting was done a few years back leaving tops and debris. This, along with standing dead timber, will be worked up into wood, and we propose burning brush next spring.

Additions to Property.—Considerable building has been done this year. Foreman's and teamster's houses have been erected; the former is 26' x 30', a two storey frame house; the latter is 28' x 24', a semi bungalow type. Both houses are completed and occupied. A driving shed 101' x 30' was constructed with steel siding and shingles. In one end is a work-shop and tool-house. An up-to-date stable was also built. The stable is cement with a large loft sided and shingled with steel. The stable accommodates nineteen horses, and is equipped with B.T. steel equipment. A pumping house 14' x 20' is partially constructed.

Water System.—There is a spring creek that has its origin on the property, and it is proposed to pump water from this spring into a 20,000 gallon tank for seed bed work. The water is flowing at the rate of 9,000 gallons per hour.

A concrete dam has been built forming a reservoir from which to pump water. Buttments for water tank are ready and 4" iron piping, connecting pumping station and water tower, is laid, 4" iron piping from tower to buildings is also laid and this is tapped by 1" piping for houses, stable and shed. Water will be available in the spring as soon as tank and pumping units are installed.

Fencing.—500 rods of wire fencing has been constructed. A creosoting plant consisting of an iron tank and a wood tank were installed. A large number of butts of posts were creosoted, 250 posts from Simcoe County plantation were also creosoted.

Roads.—A beginning has been made in roads through second growth hardwoods. On account of gravel being within a mile of station we were able to do considerable gravelling of roads around buildings, and to water tower and pumping station.

Survey.—A base line was laid through station by transit. Using this transit line as base line a plane table survey of property was made.

KEMPTVILLE TRANSPLANT NURSERY

A small nursery has been established this year, in conjunction with the Kemptville Agricultural School. An area of two acres has been set aside, to be enlarged as needed, on which three hundred thousand transplants were set out. These will be used as a demonstration of tree growing for the students of the school and will be supplied to private land-owners in the eastern part of the Province for reforestation work.

FOREST PLANTATIONS

SAND BANKS

The work done on the Sand Banks of Prince Edward County thus far has shown that only trees which will grow under the most adverse conditions are of use in work of this kind. The two trees used most up to the present are green willow and Carolina poplar, limb material being used on the exposed areas and cuttings on the protected places. As suitable willow material for this work is available in large quantities close by, an effort was made to get as much as possible, to stem the march of the sand. In all during the year one hundred and sixty-five cords were planted as well as several thousand cuttings.

One of the chief difficulties in this work is to prevent the sand from covering the planted areas during the time of a severe wind storm. The time of the year when this sort of damage is most severe is in winter when the sand mingles with snow, or rides rapidly over it accumulating, in some places, several feet deep. To prevent such drifting, catch fences have been erected at regular intervals and at right angles to the direction of greatest drift. These are made of brush woven on wire, laths woven on wire and eight foot plank stood on end. Such fences catch the sand much in the same way as snow fences behave on a railroad right-of-way, and prevent excessive drifting and give the trees a chance to become established.

During the summer 2,000 feet of plank fence and 3,000 feet of lath and brush fence were erected for this purpose.

Besides the work of planting on the Sand Banks some six acres have been prepared for nursery work and are being used for transplants. Material of this kind growing at the station is as follows:

HARDWOODS

HENDRIE

Permanent planting and transplanting seedlings from the St. Williams Station was done.

Scotch and jack pine were used in permanent planting. Part of planting material was received from St. Williams and the rest was taken from nursery lines at the plantation. 163 acres were planted with Scotch and jack pine. Fail places in 1922 plantations were planted up. Additional hedges were planted around nursery land for windbreaks.

Roads.—The 1,000 acre block has been divided into compartments. Old roads were used as much as possible as boundaries of these compartments. These roads, along with other roads, made to separate compartments, have been plowed and stumps cleaned out. These roads will be maintained as fire roads.

Fencing.—A woven wire fence was constructed around the 1,000 acre block. This took 1,300 rods of fencing.

TREE PLANTING

PRIVATE PLANTING

This work was carried on in the same manner as in previous years. More applications were received than could be filled and for work of this kind 602 separate persons received material for either commencing a new woodlot or for improving their existing one.

DEMONSTRATION PLOTS

During the winter of the current year, municipalities were interested in establishing demonstration plots, in order to bring before their local residents the value of planting trees on non-agricultural land. Several hundred circulars were distributed (under the caption "Municipal Demonstration Plots") to township councils throughout southern old Ontario where work of this kind would be most profitable.

The following new plots were established during the spring planting season:

ALBEMARLE (EAST)—BRUCE COUNTY

Situated about one mile west of Colpoys Bay post office on the main road north. A fifteen acre plot, seven of which were planted this year with 2,000 Scotch pine, 6,200 jack pine and 750 mixed hardwoods.

ALBERMARLE (WEST)—BRUCE COUNTY

Situated one mile north of Red Bay school-house on the road to Howden Vale. A five acre plot of light sand planted with 4,000 jack pine and 2,000 Scotch pine.

INNISFIL (COMMUNITY PARK)—SIMCOE

This plot forms a part of the township's 100 acre community park on the shores of Lake Simcoe. The trees were planted on a part of a thirty acre block bordering two roadways, set aside for demonstration purposes. This year there were planted 2,500 Scotch pine, and 2,000 jack pine.

INNISFIL (PROVINCIAL HIGHWAY)—SIMCOE COUNTY

Situated on the Provincial Highway to Barrie at the corner of the 7th Concession Road. A field of light land, a part of which was planted with 2,000 Scotch pine, 2,000 jack pine and 500 soft maple.

KEMPTVILLE AGRICULTURAL SCHOOL—GRENVILLE COUNTY

This plot forms a part of the school property, is about twenty acres in size and extends along the Ottawa-Prescott Highway. This year ten acres were set out with 6,000 Scotch pine, 6,000 jack pine, 300 soft maple, 500 walnut and 100 butternut.

MOUNTAIN VILLAGE—DUNDAS COUNTY

This plot forms part of the village community park. Three acres were set out with 2,500 Scotch pine and 2,500 jack pine, 200 elm and 200 soft maple.

Of the plots already established, the following have either had their areas extended or have been supplemented where necessary with new trees:

Beeton Village	—10,000 Scotch pine, 40,000 jack pine.
Burford Township	—500 Scotch pine, 500 red oak, 1,500 soft maple, 500 elm.
Colborne Township	—1,000 Scotch pine, 5,000 jack pine.
Cramahe Township	—1,000 Scotch pine, 4,000 jack pine, 2,000 poplar.
Darlington Township	—1,000 Scotch pine, 200 walnut, 200 red oak.
Essa Township	—2,000 Scotch pine, 6,000 jack pine, 1,000 poplar.
Norfolk County	—10,000 Scotch pine, 40,000 jack pine.
Plantagenet Township	—3,000 Scotch pine, 4,000 jack pine.
Sunnidale Township	—3,000 Scotch pine, 9,000 jack pine, 6,000 poplar.

INSPECTION

The inspection of plantations owned by individuals and supplied with material from the Ontario Forestry Branch, was carried on from the point reached last summer (1922).

The area covered comprises the counties of Bruce, Huron, Kent, Essex, and Norfolk. The last named county supports a great number of these plantations (considerably greater than any of the others). This is due to the proximity of the St. Williams Forest Station from which trees may be fetched personally by those who wish to plant them. The total number of plantations in Norfolk County, including those under 500 trees and those planted this year, amounts to 280. The next county to this is York with 138 plantations.

A total of 124 plantations were visited, which are apportioned among the counties as follows:

Norfolk.....	72
Kent.....	15
Essex.....	8
Bruce.....	13
Huron.....	16

These plantations are of all ages and size, ranging from those planted in the spring of 1922 to those commenced in 1907 and 1908. The individual area averages approximately one and a half acres. As regards the general success of these plantings 84.7 per cent. have made good where the test is a survival of 33 per cent. of trees in each case.

There was very little sign of disease among the trees. A few of the white pine plantations have been attacked by the weevil, but in no case to any serious extent. The Scotch pine are invariably in a healthy condition.

SUMMARY OF TREES PLANTED PERMANENTLY, 1923

Grand total, 1,911,068.

SEED COLLECTING

The season of 1923 was the best seed year for red pine in the history of the Branch. The centre of the work, as in previous years, was at Angus in Simcoe County, but an effort was made to secure cones anywhere in Ontario where it was known suitable trees are located.

A circular was published entitled "Gathering Red Pine Cones for the Ontario Government," which was distributed freely throughout the Province, and this, together with newspaper advertisements and dodgers, reached hundreds of people who were interested in the work. The total number of bushels gathered from all parts of the Province was 3,126.

In order to handle more adequately the work of seed collecting and extracting, a station of a permanent nature was opened at Angus. Two acres of land were purchased in the village on the railroad and a building was erected, to serve as a receiving centre for cones and as a plant for extracting purposes. The plant consists of eight drums, each 6' x 3', and has a capacity of twenty-five bushels of red pine cones a day.

IV.—FOREST PATHOLOGY

(Report of Dr. J. H. Faull for 1923)

I. INTRODUCTION

Several important problems both from the standpoint of utilization and of conservation have received attention during the year. Some have been brought to a solution—the nature of the needle blight of white pine and its effect on reproduction; the diagnosis of the various types of heart and butt rots of balsam and in part of spruce, and the determination of their causes; the diagnosis and determination of the cause of a prevalent heart rot of birch; the life, history of certain fungi causing needle diseases. Progress can be reported also on other problems—spruce diseases; the determination of the age of susceptibility to trunk diseases; the effect of various fungi on the growth of the timber attacked. New problems have been presented; among them two appear particularly attractive, namely, the nature of "red" jack pine (pertinent to the culling of ties), and the pathology of young stands of conifers (important in relation to reforestation). Numerous inquiries on pathological matters have been received such as, the means of preventing doze in freshly cut birch (applications of zinc chloride solution appear to give every promise of success); the cause and control of bald spots in coniferous seed beds (in the case in question apparently due to local over-fertilization); factors favouring deterioration of hardwood and coniferous pulpwoods in the log and in the piles. A few tree diseases newly observed in Ontario have been reported by correspondents and their causes as indicated verified, for example, a twig blight of Manitoba maple caused by *Coryneum negundinis* B. & C. (detected by Professor J. E. Howitt and Dr. R. E. Stone of the Ontario Agricultural College), and bark blight of the American chestnut (due to the very destructive fungus, *Endothia parasitica*). The latter is serious so far as chestnut growing is concerned as most of the existing trees of this species, *Castanea dentata*, are probably doomed. Directly and incidentally valuable additions have been made to our reference pathological collections.

Three technical papers, outgrowths of this work, and one semi-technical paper have been published apart from the annual reports in 1922-23.

The field work for 1923 was carried on mainly in the Timagami Forest Reserve, but in May a careful examination of diseased birch was made at Cache Lake in Algonquin Park, and Dr. Faull was permitted to transfer to the service of the Laurentide Company, Quebec, during July and August, to direct the assembling and grading of defective balsam and spruce for an extensive utilization experiment on pulpwood carried out under the auspices of the Technical Association of the Pulp and Paper Industry, the News Print Service Bureau, the Forests Products Laboratory at Madison, and a number of interested companies. As in the past there has been active co-operation between the Ontario Forestry Branch and the Provincial University. Besides to those directly associated in the office, field, or laboratory who have aided in carrying forward the year's work, an expression of appreciation is especially due Mr. C. E. Hindson, Chief Ranger of the Timagami Forest Reserve, and Mr. Mark Robinson, Superintendent of Algonquin Park. A summary of three researches completed in the past season follows.

II. "SAPIN ROUGE" OR RED HEART ROT OF BALSAM, ITS CAUSE AND ITS RELATION TO SLASH DISPOSAL.

Because of the increasing scarcity of spruce, the newsprint pulp industries are now relying more and more on the balsam forests of Eastern Canada for their supplies of raw materials. But these heretofore neglected forests prove to be frequently overmature and highly defective, hence an acute problem of utilization looms large on the horizon at present. Linked with this problem is that of the maintenance of the forests. In the forests of to-morrow, balsam is bound to have a place; it grows rapidly, it re-forests readily without planting, is especially well adapted to our soil and climate, and its wood makes a good quality of pulp. The call, therefore, is urgent for a maximum utilization of our diseased virgin forests as we find them and the production of healthy forests for the future.

A study of the pathology of balsam in these connections has revealed an almost unexplored field. One of the amazing features has been the encountering of a prevalent trunk disease, a heart rot of living trees, the bane of operators, often disastrously so, since fifty per cent. or more of affected stands may be discarded as unmerchantable, about the cause of which and its mode of spread and establishment nothing has been known. Trees affected with it are individually designated *sapin rouge* by the French-Canadian lumberjacks. The disease has been called "hemlock rot of balsam," but the name *red heart rot of balsam* based on the French appellation seems more appropriate.

"Sapin rouge" obtruded itself upon the attention of operators when they first began to cautiously introduce a few balsam logs into their cuts. It was an annoyance and a loss. "Sapin rouge" was believed to be worthless for pulp, it was not possible without experience and close observation to detect it before

felling a tree, and if made up into logs it was closely culled. Affected logs were called "sinkers"; to what extent this name reflected prejudice remains to be seen.

If utilizable the question of the floating capacity of red heart rot balsam becomes of the first importance where the timber is transported by waterways. That some of it will float for a sufficiently long time is evidenced by the fact that an appreciable percentage of it can be found in the mill log piles from drives that have lasted up to two years. Knowing of the pains that are taken in the forest to exclude it from the cut, it is a fair assumption that the number of affected logs placed on the skids along the waterways is not greatly diminished by the time the destination is reached. However, this is not a matter for speculation, it can be readily determined by direct experiment. To be conclusive the larger the number included in a test the better, they should be intermixed with many sound logs cut from the same area as controls, and at the close of the experiment all the logs employed should be available for checking.

Red heart rot is very easily recognized in the log, and is not likely to be confused with any other disease of the balsam. The defective wood almost never occurs in the stump, but is found beginning in the main trunk above breast height. Most frequently it centres at about half way up the length of the trunk, and extends from there for long distances in both directions. The affected wood is inclined to be wetter and hence heavier than normal wood at the time of cutting from living trees. Its colour is a rather bright yellowish brown, often radiately figured or irregularly mottled by lighter less decayed patches, all rendered the more striking by contrast with the encircling outer zone of pure white sapwood. The texture remains remarkably firm for a long time, free from pockets, checks or cavities of any kind, and the wood "fibres out" in shavings very much the same as normal wood. It is of course softer than sound wood and in sawing and chipping greater waste is to be anticipated. Eventually soft streaks develop and there is a tendency towards delamination, but these features are late in appearing. The fibres seem to remain intact for a long time and to retain most of their cellulose.

The rot enters most frequently by way of dead branches in the lower part of the crown; such branches decay away leaving yellowish rotten stubs—they serve as a means of detecting diseased trees. Infection may also take place through wounds, frost cracks or injured tops. When decay once starts it spreads very rapidly in a vertical direction, and involves almost at once all but an outer zone of sapwood. So it is that a log or bolt may exhibit a fairly uniform stage and amount of the rot throughout its full length. On tracing the rot downwards in the trunk into sound wood it is found to be continuous with "frost patches" or watery looking areas, commonly evident in balsam at the time of felling; the decay progresses rapidly along these watery streaks which extend continuously for long distances vertically through the trunk. Finally the disease works out to the bark, killing the tree; but the decay continues in dead standing trees or in fallen trunks and slash until all of the wood is involved. Quite commonly affected trunks break off, sometimes a short distance from the top but oftener farther down, so that "chicots" or stubs of all heights are to be seen in large numbers throughout a badly infested region.

The cause of red heart rot, previously unknown, has been determined in connection with our work of the past season. Two years ago inoculations on to artificial media in the laboratory from diseased wood were made which showed at once that the trouble was due to a fungus. Cultures have been maintained ever since for the purposes of study and in the hope that they would fruit.

thus making identification possible; fruits finally developed in August, 1923. Meanwhile opportunity was afforded during the summer of 1923 to concentrate on red heart rot in the field while engaged in assembling materials for utilization tests of defective pulpwoods. Field observations revealed abundant instances of the association of fungus fruit bodies, always of the same kind, with this type of heart rot. This fungus (*Stereum sanguinolentum*) fruits in great profusion on dead trees, brush, and fallen trunks. While the indications as seen in the forest that *Stereum sanguinolentum* is the cause of red heart rot of balsam were convincing, additional evidence was essential. This was supplied by the artificial cultures referred to above. In December last Miss Irene Mounce thoroughly sterilized pieces of sound wood in test tubes plugged with cotton wool and inoculated them with incipient red heart rot from living trees. Well developed fruit bodies of *Stereum sanguinolentum* had formed in them before the end of August, that is within eight months following inoculation.

The fructifications of *Stereum sanguinolentum* are small, thin, leathery, scale or bracket-like bodies one-half inch to one inch in width growing out in flocks from dead standing timber, or the sides of fallen trunks and brush. When growing on the under sides of fallen trunks or brush they are closely appressed, brown or drabish, smooth, fungal patches of varying size. The bracket-like bodies are downy or silky on the upper surface, buff or pinkish-buff to dark ash-coloured, and marked with darker, narrow, concentric bands. The lower surface is smooth and drab to brownish in colour. One of the distinctive features of either type of fructification is the fact that its edge or its smooth surface turns blood-red where bruised.

Red heart rot of balsam occurs in Ontario, Quebec, and Maine, and will probably be found throughout the range of the balsam. It is especially prevalent in balsam forests that have been ravished by the spruce budworm. Is it susceptible to control?

The first step towards control of a parasite is a knowledge of its life history; measures adopted can then be rationally based on known grounds. We now know that red heart rot of balsam or "sapin rouge" is due to *Stereum sanguinolentum* and we know where this fungus fruits, that is we have located the source of the germs or spores that are responsible for its spread. There is yet one important point that is not fully determined, that is the age at which the balsam becomes susceptible. Preliminary analyses indicate that this takes place in general as the balsam approaches maturity. If this may be tentatively assumed then two procedures are suggested, both of which would result in the prevention of infection, one from the standpoint of the host, the other from that of the parasite, and both are matters of forest management. In the one case the adoption of a cutting cycle within the period of immunity would automatically ensure freedom from the disease. In the other case burning of slash would prevent the development of fructifications and so cut off the source of the spores. The value of slash burning would probably be affected by the amount of dead trunks and brush on the floor of the forest included in the burning process. A combination of cycle cutting and slash burning would seem to assure complete control.

III. TYPES OF DEFECTIVE BALSAM AND SPRUCE PULPWOOD IN RELATION TO THE PROBLEM OF UTILIZATION.

For several years past the Ontario Forestry Branch has been carrying on studies of the diseases of pulpwoods, and especially of the trunk diseases of balsam and spruce. These studies have embraced a determination of their

cause, their nature, their effect on the wood, and factors having a bearing on control. The economic waste from trunk diseases in mature forests becomes stupendous, and dead and wind-thrown trees add tremendously to the fire hazard. Eventually systems of management may be put into operation that will largely solve the disease problem, but this lies some distance in the future. Meanwhile attempts will be made to utilize what has been regarded as waste because of defects. Apart altogether from a sudden expansion of the volume of supplies, successful utilization would at one stroke conserve and improve our existing forests. A preliminary report on tests now in progress (The Paper and Pulp Industry, Vol. 4, Nov. 15, 1923) arouses hope that may be practicable.

"The cooking was done by the sulphite process in the manner in which experience has shown will give the maximum yield of news grade sulphite.

"In the results so far obtained, it would appear that in some instances, contrary to previous conclusions, the decayed wood has a higher specific gravity than sound wood and what is more surprising has a higher yield of pulp.

"In one case where balsam, infected with *hemlock heart rot* contained 55 per cent. of rot, its specific gravity was 20.95 lb. per cubic foot compared with 20.75 lb. per cubic foot for sound balsam. In another sample of spruce which contained 96 per cent. of rot of *Trametes pini* type the weight per cubic foot was 22.3 lb. and the yield was 52.2 per cent.

"From the limited evidence at hand, it would appear that the action of the decay may have affected the *lignocellulose* without materially attacking the cellulose in the wood. It would also appear very possible that most of the wood which is normally discarded in the woods or diverted to the boiler-house as fuel might be economically pulped."

There are many common trunk diseases of balsam and spruce, of varying abundance in different areas. Some are found in living trees, some in dead timber. The effect produced by them on the wood of their hosts is specific, and is characteristic for each kind. Some of them are characterized by a removal of the cellulose from the fibres leaving them too brittle to be of any value, others by a complete destruction of the fibres in advanced stages, and others by a removal of the encrusting substances in the fibres without serious injury to them. Of the diseases of living trees there are some that are restricted to the butt, others to the main trunk. In nearly every case the characters are well-marked and the various types can usually be quite readily diagnosed. The following account comprises those of economic importance in the forest.

A. *Types of defective balsam.* (1) *Brown butt rot of balsam.*—This is a decay of the heart wood of the lower part of the trunk and the contiguous roots of living trees. The affected heart wood loses its firm consistency, then darkens more or less in colour, dries out and breaks up more or less into blocks. Cracks between the broken masses may fill with indefinite, delicate, white fungus sheets. The fully decayed wood powders very easily if rubbed between the fingers just as does chalk or charcoal, that is, it is very friable; this is due to the removal of cellulose from the wood fibres, the substance to which they owe their toughness, so that what is left consists mainly of an easily powdered, encrusting substance, *lignin*. This rot usually starts at wounds or defective spots on the inner faces of the main roots just below the stump. It develops upwards into the trunk but for not more than a few feet as a rule. It will eventually extend out to the bark if the tree be not wind thrown meanwhile, but as yet we have no data on the time factor.

The cause of brown butt rot of balsam was discovered about three years ago in connection with our investigations. Independent observations based on

comprehensive, carefully executed laboratory tests, made by Dr. E. E. Hubert of the U. S. Forest Products Laboratory, fully confirm our findings. The cause is a fungus, *Polyporus balsameus*, the fructifications of which make their appearance on the surface of the trunk near the ground, or on the exposed wood where a diseased tree has cracked or broken over. They are not especially common, but by no means infrequent during wet summers or early autumns. They are small shelf-like bodies, occurring singly, or more typically, several closely superposed, thin, tough, white below, and white to brownish on the upper surface. The upper surface is rather faintly zoned. They vary in size from one-half inch to one and one-half inches in width.

Brown heart rot when developed to the friable stage is certainly of no value for pulp, and in earlier stages the affected fibres are weakened to a greater or less extent. The actual loss in cutting operations usually amounts to a short butt log. How much should be rejected would appear to depend in part on floating capacity (of which no definite data are at hand) and in part on the relative amounts of sound and diseased wood. The latter is valueless. The principal economic loss caused by brown butt rot results from windfalls due to the weakening of the base of the trunk; and with openings once made in the forest the destruction may be very great, involving sound as well as diseased trees.

(2) *Feather rot of balsam*.—Feather rot is a decay of the heart wood of the lower part of the trunk and the contiguous roots of living trees. It is a butt rot. The affected wood as it decays changes in colour to clay or buff colour. It is soon marked by tiny longitudinal pockets or cavities of indefinite length arranged in close concentric series, typically a single row in the fall wood of each annual ring. This results in the delamination or flaking of the wood, the decayed wood readily falling into sheets, each sheet consisting of an annual ring. The surfaces of the sheets are more or less etched. In some cases there is a tendency for radial perforations to form quite early in the course of decay, often before there is any indication of delamination. Eventually there is a shredding of the wood due to radial deepening of the longitudinal furrows. This continues until the wood is reduced to cottony shreds, with at the same time a fading of colour. In extreme cases the shreds may disappear to a greater or less extent, leaving the butt hollow. One of the curious features of feather rot is the frequent occurrence, especially in the advanced stages, of small black spots.

This rot usually begins at wounds or defective spots on the inner faces of the main roots just below the stump. It develops upwards into the trunk but for not more than a few feet as a rule, perhaps not as far as does the brown butt rot. In the course of time it extends out to the bark if the tree be not wind-thrown meanwhile. Feather rot continues to spread through the wood of dead or fallen trees until at last the wood of the entire trunk may be converted into a wet, stringy, yellowish mass.

While the detailed appearance of feather rot is somewhat variable, its general features are so well marked that it cannot be mistaken. It may be that the variation is due to the action of different fungi, in which case the type would consist of two or more sub-types; or the variation may be due to the action of secondary fungi following up the primary fungal agent. Further research alone will settle this point; but so far as I have been able to observe, the question is not one that enters into the problem of utilization. Our investigations have determined that a fungus, *Poria subacida*, produces feather rot. The fructifications make their appearance on the surface of the trunks of much decayed

standing or fallen trees. They are in the form of white effused patches of variable size, up to a foot or more in diameter, closely adherent to the trunk on which they grow. Their surfaces are very finely porous.

Feather rot, except in the later stages, is not marked by an excessive weakening of the fibres—apparently the cellulose is more resistant to the action of the causal fungus than is the lignin. The actual loss in ordinary cutting operations usually amounts to a short butt log; it is doubtful if even this is necessary. Since feather rot may be present to the extent of fifty per cent. in some stands the avoidance of such a loss would not be inconsiderable. There is also a large loss traceable to this rot from windfalls.

(3) *Red heart rot of balsam.*—Red heart rot (sapin rouge, or hemlock rot) is by far the most important disease in balsam from the standpoint of utilization. It is exceedingly prevalent. Fortunately the texture of the wood suffers less impairment than in the case of most other rots, and as indicated in the quotation introducing this section of the report, there are good grounds for anticipating profitable utilization of wood affected with it. For an account of red heart rot refer to the preceding section—"Sapin rouge, or Red Heart Rot of Balsam, etc."

(4) *Abietinus or honeycomb sap rot of balsam.*—This type of decay begins at the surface of dead standing or fallen timber, or slash, and works inwards; all parts of the tree are susceptible. It is one of the commonest of the diseases of dead coniferous timber, and it extends with amazing rapidity under suitable conditions of temperature and moisture. The affected wood turns a light straw colour. Very small empty pockets soon appear in the older decayed parts so that such wood is delicately honeycombed. It may continue inwards quite regularly—dependent on the moisture content of the wood—until all parts of the trunk and branches are involved.

The cause is due to a fungus, *Polyporus abietinus*. The fructifications develop very abundantly; hundreds of them may be seen scattered about in flocks on the surface of diseased timber. They are bracket or scale shaped, thin, tough, small (one-half inch to one and one-half inches in width), white or purplish when young, ash-coloured to blackish with age, downy and somewhat zonate. The lower surface is purplish, but this colour may fade to a cream or bay; it is also porous.

Abietinus rot is not marked by an excessive weakening of the fibres except in the later stages. The outer honeycombed wood, however, is valueless; moreover, it is largely worn away in handling before the mill is reached. In practice it would seem that where this rot is the only defect a great deal of dead wood could be profitably salvaged.

(5) *Brown sap rot of balsam.*—Brown sap rot begins at the surface of the trunks of dead standing and fallen balsam and works inwards. It is rather closely restricted to the trunk but may attack the larger branches. In spite of statements to the contrary it is doubtful that this is ever a disease of living trees, at all events there is no experimental evidence in support of such a claim. The affected wood darkens somewhat to a straw colour or dull light brown. Very soon the decayed wood dries out and cracks in various directions. The checks, large or small, that appear in this way fill up with delicate white sheets of fungus tissue. But there is another distinctive feature—the wood has become very friable, that is, it powders readily when rubbed between the thumb and fingers; this is due to the removal of cellulose from the fibres. The decay, once under way, extends in all directions, and very commonly in an irregular line across the grain; it develops rapidly along cracks or checks. Eventually all

of the wood is involved if favourable moisture conditions prevail, so that in the end it is converted into an easily powdered brown mass.

Brown sap rot is caused by a fungus, *Fomes pinicola*, the fructifications of which are of rather frequent occurrence, but as a rule only one or two or three on the same trunk or stump. They are large, thick, hoof-shaped, perennial brackets, up to six inches in width and two or more inches in thickness. Their upper surface is gray to blackish, with or without a red rim; it is also concentrically ridged and furrowed. The under surface is very finely and compactly porous, and whitish, buff, or cream-coloured. The substance of the interior of a fructification is especially distinctive as it is chamois or pale buff in colour and very felty tough.

Timber much affected with brown sap rot is of no value. In less severe cases difficulty might be experienced in grading closely because of the unevenness with which the decay extends.

(6) *Yellow sap rot of balsam.*—This is a rot of the sapwood of dead standing or fallen timber. It is caused by the same fungus agent as that which causes red heart rot or sapin rouge, namely, *Stereum sanguinolentum*. The general features of the decay are the same as were described under the heading, "Red heart rot of balsam," except that the decay is more uniform and freer from mottling. It resembles the abietinus rot except that there is no honeycombing. As with the heart rot, the affected sap wood remains firm and hard for a long time so that it is doubtful if its pulping value is materially lessened, at all events in the earlier stages. A great many dead trees and chicots or stubs have been found in the course of our field work, suffering from no other defect, and from which much timber could apparently be salvaged.

B. *Types of defective spruce.* (1) *Brown butt rot of spruce.*—This type of decay is like the brown butt rot of balsam. The cause has not yet been definitely determined, in other respects a separate account here is not necessary.

(2) *Abietinus or honeycomb sap rot of spruce.*—This decay of spruce is like the abietinus rot of balsam, and the cause is the same.

(3) *Brown sap rot of spruce.*—This decay of spruce is like the brown sap rot of balsam, and the cause is the same.

(4) *Pecky heart rot of spruce.*—This rot is also known as "ring shake." It is a heart rot and quite commonly extends through all of the trunk. Occasionally the stump and main roots may be affected, though not as a rule. A similar butt rot (apparently quite identical for all practical considerations) is due to an entirely different fungus. Pecky heart rot is primarily a disease of living timber, but continues to spread in dead or fallen timber; it is very common in spruce and pine; it is infrequent in balsam.

The affected heart wood in the course of decay darkens to some extent to a brownish or reddish colour. Very soon small white "pockets" begin to show at many points thickly scattered throughout the discoloured wood. The white pockets consist very largely of whitened, more or less separated fibres; this result is brought about by the localized removal of the lignin, and of the cement that holds the fibres together, so that in these spots the firm wood is changed to pure white, loose, cellulose fibres. With the progress of the decay the white patches enlarge until the affected wood is entirely filled with them. Eventually the white fibres may disappear, leaving the wood quite coarsely honeycombed, that is, full of small empty cavities separated from one another by thin partitions, but that comes about very tardily. This rot is one of the most easily recognized in cut timber because of its characteristic white "pockets" and is one of the best known because of its frequency in cheap grades of coniferous

lumber. The recognition of diseased trees is more difficult, but they can often be readily spotted by their rather swollen knots and by the presence of fruit bodies at the knots.

Infection takes place ordinarily through dead or broken branches, but may occur at wounds or frost cracks. Having gained entrance, the disease works directly into the heart wood, and from the level attained spreads upwards and downwards through the heart wood. Once established, the decay then extends outwards into the sap wood in all parts throughout the affected region of the trunk, and in time, if wind breakage does not happen meanwhile, the death of the tree is encompassed. The outermost zone of sap wood succumbs slowly, however.

The cause of pecky heart rot of spruce and other conifers is a fungus, *Trametes pini*. Its fructifications are not uncommon on living trees and are plentiful on slash and fallen timber. They are bracket shaped, unless growing on the under side of prostrate trunks, in which case they are effused. They are tawny or chocolate brown or even blackish and vary in size from one to three inches in width and one-quarter to one inch in thickness. The upper surface is irregular, ridged, hairy or roughened, and the lower surface is porous. The interior substance is of a yellowish brown colour.

It has already been pointed out that wood diseased to the extent of 96 per cent. with pecky heart rot gives a very high yield of sulphite pulp. This is due to the fact that the fibres are not destroyed by the action of the causal fungus until a very advanced stage is reached. It would seem, therefore, that this type of defective spruce might be extensively utilized. As a matter of fact, some of the spruce now reaching the mills is affected with pecky heart rot and finds its way to the digesters. Wherever trees are attacked this rot commonly involves the entire length of the trunk, and in some mature stands half or more of the spruce timber may be affected; utilization, therefore, would tap a considerable supply now wasted.

The control or pecky heart rot would follow along the same lines as for the control of the red heart rot of balsam. What was said in connection with the latter may in the main be repeated. The indications are that this disease is restricted to mature timber—though at what age spruce becomes susceptible has not yet been determined. If this may be tentatively assumed then two procedures are suggested, both of which would result in the prevention of infection, one from the standpoint of the host, the other from that of the parasite, and both are matters of forest management. In the one case the adoption of a cutting cycle within the period of immunity would automatically ensure freedom from disease. In the other case burning of slash would prevent the development of fructifications and so cut off the source of infection. The value of slash burning would probably be affected by the amount of dead trunks and brush on the floor of the forest included in the burning process. A combination of cycle cutting and slash burning would seem to assure complete control.

The adoption of such a system of management may be far in the future.—Meanwhile, immense quantities of pecky heart rot spruce are being left in the forest, timber that might possibly be used profitably from every point of view. Utilization in itself will be to some extent a measure of control.

The diseases of balsam and spruce described in the foregoing section are those of importance in the forest. Some of these continue to develop in the log piles, but besides them there are others not referred to which are peculiarly incident to the log piles at the mills or in logs long delayed *en route*. An investigation of the diseases of pulpwood timber subsequent to cutting would add a new chapter of useful information.

IV. HYALOPSORA FERN RUST OF BALSAM.

The foliage of the balsam is subject to the attacks of many rust fungi,—species of five or six well-marked genera. All of them are known to parasitize an alternate host, and, indeed, infection is never from balsam to balsam, but from alternate host to balsam. These hosts, depending on the particular kind of rust, include the willow, fireweed, chickweed, blueberry and the ferns. The chickweed rust causes the “witches’ brooms” common enough in some areas, but the others with one partial exception affect the needles only, and especially of seedlings and small trees. Injuries to the crown may at times be serious enough to cause a killing of young trees; this applies particularly to the fern rusts, although conditions during the past summer were so favourable to the fireweed rust in certain localities that pure natural stands of young balsams up to two feet in height were 100 per cent. affected and extremely heavily so. It is obvious that these rusts take a heavy toll at times and are a factor of consequence in reproduction.

The revealing of the course of the life history of the balsam rusts has resulted from the persistent experimentation of several distinguished students of plant diseases. Robert Hartig, whose work on the diseases of forest trees laid solid foundations for the science of Forest Pathology, discovered the connection between a rust on the balsam and blueberry rust in 1880; though the two are so unlike in appearance yet they were proved by cross-inoculations to be but phases of the same rust, and its continuance is dependent on the association of the two hosts. Klebahn discovered the fireweed balsam combination in 1898, Fischer the chickweed balsam combination in 1901, Fraser the willow balsam combination in 1911, and Fraser a fern balsam combination in 1912. All of these connections were established by careful, repeated cross-inoculations under controlled conditions.

A new rust on balsam has now been found in Ontario and Quebec and its connection with a long-known group of perplexing fern rusts (*Hyalopsora*) has been determined.

An immature stage of this rust was observed in the Timagami Forest Reserve by the writer in the summer of 1920, and the mature condition found by H. P. Bell in the same locality in the spring of 1922. It was found to be not infrequent in Timagami during the past summer, and fairly abundant in the eastern forests of Quebec. Unlike the majority of balsam rusts it is not evident on the needles of the current season; an immature stage (pycnial) shows on two-year-old needles, and the mature stage (æcial) on needles beginning their third year. Professor Bell named the phase on the balsam *Peridermium pycnoconspicuum* and made a few partially successful inoculation tests in 1922 that led him to tentatively recognize its connection with the *Hyalopsora* fern rust referred to above (*Hyalopsora aspidiotus*) on the oak leaf fern (*Phegopteris dryopteris*).

The *Hyalopsora* rusts on ferns in Europe were described as far back as 1801, though they were not proved to be rusts until 1895. In 1916 Klebahn, one of the foremost European rust experts, inoculated balsam and spruce with the *Hyalopsora* rust of the oak fern, without effect on the spruce, and with indeterminate results on the balsam.

As there was an abundant supply of the newly-discovered rust on the balsam in Timagami in June, 1923, inoculations were made, with the help of Mr. G. D. Darker, from the balsam to the oak fern and with complete success. Twenty fronds in all were inoculated under perfectly-controlled conditions, and thirty fronds placed under the same conditions were kept as controls. Every inoculated frond showed lesions indicating infection (249 lesions in all), most of

them bearing rust pustules (283 all told) and not one of the controls developed either lesions or pustules. The appended table shows the experiment in detail. The experiment demonstrates conclusively that the new rust on balsam is the alternate phase of the long-known fern rust *Hyalopsora aspidiotus*, the first species of the *Hyalopsora* rusts, the connections of which have been elucidated.

Appendix No. 43
Timber areas disposed of from 1st November, 1922, to 31st October, 1923

Date offered.	Date sold.	Locality.	Area.	To whom sold.	Price paid.	Proposition.	File No.
1922 Oct. 18.	1922 Nov. 9.	Blake Township.—S.W. half Lot 8, Con. 2.—Dist. of Thunder Bay.	1/2 sq. mile.	D. Collins, Skate River, Ontario.	\$2.50 per M. ft. B.M. for pine; 15c. each for ties; 10c. per cord for fuelwood, all in addition to Crown dues.	Sawlogs.	13557
1922 Oct. 19.	1922 Nov. 9.	Bark Township.—Lots 6 to 12 inclusive, Cons. 2, 3 and 4.—Dist. of Kenora.	10 1/2 sq. miles	H. D. McLaughlin, Gram Exchange Bldg., Winnipeg, Man.	\$8.00 per M. ft. B.M. for pine timber; \$6.00 per M. ft. B.M. for spruce, poplar and bass-wood; \$5.00 per M. ft. B.M. for other timber; 70c. per cord for spruce pulpwood; 65c. per cord for other pulpwood; 12 1/2c. each for railway ties, all in addition to Crown dues. <i>Cedar Poles</i> : 30 ft. and less in length, 10c.; 31 to 40 ft., 15c.; 41 to 50 ft., 25c.; 51 ft. and over, 50c.; fuelwood, 5c. per cord; cedar posts, 1c. each, all in addition to Crown dues.	Ties.	28970
1922 Oct. 18.	1922 Nov. 9.	Firstbrook Township.—S. half Lot 8, Con. 4.—Dist. of Temiskaming.	1/2 sq. mile.	Norfolk & Rochester Hardware Co., Limited, Haileybury.	Pine, \$2.00 per M. ft. B.M.; railway ties, 10c. each, in addition to Crown dues.	Sawlogs	3144A
1922 Oct. 17.	1922 Nov. 15	North part Douglas Island, being all that part of the Island north of the north boundary of Indian Reserve, 25D.—Dist. of Rainy River.	1 sq. mile.	Border Lumber Co., Limited, Fort Frances.	Red and white pine, \$8.10 per M. ft., B.M.; jack pine, \$6.50 per M. ft. B.M.; poplar, 50c. per M. ft. B.M.; other timber, 50c. per M. ft. B.M.; spruce pulpwood, 25c. per cord, all in addition to Crown dues.	General Logging.	44164
1922 Oct. 21.	1922 Nov. 10.	Hudson Township.—Lots S. half 11, Con. 1.—Dist. of Temiskaming.	1/2 sq. mile.	John McCheaney c/o The Manager Imperial Bank, New Liskeard, Ontario.	All classes of timber, \$3.50 per M. ft. B.M., in addition to Crown dues.	Sawlogs.	11634

1922 Oct. 27.	1922 Nov. 17.	Armour Township.—Lot 24, Con. 2.—Dist. of Parry Sound.	1/2 sq. mile.	J. C. Murray, Katrice, Ontario.	Pine timber, \$2.50 per M. ft. B.M., being Crown dues only; spruce, poplar or basswood, 50c. per M. ft. B.M.; other timber, \$1.00 per M. ft. B.M., both in addition to Crown dues; railway ties, 10c. each, being Crown dues only; spruce pulpwood, 80c. per cord, being Crown dues only; other pulpwood, 40c. per cord, being Crown dues only; fuelwood, 25c. per cord, being Crown dues only; cedar posts, 2c. each, being Crown dues only. <i>Cedar Poles</i> :—30 ft. and less in length, 25c.; 31 ft. to 40 ft., 50c.; 41 to 50 ft., 75c.; 51 ft. and over, \$1.00, being Crown dues only in each case.	31914	General Logging.
1922 Oct. 30.	1922 Nov. 20.	Chisholm Township.—Lots 24 and 25, Con. 1.—Dist. of Nipissing.	1 sq. mile.	W. J. Foster, North Bay, Ont.	Spruce, poplar or basswood, \$3.00 per M. ft. B.M.; birch, \$3.00 per M. ft. B.M.; hemlock, \$2.00 per M.-ft. B.M.; ash, \$3.00 per M. ft. B.M.; railway ties, 10c. per tie; spruce pulpwood, 75c. per cord, all in addition to Crown dues.	12342	General Logging.
1922 Nov. 1.	1922 Nov. 22.	Stirling Township.—Lot E, half 11, Con. 3.—Dist. of Thunder Bay.	1/2 sq. mile.	Oscar Styfi, Port Arthur, Ontario.	Spruce pulpwood, \$2.10 per cord; other pulpwood, \$1.50 per cord; fuelwood, 25c. per cord, all in addition to Crown dues.	34146	Pulpwood.
1922 Nov. 1.	1922 Nov. 22.	McTavish Township.—Lot 7, Con. A; Lot N.W. quarter 7, Con. B; Lot S.W. quarter 6, Con. B.—Dist. of Thunder Bay.	1/2 sq. mile.	E. E. Johnson, (Manager) Pigeon River Lumber Co., Ltd., Port Arthur, Ont.	Spruce pulpwood, \$2.00 per cord; other pulpwood, 80c. per cord; fuelwood, 15c. per cord, all in addition to Crown dues.	19756	Pulpwood
1922 Nov. 13	1922 Nov. 30.	Frakeigh Township.—Lots N. half 15, N. half 16, Con. 7; Lots 15 and 16, Con. 8.—West of Thunder Bay.	1/2 sq. miles.	E. E. Johnson, (Manager) Pigeon River Lumber Co., Ltd., Port Arthur, Ont.	Pine, \$10.00 per M. ft. B.M.; spruce, \$10.50 per M. ft. B.M.; other timber, \$11.00 per M. ft. B.M.; railway ties, 10c. each; spruce pulpwood, \$3.00 per cord; other pulpwood, \$2.00 per cord; fuelwood, 25c. per cord, all in addition to Crown dues.	26210	General Logging.
1922 Nov. 8.	1922 Nov. 30.	Ware Township.—Lot S, half 16, Con. 7.—Dist. of Thunder Bay.	1/2 sq. mile.	James Horrigan, Kaministiquia, Ontario.	Pine, \$3.00 per M. ft. B.M.; spruce, \$1.00 per M. ft. B.M.; other timber, \$1.00 per M. ft. B.M.; jackpine ties, 4c. each; spruce pulpwood, 10c. per cord; other pulpwood, 10c. per cord; fuelwood, 10c. per cord, all in addition to Crown dues.	19757	Ties and Pulpwood.

Appendix No. 43—Continued

Timber areas disposed of from 1st November, 1922, to 31st October, 1923

Date offered	Date sold.	Locality.	Area.	To whom sold.	Price paid.	Proposition.	File No.
1922 Nov. 14.	1922 Dec. 15.	Pettypiece Township.—Excepting Patented Veteran Claims, Veteran Locations, Patented Mining Claims, and Patented Agricultural Locations.—Dist. of Kenora.	25 sq. miles.	Saunders & McDonald, Winnipeg, Man.	Spruce, \$2.05 per M. ft. B.M.; poplar, 50c. per M. ft. B.M.; railway ties, 5c. each, all in addition to Crown dues; spruce pulpwood, 80c. per cord; other pulpwood, 40c. per cord; fuelwood, 25c. per cord, being Crown dues only.	General Logging.	19561D
1922 Nov. 24.	1922 Dec. 26.	Area adjacent to Grand Trunk Pacific Block 1, east of Horne on the Canadian Pacific Railway.—Dist. of Thunder Bay.	6 sq. miles.	J. O. Stewart, Port Arthur, Ont.	Pine, \$5.50 per M. ft. B.M.; spruce, \$6.00 per M. ft. B.M.; other timber, \$5.00 per M. ft. B.M.; spruce pulpwood, \$2.00 per cord; balsam pulpwood, \$2.00 per cord; railway ties, 12c. per tie; fuelwood, 35c. per cord, all in addition to Crown dues.	Ties and Pulpwood.	7410
1922 Nov. 27.	1922 Dec. 18.	Point situated on the north side of Long Lake, being directly north of Timber Berth No. 51.—Dist. of Rainy River.	4 sq. miles.	Shewlin, Clarke Co., Limited, Fort Frances, Ont.	Red and white pine, \$8.26 per M. ft. B.M.; spruce, \$4.70 per M. ft. B.M.; poplar and basswood, \$1.00 per M. ft. B.M.; jackpine, \$2.00 per M. ft. B.M.; jackpine ties, 4c. each; spruce pulpwood, 40c. per cord; other pulpwood, 10c. per cord; fuelwood, 10c. per cord, all in addition to Crown dues.	Sawlogs.	45675
1922 Nov. 29.	1922 Dec. 22.	Lyon Township.—Lots 5, 6, 7 and 8, Con. 5; Lots 5, 6, E. half 7, and 8, Con. 6; Lot E. half 3, Con. 7.—Dist. of Thunder Bay.	4 sq. miles.	Newaygo Company, Limited, Port Arthur, Ont.	Pine, \$12.00 per M. ft. B.M.; railway ties, 20c. each; fuelwood, 25c. per cord, all in addition to Crown dues.	Pulpwood	20272
1922 Nov. 25.	1922 Dec. 23.	Area immediately north of Indian Reserve, 25D, lying north of Douglas Island.—Dist. of Rainy River.	3 sq. miles.	Border Lumber Co., Limited, Fort Frances, Ont.	Red and white pine, \$9.25 per M. ft. B.M.; jackpine, \$6.00 per M. ft. B.M.; spruce, \$5.00 per M. ft. B.M.; spruce pulpwood, \$1.25 per cord; railway ties, 6c. each, all in addition to Crown dues.	Sawlogs.	44164

1922 Dec. 29.	1923 Jan. 18	Township 7 and part of Township 6.—Lying north and east of the Canadian Pacific Railway, in the vicinity of James Station, on C.N.R.—Dist. of Thunder Bay.	36 sq. miles.	Charles Mellor, Port Arthur, Ont.	Pine, \$7.00 per M. ft. B.M.; spruce, poplar and basswood, \$4.00 per M. ft. B.M.; other timber, \$3.00 per M. ft. B.M.; railway ties, 12c. each; spruce pulpwood, \$1.87 per cord; other pulpwood, \$1.07 per cord; fuelwood, 5c. per cord, all in addition to Crown dues.	46024	Pulpwood.
1923 Jan. 8.	1923 Jan. 30.	Area south and east of Timber Berth A.T.W. 7, extending 2½ miles east of the southerly part of said Berth and 4½ miles south of the easterly part of said Berth.—Dist. of Kenora	10 sq. miles.	Milligan & Morrow, 225 Curry Bldg., Winnipeg, Man.	Red and white pine, \$8.10 per M. ft. B.M.; jackpine, \$5.85 per M. ft. B.M.; spruce, poplar and basswood, \$4.75 per M. ft. B.M.; other timber, \$3.25 per M. ft. B.M.; railway ties, 4c. each; spruce pulpwood, 40c. per cord; other pulpwood, 25c. per cord, all in addition to Crown dues.	8716	Ties.
1922 Nov. 2.	1923 Jan. 19.	Hawkins Township. — Dist of Algoma.	81 sq. miles.	The Algoma Central & Hudson Bay Railway and Lake Superior Paper Co., Limited, jointly, c/o Messrs. Gilson & Gilson, Barristers, Bank of Hamilton Bldg., Toronto, Ont.	Pine timber, 50c. per M. ft. B.M.; including jackpine, spruce, poplar and basswood, \$1.00 per M. ft. B.M.; other timber, 75c. per M. ft. B.M., all in addition to Crown dues; railway ties, 10c. per tie; spruce pulpwood, 80c. per cord; other pulpwood, 40c. per cord; fuelwood, 25c. per cord; cedar posts, 2c. each, all inclusive of Crown dues. <i>Cedar Poles</i> .—30 ft. and less in length, 25c.; 31 to 40 ft., 50c.; 41 to 50 ft., 75c.; 51 ft. and over, \$1.00, being Crown dues only.	1421	Pulpwood and Ties.
1923 Jan. 11.	1923 Jan. 26.	Pattullo Township.—N. half and S.E. quarter of N.E. quarter, Sec. 22.—Dist. of Rainy River.	½ sq. mile.	A. F. Cameron, Stratton P.O., Ontario.	Pine, \$6.00 per M. ft. B.M.; spruce, etc., 50c. per M. ft. B.M.; other timber, \$1.50 per M. ft. B.M.; railway ties, 5c. per tie; spruce pulpwood, \$1.00 per cord; other pulpwood, 25c. per cord; fuelwood, 10c. per cord, all in addition to Crown dues.	13941	General Logging.
1922 Dec. 29	1923 Jan. 31.	Westbrook Township. — S. half (and that portion of land lying between the south boundary of the said township and the north boundary line of Timber Berth H. G. (Onaping).—Dist. of Sudbury.	25½ sq. miles	Hope Lumber Co. Limited, Thessalon, Ont.	Red and white pine, \$13.27 per M. ft. B.M.; railway ties, 25c. per tie, in addition to Crown dues.	19759	Sawlogs.

Appendix No. 43—Continued

Timber areas disposed of from 1st November, 1922, to 31st October, 1923.

Date offered.	Date sold.	Locality.	Area.	To whom sold.	Price paid.	Proposition.	File No.
1923 Jan. 12.	1923 Feb. 2.	Chesley Township Addition- al—lots 1, 2, 3, 4, 5 and 6, Con. 1.—Dist. of Algoma.	3 sq. miles.	Hope Lumber Co. Limited, Thessalon, Ont.	Pine, \$10.26 per M. ft. B.M.; maple timber, 50c. per M. ft. B.M.; spruce, poplar and bass- wood, \$3.00 per M. ft. B.M.; other timber, \$2.50 per M. ft. B.M.; railway ties, 25c. per tie; spruce pulpwood, 80c. per cord; other pulpwood, 50c. per cord; soft cordwood, 10c. per cord; hard cordwood, 25c. per cord; cedar posts, 2c. per post, all in addition to Crown dues. <i>Cedar Poles</i> .—30 ft. and less in length, 25c.; 31 ft. to 40 ft., 50c.; 41 ft. to 50 ft., \$1.00; 51 ft. and over, \$1.50, all in addition to Crown dues.	Sawlogs.	105.A.
1923 Feb. 6.	1923 Feb. 16.	Area between mileage 115 $\frac{1}{2}$ and 116 $\frac{1}{2}$ on the Lake Superior Division of the Canadian Na- tional Railway in the vicinity of Petry Station.—Dist. of Thunder Bay.	2 sq. miles.	J. E. Cook, Fort William, Ontario.	Spruce pulpwood, \$1.35 per cord; other pulpwood, \$1.00 per cord, in addition to Crown dues.	Pulpwood.	9391.A.
1923 Jan. 26.	1923 Feb. 16.	Cane Township.—Lot N. half 7, Con. 1.—Dist. of Temis- kaming.	$\frac{1}{2}$ sq. mile.	Donald Duff, Village of Cane, Ontario.	Pine, \$1.75 per M. ft. B.M.; spruce and poplar, \$1.00 per M. ft. B.M.; other timber, \$1.00 per M. ft. B.M.; railway ties, 20c. per tie; spruce pulpwood, 10c. per cord; other pulpwood, 10c. per cord; fuelwood, 10c. per cord, all in addition to Crown dues.	Sawlogs.	18645

Appendix No. 44.

THIS AGREEMENT made in triplicate this fifteenth day of May, 1923.

BETWEEN

HIS MAJESTY THE KING, represented by the Honourable the Minister of Lands and Forests for the Province of Ontario, hereinafter called "The Crown,"

OF THE FIRST PART

—and—

THE SPANISH RIVER PULP AND PAPER MILLS, LIMITED, a Company organized and existing under the laws of the Province of Ontario, hereinafter called "The Company,"

OF THE SECOND PART.

WHEREAS the Company was organized by Letters Patent of the Province of Ontario, with an authorized capital of Twenty Million Dollars (\$20,000,000.00) divided into Two Hundred Thousand (200,000) shares of the par value of One Hundred Dollars (\$100.00) each, of which One Hundred Thousand (100,000) are Preference Shares and One Hundred Thousand (100,000) are Common Shares, and

WHEREAS the Company is the holder and owner of all of the capital stock of the Lake Superior Paper Company, Limited, a company duly incorporated under the laws of the Dominion of Canada, and operating a pulp and paper mill at the City of Sault Ste. Marie, in the District of Algoma, in the Province of Ontario, and

WHEREAS the Company has operated continuously for a number of years, pulp and paper mills at the town of Espanola in the District of Sudbury, in the Province of Ontario, and at the Town of Sturgeon Falls in the District of Nipissing, and

WHEREAS at the three said mills of the Company the Company has a daily output of 700 tons of newsprint, 700 tons of groundwood, 290 tons of sulphite pulp, and 50 tons of board or wrapping paper, and

WHEREAS the Company has expended in the construction and operation of its three said mills large sums of money, and has represented to the Crown that it has an insufficient supply of pulpwood to support its said operations, and

WHEREAS it is in the public interest that the said mills shall be assured of an adequate supply of pulpwood in order to guarantee the continuous operation of its mills, thus insuring the employment of a large number of workmen throughout each year, and

WHEREAS in order to assure the Company of an adequate supply of pulpwood for its mills the Crown, represented by a former Minister of Lands and Forests, set aside in September, 1919, an area of ungranted lands of the Crown and indicated his intention to grant to the Company the right to cut pulpwood over an area the extent and location of which was to be determined later, and

WHEREAS in consideration of the setting aside of such area the Company has expended large sums of monies in addition to and extensions of its plants, and

WHEREAS a Government cruise has been made and an estimate submitted and one-half of the cost of such work is chargeable to and payable by the Company, and

WHEREAS this Agreement has been entered into in fulfilment of the intention of such former Minister:

NOW THEREFORE THIS INDENTURE WITNESSETH that in consideration of the premises and of the mutual covenants, promises and agreements hereinafter contained, it is hereby agreed as follows:—

1. In consideration of the premises of the contracts and agreements entered into on the part of the Company, the Crown, for the rates hereinafter set forth and provided and subject to the terms, conditions and regulations as to locality and manner of cutting, measuring, driving and removing same as may from time to time be imposed by the Minister, and subject also as hereinafter set forth and contained, will and doth grant to the Company for a period of twenty-one years from the date hereof

(a) The right to cut and remove all the timber suitable for pulpwood except Red and White Pine and also except all Jack Pine twelve inches and over in diameter measured inside the bark eighteen inches from the ground, to supply the said mills or extensions thereof or additions thereto in or upon the area described as follows:—

The Townships of Walls, Marjorie, Legge, Hook, Coderre, Stefansson, Lerwick and Kirkwall, in the *District of Algoma, containing 647 square miles more or less;*

and

the east one-half of the Township of Leeson, the Townships of Baltic, Barclay, Calais, Lloyd, Oates, Brackin, Missinabi, Admiral, Busby, East one-half of Township of Abbey, Townships of Clifton, Brutus, Muskego, Chaplain, Manning, West one-half of Township of Carty, Township of Keith, North one-half of Township of Ramsden, Townships of Mageau, Murdock, West one-half of Township of Evans, the unsurveyed area north of the Townships of Newton and Dale and south of the Townships of Ivanhoe and Keith, Township of Regan, East one-half of Township of Marshall, Township of Sandy, South one-half of Township No. 33, unsurveyed area east of the Township of McOwen, Townships of Chapleau, Marion, unsurveyed area east of Genoa, North one-half of Township of Tooms, North one-half of Township of Greenlaw, North one-half of Township of Cunningham, Townships of Garnet, Benton, Mallard, Eric, Somme, Osway, Potier, Neville, and Chester, in the *District of Sudbury, containing 1,598 square miles more or less.*

(b) The right to cut and remove all Spruce and Balsam to supply the said mills or extensions thereof or additions thereto in or upon that area, described as follows:—

The Townships of Bonar, Lipsett, Copperfield, Sadler and Racine, in the District of Sudbury.

(c) The right to cut and remove all the timber suitable for pulpwood except the Red and White Pine and Jack Pine, to supply said mills or extensions thereof or additions thereto in or upon the area, described as follows:—

East one-half of Township of Addison, Township of Hill, West one-half of Township of Marshall, North one-half of Township No. 33, South one-half of Township No. 32, in the District of Sudbury, containing 108 square miles, more or less, and the Townships of Amik, Abigo, Hayward, Conking, Nobotik and Makawa, the unsurveyed area east

of the Township of Abigo, less Indian Reserve, in the District of Algoma, containing 405 square miles, more or less, the total area of the herein mentioned lands being 3,066 square miles, more or less.

2. The Company, for the right to cut the pulpwood on the said area, as above described, shall pay such rates as shall be fixed from time to time by the Lieutenant-Governor in Council, but in no case shall the Crown dues be fixed at higher figures than the price at which the general public shall be permitted to cut on other portions of the Crown domain, or than others similarly situated shall be permitted to cut.

3. It is distinctly understood that the Company obtains the right to cut the timber only, and has no right to the soil or use thereof, except as may be necessary for cutting and removing the wood and timber as aforesaid, subject to such terms, conditions and regulations as to the cutting, measuring, removing and driving of the same as may from time to time be imposed by the Minister.

4. The wood and timber shall be cut upon such portions of said territory, and in such manner as the Minister may from time to time direct, and such precautions shall be taken and means employed to prevent injury or destruction by fire on said territory as said Minister may require, including payments of such annual charge for fire protection, as may from time to time be fixed by the Lieutenant-Governor in Council.

5. All pulpwood cut on the said territory shall be used for the supply of, and shall be manufactured at, the said mills or extensions thereof or additions thereto.

6. Pulpwood taken out in 4-foot or 8-foot lengths shall be measured, returned and paid for on the basis of 128 cubic feet to each stacked cord. Pulpwood taken out in lengths above 8 feet shall be measured in the log on the cubic basis and each 100 cubic feet shall constitute a cord.

7. All slash made about camps, dumps, along tote roads, railroads, or at any other points which might constitute a serious fire menace, shall be disposed of as directed by an officer of the Department.

8. In order to reduce possible difficulties arising from dual operations on the within mentioned area, no Jack Pine 12 inches and over in diameter measured inside the bark 18 inches from the ground will be sold by the Minister until the Company has been notified in writing of the proposed sale.

9. The Crown does not guarantee any particular quantity of wood or timber nor undertake to do more than grant the right to cut such quantities of wood or timber as may be on said area, subject to the reservations and conditions hereinbefore provided.

10. Proper sworn returns of wood and timber cut each season shall be made by the Company to the Crown, in conformity with the Crown Timber Act and regulations thereunder, and payment of dues upon all the wood and timber cut by the Company, shall be made by the Company to the Crown forthwith upon the rendering from time to time by the Crown to the Company of an account hereof; and in addition to all other remedies it may have therefor, the Crown shall have all the rights and powers in respect of the enforcement of such payments and of any interest charges thereon as are now or hereafter may be provided in the case of the dues on timber cut under timber license.

11. The Minister shall have the right to inspect the timber operations on the said territory at any time he may deem it advisable or in the public interest; and if upon inspection it appears, and the Minister so decides, that the said timber operations are carried on in such a way that any merchantable or valuable timber that should be removed is being left or destroyed, the Minister shall

have the right to estimate the said timber so remaining uncut or being destroyed, and charge the same to the Company at, and the Company shall pay therefor, the same rate of dues as if the same had been actually removed by the said Company.

12. The cutting and removing of timber on said territory or any part thereof shall not be deemed to have been completed until it has been examined by an officer of the Crown nor until such operation shall have been declared satisfactory by the Minister.

13. The Company shall not, at any time or in any place, deposit, empty, run or turn into any river, stream, or other waters whatsoever, any refuse, sawdust, chemicals, or matter of any kind, which shall be injurious to fish life, or have the effect of destroying, harming or driving away the fish in such river, stream or water.

14. All water powers and privileges on said territory, and the right of the Crown to raise, hold, lower and maintain the waters on the rivers, streams and lake in said territory at such height and in such conditions as may be found necessary and expedient for the development of such water powers, are reserved to the Crown.

15. The Crown shall retain the right to sell, lease, locate or otherwise dispose of any lands included in the said territory on the same terms and conditions for settlement, mining or other purposes as ordinary Crown lands situated elsewhere, and this agreement is not to impede or retard settlement, or mining operations, and nothing herein contained shall limit or affect the right of the Crown or its Ministers to sell, lease, locate, or otherwise dispose of lands in the aforesaid territory for settlement, mining or other purposes.

16. Nothing herein contained or to be done hereunder or by virtue hereof, shall entitle the Company to a monopoly in the use of any rivers, streams, or lakes or tributaries thereof, in the said territory, but the same shall be and continue open for the use of the public in accordance with the law in that behalf, and in the event of the works of the Company in any way interfering with the driving of logs or timber down the said rivers, streams or lakes or tributaries thereof, the Minister, as well as such other lawful authority as may be constituted therefor, shall have full power to determine from time to time the provisions necessary to overcome such interference, and thereupon the said Company, as and when directed, will make provisions accordingly.

17. It is distinctly understood and agreed that the Company shall not cut or remove any timber from any territory or area covered by this agreement while under license or permit from the Crown, except upon the written consent of the Minister.

18. In the event of failure on the part of the Company to comply with any of the terms, requirements, provisions or conditions contained herein, the Minister may revoke the right, license or permit to cut the said forest products, and upon the said revocation all rights of the Company under the agreement shall be and become *ipso facto* null and void, provided that thirty days' notice in writing of intention to revoke the said right, license or permit shall be given by registered letter addressed to the Company at Sault Ste. Marie, Ont.

19. The Minister shall have the power to waive the right of revocation caused by any failure on the part of the Company herein provided for.

20. Upon all dues of all kinds on the pulpwood and timber cut under this agreement prior to the first day of May in any year during the currency of this agreement remaining unpaid on the thirtieth day of September next ensuing thereafter, the Company, without prejudice to the power of the Crown to enforce

the payment of such dues at any time the Minister may think proper, shall pay to the Crown interest at the rate of six per cent. (6%) per annum from said thirtieth day of September, and upon all of such dues remaining unpaid on the thirty-first day of October then next ensuing, the Company shall pay interest at the rate of one per cent. (1%) per month from said thirty-first day of October until the same is fully paid.

21. The word "Minister" shall mean Minister of Lands and Forests of the Province of Ontario.

22. This agreement shall be binding upon and enure to the benefit of the Company, its successors and assigns; provided, however, that this agreement and the terms created shall not be assigned or transferred without the written consent of the Minister, endorsed on said assignment or transfer.

23. The said parties for themselves, their successors, heirs and assigns, respectively, do hereby covenant and agree to the full performance on their part, respectively, of everything herein stipulated to be done.

IN WITNESS WHEREOF said Minister of Lands and Forests for the Province of Ontario, and the Company, have hereunto set their hands and seals.

Appendix No. 45.

COPY OF AGREEMENT.

ABITIBI POWER AND PAPER COMPANY, LIMITED.

ADDITIONAL AREA.

THIS AGREEMENT made in triplicate this Twelfth day of July, 1923.
BETWEEN:—

HIS MAJESTY THE KING, represented by the
Honourable the Minister of Lands and Forests for the
Province of Ontario, hereinafter called "The Crown,"
OF THE FIRST PART,

—And—

THE ABITIBI POWER AND PAPER COMPANY,
LIMITED, a Company organized and existing under
the laws of the Province of Ontario, hereinafter called
"The Company,"

OF THE SECOND PART.

WHEREAS the Company was organized by Letters Patent of the Dominion of Canada, with an authorized capital of two hundred and fifty thousand shares of no par value, of which ten thousand are Preference Shares and two hundred and forty thousand are Common Shares, and

WHEREAS the Company is the owner and operator of a pulp and paper mill at the Town of Iroquois Falls in the Province of Ontario, and

WHEREAS the Company has operated continuously for a number of years a pulp and paper mill at the said town of Iroquois Falls with a daily output of 400 tons of newsprint paper, and

WHEREAS it is in the public interest that the said mill shall be assured of an adequate supply of pulpwood in order to guarantee its continuous operation and insure the employment of a large number of workmen, and

WHEREAS in order to assure the Company of an adequate supply of pulpwood for its mills the Crown, represented by a former Minister of Lands and Forests, set aside in April, 1919, an area of ungranted lands of the Crown and indicated his intention to grant to the Company the right to cut pulpwood over an area the extent and location of which was to be determined later, and

WHEREAS in consideration of the setting aside of such area the Company has expended large sums of monies in addition to and extensions of its plants;

NOW THEREFORE THIS INDENTURE WITNESSETH that in consideration of the premises and of the mutual covenants, promises and agreements hereinafter contained, it is hereby agreed as follows:—

1. In consideration of the premises of the contracts and agreements entered into on the part of the Company, the Crown, for the rates hereinafter set forth and provided and subject to the terms, conditions and regulations as to locality and manner of cutting, measuring, driving and removing same as may from time to time be imposed by the Minister and subject also as hereinafter set forth and contained, will and doth grant to the Company for a period of twenty-one years the right to cut and remove all the timber suitable for pulpwood, except Red and White Pine, and Jack Pine twelve inches and upwards eighteen inches from the ground, to supply the said mill or extension thereof or additions thereto in or upon the area described as follows:—

In the District of Cochrane in the Province of Ontario, commencing at the southeasterly angle of the Township of Kennedy; thence easterly along the northerly boundaries of the Townships of Stimson, Sweatman, Findlay, Henley, Pliny, Steele and Scappa, and the production thereof easterly to a point on the Interprovincial Boundary line between the Provinces of Ontario and Quebec; thence northerly along the said Interprovincial Boundary eighteen miles (18 miles) to a point; thence west astronomically twenty-four miles (24 miles) to a point; thence south astronomically twelve miles (12 miles) to a point; thence west astronomically twelve miles (12 miles) to a point; thence north astronomically six miles (6 miles) to a point; thence west astronomically six miles (6 miles) to a point; thence north astronomically fifteen miles (15 miles) to a point; thence east astronomically twelve miles (12 miles) to a point; thence north astronomically nine miles (9 miles) more or less to a point on Speight's base line; thence westerly along said Speight's base line twelve miles (12 miles) to a point; thence north astronomically six miles (6 miles) to a point; thence east astronomically twelve miles (12 miles) to a point; thence north astronomically eighteen miles (18 miles) to a point; thence west astronomically twenty-four miles (24 miles) to a point; thence north astronomically six miles (6 miles) to a point; thence west astronomically twenty-four miles (24 miles) to a point; thence south astronomically twenty-four miles (24 miles) to a point; thence east astronomically twelve miles (12 miles) to a point; thence south astronomically twelve miles (12 miles) to a point; thence east astronomically six miles (6 miles) more or less to the intersection with the production northerly of Ontario Land Surveyor Speight's meridian line run in 1904; thence southerly along said production and along said Speight's line twenty-one miles (21 miles) to a point in the north boundary of the Township of Kennedy; thence easterly along the northerly boundary of the Township of Kennedy six miles (6 miles) more or less to the northeast angle of said Township; thence south along the easterly boundary of the Township of Kennedy nine miles (9 miles) more or less to the point of commencement; containing by admeasurement two thousand four hundred and sixty-six (2,466) square miles, as shown on the map hereto annexed enclosed by heavy black lines and shown in blocks one to seventy both inclusive, and the Townships of Barnet, Thackeray, Tannahill, Dokis, Elliot, Melba, Bisley, Clifford, Ben Nevis and Pontiac, all in the said District of Cochrane.

2. The Company, for the right to cut the pulpwood on the said area, as above described, shall pay such rates as shall be fixed from time to time by the Lieutenant-Governor in Council in periods of five years, but in no case shall the Crown dues so to be fixed be at higher figures than the price at which the general public shall be permitted to cut on other portions of the Crown domain, or than others similarly situated shall be permitted to cut.

3. It is distinctly understood that the Company obtains the right to cut the timber only, and has no right to the soil or use thereof, except as may be necessary for cutting and removing the wood and timber, as aforesaid, subject to such terms, conditions and regulations as to the cutting, measuring, removing and driving of the same, as may from time to time be imposed by the Minister.

4. The wood and timber shall be cut upon such portions of said territory, and in such manner as the Minister may from time to time direct, and such precautions shall be taken and means employed to prevent injury or destruction by fire on said territory as said Minister may require, including payments of such annual charge for fire protection, as may from time to time be fixed by the Lieutenant-Governor in Council.

5. All pulpwood cut on the said territory shall be used for the supply of, and shall be manufactured at, the said mill or extensions thereof or additions thereto.

6. The Crown does not guarantee any particular quantity of wood or timber nor undertake to do more than grant the right to cut such quantities of wood or timber as may be on said area, subject to the reservations and conditions hereinbefore provided.

7. All slash made about camps, dumps, along tote roads, railroads, or at any other points which might constitute a serious fire menace, shall be disposed of as directed by an officer of the Department.

8. Proper sworn returns of wood and timber cut each season shall be made by the Company to the Crown, in conformity with the Crown Timber Act and Regulations thereunder, and payment of dues upon all the wood and timber cut by the Company shall be made by the Company to the Crown forthwith upon the rendering from time to time by the Crown to the Company of an account thereof; and in addition to all other remedies it may have therefor, the Crown shall have all the rights and powers in respect of the enforcement of such payments and of any interest charges thereon as are now or hereafter may be provided in the case of the dues on timber cut under timber license.

9. Pulpwood taken out in 4-foot or 8-foot lengths shall be measured, returned and paid for on the basis of 128 cubic feet to each stacked cord. Pulpwood taken out in lengths above 8 feet shall be measured in the log on the cubic basis and each 100 cubic feet shall constitute a cord.

10. The Minister shall have the right to inspect the timber operations on the said territory at any time he may deem it advisable or in the public interest; and if upon inspection it appears, and the Minister so decides, that the said timber operations are carried on in such a way that any merchantable or valuable timber that should be removed is being left or destroyed, the Minister shall have the right to estimate the said timber so remaining uncut or being destroyed, and charge the same to the Company at, and the Company shall pay therefor, the same rate of dues as if the same had been actually removed by the said Company.

11. The cutting and removing of timber on said territory or any part thereof shall not be deemed to have been completed until it has been examined by an officer of the Crown nor until such operation shall have been declared satisfactory by the Minister.

12. The Company shall not, at any time or in any place, deposit, empty, run or turn into any river, stream, or other waters whatsoever, any refuse, sawdust, chemicals, or matter of any kind, which shall be injurious to fish life, or have the effect of destroying, harming or driving away the fish in such river, stream or water.

13. All water powers and privileges on said territory and the right of the Crown to raise, hold, lower, and maintain the waters on the rivers, streams and lakes in such territory at such height and in such conditions as may be found necessary and expedient for the development of such water powers, are reserved to the Crown.

14. The Crown shall retain the right to sell, lease, locate or otherwise dispose of any lands included in the said territory on the same terms and conditions for settlement, mining, or other purposes as ordinary Crown Lands situated elsewhere, and this agreement is not to impede or retard settlement, or mining operations, and nothing herein contained shall limit or affect the right of the Crown or its Ministers to sell, lease, locate or otherwise dispose of lands in the aforesaid territory for settlement, mining or other purposes.

15. Nothing herein contained or to be done hereunder or by virtue hereof, shall entitle the Company to a monopoly in the use of any rivers, streams, or lakes or tributaries thereof, in the said territory, but the same shall be and continue open for the use of the public in accordance with the law in that behalf, and in the event of the works of the Company in any way interfering with the driving of logs or timber down the said rivers, streams or lakes or tributaries thereof, the Minister, as well as such other lawful authority as may be constituted therefor, shall have full power to determine from time to time the provisions necessary to overcome such interference, and thereupon the said Company, as and when directed, will make provision accordingly.

16. It is distinctly understood and agreed that the Company shall not cut or remove any timber from any territory or area covered by this agreement while under license or permit from the Crown, except upon the written consent of the Minister.

17. Upon all dues of all kinds on the pulpwood and timber cut under this agreement prior to the first day of May in any year during the currency of this agreement remaining unpaid on the thirtieth day of September next ensuing thereafter, the Company, without prejudice to the power of the Crown to enforce the payment of such dues at any time the Minister may think proper, shall pay to the Crown interest at the rate of six per cent. (6%) per annum from said thirtieth day of September, and upon all of such dues remaining unpaid on the thirty-first day of October then next ensuing, the Company shall pay interest at the rate of one per cent. (1%) per month from said thirty-first day of October until the same is fully paid.

18. In the event of failure on the part of the Company to comply with any of the terms, requirements, provisions or conditions contained herein, the Minister may revoke the right, license or permit to cut the said forest products and upon the said revocation all rights of the Company under the agreement shall be and become *ipso facto*, null and void, provided that thirty days' notice in writing of intention to revoke the said right, license or permit shall be given by registered letter addressed to the Company at Iroquois Falls, Ont.

19. The Minister shall have the power to waive the right of the revocation caused by any failure on the part of the Company herein provided for.

20. The word "Minister" shall mean Minister of Lands and Forests of the Province of Ontario.

21. This agreement shall be binding upon and enure to the benefit of the Company, its successors and assigns; provided, however, that this agreement and the term created shall not be assigned or transferred without the written consent of the Minister, endorsed on said assignment or transfer.

22. The said parties, for themselves, their successors, heirs and assigns, respectively, do hereby covenant and agree to the full performance on their part, respectively, of everything herein stipulated to be done.

IN WITNESS WHEREOF said Minister of Lands and Forests for the Province of Ontario, and the Company, have hereunto set their hands and seals.

Appendix No. 46.

THIS AGREEMENT made in triplicate this Tenth day of July, 1923,

BETWEEN: His Majesty the King, represented by the Honourable the Minister of Lands and Forests of the Province of Ontario, hereinafter called "The Crown,"

OF THE FIRST PART,

—and—

Continental Wood Products Company, Limited, hereinafter called "The Grantee,"

OF THE SECOND PART.

WHEREAS by advertisement, duly published, the Honourable the Minister of Lands and Forests for Ontario called for tenders to be received by him up to and including the twenty-second day of June, 1923, for the right to cut pulpwood and timber on a certain area situated in the watershed of the Trout and Chapleau rivers in the Districts of Sudbury and Algoma, hereinafter more particularly described.

AND WHEREAS on the twenty-second day of June, 1923, the said Minister received from the grantee a tender for the right to cut pulpwood and timber on said area, which said tender has been approved and accepted.

AND WHEREAS the right to cut pulpwood and timber on said area was, by said advertisement for tenders and by the tender of the said grantee, based upon and subject to certain terms, conditions and stipulations.

AND WHEREAS this agreement is entered into for the purpose of ensuring the performance by the grantee of the obligations contained in said tender and acceptance thereof as hereinafter defined, and of securing the grantee the said supply of pulpwood and timber for the purpose of the mill or mills to be established, maintained, conducted and carried on within the said area or at some point in Ontario approved by the Minister.

NOW THEREFORE THIS INDENTURE WITNESSETH that in consideration of the premises it is agreed by and between the grantee and the Crown, as follows:

1. On or before the thirtieth day of December, 1923, the grantee shall have commenced construction work on a Kraft pulp mill in the said area or at some other place in the Province of Ontario approved by the Minister and will thoroughly equip the same so that the expenditure in connection with the erection, equipment, and machinery of said Kraft pulp mill contained in said Kraft pulp mill will be at least One million five hundred thousand dollars (\$1,500,000) and shall expend in connection with the erection, equipment and machinery of said Kraft pulp mill as follows: On or before the first day of June, 1924, the sum of Five hundred thousand dollars (\$500,000); on or before the first day of January, 1925, a further sum of Five hundred thousand dollars (\$500,000); and on or before the first day of June, 1925, a further sum of Five hundred thousand dollars (\$500,000), making in all the said sum of One million five hundred thousand dollars (\$1,500,000); or on or before which last-mentioned date the grantee shall have said Kraft pulp mill fully equipped and in operation.

2. Upon and after the completion of said Kraft pulp mill, the grantee, during the currency of this agreement, shall operate and continue to operate the said Kraft pulp mill so that the daily output thereof shall, in each and every

year during the currency of this agreement, be not less than seventy-five tons (75) of Kraft pulp and shall cut from said area at least fifty thousand cords (50,000) of pulpwood in each and every year during the currency of this agreement and shall for at least ten months in each and every year during the currency of this agreement employ and keep employed within the said Kraft pulp mill in connection with the operation of the same an average of at least one hundred (100) persons, and the employment of said persons as aforesaid shall form part of the consideration for the price of said pulpwood and timber.

3. Within such time and at such place as the Minister may direct, the grantee shall erect a Kraft paper mill having a capacity of at least fifty (50) tons of paper per day; and, after the erection thereof, shall operate the same continuously during the currency of this agreement so that in each year during the currency of this agreement, the average daily output of the said Kraft paper mill shall not be less than thirty-five (35) tons of Kraft paper.

4. Commencing with the month of January, 1926, the grantee shall, in the month of January of each and every year during the currency of this agreement, deliver to the Minister upon such form as the Minister may direct, statements, verified by the oath of the secretary of the grantee, showing (first) the persons who, during the calendar year ending with the thirty-first day of December then next preceding were employed by the grantee in operating the said Kraft pulp mill; (second) the daily output of the said Kraft pulp mill during the calendar year ending with the thirty-first day of December then next preceding; and in each of said statements shall furnish also such other details in connection with said matters as the Minister may require.

5. The cutting of the said pulpwood and timber may begin as soon as but not before the sum of One million dollars (\$1,000,000) shall have been expended on the erection of the said Kraft pulp mill and equipment thereof.

6. In consideration of the bonus hereinafter mentioned, and of the said expenditure, and of the contracts and agreements entered into on the part of the grantee, and subject to such terms, conditions and regulations as to locality and manner of cutting, driving and removing the same as may from time to time be imposed by the Minister, and subject also as hereinafter set forth and contained, the Crown will and doth grant to the grantee the right to cut and remove all the spruce, balsam, banksian or jack pine, poplar and whitewood trees sufficient to supply the said mill or mills to be erected for a period of twenty-one (21) years from the date hereof, and also to remove all red and white pine trees of a diameter of ten (10) inches and upwards at two (2) feet from the ground, and also spruce, banksian or jack pine, too large for pulpwood purposes, from the unlicensed, unsold and unlocated lands of the Crown hereinafter described, namely:—

Being the townships of Loughheed, Davin, Amundsen and Kapuskasing in the District of Algoma, and the townships of Bonar, Shenango, Lemoine, Lincoln, Copperfield, Lipsett, Floranna, Sadler, Alcorn, Paul, Collins, Pattinson and Racine, in the District of Sudbury, having a total area of 1,049 square miles more or less.

Saving, excepting and reserving nevertheless to the Crown all the spruce and balsam in the said townships of Bonar, Lipsett, Copperfield, Sadler and Racine, having a total area of 306 square miles, more or less; and upon which said last described area other persons to whom any right has been already given or may hereafter be given to cut and remove timber other than that herein granted to the grantee, may so cut and remove said timber; and saving, excepting and reserving also the right of way of the National Railway; and also

all lands under the waters of all rivers, lakes and streams within the said hereinbefore first described area of 1,094 square miles, more or less, and also all lands heretofore patented, licensed, leased, located, or applied for, in respect of which such proceedings have been taken or shall hereafter be taken as in the opinion of the Minister entitles the applicant or applicants to a lease or patent for such lands, together with the right of the Crown to sell, lease, locate or otherwise dispose of any lands included in the hereinbefore first described area on the same terms and conditions for settlement, mining or other purposes as ordinary Crown lands situated elsewhere: and also the right of the Crown and all other authorities authorized by statute to lay out and construct on any portion of said hereinbefore first described lands a colonization or other road or roads and any road in lieu of or partly deviating from any allowance for a road, without making compensation therefor.

7. The Grantee, as to the right to cut the pulpwood and timber on the said area as above described, shall pay the following bonus on said pulpwood and timber, that is to say:—

White pine, per thousand feet B.M.....	\$6.26
Red pine, per thousand feet B.M.....	6.10
Jack pine, per thousand feet B.M.....	2.65
Spruce, per thousand feet B.M.....	5.17
Spruce, pulpwood, per cord.....	.50
All pulpwood other than spruce, per cord.....	.30
Fuel wood, per cord.....	.05
Railway ties, per tie.....	.06
Cedar posts, each.....	.03
Cedar poles, 30 feet and less in length.....	.05
Cedar poles, over 30 feet and up to 40 feet.....	.10
Cedar poles, over 40 feet and up to 50 feet.....	.15
Cedar poles, over 50 feet.....	.20

and in addition to said respective bonuses shall pay on each of said classes and descriptions of timber the present rate of Crown dues or such other rates of dues as may from time to time be fixed by the Lieutenant-Governor in Council for such pulpwood and timber respectively.

8. It is distinctly understood that the grantee obtains the right to cut the pulpwood and timber only and has no right to the soil or use thereof except as may be necessary for cutting and removing the pulpwood and timber as aforesaid and subject to such terms, conditions and regulations as to the cutting, measuring, removing and driving of the same as may from time to time be imposed by the Minister.

9. The pulpwood and timber shall be cut upon such portions of said territory and in such manner as the Minister may from time to time direct. All slash made about camps, dumps, along tote-roads, within 300 feet of the right of way of railroads, or at any other point which might constitute a serious fire menace, shall be disposed of in a manner satisfactory to the Minister, and such precautions shall be taken and means employed to prevent injury or destruction by fire on said territory as said Minister may require, including payment of such annual charge for fire protection as from time to time may be fixed by the Lieutenant-Governor in Council.

10. Pulpwood taken out in 4-foot or 8-foot lengths shall be measured, returned and paid for on the basis of 128 cubic feet to each stacked cord. Pulpwood taken out in lengths above eight feet shall be measured in the log on the cubic basis and each 100 cubic feet shall constitute a cord.

11. All pulpwood cut on the said territory shall be used for the supply of and shall be manufactured at the said mills (or extensions thereof or additions thereto approved of by the Lieutenant-Governor in Council). All other timber shall be sold subject to the manufacturing condition, that is to say, it shall be manufactured in the Dominion of Canada.

12. Proper sworn returns of the quantity of pulpwood and other timber cut each season shall be made to the Crown in conformity with The Crown Timber Act and regulations thereunder, and payment of bonus and Crown dues upon all the pulpwood and other timber cut by the grantee, shall be made by the grantee for such pulpwood and timber not later than the first day of October in each year, and in addition to all other remedies it may have therefor, the Crown shall have all the rights and powers in respect of enforcing such payments and the payment of any interest charges thereon, as are now or may hereafter be provided in the case of dues on timber cut under timber license.

13. Upon all bonus and dues of all kinds on the pulpwood and timber cut under this agreement prior to the first day of May in any year during the currency of this agreement remaining unpaid on the thirtieth day of September next ensuing thereafter, the grantee, without prejudice to the power of the Crown to enforce the payment of such bonus and dues at any time the Minister may think proper, shall pay to the Crown interest at the rate of six per cent. (6%) per annum from said thirtieth day of September, and upon all of such bonus and dues remaining unpaid on the thirty-first of October then next ensuing, the grantee shall pay interest at the rate of one per cent. (1%) per month from said thirty-first day of October until the same is fully paid.

14. The Minister shall have the right to inspect the timber operations on the said territory at any time he may deem it advisable or in the public interest, and if upon such inspection it appears to the Minister and the Minister so decides that the said pulpwood or timber operations are carried on in such a way that any merchantable or valuable pulpwood or timber that should be removed is being left or destroyed, the said Minister shall have the right to estimate the pulpwood and timber so remaining uncut or being destroyed and the grantee shall pay therefor the same rates of dues and bonus as if the same had been actually removed by the said the grantee.

15. The cutting and removing of pulpwood and timber in the said area or any part thereof shall not be deemed to have been completed until it has been examined by an officer of the Crown, nor until such operation shall have been declared satisfactory by the said Minister.

16. The grantee shall not at any time or at any place deposit, empty, run or turn into any river, stream or other waters whatsoever, any refuse, sawdust, chemicals or matter of any kind which shall or may be injurious to fish-life or have the effect of destroying, harming or driving away the fish in such river, stream or water.

17. All water powers and privileges on said hereinbefore first described area and the right of the Crown to raise, hold, lower, and maintain the waters on the rivers, streams and lakes in said area at such height and in such conditions as may be found necessary and expedient for the development of such water power, are reserved to the Crown, but the Crown will be prepared to negotiate with the grantee in order to enable the grantee to secure an undeveloped water power to develop for the operation of the mill or mills hereinbefore mentioned.

18. The Crown shall retain the right to sell, lease, locate or otherwise dispose of any lands included in the said hereinbefore first described area on the same terms and conditions for settlement, mining or other purposes as ordinary

Crown lands situated elsewhere, and this agreement is not to impede or retard settlement or mining operations, and nothing herein contained shall limit or affect the right of the Crown or its Ministers to sell, lease, locate or otherwise dispose of lands in the aforesaid hereinbefore first described area for settlement, mining or other purposes.

19. Nothing herein contained or to be done hereunder or by virtue hereof, shall entitle the grantee to a monopoly of any rivers, streams or lakes or tributaries thereof in the said territory, but the same shall be and continue open for the use of the public in accordance with the law in that behalf, and in the event of the works of the grantee in any way interfering with the driving of logs or timber down the said rivers, streams, or lakes, or tributaries thereof, the Minister shall have full power to determine from time to time the provisions necessary to overcome such an interference, and thereupon the said the grantee as and when directed shall make provision accordingly.

20. It is distinctly understood and agreed that nothing herein contained shall, without the consent in writing of the Minister, be deemed to confer any right to cut or remove any timber from any area while under license or permit from the Crown.

21. The sum of fifty thousand dollars (\$50,000) deposited by the grantee with its tender for the above area shall remain on deposit until the Kraft pulp mill is erected and in operation as hereinbefore provided to guarantee the due performance by the grantee of the obligations of the grantee under this agreement to erect and operate said Kraft pulp mill, which said deposit shall be forfeited to the Crown in the event of the failure of the grantee to fulfil all or any of said obligations. Any timber cut in the meantime shall be subject to payment of dues and bonus as accounts for same are rendered. After the said pulp mill is erected and in operation the deposit of \$50,000 may be applied on account of bonus dues as they accrue, but the regulation dues as mentioned above shall be paid in the usual manner as returns for cutting of wood and timber are received and accounts rendered.

22. The Crown does not guarantee any particular quantity of wood or timber nor undertake to do more than grant the right to cut such quantities of wood or timber of the kind aforesaid as may be on the said area, subject to the reservations and conditions hereinbefore provided.

23. Whenever and as often as it is requested the grantee shall forthwith cut and remove all pulpwood and other timber hereby granted to the grantee from all road allowances heretofore or hereafter laid out in said first described area by the Crown or other authority authorized by statute to lay out or construct roads therein.

24. In the event of failure on the part of the grantee to erect, construct or operate the said Kraft pulp mill and paper mill, or either of them as herein agreed, or in default of the said the grantee keeping said Kraft pulp mill and said paper mill in operation after the erection thereof respectively as herein agreed, or keeping the required number of persons employed as herein agreed, or upon default of compliance with any other of the terms, requirements or conditions as aforesaid, the Crown may revoke the right, license or permit to cut the said pulpwood and timber, and upon said revocation all the rights of the grantee shall be and become *ipso facto* null and void, and all moneys paid as a deposit, or bonus therein, shall be forfeited to the Crown, provided that thirty days notice in writing of intention to revoke the said right license or permit shall be given by registered letter addressed to the grantee at Elsas,

Ontario, before any revocation, in order that the grantee may have an opportunity of being heard should it so desire.

25. The Minister may, by writing signed by the said Minister, waive the right to revocation caused by any failure on the part of the grantee herein provided for.

26. The word "Minister" shall mean Minister of Lands and Forests for the Province of Ontario.

27. This agreement shall be binding upon and enure to the benefit of the grantee, its successors and assigns, provided, however, that this agreement and the terms created shall not be assigned or transferred without the written consent of the Minister.

28. The said parties, for themselves, their heirs and assigns respectively, do hereby covenant and agree to the full performance on their part respectively, of everything stipulated to be done.

IN WITNESS WHEREOF, said Minister of Lands and Forests for the Province of Ontario has hereunto set his hand and seal and the grantee has affixed its corporate seal and the Vice-President and Secretary of the grantee have signed.

Signed, sealed and delivered
in the presence of

LETTER OF TRANSMISSION

TO HIS HONOUR HENRY COCKSHUTT,

Lieutenant-Governor of the Province of Ontario.

SIR:—I have the honour to transmit to you herewith, for presentation to the Legislative Assembly of the Province of Ontario, the Thirty-Third Annual Report of the Department over which I have the honour to preside.

I have the honour to be, Sir,

Your obedient servant,

CILAS. MCCREA,
Minister of Mines.

Department of Mines,
Toronto, 1925.

INTRODUCTORY LETTER

TO THE HONOURABLE CHAS. MCCREA,
Minister of Mines.

SIR:—

I beg to submit to you herewith the Thirty-third Annual Report of the Department of Mines. The Report comprises seven parts, as follows:—

CONTENTS VOL. XXXIII, 1924.

PART 1.—Statistical Review of Ontario's Mineral Industry in 1923, by W. R. Rogers.

PART 2.—The Porcupine Gold Area (Fourth Report) with Map No. 33a, by A. G. Burrows, together with papers on Mining Methods and Milling Practice, by Geo. E. Cole, E. L. Longmore, C. W. Dowsett and A. Dorfman.

PART 3.—Larder Lake Gold Area, with Map No. 33b, by Percy E. Hopkins; Night Hawk Lake Gold Area, by Percy E. Hopkins; Notes on Gold in McNeil and other townships, by Percy E. Hopkins; Lightning River Gold Area, by Cyril W. Knight; Murphy, Hoyle and Matheson Townships, by Bruce Rose.

PART 4.—Geology of the Upper Part of the English River Valley, with Map No. 33f, by E. L. Bruce; Geology of the Basin of Red Lake, District of Patricia, with Map No. 33e, by E. L. Bruce.

PART 5.—Natural Gas in 1923 and Petroleum in 1923, by R. B. Harkness, Commissioner of Natural Gas.

PART 6.—Groundhog River Area, with Map No. 33g, by E. W. Todd; Geology along an eastward continuation of Niven's 4th Base Line, District of Thunder Bay, by T. L. Gledhill; Meridian and Base Lines south of Lake St. Joseph, by J. P. Johnson.

PART 7.—Mining Accidents in 1923, also Mines of Ontario, by T. F. Sutherland, Chief Inspector of Mines, and Inspectors Geo. E. Cole, Jas. Bartlett, J. G. McMillan and A. R. Webster; Hydro-electric Development for Gold and Silver Mines in Northern Ontario, by A. R. Webster; Distribution of Electric Load at the McIntyre Mine, by A. R. Webster.

I have the honour to be, Sir,

Your Obedient servant,

THOS. W. GIBSON,

Deputy Minister of Mines.

DEPARTMENT OF MINES,
Toronto, 1925.

PROVINCE OF ONTARIO
DEPARTMENT OF MINES

HON. CHAS. MCCREA, *Minister*

THOS. W. GIBSON, *Deputy Minister*

THIRTY-THIRD ANNUAL REPORT
OF THE
ONTARIO DEPARTMENT OF MINES

BEING
VOL. XXXIII, PART I, 1924

Statistical Review
of
Ontario's Mineral Industry in 1923
By W. R. Rogers

PRINTED BY ORDER OF
THE LEGISLATIVE ASSEMBLY OF ONTARIO

TORONTO

Printed and Published by Clarkson W. James, Printer to the King's Most Excellent Majesty

STATISTICAL REVIEW OF ONTARIO'S MINERAL INDUSTRY IN 1923¹

By W. R. Rogers

The mining industry of any country closely reflects conditions of world trade, and while Canada came through the critical post-war period without suffering the extreme depression so marked in Europe, the depreciated currencies of those countries curtailed Canadian exports, thereby affecting our basic industries. The year under review, 1923, witnessed a distinct improvement in general conditions throughout Canada as indicated by the greater purchasing power of the Canadian dollar. In 1920 the average premium on United States exchange was 12.27 per cent, and in 1923 the Canadian dollar was almost at parity, the average exchange rate being 1.97 per cent. While this decrease caused a reduction in the total money value received by gold producers in Ontario, the working conditions as regards labour costs, general efficiency and the fall in material prices had so improved that the reduction in exchange was no longer a factor.

During 1923 in Ontario, increases in quantity production were noted in almost all the main items recorded in Table I, page 2. In spite of much lower prices obtaining for many commodities in metallic, non-metallic and construction materials, there was a gain of \$3,530,889 or 5.15 per cent. over the figures for the previous year. This record is all the more commendable when it is pointed out that due to power shortage there was a decrease in gold output amounting to \$443,282, while the prices of construction materials and clay products, which normally account for more than one-quarter of the total value of the production, declined considerably. The total value of the mineral output of Ontario in 1923 amounted to \$71,997,343 as against \$68,466,454 in 1922.

The gain, as shown in Table II, may be credited almost entirely to the metallic section of the industry. Although important increases occurred in the production of non-metallics, the total gain in value therefrom was much lower than in the metallics. The noteworthy features of the year may be indicated as, first, a serious curtailment in hydro-electric energy thereby affecting the output of gold from Northern Ontario, continued favourable production from the old established silver mines at Cobalt coupled with the output of the newer properties in South Lorrain, and the remarkable recovery observed in the production from the nickel-copper mines. There were increases in the sales of white arsenic, feldspar, natural gas, quartz and salt, to mention just a few of the more important mineral products, while gypsum, talc and petroleum declined appreciably in quantity and value.

During the year the Temiskaming and Northern Ontario Railway Commission commenced the construction of a new 22-mile line running east from the village of Swastika and penetrating to the Kirkland and Larder Lake gold areas, while another branch (17 miles in length) was surveyed from Cobalt to tap the new silver properties of South Lorrain.

Details regarding output and conditions in the several phases of the mining industry are noted under separate headings. In Table I which follows there is shown a summary of Ontario's mineral production in 1923 together with number of wage-earners and wages paid, and Table II shows the comparative values itemized over the last quinquennial period.

¹This report is an elaboration of Bulletin 51, issued in March, 1924, being a Preliminary Report on the Mineral Production of Ontario in 1923.

TABLE 1.—SUMMARY OF MINERAL STATISTICS OF ONTARIO FOR 1923

Product (Ton = 2,000 lbs.)	Quantity	Value	Employees	Wages

(a) Copper and nickel in the matte valued at 10 and 15 cents per pound respectively.

(b) Exports and shipments to points other than Ontario blast furnaces. Total shipments of iron ore, 30,451 tons, valued at \$113,543.

(c) Production from Ontario ore only. Total output of blast furnaces, 674,428 tons of pig iron, worth \$15,995,496.

(d) Employees and wages for nickel-copper refineries.

(e) Employees and wages for silver-cobalt smelters and refineries.

(f) Includes workers on surface construction.

Gold

The production of gold during 1923 in the Province of Ontario declined slightly below the high record attained in the previous year. The figures for 1923 were 974,116 fine ounces valued at \$20,136,287 or a decrease of 21,507 fine ounces worth \$443,282 or 2.16 per cent. below the production during 1922 when 995,623 fine ounces valued at \$20,579,569 were recovered. The above values do not take into account the important amounts received as a premium on the exchange as between Canada and United States. The premiums totalled \$208,620.75 in 1922 and amounted to \$279,446 in 1923. There were also important quantities of silver recovered with the gold, the values of which are excluded in the above figures.

The production of gold in Ontario has been hindered for the past two or three years by the yearly recurrence of power shortage. In the spring of each year and before the breakup, when the thaws have not reached their maximum, many northern water courses are greatly diminished in volume, with a consequent reduction in the number of horsepower available. While the present power installation under normal conditions can handle the needs of the gold mines, no increase in mining development could be expected. This condition, due to the scanty precipitation in the winter of 1922-23 and a rather late spring, was acute during the early spring. As a result new hydro-electric developments were undertaken in 1923. These are described more completely on page 6 under the sub-heading "Hydro-Electric Power."

The following operators produced gold in 1923:

PRODUCING GOLD MINES, 1923

Name of Company	Name of Mine	Locality	P.O. Address of Manager, etc.
Argonaut Gold, Limited.	Argonaut	Gauthier tp.	Dane.
Clifton Porcupine Mines, Limited.	Clifton Porcupine	Deloro tp.	South Porcupine.
Contact Bay Mines, Limited.	Contact Bay	Van Horne tp.	Dryden.
Croesus Gold Mines, Limited.	Croesus	Munro tp.	Cobalt.
Dome Mines Company, Limited.	Dome and Dome Extension	Porcupine	South Porcupine.
Hollinger Consolidated Gold Mines, Limited.	Hollinger	Porcupine	Timmins.
Kirkland Lake Gold Mining Company, Limited.	Kirkland Lake	Kirkland Lake	Kirkland Lake.
Kirkland Lake Proprietary (1919), Limited ¹ .	Burnside	Teck tp.	Kirkland Lake.
Lake Shore Mines, Limited.	Lake Shore	Kirkland Lake	Kirkland Lake.
McIntyre Porcupine Mines, Limited.	McIntyre	Porcupine	Schumacher.
Teck-Hughes Gold Mines, Limited.	Teck-Hughes	Kirkland Lake	Kirkland Lake.
Vipond Consolidated Mines, Limited.	Vipond	Tisdale tp.	Timmins.
Wright-Hargreaves Mines, Limited.	Wright-Hargreaves	Kirkland Lake	Kirkland Lake.

¹The Burnside mine was operated until the end of August by this company, and subsequently by the Tough-Oakes Burnside Gold Mines, Limited, a consolidation of the Tough-Oakes and Burnside mines.

Details of production are given in the table which follows:

TABLE IV.—ONTARIO'S GOLD PRODUCTION, 1923

*Estimated. †Maximum output \$424,568 in 1899.

Hydro-Electric Power.—At the end of 1923 there was available or nearing completion in Northern Ontario about 54,770 horsepower developed by 13 plants, 10 of which were owned by three main companies as follows: Great Northern Power Company, Northern Canada Power Company, and Northern Ontario Light and Power Company. These supply Cobalt, Porcupine, and Kirkland Lake, also an electric railway. The Associated Gold Fields, Gowganda Power Company and South Bay Power Company operated three smaller plants, which supplied electrical energy mainly for mining purposes in Gowganda and Larder Lake. Over and above the plants indicated there was 54,000 horsepower installed and in use by the pulp and paper companies, making a total of about 108,770 horsepower. In order to meet the growing demands of mining and other needs the Hollinger mine undertook the development of 20,000 horsepower at Island Falls on the Abitibi river, and the Northern Canada Power Company commenced construction on the Quinze river in Quebec where units to produce 25,000 horsepower are planned. With these additions there will be almost 154,000 horsepower available, ample to meet the needs for a few years at least.

Dividends.—The important period of gold mining in Ontario began with the opening of the Porcupine mines in 1910. Since that time the gold mines have paid out in returns to shareholders a total of \$33,641,979.10, details of which are given in Table VI.

TABLE VI.—DIVIDENDS AND BONUSES PAID BY GOLD MINING COMPANIES TO DECEMBER 31, 1923

*On Apr. 22, 1922, the capital was reduced from \$5,000,000 to \$4,500,000 and \$176,667 distributed to shareholders in addition to dividends above noted.
 †Hollinger Consolidated Gold Mines, Limited, is a consolidation of the Acme Gold Mines, Limited, Millerton Gold Mines, Limited, and Hollinger Gold Mines, Limited. Dividends include \$160,000 paid in 1915 by Acme, also \$4,170,000 paid by Hollinger to May 25th, 1916, the date of the consolidation.
 **The Schumacher mine was sold to the Hollinger in 1922 and a total of \$1,591,000 or 86 per cent of the assets distributed to shareholders, the final payment being made July 30, 1923.

Silver-Cobalt

Silver plays a very prominent part in trade and commerce throughout the world since increasing trade gives rise to the demand for coin and bullion, and thus may be considered a fair barometer of world trade conditions. India and China absorb annually from one-third to one-half of the world's annual production, which in itself is but a small fraction of the enormous quantity of the metal available for use. The principal demand by these eastern countries is for use in trading, and is one of the chief factors influencing the price of the metal. During 1923 the average monthly price of 65.239 cents per ounce on the New York market represented a decrease of 2.3 cents below the figure for the previous year, and was caused in part by the near completion of government buying of silver in the United States under the provisions of the Pittman Act. This law obligated the United States government to replace the silver sold to Great Britain during the war, and fixed the price at \$1.00 per ounce for virgin domestic silver. The price, however, recovered slightly towards the end of 1923. During this period there was an unusually large demand from the Orient in addition to possibilities of a market in Europe where large quantities of silver would be needed to restore the debased currencies. In spite of the decline in price the production of silver from Ontario mines was considerably increased. From all sources there was produced 10,638,162 fine ounces, having a selling value of \$6,843,364, as against 10,925,305 fine ounces worth \$7,800,029 during 1922. In the 1923 figures shown above, 10,377,846 fine ounces or 97.2 per cent. was credited to the mines of Cobalt, South Lorrain and Gowganda, and was the total number of ounces contained in ores, etc., reported as shipped by the mines, while the balance was produced as refinery products by the nickel-copper refineries and in crude gold bullion from the gold mines of Northern Ontario.

During the year attention was focused on South Lorrain, whence the Keeley and Mining Corporation mines shipped rich ores and concentrates. The geological conditions in this new field are similar to those obtaining at Cobalt and Gowganda where the occurrence of silver is dependent on the proximity of the diabase sill. This new success in South Lorrain will undoubtedly stimulate further exploration in localities geologically favourable.

Classified according to source, the output of silver in 1923 was derived as follows:

	Ounces	Value
Shipments from Cobalt.....	7,259,858	\$4,661,859
Shipments from South Lorrain.....	2,955,646	1,911,281
Shipments from Gowganda.....	160,761	103,201
Shipments from James township (Elk Lake).....	1,581	1,026
Recovered by gold mines.....	159,334	101,031
Recovered in Nickel-copper refineries.....	100,982	64,966
	<hr/> 10,638,162	<hr/> \$6,843,364

New shippers during the period were the Genesee Mining Company and the Menago Mining Company (Colonial mine) both situated in the Cobalt area.

While the production of silver from the old established mines of the Cobalt camp decreased during 1923 from 9,239,147 fine ounces to 7,259,858 ounces, the output on the whole was well maintained by the shipments of rich ore and concentrates from properties in South Lorrain operated by the Keeley and Mining Corporation companies. Attention was focused on the last mentioned area which lies about eighteen miles southeast of the town of Cobalt. The silver

deposits are in the main of primary origin, and the occurrence of silver is dependent as in the Cobalt camp on the proximity of the diabase sill. Similar geological conditions exist at Gowganda in the Miller Lake section. The spectacular successes in South Lorrain have stimulated prospecting and development work in areas showing the distinctive geological conditions. During the period two properties entered the list of active shippers, namely, the Genesee Mining Company and the Menago Mining Company (Colonial mine).

Mines shipping over a quarter million ounces of silver in 1923 are given in order:

Mine	Ounces
Nipissing.....	3,224,691
Mining Corporation of Canada.....	2,228,349
Townsite-City, Buffalo, Cobalt L., Farah and Peterson L.....	928,026
Lorrain Operating Company.....	1,300,323
Keeley.....	1,655,323
Coniagas.....	1,156,517
O'Brien.....	1,025,865
McKinley-Darragh-Savage.....	387,614
La Rose.....	324,427

In addition to the silver content of ores, concentrates, residues, etc., producing mines are paid for the cobalt content provided the percentage is sufficiently high. Mine shippers in 1923 were paid \$217,578 for 822,830 pounds of cobalt.

The producers of silver are given in the following list:

SILVER PRODUCERS IN 1923

Operator	Mine or Source	Location
Castle-Trethewey Mines, Limited.....	Castle.....	Gowganda
Coniagas Mines, Limited.....	Coniagas and Beaver.....	Cobalt
Crown Reserve Mining Company, Ltd.....	Crown Reserve.....	Cobalt
Galvin, M. J.....	Mother Lode*.....	James tp.

O'Brien, M. J., Limited.....	O'Brien.....	Cobalt
O'Brien, M. J., Limited.....	Miller Lake O'Brien.....	Gowganda
Sweet, J. L.....	Silver Queen lease.....	Cobalt
Wigwam Mining Company, Ltd.....	Wigwam.....	Gowganda

*Operated by two parties.

In Table VII are shown the shipments of ore, concentrates and bullion from the mines of Cobalt, South Lorrain, Gowganda and outlying silver areas since mining began in 1904. By "shipment" is meant consignment to outside points whether in Canada or abroad, but not movements within the camp, for example, ore shipped from a mine to a concentrating or reduction plant in Cobalt itself. It will be noted that the quantity of ore shipped away from the camp has been reduced to relatively small proportions during recent years. The table follows:

TABLE VII.—SHIPMENTS FROM SILVER MINES, 1904 TO 1923

Year	No. of Producing Mines	Ore.			Concentrates and Residues			Bullion	Total	
		Tons	Silver, Ounces	Ave. per ton Oz.	Tons	Silver, Ounces	Ave. per ton Oz.	Ounces	Ounces	Value \$

(a) Copper and lead are recovered from certain silver ores and concentrates shipped to United States refineries. These metals are valued at the average prices for the year.
 (b) Nickel metal and metallic contents of all nickel compounds.
 (c) Cobalt metal and metallic contents of all cobalt compounds.
 (d) Prior to 1914 an estimate based on assays was made of the nickel, cobalt and arsenic contained in the ores; subsequently actual recoveries have been reported.
 (e) Includes 460 tons of spess residues worth \$153,116.

Total.....	51,006,308	86,237,191 66	2,100,000 00	88,337,191 66

(a) In 1917 the capital stock of the company was reduced from \$1,000,000 to \$750,000, in 1918 from \$750,000 to \$500,000, and on December 21, 1919, from \$500,000 to \$150,000, by returning to shareholders amounts equal to the reduction in capital, leaving 300,000 shares issued of 50 cents each. The mine was sold to the Mining Corporation of Canada, and operated by it in 1920 and subsequently.

(b) Cash assets amounting to \$850,000 paid on April 27, 1917.

(c) In addition a return of capital amounting to \$600,000 was made on July 3, 1919, to stockholders of the Kerr Lake Mines, Ltd.

(d) Mining Corporation of Canada, Limited, owns and operates the City of Cobalt, Cobalt Lake and Cobalt Townsite mines.

(e) Includes \$16,288,297.25 paid in dividends by the Nipissing Mines Co. (the holding company) to the end of 1916.

(f) This company in addition paid out of capital \$40,491.15 on Sept. 10, 1917, and an equal amount on April 24, 1918.

During the year 1923, the T. & N.O. Railway reported shipments from Cobalt of 1,697 tons of ore and concentrates to United States points, and 4,084 tons to the Deloro Smelting and Refining Company in Southern Ontario.

Refineries.—The companies named hereunder with plants situated in southern Ontario, treat silver-cobalt ores, concentrates and residues:

REFINERS OF SILVER-COBALT ORES, 1923

Name of Company	Location of Works	P.O. Address
Deloro Smelting and Refining Co., Ltd.	Deloro	Deloro.
Coniagas Reduction Co., Limited.	Thorold	St. Catharines.
Ontario Smelters & Refiners, Ltd.	Welland	Welland.

The Coniagas Reduction Company of Thorold, Ont., received no new shipments during the year, but treated ore and residues on hand as operator for the Coniagas Alkali and Reduction Company. The Thorold plant and that of the Deloro Smelting and Refining Company treated 2,931 tons of ore and concentrates, and 4,794 tons of residues. In addition to sales of nickel and cobalt and several of their compounds as noted in the table, 5,158,785 pounds of white arsenic worth \$582,794 were marketed, an increase in quantity of 25 per cent. over 1922 sales.

Late in 1921 the new insecticide plant of the Deloro Smelting and Refining Company commenced operations, the principal products being arsenate of lime and arsenate of lead. In consequence of the ravages of the boll weevil in the cotton-growing areas of the United States there has developed a strong market for the only effective antidote, calcium arsenate. The average sale price was 7.28 cents per pound in 1922, and 11.28 cents in 1923.

The operations of the refining companies during 1923 are summarized in the figures given below. Apart from the silver recovered, from Cobalt and outlying silver areas, the marketed by-products had a value of \$2,716,333. Cobalt metal commanded an average price of \$2.53, and the oxide, \$1.93 per pound.

OPERATIONS OF SILVER-COBALT REFINERIES IN ONTARIO, 1923

Schedule	Production	Marketed	
	Quantity	Quantity	Value
Ore and concentrates treated. tons	2,931.2

Residues, crude lead bullion and copper cement. " "			175,665
Total value of products marketed. \$			4,710,513

*Included with residues.

The following figures have been compiled from information furnished by refineries in the United States which treated products from Ontario silver mines:

	Quantity
Ore, concentrates, etc., treated, tons.....	1,481
Silver paid for, ounces.....	790,767
Cobalt, lbs.....	5,419
Copper, lbs.....	112,432
Lead, lbs.....	53,399

Shipments were consigned to the following:

American Smelting and Refining Company (Omaha, Neb., and Perth Amboy, N.J.).
 Pennsylvania Smelting Co. (Carnegie, Pa.).

Nickel, Copper and Platinum Metals

The nickel producing industry which has its centre near Sudbury continued to make steady progress throughout 1923. While the price of the metal itself was quoted much below the figures for former years, an increase in the price of copper, which is recovered along with the nickel although in lesser amount, was of considerable benefit. The average price of electrolytic nickel as quoted on the New York market was 29.353 cents per pound. The matte exported totalled 21,450 tons, part of which went to the United States for the production of monel metal principally, and part to Swansea, Wales, where pure nickel was produced, along with other products such as copper and copper sulphate, and recovering in the same operations important quantities of the metals of the platinum group.

Prior to 1923 the International Nickel Company did a large part of its refining at Bayonne, N.J., but during the early part of 1922 this plant was dismantled, so that in future the Port Colborne plant will do all the refining of nickel and copper. This company also opened up a large works at Huntington, W.Va., where monel metal and nickel are being fabricated. The British America Nickel Corporation did not operate its refinery at Deschênes, Que., during 1923.

The production of ore during the year from the several mines was as follows:

	Tons
British America Nickel Corporation:—	
Murray.....	197,599
International Nickel Company of Canada:—	
Creighton.....	651,231
Mond Nickel Company:—	
Levack, Garson, Worthington, Victoria No. 1 and Froid.....	338,524
Total.....	1,187,354

In Table XI, following, is indicated the course of the nickel industry during the last five years. That this metal takes on added importance during times of war is sufficiently shown by the fact that while in 1914 the quantity of ore smelted was 947,053 tons, it rose in 1918 to 1,559,892 tons, and fell again as noted in the table to 314,120 tons in 1922.

For the purpose of this table the nickel and copper in matte exported in 1923 were valued at 20 cents and 10 cents per pound, respectively.

TABLE XI.—NICKEL-COPPER MINING AND SMELTING, 1919-1923

Schedule	1919	1920	1921	1922	1923
Ore raised..... tons	614,955	1,200,830	262,593	259,569	1,187,354

Wages paid..... \$	3,382,154	5,555,469	1,557,696	2,009,335	3,093,402

*All matte was exported prior to 1918 when refining in Canada began at Port Colborne, Ontario. The British America Nickel Corporation commenced refining operations at Deschênes, Quebec during the second quarter of 1920, but the refinery was idle throughout 1922.

The following figures summarize the operations of the International Nickel Company of Canada's refinery at Port Colborne and that of the British America Nickel Corporation at Deschênes on the Ottawa river:

TABLE XII.—NICKEL-COPPER REFINING, 1923

Schedule	Quantity	Value
		\$
Matte treated..... tons	31,765	
Nickel oxide marketed..... lbs.	11,377,086	1,658,909
Metallic nickel recovered..... "	23,237,334	4,687,931
Blister and electrolytic copper recovered..... "	14,313,905	2,075,212

Silver recovered*..... "	100,982	64,966
Platinum metals recovered*..... "	15,625	1,418,633
Employees and wages paid..... No.	890	1,239,142

*Includes recoveries by the Mond Nickel Company from matte exported to Clydach in Wales.

Returns by refineries treating Ontario silver ores show a recovery of 45,920 pounds of copper. In addition 33,593 pounds of nickel and 71,484 pounds of nickel oxide were marketed.

The average New York price of electrolytic copper was 14.421 cents per pound for the full year, as compared with 13.382 cents in 1922.

Platinum Metals.—Ontario nickel-copper ores of the Sudbury area contain the precious metals, gold, silver and metals of the platinum group. The latter may be divided into two main sub-groups on a specific gravity basis as follows:

Metal	Specific Gravity	Metal	Specific Gravity
Palladium (Pd.).....	12.16	Platinum (Pt.).....	21.40
Rhodium (Rh.).....	12.44	Iridium (Ir.).....	21.42
Ruthenium (Ru.).....	12.10	Osmium (Os.).....	22.50

Precious metals cement was shipped by the International Company of Canada to the United States for further refining along with similar recoveries made at the Bayonne, N.J., plant.

Production of platinum metals by the British America (reporting for the first time), International and Mond companies follows:

	Platinum	Palladium	Iridium, etc.*	Total
Quantity.....Troy ounces	6,810	8,511	304	15,625
Value.....\$	793,617	584,280	40,736	1,418,633

*Iridium and rhodium in small amounts were grouped by the Mond Company with gold and are not recorded in the above figures.

Iron Ore

During 1923 as in the year 1922 there was no iron ore mined in Ontario. The two best known producers, the Moose Mountain mine at Sellwood owned by Moose Mountain, Limited, and the Magpie mine in Township 29, Range 26, District of Algoma, owned by the Algoma Steel Corporation, Limited, were both closed down during the period, but from the former property there was shipped 30,451 short tons of magnetite (concentrated and briquetted) worth \$113,543, of which 7,590 tons were consigned to points other than blast furnaces. The last mentioned item is shown in Table I under iron ore. This material contained 63 per cent. iron on the average.

In 1922 total shipments amounted to 15,891 tons of beneficiated magnetite and 300 tons of roasted siderite from the Magpie mine, having a value of \$52,054.

Pig Iron, Steel and Ferro-Alloys

The production of pig iron in Ontario during 1923 amounted to 674,428 short tons, valued at \$15,995,496, as against 293,662 short tons worth \$6,493,513 during the previous year. While the increase shown is of importance the production figures for 1923 are still below those of 1917 and 1920. An examination of Table XIII which follows will indicate the decreasing quantities of domestic ores used.

The figures given for pig iron in Table I represent only the proportional product from Ontario ore. Coupled with the pig iron production there was manufactured 607,385 tons of steel valued at \$21,133,664, comprising 596,730 short tons of ingots and 10,655 short tons of castings.

BLAST FURNACES IN ONTARIO FOR THE PRODUCTION OF PIG IRON

Company	Location	Furnaces		Remarks
		No.	Daily capacity, gross tons	
Algoma Steel Corporation, Ltd.	Sault Ste. Marie.	4	1,450	Active.
Atikokan Iron Company.	Port Arthur.	1	175	Idle since 1911.
Canadian Furnace Co., Ltd.	Port Colborne.	1	325	Active.
Canadian Steel Corporation, Ltd.	Ojibway (near Windsor).	2	1,100	Under construction.
Midland Iron and Steel Co., Ltd.	Midland.	1	120	Idle since Feb., 1921.
Parry Sound Iron Co., Ltd.	Parry Sound.	1	90	Idle since Oct. 1, 1919.
Standard Iron Co., Ltd.	Deseronto.	1	60	Idle since June 9, 1919.
Steel Company of Canada, Ltd.	Hamilton.	2	750	Active.

NOTE.—The first and last mentioned produce open-hearth steel as well as pig iron.

IRON BLAST FURNACES IN OPERATION, 1923

Name of Company	Furnaces		Fuel used	Location
	Number	Ave. days operated		
Algoma Steel Corporation, Ltd.	4	358	Coke	Sault Ste. Marie.
Canadian Furnace Company, Ltd.	1	114	Coke	Port Colborne.
Steel Company of Canada, Ltd.	2	365	Coke, coal and gas	Hamilton.

Average pig iron prices per gross ton (2,240 pounds) for 1923 by Valley furnaces were basic \$25.71, bessemer \$27.26, and foundry \$26.43. Average prices for all grades as reported by the United States Geological Survey were Pennsylvania \$25.02 per long ton, Ohio \$24.76, New York \$23.71, Illinois \$25.36, and Indiana \$23.26.

The following table gives particulars of the iron and steel-making industry of the Province for the last five years:

TABLE XIII.—IRON AND STEEL STATISTICS, 1919-1923

Schedule	1919	1920	1921	1922	1923
Ontario ore smelted short tons	97,514	152,176	126,653	23,398	36,622
Foreign ore smelted " "	1,201,834	1,341,661	818,749	1,217,543	1,283,886
Limestone for flux " "	343,907	349,960	221,761	137,852	283,190
Coke " "	736,872	818,698	420,358	336,301	576,832
Charcoal bush.	177,795				
Pig iron produced short tons	623,586	748,173	494,901	293,662	674,428
Value of pig iron produced \$	16,010,537	21,652,308	11,856,352	6,493,513	15,995,496
Steel made short tons	616,251	707,692	932,473	358,126	607,385
Value of steel made \$	17,913,263	26,366,524	15,861,635	12,812,927	21,133,664

Ferro-Alloys.—The output in 1923 was 32,436 long tons or a 40 per cent. increase over 1922. Ferro-silicon and other alloys are produced as a by-product in the manufacture of artificial abrasives at Hamilton, Niagara Falls, Thorold and Welland.

Lead

Ontario's lead production comes mainly from the mine and smelter at Galetta on the Ottawa river, operated by the Kingdon Mining, Smelting and Manufacturing Company. Ore raised and concentrated totalled 48,824 tons in 1923 as compared with 36,138 tons in the previous year. Shipments of lead from all sources during 1923 totalled 5,256,623 pounds valued at \$347,886, as against 2,895,695 pounds worth \$173,742 in 1922.

The figures in Table I. include marketed base lead bullion recovered from residues by southern Ontario silver refineries, also the recoveries from certain concentrates and residues shipped to the United States from the Cobalt camp. Lead has been valued at 7.179 cents per pound, the average Montreal price for the year as compared with 7.267 at New York and 7.141 at St. Louis.

NON-METALLIC MINERALS

Abrasives

Experimental shipments of abrasive garnets were made in 1922 from the Parry Sound district, and from Ashby township in Lennox and Addington county. In 1923 the Bancroft Mines Syndicate shipped 1,250 tons of garnet ore and concentrates. This deposit is an exceptionally good grade of abrasive and was adopted by the Carborundum Company of Niagara Falls, New York, where the shipments were consigned. The mill of this company was unfortunately destroyed by fire during November and the company was forced into liquidation.

The corundum mines at Craigmont were idle throughout the period and no shipments were made.

Arsenic

This mineral compound has in recent years become of great importance as the principal ingredient in the manufacture of paris green and other insecticides. Calcium and lead arsenates are being used in increasing amount to combat the boll weevil pest in the cotton-growing sections of the United States. Arsenious oxide is produced as a by-product by the silver smelters of Ontario in the treatment of silver-cobalt arsenides, and the production from this source is the most important in Canada. During 1923 sales of arsenious oxide or white arsenic totalled 5,158,617 pounds valued at \$582,785.

Barite

Not since 1918 has barite (barytes) been produced in Ontario. During that year the Premier Langmuir Mines, Ltd., shipped some 60 tons from its deposit in Langmuir township in the Porcupine area. In 1923 the production, which amounted to 200 tons having a value of \$4,180, was derived from a deposit near Tionaga station in the District of Sudbury and was shipped to Toronto.

Feldspar

Production exceeded the 1922 figures considerably, with prices for the crude or crushed material ranging from \$6 to \$8 per ton f.o.b. mines. Shipments which amounted to 17,199 tons with a selling value of \$134,822 originated mainly in eastern Ontario along the line of the K. and P. railway. There was also an important output from Dryden township in the Sudbury district, which first produced feldspar in 1922. The major portion is exported to New York state, where it is ground.

During 1923 two grinding plants were in operation in Ontario, namely, the Feldspar Milling Company at Toronto and the Frontenac Floor and Wall Tile Company at Kingston. These companies supplied about 75 per cent. of the Canadian trade requirements, the prepared material having a value of from \$15 to \$18 per ton. The latter company uses ground spar in the manufacture of floor and wall tile, and markets its surplus product with the enamelware, porcelain, pottery and stoneware manufacturers. Of late the rejects and fines from the quarries have been finding a market as pebble or stucco dash in the building trades.

Shippers in 1923 are noted hereunder:

FELDSPAR SHIPPERS, 1923

Name	Location of Deposit	P.O. Address
Anderson, J. G.	Lot 9, cons. I and II, Dryden tp.	Lucknow.
Crystalspar Company		Hartington.
Federal Feldspar, Ltd.	Lot 25, con. III, Bedford tp.	46 Elgin St., Ottawa.
Feldspar Quarries, Ltd.	Portland tp.	60 Front St. E., Toronto.
Feldspars, Limited.	Richardson Mine, Bedford tp.	103 Bay St., Toronto.
Feldspar Mines Corp'n, Ltd.	Lots 16, 17, con. VIII, Lot 11, Con. VII, Monteagle tp.	Toronto.
Genesee Feldspar Co., Inc.	Hybla.	Rochester, N.Y., 82 Augustine St.
Geddes, W. J.	Verona.	Verona.
Industrial Minerals Corp. of Canada, Ltd.	Lots 29 and 30, con. XV, Monmouth tp.	805 Bank of Hamilton Bldg., Toronto.
McQuire, H. F.		
Orser-Kraft Feldspar, Ltd.	S. Sherbrooke, Bathurst and Drummond tps.	Box 366, Perth.
Perth Feldspar & Mining Company, Ltd.	Lot 20, con. IX, Bathurst tp.	Perth, Box 30.
Rock Products Company, The.	Lot 10, con. VI, Bathurst tp. (Jas. Keays' quarry)	1154 Nicholas Bldg., Toledo, Ohio.
Treadwell, W. G.	Hartington.	Hartington.
Woods, W. B.	Lot 26, con. II, Chapman tp.	Wheeling, W. Va.

Fluorspar

During 1923 only one firm in Ontario shipped fluorspar, namely, Cross & Wellington, of Madoc, who produced some 64 tons valued at \$597, from a deposit situated on lot 11, concession XIII, Huntingdon township, and which was consumed by Ontario metallurgical works.

Graphite

The Black Donald Graphite Company, Limited, operating a graphite mine and mill at Whitefish lake, near Calabogie, Renfrew county, mined and milled during the year, 1,025 tons of crude ore. Shipments totalling 240 tons of flake, and 828 tons of dusts, had a valuation of \$65,557. Exports to the United States totalled 927 tons and 141 tons were shipped to Canadian points.

Graphite is consumed in the manufacturing of polishes, dressing, paints, inks, dyes and colours, explosives, and largely in foundries and machine shops. It is supplied as flake or dusts and is of great importance in the manufacture of graphite crucibles. Flake graphite brought a price slightly over \$128 per ton, and dusts were worth about \$42.

Artificial graphite, a product of the electric furnace, is manufactured by the Acheson Graphite Company of Niagara Falls, Ontario. The output in 1923 was 1,554,376 pounds.

Gypsum

Operations in 1923 were confined to those of the Ontario Gypsum Company, Limited, with head office at Paris. Quarries and mills are located at Caledonia and Lythmore, Haldimand county. During the year 111,904 tons were quarried, and 61,115 tons calcined. Products marketed were crushed gypsum 51,169 tons, ground 755 tons, calcined 3,317 tons, and calcined gypsum entering into the manufacture of various gypsum products 44,717 tons. The total, 110,227 tons of all grades marketed, shows a decrease of 10 per cent. from the 1922 production.

The uses of gypsum are as follows: Uncalcined as a retarder for cement, which has the function of regulating the speed of setting without injury to the tensile strength; as a fertilizer, in which ammonium sulphate is given off on mixing with manure and thus supplying an essential plant food; for crayon manufacture; as a filler for cotton goods: calcined as plaster of Paris for special use in art models and in surgery, and general use in hardwall plaster. Gypsum is used extensively in block manufacture, and as plaster board to take the place of lath. Fireproofing uses extend to floor and wall construction.

Iron Pyrites

The output of iron pyrites from Ontario mines amounted to 25,134 tons valued at \$99,716. The market for pyrites is limited, although the sales in 1923 were considerably in excess of the 1922 figures. This industry flourished during the war period when there was an abnormal demand for sulphuric acid. Natural sulphur from the "Gulf" states has displaced pyrite to a large extent. Low cost production on a large scale in Texas and Louisiana has enabled the United States, during the past few years, to take first place as a producer of sulphur, about one-half the output being used in acid making. In 1922, Ontario shippers were the Grasselli Chemical Company, from Flower station, and the Nichols Chemical Company. The Sulphide property of the latter company had a production, but the large deposits at Goudreau and Northpines were not worked. From Northpines ore was shipped in 1921 to the dock at Fort William and shipments were made from this storage pile in 1923.

Following is a list of pyrite shippers in 1923.

IRON PYRITES SHIPPERS, 1923

Name of Owner, Firm or Company	Location or Name of Mine	P.O. Address of Manager, etc.
Grasselli Chemical Co.	Caldwell.	Flower Station.
Nichols Chemical Co., Limited, The.	Sulphide.	Sulphide.
	Vermilion Lake.	Northpines.

Mica

The production of mica which is centred in the eastern part of Ontario fluctuates considerably from year to year. During 1923 shipments totalled 1,980 tons having a value of \$110,290 as against 2,229 tons worth \$56,480 in 1922. The shipments during the period under review were made up of 1,712 tons of scrap valued at \$20,230; 140 tons rough-cobbed worth \$26,926; 110

tons thumb-trimmed worth \$37,396, and 18 tons of splittings valued at \$25,738. The product has a wide variety of uses such as for roofing, the manufacture of rubber and as an ingredient of certain lubricants. The grinding of scrap for the above trades has been carried on during the past years by one firm in Hull, Quebec, which is able to supply the trade demands.

Prices for thumb-trimmed mica, depending on quality, ranged as follows:

Size	Price per lb.	Size	Price per lb.
1" x 1".....	7c. to 17c.	2" x 4".....	60c. to 70c.
1" x 2".....	13c. to 23c.	3" x 5".....	\$1.50 to \$2.00
1" x 3".....	20c. to 35c.	4" x 6".....	\$2.25
2" x 3".....	40c. to 60c.		

Following is a list of mica shippers:

MICA SHIPPERS, 1923

Name of Owner or Producer	Location or Name of Mine	P.O. Address of Manager, etc.
Gould Lake Mining Association.....	Sydenham.....	Sydenham.

Trousdale, P. J.....		Sydenham.
Woodruff, H. B.....		Perth Road.
Wright, R.....		Carleton Place.

Mineral Waters

Eight establishments produced and sold mineral waters in Ontario during 1923. In many cases the mineral waters are shipped from the springs in barrels or other containers to the bottling works and only a nominal value is given to these shipments. In other cases a much higher valuation is placed on the product by those companies doing the bottling at the springs. There is also a considerable quantity used for bathing and medicinal purposes at sanitarium which may not well be measured. For these reasons much difficulty has been met in arriving at comparable figures of quantity and value of the production. The springs are located at widely separated points throughout the Province. During the period reported shipments amounted to 227,030 Imperial gallons valued at \$14,047.

Below are tabulated records of shipments of mineral waters for the past five years:

	1919	1920	1921	1922	1923
Imperial gallons.....	276,833	127,150	308,647	209,072	227,030
Value.....	\$19,290	\$15,059	\$14,438	\$10,528	\$14,047

Petroleum

A report on "Petroleum in 1923," by the Natural Gas Commissioner, appears as Vol. XXXIII, Part V. The following statistical tables, which are repeated here for convenience, are taken from the above-mentioned report.

CRUDE PETROLEUM PRODUCTION BY FIELDS, 1919-1923*

†Figures for 1921, 1922, and 1923 do not include Tar Products, which were 18,971,400 pounds valued at \$142,285.00 in 1921; 8,186,013 pounds worth \$265,150 in 1922; and 10,612,588 pounds valued at \$222,675 in 1923. In 1922 there was also 38,016 tons of acid and petroleum coke valued at \$263,034, and in 1923, 31,505 tons worth \$249,425.

Quartz and Silica Brick

A marked increase in quartz shipments was due largely to the increasing requirements of nickel smelters and ferro-silicon producers. There was a large output from the quartzite quarries at Killarney and Port Neebish operated by Dominion Mines and Quarries, Limited, and shipped to the Electro-Metallurgical Company of Canada, located at Welland, manufacturers of ferro-silicon. Exports to Buffalo and other points were made.

The Algoma Steel Corporation, of Sault Ste. Marie, manufactures its own silica brick and silica cement, the quartz coming from a quarry at Mile 19 on the Algoma Central Railway.

The production for 1923 totalled 225,110 tons having a selling value of \$510,410, which includes the value of silica brick made from quartz. There was sold during the period some 2,221 tons of silica brick worth \$32,677, which was mainly composed of quartz. The value added by the process of manufacture was around \$27,000.

The following operated quarries and made shipments in 1923:

QUARTZ SHIPPERS, 1923

Name of Owner, Firm or Company	P.O. Address of Operator	Location of Quarry
Algoma Steel Corporation.....	Sault Ste. Marie.....	A. C. Ry. (Deroche tp.).
Dominion Mines and Quarries.....	Toronto, Canada Life Bldg.	Killarney and Port Neebish.
International Nickel Co. of Canada.....	Copper Cliff.....	Dill tp.
Mond Nickel Company.....	Coniston.....	Neelon tp.
Orser-Kraft Feldspar, Ltd.....	Perth.....	Bathurst, Drummond and S. Sherbrooke tps.
Wright & Company*.....	Sault Ste. Marie, 960 Queen St.....	Deroche tp., lot 12, con. 1.

*Operates quarry for Algoma Steel Corporation.

Salt

The production of salt in Ontario during 1923 by ten companies operating eleven plants amounted to 197,917 tons having a value of \$1,674,365 as against 176,741 tons worth \$1,573,657 during the previous year. There is thus seen to be an increase of over 20,000 tons in quantity and \$100,000 in value. The salt industry of Ontario is situated in the southwestern peninsula of the Province between Kincardine on Lake Huron and Amherstburg on the Detroit river. A considerable quantity of brine is used in the chemical plant of the Brunner Mond Company at Amherstburg and by the Canadian Salt Company at Sandwich in the production of soda ash, caustic soda, liquid chlorine and bleaching powder.

The following table gives details of Ontario's salt industry over a five-year period:

SALT STATISTICS, 1919-1923

Schedule	1919	1920	1921	1922	1923
Land..... tons	1,720	2,054	2,599	6,585	3,713
Coarse..... "	35,150	28,709	28,925	28,154	31,282
Fine..... "	47,571	39,663	36,074	34,684	36,924
Table and Dairy..... "	34,396	42,474	40,931	41,119	42,468
Pressed Blocks..... "	2,966	2,489	3,431
Brine (salt equivalent)..... "	29,275	93,712	50,529	63,710	80,099
Total sold or used..... "	148,112	206,612	161,024	176,741	197,917
Value of "..... \$	1,395,368	1,544,867	1,643,527	1,573,657	1,674,365
Employees*..... No.	296	338	264	409	479
Wages..... \$	319,463	442,004	311,205	539,813	508,525

*Employees of chemical works are not included.

The list of companies producing brine or salt in 1923 was as follows:

OPERATING SALT COMPANIES, 1923

Name of Owner, Firm or Company	Location of Wells or Works	P.O. Address of Manager, etc.
Brunner, Mond Canada, Limited.....	Amherstburg*.....	Amherstburg.
Canadian Salt Company, Limited, The	Windsor.....	} Windsor.
	Sandwich*.....	
Dominion Salt Company, Limited, The	Sarnia.....	Sarnia.
Elarton Salt Works Co., Ltd.....	Warwick.....	Watford, R.R. No. 5.
Exeter Salt Works Company, Limited.	Exeter.....	Exeter.
Goderich Salt Co., Limited.....	Goderich.....	Goderich.
Kincardine Salt Co., Ltd.....	Kincardine.....	Kincardine.
Western Canada Flour Mills Co., Ltd.	Goderich.....	Goderich.
Western Salt Company, Limited.....	Courtright.....	Courtright.
Wingham Salt Works (Young Estate)...	Wingham.....	Wingham.

*Chemical works using salt brine as raw material.

Talc and Soapstone

Quantity shipments show a decrease of 25 per cent. from 1922 figures. At the Henderson mine, from which the supply of G. H. Gillespie and Company of Madoc is derived, 6,658 tons of crude were mined. This company operates a mill where crude talc is dried, ground, bolted, graded and sacked for the market. The Asbestos Pulp Company also operates a mine and mill at Madoc and ships refined talc. With the exception of a small shipment of 17 tons of crude soapstone by H. H. Wood, of Mine Centre, Rainy River district, the entire marketed talc product was treated or refined. Two other deposits of soapstone occur near Wabigoon lake, Kenora district, and their development is expected during 1924.

Ground talc is widely used in the papermaking trades as a paper filler, and also for cosmetics, insulating coverings, as dressing for leather, enamel paints, chalk, as sizing in cotton cloths, also numerous other minor uses.

Soapstone in blocks has a market in the sulphate process pulp mills, for the lining of alkali recovery furnaces, and in the laundry trades as in tubs and vats. Other uses are for electrical panel boards and laboratory tables. The preparatory treatment given to the soapstone produced during 1923 consisted of sawing, lathing and burning. The product was marketed in Tennessee, U.S.A.

Following are statistics of the industry for the past five years:

TALC STATISTICS, 1919-1923

Schedule	1919	1920	1921	1922	1923
Crude talc shipped.....tons	1,644	5,228	} 9,967	12,874	*9,531
Ground talc shipped....."	15,927	15,131			
Total value shipment.....\$	240,339	306,319	140,390	178,397	125,124
Employees, mine and mill.....No.	87	60	30	46	57
Wages paid.....\$	76,384	77,818	41,978	53,295	36,647

*Includes 17 tons soapstone valued at \$850.

Sand and Gravel

The total sand and gravel marketed by Ontario producers during 1923 was 4,361,886 tons valued at \$1,623,317, as against 3,576,420 tons worth \$1,816,320 in 1922. The 1923 figures include 1,190,219 tons valued at \$382,496 which was recovered by the dredging operations on the St. Clair and Thames rivers and in Lakes Superior, Erie and Ontario. In addition to this material the railways of the Province produced and used, for ballast purposes chiefly, 3,784,547 tons worth \$383,641.

The following table shows the production of sand and gravel both on land and by dredging during the past four years. The material produced by railway companies for ballast is not included in this table, except for 1921.

SAND AND GRAVEL PRODUCTION, 1920-1923

Year	Operations on Land		Dredging		Total	
	tons	\$	tons	\$	tons	\$
1920.....	1,046,211	559,820	2,197,150	830,884	3,243,361	1,390,704
1921.....	5,240,582	1,290,211	1,032,591	206,518	*6,273,173	1,496,729
1922.....	2,715,441	1,369,230	860,979	447,090	3,576,420	1,816,320
1923.....	3,171,667	1,240,821	1,190,219	382,496	4,361,886	1,623,317

*Includes 2,899,965 tons of ballast produced by railway companies, worth \$394,147.

Following is a list of sand and gravel pit operators who marketed or used 1,000 cubic yards or more during the year:

The following companies holding sand and gravel licenses from the Ontario Department of Mines carried on dredging operations during the period:—

SAND AND GRAVEL LICENSEES, 1923.

Licensee	Address	Location of Deposits
Cadwell Dredging Company	Windsor	Lake Erie, St. Clair river.
Cameron Steamship Company	Detroit, Mich.	Lake Erie.
Canadian Towing and Wrecking Company	Fort William	Lake Superior.
Chatham Sand and Gravel Company	Chatham	Thames river.
Considine-Reid, Ltd.	Windsor	St. Clair river.
Dept. of Public Highways, Ontario	Toronto	Thames river.
Dominion Towing & Wrecking Company	Fort William	Lake Superior.
Pineout, Geo., & Company	Port Arthur	Lake Superior.
Harbour Brick Company	Toronto	Lake Ontario.
Homegardner Sand Company	Sandusky, Ohio	Lake Erie.
International Sand & Gravel Company	Detroit, Mich.	St. Clair river.
Lake Erie Sand Company	Sandusky, Ohio	Lake Erie.
Lapish and Small	Sault Ste. Marie	Lake Superior.
Lyall, P., & Sons Construction Company	Thorold	Lake Ontario.
McLean & Sons, A. B.	Sault Ste. Marie	Lake Superior.
Merlo, Merlo and Ray	Ford	St. Clair river.
National Sand & Material Company	Welland	Lake Erie, Niagara river.
Niagara Sand Corporation (Jas. E. Carroll and T. E. Milburn)	Buffalo, N.Y.	Niagara river.

Stone

As noted in Table I, the total output of stone of all grades was 2,638,934 tons valued at \$2,869,228 during 1923, as against 2,317,265 tons worth \$2,969,926 during the previous year.

The table which follows shows the valuation of the several kinds of stone marketed or used during the past five years:

VALUE OF STONE PRODUCTION, 1919-1923

Year	Limestone	Sandstone	Trap	Granite	Marble	Total
	\$	\$	\$	\$	\$	\$
1919	1,112,340	5,544	82,995	10,683	19,360	1,230,922
1920	3,786,263	10,502	92,630	55,277	300	3,944,972
1921	3,934,045	6,423	158,467	68,647		4,167,582
1922	2,547,485	9,454	167,630	245,357		2,969,926
1923	2,552,555	23,378	149,746	143,549		2,869,228

Woodhouse Crushed Stone Co., The	Woodhouse tp.	Limestone.

Mining Divisions

Following are excerpts from comments by Mining Recorders on the subject of mining and prospecting activity in their respective divisions:

Port Arthur.—Confidence in the Port Arthur district was shown by the influx of capital of several well known companies, in connection with the different properties.

Kowkash.—A feature during this year was the change in attitude of many claim holders regarding sales. The owners of property showed willingness to place the claims against capital for development, thereby overcoming the great difficulty of the past, when undeveloped claims were held at too high a figure.

Timiskaming.—A considerable increase in activity was noted in this district in the number of new licenses issued and applications recorded, being almost double that of the previous year. South Lorrain and the Gillies Limit were again the scenes of important operations. The Mining Corporation optioned 13 claims in Blocks 15 and 16 (known as the Burk-Smith) and did considerable work in which a shaft was sunk 150 feet on Claim 19490 of the group mentioned. A 200-pound nugget of silver was found on the McDonald claim south of New Lake in Block 6 of the Gillies Limit. In addition to the above there has been considerable prospecting in the Timagami Forest Reserve in Strathcona, Strathy, Riddell and Cassels townships, as well as in Bryce and Coleman.

Gowganda.—Business fell off in this office although the mines of this area reported encouraging results.

Montreal River.—With two power lines now running through this area the future is favourable. A large amount of development and assessment work was reported in Matachewan Gold Area, and 400 claims were recorded in the Division.

Sault Ste. Marie.—The season of 1923 was the most important to date in this Division. The three sections, namely, Michipicoten, Goudreau and the Iron Range at Mile 60 on the Algoma Central Railway were all active. Nearly all of the former Michipicoten Mining Division was restaked and recorded with considerable assessment work completed and gold discoveries reported. In the Goudreau area diamond-drilling was done on claims numbered S.S.M. 2474 and 2475.

Larder Lake.—In addition to the continued satisfactory development of the well-known mines at Kirkland Lake, important discoveries were made at Boston Creek at the Barry Hollinger and also at the Blue Quartz and Hattie near Matheson. The revenue was greater during 1923 in the Larder Lake Division office than in any former year.

Following is a summary of business transacted in the offices of the Mining Recorders during 1923. Another table, page 43, shows the trend of prospecting from 1907 to 1923 inclusive, as indicated by the number of claims recorded. Moneys remitted for the Government fiscal year ending Oct. 31st, 1923, appears on the same page.

SUMMARY OF BUSINESS TRANSACTED IN THE SEVERAL MINING DIVISIONS DURING THE CALENDAR YEAR, 1923,

Schedule	Sudbury	Porcupine	Larder Lake	Sault Ste. Marie	Port Arthur	Kowkash	Timiskaming and Coleman	Gowganda	Montreal River	Kenora	Total

Mining Revenue

The revenue of the Department of Mines for the fiscal year ending October 31st, 1923, is given in detail hereunder:

REVENUE FOR THE YEAR ENDING OCTOBER 31, 1923

Mining Sales.....	\$30,043 07	
RENT—		
Mining Leases.....	\$9,562 90	
Licenses of Occupation.....	6,010 48	
	15,573 38	\$45,616 45
Royalties.....	\$1,746 26	
Fuel Investigation.....	2,594 33	
Boring Permits.....	200 00	4,540 59
	\$80,742 26	
Sand and Gravel Licenses.....	3,817 68	84,559 94
Miners' Licenses.....	\$42,161 92	
Permits.....	3,350 00	
Recording Fees.....	47,567 05	93,078 97
MINING TAX ACT—		
Acreage Tax.....	\$31,318 31	
Profit Tax.....	253,126 18	
Gas Tax.....	15,768 50	300,212 99
Casual Fees.....	\$6,304 00	
Timiskaming Testing Laboratories, fees.....	19,252 60	
Cable Testing Machine, fees.....	1,126 00	
Natural Gas Commissioner's Office, fees.....	970 00	
Draughtsman, North Bay, maps.....	413 45	
Chemical and Assay, fees.....	1,160 00	
Alberta Coal, freight.....	4,973 45	34,199 90
REFUNDS—		
Contingencies.....	\$583 41	
Explorations and Investigations.....	80 00	663 41
Total.....	\$562,872 25	

MINING LANDS SOLD AND LEASED IN YEAR ENDING OCTOBER 31, 1923*

			40,408 81
NICKEL-COPPER—			
Mond Nickel Company		2,171 29
			<hr/>
Total		\$253,126 18

Mining Company Incorporations

A synopsis of mining companies incorporated and licensed in Ontario during the past two decades, given hereunder, furnishes an index of mining activity.

Between 1905 and 1907 the large increase was due to the formation of new silver mining companies at Cobalt and gold mining companies at Larder Lake. From 1909 to 1911 gold company organizations followed the discovery of the Porcupine gold field. In 1919 and 1920 the increase reflects a recovery from war time conditions.

SUMMARY OF MINING COMPANIES INCORPORATED AND LICENSED, 1904-1923

Year	Companies Incorporated		Extra-Provincial Companies Licensed	
	Number	Capital	Number	Capital
		\$		\$
1904	54	28,355,000	12	21,115,000
1905	99	27,509,000	17	6,190,000
1906	263	184,677,000	18	12,536,000
1907	321	319,876,000	15	5,815,000
1908	184	123,526,500	8	1,890,000
1909	282	236,883,000	9	320,000
1910	162	128,999,300	14	2,266,000
1911	213	215,640,000	19	7,125,000
1912	130	73,237,000	6	570,000
1913	119	78,000,000	12	21,735,000
1914	80	39,030,000	13	5,445,000
1915	59	42,005,000	2	10,200,000
1916	83	109,079,500	8	7,011,650
1917	100	117,183,000	7	7,202,000
1918	59	49,809,000	7	15,000,000
1919	149	223,600,000	10	9,554,197
1920	119	146,094,000	12	9,435,000
1921	67	105,715,000	6	1,030,000
1922	92	181,540,000	6	830,500
1923	89	184,295,500	5	1,675,000

Companies of Extra-Provincial incorporation holding mining lands in Ontario are required, under The Ontario Companies Act, to take out a license and specify the amount of capital used in Ontario in connection with mining.

Following is a list of the companies so licensed in 1923:

MINING COMPANIES LICENSED IN 1923

Name of Company	Head Office for Ontario	Date of License	Capital for use in Ontario
Falcon Mica Mining Company, Ltd.....	Falcon Island, Lake of the Woods.....	Feb. 21	\$200,000 00
Bruce Consolidated Gold Mines, Ltd.....	Cohen & Cohen, Sun Life Bldg., Toronto.....	Apr. 9	50,000 00
Anglo-Canadian Explorers, Ltd.....	Kirkland Lake...	Sept. 17	625,000 00
Porcupine Goldfields Development and Finance Company, Ltd.....	Timmins.....	July 11	500,000 00
London Gull Lake Mines, Ltd.....	Kirkland Lake...	Sept. 6	300,000 00

INCREASE OF CAPITAL STOCK IN 1923

Name of Company	Date	From	To
Baldwin Gold Mining Company, Ltd.....	Aug. 29	\$2,500,000	\$5,000,000
Everett Mines, Ltd.....	Apr. 21	1,500,000	3,000,000

Provincial Assay Office

The Provincial Assayer, W. K. McNeill, reports as follows for the year 1923.

The Assay Office has been in operation without interruption during the entire year and the usual variety of work has been done with the assistance of T. E. Rothwell, Chemist and Assayer; Robert Stewart and Reginald Eyre, Laboratory Assistants.

The work during the year may be classified as follows:

FREE ASSAYS UNDER THE PROVISIONS OF THE MINING ACT OF ONTARIO

Mining Division	Samples Received for Free Assays During 1923										
	Gold	Silver	Copper	Iron	Lead	Zinc	Tin	Nickel	Platinum	Tungsten	Total
Eastern Ontario*	15	1	2	1	19
Fort Frances*	41	3	1	45
Gowganda	16	1	17
Kenora	19	9	2	2	32
Kowkash	10	6	16
Larder Lake	143	5	2	1	1	152
Montreal River	13	6	19
Parry Sound*	1	1	2
Porcupine	51	1	52
Port Arthur	23	11	2	2	1	39
Sault Ste. Marie	153	24	5	16	5	3	206
Sudbury	36	3	3	1	43
Timiskaming	12	25	1	38
Total	533	95	12	21	8	3	4	2	1	1	680

*All records for these Divisions are kept at the Toronto office.

The following is a statement of the samples submitted by the general public for which the regulation fee was charged, and also those submitted by geologists and officers of the Department of Mines.

CUSTOMS ASSAYING AND GENERAL WORK, 1923

Gold	821 samples.
Silver	123 samples.
Copper	49 samples.
Iron	27 samples.
Rocks	25 samples were submitted by geologists of the Department of Mines for complete analysis.
Radium	20 samples were submitted on which reports were issued. A number were radio-active.
Miscellaneous	83 samples of other minerals were tested. These included: 12 silica, 11 nickel, 8 water, 7 potash, 6 platinum, 6 lead, 5 oil, 5 sulphur, 4 arsenic, 3 cobalt, 3 soda, 2 zinc, 2 titanium; and one each of feldspar, manganese, antimony, lime, phosphorus, vanadium, uranium, palladium and alumina.
Identification	109 samples were received by mail and reports issued. A large number were brought directly to the Laboratory; of these no record was kept.

The schedule of charges for the Provincial Assay Office and Chemical Laboratory is as follows:

TARIFF OF FEES FOR ANALYSES AND ASSAYS

	Fee
<i>1. Assays:</i>	
Gold.....	\$1 50
Silver.....	1 50
Gold and silver in one sample.....	2 50
Platinum minerals.....	5 00
Gold and platinum minerals in one sample.....	7 00
Separation of platinum minerals.....	Prices on application.
<i>2. Iron Ores:</i>	
Iron (metallic).....	\$1 50
Silica.....	1 50
Iron and insoluble residue.....	2 50
Ferrous oxide.....	2 00
Phosphorus.....	3 00
Sulphur.....	2 50
Iron, sulphur, phosphorus and insoluble.....	8 00
Manganese.....	3 00
Titanium.....	4 00
Complete analysis.....	Prices on application.
<i>3. Limestones, Dolomites, Marls, Clays, Shales:</i>	
Determination of:	
Insolubles.....	\$1 50
Silica.....	1 50
Ferric iron.....	3 00
Ferrous iron.....	2 00
Alumina.....	3 00
Lime.....	2 00
Magnesia.....	2 50
Potash.....	5 00
Soda.....	5 00
Alkalies (on one sample).....	6 00
Water (combined).....	2 00
Moisture.....	1 00
Carbon dioxide.....	2 00
Sulphur.....	2 50
Phosphorus anhydrite.....	3 00
<i>4. Examination of Clay, Shale, or Cement Rock for Cement Manufacture:</i>	
Determination of:	
Silica, Iron oxide, Alumina, Lime, Magnesia, Sulphur, and Volatile matter.....	Prices on application.
<i>5. Coal, Coke, Peat, etc.:</i>	
Determination of:	
Moisture.....	\$1 00
Volatile combustible.....	1 50
Fixed carbon.....	1 50
Ash.....	1 50
Sulphur.....	2 50
Phosphorus.....	3 00
Caloric value (B.T.U.).....	5 00
Ultimate analysis.....	Price on application.
<i>6. Mineral Waters.....</i>	
Price on application.	
<i>7. Ores and Minerals:</i>	
Determination of:	
Alumina.....	\$3 00
Antimony.....	4 00
Arsenic.....	4 00
Bismuth.....	4 00
Cadmium.....	4 00
Chromium.....	5 00
Cobalt.....	5 00
Nickel.....	5 00
Cobalt and nickel in same sample.....	6 00
Copper.....	2 00
Fluorite.....	4 00
Lead.....	3 00
Molybdenum.....	4 00
Manganese.....	3 00
Tin.....	4 00
Zinc.....	3 00

8. *Rocks, Complete Analysis*..... Price on application.
 9. *Slags, Sand, etc.*..... Price on application.
 10. *Identification of Minerals and Rocks not Requiring Chemical Analysis*..... Free.
 11. *Test for Radio-Activity*..... Free.

Any analytical work not specified in this list will be undertaken on application to the Provincial Assayer.

The pulp of each sample is retained for future reference.

DIRECTIONS

Samples will be dealt with in the order of their arrival. In every instance specimens and samples should be accompanied by statement specifying the precise locality from which they were taken.

Crushed samples representing large quantities or samples less than five pounds weight may be sent by mail as third-class matter. Samples not exceeding eleven pounds in weight may be sent by parcel post. The name and address of sender should be written plainly on each parcel. Instructions, with money in payment of fees, should be contained in a separate letter. Samples may be sent by express, charges prepaid.

Sample bags addressed to this Laboratory for sending ore pulp by mail may be obtained free on application; also canvas bags for shipping.

Money in payment of fees, sent in by registered letter, post-office order, postal note, or express order, and made payable to the Provincial Assayer, must invariably accompany sample to ensure prompt return of certificate, as no examination is commenced until the regulation fee is paid.

Samples should be addressed as follows:

Provincial Assay Office,
 5 Queen's Park,
 TORONTO, ONT.

Timiskaming Testing Laboratories

As noted in the last annual report the Timiskaming Testing Laboratories were taken over by the Ontario Department of Mines from the T. & N.O. Railway Commission on July 1st, 1921. The equipment which consists of laboratories for assaying and a sampling plant, is under the management of A. A. Cole, Mining Engineer of the T. & N.O. Railway Commission, and George Dickson, Superintendent.

The following is a financial report for the year 1923, with comparative figures for the year 1922:

COMPARATIVE FINANCIAL STATEMENT OF THE TIMISKAMING TESTING LABORATORIES, 1922-1923

Schedule	1922	1923
Receipts.....	\$18,096 19	\$18,699 22
Earnings.....	17,749 51	20,117 81
Expenditures.....	19,173 19	19,781 25

Following is a brief statement of the work of the year:

Assaying.—Gold, 3,406 samples; silver, 2,001; bullion silver, 546; gold and silver, 235; copper, 161; cobalt, 115; a grand total of 6,640 samples.

Silver Ore Milled and Sampled.—Mine ore, 556 tons; concentrates, 142.70 tons; base bullion melted, 268 bars containing 284,210.86 gross ounces.

Gold Ore Milled and Sampled.—Mine ore, 5 tons.

Gold Ore Tested.—Screen tests, 2; amalgamation tests, 4; cyanide tests, 8; and concentration tests, 1.

Gold Ore Purchased.—Mine ore, 13 lots weighing 37.97 tons having a gross value of \$2,419.95.

During the period September, 1922, to November, 1923, the receipts of gold ore included 16 parcels having a gross weight of 38½ tons for which \$1,837.41 was paid, according to the schedule of rates. A special freight rate was granted on these shipments over the T. & N.O. Railway. The names of the several shippers during the period were: Blue Quartz Gold Mines, A. J. May, J. J. Anderson, Abitibi Gold Mines, C. B. Stevenson, Atlas Gold Mines, Foster-Glendinging, A. R. Farrell, Wm. Mundell, Robert Holding, Dr. A. McMurphy, Gold Hill Mining Company, and the Baldwin Gold Mines. The above gold ore was being held until there was a sufficient quantity to ship by the car load to the Hollinger mine at Timmins.

Departmental Correspondence

The volume of correspondence necessary for the work of the Department in all its branches is considerable. Figures supplied by the Files Branch show that for the fiscal year ending 31st October, 1923, communications received through the office of the Deputy Minister numbered 22,851, and communications sent out 22,362. New files issued were 610.

Correspondence in connection with the office of the Minister of Mines is not included, nor is that pertaining to applications for patent or lease of mining lands—the latter files being kept in the Department of Lands and Forests.

INDEX, VOL. XXXIII, PART I

Note—All place names refer to Ontario unless otherwise mentioned.

The following companies and firms were engaged in the mining and milling of talc during 1923:

TALC AND SOAPSTONE OPERATORS, 1923

Firm or Company	Location of Mine or Works	Address of Manager, etc.
Asbestos Pulp Company, Limited.	Huntingdon tp.	Madoc.
*Henderson Mines, Limited.	Huntingdon tp.	Madoc.
Geo. H. Gillespie and Company, Ltd.	Madoc (grinding mill)	Madoc.
Wood, H. H.	Mine Centre†	Toronto, 97 Avenue Rd.

*The Henderson mine was operated under lease by Henderson Mines, Limited, the product going to the mill of Geo. H. Gillespie and Company.

†Soapstone deposit.

CONSTRUCTION MATERIALS

General Remarks

The production of these materials depends on the progress of building and construction of many kinds. A study of building permits over a term of years as published by the Department of Labour will, therefore, give the investigator a good conception of the relative production from year to year. The extraordinary activity shown in building prior to the war reached its peak in 1912 and slackened abruptly in 1915 through the curtailing of all but necessary construction. In 1912 and 1913, the best pre-war years, permits averaged nearly \$50,000,000. The increases which followed the war, especially in 1919 and 1920, should be interpreted in the light of the increased cost of wages and building materials, but during 1923 reductions in these costs were observed and while such costs may not return for many years to the standards of 1913, the figures for permits will closely reflect the amount of production. In 1923 building permits for 26 cities in Ontario totalled \$71,378,679 as against \$78,414,474 for the same cities in the previous year.

Clay Products

Brick and Tile.—The year 1923 was marked by a slight decrease in the value of the output, the figures being \$6,270,615 in 1923 as against \$6,944,218 in 1922, and was due to the falling off in the amount of building done. There were decreases in the quantities of common, fancy and pressed brick and drain tile during the period, and also in the values of pottery and sewer pipe. The average prices for the whole Province were, common \$17.10 per thousand, fancy and pressed \$19.50, and drain tile \$29.36 per thousand, the corresponding figures for 1922 were \$17.56, \$20.03 and \$26.69. A list of producing companies with their addresses is given below.

Pottery.—The pottery trade in Ontario was represented by three companies which produced \$78,000 of flower pots and other glazed pottery manufactured from domestic (glacial) clays. Fireclays are imported for the manufacture of stoneware and refractory linings for stoves. The figure given above does not include products made from imported materials.

Sewer Pipe.—The great development achieved during the past two or three decades in municipal utilities has brought into existence some important industries. The manufacture of sewer pipe is one of these and in Ontario three companies have greatly enlarged their output by the demand for sewage disposal systems. During 1923 the value of sewer pipe reached the total of \$925,858 and consisted of pipe of many different sizes. In 1922 the total was slightly greater, amounting to \$973,824. The term "sewer pipe" also includes wall copings, flue linings, segment sewer blocks and conduits. Potteries using imported clays are not included in the list below.

SEWER PIPE AND POTTERY WORKS, 1923

Name of Company	Location of Plant and P.O. Address of Manager, etc.
SEWER PIPE	
Dominion Sewer Pipe and Clay Industries, Ltd.	Swansea.
Hamilton & Toronto Sewer Pipe Co., Ltd.	Hamilton.
Ontario Sewer Pipe & Clay Products, Ltd.	Mimico.

Cement

Of the seven available Portland cement plants in Ontario only four had any output during the year 1923. These works were operated by three companies, viz.: Canada Cement Company, two plants; and one plant each by the Hanover Cement & Stone Company and the St. Marys Cement Company. The Canada Cement Company operated its Belleville and Port Colborne plants while the works at Shallow Lake, Grey county, Thurlow township and Lakefield were idle. Considerable repairs were, however, carried on at the last-mentioned property during the period.

The capacity of the plants operated during the year was 10,700 barrels per day. Following is a list of the operating plants:

PORTLAND CEMENT PLANTS OPERATING IN 1923

Company	Location of Plant	Head Office Address
Canada Cement Company, Ltd.		Herald Bldg., Montreal, Quebec.
Plant No. 5	Thurlow tp., near Belleville	
Plant No. 8	Port Colborne	
Hanover Portland Cement Co., Ltd., The	Hanover	Hanover.
St. Marys Cement Co., Limited	St. Marys	St. Marys.

The Canada Cement Company's annual report for the year 1923 states: "Canada's consumption of cement is still 20 per cent. less than in 1913 and was in 1923 only about 48 per cent. of the producing capacity of Canadian mills. The demand since 1921 has shown a slight increase and we hope it will continue to increase, but this depends on the growth and prosperity of Canada and undoubtedly the present producing capacity will be sufficient for many years to come." That the above applies to Ontario in a less degree than to other Provinces is shown in the table below as given in the company report above mentioned.

The following table gives details of the industry in 1913, during the war period and subsequently:

PORTLAND CEMENT STATISTICS, 1913-1923

Year	No. of Operating Plants	Average No. Employees	Wages	Stock on hand Dec. 31st bbls.	Sales		
					Barrels	Value	Average Price per bbl. (350 lbs.)
			\$			\$	\$
1913.....	13	1,382	955,729	450,213	3,802,321	4,105,455	1 08
1914.....	11	987	653,351	846,562	2,665,650	2,931,190	1 10
1915.....	7	692	425,170	755,799	2,302,242	2,534,537	1 10
1916.....	7	659	428,774	380,458	2,143,949	2,242,433	1 05
1917.....	6	589	538,355	567,261	2,063,231	2,934,271	1 42
1918.....	4	425	423,580	473,184	1,226,244	1,910,839	1 56
1919.....	5	647	722,029	278,188	2,022,575	3,659,720	1 81
1920.....	5	859	1,283,359	248,142	2,035,594	4,377,814	2 15
1921.....	5	883	1,228,460	174,686	2,723,072	6,425,266	2 37
1922.....	4	768	990,997	396,911	3,104,386	6,235,370	2 01
1923.....	4	852	1,084,711	452,378	3,296,428	5,855,590	1 77

In the United States the factory price per barrel of 380 pounds was \$1.76 in Illinois, \$1.81 in Pennsylvania, \$1.85 in Kansas, and \$1.86 in Iowa to the highest quotations of \$2.36 and \$2.39 in Washington and California respectively, with an average for the entire United States of \$1.90.

Cement Products.—Although the value of these building materials is not included in Table I, the output of cement brick, artificial stone, concrete, drain tile and sewer pipe, blocks, caps, sills, etc., is considerable, as will be seen from the detailed statistics which follow, covering the past five years:

CEMENT PRODUCTS STATISTICS, 1919-1923

Schedule	1919	1920	1921*	1922*	1923*
Brick.....	\$10,631	\$11,117	\$9,235	\$25,244	\$69,091
Blocks, sills and caps.....	147,895	382,994	409,722	479,949	525,123

*Reported to Dominion Bureau of Statistics, Ottawa.

Lime

The small lime kiln for burning quicklime for local use is not nearly so general as in former years, and its place has been taken largely by up-to-date plants, several of which are now equipped for the manufacture of hydrated lime. During 1923 the production of lime, notwithstanding a falling off in the building and construction industry, amounted to 4,810,421 bushels of quicklime valued at \$1,373,823, and 41,727 tons of hydrated lime worth \$519,840. The corresponding figures for 1922 were 3,939,954 bushels quick worth \$1,311,563, and 36,408 tons hydrated at \$445,980.

Lime is of course largely consumed in the building trades, but it might be pointed out that chemical plants and sugar refineries ordinarily consume about 40 per cent. of the output.

Below are given the names of producers and the location of plants operated in 1923:

LIME PRODUCERS, 1923

Name of Owner of Company	Location of Kilns	Head Office Address
Alabastine Co., Paris, The*	Elora and Teeswater	Paris.
American Cyanamid Co.	Niagara Falls	Niagara Falls.
Beachville White Lime Co., Ltd.	Beachville	Beachville.
Bergin, Patrick	Napanee	Napanee.
Biederman, A. G.	Golden Lake	Golden Lake, R.R. No. 1.
Brunner Mond Canada, Limited.	Anderdon tp., near Amherstburg.	Toronto, Bank of Commerce Building.
Cameron, W. M.	Ramsey tp.	Carleton Place.

Sand-Lime Brick

On account of the low cost of production and the demand for inside brick, more particularly in Toronto and vicinity, sand-lime brick have found a ready market. The bricks are made from sand and lime, by compressing these materials in moulds and subjecting the resulting product to a steam bath.

Following is a statement of sand-lime brick production for the past five years:

SAND-LIME BRICK STATISTICS, 1919-1923

Year	No. of Plants	No. of Employees	Wages	Quantity sold, M	Value \$

ANNUAL REPORT
OF THE
Inspector of Division Courts
FOR THE
PROVINCE OF ONTARIO
FOR THE YEAR
1923

PRINTED BY ORDER OF
THE LEGISLATIVE ASSEMBLY OF ONTARIO

TORONTO:

Printed and Published by Clarkson W. James, Printer to the King's Most Excellent Majesty
1924

TORONTO, February 1st, 1924.

TO HIS HONOUR HENRY COCKSHUTT, ESQ.,
Lieutenant-Governor of the Province of Ontario.

MAY IT PLEASE YOUR HONOUR:

The undersigned has the honour to present to Your Honour the Report of the Inspector of Division Courts of the Province of Ontario, for the year ending 31st December, 1923.

Respectfully submitted,

W. F. NICKLE,
Attorney-General.

TORONTO, February 1st, 1924.

SIR,—I have the honour to submit herewith, to be presented to His Honour the Lieutenant-Governor, the Report of the Inspector of Division Courts, for the year ending 31st December, 1923.

I have the honour to be, Sir,

Your obedient servant,

W. W. ELLIS,

Inspector.

TO THE HONOURABLE W. F. NICKLE,
Attorney-General, Toronto.

Annual Report of the INSPECTOR OF DIVISION COURTS

For the Province of Ontario

FOR THE YEAR ENDING 31st DECEMBER, 1923

Toronto, February 1st, 1924.

TO HIS HONOUR HENRY COCKSHUTT, ESQ.,

Lieutenant-Governor of the Province of Ontario.

MAY IT PLEASE YOUR HONOUR:

I have the honour to submit the following report upon the Division Courts of the Province for the year ending 31st December, 1923.

There are at present 338 Division Court offices in the Province, employing 338 clerks and 349 bailiffs. The business transacted in the courts has shown a steady growth for many years past.

For the year ending 31st December, 1923, there were 85,328 original actions entered for suit, being an increase of 3,661 over the high record of the previous year. The amount sued for (\$5,674,316.36) exceeded the total for 1922 by \$398,578.29. In addition to this there were 7,376 judgment summonses issued. It will thus be seen at a glance that these courts are a real convenience and a popular medium for the collection of claims not exceeding \$400.

The large increase in the volume of business passing through these courts is not confined to any particular section of the Province, but was general, both rural and the larger city courts reporting an increase.

Complete figures are given showing the volume of business transacted in each Division Court as returned by the several clerks and bailiffs throughout the Province.

Appendix "A" shows the number of suits entered in each county and district during the year, the total amount of the claims entered, and number of transcripts of judgment and judgment summonses issued, the number of judgment debtors ordered to be committed, the amount of suitors' moneys paid into and out of court, etc., etc.

Appendix "B" gives a correct list of the several Division Court clerks throughout the Province, together with their post office address, the county or district in which their office is situated, and the number of their court.

Appendix "C" gives similar information regarding the bailiffs.

Appendix "D" sets forth the territorial divisions in the Province, together with the names of the judicial officers.

Appendix "E" gives the division court tariff of clerks' and bailiffs' fees, including fees allowed to witnesses and appraisers, and the fees payable to the Jury Fee Fund.

INSPECTION

Every Division Court office is periodically inspected and the books and records carefully examined, and suitors' moneys paid into and out of court is carefully checked. Division Court clerks are now required to keep a Division Court account in a chartered bank, and must at all times have sufficient moneys on deposit to cover all claims of suitors, as shown by the Court cash book.

In addition to the personal inspection of the clerk's books, every Division Court clerk is required to make a sworn return to the Department, every six months, showing in detail all suitors' moneys remaining in court, the date when same was paid in, and the reason why the amount still remains in court.

It is gratifying to be able to state that the business entrusted to the several clerks and bailiffs throughout the province receives, with very few exceptions, prompt and efficient attention. Not only this, but in the course of my routine inspection, I learn of many instances where court bailiffs, having the best interests of judgment creditors at heart, are most assiduous in the discharge of their duties.

There are, however, a few bailiffs who are lacking in vigour in enforcing writs and who allow debtors to put them off by promises of payment at some future date. The Division Courts Act and Rules require the bailiff to make a return to an execution within thirty days, unless it has been renewed, or unless a seizure has been made. Clerks should check their bailiffs up on executions, and where they habitually allow them to lapse, and neglect to return them, the matter should be reported to the Department. A bailiff on his own initiative has not the right to extend the time for payment of a judgment. If he has made a seizure, or the defendant wishes to pay the claim against him by instalments, etc., the matter should be reported to the plaintiff or his solicitor, and obtain further instructions.

As the majority of the complaints received at the Department have reference to the non-enforcement of executions, the following circular letter was addressed to every Division Court bailiff:

“TO THE BAILIFF OF THE COURT:

Re Duties

“The first thing a bailiff should do on receiving his appointment is to make himself familiar with sections of the Act and the rules pertaining to his duties, so that in the performance of his duties he will be enabled to act intelligently.

“The bailiff should attend the clerk's office regularly to receive instructions from the clerk as to matters which may require his attention, and to receive summonses and other processes for service.

“He is required to give full information at all reasonable times to any party interested, as to the execution or non-execution of processes handed to him for service.

“The bailiff will best consult the interest of suitors and observe his duty, who quietly but firmly performs not with an oppressive hand but in a kindly

and becoming manner, neither courting the favour of the creditor nor exciting the ill-will of the unfortunate debtor. Reasonable forbearance may frequently be the means of obtaining a debt while harshness and severity will often produce a fruitless execution; *but a bailiff should not temporize or attempt to make a settlement with the execution debtor without first consulting the execution creditor or his solicitor.*

“If the proceedings in a suit are hindered or delayed by the neglect or misconduct of the bailiff, the bailiff shall forfeit his fees in the suit, and in addition pay any loss or damage resulting from the delay.

“This circular letter is sent for the information of bailiffs, both new and old appointees, and should be carefully read.

W. W. ELLIS,
Inspector.”

In examining the court records I often find cases where excessive mileage is charged and allowed the bailiff. If papers could be served at less expense from another division, the clerk of the court should transmit the summons to the nearest division for service.

ALTERATIONS IN DIVISIONS

During the year two new Division Courts were established by the Division Court Board, one at Hearst and one at Kapuskasing, in the new judicial District of Cochrane.

Owing to its close proximity to the city of Kingston, the Fifth Division Court of the County of Frontenac at Sunbury was abolished, and the territory added to Division No. 1, at Kingston.

SURPLUS FEES

The Public Officers' Fees Act requires every Division Court Clerk whose gross fees exceed \$2,000 per annum, to pay the following percentages to the Consolidated Revenue Fund:

(a) On the excess over \$ 2,000 up to \$ 3,500.....	20%
(b) “ “ 3,500 “ 6,000.....	30%
(c) “ “ 6,000 “ 10,000.....	40%
(d) “ “ 10,000.....	75%

Division Court bailiffs are also required to pay a percentage on income, as follows:

(a) On the excess over \$4,000 to \$10,000.....	10%
(b) On the excess over \$10,000.....	20%

For several years past, the surplus fees and unclaimed moneys collected by the Department from clerks and bailiffs, and paid over to the Provincial Treasurer, have increased year by year. For a five-year period ending 31st December last, the Provincial Treasury has been enriched by the sum of

\$119,950.60 from the Division Courts, as will be seen by the following comparative statement for the years 1919-1923, inclusive:

1919.....	\$5,142 99
1920.....	8,552 14
1921.....	18,919 00
1922.....	40,863 78
1923.....	46,472 69

To facilitate the checking of the fees charged by clerks and bailiffs, a special fee book was framed by the Department, and furnished every clerk whose emoluments exceeded \$2,000 per annum, and all the larger offices are now keeping this book, and most of the clerks have expressed their satisfaction with it.

The work in checking over the gross fees and in computing the percentages payable to the Government, and the necessity for keeping a record of the "Unclaimed Moneys" that have remained in the different offices for a period of six years before they become payable to the Crown, and the correspondence in connection with the various statutory returns, has become a very important duty.

WAR TAXES

There have been many enquiries at the Department in regard to the stamp tax on cheques and receipts given by officers of the court, and the matter was taken up by the Department with the Department of Customs and Excise, Ottawa, and a ruling obtained which provides that it is not necessary for Division Court clerks to place a stamp on the cash book when suitors sign for moneys paid out of court, but in cases where moneys are paid into court, or to the bailiff, the officers of the court must affix a stamp to the receipt given. The officers of the court, however, are entitled to receive the amount of the tax from the party to whom the money is paid.

DIVISION COURT BOOKS AND FORMS

The Division Courts Act provides that the cost of all books and forms required to be kept by the clerk and bailiff, shall be repaid to him by the County Treasurer upon the certificate of the Inspector. The price paid by the officers of the court for the necessary books and forms has varied to such an extent that it was thought advisable to take the matter up with a view to having the prices charged more uniform, and the following letter was addressed to every Division Court clerk:

Re Division Court Books and Forms

"Dear Sir,—

"As you are aware, the Act provides that the counties are responsible for the payment of all authorized books and forms required by the different Division Court clerks and bailiffs throughout the province.

"Before purchasing the books and forms required, each official should satisfy himself that the prices quoted are right. Many of the clerks I find are purchasing procedure books with special printing which increases the price from \$10 to \$15 on each book.

"There is no necessity of an official, particularly when the business transacted in the court is not large, purchasing a specially printed book, and putting the county to this additional expense.

"If an official insists upon buying a specially printed book in the future, he will have to bear the additional expense himself, as I shall withhold my certificate to the county treasurer for repayment.

W. W. ELLIS,

Inspector."

JURY FEE FUND

The small tax imposed by Section 145 of The Division Courts Act on every claim exceeding \$20 entered for suit, provided the sum of \$5,134.49 which has been paid over to the county treasurers. Out of a total of 85,328 suits entered for the year, a jury was only demanded in thirty-seven cases, while the amount paid to jurors summoned was \$876.80, leaving a surplus in the hands of the several county treasurers throughout the province of \$4,257.69.

GARNISHMENT OF WAGES

Since the Canadian National Railway and Grand Trunk Railway have been taken over by the Dominion Government and operated by a commission, the question has arisen as to whether the employees are not civil servants and thereby exempt from the provision of the Act in regard to garnishee proceedings. The matter was finally brought to an issue when one of the railway paymasters refused to accept service of a garnishee summons, and the district judge reported the matter to the Department. The question was then referred to the Attorney-General's Department, and was thoroughly gone into, with the result that a written opinion has been given which makes it clear that the employees of these railroads do not come under the provisions of the Civil Service Act. The following is a digest of the opinion:

"re Garnishment of Employees of the Canadian National Railways.

"The Canadian National Railway Company, a body corporate by virtue of 9-10 George V (Dom.) c. 13, has a capital stock vested in the Minister of Finance on behalf of His Majesty, so is actually Crown property. By section 11 the Governor-in-Council is empowered to 'entrust to the company the *management and operation* of any lines of railway . . .' and any powers, *rights or privileges* over or with respect to any railways—which may be from time to time vested in or owned, controlled or occupied by His Majesty

"By virtue of section 15 (1) 'Actions, suits or other proceedings . . . against the *company* in respect of its *undertaking* or in respect of the *operation or management* of the *Canadian Government Railways*, may, in the name of the company, without a fiat, be brought in and may be heard by any judge or judges or any court of competent jurisdiction in Canada Any *defence available* to the respective corporations (*including His Majesty*) in respect of whose undertaking the cause of action arose shall be available to the company'

"It is provided by section 38a of *The Civil Service Act, 1918*, as amended by 11-12 George V (Dom.) c. 22, s. 1, that the provisions of that Act should not apply to 'positions in connection with the Government railways or any railway owned or controlled by His Majesty . . . until Parliament otherwise enacts.' In section 2 of the Act, 'Outside service' is defined to include the other members included in the civil service, *not* being part of the Inside Service, and '*Civil Service*' includes *all* officers, clerks or employees in the service of the Crown.

"It may well be argued that as Government railway employees are definitely excluded from the broad definition of 'outside service' which is supposed to include *all* Crown servants not part of the inside service, therefore Parliament did not intend that they should be considered Crown servants, and similarly that the company is not the Crown.

"Another view is that, although the railways may be owned by the Crown, they are managed and operated by the company, a body corporate, although owned by the Crown. It is none the less a distinct corporate body which manages and operates, which must include the hiring and payment as well as direction of employees. They are thus servants of the company and not of the Crown.

"The company not being the Crown must be deemed to come within the definition of the word 'person,' see *The Interpretation Act*, R.S.O. 1914, c. 1, s. 29 (X) as a body corporate.

"*Re Hydro-Electric Power Commission of Ontario and City of Hamilton* (1920), 47 O. L.R. 155.

"The Commission, a statutory body corporate, was held to be within the meaning of the word 'person' within the meaning of s. 10 of *The Assessment Act*, R.S.O. 1914, c. 195.

"Under *The Division Courts Act*, R.S.O. 1914, c. 63, s. 146, a debt owing to a debtor from any other '*person*' is attachable at the suit of the creditor. The word 'person' must therefore be deemed to include the Canadian National Railways Company. It is just a question then whether the provisions of s. 15 (1) of *The Canadian National Railways Act*, quoted above, enable the defence of Crown exemption to be raised, as the Crown is not bound by any statute unless expressly named therein. See s. 11 of the Ontario and s. 16 of the Dominion Interpretation Acts. It is a fair opinion that the cause of such an action would arise in respect of the operation and management rather than in respect of an *undertaking* of a corporation under the control of the company, and that in such a case the defences open to the Crown would not be available."

TRANSCRIPTS

Section 188 of *The Division Courts Act* provides: "That the clerk, upon the application of a person having an unsatisfied judgment in his favour, shall prepare a transcript of the judgment in the prescribed form, and shall send the same to the clerk of any other Division Court, whether in the same or any other county, with a certificate at the foot thereof signed by him, sealed with the seal of the court, and addressed to the clerk of the court to whom it is to be sent, stating the amount unpaid upon the judgment, the date at which the same was recovered and the post office address of the person applying for the transcript:

and the clerk to whom the certificate is addressed, shall, on the receipt of the transcript and certificate, enter the transcript and the amount due on the judgment, according to the certificate, in a book (procedure book) to be kept in his office for the purpose; and all proceedings may be taken for enforcing the judgment in such last mentioned court."

Many of the clerks have been in the habit of endorsing on the foot of the transcript their order to issue an execution, instead of obtaining the order of the person applying for the transcript. A writ of execution should only be issued upon the written instructions of the plaintiff or his solicitor.

VACANCIES AND APPOINTMENTS

During the year there were sixty-two vacancies among our outside officials, caused by death, resignation, or removal. These positions were filled by the appointment of thirty new clerks and thirty-two new bailiffs.

All of which is respectfully submitted.

I have the honour to be,

Your Honour's obedient servant,

W. W. ELLIS,

Inspector.

APPENDIX D.

DIVISION COURTS, LIMITS OF THE RESPECTIVE DIVISIONS IN
THE PROVINCE OF ONTARIO, AND JUDICIAL OFFICERS.

ALGOMA.

F. K. Stone, Judge, Sault Ste. Marie.

J. M. Hall, J.J., Sault Ste. Marie.

G. W. Goodwin, Crown Attorney and C.P., Sault Ste. Marie.

1.—Bounded west by Thunder Bay District, 85th parallel of west longitude, and east by Bar River, including all the islands in front.

2.—Bounded west by Bar River and east by the westerly boundary of the Townships of Thessalon, Kirkwood, Bridgeland, Houghton and Otter, and by said boundary line of the said last five-named townships produced northerly.

3.—Bounded west by the westerly boundary of the Townships of Thessalon, Kirkwood, Bridgeland, Houghton and Otter, and the boundary line of the last named five townships produced northerly to the northern boundary of the District, and on the east by a line produced northerly between the Township of Bright and Thompson to the northern boundary of the District of Algoma.

6.—Consisting of St. Joseph's Island.

7.—All the territory of the District of Algoma lying east of the eastern boundary of the Third Division including the Village of Cutler and Johns Island.

BRANT.

A. D. Hardy, Judge, Brantford.

W. M. Charlton, C.C.A. and C.P., Brantford.

1.—The City of Brantford and that part of the Township of Brantford not included in the other divisions hereinafter described. The Townships of Onondaga and Tuscarora and that part of the Township of Brantford lying south of the main road from Brantford to Hamilton and east of Fairchild's Creek.

2.—The Town of Paris and that part of South Dumfries west of the line between lots 18 and 19, and that part of the first concession of the Township of Brantford lying west of a continuation of the last-mentioned line.

3.—The remainder of the Township of South Dumfries, and of the first concession of the Township of Brantford.

4.—The ten northern concessions of the Township of Burford, and all that part of the 2nd, 3rd, 4th and 5th concessions of the Township of Brantford, west of the line between lots numbers 10 and 11, and that portion of the Kerr tract west of the continuation of the last-mentioned line.

5.—The Township of Oakland, the four southern concessions of the Township of Burford and lots numbers 1 to 5, inclusive, in the ranges east and west of the Mount Pleasant Road, in the Township of Brantford, adjoining the Township of Oakland.

BRUCE.

A. B. Klein, Judge, Walkerton.

A. M. Greig, J.J., Walkerton.

Thomas Dixon, C.C.A. and C.P., Walkerton.

1.—The Town of Walkerton and the Township of Carrick and the Township of Brant, south of the 12th concession, in the lots up to No. 26, and south of the 10th concession, in lots 26 to 34, inclusive.

2.—The Village of Teeswater, the Township of Culross and Greenock south of the 12th concession.

3.—The Town of Kincardine, the Village of Tiverton, and all of the Township of Kincardine, except that part east of the 25th line in concessions 10, 11 and 12, and including that portion of the Township of Bruce west of the 20th side line in concessions 1, 2, 3 and 4, and lots 1 to 20, inclusive, in the Lake Range.

4.—The Village of Paisley, and that part of the Township of Brant lying north of the 11th concession and west of lot 26. That part of Greenock lying north of concession 11; and all that portion of the Township of Bruce not included in Nos. 3 and 5, and that part of the Township of Saugeen, east of a line between lots 28 and 29 and south of the proportion of the town line between Arran and Elderslie to the Saugeen River. All that part of the Township of Elderslie lying west of the 25th side line, and south of the 12th concession, and also that part lying north of concession 11 and west of lot 17, and that portion of the Township of Kincardine not included in No. 3.

5.—The Village of Port Elgin, and the Town of Southampton, that part of the Township of Saugeen lying west of the line between lots 28 and 29 and north of the production of the town line, between the Townships of Arran and Elderslie to the Saugeen River, all that part of the Township of Arran lying west of the line between lots 10 and 11 north of Arran Lake and the outlet of the said lake, and the Township of Amabel south of the 11th concession and west of concession "C" and west of concessions 8, 9 and 10, and all that part of the Township of Bruce, north of the 4th concession and west of the 20th sideline, including lot 21 and lots north of it in the lake range in the said Township of Bruce.

7.—Tara and all Arran, not in No. 5, and all Elderslie, not in Nos. 4 and 12, and Amabel, south of the 8th concession and east of concession lettered "C."

8.—The Town of Wiarton, the Township of Albemarle and that part of Amabel not in Nos. 5 and 7.

9.—The Township of Huron.

10.—The Townships of Eastnor, Lindsay, and St. Edmunds.

11.—Lucknow and the Township of Kinloss.

12.—Chesley and those parts of Brant and Elderslie not included in Nos. 1, 4 and 7.

CARLETON.

J. Mulligan, Judge, Ottawa.

J. A. Ritchie, C.C.A. and C.P., Ottawa.

1.—Comprising all the City of Ottawa and the Township of Gloucester, to lot 15, inclusive, Rideau Front and concessions 1 and 6, inclusive, Ottawa Front and the islands in the Ottawa River opposite thereto.

2.—The Township of Goulburn, the 8th, 9th and 10th concessions of the Township of Marlborough, all the Township of Nepean south of the River Goodwood, and the 4th, 5th and 6th concessions thereof north of the same river to the boundary line between lots 20 and 21 in the last-mentioned concession.

3.—The Township of Huntley and the Township of March, except lots 1 to 5, inclusive, in concessions 1, 2, 3 and 4 thereof.

4.—The Townships of Fitzroy and Torbolton.

5.—The Township of North Gower, Long Island in the Rideau River, and 1st, 2nd, 3rd, 4th, 5th, 6th and 7th concessions of Marlborough.

6.—The Township of Osgoode, the 6th, 7th and 8th concessions Ottawa Front, and from lots 16 to 30, inclusive, of Rideau Front of the Township of Gloucester.

7.—The Township of Nepean, except the City of Ottawa, and part of the said Township lying south of the River Goodwood, and concessions 4, 5 and 6, north of the River Goodwood to the boundary between lots 20 and 21 in the said last-mentioned concessions, and including also lots 1 to 5, inclusive, in concessions 1, 2, 3 and 4, in the Township of March.

COCHRANE.

J. B. Caron, Judge, Cochrane.

J. M. Greer, C.A. and C.P., Cochrane.

1.—So much of the district as lies north of a line commencing at the south-west angle of the Township of Kirkland, produced easterly to the eastern boundary of the district, and east of a line drawn north from the south-west angle of said Township of Kirkland to the north-west angle of the Township of Laidlaw, thence easterly to the south-east angle of the Township of Sydere, thence north to the boundary of the district.

2.—So much of the district as lies south of the Townships of Seaton, Griffin, Hicks, Oke, Kirkland, Kingsmill, Aubin, Nesbitt, Beck, Reaume, Little and McCart.

3.—Comprising the Townships of Mann, Little, Newmarket and McCart, and all the territory lying south of the line between the Townships of Pyne and Aurora, produced to the eastern boundary of the district.

4.—Comprising the Townships of Sydere, Oke, Hicks, Griffin, Seaton and Cargill and all the territory lying north thereof.

5.—So much of the district as lies west of a line commencing at the south-east angle of the Township of Ecclestone, produced to the northern boundary of the district.

DUFFERIN.

W. G. Fisher, Judge, Orangeville.

J. L. Island, C.C.A. and C.P., Orangeville.

1.—The Town of Orangeville, the Township of East Garafraxa and all that portion of the Township of Amaranth lying south of the southern boundary of lot N. 26, in each concession in the Township of Amaranth.

2.—The Village of Shelburne, the Township of Melancthon, and all that portion of the Township of Amaranth lying north of the southern boundary of lot No. 26, in each concession of the Township of Amaranth.

3.—The Township of Mulmur.

4.—The Township of Mono.

5.—The Township of East Luther.

ELGIN.

D. C. Ross, Judge, St. Thomas.

A. McCrimmon, C.C.A. and C.P., St. Thomas.

1.—The Townships of Bayham, Malahide and South Dorchester.

2.—The Townships of Southwold and Yarmouth (except the City of St. Thomas).

3.—The City of St. Thomas.

4.—The Townships of Aldborough and Dunwich.

ESSEX.

J. J. Coughlin, Judge, Sandwich.

G. S. Smith, J.J., Sandwich.

G. A. Urquhart, C.C.A. and C.P., Windsor.

1.—Town of Sandwich and Township of West Sandwich.

2.—Town of Amherstburg and the Townships of Malden and Anderdon.

3.—The Village of Kingsville, and all that part of the Township of Gosfield not included in Division No. 8.

4.—The Township of Colchester South, and all Colchester North, south of the 9th concession, exclusive of the said concession, and the lots on both sides of Malden Road.

5.—Township of Mersea and Village of Leamington.

6.—The Township of Rochester, the Village of Belle River, the first concession of the Township of Maidstone, and all north of the Malden Road in the said Township of Maidstone.

7.—Town of Windsor, the Town of Walkerville, and all of Sandwich East, north of the Talbot Street range.

8.—The Town of Essex, and all of the Township of Maidstone lying west of the first concession and south of the Malden Road; so much of Sandwich East as is south of Talbot Street, including the lots on both sides of said street to Nos. 306 and 307; all of Colchester north of the 9th concession, including said concession and lots on both sides of Malden Road, and all that part of Gosfield lying north of concession 6, and extending as far east from the limits between Gosfield and Colchester as lots No. 12, including such lot in each concession north of concession 6, inclusive.

9.—The Townships of Tilbury West and Tilbury North.

10.—The Township of Pelee.

FRONTENAC.

H. A. Lavell, Judge, Kingston.

T. J. Rigney, C.C.A. and C.P., Kingston.

1.—The City of Kingston, Township of Garden Island, Wolfe Island, Howe Island, the Township of Pittsburg, the Township of Kingston, the Village of Portsmouth and the Township of Storrington.

3.—Loughboro', the Townships of Loughboro' and Bedford.

4.—Verona, Townships of Portland and Hinchinbrooke.

6.—The Townships of Olden, Oso, Barrie, Clarendon, Palmerston, Miller, Canonto, and South Canonto.

7.—The Township of Kennebec.

GREY.

C. T. Sutherland, Judge, Owen Sound.

T. H. Dyre, C.C.A. and C.P., Owen Sound.

1.—The Town of Owen Sound, the Village of Brooke and the Townships of Derby, Keppel, Sarawak and Sydenham.

2.—The Town of Durham, the Township of Egremont, and those portions of the Townships of Bentinck, Normandy and Glenelg, as follows:—That part of the Township of Bentinck lying east of the line between lots 30 and 31 in the 1st, 2nd and 3rd concessions south of the Durham Road, and in concessions 1, 2 and 3 north of the Durham Road, and east of the line between lots 15 and 16 in concessions 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14 and 15 thereof. That part of the Township of Normanby lying east of the line between lots 20 and 21, in the 4th, 5th, 6th, 7th, 8th, 9th, 10th, 11th, 12th, 13th, 14th, 15th, 16th, 17th and 18th concessions, and all of the Township of Glenelg, excepting that portion lying east of the line between lots 10 and 11 in the 7th, 8th, 9th, 10th, 11th, 12th, 13th, 14th and 15th concessions thereof.

3.—The Town of Meaford, the Township of St. Vincent, and that part of the Township of Euphrasia lying west of the line between the 6th and 7th concessions and north of the line between lots 15 and 16.

4.—The Township of Collingwood and the east half of the Township of Euphrasia, excepting that part thereof lying between the 4th and 5th concessions and south of the lots between 12 and 13, and east half of the Township of Osprey.

5.—The Township of Proton, the west half of the Township of Osprey, and those parts of the Township of Artemesia consisting of the ranges of lots lying parallel to the Toronto and Sydenham Road, and south of the lines between lots 130 and 131, and concessions 1, 2 and 3 south of the Durham Road, and 1, 2, 3, 4, 5 and 6 north of the said Durham Road, and those portions of concessions 7, 8 and 9 lying east of the ranges of lots parallel with the Toronto and Sydenham Road, and those portions of concessions 10, 11, 12, 13 and 14 lying east of the line between lots 30 and 31.

6.—The Township of Sullivan and the Township of Holland, excepting those portions of concessions 9, 10, 11 and 12 lying south of the line between lots 15 and 16, and those portions of concessions 7 and 8 west of the ranges of lots lying parallel with the Toronto and Sydenham Road, and the ranges of lots lying parallel with the Toronto and Sydenham Road south of the line between lots 50 and 51.

7.—All lots from 1 to 30, inclusive, in the three concessions south and the three concessions north of the Durham Road in the said Township of Bentinck, and all the lots from 1 to 15, inclusive, in the 12th concession, from the 4th to the 15th concessions, inclusive, of the said Township of Bentinck, and all the lots from 1 to 20, inclusive, in all the concessions from 4 to 18, inclusive, in the Township of Normanby aforesaid.

8.—All the lots from 51 to 130, inclusive, in all the concessions parallel to and being northeast and southwest of the Toronto and Sydenham Road, in the Townships of Artemesia, Glenelg and Holland aforesaid; all lots to the westward of the dividing line between lots 30 and 31, in all the concessions from 10 to 14, inclusive, and all the lots from 1 to 5 in the 7th, 8th and 9th concessions, inclusive, which lie to the southwest of the third concession, southwest of the said Toronto and Sydenham Road, in the said Township of Artemesia; all the lots from 1 to 15, inclusive, in concessions from 5 to 6, and all the lots from 1 to 10, inclusive, in the concessions from 7 to 12, inclusive, in the Township of

Euphrasia; all lots south of the allowance for road between lots 15 and 16, in the 9th, 10th, 11th and 12th concessions, and from lots 25 to 20, inclusive, on the 7th concession, and lots 28, 29 and 30 in the 8th concession of the said Township of Holland; and all the lots lying east of allowance for road between lots 10 and 11 in all the concessions from 7 to 15, inclusive, in the Township of Glenelg.

HALDIMAND.

G. H. Hopkins, Judge, Cayuga.

Harrison Arrell, C.C.A. and C.P., Cayuga.

1.—Comprising the Township of Seneca, except the first and second concessions, the Young Tract, and the property of the late Richard Martin and the late Robert Weir; all of the Township of Oneida, except the first range north of the Cayuga line, the Dennis Tract, and the lots southerly of the said tract, and the Village of Caledonia.

2.—Comprising the Township of North Cayuga, except that portion thereof lying northeast of the side line between lots 12 and 13, and 1st and 2nd concessions of the Township of Seneca, except that portion thereof lying northeast of the side line between lots 12 and 13, the Young Tract, and the lands of the late Robert Weir and Richard Martin, Esquires, in the said Township of Seneca, the first range of Oneida north of the Cayuga line, also the Dennis Tract and river lots lying south, and the Townships of Rainham and South Cayuga.

3.—Comprising the Townships of Moulton, Sherbrooke and Dunn, and the Town of Dunnville.

4.—Comprising the Township of Walpole, and the Village of Hagersville.

5.—Comprising the Township of Canboro', that portion of North Cayuga lying east of the side line between lots 12 and 13, and those parts of the 1st and 2nd concessions of the Township of Seneca lying northeast of the side line between lots 12 and 13.

COUNTY OF HALIBURTON.

(Annexed to Victoria for Judicial Purposes.)

1.—Milton—All the territory comprised in the new survey of the Township of Trafalgar, and the first ten lots in concessions 1, 2, 3, 4, 5 and 6 in the Township of Esquesing, and the first five lots in concessions 7, 8, 9, 10 and 11 in the said township.

2.—That part of the Township of Trafalgar known as the Old Survey, and the town of Oakville.

3.—Georgetown—All the rest of the territory comprised in concessions 8, 9, 10 and 11 in the Township of Esquesing not comprised in the first division.

4.—Acton—All the rest of the territory comprised in concessions 1, 2, 3, 4, 5 and 6, Township of Esquesing.

5.—The Township of Nassagaweya, including village of Campbellville.

6.—The Township of Nelson, including the Town of Burlington.

HASTINGS.

G. E. Deroche, Judge, Belleville.

J. F. Wills, J.J., Belleville.

B. C. Donnan, C.C.A. and C.P., Belleville.

1.—The City of Belleville and the Township of Thurlow; also all that portion of the Township of Sidney lying south of the 8th concession and east of the line between lots 18 and 19.

2.—The Townships of Wol'aston, Limerick and Cashel, and the six northerly concessions of the Townships of Tudor and Grimsthorpe, and all those parts of the Township of Lake in all the concessions thereof lying north of lots 21 in said concessions all in the County of Hastings.

3.—The Township of Tyendinaga, except that part called Deseronto.

4.—The Township of Hungerford.

5.—All that part of the Township of Sidney which lies to the north of the 7th concession, excepting that part of the 8th concession lying west of the Trent river, and all that part of the Township of Rawdon which lies to the south of the 9th concession and that part of the Township of Huntingdon south of the 6th concession, including the Village of Stirling.

6.—The Township and Village of Madoc, the Township of Elzevir and all that part of the Township of Huntingdon north of the 5th concession, and all of the Townships of Tudor and Grimsthorpe, except the northerly six concessions of each of the said townships.

7.—The Village of Deseronto.

8.—All that part of the Village of Frankford in the Township of Sidney and concessions 4, 5, 6, and 7 lying west of the line between lots 18 and 19 and that part of concession 8 lying west of the Trent river in the Township of Sidney.

9.—The Town of Trenton and all that part of the Township of Sidney lying south of the 4th concession and west of the line between lots 18 and 19.

10.—The Township of Marmora, that part of the Township of Lake lying south of lot 22 in all the concessions thereof, and all that part of the Township of Rawdon which lies north of the 8th concession thereof.

11.—The Townships of Herschell, Monteagle, Carlow, Bangor, Wicklow and McClure.

12.—The Townships of Faraday, Dungannon and Mayo, and the Village of Bancroft.

HURON.

E. N. Lewis, J.J., Goderich.

Chas. Seager, C.C.A. and C.P., Goderich.

1.—Comprising the Town of Goderich, that part of the Township of Goderich to the north of the Cut Line and the Huron Road until the same meets the road allowance between the 13th and 14th concessions, then back along the Huron Road to its junction with the Cut Line, then west by the road allowance between concessions 11 and 12 to the River Maitland, then along the River Maitland to Goderich, together with the Township of Colborne.

2.—Comprising the Township of McKillop, the Town of Seaforth, and all that portion of the Township of Tuckersmith not included in the third division.

3.—Comprising all that portion of the Township of Hullett south of the blind line between the 7th and 8th concessions of the Township of Hullett, that part of the Township of Goderich not included in Nos. 1 and 7, 1st, 2nd, 3rd and 4th concessions, Township of Stanley 1st and 2nd concessions, Township of Tuckersmith, L.R.S., north of lot 15, and that portion west of side road between lots 25 and 26, H.R.S., and Town of Clinton.

4.—Comprising the Township of Grey, all of the Township of Morris east of side road between lots Nos. 10 and 11 (which is not included in No. 12) and the Village of Brussels.

5.—Comprising the Townships of Osborne and the Village of Exeter.

6.—Comprising the Townships of Ashfield and all West Wawanosh, except that portion east of Maitland river.

7.—Comprising the Township of Goderich, south of Cut Line and Huron Road until the same joins the road between the 12th and 14th concessions of the Township of Goderich; thence along the said concessions until the same joins the River Bayfield, all Stanley not included in No. 3, and the Village of Bayfield.

8.—Comprising the Village of Wingham, the Township of Turnberry, all that part of East Wawanosh not included in No. 12, and all of the Township of Morris not included in Nos. 4 and 12.

9.—Comprising the Township of Howick and the Village of Wroxeter.

10.—Comprising the Township of Hay.

11.—Comprising the Township of Stephen.

12.—Commencing at the northeast angle of the Township of Hullett, thence southerly along the easterly boundary of the said Township of Hullett to the blind line between the 7th and 8th concessions of said township, thence westerly along said line to the western boundary of the township, thence northerly along the westerly boundary of the township to the Maitland River at the southeastern corner of the Maitland Block, thence along the said river northerly till the western boundary of East Wawanosh is reached, thence northerly along said westerly boundary to the road running between the 6th and 7th concessions of said Township of East Wawanosh, thence easterly along said road to the easterly limit of said township, thence northerly along the gravel road to the road running between the 5th and 6th concessions of the Township of Morris, thence easterly along said road to the line between lots 10 and 11, thence southerly along said line between the 6th and 7th concessions, thence easterly along said line to the line between lots 15 and 19, thence southerly to the boundary line between the Townships of Morris and Hullett, thence easterly to the place of beginning, including the Village of Blyth.

DISTRICT OF KENORA.

T. W. Chapple, Judge, Kenora.

H. P. Cooke, C. Atty. and C.P., Kenora.

1.—Comprising all the port on of the said District of Kenora lying west of the Seventh Meridian Line, including the Towns of Kenora and Keewatin.

2.—Comprising all that portion of the said District lying east of the eastern boundary of the Third Division, south of the northern boundaries of the Townships of Zealand and Hartman to the eastern boundary of the said District, including the Municipality of Ignace.

3.—Comprising all that portion of the said District lying between the Seventh Meridian Line and a line drawn parallel with the western boundary of lot 10 in the Township of Zealand, and extending northward to the northern boundary of the said District and southward to the southern boundary thereof, including the Town of Dryden.

4.—Comprising all that portion of the said Second Division, lying north of a line drawn eastward along the northern boundaries of the Township of Zealand and Hartman, to the eastern boundary of the said District of Kenora.

KENT.

Ward Stanworth, Judge, Chatham.

H. D. Smith, C.C.A. and C.P., Chatham.

1.—The First Division to consist of the City of Chatham and that part of the Townships of Dover East and West to the south of the 12th and 13th concession line of the Township of Dover East, and that part of the Township of Chatham south of the 12th and 13th concession line, and west of the side roads between lots 12 and 13, from the first mentioned 12th and 13th concession line to the 5th and 6th concession line, and all south of the said 5th and 6th concession line of said township; that part of the Township of Harwich north of 5th and 6th concession line, by the easterly boundary; that part of the Township of Raleigh north of the 16th concession to the west side road between lots 12 and 13 north to the 6th and 7th concession line, and all of the said township north of the said last-mentioned line, and that part of the Township of Tilbury East north of the 4th concession.

2.—The Second Division to consist of that partion of Township of Howard south of the 2nd and 3rd concession line by the eastern boundary (known as the Botany Road), and that part of the Township of Orford south of the 10th and 11th concession line of said township.

3.—The Third Division to consist of all that part of the Gore of Camden lying west of the 10th and 11th concession line, and that part of the Township of Camden lying west of the side line between lots 6 and 1; the Village of Dresden, and that part of the Township of Chatham north of the 5th and 6th concession line and east of the side roads between lots 12 and 13.

4.—The Fourth Division to consist of that part of the Township of Harwich south of the 5th concession of the eastern boundary, and south of the 3rd concession by the western boundary, and that part of Raleigh south of the 15th concession and east of the side road between lots 12 and 13 and the road to the shore through lot 146 on the Talbot Road.

5.—The Fifth Division to consist of the Village of Wallaceburg, the Gore of Chatham and that part of the Township of Chatham northwest of the 12th and 13th concession line, and west of the said roads between lots 12 and 13, and that part of Dover lying north of the 12th and 13th concession side road.

6.—The Sixth Division to consist of that part of the Township of Howard north of the Botany Road aforesaid, and that part of the Township of Orford north of the 10th and 11th concession line, the Township of Rone, the Township of Bothwell, the Village of Thamesville, and that part of the Gore of Camden east of the 10th and 11th concession line, and that part of the Township of Camden east of the side line between lots 6 and 7.

7.—The Seventh Division to consist of that part of Tilbury East south of the 3rd concession, the Township of Romney, and that part of the Township of Raleigh south of the 6th and 7th concession line, and west of the side road between lots 12 and 13, in the said township, and the road through lot 147 on Talbot Road.

LAMBTON.

A. E. Taylor, Judge, Sarnia.

F. W. Willson, C.C.A. and C.P., Sarnia.

1.—The City of Sarnia, the Townships of Sarnia and Moore, and the Villages of Point Edward and Courtwright.

2.—The external boundaries of the Township of Warwick, including that portion of the Village of Arkona south of the township line.

3.—The external boundaries of the Townships of Euphemia and Dawn.

4.—The external boundaries of the Township of Sombra.

5.—The external boundaries of the Township of Plympton.

6.—The external boundaries of the Township of Bosanquet, including that portion of the Village of Arkona north of the township line.

8.—The external boundaries of the Township of Enniskillen.

9.—The external boundaries of the Township of Brooke.

LANARK.

J. H. Scott, Judge, Perth.

C. H. McKimm, C.C.A. and C.P., Perth.

1.—The Town of Perth, and the Townships of Drummond, Bathurst, South Sherbrooke, Burgess North, and that part of the Township of Elmsley North, north of the Rideau River, within the County of Lanark, and west of lot No. 12 in each concession.

2.—The Second Division to consist of the Village of Lanark, and the Townships of Lanark, Dalhousie, Darling, Lavant and North Sherbrooke.

3.—The Third Division to consist of the Town of Carleton Place and the Township of Beckwith, and the first six lots in the first seven concessions of Township of Ramsay.

4.—The Township of Montague, the Town of Smith's Falls, and that part of the Township of North Elmsley, from lot No. 1 to lot No. 12, in each concession, both inclusive, not within the limits of the Town of Smith's Falls.

5.—The Township of Pakenham, the Town of Almonte, and the Township of Ramsay, with the exception of the first six lots in the first seven concessions of the said township.

LEEDS AND GRENVILLE.

J. K. Dowsley, Judge, Brockville.

E. J. Reynolds, J.J., Brockville.

M. M. Brown, C.C.A. and C.P., Brockville.

1.—To consist of the 1st, 2nd, 3rd, 4th, 5th, 6th and 7th concessions and broken front of the Township of Elizabethtown, and the concession roads between them.

2.—To comprise the 1st, 2nd, 3rd, 4th, 5th concessions and broken front and that part of the 6th, 7th and 8th concessions from the town line of Edwards, burg to lot No. 18, inclusive of the Township of Augusta, and the concession roads between them, and the 1st concession of the Township of Edwardsburg, including the Village of Cardina!

3.—To consist of the 1st, 2nd, 3rd, 4th and 5th concessions and broken front of the Townships of Leeds and Lansdowne, respectively, and the concession roads between them.

4.—To consist of the Township of South Gower, the Township of Oxford from the west side line of lots No. 11 in all the concessions of the eastern boundary of the township, and the gore of land between South Gower, Oxford and Edwardsburg.

5.—To consist of the Township of Wolford (except the 7th and 8th concessions and the allowances of roads within and between them); lots Nos. 1 to 10, inclusive, in the 2nd, 3rd, 4th, 5th, 6th, 7th and 8th concessions of the Township of Oxford, and allowances of roads within and between them.

6.—To consist of the Townships of Bastard and Burgess, and those parts of the Township of Leeds and Lansdowne, on the north side of the rear of the 5th concession in each respectively.

7.—To consist of the Townships of Kitley and Elmsley.

8.—To consist of the Townships of North Crosby and South Crosby.

9.—To consist of that part of the Townships of Escott and Yonge, in rear of the 4th concession of Yonge, and in rear of the 6th concession of Escott; that part of the Township of Elizabethtown, in rear of the 7th concession of and west of lot No. 18 in the 8th, 9th, 10th and 11th concessions, and the allowances for roads embraced therein.

10.—The Township of Edwardsburg excepting the 1st concession thereof, including the Village of Cardinal.

11.—To consist of that part of the Township of Augusta in rear of the 5th concession and west of lots No. 18 in the 6th, 7th and 8th concessions; the whole of the 9th and 10th concessions of the Township of Augusta; the Gore between the Townships of Oxford, Wolford and Augusta; that part of the Township of Elizabethtown in rear of the 7th concession, and east of the commons, between lots No. 18 and 19 in the 8th, 9th and 10th concessions; the 7th and 8th concessions of the Township of Wolford; lots No. 1 to 10, inclusive, in the 9th and 10th concessions of the Township of Oxford; and the allowance for roads embraced therein.

12.—To consist of the 1st, 2nd, 3rd, and 4th concessions and broken front of the Township of Yonge; the 1st, 2nd, 3rd, 4th, 5th and 6th concessions and broken front of the Township of Escott, and the allowances for roads embraced therein.

The said 1st, 2nd and 12th divisions shall respectively embrace and comprehend within their lines those portions of the River St. Lawrence and islands therein, within the exterior lines of which such portions of said river and islands would lie and be, if such exterior side lines were produced and extended in that direction to the utmost limits of the Province.

LENNOX AND ADDINGTON.

Jas. H. Madden, Judge, Napanee.

U. M. Wilson, C.C.A. and C.P., Napanee.

1.—The Town of Napanee, Township of Richmond, all that part of North Fredericksburg and Adolphustown lying north of Hay Bay, and all that part of North Fredericksburg lying north of Big Creek.

2.—Comprises 1st concession of Ernestown, the Village of Bath, the Township of Amherst Island, and the 2nd, 3rd and 4th concessions of the said Township of Ernestown, from the west limits thereof to the west limit of lot No. 21 in each concession.

3.—Township of South Fredericksburg and all that part of North Fredericksburg and Adolphustown not included in Division No. 1.

4.—1st, 2nd and 3rd concessions of the Township of Camden and the Village of Newburg.

5.—All that part of the Township of Camden not included in Division No. 4.

6.—All that portion of the Township of Ernestown not included in the limits of Division No. 2.

7.—Township of Sheffield.

8.—Townships of Kaladar, Anglesea and Effingham.

9.—Townships of Abinger, Ashby and Denbigh.

LINCOLN.

J. S. Campbell, Judge, St. Catharines.

E. H. Lancaster, C.C.A. and C.P., St. Catharines.

1.—The Town and Township of Niagara.

2.—The Township of Grantham (including the City of St. Catharines), the Villages of Merritton and Port Dalhousie and the Township of Louth.

3.—The Townships of Caistor and Gainsborough and the 9th concession of the Township of Grimsby, including the 1st and 2nd ranges as part of the said concession.

4.—The Village of Beamsville and the Township of Clinton.

5.—The Village of Grimsby, the Township of North Grimsby, and the Township of South Grimsby, except that portion included in the Third Division.

DISTRICT OF MANITOULIN.

C. E. Hewson, Judge, Gore Bay.

W. F. McRae, C.A., and C.P., Gore Bay.

1.—The Town of Gore Bay, the Townships of Cameron, Billings, Gordon, Allan, Campbell, Mills, Burpee, Robinson, Dawson and the Islands Barrie, Clapperton and Duck, and the Islands of said district lying in the North Channel of Lake Huron, north of the said Townships and all islands in Lake Huron lying south of said Townships.

7.—Comprising the two front concessions of the Township of West Hawkesbury, and the Municipality of Hawkesbury Village, within the same.

8.—Comprising the Township of Caledonia (excepting the 1st concession of the said township), and also that portion of the Township of South Plantagenet lying south and east of the Nation River.

9.—Comprising the whole of the Township of Alfred.

10.—Comprising the whole of the Township of Clarence.

11.—Comprising the whole of the Township of Cambridge.

PRINCE EDWARD.

Ivan McLean, Judge, Picton.

M. R. Allison, C.C.A., and C.P., Picton.

1.—The Town of Picton, the 2nd and 3rd concessions of "Military Tract" from the west line of No. 13 eastward; Gore "G"; 1st and 2nd concessions north of the Carrying Place, 1st concession southeast of the Carrying Place, and 2nd concession north of Black River, including Gores "K" and "L" and McCan Gores, all in the Township of Hallowell; Block "I" in the concession north and east of East Lake, and Gore "B" in the Township of Athol, and 1st and 2nd

concessions south of the Bay of Quinte, and Gore "A" in the Township of North Marysburg, and 1st concession southwest of Green Point to the end of Carman's Point in Sophiasburg.

2.—The Township of South Marysburg, and the Southern part of Athol, commencing at the outlet of East Lake, thence down to the head of the Lake, thence down to the base line between the 1st concession south and the 1st concession north of East Lake, till it strikes the township line of Hallowell, thence down said township line till it strikes South Marysburg.

3.—The Township of Sophiasburg, together with Big Island, excepting the 1st concession southwest of Green Point to the end of Carman's Point.

4.—All that part of the Township of Ameliasburg lying east of the line between lots 86 and 87, in the 1st, 2nd, 3rd and 4th concessions of said township, including Huff's Island.

5.—That part of the Township of Hillier not included in the 7th division, also the 1st and 2nd concessions north of West Lake, and west of lot No. 7 in the said concession, and that part of Irwin Gore lying north and west of lot No. 7 in the 2nd concession and the west part of the 2nd concession produced west of lot No. 74 in that concession in the Township of Hallowell.

6.—Block (IV) four, concession south side of West Lake, 1st concession "Military Tract," 2nd and 3rd concessions of said tract west of Lots No. 13, in those concessions, "Gore E," 1st and 2nd concessions north of West Lake, and east of lot No. 6 in those concessions; the Gerrow Gore and that part of Irwin Gore not included in Division No. 8, and all that part of the 2nd concession produced east of lot No. 75 in the Township of Hallowell.

7.—All that part of the Township of Ameliasburg lying west of the line between lots No. 86 and 87, in the 1st, 2nd, 3rd and 4th concessions of said township; all that part of the 4th and 5th concessions of the Township of Hillier west of the line between lots 86 and 87 and the 3rd concession west of the line between lots No. 22 and 23, with that part of the 2nd concession lying North of Pleasant Bay in the said Township of Hillier.

8.—All the point lying east of the west line of Marshland's Gore, the concession lying north of Smith's Bay and Waupoos Island in the Township of North Marysburg.

DISTRICT OF RAINY RIVER.

A. McLennan, Judge, Fort Frances.

N. L. Croome, C.C.A. and C.P., Fort Frances.

1.—To comprise all that part of the said District lying east of the east boundaries of the Townships of Aylesworth, Lash, Carpenter, Kingsford and Fleming, and east of the east boundary of the said Township of Fleming produced north to the north boundary of the said District.

2.—To comprise all that part of the said District lying west of Division No. 1 and east of the east boundaries of the Townships of Morely, Morely Additional, Pattullo, Sifton and Dewart, and east of a line drawn north astronomically from the northeast angle of the said Township of Dewart to the north boundary of the said District.

3.—To comprise all that part of the said District lying west of Division No. 2.

RENFREW.

J. M. McNamara, Judge, Pembroke.

J. H. Burritt, C.C.A., and C.P., Pembroke.

1.—Comprising the Town of Pembroke, the Townships of Pembroke, Stafford, Alice, Petawawa, Buchan, Rolph, Wylie, McKay, Fraser, Herd, Clara and Maria, and all that part of the Township of Wilberforce from the 18th to the 25th concessions, both inclusive, and also those parts of the 14th, 15th, 16th and 17th concessions of the same Township of Wilberforce lying north of Snake River and east of Lake Dore.

2.—Comprising all that part of the Township of Westmeath lying east and north of the Muskrat Lake and River, and all those parts of the Township of Ross, from the 5th to the 9th concessions, both inclusive, east of Muskrat Lake and from the 7th to the 13th (of the other) concessions, both inclusive, of the said Township of Ross.

3.—Comprising the Town of Renfrew and the Townships of Horton, Admaston, Bagot, Blythfield, Brougham and Matawachan, in the said County of Renfrew.

4.—Comprising the Village of Arnprior and the Township of McNab.

5.—Comprising the Townships of Grattan, Sebastopol, South Algona, North Algona, and all that part of the Township of Wilberforce, from the 1st to the 17th concessions, both inclusive, excepting those parts of the 14th, 15th, 16th and 17th concessions of said Township of Wilberforce lying north of Snake River and east of Lake Dore.

6.—Comprising the Township of Bromley, and all that part of the Township of Westmeath west of Muskrat Lake, and all those parts of the Township of Ross, from the 1st to the 14th concessions, both inclusive, of the said Township of Ross.

7.—Comprising the Townships of Brudenell, Radcliffe, Raglan, Lynedoch, Griffith, Hagarty, Sherwood, Jones, Richards and Burns.

SIMCOE.

G. N. Vance, Judge, Barrie.

E. A. Wismer, J.J., Barrie.

J. R. Cotter, C.C.A., and C.P., Barrie.

1.—Comprising the Town of Barrie, the Township of Vespra, except that portion lying west of the Nottawasaga River, and excepting also lots Nos. 38, 39 and 40, in the 1st and 2nd concessions, and lots Nos. 1, 2 and 3 in the 3rd, 4th, 5th, 6th and 7th concessions respectively. That portion of the Township of Oro lying south of lots Nos. 21 in the 1st and 2nd concessions (including the ranges), and south of lots Nos. 13 in the 3rd, 4th, 5th, 6th, 7th and 8th concessions respectively; that portion of the Township of Innisfil lying east of lots Nos. 5 in the 6th, 7th and 8th concessions, and that portion lying north of the 8th concession; that portion of the Township of Essa lying north of lots Nos. 19 in the 7th, 8th, 9th, 10th and 11th concessions.

2.—The Village of Bradford, the Township of West Gwillimbury, excepting thereout lots Nos. 1, 2, 3, 4 and 5 in the 14th and 15th concessions; the Township of Innisfil, excepting that portion lying north of the 5th concession, and excepting also lots Nos. 1, 2, 3, 4 and 5 in the 1st, 2nd, 3rd, 4th and 5th concessions thereof.

3.—The Township of Tecumseh, excepting concessions 12, 13, 14 and 15; the Township of Adjala, excepting that portion lying north of lot No. 25 in the 8th concession thereof.

4.—The Town of Collingwood, the Village of Stayner, that portion of the Township of Nottawasaga lying north of lot No. 18 in the 12th concession thereof; that portion of the Township of Sunnidale lying north of the 8th concession; that portion of the Township of Flos lying west of the Nottawasaga River; the islands in Lake Huron contiguous to the Township of Nottawasaga.

5.—The Township of Flos, except that portion lying west of the Nottawasaga River; the Township of Medonte, except that portion lying east of the 10th concession and north of lots Nos. 10 in the 9th and 10th concessions respectively; that portion of the Township of Oro lying north of the southern boundaries of lots Nos. 21 in the 1st and 2nd concessions, and north of the southern boundaries of lots Nos. 13 in the 3rd, 4th, 5th, 6th, 7th and 8th concessions respectively; lots Nos. 38, 39 and 40 in the 1st and 3rd concessions, and lots Nos. 1, 2 and 3 in the 3rd, 4th, 5th, 6th and 7th concessions of the Township of Vespra.

6.—The Town of Orillia, the Township of Orillia, southern division, the Township of Orillia, northern division, except that portion lying north of lots Nos. 15 in the first seven concessions thereof; that portion of the Township of Oro lying east of the 8th concession; that portion of the Township of Medonte, being composed of lots Nos. 1 to 6 (both inclusive) in the 11th, 12th, 13th, and 14th concessions; the islands in Lake Simcoe contiguous to the townships and portions of townships above described lying wholly or for the most part opposite thereto.

7.—The Township of Nottawasaga, except that portion lying north of lot No. 18 in the 12th concession thereof; the Township of Sunnidale, except that portion lying north of the 8th concession; that portion of the Township of Vespra lying west of the Nottawasaga River; that portion of the Township of Essa lying north of lots 19 in the 1st, 2nd, 3rd, 4th, 5th and 6th concessions; that portion of the Township of Tossorontio lying north of lots Nos. 20 in each of the seven concessions thereof.

8.—The Township of Essa, except that portion lying north of lots Nos. 19 in each of the eleven concessions thereof; the Township of Tossorontio, except that portion lying north of lots Nos. 20 in each of the seven concessions thereof; that portion of the Township of Innisfil, being composed of lots Nos. 1, 2, 3, 4 and 5 in the 1st, 2nd, 3rd, 4th, 5th, 6th, 5th and 8th concessions; the 12th, 13th, 14th and 15th concessions of the Township of Tecumseh; lots Nos. 1, 2, 3, 4 and 5 in the 14th and 15th concessions of the Township of West Gwillimbury; that portion of the Township of Adjala lying north of lots Nos. 25 in the eight concessions thereof.

9.—The Town of Penetanguishene and the Village of Midland, the Township of Tiny; that portion of the Township of Tay lying west of the 8th concession; the islands in Lake Huron contiguous to the Township of Tiny, and to that part of the Township of Tay, forming part of the 9th division, and lying wholly and for the most part opposite thereto.

10.—The Township of Matchedash, that portion of the Township of Orillia, northern division, lying north of lots Nos. 15, in the first seven concessions thereof; that portion of the Township of Medonte lying north of lots Nos. 6, in the 11th, 12th, 13th and 14th concessions, and that portion lying north of lots Nos. 10, in the 9th and 10th concessions thereof; the Township of Tay,

except that portion lying west of the 8th concession; the island in Lake Huron, contiguous to that portion of the Township of Tay, forming part of the 10th division, and lying wholly or for the most part opposite thereto.

NOTE.—Each of the said several divisions shall include all allowances for roads embraced within its external limits, and shall also extend to the centre of every allowance for road lying external and adjacent to every such division, excepting always where any such last-mentioned allowance is hereinbefore declared to belong to or form part of any particular division.

STORMONT, DUNDAS AND GLENGARRY.

J. R. O'Reilly, Judge, Cornwall.

J. G. Harkness, C.C.A. and C.P., Cornwall.

- 1.—Township of Charlottenburg, in the County of Glengarry.
- 2.—Township of Lochiel, in the County of Glengarry.
- 3.—Township of Cornwall, in the County of Stormont.
- 4.—Township of Osnabruck, in the County of Stormont.
- 5.—Township of Williamsburg, in the County of Dundas.
- 6.—Township of Matilda, in the County of Dundas.
- 7.—Township of Mountain, in the County of Dundas.
- 8.—Township of Finch, in the County of Stormont.
- 9.—Township of Lancaster, in the County of Glengarry.
- 10.—Township of Winchester, in the County of Dundas.
- 11.—Township of Roxborough, in the County of Stormont.
- 12.—Township of Kenyon, in the County of Glengarry.

SUDBURY.

J. J. Kehoe, Judge, Sudbury.

R. R. McKessock, C.A. and C.P., Sudbury.

1.—To comprise so much of the District not included in Division No. 4, as lies east of a line commencing at the southwest angle of Township No. 82 produced north to the northwest angle of the Township of Fairbank, thence east to the southeast angle of the Township of Rayside, thence north to the northeast angle of the Township of Kitehener, and so much of the District as lies north of the line drawn from the northeast angle of the Township of Kitchener, produced to the southwest angle of the Township of Botha, thence north to the northwest angle of said Township and produced to the western boundary of the District, and all the territory lying east of a line produced north from the boundary of the District, between Townships Nos. 16 and 17 produced to the southeast angle of the Township of Shenango, thence west to the southwest angle of said Township, thence north to the boundary of the District.

2.—So much of the District as lies south of a line produced easterly from the southwest angle of the Township of Forks to the northwest angle of the Township of Botha, thence to the southern boundary of said Township, thence east to the northeast angle of the Township of Kitchener, thence south to the southeast angle of the Township of Rayside, thence west to the boundary of the District.

3.—So much of the District as lies west of a line produced north from the southwest angle of Township No. 82 to the northwest angle of the Township of Fairbank, thence west to the boundary of the said District.

4.—So much of the District that lies east of a line between Townships of Allen and Bigwood produced north to the northern boundary of the District.

5.—So much of the District as lies west of a line drawn from the northeast angle of the Township of Shenango and produced to the southern boundary of the District, excepting said Township.

DISTRICT OF TEMISKAMING.

H. Hartman, Judge, Haileybury.

G. H. Hayward, J.J., Haileybury.

F. L. Smiley, C.A., and C.P., Haileybury.

1.—That portion of the District lying south of the line being the northerly boundary of the Townships of Van Nostrand, Klock, Bar, Firstbrook and Bucke, produced easterly and east of the western boundary of Van Nostrand, Leo, Medine and Lorrain.

2.—The Townships of Cane, Henwood, Keerne, Harley, Casey, Auld, Lundy, Hudson, Dymond, Harris, Hillard and Brethour, the Town of New Liskeard and Village of Thornloe.

3.—That portion of the district lying west of the easterly boundary of the Townships of Rorke, Whitson, Speight, Barber, Armstrong, Pense, Mulligan, Rattray, Holmes, Robertson, Michie and Timmins, and being that portion of the said district not included in Nos. 1, 2 and 4.

4.—That portion of the district lying west of the Provincial boundary and north of the Townships of Rattray, Skead, Catharine, Pecud, Marquis, Blain, Gross Holmes and Alma.

THUNDER BAY DISTRICT.

M. J. Kenny, Judge, Port Arthur.

Jno. McKay, J.J., Port Arthur.

1.—All that part of the district lying west of the meridian of 87 degrees of west longitude, to the meridian of the most easterly part of Hunter's Island, excepting therefrom the Municipality of Neebing.

3.—Comprising the Municipality of Neebing.

VICTORIA.

W. D. Swayze, Judge, Lindsay.

J. E. Anderson, C.C.A. and C.P., Lindsay.

1.—The first consists of the following townships and parts of townships, viz.: Of the 15th concession of the Township of Mariposa, and the Township of Eldon, except the ranges north and south of the Portage Road.

2.—All the Township of Fenelon, except that portion lying east of the Scugog River, and south of Sturgeon Lake, and the Township of Somerville.

3.—The Township of Verulam.

4.—The Township of Emily.

5.—The Town of Lindsay, Township of Ops, and that portion of the Township of Fenelon, lying east of the Scugog River, and south of Sturgeon Lake.

6.—The Township of Mariposa, except the 15th concession.

7.—The Townships of Carden and Dalton, Laxton, Digby and Longford, and the Township of Bexley, and that portion of the Township of Eldon north of Portage Road, and the range south of Portage Road.

WATERLOO.

E. J. Hearn, Judge, Kitchener.

D. S. Bowlby, C.C.A., and C.P., Kitchener.

1.—All that portion of the Township of Waterloo lying north of Blockline on the west side of the Grand River and that part of the upper block of said township lying north of said township lying on the east side of the Grand River, north of lots Nos. 115, 109, 104, 86 and 95, to the Guelph Township line, including the City of Kitchener and Town of Waterloo.

2.—All that part of the Township of Waterloo lying south of the Blockline on the west side of the Grand River, and that part lying on the east side of the Grand River, south of the northern boundary of lots Nos. 115, 109, 104, 85 and 95, to the Guelph Township line, including the Villages of Preston and Hespeler.

3.—All that portion of the Township of North Dumfries lying east of lot No. 19 in the 7th concession, and running a course with eastern boundary of the said lot in a northerly direction up to the 12th concession; thence along the eastern boundary of lot No. 23, in the said 12th concession, to the township line, including the City of Galt.

4.—The Township of Wilmot, including the Village of New Hamburg.

5.—The Township of Wellesley.

6.—The Township of Woolwich.

7.—All that part of the Township of North Dumfries lying west of the eastern boundary of said lot No. 19, in the 7th concession; thence along the eastern limits of the said lot No. 19, the same course thereof, in a northerly direction to the 15th concession; thence along the westerly limit of lot No. 23, in the said 12th concession to the township line, including the Village of Ayr.

WELLAND.

L. B. C. Livingstone, Judge, Welland.

T. D. Cowper, C.C.A., and C.P., Welland.

1.—The Township of Crowland; that part of the Township of Thorold lying south of the lines between lots 178 and 195, running through to Pelham; that part of Pelham lying south of the 4th concession, and that part of Humberstone lying north of the concession line, between the 4th and 5th concessions, being the whole of the 15th concession and the Town of Welland.

2.—The Township of Wainfleet.

3.—The Township of Bertie, and those parts of the Township of Humberstone not included in Nos. 1 and 6, and the Village of Fort Erie.

4.—The Township of Willoughby, the Village of Chippawa, and that part of the Township of Stamford south of the line between lots 136 and 137; easterly from the westerly limit of the township to the southeast angle of lot No. 133; thence north on the line between lots Nos. 132 and 133, to the northern boundary of the township, including the towns of Clifton and Navy Island.

5.—Those parts of the Township of Stamford, Thorold and Pelham not included in any other division, and the Town of Thorold.

6.—All the Township of Humberstone lying south of the 5th concession, and west of the side lines between lots Nos. 9 and 10, in the several other concessions thereof, and the Village of Port Colborne.

WELLINGTON.

A. Spotton, Judge, Guelph.

J. M. Kearns, C.C.A., and C.P., Guelph.

1.—The Town and Township of Guelph.

2.—The Township of Puslinch.

3.—The Township of Eramosa.

4.—The Township of Nichol, excepting the 11th and 12th concessions; the Municipality of Fergus; the first eight concessions of the Township of Garafraxa; and lots 1 to 18, both inclusive, in concessions A and B of the Township of Peel; lots 13, 14, 15, 16, 17 and 18, in concessions 18 and 19, and lots 19, 20 and 21 in the 17th concession of the Township of Peel.

5.—The Township of Erin.

6.—The Township of Pilkington, and the 11th and 12th concessions of the Township of Nichol; the Municipality of the Village of Elora, and lots Nos. 19 and upwards belonging to the 9th, 10th, 11th, 12th, 13th, 14th, 15th and 16th concessions of Peel.

7.—Concessions 1 to 16, inclusive, of the Township of Maryboro' and concessions 1 to 16, inclusive, of the Township of Peel, except lots 19, 20, 21, 22 and 23 of those concessions in that township.

8.—That part of the Township of Arthur south and southeast of lot 15, on the west side of the Owen Sound Road, in the Township of Arthur; that part of the Township of Luther from 1 to 16, both inclusive; and lots 1 to 12, both inclusive, of the 17th and 18th concessions of the Township of Peel; lots 5 to 11, both inclusive, of the 19th concession of said Township of Peel; and lots 19 to 23, both inclusive, of concessions A and B of said Township of Peel.

10.—The Township of Minto.

11.—The Town of Mount Forest, and that part of the Township of Arthur north of lot 16, west of the Owen Sound Road; lot 17, on the Owen Sound Road, and lot 13, east of the Owen Sound Road.

WENTWORTH.

W. T. Evans, Judge, Hamilton.

J. G. Gauld, J.J., Hamilton.

Geo. W. Ballard, C.C.A., and C.P., Hamilton.

1.—All that part of the Township of Barton lying east of the lines between lots 14 and 15, and all that part of Hamilton City east of Hughson street.

2.—The whole of the Township of Flamboro' West, the Town of Dundas, and the east half of the Township of Ancaster.

3.—The whole of the Township of Flamboro' East.

4.—The whole of the Township of Beverly and the west half of the Township of Ancaster.

5.—The whole of the Township of Saltfleet.

7.—The whole of the Township of Glanford.

8.—The whole of the Township of Binbrook.

9.—All that part of the Township of Barton lying west of the lines between lots 14 and 15, and that part of Hamilton City west of Hughson street.

YORK.

E. Coatsworth, Judge, Toronto.

F. M. Morson, J.J., Toronto.

J. Tytler, J.J., Toronto.

C. H. Widdifield, J.J., Toronto.

J. H. Denton, J.J., Toronto.

D. O'Connell, J.J., Toronto.

Eric Armour, C.C.A., Toronto.

H. E. Irwin, C.P., Toronto.

1.—The City of Toronto east of Yonge street, at date of 14th September, 1875 (i.e., Bloor, Sherbourne and Howard streets on the north, the Don on the east, down to Queen street, and south of Queen street as far as Lee avenue).

2.—Concessions 5 and 11, inclusive, of the Township of Markham, and concessions 5 to 10, inclusive, of the Township of Whitchurch, from 1 to 10, inclusive, together with the Villages of Markham and Stouffville.

3.—Concessions 1 to 4, inclusive of the Township of Markham, and concessions 1 to 4, inclusive, of the Township of Whitchurch, from lots 1 to 10, inclusive, and concessions 1 to 3, inclusive, of the Township of Vaughan.

4.—The Township of Whitchurch, from the line between lots 10 and 11 northward; and the Township of East Gwillimbury.

5.—The Townships of Georgina and North Gwillimbury.

6.—The Township of King and the incorporated Village of Aurora.

7.—Concessions 4 to 11, inclusive, of the Township of Vaughan.

8.—All that portion of the Township of York lying west of Yonge street, and the Township of Etobicoke.

9.—Township of Scarboro' and all that portion of the Township of York which lies east of Yonge street and the Village of Leslieville.

10.—The city of Toronto, west of Yonge street, at date of 10th September, 1875 (i.e., Bloor street on the north and Dufferin street on the west).

DIVISION COURT TARIFF.

APPENDIX "E."

CLERK'S FEES.

1. Receiving claim, numbering and entering in procedure book.....	\$0 50
[This item to apply to entering in the procedure book a transcript of judgment from another court, but not an entry made for the issue of a judgment summons.]	
2. Issuing summons with necessary notices and warnings thereon, or judgment summons (as provided in forms) in all:—	
Where claim exceeds \$10 and does not exceed \$20.....	60
Where claim exceeds \$20 and does not exceed \$60.....	75
Where claim exceeds \$60 and does not exceed \$100.....	1 00
Where claim exceeds \$100 and does not exceed \$200.....	2 00
Where claim exceeds \$200 and does not exceed \$300.....	3 00
Where claim exceeds \$300 and does not exceed \$400.....	4 00
[N.B.—In replevin and interpleader suits the value of the goods to regulate the fee.]	
3. Copy of summons, including all notices and warnings thereon.....	25
4. Copy of claim (including particulars) when not furnished by plaintiff	25
5. Copy of set off or counterclaim or notice of defence (including particulars) when not furnished by defendant.....	25
[NOTE.—In either of the last two preceding items, the fee may be taxed against the party ordered to pay costs.]	
6. Receiving and entering bailiff's returns to any summon, writ, or warrant issued under the Seal of the Court (except summons to witness and return to summons or papers from another division).....	25
7. Taking confession of judgment.....	10
[This does not include affidavit and oath, chargeable under item 8.]	
8. Every necessary affidavit, if actually prepared by the clerk, and administering oath to the deponent.....	25
9. Furnishing duly certified copies of summons and notices and papers with all proceedings for purposes of appeal, as required by either party, per folio of 100 words.....	05
10. Certificate therewith.....	25
11. Certifying under the Seal of the Court and delivering to a judgment creditor a memorandum of the amount of the judgment and costs against a judgment debtor, or garnishee, under the Creditor's Relief, or for any other purpose.....	25
12. Copies of papers, for which no fee is otherwise provided necessarily required for service or transmission to the Judge, each.....	10
If exceeding two folios, per folio.....	05
13. Every notice of defence or admission entered, or other notice required to be given by the clerk to any other party to a cause or proceeding, including mailing, but not postage.....	25
14. Entering final judgment by clerk, on special summons, where claim is not disputed:—	
Where claim does not exceed \$60.....	50
Where claim exceeds \$60 and does not exceed \$100.....	1 00
Where claim exceeds \$100 and does not exceed \$200.....	1 50
Where claim exceeds \$200.....	2 00

15. Entering every judgment rendered at the hearing or final order made by the Judge:—	
Where claim does not exceed \$60.....	\$0 50
Where claim exceeds \$60 and does not exceed \$100.....	1 00
Where claim exceeds \$100 and does not exceed \$200.....	1 50
Where claim exceeds \$200.....	2 00
[NOTE.—This fee does not apply to any proceeding on judgment summons.]	
[These fees shall include the service of recording at the trial and afterwards entering in the procedure book the judgment, decree, and order in its entirety, rendered or made at the trial. If a garnishee proceeding before judgment, these fees will be allowed for the judgment in respect to the primary debtor, and like fees for the adjudication, whenever made, in respect to the garnishee.]	
16. Subpœna to witness.....	25
[This subpœna may include any number of names therein, and only one original subpœna shall be taxed, unless the Judge otherwise orders.]	
17. For every copy of subpœna required for service.....	10
18. Summons to jury (including copy for each jurymen) when required by parties.....	2 00
19. Calling and returning jury ordered by the Judge.....	25
20. Every order of reference, or order for adjournment, made at hearing, and every order requiring the signature of the Judge, and entering the same, including final order on judgment debtor's examination:	
Where claim exceeds \$10 and does not exceed \$100.....	25
Where claim exceeds \$100 and does not exceed \$200.....	50
Where claim exceeds \$200.....	75
[Any necessary warning with order forms part of the order.]	
21. Transcript to another Division Court:—	
Where claim exceeds \$10 and does not exceed \$100.....	50
Where claim exceeds \$100.....	75
22. Every writ of execution, warrant of attachment, or warrant of commitment and delivering same to bailiff:—	
Where claim does not exceed \$60.....	50
Where claim exceeds \$60 and does not exceed \$100.....	75
Where claim exceeds \$100 and does not exceed \$200.....	1 00
Where claim exceeds \$200 and does not exceed \$300.....	1 50
Where claim exceeds \$300.....	2 00
23. Renewal of every summons or writ of execution when ordered by the judgment creditor, or warrant of commitment when ordered by the Judge.....	35
24. Every bond when necessary, and prepared by the clerk (including affidavits of justification and of execution).....	1 00
25. Transmitting transcripts of judgment or transmitting papers for service to another division, or to the Judge on application to him, including necessary entries and mailing, but not including postage	25
26. Receiving papers from another division for service, and entering the same, handing to the bailiff, receiving and entering his return and transmitting the same (if return made promptly, not otherwise)..	30

27. Search by a person not a party to the suit or proceeding, to be paid by the applicant.....	\$0 25
Search by a party to a suit or proceeding, where the suit or proceeding is over one year old.....	10
[No fee is chargeable for search to a party to the suit or proceeding, if same is not over one year old.]	
28. Taxing costs in defended suits, after judgment pronounced by the Judge.....	25
29. Making out statement of costs in detail (including bailiff's fees) at the request of any party.....	10
[Neither item 28 or 29 applies to statement of costs endorsed on summons or copy to be served.]	
30. Taxing bailiff's costs, under Section 187 of the Division Courts Act.	25
31. Every necessary letter to any party to any cause, matter or proceeding in Court.....	15
[A letter shall not be considered necessary when a notice contains the same information.]	

FORM 2.

BAILIFF'S FEES.

1. Service of summons (including return) issued under the Seal of the Court, or judgment summons, or order on each person, except summons to witness and summons to jurymen:—	
Where claim exceeds \$10 and does not exceed \$20.....	\$0 60
Where claim exceeds \$20 and does not exceed \$60.....	75
Where claim exceeds \$60 and does not exceed \$100.....	1 00
Where claim exceeds \$100 and does not exceed \$200.....	1 25
Where claim exceeds \$200 and does not exceed \$300.....	1 50
Where claim exceeds \$300.....	2 00
2. Service of subpoena or summons to witness or jurymen, or service of notice.....	50
3. Taking confession of judgment and attending to prove.....	25
4. For calling parties and their witnesses at the sitting of the Court in every defended case and at the hearing of every judgment summons.	25
5. Enforcing every writ of execution or summons of replevin, or warrant of attachment, or warrant against the body, each:—	
Where claim does not exceed \$20.....	75
Where claim exceeds \$20 and does not exceed \$60.....	1 00
Where claim exceeds \$60 and does not exceed \$100.....	1 50
Where claim exceeds \$100 and does not exceed \$200.....	2 00
Where claim exceeds \$200 and does not exceed \$300.....	3 00
Where claim exceeds \$300.....	4 00
6. Every mile or fraction of a mile necessarily travelled to serve summons, or process or other necessary paper, or on going to arrest, or in going to seize on a writ of execution where money paid on demand, or made on execution, or case settled after seizure (mileage one way only to be allowed.).....	20
NOTE.—No mileage is allowable for any unsuccessful attempt to serve a summons or other paper. Necessary disbursements incurred in carrying a delinquent to prison, shall be allowed subject to approval of the clerk.	

7. Every schedule of property seized, attached or replevied, including affidavits of appraisal, when necessary:—
- | | |
|--|--------|
| Exceeding \$10 and not exceeding \$60..... | \$0 60 |
| Exceeding \$60 and not \$100..... | 1 00 |
| Exceeding \$100 and not \$200..... | 1 25 |
| Exceeding \$200 and not \$300..... | 1 50 |
| Exceeding \$300 and not \$400..... | 2 00 |
8. Every bond when necessary, when prepared by the bailiff, including affidavit of justification and execution..... 1 00
9. Every notice of sale, not exceeding three, under execution, or under attachment, each..... 25
10. Reasonable allowances and disbursements, necessarily incurred in the care and removal of property:—
- If a bailiff removes property seized, he is entitled to the necessary disbursements, in addition to the fees for seizure and mileage.
 - If he takes a bond, then to \$1.00 instead of disbursements for removal of property.
 - If assistance is necessary in the seizure, or securing, or retaining, of property, the bailiff is entitled to the disbursements for such assistance.
 - All charges for disbursements are to be submitted to the clerk for taxation, subject to appeal to the Judge.
 - The bailiff must in all cases endorse a memorandum of all his charges on the back of the execution, or state them on a separate slip of paper, so that the clerk may conveniently tax the bailiff's charges for fees and disbursements.
 - The clerk in all cases to sign the memorandum of his taxation, and preserve it among the papers in the cause, together with the execution for future reference, and thereby enable the clerk to certify the bailiff's return properly.
11. If execution or process in attachment in the nature of execution be satisfied in whole or in part, after seizure and before sale, whether by action of the parties or otherwise, the bailiff shall be entitled to charge and receive 3 per cent. on the amount directed to be levied; or on the amount of the value of the property seized, whichever shall be the lesser amount.
12. Poundage on executions, and on attachments in the nature of executions, 5 per cent., exclusive of mileage, going to seize and sell, upon the amount realized from property necessarily sold.

3.—FEES TO WITNESSES AND APPRAISERS.

ALLOWANCES TO WITNESS.

Attendance, per diem, to witnesses within three miles of the place where the Court is held, if within the county.....	\$0 75
And if without the county.....	1 00
Attendance, if witness resides over three miles from the place of sittings and within the county, per diem.....	1 00
Attendance, if witness resides without the county and more than three miles of the place of sittings, per diem.....	1 50
Barristers and solicitors, physicians and surgeons, engineers and veterinary surgeons, other than parties to the cause, when called upon to give	

evidence of any professional service rendered by them, or to give professional opinions, per diem. \$ 4 00

(NOTE.—Disbursements to surveyors, architects and professional witnesses, such as are entitled to specific fees, by statute, are to be taxed, as authorized by such statute.

If witnesses attend in one case only, they will be entitled to the full allowance.

If they attend in more than one case, they will be entitled to a proportional part in each case only.)

The travelling expenses of witnesses, over three miles, shall be allowed according to the sums reasonably and actually paid, but in no case shall exceed 20 cents per mile, one way.

FEES OF APPRAISERS.

Fees to Appraisers of Goods, etc., seized under Warrant of Attachment. To each appraiser, \$1.00 per day, during the time actually employed in appraising goods—to be paid in the first instance by plaintiff and allowed as costs in the cause.

FEES IN SUITS NOT EXCEEDING \$10.
(Section 48, D.C. Act.)

CLERK.

For all services, from entering action, or suing out a judgment or interpleader, summons up to and including the entering of final judgment, or final order on any such judgment or summons, in case the action proceeds to judgment or final order. \$1 25

In case the action does not proceed to judgment or final order, the fees heretofore, or that may hereafter be payable, but not exceeding in the whole the said sum.

For issuing writ of execution, warrant of attachment, or warrant for arrest of delinquent and entering the return thereto. 50

BAILIFF.

For all services rendered in serving summons and making return, and any other service that may be necessary before the judgment is entered by the clerk or pronounced by the Judge, mileage excepted. 50

For enforcing execution, schedule of property seized, or attached, bond where necessary, and all other necessary acts done by him, after seizure, mileage excepted, if money made or case settled, after levy. 1 00
(Necessary disbursements incurred in the care and removal of property shall be allowed to be first allowed by the clerk, subject to the approval of the Judge.)

FEES PAYABLE TO JURY FUND.

JURY FUND.

Section 145 of the Division Courts Act requires that there shall be paid to the clerk on every action originally entered in his court, in addition to all costs or jury fees payable:—

- (a) Where the claim exceeds \$20 but does not exceed \$60. \$0 03
- (b) Where the claim exceeds \$60 but does not exceed \$100. 06
- (c) Where the claim exceeds \$100. 25

(These fees are only collected in the counties. There is no Jury Fund in the districts.)

R E P O R T

OF THE

Inspector of Legal Offices

ONTARIO

1923

PRINTED BY ORDER OF
THE LEGISLATIVE ASSEMBLY OF ONTARIO

TORONTO

Printed and Published by Clarkson W. James, Printer to the King's Most Excellent Majesty

1924

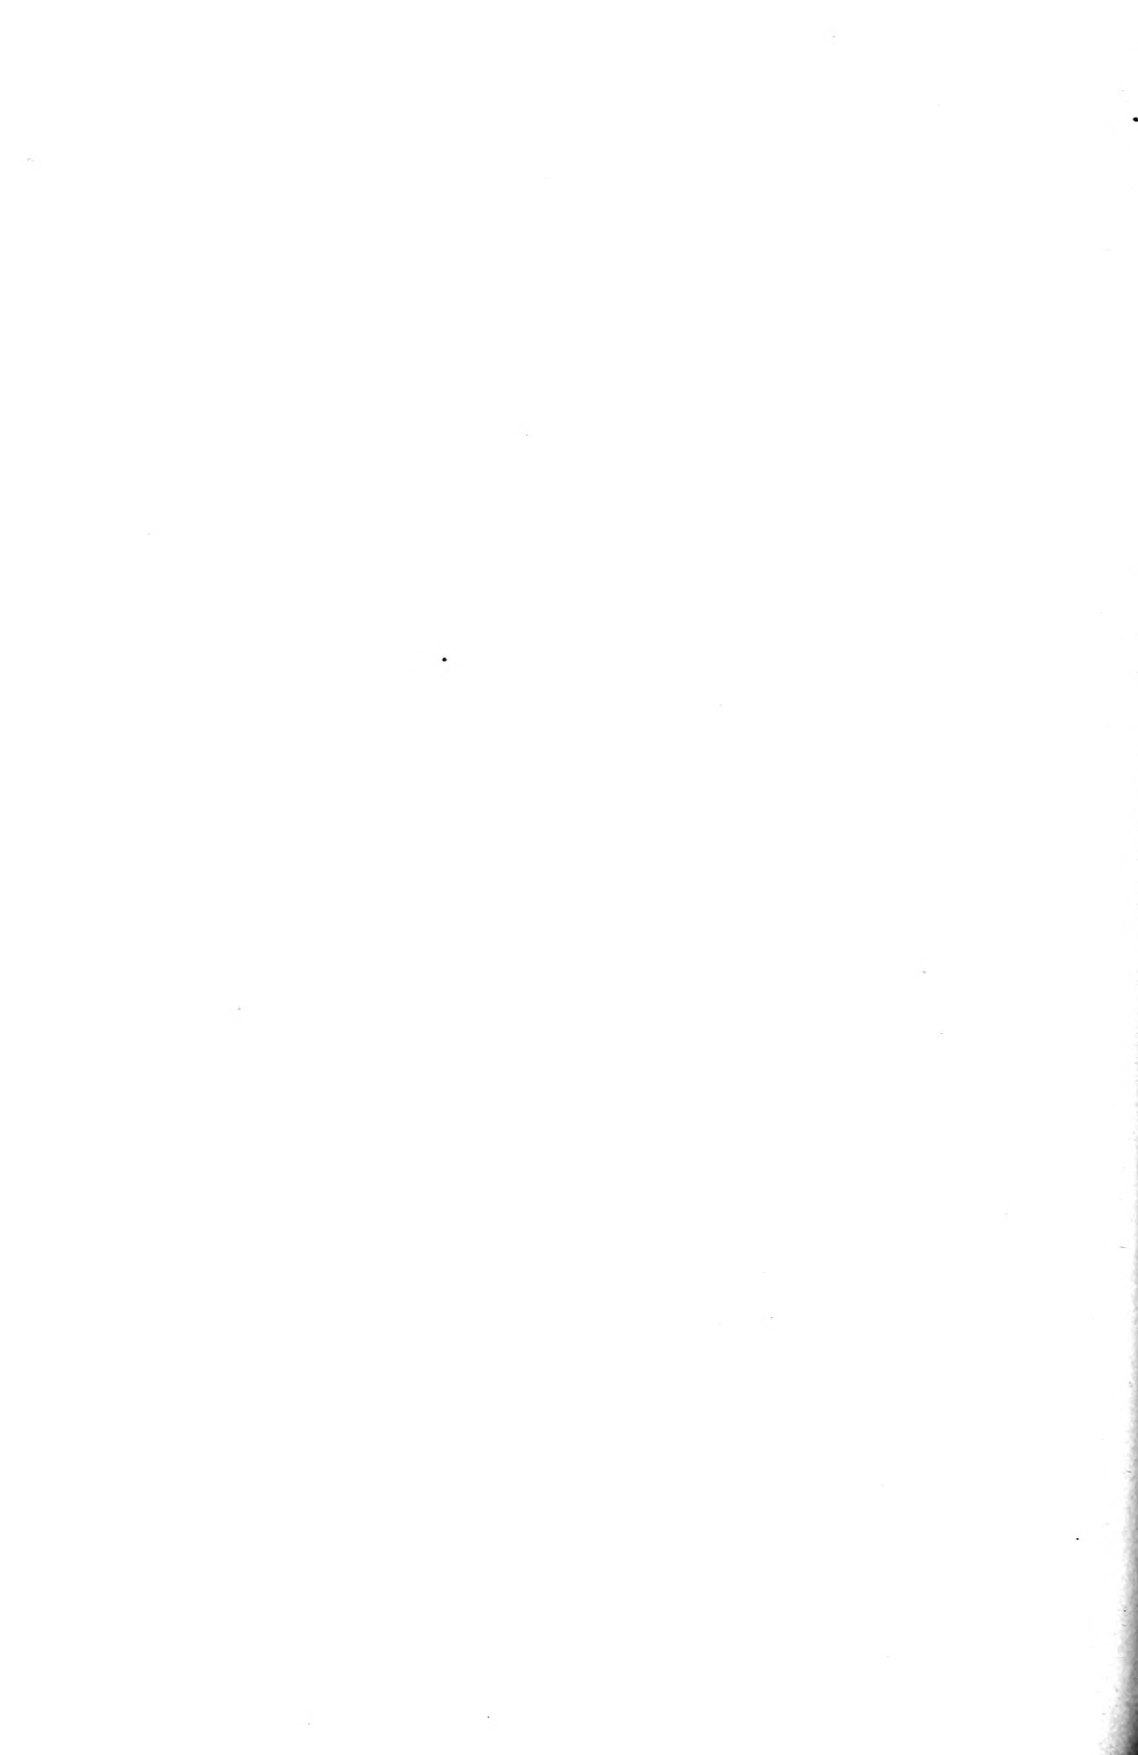

TO HIS HONOUR HENRY COCKSHUTT, ESQ.,
Lieutenant-Governor of the Province of Ontario.

MAY IT PLEASE YOUR HONOUR:

The undersigned begs respectfully to present to Your Honour the Annual Report of the Inspector of Legal Offices for the year ending 31st day of December, 1923.

W. F. NICKLE,
Attorney-General.

Toronto, March 31st, 1924.

REPORT
OF THE
Inspector of Legal Offices
ONTARIO, 1923

TO HIS HONOUR HENRY COCKSHUTT, ESQ.,
Lieutenant-Governor of the Province of Ontario.

SIR,—I have the honour to present my first Annual Report as Inspector of Legal Offices upon the affairs of the Judicial Offices of the Province of Ontario for the year ending 31st December, 1923, this being the forty-first Annual Report to your Honour.

As Inspector of Legal Offices, I have supervision over the following officers:

Sheriffs, Local Masters, Crown Attorneys, Clerks of the Peace, Local Registrars, Deputy Registrars, Deputy Clerks of the Crown and Pleas, County and District Court Clerks, Registrars of the Surrogate Courts, and all officers of the Supreme Court at Osgoode Hall. (*The Judicature Act*, Sec. 102.)

The duties of the Inspector of Legal Offices as set out in *The Judicature Act*, Section 103, are:—

1. (a) To make a personal inspection of the offices mentioned in Section 102 and all the books and court papers belonging to them, in addition to any other duties assigned to him by any Act of the Legislature or which may be assigned to him by the Lieutenant-Governor in Council, and to

(b) See that proper books are provided, that they are in good order and condition, that the proper entries and records are made therein in a proper manner, at proper times and in proper form and order, and that the court papers and documents are properly classified and preserved;

(c) Ascertain that the duties of the officers are duly and efficiently performed;

(d) See that proper costs and charges only are allowed or exacted;

(e) Ascertain whether uniformity of practice prevails in the offices; and

(f) Report upon all such matters to the Lieutenant-Governor.

2. Where the Inspector has occasion to inquire into the conduct of any officer in relation to his official duties or acts, he may require such officer, or any other person to give evidence before him on oath; and for that purpose he shall have the same power to summon such officer or other person to attend as a witness, to enforce his attendance and to compel him to produce books and documents and to give evidence, as any court has in civil cases.

3. The officers shall, when and as often as required by the Inspector, produce for examination and inspection all books and documents which are required to be kept by them, and shall report to the Inspector all such matters relating to any cause or proceeding as the Inspector shall require.

By *The Magistrates Act*, 1922, I have supervision over all police magistrates' offices (Regulation No. 1).

In addition to the duties as outlined in *The Judicature Act*, the Inspector is required by the *Sheriffs Act* to certify to the income of the Sheriffs when such incomes are below \$1,800 and have to be supplemented. *The Public Officers' Fees Act*, Sec. 11, gives the Inspector power to revise and determine the disbursements of the officers, and for this purpose he has power to take evidence and examine witnesses under oath. The Inspector receives reports from all the said officers, showing their work and the amount of fees and emoluments received by them, also the amounts disbursed by them in connection with their duties. The sums of money payable to the Province in pursuance of the several Statutes in that behalf, are sent to me by the officers, by cheque made payable to the Provincial Treasurer. The reports are examined, recorded and filed away, so that there is in my office a record of the work of each officer under my supervision. A financial statement will be found in the schedules annexed hereto.

I was appointed Inspector of Legal Offices by Order-in-Council bearing date 9th day of June, 1923, in succession to Mr. J. W. Mallon, K.C., who was Inspector of Registry Offices as well as Inspector of Legal Offices. Mr. Mallon is still Inspector of Registry Offices. Since my appointment I have made an inspection of the offices under my supervision in the following Counties:—Algoma, Brant, Carleton, Cochrane, Elgin, Essex, Frontenac, Halton, Hastings, Kenora, Kent, Lanark, Leeds and Grenville, Lennox and Addington, Middlesex, Northumberland and Durham, Oxford, Prince Edward, Rainy River, Renfrew, Stormont, Dundas and Glengarry, Temiskaming and Thunder Bay. In addition to my inspection since I was appointed, Mr. Mallon visited the offices in Barrie, Bracebridge, Lindsay, L'Orignal, North Bay, Peterborough, Sudbury and Manitoulin and reported to me.

POLICE MAGISTRATES

I have not, up to the present, inspected any of the Police Magistrates' offices, for the reason that the Assistant Inspectors were charged with this duty. I received a direction from the Honourable the Attorney-General on the 6th day of February, 1924, that I would in future be responsible for the inspection of Police Magistrates' offices in the County towns, and the Assistant Inspectors would be responsible for the inspection of the offices of all the other Police Magistrates, and would report to me.

All police magistrates are required by Regulations to make monthly returns to me and send to me all moneys received by them for fines,—and in the case of magistrates receiving a salary from the Province, for fees also,—by cheque payable to the Provincial Treasurer. Until *The Magistrates' Extended Jurisdiction Act, 1921*, the Crown Attorneys were expected to collect all fines and fees from the magistrates and forward them to the Provincial Treasurer. They received for their trouble a percentage of four per cent. on all such moneys so collected. There was no examination of the magistrates' returns to ascertain if the correct disposition of fines had been made and whether proper costs had been charged. Under the present arrangement, the magistrates are required to report every proceeding before them whether or not a conviction is made. Every entry in the magistrates' returns is examined in my office and a record is kept of each magistrate's work. A statement respecting magistrates will be found in the schedules attached hereto. I have also attached the amended form that each magistrate uses in making his monthly return.

The magistrates' expense accounts are now forwarded to me instead of to the Assistant Inspector as formerly (Order-in-Council, February 19th, 1924).

This gives me a more complete knowledge of each officer's work. Recently in an expense account, I noticed that a police magistrate charged \$17.75 for travelling to different places, but reported no cases for that month. This example prompts me to recommend that the magistrates follow more closely the plan of having the local Justice of the Peace, who takes all informations at points distant from the Police Magistrate's office, keep the magistrate advised by letter or phone when his presence is required. This, I think, would result in a considerable saving in travelling expenses. These expenses last year amounted to \$6,895.95. The police magistrates have remitted to the Province in fines during 1923, \$434,602.27, of this amount \$377,120.07 was for fines under *The Ontario Temperance Act* and was remitted directly to the Inspectors O.T.A. The amount paid by the Province for police magistrates' salaries in 1923 was \$82,670. From the salaried magistrates the Province received in fees the sum of \$21,908.95.

By the recent amendment to the Criminal Code (Dom. Stats., 1922, Cap. 16, Sec. 8)—

"Fines, penalties and forfeitures and proceeds of estreated recognizances shall be paid over to the municipal or local authority where the municipal or local authority wholly or in part bears the expense of administering the law under which the same was imposed or recovered."

This amendment has had the effect of reducing the amount of fines considerably. Some of the police magistrates appeared to think this amendment also applied to fines imposed under Provincial Statutes. I had occasion to send out the following circular letter:—

Osgoode Hall, Toronto,
February 1st, 1924.

DEAR SIR:

Some of the magistrates are paying to the municipality fines that are levied under certain Provincial Statutes where the statutes do not provide for such a disposition of the fines. Police magistrates will be careful to remit to the Provincial Treasurer all fines under a Provincial Statute where the statute does not provide otherwise, whether or not a local police officer or a private party is the prosecutor. See the *Fines and Forfeitures Act*, R.S.O. 1914, Cap. 99, Sec. 5, which provides as follows:

"Every pecuniary fine and penalty imposed for a contravention of any Statute in force in Ontario and the proceeds of every forfeiture imposed and given to the Crown by any such Statute shall, where the disposal thereof is within the power of this Legislature, and except so far as other provision is made in respect thereto, be paid to the Treasurer of Ontario and shall form part of the Consolidated Revenue Fund. 7 Edw. VII, c. 26, s. 4."

Yours truly,

EGERTON LOVERING,

Inspector of Legal Offices.

SHERIFFS

By the Statutes of 1922, chapter 50, the Sheriff is the High Constable of a County in any year unless the County Council at its first meeting in the year appoints a High Constable. In 1923 there were nineteen Sheriffs who were High Constables under this Statute. Of this number, nine performed no duties,

and ten were more or less active. Several Sheriffs asked me what salary they were to receive and when they might expect it. On the 4th of March, 1924, I made a report to the Honourable the Attorney-General on this matter.

The Sheriffs' Act (Sec. 41) provides that

"A Sheriff whose net income does not exceed the sum of \$1,800 for the year may, on the report of the Inspector of Legal Offices, be paid out of the Consolidated Revenue Fund an amount sufficient to make his net income \$1,800."

This year sixteen Sheriffs are entitled to payments pursuant to this Statute, the aggregate sum payable being \$7,708.88.

Section 5 of the *Public Officers' Fees Act* provides that every Sheriff may retain his net income up to \$6,500, but shall pay to the Province 90 per cent. of the excess of that sum. During the year two Sheriffs came within this provision. The Sheriff of Toronto remitted \$9,143.28. and the Sheriff of the County of York remitted \$3,185.65. A complete financial statement respecting Sheriffs will be found in the schedules attached hereto.

LOCAL MASTERS

All Local Masters, except those whose fees had been commuted, used to be allowed to retain to their own use the fees of office, but since the coming into force of the *County Judges' Act, 1919*, only those who are not Senior Judges, and who are not referred to in subsections 1 and 2 of section 5 of that Act, may take fees. The others must collect the fees in law stamps and affix them to the papers. The Local Masters now have very little work. The total amount of fees collected by them for their services in 1923 was only \$6,320.81.

I have had requests from some Local Masters as to the proper fees to be taken by them. Accordingly I have affixed a schedule hereto, giving some instructions on procedure and showing the fees payable in the Master's offices. This schedule I have taken from the report of the Inspector of Legal Offices for 1922.

LOCAL REGISTRARS

Deputy Clerks of the Crown, Clerks of the County and District Court, and Registrars of the Surrogate Courts

These officers pay percentages to the Province on their net income, over and above \$2,500, according to the following scale:

(a)	On the excess over \$2,500	up to \$3,000,	10%
(b)	"	" 3,000	" 3,500, 20%
(c)	"	" 3,500	" 5,000, 50%
(d)	"	" 5,000	90%

The total paid by these officers in 1923 was \$61,961.85.

Twelve of the Local Registrars have been appointed Official Receivers under *The Bankruptcy Act*. They assumed their duties on the first of October, 1923. I show in the schedules to this report the list of the Official Receivers and the districts for which they act. On the 14th January, 1924, I made a report to the Honourable the Attorney-General on the matter of fees collected by the Official Receivers in respect of their duties under the *Bankruptcy Act*.

In some of the offices I found that Orders and Judgments when entered in the record books were not compared with the originals. I accordingly sent the following circular letter:

Osgoode Hall, Toronto,
24th October, 1923.

Dear Sir:—

I have ascertained that some of the Registrars are not particular to see that copies of Instruments recorded in their office are compared with the originals. Will each Registrar please see that this important duty is performed, and that some entry is made in the margin opposite the copy to signify same has been properly compared.

Yours truly,

EGERTON LOVERING,
Inspector of Legal Offices.

I quote the following important extract from the 1922 report of the Inspector of Legal Offices:

“Since November 1st, 1919, the date of the coming into force of *The County Judges' Act, 1919*, there are very few Counties in which the Surrogate Judge's fees are payable in cash. Moreover, the Judge's fees, and the fees payable to the Crown are, since the coming into force of the Statute 10-11 George V, Chap. 33, section 22, computed upon the value of the realty as well as the personality of the deceased. It has, therefore, become physically impossible for me to check all of the law stamps that are now affixed to papers. Accordingly, it is the duty of the Surrogate Registrar, now more than ever, to see that the stamps are affixed before presenting the papers to the Surrogate Judge, and it is the Judge's duty not to issue his Order until he has satisfied himself that the law stamps representing all Crown fees and Surrogate Judge's fees have been affixed and cancelled.

The affixing of law stamps is most important; for every paper and proceeding upon which a fee is payable, and which is not duly stamped, is absolutely void.”

On the 22nd day of February, 1924, I made a report to the Honourable the Attorney-General on this matter.

A complete financial statement respecting the above-mentioned officers will be found in the schedules attached hereto.

CROWN ATTORNEYS AND CLERKS OF THE PEACE

By *The Public Officers' Fees Act* it is provided that Crown Attorneys and Clerks of the Peace may retain for their own use the net income of their offices up to \$3,500, but they must remit to the Provincial Treasurer 50 per cent. of the excess over that sum. In 1923 there was payable to the Province pursuant to this provision, the sum of \$6,501.40.

The fees of the Crown Attorneys and Clerks of the Peace in the Counties of Essex, Grey, Parry Sound, Peel and Wentworth have been commuted, in pursuance of Section 16 of *The Crown Attorneys Act*. The Crown Attorney for the City of Toronto and County of York and his assistants are paid by salary pursuant to the Statute in that behalf. All the salaried and commuted officers send me their financial statements quarterly and also annually. They

remit to the Province, through my office, all fees taken by them in respect of their official duties.

The recent amendment to the Criminal Code (Dom. Stats. 1923, Chap. 41) made it necessary to advise Crown Attorneys and Clerks of the Peace regarding the forms to be used in connection with Criminal Appeals. On the request of the Deputy Attorney-General, I had a supply of proper forms printed. These are now ready to be sent to the Crown Attorneys along with a pamphlet of instructions to Police Magistrates, Sheriffs, Warden of the Penitentiary, Gaolers and Keepers of Prisons in Ontario for their use and to be placed at the disposal of prisoners desiring to appeal. Copies of the forms and pamphlet of instructions referred to will be found in the schedules attached to this report.

A financial statement respecting Crown Attorneys and Clerks of the Peace is shown in the schedules annexed hereto.

OSGOODE HALL

By Order-in-Council, dated 4th of May, 1923, twelve of the titles given to officers at Osgoode Hall by section 76 of *The Judicature Act*, and the Consolidated Rules, were dispensed with, namely: Registrar of the Appellate Division, Assistant Registrar of the Appellate Division, Registrar of the High Court Division, Clerk of the Crown and Pleas, Clerk of Records and Writs, Clerk in Chambers, Marshal and Clerk of Assize for the County of York, Clerk of the Process, Clerk of the Weekly Court, Clerk of the non-Jury Sittings, Assistant Clerk of the non-Jury Sittings, and Judgment Clerk. It was provided by the Order that the duties hitherto performed by the officers mentioned be performed by the Senior Registrar and his staff.

The different offices were divided into two branches

- (a) The Judicial Branch, to be known as The Master's Office, and
- (b) The Administrative Branch, to be known as The Registrar's Office.

The Judicial Branch was placed under the supervision and direction of the Master of the Supreme Court, and the Administrative Branch was placed under the supervision and direction of the Senior Registrar of the Supreme Court.

Several of the experienced officers having reached the superannuation age were superannuated and the work formerly done by them has had to be performed by others of less experience. However the officers who have been carrying on under the reorganization have acquitted themselves creditably. The work appears to be done in a manner generally satisfactory. The new arrangements are just getting under way and it is too soon yet to give a just estimate of the results. Within another year, I expect to be able to report more fully.

In the schedules attached hereto will be found a general statement of the work performed by the officers at Osgoode Hall.

GENERAL REMARKS

In concluding this brief report on the business of a wide and varied field of official activity, I would respectfully draw the attention of your Honour to the fact that the actual work of inspecting offices can occupy only part of my time. I shall endeavour to visit all the offices under my supervision once a year, but the perusal of the various returns, the checking of disbursements, the computing of percentages, and the necessary correspondence entailed,

demands my attention at the office a great deal of the time. There are approximately 400 officers under my supervision who send to me annually fully 3,000 different returns. The revenue to the Province from the different offices as reported in these returns, and which must be carefully checked, amounted in 1923 to \$536,051.33, made up as follows:

Police Magistrates, fines and fees	\$455,259 15
(S377,120.07 of this amount was paid directly to the Inspectors O.T.A. but reported to me.)	
Local Registrars, County Court Clerks and Surrogate Registrars	61,961 85
Sheriffs	12,328 93
Crown Attorneys and Clerks of the Peace	6,501 40
	<hr/>
Total	\$536,051 33

There were 101,270 cases reported by the Police Magistrates, each of which was checked to ascertain whether the proper disposal of the fines and fees had been made. This work alone involves very careful attention and occupies a large part of the time of myself and staff. I may say that at present I am conducting an investigation into the fees charged by Police Magistrates with a view to attaining a greater degree of uniformity than at present prevails in this respect.

I have by actual inspection or examination of returns come in touch with the work of every official under my supervision. Their work in most cases appears to be well done and their returns neatly and carefully made. They show a readiness to assist the Inspector in his rounds of inspection and are prompt in answering correspondence. In my opinion the Province is fortunate in having such a competent staff of judicial officers. The uniformity of practice and methods of bookkeeping in the different offices as well as the general efficiency is no doubt to a very large degree the result of the painstaking efforts of my several predecessors. To Mr. J. W. Mallon, K.C., my immediate predecessor, I wish to extend many thanks for the great assistance he has been to me in getting under way in my new work.

SCHEDULES

I attach to this report the following schedules:

- A. Financial Statement.
- B. Statement respecting Police Magistrates.
- C. Statement of Work Performed at Osgoode Hall.
- D. Statement of the Criminal Work in the Supreme Court of Ontario.
- E. Statement of the Criminal Work in the General Sessions of the Peace.
- F. Form of Police Magistrates' Monthly Return.
- G. Criminal Appeals, Forms and Instructions.
- H. List of Official Receivers under *The Bankruptcy Act*.
- I. Fees of Local Masters.
- J. High Court Cases.
- K. Appointments of Officers during 1923.

I have the honour to be, Sir,

Your obedient servant,

EGERTON LOVERING,

Toronto, March 31st, 1923.

Inspector of Legal Offices.

.....
Appellant.
(Signature of Appellant or of his solicitor or counsel.)

NOTE.—*This notice, together with the notice of appeal or notice of application for leave to appeal, should be sent to the Attorney-General, Crown Attorney and Registrar of the Court of Appeal.*

INSTRUCTIONS

The new remedy by way of appeal, provided by the 1923 Amendment to the Criminal Code, is available to every person who has been convicted of an indictable offence under the Code, whether tried with a jury at the Assizes or General Sessions of the Peace or upon consent by speedy trial before the County Court Judges' Criminal Court, or upon consent by summary trial before a Police Magistrate. (S. 1012 (c).)

GROUNDS OF APPEAL

The prisoner is entitled to an appeal without leave of any court upon any ground which involves a question of law only, such as the improper admission or exclusion of evidence, misdirection of the jury on a question of law, etc. (S. 1013 (1) (a).)

If the ground upon which the accused desires to appeal involves:

- (1) A question of fact alone, or
- (2) A question of mixed law and fact,

he must either obtain

- (a) leave of the Court of Appeal, or
 - (b) a certificate of the trial court that the case is a fit one to appeal.
- (S. 1013 (1) (b).)

If the prisoner wishes to appeal on any other ground which involves questions neither of law nor fact, leave must be obtained from the Court of Appeal (S. 1013 (1) (c)), but if he desires to appeal against sentence only, he may do so unless it is one fixed by law, but he must first obtain leave from a Judge of the Court of Appeal. (S. 1013 (2).)

NOTICE REQUIRED

The prisoner, if he desires to appeal upon any of the grounds available to him, must fill in four of the Forms of Notice of Appeal or Application for Leave to Appeal appended to the Rules (Rule 4), one of which should be sent by registered mail as directed in Rule 5, to the Crown Attorney of the City, County or District where the conviction was made, another to the Attorney-General in Toronto and a third to the Registrar of the Court of Appeal, and the fourth may be retained by the accused. (Rules 2 and 7.) The notice must be sent as required by Rule 5, within thirty days from the date of the sentence if the appeal is against sentence only, and in other cases from the date of the conviction. (S. 1018, Rules 2, 3 and 4.) The copy sent the registrar must be accompanied by proof of service of the notice of motion and filed with him within seven days after such service. (Rule 7.)

EXTENSION OF TIME

If the prisoner has not been sentenced to death, and the thirty days for giving notice have or have nearly expired without his having appealed against his conviction or applied for leave to appeal, he may still do so after having applied to the Court of Appeal or a Judge of that Court for an extension of time, if it is granted. (S. 1018 (2), Rule 14.) The notice of application for extension of time should specify the reasons for the application. A copy should be sent to the Attorney-General. (Rule 14.) The Crown Attorney and Registrar of the Court of Appeal should also receive copies.

APPLICATION FOR BAIL

Bail can no longer be granted by the trial Judge in these cases, nor by anyone except the Chief Justice, acting Chief Justice or some member of the Court of Appeal designated by him. (S. 1019 (1).) Until the notice of appeal or application for leave to appeal has been given by the prisoner in the manner and to the persons directed by Rules 2-5, he cannot be considered an appellant so as to be entitled to bail. When he has given the necessary notice he may then make application for bail through his counsel or solicitor in the usual manner. The notice of application for bail must set out the amount of bail the applicant is prepared to give and must be served upon the Attorney-General and the Crown Attorney, and a copy sent to the Registrar. (Rule 16.) See also Special Bail Rules 1-12.

PRESENCE AT HEARING

The prisoner is entitled, if in custody, to be present at the hearing of his appeal, except where a question of law alone is involved. But even in that case, and on proceedings preliminary or incidental to the appeal, he may be present if the Court of Appeal or a Judge of that Court gives him leave. (S. 1021A (3).) In all proceedings, therefore, the prisoner should state on his notices whether or not he desires to be present at the hearing of all applications, and if not all, which applications incidental to and including the appeal itself. If it is a case where leave is necessary, application for leave to be present may be made in the usual way by his counsel or solicitor.

LEGAL ASSISTANCE

The Court of Appeal or any Judge of that Court may at any time assign a solicitor and counsel or counsel only to the appellant, if the Court or Judge is satisfied that he should have legal aid and is without means to enable him to secure it. Such assistance may be given in respect of any appeal or proceeding preliminary or incidental to it, such as an application for extension of time, for leave to appeal or to be present at a hearing or for bail. (S. 1021A (1).) If no such application be made the Court or a Judge thereof may nevertheless exercise the power to assign the prisoner such legal assistance as may seem necessary. (S. 1021A (2).) The prisoner should, however, if he desires legal aid, state his wishes in that regard in whatever application he may make, whether for leave in any case, or for extension of time, and in his notice of appeal also giving his position in life, wages, salary and any other facts which he thinks are reasons for the assignation to him of legal assistance.

ARGUMENT IN WRITING

The appellant may make his argument in writing (S. 1018 (1)) instead of presenting it orally, so if he desires to present a written argument he should state his intention in his notice of appeal or notice of application for leave to appeal. A copy of the written argument must be left with the Registrar when the appeal is set down for hearing, or within seven days thereafter. (Rule 8.) A copy should also be sent to the Attorney-General.

SENTENCES OF DEATH OR WHIPPING

In cases where the conviction involves a sentence of death or whipping, the sentence must not be executed until

A. Forty days after the date of the sentence, so as to give the prisoner an opportunity to appeal. As no extension of the time will be granted in the case

of a death sentence (S. 1018 (2)) the thirty-day period in such a case plus seven days for filing with Registrar (Rule 7) and three days for his certificate, is absolute, but in a whipping case an extension of time for appeal may possibly be granted, so it will be advisable not to execute such sentence until forty days after it has been imposed plus ten days as above for receipt of Registrar's Certificate. (S. 1018 (4).) (S. 1018 (3) (a), Rule 7.)

B. Or if notice of appeal or of application for leave to appeal is given, such sentence must not be executed until after the appeal is finished, or if the application for leave is not granted, until it is finally refused. (S. 1018 (3) (b).)

EXECUTION OF SENTENCE OF DEATH OR WHIPPING shall be suspended on the production of a certificate.

(a) from the Registrar that notice of appeal or of application for leave to appeal has been properly given (Rule 7) or

(b) from the Minister of Justice that he has directed a new trial. (S. 1018 (4).)

In all other cases the sentence shall not be suspended by reason of any steps having been taken in regard to an appeal, unless the Court of Appeal or a Judge of that Court expressly so directs. (S. 1018 (4).)

POWERS OF COURT RE APPEAL

On the hearing of an APPEAL AGAINST A CONVICTION the Court

A. May allow the appeal because

(a) the verdict of the jury was

(1) unreasonable, or

(2) not supported by the evidence.

(b) The trial Court wrongly decided a question of law.

(c) There was a miscarriage of justice in any way. (S. 1014 (1).)

B. Shall dismiss the appeal

(a) In all other cases, or if

(b) No substantial wrong or miscarriage of justice actually resulted from the verdict of the jury or wrong decision of the trial Judge. (S. 1014 (1) (d), (2).)

C. If the appeal is allowed, may

(a) Quash the conviction and direct acquittal of the prisoner, or

(b) Direct a new trial,

and either case make any other order which is, in justice, required. (S. 1014 (3).)

On the hearing of an APPEAL AGAINST SENTENCE the Court may, within the limits of the punishment prescribed by law for the offence of which the prisoner has been convicted.

A. Refuse to alter the sentence;

B. Diminish or increase it;

C. Modify the punishment otherwise;

D. And shall dismiss the appeal in other cases. (S. 1015.)

See also Section 1016 as to other powers of Court.

G. J. SHERRY, Peterborough.
T. M. ASSELSTINE, Kingston.
HORACE PRATT, Ottawa.
T. J. BOURKE, North Bay.

SCHEDULE "I"

LOCAL MASTERS

All Local Masters, except those whose fees had been commuted, used to be allowed to retain to their own use the fees of office, but since the coming into force of the *County Judges' Act, 1919*, only those who are not Senior Judges, and who are not referred to in subsections 1 and 2 of section 5 of that Act, may take fees. The others must collect the fees in law stamps and affix them to the papers; and if this is not done the proceedings are void and there is a penalty for the omission.

Stamps must be collected as and when each proceeding in respect of which they are payable is taken, that is before each day's adjournment of the reference.

They should be attached to the particular paper in respect of which they are payable, for example: \$1.50 for "Settling," plus 20 cents per folio for the "Drafting," plus 10 cents for "Filing" are affixed to the Draft report when settled, and which is retained by the Master and filed. The \$2.00 for "Fee on Report," plus 10 cents per folio for "Engrossing," should be affixed to the Engrossed Report. It is delivered to the parties.

Stamps that are payable for oaths, time spent on the reference, etc., etc., and which are not in respect of any particular paper, may be attached to "a stamp voucher," or to the "Order for Reference".

Where appointments are given by warrant the stamp is affixed to the warrant, where given verbally, the stamp may be attached to the Order of Reference or to a stamp voucher.

The following fees are payable on proceedings in the Master's office:

APPOINTMENTS—	
Each.....	\$0.50
REFERENCES—	
For each hour or part of an hour attending. This will include applications for enlargements.....	1.50
Each oath.....	.20
(No charge for marking exhibits.)	
REPORTS—	
Drawing, per folio.....	.20
Engrossing, per folio.....	.10
Settling, per hour or part of an hour.....	1.50
Fee on (for first report only).....	2.00
ORDERS—	
Each.....	1.00
CERTIFICATES—	
Each.....	.50
If over three folios, for every additional folio.....	.20
FILINGS—	
On each.....	.10
SEARCHES—	
Where action less than two years old.....	.10
Where more than two years old.....	.30
COPIES—	
Making and certifying same per folio.....	.10
RETURN—	
Making up and forwarding papers.....	.50

Local Masters may take examinations in the Supreme Court as Special Examiners provided they were appointed prior to September 15th, 1913, on which date a commission was directed by the Supreme Court Judges to be prepared and issued whereby all Local Masters then holding office were appointed Special Examiners.

In the case of those Masters appointed since that date they may not act as Special Examiners until a commission in their favour has issued.

SCHEDULE J.—Table showing the number of actions tried or otherwise disposed of by the Judges of the High Court Division of the Supreme Court of Ontario, and the disposition thereof during the year ending Dec. 31st, 1923.

ANNUAL REPORT

OF THE

Inspector of Registry Offices

FOR THE

PROVINCE OF ONTARIO

1923

PRINTED BY ORDER OF
THE LEGISLATIVE ASSEMBLY OF ONTARIO

TORONTO

Printed and Published by Clarkson W. James, Printer to the King's Most Excellent Majesty

1 9 2 4

TO HIS HONOUR HENRY COCKSHUTT,

Lieutenant-Governor of the Province of Ontario.

MAY IT PLEASE YOUR HONOUR:

The undersigned begs respectfully to present to Your Honour the Annual Report of the Inspector of Registry Offices for the year 1923.

W. F. NICKLE,
Attorney-General.

Dated, March 17th, 1924.

REPORT
OF THE
INSPECTOR OF REGISTRY OFFICES
FOR THE YEAR 1923

TO THE HONOURABLE W. F. NICKLE, K.C.,
Attorney-General of the Province of Ontario.

SIR,—I have the honour to present my Annual Report as Inspector of Registry Offices for the year ending December 31st, 1923.

The sworn returns from most of the Registrars show a decrease in the number of instruments registered, a decrease in the incomes of the Registrars, and a decrease in the rebates to the Municipalities.

Details of the business of each office compiled from these returns are shown in the tabulated statements appended as Schedules "A" and "B" to this report. Schedule "C" gives the earnings, disbursements, and net income of each Registrar, and the amount of the rebate payable by each.

A perusal of Schedule C will show that thirty registrars had incomes less than \$2,500, and that sixteen of these had to pay rebates under section 101. As stated in a former report, it has long been my view that at least \$2,500 of a Registrar's income should be exempt from rebate. \$2,500 is the sum for Supreme, County and Surrogate Court officers, while in the case of the Crown Attorneys and clerks of the Peace the sum exempt is \$3,500.

Their duties were generally well performed, but in some instances it was necessary to direct attention to the requirements of the statutes. The arrears of copying and comparing at the close of the year are shown in the schedules of this report.

Entries in the Abstract and Alphabetical Indexes should be made on the day the instruments are received, or at the latest on the morning of the following day.

In the case of all instruments that are required to be registered in duplicate care must be taken to see that the documents tendered are in fact duplicates, the one of the other.

In connection with the registration of wills the Registrar must remember that the correctness of the sworn copy must be verified by himself or his Deputy, and where registered by the production of the original will, the affidavit of one of the witnesses or some other person must state that the testator is dead.

The marginal notes of registration in the Registry Books should be signed as soon as the instrument is copied. Registrars should not wait until the copies have been compared.

The Abstract and Alphabetical Index Books, the Fee Book and the Registry Books should be certified by the Registrar under section 25.

Where a Deputy or clerk, who has compared the instruments, is about to leave the service, a statutory declaration under section 52, subsection 3 should be obtained from him verifying so much of the copying as has been done by him.

Reservations of rights, grants of easements, where the same affect lands other than those in the instrument, should be abstracted against such lands.

Where an instrument purports to have been registered by several parties, and only some of them have executed it, or the execution by only some of them has been proved, special attention should be called in the Abstract Index to the fact that all have not executed, or that the execution by some has not been proved.

Where an instrument contains covenants on the part of the Grantee, and the Grantee has not executed the instrument, attention may properly be called to the fact in the Abstract Index.

Where a plan or sketch is attached to a deed to elucidate the description it should be copied, or inserted, in the Registry Book. In such cases it would prove a convenience were the Registrar furnished with an extra copy for insertion.

The use of book-typewriting machines for copying into the Registry Books is becoming more general. Where these are used fewer books are required, and the copies are much more easily read. There is, therefore, a saving in the expense for books as well as a saving in space in the offices; and time is also saved by the profession when searching titles.

Notwithstanding section 103, as enacted by section 18 of *The Registry Amendment Act, 1918*, and my circular letter, issued on instructions of the Attorney-General, and referred to in my report for the year 1918, some registrars have failed to submit for approval increases in salary and other payments to their Deputies and clerks. While approval in such cases is necessary it has not been the practice of the inspectors, nor have I been so instructed, to request increases in salary to be made unless some specific complaint has been received. Now, however, it is thought that Registrars should comply with the orders of the Minimum Wage Board, and by direction of the Hon. the Attorney-General copies of orders numbers 25 and 26 of that Board, which came into force on July 1st, 1923, have been sent to the Registrars of the Province. No. 25 applies to the City of Toronto only.

A Registrar is responsible for the proper conduct of his office, and he is liable for any loss sustained by the public through the errors or omissions of himself or the members of his staff. With regard to the responsibility of the Registrars my predecessor Mr. Guthrie in his report for the year 1912 had this to say:—

“In connection with the serious responsibilities incurred by Registrars I may refer to the fact that the total amount of the consideration in mortgages registered in the past year was over \$160,000,000. Among other instances showing the responsibilities and losses incurred by Registrars in connection with the work of their offices I refer to the following. A Registrar has had to pay, in one case, \$1,600 owing to an error made in indexing a mortgage through confusion of boundaries of the lands; and another of a loss of \$1,200 through an error made by the indexing clerk by entering a mortgage on the south half instead of the north half of the lot; and in another instance, which I hope is very unusual, the Registrar had to pay \$600 by the intentional omission from an abstract made by the Deputy Registrar, with whom the Registrar had a difference.”

The lighting in a few of the Registry Offices is inadequate. On dull days in some offices lamps are used and in one recently visited the only light was

that of a single candle. Apart from the inadequacy of such a system there is the danger and risk of damage from fire to the contents of the office.

I have had the usual number of references during the year. Annexed hereto will be found notes of such of my opinions, decisions and directions as seem to be of interest to the Registrars, the profession and others having business in the Registry offices.

Section 97 of *The Registry Act* requires that every Registrar shall keep posted up in some conspicuous place in his office a printed schedule of the fees and charges authorized by the Act. The most complete schedule of this kind, that I have seen, is one recently compiled by Mr. J. C. Crow, the Registrar at Welland, and which I am inserting in the appendix to this Report as Schedule "D". In doing so, it is of course understood that I have inserted it for the convenience of the Registrars, the profession and the public, and in order also that there may be uniformity. Its insertion in this report therefore must not be taken as an approval, since section 96 of *The Registry Act* provides for a reference in all cases of dispute as to fees, and my decisions are subject to an appeal to a Supreme Court judge.

With regard to the fees and emoluments of the Registrars, and the fee books required by section 99 to be kept by them, my duties have been confined solely to those of inspection, since by *The Registry Act* the duty of auditing the same is cast upon the municipalities, and as stated in a former report the same applies to the tax under the Mortgage and Land Transfer Tax Acts.

The Toronto Registry Office Act, 1923, whereby the registry divisions of East Toronto and West Toronto ceased to be separate registry divisions and were constituted one registry division, to be known as the registry division of Toronto, came into force and took effect from the first day of June, 1923, by proclamation pursuant to an Order-in-Council, dated May 18th, 1923. Under the regulations and the Orders-in-Council passed thereunder, the salaries of the Registrar and his staff, and the superannuation of a former registrar, are paid monthly out of the receipts of the office, and the surplus is transmitted monthly to the Honourable the Provincial Treasurer, in compliance with Section 148 of the *Land Titles Act*. As the surplus fees belong to the Municipality after payment of any deficit there may be in respect of the Land Titles Office, the provisions of *The Registry Act*, R.S.O. Chap. 124, with regard to audit are still applicable, and the duty of auditing therefore continues to be cast upon the City.

At the request of the Honourable the Provincial Treasurer I furnished a certified list of the Registrars of Deeds and of the amount of security which each should give under section 11 of *The Registry Act*, and the Orders-in-Council passed thereunder. Except in the cases mentioned in subsection 2 of that section, the amount was arrived at by computing the average of the gross fees for the previous three years. Additional Bonds required by reason of the Tax Acts were arranged for by the Treasury Department, as to which I have no responsibility and have not been consulted.

I have the honour to be, Sir,

Your obedient servant,

JAS. W. MALLON,
Inspector.

Osgoode Hall, Toronto, March 17th, 1924.

DECISIONS, OPINIONS AND DIRECTIONS GIVEN

By JAMES W. MALLON, B.A., LL.B., K.C.,
Inspector of Registry Offices

MECHANICS' LIEN, DISCHARGE OF—AFFIDAVIT OF VERIFICATION REQUIRED EVEN THOUGH THE DISCHARGE IS GIVEN BY A CORPORATION. AFFIDAVITS OF VERIFICATION AND OF EXECUTION DISTINGUISHED.

Question submitted for the opinion of the Inspector of Registry Offices by the Registrar for the City of K., and Wm. M., Solicitor of said City.

Mr. M. presents for registration a Discharge of Mechanics' Lien by "S. A. & Co. Limited" (a Corporation), of which the enclosed is a copy.

The Registrar contends that the provisions of Section 42 of *The Registry Act* are not applicable to this case, but that the Discharge should be executed in the presence of a subscribing witness and verified by an affidavit of such witness. See *The Mechanics' and Wage Earners' Lien Act, 1923*, Section 26 (1).

Mr. M. contends that, when such a Discharge is brought into the Registry Office, the Section of *The Registry Act* (Section 42) dealing with the case of a corporation executing a document does apply, and therefore that this Discharge is sufficient for registration purposes without an affidavit of the witness.

Letter in Reply:

In answer to the question submitted for my opinion by Mr. M. and yourself dated the 31st ult., I beg to say that the affidavit required by Section 26 of *The Mechanics' and Wage Earners' Lien Act, 1923*, is an "Affidavit of Verification" and not the Affidavit of Execution required by *The Registry Act*. This Affidavit of Verification was also required by the corresponding Sections of former Statutes, see R.S.O. 1924, Chap. 140, Section 27, R.S.O. 1897, Chap. 153, Section 27 and R.S.O. 1887, Chap. 126, Section 26.

In the first edition of his conveyancer published in the year 1893, the late Mr. A. H. O'Brien gave the following form of Affidavit:

"Affidavit verifying receipt in discharge of Lien"

County of "In the matter of *The Mechanics' Lien Act*"

To Wit:

I, of (state residence and occupation) make oath and say:—

(1) That I was personally present and did see (name of Lien holder giving receipt) duly sign the above (or annexed or within, as the case may be) written receipt.

(2) That I well know the said (name of Lien holder), and the said receipt was signed by him at

SWORN before me

at etc., etc.

It will be noted that the Affidavit of Execution required by *The Registry Act* includes all of the particulars required to be inserted in an Affidavit of Verification, and consequently the practice has grown up of accepting the Affidavit of Execution alone without the additional Affidavit of Verification.

In the case submitted by you for my opinion where the receipt is given by a Corporation and bears the signature of the President, Secretary, Manager or Attorney thereof and has affixed to it the Corporate Seal, while I agree with a former inspector that the Affidavit of Execution because of Section 42 of *The Registry Act* is not required (see report of the Inspector of Registry Offices for the year 1912, page 32), nevertheless it is my view that an affidavit verifying the receipt is necessary.

THE MECHANICS' AND WAGE EARNERS' LIEN ACT, 1923. AN AFFIDAVIT OF VERIFICATION MUST BE ATTACHED TO EACH OF THE DUPLICATES AND REGISTRAR MUST SEE THAT THE INSTRUMENTS ARE DUPLICATES. NO FEE FOR THE CERTIFICATE OF REGISTRATION.

From a Registrar:

The new *Mechanics' and Wage Earners' Lien Act, 1923* comes into force on the 1st September, 1923. *The Mechanics' Lien Act*, Chap. 140, R.S.O. 1924 and amendments thereto having been repealed.

Section 20 of the said Act states the manner in which the Registrar shall register the claim.

It also requires the Registrar to endorse on a duplicate a certificate of registration of the claim.

The fees payable for registration of the claim are 25 cents but there is, however, no mention in the said Act of any fee for the certificate required to be placed on the duplicate.

The affidavit required to be annexed to the claim verifying such claim makes no mention of a duplicate and the claimant does not in any manner state that the copy accompanying his claim is a true copy.

It therefore, before the registration of the claim can be certified to on the copy, behooves the Registrar to compare the copy with the claim as registered before he can give the certificate so that it seems to me, that some fee ought to be received for the granting of this certificate.

The claim as registered is to be treated as if it were a mortgage and the person entitled to the lien is deemed a purchaser *pro tanto* within the provisions of *The Registry Act*. Would not therefore a mechanics' lien to all intents come within the *Registry Act*? It seems to me it would.

Subsection (G) of Section 92 of *The Registry Act* prescribes a fee of 50 cents, which I think is a fee ample for the work involved and can be thus applied in this case.

The total fees would be 75 cents, 25 cents for registration and 50 cents for certificate on the copy.

These are my views regarding this matter but I would like you to make a ruling as to charges under the said section whether or no a Registrar is entitled to charge a fee for the certificate to be placed on the copy.

Letter in Reply:

Replying to your letter of the 30th ultimo received upon my return to the city I beg to say that it is my view that each of the duplicate Liens must have attached thereto the Affidavit of Verification required by the Act, that

it is the duty of the Registrar to see that they are duplicates and that there is no additional fee for the Certificate that is to be endorsed thereon which Certificate is the usual Certificate of Registration given in form 8 of *The Registry Act*.

BANKRUPTCY ACT—AN ASSIGNMENT WITHOUT LOCAL DESCRIPTION, REGISTERED SINCE THE AMENDING STATUTE 11-12 GEO. V., CHAP 17, IS SOUGHT TO BE ABSTRACTED AGAINST PARTICULAR LANDS—RE-REGISTRATION OF THE ASSIGNMENT NECESSARY—OBSERVATIONS.

From a Solicitor:

Will you kindly advise me if an Assignment in Bankruptcy made this year and which has been registered in the register for bankruptcy can be registered against the various lots under section 34 of *The Registry Act*? The amendment passed in 1921 to the *Bankruptcy Act* provides for such registration where the affidavit sets forth the lots. In this particular case the affidavit did not contain this information and now this is required. I understand that *prior to the amendment* you made a ruling to the Registrar that this could be done under section 34 of *The Registry Act*. Would this apply to the facts set forth or would it be necessary for us to re-register the assignment.

As it is important that we attend to this matter quickly I would very much appreciate an early reply.

Letter in Reply:

Ruling at page 8 of my report for the year 1920 was given prior to the passing of Section 11 of the Amending Statute 11-12 Geo. V., Chap. 17.

From your letter, I understand that an Authorized Assignment under *The Bankruptcy Act* was registered in the Registry Office, which Assignment did not contain a description of the lands, and that it is now desired to have the same registered against certain lands. It seems to me that re-registration will now be necessary, and that a true copy of the Assignment "certified as to such" by the trustee therein named giving a proper description of the lands may now be registered. See *Bankruptcy Act*, Section 11, Subsection 8 as amended by Section 11 of 11-12 Geo. V, Chap. 17.

From your letter it would appear that the Assignment was made and registered since the amending Statute, 11-12 Geo. V, Chap. 17, and you will of course understand that I am not giving an opinion as to the legal effect of the Assignment having been registered without the description of the lands included, nor of the legal effect of this re-registration, which seems to me to be the only course there can now be taken in order to have the same entered upon the abstract index of the lands in question.

BANKRUPTCY ACT—FEE FOR REGISTERING A RECEIVING ORDER OR AN ASSIGNMENT.

From a Deputy Register:

Thank you for your letter of 7th instant, I now have a copy of the new Act, section 11, subsection 11, provides for registration of receiving order or assignment "according to the ordinary procedure for registering or filing within

such office *documents which evidence lines or charges against real or immovable property* (and subject to payment of the *like fees*)”.

I am assuming that these instruments may be considered in the same way as a mortgage recorded in full and the minimum fee of \$2.00 is the correct one, although some solicitors intimate that they think the reference to a lien should mean the charge should be that required on registering a Mechanics' Lien. I shall be glad to know what you think on this point when you have given the matter consideration.

Letter in Reply:

Replying to your letter of the 11th instant, I see no reason for changing my view of the fees to be charged as set out in paragraph 5 at page 6 of my report for the year 1920, as follows:—

“5. For the fees to be charged for registration, subsection 11 of section 11, provides a like fee as is at present charged for Liens, or charges against real property. This means that the fee is to be the same as in the case of a mortgage registered in full, and is the fee provided by section 92, clauses (a) and (b) of *The Registry Act.*”

BANKRUPTCY ACT—INSPECTOR'S REPORTS.

To a newly appointed Registrar:

Replying to your letter of the 21st instant, I beg to refer you to my report for the year 1920, at pages five and six, of which you will find instructions with reference to *The Dominion Bankruptcy Act*. I am sending you a copy of this report under separate cover. I fancy there will be in your office a set of the reports of the Inspector of Registry Offices. The Registrars find them useful, but in reading them you must bear in mind the changes that have taken place from time to time in the Statutes and should read the decisions in the light of recent legislation.

BONDS OF REGISTRARS.

To a Registrar:

Replying to your letter of the 11th instant, I beg to say that the Registrars of Deeds are bonded by the Department of the Provincial Treasurer. The amount of Bonds are fixed by an Order-in-Council, having regard to the average income of the Office for the preceding three years. In the case of your office, the bond would be \$4,000, and the Treasurer may decide to increase this amount in order to cover the tax on transfers. However, as I have said, the matter is attended to by the Treasury Department and you will no doubt hear from the Department in due time.

REGISTRAR MUST NOT EXPRESS AN OPINION AS TO THE VALIDITY OF REGISTERED INSTRUMENTS, NOR AS TO THE VALIDITY OF TITLES.

To a Registrar:

I have your letter with the following printed form which you have been requested to fill in by a manufacturer:—

REGISTRAR COUNTY OF

Dear Sir,

Kindly let us know by return mail who is the registered owner of the property mentioned below, and the encumbrances, if any, with dates, by whom held, etc., registered against it. We do not require an abstract, merely a memo.

We enclose fees.

Name	P.O.	
Lot	Concession	Township
County	Occupation	

Yours truly,

In reply I beg to refer you to my report for the year 1922, page 8 and to the report of my predecessor, the late Mr. D. Guthrie, K.C., for the year 1897, page 20.

In giving information under section 19, subsection 1, the Registrar must not express an opinion as to the validity or effect of a registered instrument or as to the validity of the title. See section 16, subsection 1.

Farmers, Bankers, Implement Manufacturers and others engaged in business, may request the Registrar to search and to inform them regarding particulars as to registered instruments.

Registrar must not say verbally, by certificate or by abstract that the title of a lot is in a certain person, or that "it is encumbered or un-encumbered."

Registrar may give a memo of the mortgages that appear upon the abstract index, and may give particulars of them. He may say that "there is" or that "there is not" a mortgage registered against a lot. He may not say that there are only the following encumbrances or that a certain mortgage is discharged. He may say that an instrument which purports to be a discharge of the mortgage has been registered.

Registrar may not say that A has a good title, or that A's lot is free of encumbrances, or that A is the owner, or the last registered owner. He may give particulars of a deed which has been registered.

Similarly a Registrar may not say that A is dead. He may say that Letters Probate or Letters of Administration are registered and give extracts of same.

ASSIGNMENT OF MORTGAGE MAY BE REGISTERED EVEN IF THE MORTGAGE IS NEVER REGISTERED, SECTION 33. OBSERVATIONS AS TO THE REQUIREMENTS OF SECTION 65 OF THE REGISTRY ACT IN THE CASE OF CERTIFICATES OF DISCHARGE OF MORTGAGE.

From a Solicitor:

On or about November 23rd instant, I mailed a Mortgage, dated November 19th, 1920, and an assignment of same to the Registry Office at G. for registration. The mortgage had not been registered before and accordingly the assignment could not set out that it had been registered. The Registrar registered the

mortgage but returned the assignment not registered on the ground that it did not set out the particulars of the registration of the mortgage before the execution of the assignment.

I claim that he should have registered it immediately after the registration of the mortgage.

I wish your ruling on this. The Act, section 65 merely states that the mortgage must be registered before the registration of the discharge.

At the same time I sent the Registrar at G., a discharge of mortgage executed by the Administratrix of the mortgagee. At the time of the execution of the discharge the Letters of Administration were not registered. The discharge was executed in British Columbia about November 8th instant. On receipt of the discharge I procured an exemplification of the Letters of Administration which had been issued in 1888 and had them duly registered. On their return *I inserted in the discharge the particulars of the registration of the Letters of Administration and mailed the discharge to the Registrar at G. for registration.* He returned the discharge not registered on the ground that the Letters of Administration had not been registered before the execution of the discharge. I then endorsed on the discharge the particulars of the Letters of Administration and registration of same and sent the discharge back not registered for the same reason as before.

I claim that the power of the Administratrix to execute the discharge rests on the Letters of Administration, not on its registration. Section 65, subsection 1 of the Act that the Letters of Administration must be registered before the registration of the discharge. That was done in this case. Subsection 2 says that the certificate shall mention the date and date of registration, etc., and parts of the Letters of Administration but it does not mention that it must be inserted in the body of the certificate. *This was an impossibility in this case and I endorsed the particulars and signed it as solicitor for all parties.*

I wish your ruling on this as it is very important and I may not be able to get another discharge.

From the Registrar:

Yours of the 30th November received *re* refusal to register an assignment of mortgage and a discharge.

Re Assignment of Mortgage. Mr. W. made the corrections that I asked him to make, and returned the assignment to us, which we have duly registered and returned the duplicate to him on the 28th instant.

Re the Discharge of Mortgage. Mr. W. sent a discharge of mortgage signed by the administrator of an estate, also the Letters of Administration at the same time. We registered the Letters of Administration and returned the discharge to have him get a discharge with the Letters of Administration recited in the discharge, as required by section 65, subsection 2 of *The Registry Act*. The affidavit on the discharge that he sent was dated the 8th of November, 1923, and the Letters of Administration were registered on the 20th of November, 1923.

Letter in Reply:

I have carefully considered your letter of the 28th ultimo, as well as a letter of the Registrar dated 3rd instant.

(1) That the Registrar was mistaken in requiring the assignment of mortgage to refer to the mortgage as registered, see section 33.

The assignment may be registered even if the mortgage is never registered.

The difficulty will come however, when the discharge of the mortgage is presented for registration. Then the requirements of section 65 must be complied with. Section 65 requires that all instruments showing the right to discharge must be registered (no matter in what order) before the discharge of mortgage can be registered.

(2) The Registrar was right in returning the discharge, in order that the particulars might be inserted or endorsed. In this case there was the additional difficulty in the fact that the Letters of Administration had not been registered. This omission could not prevent the Administrator from receiving the money and executing the discharge, but before the discharge may be registered the facts as to the registration of the assignment and the Letters of Administration would have to be *stated*.

Your letter states that you inserted and also endorsed particulars as to the Letters of Administration, but it does not say anything about giving, in, or on, the discharge like particulars as to the assignment. Under section 65 both of these instruments must be set out in, or by endorsement on, the discharge, before it can be registered.

(3) The right to insert additional material in the discharge after its execution, *may* be open to question. It seems to me that there is an old decision of Blake V.C. that a solicitor's authority may be presumed to cover the power to make changes such as the one in question in this case, and I would suggest that you look up this case. But it is very doubtful if a Registrar can go into the question at all if the requirements of the Act have been complied with. He may, however, call attention to the matter in the Abstract Index book.

If the particulars of the assignment and the Letters of Administration and of their registration are stated and endorsed under subsection 2 of section 65 then all that the statute requires before registration has been complied with and the Registrar may, I think, receive and register accordingly.

In the Land Titles Office the practice is of necessity different, because the Master must be satisfied that the alterations are assented to by the person who executed the instrument.

I am sending a copy of this letter to the Registrar.

DISCHARGE OF MORTGAGE—A MORTGAGE GIVEN TO A LUNATIC IN THE CAPACITY OF EXECUTOR OR ADMINISTRATOR MAY NOT BE DISCHARGED BY HIS COMMITTEE—SUGGESTIONS.

From a Registrar:

Mr. N. H. H. has sent in for registration, two discharges of mortgages, copies of which I enclose (with one affidavit completed, the other being the same). Will you kindly give me your opinion as to whether these are in order for registration.

I presume under the opinion of Mr. Guthrie in 1913, page 20 and to which I note you refer on two occasions the Order of the Court would not have to be registered and referred to in the discharges.

In the above discharges there is an executorship and administration involved and as I can not find any opinion covering this would be much obliged to have your opinion as soon as possible.

I enclose a verified copy of the order, which was sent in for registration, and of which I am informing the parties can only be registered either by certificate or the original order, against the land if they so desire.

From the Solicitor:

The Registrar of deeds has forwarded me your letter to him of July 30th. I have considered the points raised in your letter, and the question of whether the committee of the lunatic can discharge the mortgage, which the lunatic held *in his position as trustee* where the mortgage has been made to *cestui que* trust, in this case made to the deceased.

The appointment of the committee makes him the representative of the lunatic, and he then assumes the various trust duties held by the lunatic in the same manner as the lunatic's executor would if the lunatic had died, and in my opinion has power to grant discharges as representative of the trustee, upon the declaration of lunacy and the appointment of committee being registered with the declaration showing local description.

It does not appear to me how such a discharge would not conform with *The Registry Act*.

I would be glad to hear from you on this point.

Letter in Reply:

I have carefully considered the matter about which you wrote me on the 17th of August and it is my view that the Order of Mr. Justice Orde, dated April 9th, 1920, does not cover estates held by W. M., the lunatic, in his capacity as Executor or Administrator, and that therefore the mortgages in question being held by him solely as Executor and Administrator respectively, his committee may not discharge by the statutory certificate of discharge of mortgage.

Section 27 of *The Lunacy Act* has special separate provisions for dealing with the estates held by a lunatic solely, jointly with others, or as personal representative of a deceased person.

Under *The Trustee Act* new personal representatives may be substituted by the Court on a proper application, in which case all difficulties will be removed, the Order being registered and properly recited in the certificate of discharge.

There is a further objection to the certificates of discharge referred to, in that they are drawn in the name of the committee. The committee is not "the Mortgagee, his executor, administrator, or assign". Where the committee of the Mortgagee discharges, the certificate is drawn in the name of the Mortgagee and is signed in the same name, *by the committee*.

It seems to me that under *The Trustee Act* you will have no difficulty in securing an Order that will enable you to discharge by certificate the mortgages in question.

DISCHARGE OF MORTGAGE—PLAN REGISTERED SUBSEQUENT TO THE MORTGAGE BUT PRIOR TO THE DISCHARGE: (a) DISCHARGE MUST BE ABSTRACTED AGAINST ALL OF THE LOTS ON THE PLAN AND (b) DECLARATION UNDER SECTION 85 NOT NECESSARY.

(a) From a Solicitor:

The city had a tax sale a year ago and last month when making the regular searches in the Registry Office to find out the registered owners of the properties, there were three lots where nothing was registered after the plan. I accordingly looked at the plan, found the owner's name, saw that the mortgagee had assented to the registration of the plan, and accordingly sent the notices to the owner and mortgagee. It now transpires that this mortgage had been discharged subsequent

to the registration of the plan but that since the original mortgage had covered the larger lot that had been subdivided by the plan, and the discharge was a discharge of the entire mortgage, that document (the discharge) was registered only on the original lot.

In searching another title the same question arose and that fact of the discharge having been given was not discovered until the owner told me that as a matter of fact the mortgage had been discharged and I then enquired again at the Registry Office.

The Registrar and his Deputy tell me that this is the usual practice and it may be quite correct under *The Registry Act*. I am not making any complaint about the Registry Office but merely suggesting that in case this practice is correct, it would seem to me advisable to have it changed. As the Registrar and his Deputy point out, this would mean that whenever a discharge came in they would have to see if the property covered by the mortgage purporting to be discharged had been subdivided by the plan and then put the discharge on each lot. Even if this were so, however, I still think it would be advisable to have it changed.

I would be obliged if I could hear from you after you have considered the matter and it may be that you have already had the point under advisement.

Letter in Reply:

Replying to your letter of the 3rd instant, I beg to say that the Registrar has evidently overlooked the amendment that was made in the year 1918, to subsection 11 of section 81 of *The Registry Act*. See my report for the year 1918, page 30.

(b) From a Solicitor:

I spoke to the Deputy Registrar about registering a discharge of mortgage after a plan had been registered. She would like to know if such a discharge should not have attached to it a declaration identifying the exact property in accordance with section 85 of the Act.

Letter in Reply:

I do not think that the discharge in the case mentioned should have attached to it the declaration required by section 85. When the discharge has been presented for registration the Registrar can obtain the description from the mortgage and then with the aid of the abstract index can locate any plans that may subdivide the same.

DISCHARGE OF MORTGAGE—BANK MERGER—REGISTRATIONS PRELIMINARY
TO THE REGISTRATION OF A DISCHARGE OF MORTGAGE.

From a Solicitor:

Please refer to the annual report of the Inspector of Registry Offices for 1922, page 18 and 19.

I have to register a discharge of mortgage given by a client to the Traders' Bank amalgamated with the Royal Bank.

In connection with your ruling surely you do not mean that the original Order-in-Council and the original agreement have to be registered. Do you mean a copy of these documents? The Bank cannot part with the originals.

Kindly advise as to what can be done under these circumstances.

Letter in Reply:

I am in receipt of your letter and I assume that you are anxious to discharge the mortgage not by the old Common Law Form of Release and Re-conveyance, but by a Statutory Certificate of Discharge.

I do not see that you will have any difficulty in registering the Order-in-Council under section 55 of *The Registry Act*. You may, however, have some difficulty in registering the agreement unless the agreement which I understand contains the necessary assignment of mortgage, is embodied in the Order-in-Council. In the case dealt with in my report for the year 1921 at page 21, the agreement containing the assignment was incorporated in the Order-in-Council. It seems to me that if the Order sets out the Agreement that the registration of the Order will be sufficient.

DISCHARGE OF MORTGAGE—AN ADMINISTRATOR OF A DECEASED EXECUTOR
MAY NOT DISCHARGE A MORTGAGE BY THE STATUTORY CERTIFICATE OF
DISCHARGE.

By registered post I am returning the certificate of discharge of mortgage received with your letter of the 26th ult.

I am inclined to agree with the rulings of the late Inspector that the Administrator of the deceased executor may not give the statutory certificate of discharge of mortgage. I would refer you particularly to the report of 1912, page 8. Would not the registration of a release and re-conveyance with proper recitals overcome all difficulties?

AFFIDAVIT OF EXECUTION ON A REGISTERED DEED FOUND NOT TO HAVE BEEN
SWORN—RE-REGISTRATION SUGGESTED.

From a Solicitor:

In searching title of lot number 258, plan 430, we found that a deed on the abstract which is dated the 22nd day of October, 1914, and was registered on the 17th day of December, 1914, in Book 14 for the City of W. as number 27272 whereby George M. H. conveyed lot 258 to Paul E. D. had the usual affidavit of execution thereon, but it was not sworn. In our requisition to the vendor, we asked for the registration of a properly completed deed from George M. H., and the solicitors for the vendor replied that the fact that the deed lacked an affidavit did not in any way affect its validity and that the affidavit was only required for the purpose of registration and that if the Registrar sees fit to register without the affidavit, the deed operates as a good conveyance.

We agree with the solicitors for the vendor that attestation is not necessary to constitute a deed valid and binding, the difficulty, in our opinion is this:—Section 35 of the *Registry Act* says that "An instrument . . . shall not be registered unless accompanied by an affidavit, form five, of a subscribing witness . . ." On looking up Snider's Annotation on section 35 at page 461 he says referring to the rules and regulations of Mr. Guthrie, Inspector of Registry Offices "Registration without the affidavit on the copy left with the Registrar being sworn is quite irregular", 1899, page 23. "Where an instrument is

registered by inadvertence, the affidavit being hopelessly bad by reason of omissions, the registration is a nullity", 1899, page 19.

According to the ruling of Mr. Guthrie in 1899, the registration of deed 27272 is a nullity and we would like you to give us your opinion of the effect of such registration. It has clearly been registered contrary to section 35 and we regard the registration a nullity.

We are not saying anything about the validity of the deed. Our stand is that it has never been registered and as we are entitled to insist on a registered title, the only way the vendor can complete his title is by recording a new deed from George M. H.

Thanking you for such information as you may be able to give us.

Letter in Reply:

I have carefully considered your letter and the rulings of my predecessor.

Could not your difficulty be overcome by the re-registration of the duplicate of the deed in question? If the affidavit of execution cannot now be secured, an order under section 41 of *The Registry Act* could probably be obtained.

WILL—LANDS INCORRECTLY DESCRIBED—APPLICATION TO COURT SUGGESTED.

From a Registrar:

Permit me to submit the following for your consideration. A solicitor of this city has a probate fit for registration, in which the land is clearly described as "my homestead being lot 25 in second concession, etc., etc." It is well known to the executor, the devisee, the solicitor and Registrar that the land is lot 25 in first concession and not in second concession as described. The executor made an affidavit to this effect to the Surrogate Court. The solicitor does not wish to knowingly register the probate against another man's land. There is no question as to title, but the land is subject to charges.

R.S.O., 1897, Chap. 136, section 70, subsection 2 furnished a remedy for somewhat similar conditions but that clause was apparently dropped in Stat. 1910. Under Chap. 27, 1918, section 7 the Registrar claims that he has no option as to entering the probate against the land described in the Will. The solicitor desires your opinion in the matter, hence this reference for your consideration.

Letter in Reply:

I have your letter of the 1st instant, in which you state that a probate of a will is sought to be registered in which the testator described his land as "my homestead being lot 25 in the second concession, etc.", and that it is well known to the executor, the devisee, the Solicitor and the Registrar that the testator's land is lot 25 in the first concession and is not in the second concession; and you ask if it may be registered upon the proper lot without abstracting it against the lot which the testator did not own.

In reply I may say that it does not seem to me that the Registrar has any option in the matter, that he must abstract the instrument against the lot as described in the probate.

If I may be allowed to offer a suggestion I would say that an application to the Court might result in such an order defining the testator's lands as would permit the probate with such order annexed to be registered against the proper lot.

WILL—NO FEE FOR CERTIFICATE AS TO VERIFICATION UNDER SECTION 56, SUBSECTION 2.

To a Registrar:

A letter of yours, dated February 15th was received here during my absence and I find that it has remained unanswered. It does not seem to me that a fee for certificate can be charged by the Registrar for verifying the sworn copy of Will under section 56, subsection 2 of *The Registry Act*. What that subsection requires is that the Registrar or his Deputy shall verify the correctness of the sworn copy. It merely casts this duty upon the Registrar without stating that he is to give a certificate. In the Toronto office the practice is to mention in the certificate of Registration endorsed upon the instrument that the copy has been verified.

The following form of certificate is given in the Toronto office:—

No.

G.R.

I certify that the within instrument is duly entered and registered in the Registry Office for the registry division of Toronto, in Book G.R. at o'clock m. of the day of A.D., 1923, and has been verified by me as a correct copy of the original instrument.

Registrar.

EXEMPLIFICATIONS OF PROBATE OR OF LETTERS OF ADMINISTRATION MAY BE REGISTERED BY THEIR DEPOSIT UNDER CLAUSE (b) OF SECTION 56 (1) AS AMENDED.

Letter to a Deputy Registrar:

You wrote to me when I was absent from the office in respect to the registration of two exemplifications, one of which is of Letters of Administration, and the other of Letters Probate. The contention of the solicitors is quite correct. Under the amendment that was made in the year 1918 to clause B of section 56, subsection 1, these may be registered by simply depositing the exemplifications, so that you need not insist upon the usual method of deposit, of a copy verified by affidavit.

THE DECLARATION, FORM 15, AND NOT THE PROBATE, IS RECORDED IN THE SEPARATE REGISTRY BOOK AND PARTICULARS THEREOF NOTED IN THE ABSTRACT AND ALPHABETICAL INDEX BOOKS, UNDER SECTION 34 SUBSECTIONS, 2, 3 AND 4.

To a Deputy Registrar:

Herewith by registered post I beg to return the original probate of the will of William W. and the statutory declaration of William James W. annexed to it. I observe that the original probate has already been recorded in the general register in your office, namely, on the 12th day of May, 1898.

I understand that William J. W. is the executor of Annie W. who was the executrix of the above named William W. and you desire my opinion as to whether William J. W. may make the declaration referred to in subsection 3 of section 34 of *The Registry Act*.

It is my view that he may as he is the executor of a party to the will, namely, the executrix, Annie W. The affidavit furnished, however, is not satisfactory as it should conform to Form 15 of *The Registry Act*. It is the declaration, Form 15, not the probate that will now be registered. See report of the Inspector of Registry Offices for the year 1914, page 22, where Mr. Guthrie stated that under subsections 3 and 4 is the statutory declaration, not the probate, that is recorded in the separate Registry Book and particulars of it noted in the Abstract and Alphabetical Index and other books. He also states that the Registrar may, if requested, give a certificate of registration on a duplicate of this statutory declaration if one is furnished, or he may endorse a certificate of registration on the probate, to the effect that a statutory declaration under subsection 3 of section 34, has been registered, giving particulars of registration in the usual way.

WHERE FIGURES ARE USED INSTEAD OF WORDS, TO DENOTE DATES, NUMBERS, AND QUANTITIES—CHARGES—SECTION 94.

To a Registrar:

Replying to your letter of the 14th instant, if you will look at section 94 of *The Registry Act* you will observe that where figures are used instead of words to denote dates, numbers and quantities, the same shall be charged for as if each number, though composed of several figures, were but one word.

You have asked me to say how many words there are in the two lines submitted in your letter, namely:—"the fifth and sixth lines thereof". According to the practice there will be in line five eighteen words and in line six fourteen words.

EASEMENT—SUFFICIENCY OF DESCRIPTION—SECTION 34 COMPLIED WITH IF PROPER DESCRIPTION GIVEN OF THE SERVIENT TENEMENT AND OF THE NATURE OF THE EASEMENT TO WHICH IT IS MADE SUBJECT.

From a Solicitor:

One of the dams of the town's electric light and power plant, known as the Beveridge Creek Dam, floods back water onto lots 13 and 14 in the 8th concession of the Township of Foley, in this district, the property of a Mr. John C. The Public Utilities Commission has entered into an agreement with Mr. C. for the sale and conveyance to the town of a perpetual easement for the flooding on these lots referred to. Following is a draft of the description which we propose for the conveyance to the town and its successors and assigns:—

The right at all times here after to flood and hold back water on lots numbers 13 and 14 in the 8th concession of the Township of Foley, in the district of Parry Sound, as and to the extent that the same is or can now be flooded and held back by that certain dam of the Grantee known as the Beveridge Creek Dam.

It seems to us that this description furnishes all the requisites for your approval, as did that of the second grant approved of by you for registration as at page 14 of your annual report for 1918. We shall be obliged very much

if you will kindly advise us, at your earliest convenience, as to whether or not you agree.

Letter in Reply:

Replying to your letter of the 24th ultimo, received on my return to the city, I beg to say that your suggested description seems to me to comply with section 34 of *The Registry Act* in that it describes the servient tenement and also the nature of the easement to which it is to be subject. See reports of the Inspector of Registry Offices for the year 1915, page 17, and 1918, page 14.

STRAIGHTENING A STREET—NECESSARY REGISTRATIONS.

From a Solicitor:

We are taking the liberty of writing you with regard to a problem, which has confronted us in connection with the straightening out of Salter Street in the town. Please find enclosed herewith blue print for your perusal. The street had not been laid out properly in the beginning and a number of the owners actually have their houses on the highway.

The light portion shown on the plan on either side of the street can be added to the different lots and still leave the street the full sixty-six feet in width.

As far as we understand it will be necessary for the town to deed to each individual owner a deed of the land in front of his lot.

Is it possible to have a by-law authorizing the transfer of these individual pieces registered in the Registry Office, and be sufficient without the necessity of considerable expenses of separate deeds.

If there is any cheaper method kindly advise us. Please return us the blue print when replying.

Letter in Reply:

Replying to your letter, I would say that it seems to me, if such is the intention, that the town should pass a by-law narrowing the street to sixty-six feet as indicated on the blue print, in other words closing to the public the portions shown white on either side, and providing in the by-law for conveyances to the owners.

The by-law would have to be registered and also deeds from the municipality to the individual owners.

LIS PENDENS—FEE FOR REGISTERING A CERTIFICATE OF LIS PENDENS.

To a Solicitor:

Replying to your letter of the 18th instant, I beg to refer you to section 92 clause (p) as amended, of *The Registry Act*, from which you will observe that the lowest fee is \$1.00 and the largest \$5.00 for the registration of a certificate of Lis Pendens. Will you please let me have the name of the Registrar who only charges 50 cents for these certificates in order that I may instruct him in the matter.

POWER OF ATTORNEY—SPECIAL AND FOR A SPECIFIC PURPOSE—HOW REGISTERED.

To a Deputy Registrar:

I am returning herewith the copy of a Power of Attorney received with your letter.

The enclosed appears to be a specific Power of Attorney for a certain purpose as therein specified. It should not therefore have been placed in the General Register but should be registered against the lands therein mentioned. I would suggest that you delete by red ink entries, as prescribed by the Act, the entries you have made in the register. See section 23, subsection 8.

 FEES—FOR REGISTERING AN INSTRUMENT COVERING TWELVE MUNICIPALITIES NECESSITATING ENTRIES AGAINST 618 LOTS.

From a Registrar:

I submit for your approval a copy of an account that I am rendering to Messrs. H. & S., solicitors.

The only precedent that I can find similar to this instrument is in the report for the year 1901, page 5.

The instrument which I have had to register is a release and re-conveyance of a mortgage bond which was registered in this office in the year 1905 in said named municipalities and entered on the number of lots stated in the account. From present indications we will have in the near future another mortgage bond to register if, should such be the case it would entail the searching and entering the same on thousands of lots not hundreds.

Do you not think that in justice to Registrar's that section 92 should be amended and a reasonable fee allowed.

Letter in Reply:

I find that I have not replied to your letter of the 9th of February with which you enclosed copy of an account for fees for the registration of a release and re-conveyance of a mortgage bond on file in your office which covers a number of municipalities and is entered on quite a number of lots in each, 618 lots in all. As there is an appeal from my decision on questions of fees I would prefer that you charge the solicitors what you think is proper having regard to the tariffs, and then if there is a dispute about the matter it may be referred to me. Looking casually over the account it would seem to me that if the instrument contains not more than eight folios and has been registered in twelve townships, the fees having regard to the aggregate of copying, would be \$11.25 to which should be added the additional fees for each lot over four.

However, as I have said, if there is a dispute about the matter and it is referred to me I will then decide the point. See my report for 1916, page 18.

 FEES—FOR SEARCH BY SHERIFF UNDER SECTION 171 OF THE ASSESSMENT ACT, OBSERVATIONS.

From a Sheriff:

Re Lot 30, Con. 11, Foley

The above township lot is registered in the Registry Office at P. S. and subdivided under registered Plan No. 150. The lot is on the outskirts of the

town and is practically worthless. The subdivision was made by one L. and the subdivided lots placed on the market for sale under the name of The P. S. Land Syndicate. L., in order to sell the lots, so misrepresented the property that he was convicted and sent to prison. Subsequently the lots were assessed by the municipality of Foley to the respective owners, and were soon liable for sale for arrears of taxes and on November 28th, 1922, they were offered for sale by me at my tax sale. I divided and sold these lots in groups, something as follows:—

Group 1—Consisting of 375 lots and which still stand in the name of The P. S. Land Syndicate on the Registry Office books, (that is, none of these lots were ever sold by the Syndicate and no transfer has ever been recorded in connection with any of them)—sold for \$20.93.

Group 2—Consisting of 396 lots and which still stand in the name of The P. S. Land Syndicate on the Registry Office books, (that is, none of these lots were ever sold by the Syndicate and no transfer has ever been recorded in connection with any of them)—sold for \$20.92.

Group 3—Consisting of 8 lots registered in the name of Edmond A., sold for \$11.67.

Group 4—Consisting of 12 lots registered in the name of Belany V., sold for \$16.30.

Group 5—Consisting of 4 lots registered in the name of Belany V., sold for \$7.12.

Group 6—Consisting of 6 lots registered in the name of Antoine L., sold for \$9.37.

Group 7—Consisting of 4 lots registered in the name of Methias L., sold for \$7.12.

Group 8—Consisting of 6 lots registered in the name of Selveste K., sold for \$9.37.

Group 9—Consisting of 4 lots registered in the name of Emile B., sold for \$7.12.

Group 10—Consisting of 2 lots registered in the name of W. V. D., sold for \$4.84.

Group 11—Consisting of 2 lots registered in the name of Osias C., sold for \$4.84.

Group 12—Consisting of 2 lots registered in the name of John R. A., sold for \$4.84.

Group 13—Consisting of 2 lots registered in the name of F. D., sold for \$4.84.

Group 14—Consisting of 2 lots registered in the name of Lionel S., sold for \$4.84.

The total of the above subdivided lots sold was 825.

As directed by section 171, of *The Assessment Act*, R.S.O. 1914, I prepared a list of the lands sold at the sale of November, 1922, and which had not in the meantime been redeemed, and *presented same to the Registrar to search the said lands as to ownership and as to incumbrances.*

The Registrar, thinks he should charge me the sum of 25 cents for each subdivided lot just the same as he would for searching a township lot, in other words his bill for searching lot 30, con. 11, Foley, subdivided, will be \$206.25, and again if I were to pursue this same course and treat each subdivided lot individually I could charge \$1.00 under subsection 2 of section 171, for the notices that would necessarily be sent out. The result would be that the parties who bought these lands at the tax sale could not possibly afford to pay any-

thing in the neighbourhood of the amount of the fees which would be incurred in the Registry Office and in this office. Personally, I intended to send one notice to the P. S. Land Syndicate which would cover their whole 771 lots, and I anticipated that the charge made by the Registrar would be based on the way the lots were grouped in presenting the list to him, that is, that he would charge 25 cents per group, and this would give him a fee of \$3.50 for searching this one township lot.

I have discussed this matter with the Registrar and he feels that he has no alternative but to charge the whole fee of 25 cents for each subdivided lot, and he understands that I am taking the matter up with you.

I feel that the parties who purchased at the tax sale will be willing to pay the fee of \$3.50 for these searches but if any larger fee than this is demanded the whole procedure of the issuing of the deeds in these cases will be blocked.

From the Registrar:

The Sheriff has asked me to write you concerning some searches which he had made in this office. There was nothing said about fees until after the searches were finished. I did not hear about the "Group System" until I received his request to write you. *These lots each have a separate abstract, therefore they cannot be searched in groups.* If he had searched lots 1 to 35, concession 9 of the township of McD., I would have thought he searched 35 lots and would have charged accordingly. I have never heard of the "group system" before. There were many other lots searched at the same time and in some cases they were grouped in his memo as or like 4-5-6 and 7 Main St., D. I do not see why this should not be styled a group as well as the ones he objects to.

I do not think that I can say anything that will help you further except that these groups were arranged by the Sheriff and there was no reason why he should not have made the lots into a greater or smaller number of groups. That seems to be making a law for himself.

Letter in Reply:

Since my letter to you of the 30th ultimo, I have heard from the Registrar.

Section 171 of *The Assessment Act* provides for a search to be made in the Registry Office by the Sheriff or some one on his behalf. The fee for such search is twenty-five cents per lot. It is not the Registrar who makes the search, it is the Sheriff or some one other than the Registrar upon behalf of the Sheriff, unless of course, the Sheriff requires an abstract to be made by the Registrar in which case the Registrar would have to make the search.

FEE—FOR REGISTERING A CERTIFICATE OF A MUNICIPAL CLERK UNDER SECTION 25
SUBSECTION 3 OF THE PUBLIC HEALTH ACT—CLAUSE "p" SECTION 92 OF
THE REGISTRY ACT.

From a Registrar:

My idea of the proper charge for registering the certificate under 9 George 5, Chap. 62, under *The Public Health Act Amendment* is \$2.00 and for the releasing certificate the same fee. Have you had any inquiries as to this?

The city seem to think the fee might be less, they happen to have a large number of these certificates to record, but as I presume they are to be written

in full and there is an affidavit and the necessity for a certificate on the duplicate, it may be considered as an ordinary instrument as to the proper fee.

Letter in Reply:

Replying to your letter of the 21st instant, it seems to me that the fee for registering a certificate under 9 George V, Chap. 62 is covered by the words "Every other certificate", in clause "p" of section 92, *Registry Act*.

-
- (1) FEES—FOR NECESSARY REFERENCES UNDER CLAUSE "C" OF SECTION 92.
 (2) UNREGISTERED PLAN—WHEN AN INSTRUMENT MAY REFER TO AN UNREGISTERED PLAN.

To a Solicitor:

I have carefully considered the matter referred to in your letter of the 12th instant, and the view of the Registrar is the correct one, that he may charge from 25 cents to \$3.00 per lot for the necessary references under clause C. of section 92.

With reference to the last paragraphs of your letter I may say that section 84 of *The Registry Act* prohibits the registration of an instrument that refers to an unregistered plan and he may refuse registration unless you can refer him to the number of an instrument previously registered in respect of the same land which refers to the unregistered plan in question.

PLAN—APPARENT OWNERS—REGISTRATION DOES NOT SETTLE THE TITLE.

I. From a Solicitor:

My clients are endeavouring to subdivide their lands, and have offered to the Registry Office at B., a plan of same for registration. The Registrar does not feel inclined to permit registration of the plan. I had a consultation with him on the 23rd instant, and all of his objections were removed except one, and in that we decided to refer the matter to you. I expect you will hear from them if you have not already done so. The Registrar wished to consult the surveyor before referring it to you, and he probably has done so by this time.

Attached to this letter I have picked out the documents in the abstract leading up to the dispute, also a plan of the different parcels which are on the paper attached. I have done this in order to save you the trouble of looking through the whole abstract as it is a very long one.

The trouble arises in registered No. 6808 with the words "*excepting one acre sold heretofore by one Radford*". You will notice by the paper attached that these parcels were sold and I have numbered them "1", "2", "3" and "4". Also notice that by numbers 6113 and 6119, I. H. Radford becomes the owner of the four parcels—eighty-seven and one-half acres in all. By number 6194 Radford conveys all four parcels to Maud Fox, so that he has left after the registration of 6194 no part of the west eighty-seven and one-half acres in himself or which he could convey to anyone. Now 6808 conveys eighty-six and one-half acres as described in numbers 6113 and 6119 "*except one acre sold by Radford.*" Now Radford could not except one acre as he had conveyed all. I therefore submit that the whole lands in 6113 and 6119 are conveyed by number 7808

to Harry Wardman. This is the point in dispute between the Registrar and myself.

If it were a matter in which I could get a conveyance from Radford or Ackerman, I would readily get it, but Radford is dead and, Ackerman, we cannot find anything about him, but it does appear to me that 6808 conveys the whole lands mentioned in 6113 and 6119. The mention of eight-six and one-half acres I submit would not be material, and the excepting of one acre should not prevail, as Radford had nothing to sell, and having nothing to sell or convey the whole lands would be covered by 6808.

I will enclose you my abstract. It is not up to date, but it shows sufficient for the point in dispute and I would ask you to return same to me when you get through. I enclose you stamps for returning the abstract.

Letter in Reply to the Registrar:

I have carefully considered the correspondence with reference to the plan in question, and have gone over the abstracts of Title submitted.

What section 81, subsection 16 of *The Registry Act* requires is that the Registrar must satisfy himself from the books of his office that the persons who sign the plan are apparently the owners of the land sub-divided.

On accepting the plan for registration the Registrar does not settle the question of title and as stated by the late Mr. Guthrie, registration of a plan does not prove, admit or establish that the parties registering it have a good title, that by registering the plan the Registrar merely treats them as the apparent owners, though they may not in fact have a good title.

Your present difficulty would seem to arise from the words "excepting one acre sold heretofore by one Radford" in instrument 6808. From the abstract it would seem that Radford became the owner of the 87½ acres by instruments Nos. 6113 and 6119, and that he afterwards, by 6194, conveyed the same 87½ acres to Maud Fox leaving no part of the 87½ acres in himself or which he could convey to anyone. Maud Fox subsequently conveyed the whole 87½ acres to Anna Radford and she in turn conveyed the same to Ford Ackerman.

From the Registry books then Radford apparently had no right to make a subsequent conveyance of an acre, and it does not appear on the Registry books that anyone is the registered owner of an excepted acre as mentioned in instrument No. 6808.

Upon the whole therefore, although the matter is one not altogether free from doubt, it appears to be a case in which you may not refuse registration of the plan. Those who have signed it are from your books the apparent owners.

I would suggest, however, that a reference be made in the remarks column of the Abstract Index to Instrument No. 6808 and the exception contained therein. It will be for the parties who have to make searches to decided as to title.

II. To a Registrar:

I have gone through the papers carefully that you sent me in this matter and now return them herewith by registered mail.

As I understand it: by Deed No. 6337, from Hamilton to Kehoe (while the lands are not described according to the last registered plan as required by section 81, subsection 11 of *The Registry Act*) it is intended to convey lots "I," "J," "K" and "L" as shown on said plan, excepting thereout certain lands conveyed to Bassingthwaite being those described in No. 4417.

The lands conveyed by this last mentioned instrument, namely, 4417, although very indefinitely described, are, I believe, supposed to form part of lot "J" and all of lot "K" as shown on the aforesaid plan, but the deed is not registered against lot "K." The deed to Kehoe, namely, No. 6337, apparently has been registered against lot "K," showing the title of this lot in Kehoe. The new survey and surveyor's certificate show that in any case it does not affect "K."

The solicitors now want to register the plan in which "K" is included and you think that as Mrs. Kehoe is the last registered owner, so far as your books show, she or her legal representatives should join in the plan, or the title should be vested in the persons professing to be the owners and who seek to register the plan, a course which the solicitors contend is impossible as the heirs of Mrs. Kehoe are many, reside in different places and some of them are *sui juris*.

I appreciate the difficulties facing both the registrar and the solicitors, which difficulties have arisen from the registration of instruments with insufficient descriptions; for instance, the description in the deed of Bassingthwaite is so indefinite that a registrar might reasonably profess his inability to determine the exact location of the land being conveyed or arrive at a wrong conclusion of the lands affected thereby.

The solicitors appear to have in their possession a Quit Claim Deed from the husband of the late Mrs. Kehoe. If this quit claim deed be now registered could it not be said that the grantees therein, the persons who now desire to register the plan, "appear by the books of the Registry Office to be the owners of the lands," namely, lot "K"?

The new survey and surveyor's certificate show that in any case, instrument No. 6337 does not affect lot "K" as the lands in No. 4417, which include lot "K," are excepted thereout, and I would suggest that the certificate and the coloured sketch attached to it be deposited under the *Custody of Documents Act*, R.S.O. Chap. 125, and that the red ink entries thereof be made in the Abstract Index, required by the statute 6 Geo. V, Chap. 24, section 21. This, with the registration of the Quit Claim would, I think, under the circumstances, be sufficient to satisfy the registrar that the persons filing the new plan "appear in the registry books to be the owners of the land" as provided by section 81, subsection 16.

I do not care to authorize any change to be made in regard to the registrations respecting lot "K," especially as in this particular case I do not think the descriptions in the instruments are as clearly set out as might be desirable. Of course, it is your duty in respect to the entries of instrument No. 6337, to state that the land in No. 4417 is excepted thereout, leaving those who investigate the title to decide whether or not lot "K" is, as a fact, excepted.

Under all the circumstances therefore, and although the matter is not free from doubt, I think that after the said Quit Claim has been registered and the certificate and coloured sketch deposited, you may not refuse registration of the plan. Registration of the plan will not, of course, confer any title.

PLAN—OWNER DESIRES CANCELLATION. AN AMENDED PLAN UNDER SECTION 86, NOT CANCELLATION, IS THE PROCEDURE.

From a Registrar:

I have a request from a solicitor of this town, as to what steps can be taken to cancel a plan of a subdivision of a block of land within the town known as

Prescott Park. This subdivision consists of 3,600 lots and the plan was registered April 13, 1913, and since that date only one lot has been sold. The entire block is farm land.

If the sale of the one lot is to be considered the owner of the remainder of the lots is prepared to buy this one lot, and all the land will be in the name of one man.

Mr. H— states his client wishes to mortgage this property, and is not willing to pay the large registration fee, are his reasons for wanting to cancel the plan.

Any information you can give me will be appreciated.

Letter in Reply:

You wrote to me recently with reference to the procedure to be adopted where the owner of farm land that has been divided into some 3,600 lots and the plan registered, desires to have the plan cancelled. In the case you mention, I understand that the plan was registered in April of 1913 and that only one of the 3,600 lots has been sold, that the owner of the others intends to purchase this one.

It would seem that the practice adopted in the County of York in similar cases has been to proceed before the County Judge under section 86. A new plan as amended would have to be prepared and registered and have endorsed thereon the Judge's order. The streets, of course, would have to be closed after giving such notice to the municipality as the Judge might require. The registered plan is not cancelled. What is done is the registration of a new amended plan.

INSTRUMENTS THAT FROM FREQUENT HANDLING HAVE BECOME "TORN AND FALLING TO PIECES"—CERTIFIED COPIES DIRECTED.

To a Registrar:

In one of the registry offices I find an instrument which, owing to frequent handling, has become torn and is falling to pieces. The Registrar states that when Mr. Guthrie's attention was called to this some years ago he stated that he had not power under the Act to order copies, nor to order payment for recopying same. My recollection is that on the occasion of one of my visits to your office you showed me a number of original documents, notarial copies of which Mr. Guthrie ordered to be made, for similar reasons, namely, that they were becoming dilapidated through frequent use.

Will you please give me a report as to this as I am very anxious that these old documents should be preserved.

Letter in Reply:

I have your letter of 9th instant and while I have not available the order of the late Inspector, it is a fact that he directed the re-copying of a number of original instruments for the purpose of preservation, and I was paid for the service rendered. Some of this work was done in 1914. It was not a very great matter, but Mr. Guthrie agreed that in view of the exceptional handling of originals here, because of the local practice of searching them, it was necessary that some effort be made to preserve those which from much usage were likely to become undecipherable.

I must have destroyed the letter of authority in my last house-cleaning.

Letter to a Registrar:

I have carefully considered the question of re-copying Instrument No. 20547 and I have concluded to request you to make a certified copy of the same and to carefully preserve the original.

There seems to be nothing in *The Registry Act* that will give me authority to ask the municipality to pay you for this work but I feel quite sure that if you call upon the proper municipal authorities, say the clerk and solicitor, and show them the absolute necessity for it, I have not any doubt that they will recommended payment to you for the work.

CAUTION—REGISTRATION OF A CAUTION UNDER THE DEVOLUTION OF ESTATES ACT, IN WHICH NO LANDS ARE DESCRIBED.

From a Solicitor:

Re Estate of Edwin E. V., deceased.

The above deceased died several years ago owner of several parcels of real estate in the town and in two or three of the surrounding townships. The administratrix of his estate finds it necessary to register a caution under section 15 of *The Devolution of Estates Act*. For this purpose we have tendered to the Registrar here for registration a caution in which the administratrix certifies that it may be necessary for her under her powers and in fulfilment of her duties as administratrix to sell the real estate property of her deceased husband, or part thereof, and with it the necessary affidavit of execution, and the affidavit of the said administratrix confirming the said necessity set out in the caution, and with the other particulars called for by subsection 1(b) of the said section 15, also pursuant to subsection 1(d) the order of the District Court Judge allowing her to register the said caution.

The Registrar refuses to accept this caution for registration without a Statutory Declaration setting forth a description of the lands. Now in the first place in order to furnish what the Registrar asks for we would have to set out in a declaration the descriptions of a number of different parcels in different localities, a somewhat awkward thing to do under the circumstances; and in this connection you will also observe that the caution does not certify the necessity of selling all of the parcels but, in accordance with Form No. 1 of the Act, "the real property of the said Edwin E— V— deceased, or part thereof." She cannot say first what part.

The Registrar bases his refusal to accept the caution for registering, as we required, in the General Register, under section 23, subsection 8 of *The Registry Act*. We have pointed out to him what we now repeat, that that subsection does not assume to embody *all* the classes of documents that may be registered in the General Registrar, but simply specifies that certain documents such as Wills, Probates, Letters of Administration, etc., must be registered in that Register. If it were intended, which we submit it is not, and which the wording does not warrant, that *only* the classes of documents set out in subsection 8 can be registered in the General Register, then, for one thing, there would have been no necessity of enacting subsection 6.

To give subsection 8 of section 23 of *The Registry Act* the meaning that the Registrar would ascribe to it would make it quite inconsistent with section 13

and 15 of *The Devolution of Estates Act*, and would give to the said subsection of *The Registry Act* the character of repealing the provisions of these sections of *The Devolution of Estates Act* which provide that a caution *Form 1* under the last mentioned Act may be registered on compliance with the respective provisions and requirements set out in those sections.

As you well know, the authorities and the practice require that wherever possible, the Statutes must be read so as to make them the one consistent with the other, and this is very easily done in the present case by recognizing what we submit is quite patent on the face of it, that subsection 8 of section 23 of *The Registry Act* merely sets forth that the certain documents that are named in the subsection must be registered in the General Register, and not that they and no others can be registered therein.

For your ready reference to a few of the authorities along this line, I would recall to you, *Hardcastle* 4th edition, page 216 citing James L. J. in *Ebbs vs. Boulnois* (1875) L.R. 10 ch. 479-484. The law is stated that "if two inconsistent enactments, *it must be seen* if one cannot be read as a qualification of the other."

Also see *Canada Sugar Refining Company vs. The Queen*, (1898), A.C. 735, 741, referring to apparent inconsistencies in a Statute, where it says that *if possible* they must be read so as to make a consistent enactment of the whole Statute.

See also *Kutner vs. Phillips*, (1891), Q.B. 267, where it is said that the sections are not to be taken as the one repealing the other *if any other construction possible*.

In *Erikkila vs. McGovern*, 27 O.L.R. 498 (see page 506) Lennox, J. in dealing with the apparent inconsistency of section 172 with section 165 (now respectively 177 and 171) of *The Assessment Act*, very reasonably avoids the apparent difficulty by reading the qualified section 172 (177) as if it began with the words "subject to the provisions of section 165 (171)." Similarly in this case, even if subsection 8 of section 23 of *The Registry Act* were to be read as setting forth the only documents that could be registered in the General Register, instead of, as it plainly purports we submit, merely that the documents named therein must be registered in that Register, following the cases cited and the opinion of Lennox, J. referred to, the proper way would be to read the said subsection of *The Registry Act* as if it commenced with the words "subject to the provisions of sections 13 and 15 of *The Devolution of Estates Act*. The last mentioned sections are very positive and specific, we submit, in providing that a caution in *Form 1*, which form does not contemplate any description whatever, may be registered upon compliance with the other respective requirements of the two sections.

We are sending a copy of this letter to the Registrar and we shall be obliged very much if you will kindly rule on the matter at your earliest convenience.

Letter in Reply:

Re Estate of Edwin E. V., deceased.

I am in receipt of your letter of the 11th instant. Your attention seems not to have been drawn to section 34 of *The Registry Act* which is conclusive. The question was before me in the year 1918. See my report for that year, page 18.

Either all the lands should be set out in the affidavit under section 15(b) of *The Devolution of Estates Act*, "or a part thereof mentioned in the caution" (*ibid.*). In your letter it is stated that the administratrix "cannot say just what

part," but the Statute is imperative and if she cannot say "just what part" the alternative is to mention all.

The two Statutes, as you say, should be read together. Reading them together, section 34 of *The Registry Act* applies to the case in point and the Registrar is prohibited from registering the caution unless the affidavit under that section is filed. If the necessary description is not furnished in the caution, it must be given in a separate affidavit under section 34.

Sections 13 and 15 of *The Devolutions of Estates Act* and Form 1 are clear as to the necessity of specifying the part to be sold, where the whole is not required. Section 34 of *The Registry Act* is not inconsistent with *The Devolution of Estates Act*, but merely lays down the general rule applicable to all instruments including, of course, cautions.

Further Letter from Solicitor:

Re Estate of Edwin E. V., deceased.

We thank you very much for your favour of 24th instant replying to our inquiry of 11th instant. Since writing you we took note of the further section of the Act to which you refer, section 34, and observed that it is just as you say. We accordingly procured affidavit from the administratrix setting forth the description of the land particularly affected, and attached same to the caution which we registered. We regret the unnecessary trouble caused to you herein, and remain.

SECTION 2 OF THE REGISTRY AMENDMENT ACT, 1923, IS MANDATORY—RULING OF THE HONOURABLE THE ATTORNEY-GENERAL.

From a Deputy Registrar:

Am enclosing letter from firm of lawyers *re* Act to amend *The Registry Act*, Bill No. 94 (45a). I returned mortgage for address of mortgagee, the letter enclosed is in reference to the said amendment coming into effect July 1st, 1923. Would like to know if a mortgage or deed is sent for registration without the address endorsed thereon as *re* amendment. Shall I register without address or return for address? Or if I called by "phone" would it be within the meaning of the Act if they authorized me to "endorse" name etc.? An early reply would oblige.

Solicitor's Letter to the Registrar referred to in the above:

We return you the mortgage from Joseph B. to John F. with the street address of the mortgagee endorsed. This freak legislation is after all only directory and nowhere does the Act provide that a document shall not be registered unless the address is endorsed upon the document. We would have no hope of successfully defending a Registrar in an action brought against him for damages for refusing to register a document without this address endorsed upon it. If an execution came into the sheriff's hands taking priority over this mortgage the mortgagee would hold the Registrar responsible for his refusal to register the document.

Reference to the Attorney-General:

Herewith I beg to enclose a letter received from the Deputy Registrar of

Deeds at S—— and the solicitor's letter referred to therein. The amendment referred to is that made by *The Registry Amendment Act, 1923* and is as follows:

45a. Every deed or conveyance and every charge or mortgage registered under this Act, shall by endorsement thereon show the full name and place of residence, giving the street number (if any), of the grantee or mortgagee, as the case may be

I have given instructions that the endorsement required by this section may be made anywhere upon the instrument, but I have not as yet given an opinion as to whether or not a Registrar may refuse registration where the endorsement has not been made, as my opinion in such matters has not the force of a legal decision.

I doubt if the section was intended to be merely directory and yet it is hard to say just what a court would decide were a condition to arise such as is suggested in Messrs. M—— & M——'s letter. On the other hand in the case of non-compliance with the requirements of the amendment a grantee or mortgagee might perhaps run the risk of having the validity of his registration called in question.

In the early years of my inspectorate it was my practice to submit such dilemmas as this to the Chief Justice or the President of the High Court, but the late Sir William Meredith refused to entertain them on the ground that those who enacted the Statutes were in a better position to say what was their intention, and that this was for the Attorney-General and not for the Judges, unless the question arose in a case before them for adjudication. I mention this in order that you may understand why it is that I am troubling you about it.

Attorney-General's Reply:

As I write, I have before me yours of December 3rd.

My understanding of the legislation was that it was mandatory and that no instrument should be registered unless the address, etc., were upon it.

Yours sincerely,

W. F. NICKLE.

THE NAME, REQUIRED TO BE ENDORSED UPON THE INSTRUMENT OF THE REGISTRY AMENDMENT ACT, 1923, IS SUCH A NAME AS WILL IDENTIFY THE GRANTEE OR MORTGAGEE.

To a Registrar:

Replying to your letter of the 7th instant it is my view that the name required by the Statute is such name as may identify the grantee or mortgagee. It seem to me then that the name "Thomas B. Jones" will, in this case, be sufficient for the purposes of the Statute.

THE NAME AND PLACE OF RESIDENCE REQUIRED BY THE REGISTRY AMENDMENT ACT, 1923, TO BE ENDORSED ON EVERY DEED OR MORTGAGE, MAY BE ENDORSED ANYWHERE UPON THE INSTRUMENT.

To a Registrar:

Replying to your letter of the 19th inst., I may say that the name and place of residence, required by 13-14 George V, Chap. 26, Sec. 2 to be endorsed upon every deed or mortgage, may be endorsed anywhere upon the instrument.

THE REGISTRY AMENDMENT ACT, 1923.—THE "PLACE OF RESIDENCE" IS A QUESTION OF FACT—IF THE TOWNSHIP IS MENTIONED THEN THE LOT AND CONCESSION NUMBERS OR THE RURAL ROUTE NUMBER SUFFICIENT.

From a Solicitor:

Under the amendment to *The Registry Act* of last session *re* clause for the endorsement on deeds and mortgages of the places of residence of the grantee or mortgagee, we find that some of the Registrars are asking for the post office address and some are asking for the lot and concession. This makes it very inconvenient, and we would like to obtain your ruling in the matter, so that we may be sure which is correct.

Thanking you in anticipation of an early reply, we are.

Letter in Reply:

Replying to your letter of the 13th instant, I may say that what the Act requires is the "Place of Residence." Just what is a man's place of residence it is difficult to say. In the case of farmers, no doubt the lot and concession would be the residence. The "Post Office" or "Rural Route Number"—while convenient places to which to address letters may or may not be the place of residence. If the township is mentioned, then no doubt the lot and concession numbers or the rural route number will be sufficient. Then as to a corporation, I suppose its place of residence would be the head office. Anything that I may say in the matter is an expression of opinion only, which of course has not the force of a legal decision. The place of residence is a question of fact.

REGISTRAR MAY MAKE THE ENDORSEMENT OF THE NAME AND PLACE OF RESIDENCE REQUIRED BY THE REGISTRY AMENDMENT ACT, 1923, SECTION 2.

From a Registrar:

We enclose a copy of a circular which we have mailed to our clients in N—— District, but we are daily receiving documents for registration from Toronto, Lindsay, Hamilton and various other parts of Ontario, also from Manitoba and Quebec, which have not the address endorsed on them, as required by Bill No. 94.

Shall we return these documents for this endorsement or is it our duty to put the endorsement on ourselves? There does not appear to be any penalty in the Act for refusing or neglecting to so endorse instruments.

We should be pleased to have your instructions in the matter.

Letter in Reply:

Replying to your letter of the 25th instant, I beg to say that it is my view that you need not return the instruments but that it will be sufficient if you endorse upon them the address required by the Statute. I think, however, that you should ascertain just what the address is before doing so.

TAX ON MORTGAGES—8 GEO. V, CHAP. 20, SEC. 70—BOND MORTGAGE—IN ORDER THAT HE MAY COMPUTE THE TAX THERE MUST BE FILED WITH THE REGISTRAR AN AFFIDAVIT PROVING THE FULL AND TRUE AMOUNT INTENDED TO BE SECURED BY THE MORTGAGEE.

To a Registrar:

From your letters I understand that a deed of trust and mortgage for \$8,000,000 to secure a bond issue and covering lands in several of the Provinces of Canada, the Province of Ontario included, was registered in your office on the 17th February, 1917. As this was prior to the passing of section 70, chapter 20 of the Statute, 8 George V, no mortgage tax was payable thereon. There is now presented to you for registration a mortgage covering a parcel of land not included in the original mortgage paragraph of which reads as follows:

“Now this indenture witnesseth that in consideration of the premises and of the sum of One Dollar of lawful money of Canada, now paid by the mortgagee to the mortgagor the receipt whereof is hereby acknowledged, and in accordance with the terms and provisions of paragraph 19, of Article VI, of the said deed of trust and mortgage, and to secure the due payment of the principal and interest of the bonds secured by the said deed of trust and mortgage at any time and from time to time issued and certified thereunder and of all and any sums payable thereunder or in respect thereof, with interest as therein provided and the performance of the obligations of the mortgagor therein contained, the mortgagor doth hereby grant, convey, assign, demise, mortgage, pledge and charge to and in favour of the mortgagee its successors and assigns as trustee with the payment of the said principal money of Eight Million Dollars and interest thereon at the rate of five per cent. per annum and of the first issue of Eight Million Dollars of the bonds referred to in said deed of trust and mortgage at any time outstanding according to their tenor and also with the payment of the principal and interest of all additional bonds which may from time to time be issued and certified pursuant to the said deed of trust and mortgage at any time outstanding according to their tenor and of all other sums from time to time due under and pursuant to the said deed of trust and mortgage to the mortgagee, its successors and assigns, etc., etc., and there is also included therein the following clause: ‘And it is hereby declared and agreed that this Indenture of mortgage is supplemental to the said deed of trust and mortgage dated February 26th, 1917, and enjoys all the benefits and advantages of and is subject to all the recitals, terms, conditions, provisions, provisoes and covenants contained in the said deed of trust and mortgage and this indenture of mortgage is incorporated therewith and is to be read with and construed as forming a part of the said deed of trust and mortgage.’”

It is your contention that you should be furnished with a statement of the total value of the properties mentioned in the original deed of trust and mortgage

and also of the value of the property set out in the mortgage now sought to be registered, to enable you to compute the tax that should now be paid.

The description in the original deed of trust and mortgage is as follows: "All its freehold lands and real property now owned or hereafter acquired, and including the lands and premises described in the 2nd, 3rd, 4th and 5th schedules hereto."

The solicitors contend that the lands described in the mortgage come already under the provisions of the original mortgage, and that the instrument now in question is being registered for the purpose of making definite the fact that the lands therein described come within the provisions of the original mortgage, that it is not necessary for their clients to register this mortgage, and they submit that it should come under subsection 8 of section 37 of *The Statute Law Amendment Act of 1919* that it is "in a sense collateral security to the mortgage already registered, although possibly that may not be the correct way of describing it."

I am of opinion that this is not a mortgage that would come within subsection 8 of section 37 of the Statute of 1919 and I agree with the view of the Registrar that a tax is now payable upon such part of the eight million dollars as is secured by the mortgage now sought to be registered, and in order to compute this tax there should be filed with the Registrar pursuant to subsection 6 of section 70 of *The Statute Law Amendment Act, 1919*, an affidavit proving "the full and true amount of the monies intended to be secured" by the same.

TAX ON MORTGAGES—WHERE A MORTGAGE ALREADY REGISTERED HAS BEEN HYPOTHECATED THE TAX IS COMPUTED UPON THE SUM OF MONEY NOW BEING ADVANCED.

From a Solicitor:

Recently clients of ours advanced \$9,000 on the security of the assignment to them of two mortgages for \$5,000 each. The document we registered was a mortgage of the said mortgages by way of assignment, and we paid under protest on registration the sum of \$9 tax. We took the matter up with the Registrar, and he held that it had been the practice to impose this tax on the registration of a mortgage of a mortgage, but suggested that we ask you for a ruling.

We contend that a mortgage of a mortgage is not within section 70, chapter 20, 8 George V, and that if any tax is imposed it should only be on the difference between the amount advanced and the face value of the mortgage or mortgages assigned. We will be glad if you will give this matter your consideration and let us hear from you.

Letter in Reply:

Replying to your letter of the 1st inst., it is my view that where a mortgage already registered has been hypothecated the tax provided by section 70, of the Statute, 8 George V, Chap. 20, is payable upon the amount of money now being advanced, which is the sum secured by the assigning instrument

TAX ON MORTGAGES—ABSENCE OF RECITALS REQUIRED BY THE STATUTE.

To a Solicitor:

Replying to your letter, I may say that *as the mortgage did not contain the recitals required* by subsections 11 and 12 of section 70 of the Statute, the Registrar had no option in the matter.

I have already dealt with this in my report for the year 1919, page 31. I fear that you will have to look to the province and the city for a refund.

PLANNING AND DEVELOPMENT ACT AND AMENDMENTS THERETO.

To a Registrar:

As promised, I beg to give you the following information with regard to *The Planning and Development Act*:—

The various Acts were consolidated in 1918, see 8 George V, chapter 38.

Section 2, clause (c) was amended by the Statutes of 1920, chapter 60, section 2.

Section 6, subsection 3, as to the Essex Border Municipality, see Statute of 1921, chapter 99, section 28.

Subsection 6 was added to section 6 by the Statutes of 1919, chapter 53.

Section 7, subsection 1, as to the Essex Border Municipality, see Statutes of 1921, chapter 99, section 28.

Subsections 10 and 11 repealed and new section enacted, Statutes of 1920, chapter 60, section 3.

Section 12, clause (a), Statutes of 1921, chapter 65, section 1.

Section 13, subsection 9, repealed and a new subsection enacted, Statutes of 1920, chapter 60, section 4.

As to the amendments, see especially:

- (1) Fees—1919, page 324.
 - (2) Severances, etc.—1920, page 296.
 - (3) Highways in Zones—1921, page 242.
-

APPENDIX

.

Fees and Emoluments received by the Registrars of Deeds for the year 1923, with the years 1921

* Appointed O-in-C, June 1st, 1923.

† Land Titles Office included, 8 Geo. V, cap. 27, sec. 20.

‡ G. W. Fleming has been appointed pro tem. from 1st January, 1924, to succeed Mr. Noice, O-in-C., 27th December, 1923.

§ Includes \$200 salary paid by the Province.

|| Land Titles Office included, also \$600 salary paid by the Province.

x Mr. Sharp died 22nd September, 1923. Mr. G. D. L. Rice was appointed by O-in-C., 8th October, 1923.
 y Out of the fees of the Registry and Land Titles offices, Mr. Ferguson retains his salary of \$3,000, pays to his staff their salaries as fixed by Orders-in-Council (first deducting therefrom and transmitting to the Provincial Treasurer the amounts required by the Supp. (amendment) Act), pays the incidental expenses of the offices, and then transmits the surplus, if any, to the Provincial Treasurer. See Orders-in-Council, 12th May, 5th August and 21st December, 1921.

** Out of the fees of the Land Titles Act the surplus is transmitted to the Provincial Treasurer. See Mr. Ryan's superannuation allowance and the salaries of his staff, and the Regulations approved by O-in-C. of same date.

†† Seven months' salary.
 ††† Appointed O-in-C., May 2nd, 1923.
 (a) Appointed O-in-C., 11th June, 1923, assumed office 1st July.

Mr. Deacon and his staff are

SCHEDULE D.

The Registry Act, R. S. O., 1914, Cap. 124.

Schedule of the Fees and Charges Authorized under the Act and Amendments thereto.
Compiled by Mr. J. C. Crow, Registrar of Deeds at Welland.†

FEES OF REGISTRARS, with a few exceptions which are also quoted, are found under Section 92, whose 21 paragraphs, (a) to (u) inclusive, deal with Fees exclusively.

It will be noticed that INDIVIDUAL FEES are provided in a few instances for the Registration of certain kinds of INSTRUMENTS SPECIALLY NAMED, and that for ALL OTHER INSTRUMENTS generally a COMMON FEE is prescribed by paragraphs (a) and (b).

CLASSIFYING them thus, and adding a class for ALL OTHER SERVICES than Registrations, we have the following:

TABLE 1—INDIVIDUAL REGISTRATION FEES (Under the various sections quoted)		PLAN OF SUBDIVISION OF LAND, (92h)	
	FEE		
ADMINISTRATION—(See Sec. 92s).		If creating not over 20 new lots	5 00
Grant of Letters of, (Intestacy)	\$1 50	Add for each lot over 20 up to 100, 5c., and for each lot over 100, 2c., and for Registrar's search for names of owners and mortgagees, \$1 (92k).	
AMALGAMATION OF LOAN CORPORATIONS Certificate of, (92r)	4 00	TAXES, Certificate of payment of, (92q).	25c.
CERTIFICATES, Registration of, (92p)		TABLE 2—COMMON REGISTRATION FEES. <i>Under Subsec. (a) and (b) of Sec. 92.</i>	
Of Discharge of Mortgage (full or partial, form 10), and every other Certificate except those under paragraph (q), a <i>minimum</i> charge, if not longer than 300 words,* nor affecting more than 4 lots,‡ of	1 00	FOR OTHER INSTRUMENTS GENERALLY THAN THOSE SPECIALLY PROVIDED FOR BY TABLE 1.	
If longer, or affecting more lots, add 10c. for each extra folio and 5c. for each extra lot, but the total charge must not exceed \$5.00.		A <i>minimum</i> charge (which includes the registration of the duplicate, if any) of	2 00
DECLARATION, Statutory, (92u) for registering Instruments already entered in G. R. under Sec. 34(3)	50c.	If Instrument is over 700 words in length,* or affects more than 4 lots, add—	
DISCHARGE OF MORTGAGE—Certificate of (92p). See under Certificates above.		For extra copying 15c. per 100 words or fractional part thereof up to 1,400 words, and 10c. per 100 for what remains;	
MONEY OR DEBENTURE BY-LAWS, (92i).	2 00	For extra indexing, 5c. per lot up to 100 extra, and 2c. per lot for re- mainder.	
MORTGAGE, Assignment of, or agree- ment to extend, when <i>endorsed</i> "not to be recorded in full," if not over 4 lots in one municipality, a <i>mini- mum</i> fee of—48(3)	1 50	If <i>Instrument embraces lots of land situate in different municipalities in same Registry Division, the method of calculation is the same, but there will be double, treble, etc., the amount of copying* to pay for (See Secs. 47 and 51).</i>	
Add 5c. for each lot over 4, and 25c. for each additional municipality— 48(4). <i>See Sec. 48(5) as to Mortgage subse- quently required to be recorded in full.</i>		TABLE 3—FEES FOR OTHER SERVICES. <i>(As per sections quoted).</i>	
NOTICE OF SALE UNDER POWER IN MORTGAGE, (92t)	50c.	ABSTRACTS OF TITLE—(See Sec. 92f).	FEE
ORDER FOR GOODS, MACHINERY, ETC.— (under Sec. 36), or Agreement to ex- tend, if not recorded in full, same as Mortgage not recorded in full— 48(7).		Their cost necessarily varies, depend- ing upon the period covered, and includes various services listed in this table—Searching the titles of the lots making extra references and productions, etc.; also writing abstract (first folio, 25c., addi- tional folios, 15c. each).	

SCHEDULE D.—Continued.

*The Registry Act, R. S. O., 1914, Cap. 124.*Schedule of the Fees and Charges Authorized under the Act and Amendments thereto.
Compiled by Mr. J. C. Crow, Registrar of Deeds at Welland.†

TABLE 3—FEES FOR OTHER SERVICES. —Continued.	REFERENCES, (92c), see under "Searches of Title."
Thus the <i>minimum</i> charge for an Abstract, one lot, will be 50c. (<i>i.e.</i> , one Search, 25c., one folio of writing, 25c.) <i>From this minimum charge cost of longer Abstracts, involving other services, may be determined.</i>	SEARCH OF ALPHABETICAL INDEX, (92d). For each name in a local municipality. 25c. General, of Whole Division, for a name \$1 00
AFFIDAVITS—(92n). For drawing each, and swearing deponent 25c. For administering the oath only 25c.	SEARCHES OF TITLES, (92c). Each lot, a <i>minimum</i> charge of 25c. Which includes not over 4 references and 3 folios of copy. Extra copy, 5c. per folio. Additional references up to 50, 5c. each, and above 50, 5c. for every two, but a general search of any one lot not to exceed \$3.
CERTIFICATES, When furnished by Registrar under Sec. 92(g), each 50c.	SEARCH RE MONEY BY-LAW, (92j) 50c.
COPIES OR EXTRACTS, (92f). Made by Registrar (beside Certificate of verification, 50c.), per folio 10c. <i>If made by customer under Sec. 92(c), see under "Searches of Titles" below.</i>	SEARCH OF GENERAL REGISTRY BOOK, (92e). For whole Registry Division, as to each name 25c.
CONVEYANCES, List of, under Sec. 100. Of land transfers when furnished by Registrar to Clerk or Assessment Commissioner, per instrument 5c.	SEARCH BY A SURVEYOR—88(7). In making a Municipal Plan, the usual fees up to an aggregate of \$25.00, and thereafter one-half the usual fees.
FEES, In cases not provided for (See Sec. 93). Disputes as to fees, (See Sec. 96).	SEARCH, (92c) for subsequent Grantees or Incumbrances of subdivided land being sold under mortgage, when authorized by Statutory declaration, per lot, 10c., total not to exceed \$2.00.
PRODUCTIONS, (92o). Of original documents in Registry Office, each 10c. <i>And the same when produced in Court under a Judge's Order, plus proper witness fees.</i>	

† Charges authorized by other Acts and Statutes, such as *The Mechanics' and Wage Earners' Lien Act, The Partnership Registration Act, The Bankruptcy Act*, etc., etc., of course do not come under this compilation.

* If an Instrument affects land in more than one local municipality, Section 51 requires it to be copied into the Register of each, thus increasing the charge for copying. In counting the number of folios, or hundred words, include the Affidavits of Execution and of Celibacy (if any), but not the Transfer Tax Affidavit (which is not copied).

‡ The charge for entering Instruments on the titles of the lots is the same whether land is in one or more than one municipality. The labour is the same.

TABULATED AUGUST, 1923, AND POSTED UP PURSUANT TO SECTION 97.

INDEX

	PAGE
A.

TWENTY-SEVENTH ANNUAL REPORT

OF THE

Provincial Municipal Auditor

FOR

1923

PRINTED BY ORDER OF
THE LEGISLATIVE ASSEMBLY OF ONTARIO

TORONTO

Printed and Published by Clarkson W. James, Printer to the King's Most Excellent Majesty
1924

TO HIS HONOUR HENRY COCKSHUTT, ESQUIRE,
Lieutenant-Governor of the Province of Ontario.

MAY IT PLEASE YOUR HONOUR:

I have the honour to present to you the report of the Provincial Municipal Auditor for the year 1923.

L. GOLDIE,
Provincial Secretary.

Parliament Buildings, Toronto,
January, 1924.

Parliament Buildings,
Toronto, January, 1924.

TO THE HONOURABLE LINCOLN GOLDIE, M.P.P.,
Provincial Secretary of the Province of Ontario.

SIR,—I have the honour to present to you my report for the year 1923.

I have the honour to be, Sir,

Your obedient servant,

J. W. SHARPE,
Provincial Municipal Auditor.

Report of the Provincial Municipal Auditor

TO THE HONOURABLE LINCOLN GOLDIE, M.P.P.,
Provincial Secretary of the Province of Ontario.

SIR,—I have the honour to present to you the twenty-seventh annual report of the Provincial Auditor.

TOWN OF HEARST, S.S. NO. 1 CASGRAIN

Order in Council providing for an Audit of the accounts of the School Corporation was received on 19th December, 1922, appointing Mr. Alexander Leith of the City of Toronto to make the necessary investigation and report. Mr. Leith's report was received on March 16th, 1923, and is submitted herewith.

TOWN OF PARIS

On February 7th, 1923, a certified copy of a resolution of the Council of the Town of Paris was received requesting an Audit of the books of said town. The appointment of Mr. Henry Glover of the City of Toronto, to make the necessary examination and report was approved by Order in Council. Mr. Glover's report was received on April 25th, 1923, and is submitted herewith.

TOWN OF WALLACEBURG

On March 7th, 1923, a petition signed by 31 ratepayers of the Town of Wallaceburg was received asking for an Audit of the accounts of that municipality. The appointment of Mr. A. F. Falls of the City of Chatham, A.C.A., to make the necessary examination and report was approved by Order in Council. Mr. Falls' report was received on November 6th, 1923, and is submitted herewith.

TOWNSHIP OF MARA

On April 30th, 1923, a petition signed by 60 ratepayers of the Township of Mara was received asking for an Audit of the accounts of that municipality. The appointment of Mr. Henry Glover of the City of Toronto, C.A., to make the necessary examination and report was confirmed by Order in Council. Mr. Glover's report was received on June 18th, 1923, and is submitted herewith.

TOWNSHIP OF BARTON

On May 23rd, 1923, a petition signed by ratepayers of the Township of Barton was received asking for an Audit of the accounts of that municipality. The appointment of Mr. Gordon A. Peters of the City of Toronto, C.A., to make the necessary examination and report was confirmed by Order in Council. Mr. Peters' report was received on November 7th, 1923, and is submitted herewith.

TOWN OF SUDBURY

On July 19th, 1923, a copy of resolution passed by the Municipal Council of the Town of Sudbury was received, requesting an Audit of the accounts of that Municipality. The appointment of Mr. John B. Robertson of the City of Toronto, C.A., to make the necessary examination and report was confirmed by Order in Council. Mr. Robertson's report was received on November 27th, 1923, and is submitted herewith.

TOWNSHIP OF STAMFORD

On August 14th, 1923, a petition signed by ratepayers of the Township of Stamford was received asking for an Audit of the accounts of that municipality. The appointment of Mr. John Clarke of the City of Toronto, C.A., to make the necessary examination and report was confirmed by Order in Council. The report has not yet been received.

TOWNSHIP OF NIAGARA

On February 22nd, 1923, application was received for an Audit of the accounts of the Municipality of Niagara Township. The application was not in proper form and the Audit was not ordered.

SCHOOL SECTION NO. 16 ETOBICOKE

On November 20th, 1923, an application was received for an Audit of the accounts of this school section. The appointment of Mr. Henry Glover of the City of Toronto, C.A., to make the necessary examination and report was confirmed by Order in Council. The report has not yet been received.

TOWNSHIP OF FLOS

On August 29th, 1923, a petition signed by ratepayers of the Township of Flos was received, asking for an Audit of the Accounts of that Municipality for a period of twenty years. The prayer of the petition was not granted.

I have the honour to be, Sir,

Your obedient servant,

J. W. SHARPE,
Provincial Municipal Auditor.

TO THE MAYOR AND COUNCIL,
of the Town of Hearst,
Ontario.

March 8th, 1923.

Gentlemen,—

Acting under appointment from the Provincial Municipal Auditor, confirmed by an Order in Council dated 19th December, 1922, the undersigned conducted an investigation into the affairs of No. 1 Casgrain School covering the years 1913 to 1922 inclusive. Complaint specified that a thorough audit had not been made of the school books since the year of its inception and that satisfactory information was required by members of council to enable them

to properly take over the school assessments for taxes, and the collection of the unpaid taxes for the benefit of the school. The Town of Hearst was incorporated in August of last year. I have completed the audit and report thereon as follows:

ASSESSMENT ROLLS

Assessment Rolls were not seen for years 1913, 1914, 1915, and 1916.

YEAR 1917

Assessor's affirmation not attached. Total assessment column only added. Proper summary not prepared at end of roll. Roll not signed by the chairman of the Court of Revision. Changes in assessment by Court of Revision Judge not recorded properly, or changed on the roll in red ink.

YEAR 1918

Assessor's affirmation not attached. Totals in pencil. Total assessment column not added. Proper summary not prepared at end of roll. Roll not signed by the chairman of the Court of Revision. Changes in assessment by Court of Revision Judge not properly recorded, or changed on the roll in red ink.

YEAR 1919

Assessor's affirmation attached but not verified upon oath. Total assessment column not completed. Additions were apparently made at random as the total difference figured up to \$4,412. No proper summary attached or were any columns added other than the total actual value of real property, and this was only in pencil. Changes in assessment were not properly recorded, or changed in red ink. Roll signed by M. McKay, chairman, Court of Revision, dated June 16th, 1919.

YEAR 1920

Assessor's affirmation not attached. Roll not added nor any summaries attached at end of roll. Changes made by Court of Revision Judge not properly recorded or corrected in red ink. Roll signed by

W. J. Robinson,	} Chairman of Court of Re- vision.
N. Nelson,	
W. McKay.	

YEAR 1921

Assessor's affirmation not attached. Total assessment column not used, other footings in pencil. No summary at end of roll. Changes made in the roll not properly recorded or changed in red ink.

Roll signed as follows:

Assessment found correct at Court of Revision, held August 2nd, 1921.

H. E. Bryant, Secretary.

YEAR 1922

Assessor's affirmation not attached. Footings in pencil only. Proper summary not prepared at back of roll as many pages showed incorrect additions. Complete roll extended in pencil. Changes made in the roll not properly recorded or changed in red ink. As the figures were all in pencil changes were made by rubbing out the old extensions and covering over with new amounts.

The roll was signed as follows:

G. E. Preston, Chairman.

The assessment roll in each year was compared with the collector's roll, but in no year was it found to be an exact copy. In many instances figures were changed with the result that it was impossible to check some items to the collector's roll with any degree of certainty. All the columns in many cases were not added. This should always be done, otherwise a great deal of time is lost in trying to agree the totals. This book should be carefully prepared in ink, and under no circumstances should any changes be made after completion unless authorized by the Court of Revision.

Assessors' affirmation was only attached in the year 1919, but was not verified under oath.

The collectors roll should be an exact copy of the assessment roll page by page, the totals of each column should be carried to the back of the roll and summarized, this was not done.

The Algoma Central H.B. Railway Company were assessed on property held by them in 1915. This assessment seemed in order as the Railway Company paid taxes in due course. The railway assessment did not appear again on the roll till 1917, when they were assessed on property and business. According to Section 47 (5) of the Assessment Act railways are not assessable on business or income. A communication from the Railway Company, shown below, to us, dated March 5th, 1923, is no doubt the reason why no further assessment was made.

"In 1916 Lots 1 to 16 in Concessions 7 to 12 inclusive, were taken out of the S.S. No. 1 Casgrain, and formed into S.S. No. 1 Way, and from that date we have paid our taxes to the latter S.S.

We have no property in S.S. No. 1 Casgrain, and therefore we would not be liable to any taxes since 1915.

(Signed) R. McCUMMICH,
General Superintendent and Chief Engineer.

COURT OF REVISION IN UNORGANIZED TOWNSHIP

"Section 32 (1). The inspector shall divide the school sections into groups of three, or as near thereto as practicable and shall notify the Secretary of each section of the group to which it belongs, and the grouping may be changed from year to year as the inspector may direct.

"Section 32 (2). The treasurers of the boards in each group shall constitute a court for the revision of the school assessment rolls of the sections in the group and for the hearing and determination of any appeals against the same, and the members of such court shall be paid reasonable travelling expenses by their respective Boards for their attendance.

"Section 33 (9). The Assessment Roll as finally passed and signed by the Chairman of the Court of Revision, shall be binding upon the trustees and

ratepayers of the section until the roll for the succeeding year is passed and signed as aforesaid.

"The trustees are requested to take notice that before the assessment roll for any year can be lawfully used, it must be passed by the Court of Revision, and signed by the chairman of that court. The trustees should see that all the requirements of Section 33 (1 to 9) are duly carried out."

Above are extracts taken from the School Act relative to the Court of Revision, and it is doubtful whether all requirements have been met by the school trustees. W. J. Robinson, while a school trustee, was chairman of the Court in the year 1921. Trouble arose when the new separate school was built in the year 1918, owing to the assessor not complying with Section 29 of the Assessment Act, which is as follows: "Where the index book required by Section 62 of The Separate Schools Act is prepared, the assessor shall be guided thereby in ascertaining who have given the notices which are by law necessary in order to entitle supporters of Roman Catholic Separate Schools to exemption from the public school tax. This want of care on the part of the assessor meant separate school supporters, who were only entitled to pay the debenture rate on the public school, had in many instances to pay public and separate school rates. After a great deal of trouble, a list was compiled of refunds of taxes to separate school supporters, the unpaid taxes on the rolls being corrected as near as possible. In the year 1922 the collector corrected the rolls assessing separate school supporters for debenture rate only, but even in this year errors cropped in, some ratepayers being incorrectly assessed separate, who were public and vice versa.

COLLECTOR'S ROLLS

The rolls were not prepared with proper care, as in no year was each column added, and summarized at end of roll. In the years 1919 to 1921 the taxes due had to be extended all over again, owing to the fact that in many instances the amounts had been changed, while the total tax column had not been added at all. The collector's final reconciliation of his roll was not seen in any year. This should be prepared and appended to the back of roll.

The collector did not properly balance his rolls, otherwise the receipts listed elsewhere but not entered in the treasurer's cash book would have been located. Apparently the school collectors did not understand the meaning of the School Act with regard to their obligations. Section 36, paragraph 2, of the School Act, states that every collector shall have the same powers in collecting the school rate or subscriptions, and shall be under the same liabilities and obligations and proceed in the same manner in the section or township as a township collector in collecting rates in his township as provided by the Assessment Act. Rolls have been allowed to remain in the hands of collectors for indefinite periods, while the school has been borrowing money and paying interest when taxes were in arrears to an amount more than sufficient to meet all requirements of the schools. These are unbusinesslike methods. The 10 per cent. interest which should be added by the treasurer upon all balances shown by his books cannot be properly added upon arrears which have not been returned to him. The tax roll should be in the collector's hands by October 1st and returned on December 14th. If a penalty were imposed on all taxes not paid on December 15th, most of the taxes would be paid by that date. It is important that an earlier collection of taxes be insisted upon, so that the 10 per cent. penalty can be added on May 1st. Many errors were found in computing the rates, certain

ratepayers as per schedule shown elsewhere being overcharged. Collector's initials as to various dates on which notices were mailed appear only in some years. Collector's oath should always be attached at the back of rolls.

Mr. Gus McManus stated that he had paid certain taxes, but we could find no record in the cash book. Possibly they were included in totals passed in to the treasurer by A. French or R. Williams, which could not be verified by name or amount.

A receipted tax bill was given to Mrs. A. Belanger by A. French dated 28th September, 1919, for \$60.75. No record was seen in the cash book of this cash other than \$60 received from X. Belanger on September 20th, 1919, which may be the amount entered on wrong date and incorrect initial.

YEAR 1913

Collector's oath not appended. No summaries of totals, page totals in pencil. Date of transmission of notices only shown in few instances. Sundry total rates column in pencil only. No collector's reconciliation.

YEAR 1914

Collector's oath not appended. Date of transmission of notices missed out in some instances. No correct summaries appended at back of roll. Page totals in pencil. Total assessment column not added. Rate column in pencil only. Collector's reconciliation not attached.

YEAR 1915

Collector's oath not appended. Date of transmission of notices missed out in some instances. No collector's reconciliation.

YEAR 1916

Collector's oath not appended. Date of transmission of notices in many instances not entered. Total rates column only added in pencil. Summaries not shown at end of roll. Total assessment column not added, only rate column in pencil. No collector's reconciliation.

YEAR 1917

Collector's oath not appended. Date of transmission of notices in many instances not entered. Total rates column only added in pencil. Summaries not shown at end of roll. Total assessment column not added, only rate column in pencil. No collector's reconciliation.

YEAR 1918

Collector's oath not appended. Date of transmission of notices missed out in few instances. No summaries at end of roll. No footings on roll at all. No collector's reconciliation.

YEAR 1919

Collector's oath not appended. Date of transmission of notices missed out in few instances. No summaries at end of roll. Footings not completed, total tax column not added. Collector's reconciliation not attached.

YEAR 1920

Collector's oath not appended. Date of transmission of notices missed out altogether. Additions at foot of roll completed in no instance. Collector's reconciliation not attached.

YEAR 1921

Collector's oath not appended. Date of transmission of notices missed out altogether. Footings not completed on any page, and no summaries at end of roll. Collector's reconciliation not attached.

YEAR 1922

Collector's oath not appended. Date of transmission of notices missed out in some instances. Total rate column not added. No summaries at end of roll. Collector's reconciliation not attached.

ARREARS OF TAXES

Owing to the confused state of the records it was found necessary to check the cash received, from the cash book into the rolls for each year, to try and ascertain the amount of unpaid taxes. This list was prepared after great difficulty, but owing to the fact that collectors did not keep independent records, other than the amounts entered in the treasurer's cash book and as certain receipts were entered in the treasurer's cash book in total, the absolute correctness of same is doubtful. No lists could be produced showing the name of each ratepayer, and the amount of each tax paid. It is the duty of the collector to keep records of all receipts handed over to the treasurer for audit purposes. Tax receipts were fairly well handled till the year 1918, when a very confused state of affairs existed, entries in the cash book being almost impossible of solution. In the year 1922 no fault could be found, and the arrears were compiled without difficulty.

Section 36 (3) of the School Act states: "The collectors shall on or before the 1st day of June in the year following the year which a school rate becomes due and payable, make a return to the sheriff of the county or district, showing each lot or parcel assessed upon which the school rates have not been fully paid, the name of the person assessed as owner or occupant and the amount of school rates chargeable against the lot or parcel and in arrear at the date of such return with the year for which the rates so in arrear were imposed.

(4) The sheriff shall enter in a book to be kept by him for that purpose the particulars furnished by the collector.

(5) The collector shall not receive any payment on account of school rates so in arrear after the expiration of two years from the date when the same became due, but in the case of payment made before expiration of such period the collector shall forthwith notify the sheriff thereof and the sheriff shall enter such payment against the proper lot or parcel in the book kept by him."

Difficulty arose in complying with the above section of the School Act, as the sheriff's office was 300 miles away. It will be noticed that a large portion of the arrears are on unoccupied lands, and here again difficulty arose in trying to get the sheriff to dispose of taxes on lands in arrears for three years. The sheriff would not sell the lands, as trouble might easily have arisen at a later date, and as he was so far away he did not wish to take a chance. However,

the Public School Act of 1920 was amended by adding the following Section 37a:—

“In addition to any other remedy possessed by Public School Trustees in unorganized townships or in unsurveyed territory for the recovery of rates imposed under the authority of this Act, the trustees with the approval of the inspector in writing signed by him, may bring an action in any court of competent jurisdiction for the recovery of any rates in arrear against the person assessed therefor.”

Above amendment should have been acted upon, but apparently no action was taken.

A minute was passed on June 19th, 1922, by the school trustees, allowing Jno. Ferguson, North Bay, a rebate of \$316.11 on 1913 taxes, as he considered the assessment far too high. The assessment was apparently high in that year, but it is unfair to allow a rebate to one, while the other taxpayers have to pay taxes as assessed against them. In any case the rebate was incorrect as Robinson and Lawson had taken over twenty-two lots from Jno. Ferguson, the taxes in 1913, amounting to \$162.90, having been paid by them. The rebate to Jno. Ferguson should have been \$316.11 less \$162.90 = \$153.21, which amount we have shown in our schedule of taxes due from this firm. As we were unable to allocate cash paid by Jno. Ferguson against any special year, we have shown all taxes due from them in the arrears of taxes, cash paid being deducted in total at the end of summary along with other cash unaccounted for on rolls from other taxpayers. Arrears of taxes on unoccupied lands should not be brought forward on the current tax roll but be entered in the tax arrears register.

TAX COLLECTIONS

Proper care was not taken in the collection of taxes. No independent record was kept by the collectors other than the receipts shown in the treasurer's cash book. All receipts should be entered up in a cash book, the form of which is given below. Roll No., Date and Amount Received, divided as to tax or interest would be recorded therein. Receipt stub would be kept for audit purposes. Transfer to the treasurer would be treated as a bank deposit, and entered therein. This system gives a clear independent check from the collector's cash book into the treasurer's cash book, resulting in accurate accounting.

TAX COLLECTOR'S CASH BOOK

Roll No.	Date	Received from	Cash		Bank	
			Taxes	Interest	DR.	CR.

The following taxes were marked paid on the collector's roll, but were unaccounted for by the collector, W. J. Robinson, in the following years.

YEAR 1919			
<i>Roll No.</i>			
31	Lafrance.....	\$9	00

364	J. P. Gormon.....	8	28
			\$89 32
			\$199 35

In the year 1920 Roll No. 51, Jno. Ferguson, North Bay, total taxes \$85.95 was marked paid on the roll, no record could be seen on the cash book. Mr. Robinson explained that this payment was included in cheque received from Jno. Ferguson, North Bay for \$750, on October 29th, 1921.

CASH BOOK

Cash book for the years 1913 and 1914 was burnt in the bush fire, therefore was not on hand for period of audit. Abstract of receipts and disbursements have been prepared and will be seen elsewhere. This book was fairly well kept till the years 1918 to 1921, when it was in awful condition. In 1919 the cash book was not balanced up, but in pencil an incorrect figure was shown as cash on hand, no cash balance being brought forward on the first of the following year. Apparently no attempt was made to balance the cash on hand, as the following receipts were left out altogether. A demand loan for \$700 from the Bank of Nova Scotia on June 12th and a grant from the Board of Education for \$89.25 dated August 26th, 1919, and deposited in the Bank of Nova Scotia, Cochrane, on 3rd October, 1919. Cash received for payment of taxes was entered without any roll folio, the column for arrears paid not being used at all. In the year 1918 according to the cash book the cash on hand should have been \$156, but on 1st January, 1919, the sum of \$230 was brought forward, which was apparently on hand, as this amount was deposited in the bank on January 7th, 1919. It will be noticed in our abstract of receipts and

disbursements we have brought forward the \$230 as the apparent amount of cash on hand.

The following receipts entered in the year 1919 could not be verified as having been sent from the Board of Education to Hearst for public or separate school grants. December 8th, 1919, \$18.13; June 10th, 1919, \$131.40; January 15th, 1919, \$128.96; February 14th, 1919, \$114.65. No cancelled cheques were on hand other than the year 1918, 1922, and a few in 1919. The cash book in 1922 was properly recorded, all cheques and bank book being on hand for audit purposes. In many instances pages were torn and disbursements were entered on the same side as the receipts. The proper system is to deposit all cash in the bank on receipt, then at the end of month the balance on hand will be correctly shown in the bank book. All payments should be made by cheque which, if done, would eliminate these errors in cash balances.

An arrangement was made by Robinson and Lawson to take over twenty-two lots from John Ferguson, North Bay, Robinson and Lawson to pay the taxes on such lots. This deal was put through in the year 1921 but taxes were not paid by Robinson and Lawson till November 30th, 1922, which date it was entered in the cash book.

W. J. Robinson when asked for the cheques and bank book could not give any satisfactory information regarding the disposal of them, with the result that it was necessary to write to the Bank of Nova Scotia, Cochrane, for a copy from the year 1915. This was received, but the lack of cancelled cheques made it rather difficult to conduct our investigation.

TREASURER'S CASH RECONCILIATION

RECEIPTS

	<u>\$96 17</u>
Cash due from Treasurer and Collector—W. J. Robinson.....	896 81
Total.....	<u>\$992 98</u>

CHEQUES

Very few cheques were on hand, and in many instances same were made out and signed by one trustee. One cheque was seen payable to a trustee and signed by the recipient. All cheques should be signed by the treasurer and chairman.

It is a very important matter that all vouchers should be carefully kept, as they are trust documents and are open to inspection at any time to proper authority.

Endorsements on back of school grants were irregular, two cheques being endorsed as follows:

\$89.25 deposited October 3rd, 1917.

Deposited to the credit of S.S. No. 1 Casgrain, Bank of Nova Scotia, Cochrane. A. Clay, manager.

Another cheque had been endorsed by the teller of the Imperial Bank, Hearst.

The cheques are made payable to the trustees of the school and should be endorsed by trustees entitled to sign same.

Certificate was received from the bank verifying the bank balance.

MINUTE BOOK

This book was well kept, and in good form, although it was not always signed by the treasurer and chairman.

BY-LAWS

No by-laws were on hand. The by-law for the issue of debentures to build the schools was not seen. By-laws should be carefully filed in a binder for reference purposes.

INSURANCE IN FORCE

No. of Policy	Name of Company	Amount	Expires	Amounts	Insured Property
5750711	Northern Assurance..	\$1,500 00	Nov. 16, 1923	\$2,500 00	Building
8965867	Atlas Assurance.....	1,500 00	Nov. 16, 1923	500 00	Furniture

BONDS

Every treasurer and collector before entering on the duties of his office shall enter into a bond to the corporation for the faithful performance of his duties.

This section of the Act was apparently neglected

ACCOUNTS PAYABLE

Invoices for purchases were not on hand for proper examination. There were quite a few in the year 1922, but they were not filed away properly, but were scattered over sundry files.

All invoices should be attached to a pay list when presented before finance committee for payment. Invoices when received should be numbered in rotation and approved by the superintendent of the department to which they refer.

Council pay list is submitted herewith:

.....
Town Clerk

After the loss of one and a half days, which meant added expense to the municipality, they handed over the records, when they became aware that refusal to do so was useless. In the light of events which have transpired during the life of the school, especially from the year 1919, it will be seen how necessary the investigation was needed. If a proper audit had been conducted each year the expense of this investigation would have been materially less.

RECOMMENDATIONS

1. That the assessment roll be properly written up in ink, be added column for column and summarized in totals at back of roll. Assessor's affirmation be attached, and Court of Revision deductions be corrected in red ink.
2. That the tax roll be returned on 14th December of each year.
3. That the council impose a penalty for unpaid taxes on December 15th, so that delinquent taxpayers do not escape from this laxity in paying taxes.
4. That a list of all arrears be kept, and the date thereof.
5. That the collector's rolls be correctly added column for column and properly summarized at back of roll and that collection reconciliation be attached.
6. That sale of lands for arrears of taxes have immediate attention.
7. That the collector keep an independent record of his transactions, so that his receipts can be verified into the treasurer's cash book.
8. That by-laws be carefully preserved in a locked binder.
9. That files be provided for the proper care of documents.
10. That pay lists be prepared and properly presented to finance committee at council meetings.
11. That a town ledger be opened, so that a proper record of all transactions be recorded.
12. That a vault be provided for the treasurer for the safe keeping of books and records.

CONCLUSION

I desire to thank the officials of the town for valuable services rendered during the course of the audit.

Respectfully submitted,

ALEX. S. LEITH,
Municipal Auditor.

Taxes in Arrears..... \$367 72

It will be noted that the first payment on above taxes was made in the year 1920. No interest was charged but a rebate was allowed. This meant a considerable loss to the school.

331 Bay Street,
Toronto, Ontario.

TO THE MAYOR AND COUNCIL,
Town of Paris,
County of Brant, Ontario.

Gentlemen,—

Acting under instructions from the Provincial Municipal Auditor, Mr. J. W. Sharpe, K.C., an inspection, examination and audit of the books, accounts, vouchers and moneys of the municipal corporation of the town of Paris was made.

PETITION.

Resolution was passed in Council on December 15th, 1922, stating "That the services of a Provincial Auditor be procured to audit the books of the Corporation."

No action was taken with respect to this resolution until February 5th, 1923, when the following resolution was passed: "That the Town Clerk be and he is hereby instructed to send to the Provincial Auditor, at the Parliament Buildings, Toronto, a certified copy of the resolution passed at the last regular meeting of the 1922 Council, whereby the services of a Provincial Auditor is asked, and that the clerk do attach to the said certified copy the seal of the corporation of the town of Paris; and that the instructions contained in this resolution be attended to forthwith."

SCOPE OF AUDIT.

The Finance Committee was interviewed in respect to any particular matter that needed to be investigated.

It appeared to be the general opinion that an audit was needed for the following reasons:—

1. That a Provincial municipal audit had not been made of the town's books for a great many years.

2. That the bookkeeping system in use should be enquired into and, if necessary, changes made for its betterment.

3. That the Sinking Fund investments were stated to be in excess of the amount required under the various debenture by-laws for the redemption of the several issues at maturity, and what disposal could be made of such surplus if it existed.

4. That proceeds of debenture sales were deposited in the general town account and that instead of an amount being set aside in a special account to cover the hold-back from contractor on account of guarantee, such moneys were used for general purposes.

After a general resumé of the books and accounts and a discussion with the members of the council, the following resolution was passed by the town council:—

“That the Provincial Municipal Auditor, Henry Glover, be instructed to confer with the clerk and procure what books are necessary for the proper recording of the affairs of the municipality.”

“That the said Auditor be authorized to make an audit of the Town's books for the year 1922, and to go back further than this on any matter that he is not satisfied with, audit of the town's affairs not to cover Public School, High School, Library Board, or the Public Utilities.”

Balance Sheet as of December 31st, 1922, submitted herewith has been divided into two sections.

The Current Assets and Liabilities have been grouped into one, and the Capital Assets and Liabilities grouped into the other.

Dealing first with the Current Balance Sheet, it will be noted that there is a surplus of \$3,184.82, which ordinarily should be in liquid form, and go to reduce the next year's estimates. When it is seen, however, that the bulk of the Current Assets is made up of uncollected taxes, it is a question rather, whether a further amount should not be included in the estimates for the current year, to provide sufficient funds to pay off the accounts payable of \$13,607.15.

It is possible, however, that enough taxes may be collected and with the cash on hand be sufficient to meet these accounts payable.

Public Works and Properties have been taken into the Balance Sheet at a valuation secured from several sources. These were discussed with the clerk, and appeared satisfactory. Most of the items appearing on this statement do not need further elucidation.

The Capital Surplus of \$226,019.54 is mostly accounted for by the net investment in the Hydro Electric Plant, Waterworks, and Town Hall.

CASH STATEMENT FOR YEAR 1922.

Abstract of Receipts and Expenditures has been subsectioned so that the various receipts have been grouped as far as possible into the same classification. The same is also true of the expenditures.

In dealing with the estimates for the current year, reference should be made to see what was actually disbursed on account of the various purposes.

DEBENTURES

Statement of Debenture Indebtedness at 31st December, 1922, was prepared and is submitted herewith.

New Debenture Register was obtained and all the outstanding issues written therein. Ledger accounts were also opened for all the debentures as to the principal unredeemed.

Debentures for an amount of \$96,000.00 under by-law 677 were given to the Provincial government as collateral in reference to the Housing Commission. These are dated November 1, 1919, and run for twenty years. Later on another issue of \$9,600.00 under by-law 695 was also given to the Provincial government for the same purpose. These are dated August 30, 1921. These will be returned to the municipality when the final principal payment due in reference to the Housing Commission has been made. No entry of these debentures has been made in the debenture register.

The following debenture interest coupons had not been presented for payment at the year end.

SINKING FUND

Surplus

Sinking fund investments at 31st December, 1922, not taking into account the accrued interest, amounted to \$72,384.05.

Sinking Fund requirements as called for under the various by-laws and shown on the attached statement shows an accumulation at 31st December, 1922, of..... \$62,369 05

To this has been added the balance of the Local Improvement Commutations amounting to, at 31st December, 1922, and according to the attached statement..... 3,355 35

The total of these two items when deducted from the Sinking Fund investments..... 65,724 40

Leaves a surplus of..... 6,659 65

This surplus has been created by a higher rate of interest being earned on the various investments than that called for by the by-law. There is a section in the Municipal Act which sets a maximum calculation of 4 per cent. interest earning powers on any sinking fund moneys raised for the purpose of debenture redemption at maturity date. Perusal of the sinking fund statement under the interest rate basis shows that the interest earning basis was placed at 3 per cent. up to the year 1915. After that date the interest rate of 4 per cent. has been taken. What actually has occurred is, that war bonds have been bought at a discount and other municipal debentures purchased which have earned an interest rate of from 5½ to 6 per cent.

The council are naturally desirous that this surplus shall not grow larger from year to year, and it does not appear to be wise to continue to levy more money than what is needed for sinking fund purposes.

Among the sinking fund investments, the following general debentures of the town of Paris are held.

By-law No.	Debenture Principal	Sinking Fund Reserved	Amount Redeemable
609	\$4,000 00	\$2,681 70	\$1,318 30
649	4,000 00	3,103 29	896 71
686	3,436 42	3,436 42
	<u>\$11,436 42</u>	<u>\$5,784 99</u>	<u>\$5,651 43</u>

TOWN OF PARIS

SINKING FUND

Surplus

It will be noted that the total of the Debenture Principal is.....	\$11,436 42
The Sinking Fund deposited or reserved on account of these to 31st December, 1922, amount to.....	5,784 99
This leaving an amount redeemable of.....	\$5,651 43
If these Debentures were cancelled forthwith the surplus in the Sinking Fund of.....	\$6,659 65
Would be reduced by.....	5,651 43
And still leave a surplus of.....	\$1,008 22

If this was done there would be no necessity for including in the general levy an amount to take care of the annual payment of interest, principal or sinking fund deposit. The benefit derived by the municipality by the cancelling of these debentures by use of part of the surplus earnings of sinking fund investments, would be spread over the next seven years.

For instance, the general rate for the year 1923 would be reduced by the amount of \$2,125.54. General rate for the year 1924 and 1925 would be reduced by the amount of \$1,165.56. General rate for the years from 1926 to 1929 would be reduced by an amount of \$615.53.

Statement showing how these amounts are arrived at, appears hereunder:

Year	Total	Sidewalks Principal	By-law 686 Interest	Fuel and Food Principal	By-law 649 Interest	Gravel Pit and Bridge Principal	By-law 609 Interest
1923	\$2,125 54	\$409 38	\$206 16	\$720 00	\$240 00	\$350 00	\$200 00
1924	1,165 56	433 96	181 60	350 00	200 00
1925	1,165 56	460 00	155 56	350 00	200 00
1926	615 53	487 57	127 96
1927	615 56	516 85	98 71
1928	615 53	547 83	67 70
1929	615 57	580 73	34 84
	\$6,918 85	\$3,436 32	\$872 53	\$720 00	\$240 00	\$1,050 00	\$600 00

Annual sinking fund deposits as levied and called for by the by-law are not in all cases correct and a contrast of the levied amount along with the correct amount appears at the foot of the sinking fund statement.

In respect to the debentures issued for pavements under By-law 729, the last debenture should have been \$904.71, but as certain commutations had been made before its issue, this debenture was issued for an amount of \$535.67. The sinking fund amount called for by the by-law has not been amended, and this should be done.

The annual interest also should be corrected and instead of \$3,594.28 this should be \$3,572.14.

Debentures issued under By-law 682 are held as sinking fund investments. The interest amount payable is \$207.32. An amount of \$240, however, was entered in the municipal cash book as the interest payment and was deposited into the sinking fund bank account. This resulted in an excess payment of \$32.68.

It was noted that interest coupon number seven on debenture issued under By-law 686 held as a sinking fund investment, due 1st December, 1922, had not been clipped off, and this is included among the debenture interest coupons payable at year end.

TOWN OF PARIS

SINKING FUND INVESTMENTS.

Sinking fund investments at 31st December, 1922, consisted of the following items:—

Dominion of Canada Bonds.....	\$41,600 00
Town of Goderich Debentures.....	4,213 34
Town of Paris Debentures.....	26,521 53
Bank of Montreal Savings Account.....	49 18
	<hr/>
Making a total of.....	<u>\$72,384 05</u>

Details of these sinking fund investments are attached for record purposes. No cash book had been kept nor any detailed account showing all the transactions from the sinking fund account from year to year, and hereafter it is essential that this be done.

The bonds and debentures are kept in a safety deposit box in the Bank of Montreal. These were all checked over in detail and at that time it was found that the treasurer was entirely responsible and had free access to such safety deposit box, containing these investments of some \$72,000. This was immediately drawn to the attention of the council and by-law No. 745 was passed in respect to this matter.

BY-LAW NUMBER 745 OF THE TOWN OF PARIS: to appoint registered holders of the safety deposit box in the Paris branch of the Bank of Montreal in which are to be kept all sinking fund securities of the Town of Paris.

Whereas, value of the securities, bonds and debentures now held by the Town of Paris for sinking fund purposes has reached over the sum of seventy thousand dollars and,

Whereas, it is expedient to better secure the handling of the said securities, bonds and debentures.

Be it therefore enacted and it is enacted,

1st. That the said bonds, securities and debentures be and hereafter continue to be deposited in a safety deposit box in the Bank of Montreal, Paris branch, and the treasurer is hereby authorized to continue the rental of same.

2nd. That the mayor, the chairman of the finance committee, and the treasurer and their several successors in office be the registered holders of the said box in which the said bonds, securities and debentures are deposited.

3rd. That the said box shall not be opened except in the presence of the treasurer and at least one of the other registered holders.

4th. That a copy of this by-law be handed to the manager of the Bank of Montreal for his information and instructions.

J. M. PATTERSON,
Mayor.

C. B. BARKER,
Clerk.

SINKING FUND INVESTMENTS

Letter written to Mr. J. W. Sharpe, K.C., the Provincial Municipal Auditor, in respect to the surplus accruals, is given hereunder.

Sinking fund investments have accrued to an amount in excess of that called for by the debenture by-laws. The amount to be set aside annually for sinking fund purposes as called for by such by-laws was based on interest earnings of three per cent. and four per cent., whereas actual investments have earned up as high as six per cent.

The surplus created and accumulated to the end of the year 1922 amounts to about \$10,000. Quite a number of the debenture issues are based on the sinking fund plan and such surplus has been earned from sinking fund deposits in respect to debentures issued for local improvements, schools, and general town purposes. No separate account of the sinking fund deposits in respect to any one debenture has been kept, and it would be a difficult matter to attempt to separate such surplus earnings.

Some of the sinking fund investments consist of the municipality's own debenture issues. It has been proposed that part of this surplus be used in redeeming certain general town debentures, which are at present being held as sinking fund investments. It is noted under section 304 of the Municipal Act, that application would have to be made to the Municipal Board if redemption of debentures was made. This does not, however, appear to apply to this case.

Would you kindly state if the council would be within its legal rights if it used a portion of the sinking fund surplus in redeeming the certain general town debenture issues that are outstanding, and held as sinking fund investments. Redemption of certain debentures issued for general town purposes would mean a reduction in debenture levies for the next several years.

There is one point in respect to this, in any surplus created through the town's handling of sinking fund moneys applicable to general town purposes only:

Could any debenture holder, if the surplus was used, protest and prevent its use until their debentures had been redeemed?

The reply of Mr. J. W. Sharpe, K.C., the Provincial Municipal Auditor, thereto is as follows:—

Section 304 provides for the application of the fund in the redemption of any debentures (not due) for which it was created. Sinking fund money should not be used for any other purpose than the redemption of the debentures for which it was provided. It is, therefore, necessary to keep separate accounts of the moneys received for the debenture issues, and the moneys collected for one issue should not be applied in redemption of other issues. Councillors who vote for misapplication are disqualified. The accumulated surplus cannot be properly appropriated without an investigation to distinguish the amounts collected for each issue of debentures.

The subject has been brought before me in other municipalities and it was a very difficult one. The only conclusion I can arrive at is while councils are obliged to raise a sinking fund they are not obliged to raise more than enough. Any surplus in sinking fund should not be used for general town purposes, but why not use it to reduce yearly levy for sinking fund in each particular case?

Any ratepayer and probably any debenture holder would have a right to protest against an unauthorized appropriation of the fund.

ASSESSMENT AND COLLECTORS' ROLLS

Combined assessment and collectors' rolls are in use so that there was no need of checking the assessments from the one roll to the other.

Rolls for the years 1919 to 1922 inclusive were gone over, and all alterations in assessments were authorized in the minutes of the Court of Revision.

Assessors' affirmation was seen for the years 1919 and 1920, but in the latter case it was not attached to the roll. It was not seen at all for the year 1921, and in the year 1922 it was not completed or attached.

Clerk's certificate was not attached to any of the rolls seen and it is necessary "that the clerk shall attach to the roll a certificate signed by him according to the following form:—

"I do certify that the within, or 'annexed' or 'attached' (as the case may be) roll is the collector's roll prepared according to the provisions of the Assessment Act for (naming the municipality or ward) for the year," and shall deliver the roll so certified to the collector on or before 1st October or such other date as may be prescribed by by-law of the municipality, chap. 195, sec. 100."

Date of mailing or delivery of notices was inserted in all cases.

Collector's oath was not seen or attached to any of the rolls, and from enquiries made it does not appear that he has ever officially returned his rolls.

The following excerpts are inserted for his benefit, and are taken from the pamphlet issued by the Provincial Municipal Auditor:

"At or before the return of his roll every collector shall make oath in writing that the date of every demand of payment or notice of taxes required by section 107 or 108 and every transmission of statement and demand of taxes required by section entered by him in the roll has been truly stated therein. Every other person who has delivered or mailed a notice pursuant to sections 104, 106, or 108 shall in like manner at or before the return of the roll make oath that the date of the delivery or mailing of every such notice by him has been truly stated in the roll. Every such oath may be according to form 10 and shall be written on or attached to the roll and may be taken before the treasurer or before any of the persons mentioned in section 228. Chap. 195, sec. 116.

If any of the taxes mentioned in the collector's roll remain unpaid and the collector is not able to collect the same, he shall deliver to the treasurer of his municipality an account of all taxes remaining unpaid, and in such account shall show opposite to each assessment the reason why he could not collect the same by inserting in each case the words "non-resident" or "not sufficient property to distrain," or "instructed by council to return not collected," or as the case may be. He shall at the same time furnish the clerk of the municipality with a duplicate of such account, and the clerk (in cities "the treasurer") upon receiving the same shall mail a notice to each person appearing on the roll with respect to whose land any taxes appear to be in arrear for that year. Chap. 195, sec. 119. Faithful observance of the provisions of this section would ensure prompt discovery of any errors made in the collector's returns. It appears, however, in many cases to have been ignored and it is surprising that it should be so. If the collector should omit to give credit on the roll for any payment to him, the account to the clerk and the notice by him to each ratepayer appearing to be in arrear would at once lead to the detection of such omission. Auditors should check the account sent to the clerk with the collector's roll and if they find that the provisions of this section have not been observed they should make to the council a special report of the facts.

Upon making oath before the treasurer that the sums mentioned in such account remain unpaid, and that he has not upon diligent inquiry been able to discover sufficient goods or chattels subject to distress under section 109, whereon he could levy the same or any part thereof, the collector shall be credited with the amount not realized. In cities and towns oath may be qualified, showing that in respect of vacant land, collector has not attempted to distrain upon goods and chattels of the owner except upon such vacant land. Chap. 195, sec. 121.

The intention of the Assessment Act is that the collector shall collect all collectible taxes and return only those which cannot be collected by distress.

Totals were often in pencil. The summary was mostly in pencil and not attached to the roll.

Greater care should be exercised in the completion of the rolls, and making the summary thereof.

It was noted that in the north ward, the Capron Estate was assessed at \$784, and the rate of 18 mills on the dollar taken which is the township rate. This is a portion of a farm within the boundaries of the town. No agreement was seen, nor do the officials know under what authority this is done.

LOCAL IMPROVEMENT ASSESSMENT ROLL

Blank ruling of roll in use was very complicated and new roll was secured and written up as at the first of the year. List of the unpaid assessments dealing with the older local improvements was drawn off with the treasurer and is attached.

It has not been the custom to enter these local improvement assessments in the collector's roll. It was done for the first time in the year 1922 but the amount so entered was not added into the total taxes payable. As these assessments have not been properly dealt with in the roll they have not been entered in the tax arrears register.

The treasurer is making a special effort to get all the unpaid assessments cleaned up, and those not paid will be entered into the tax roll for the year 1923, and will be returned as tax arrears if not paid.

TAX COLLECTOR'S SETTLEMENTS.

Mr. G. R. Tate has acted as tax collector for the past several years. The rolls have not been properly returned and no settlement statement has been seen for the rolls for the years 1919 to 1922.

These were prepared and are attached hereto.

The following are the results:—

Year 1919—Collectors over.....		\$149 36
Year 1920—Collectors short.....	\$5 95	
Year 1921—Collectors over.....		89 52
Year 1922—Collectors short.....	39 83	

In discussion the tax collector claims that all the money he received was paid over to the treasurer, and entered in his cash book. He is of the opinion that the interest added of five per cent. may account for part of these differences, but as far as he was concerned the town neither owed him any money nor was he indebted to the town.

In compiling these statements the markings on the roll were taken.

TAXES UNCOLLECTED AND ARREARS

No register of arrears of taxes had been kept and the only evidence of unpaid taxes were contained on lists which were pasted into a book. A register was secured and all tax arrears entered therein.

Delinquent taxpayers in the past have escaped paying the statutory interest imposition. It is true that when arrears were paid the treasurer added five per cent. as this was authorized in the by-laws levying the taxes. It is necessary for the treasurer on the 1st of May in every year to add ten per cent. to the arrears then due in respect of any parcel of land. Where a percentage has been added, the treasurer shall add only sufficient to make up ten per cent.

In the preparation of the register of arrears the interest at the rate of 10 per cent. per annum has been added to all arrears. There is no doubt that the municipality has suffered a loss by not following the Municipal Act in this matter.

List of tax arrears has been prepared and is attached hereto. At the year end these amounted to \$2,979.65.

The collector of taxes is required to furnish the clerk with a duplicate of the account of unpaid taxes and the clerk upon receiving the same shall mail a notice to each person appearing on the roll with respect to whose land any taxes appear to be in arrear for that year. This had not been done, and so as to verify the uncollected taxes and tax arrears, the following notice was sent out to all taxpayers who were in arrears.

Of those sent out three were returned by the post office as they were unable to locate the taxpayers at the address given.

TOWN OF PARIS

TAXES UNCOLLECTED AND ARREARS

MUNICIPALITY OF PARIS

CLERK AND TREASURER'S OFFICE

March 1923.

Name.....

Address.....

Description of Property.....

Dear Sir, or Madame,

In connection with a Provincial Municipal Audit of the books and accounts of your municipality, the following tax arrears are recorded against the above property. Kindly report any incorrectness of this statement immediately to Henry Glover, Chartered Accountant, 331 Bay Street, Toronto.

Tax Arrears Year.....	_____
10% Interest added 1 May.....	_____
Tax Arrears Year.....	_____
10% Interest added 1 May.....	_____
Tax Arrears Year.....	_____
10% Interest added 1 May.....	_____
Tax Arrears Year.....	_____

Yours truly,

HENRY GLOVER, C.A.,

•For Provincial Municipal Auditor.

Two letters were received one of these confirmed the statement, and the other in reference to the John Kay estate claimed payment in full. The payment in dispute is \$18.53. Taxpayer was phoned and told to call and produce the receipts, this she failed to do. This matter could be taken up with the collector, and he states he will make an adjustment of this amount if the taxpayer produces a receipt showing payment of this amount.

CEMETERY

By-law No. 299 passed by council on 16th December, 1889, deals with the rules, regulations and fees in respect to the town cemetery. By-law No. 544 passed 15th December, 1909, deals with the amount payable, namely, \$50 per superficial area of 160 square feet in respect to the perpetual care of the lots.

Minutes of March 29, 1920, contains a resolution dealing with the moneys received for such perpetual care. It states "That in future all moneys received by the treasurer for care of lots in perpetuity in the cemetery be placed in the bank in a special account."

The amount of \$1,683 received since this date details of which are shown on attached statement, has been deposited into a special bank account. Part of this account has been used in the purchase of war bonds, such securities were checked over and the particulars of same are given hereunder.

Dated November 1st, 1919
Mature November 1st, 1934.

Interest rate $5\frac{1}{2}\%$
Payable May 1st—November 1st.

<i>Serial No.</i>	<i>Amount.</i>

A278861.....	100 00
A020854.....	100 00
	<u>\$1,400 00</u>

Total amount now on hand in respect to perpetuity consists of Dominion of Canada War Bonds of.....	\$1,400 00
Balance in Savings Account, Bank of Montreal.....	422 49
	<u>\$1,822 49</u>
Making a total of.....	

This represents the amount paid for the care of lots of.....	\$1,683 00
And interest accruals of.....	139 49
	<u>\$1,822 49</u>
Making a total of.....	<u>\$1,822 49</u>

Previous to the passing of the resolution stating that all moneys be deposited into a special account, there had been received according to the records \$1,850. A list of items making up this amount is attached hereto. This amount had been taken into the general account and expended, as there was apparently no resolution to the effect that it be set aside into a special account.

Board of Cemetery Trustees could be appointed to take care of matters pertaining to the cemetery, they to be responsible for the investments purchased, the funds received for perpetual care of graves, etc. The income received from interest on investments and receipts for the sale of lots might well be used for cemetery purposes only.

BONUSES IN AID OF MANUFACTURERS

By-laws may be passed by the council of all municipalities for granting a bonus for the promotion of manufactures in the municipality, to such person, in respect of such branch of industry or undertaking, and on such terms and conditions as to security and otherwise as may be deemed proper. Sec. 396.

Where the bonus is exemption from taxation or a fixed assessment the same shall not be for a longer period than ten years, but may be renewed from time to time for further periods not exceeding ten years at any one time, and the by-law shall not apply to or affect taxation for school purposes. Sec. 396-E.

In the case of a by-law for granting a bonus in aid of a manufacturing industry, the affirmative vote of three-fourths of all the members of the council and the assent of two-thirds of the electors who vote on the by-law shall be necessary. Sec. 278-2.

By-laws passed by the council granting bonuses by way of fixed assessments were seen, and a synopsis of these is given on the following sheet. None of these by-laws appear to have been passed on by the ratepayers, the town officials spoken to could not remember that they had been, neither could any record be found containing this information. A perusal of extracts from the Municipal Act as given above will show that it is essential for this to be done. By-laws renewing or extending the period for another ten years should also be voted on by the ratepayers. Summary of fixed assessments for the years 1919 to 1922 and also total assessed value appear on a schedule under that caption.

BY-LAWS RE FIXED ASSESSMENTS.

By-law 623—Passed 13th November, 1916, states that for a period of ten years from 1st January, 1917, Penmans, Limited, shall be assessed including business assessment at the sum of \$150,000, except as to school taxes, and that except as to taxation on an assessment of \$150,000 including business assessment, the lands, buildings and other property of the said company shall for the period be exempt from taxation except for school purposes.

By-law 618—Passed 28th August, 1916, states that for a period of ten years from 1st January, 1917, the Geo. W. McFarlane Engineering Company shall be assessed for school purposes only, including business assessment at a sum not greater than \$32,500.

A *By-law* was passed in 1903 exempting The Sanderson Harold Company from taxation except school taxes for a period of ten years, but no renewal by-law was seen at the end of this period. This exemption stopped in 1919.

By-law 625—Passed 1st December, 1916, states that for a period of ten years from 1st January, 1917, the Alabastine Company, Paris, Limited, shall be assessed including business assessment at the sum of \$8,000 except as to school taxes, and that except as to taxation on an assessment of \$8,000, including business assessment, the lands and buildings of the said company as enumerated shall for the period be exempt from taxation, except as to school taxes.

A *By-law* to fix the assessment of the Y.W.C.A. has not been passed.

There is no record of any of these by-laws being voted on by the ratepayers.

HOLD-BACK FROM CONTRACTORS RE GUARANTEE.

Hold-back of 10 per cent. from Grant Contracting Company in respect to various constructions amounted to some \$5,600. Instead of the proceeds of debentures being set aside and used for repaying the bank for advances and other accounts due for this work, and to cover the hold-back, the proceeds were carried into the general account, and used in paying off all the indebtedness of construction payable immediately and the balance used for general purposes. This resulted in no funds being kept on hand to cover the hold-back. This was apparently taken up in the council as the treasurer opened a special savings account and has on deposit therein an amount sufficient to pay off the Grant Contracting Company.

The same has occurred again in respect to the pavement construction under By-law No. 742. An amount of \$28,179.11 was secured from the bank for this purpose and will be repaid when debentures are sold. Sale was effected in the early part of 1923.

The funds have been used and there are two accounts yet to be paid, namely, F. Barber and Associates, Limited, \$262.03 and Brennan Contracting Company \$2,614.05, making a total of \$2,876.08, which will have to come out of the general funds.

MUNICIPAL CASH BOOK.

Government approved form of municipal cash book is in use. The transactions for the year 1922 were gone over in detail.

Receipts were not all deposited into the bank, and a great many payments being made in cash.

The bank columns were not used, and a great deal of difficulty was caused in verifying the transactions with the bank.

Receipt stubs were seen in most cases for moneys received and checked to cash book. Official receipt form as given elsewhere in this report should be issued for all moneys received and duplicate retained on file for audit and other purposes.

Payments were made on order of the mayor. These orders were checked into cash book and payee's signature seen in the case of all cash payments.

Cheques properly endorsed by payees were attached to orders when payment was made by cheque. List of payments not authorized in the minutes is attached. Order numbers 482 to 519, inclusive, dated 3rd to 31st October, 1922, were not signed by the mayor.

Subsidiary cash books were kept wherein all taxes were entered as received. These were totalled periodically and entered in the municipal cash book. Additions of these were checked and totals checked into cash book. Adoption of tax cash book as outlined elsewhere in this report will not necessitate the use of so many books as is used at present.

Poll taxes entered in cash book agreed with receipt stubs on file and compare favourably with other years.

Register of dog tags sold was checked into cash book, and found correct.

PAYMENTS NOT AUTHORIZED IN MINUTES FOR YEAR 1922

The following payments were made and proper entry made in cash book and order book, but were not included in schedules of accounts passed in minutes of council meeting.

PETTY CASH ACCOUNT

Payments prior to the 14th April, 1923, had been made both by cash or cheque. At that date all cash on hand was deposited in the bank, and thereafter all payments will only be made by cheque. There are a number of petty expenditures, however, to be made during the month, and for this purpose a cheque for \$200 was drawn and charged to the treasurer. All petty payments will be made therefrom and entered in a petty cash book, provided for that purpose. Receipts being obtained in all cases and retained for audit purposes.

From time to time as this fund is used, the treasurer will prepare a statement of such expenditures and submit this to the council so that a cheque may be passed to cover the expenditures made by him to that date. At all times there should be in the cash box provided specially for petty cash purposes, either \$200 in cash or in vouchers received for the payment out of petties.

BANK ACCOUNT

From and after the 14th April, 1923, all payments are to be made by cheque. The balance of cash on hand at that date, amounting to \$875.55 was deposited into the bank, and after that date all receipts are to be deposited into the bank intact.

CASH AND BANK BALANCES

Certificate from the bank was received, and is given hereunder—

BANK OF MONTREAL

March 17, 1923.

TOWN OF PARIS.

We hereby certify to the following balances at credit of the above in our books at close of business on 31st December, 1922.

Current Account.....	\$1,629 39
<i>Savings Department—</i>	
Sinking Fund Account.....	49 18
Cemetery Perpetuity Account.....	422 49
Special Account.....	5,179 68
Loans to Bank of Montreal.....	28,179 11

C. E. CLARKE,
Manager.

E. W. CAPRON,
Accountant.

In respect to all these balances, with the exception of the current account they were agreed with the figures contained in the town's records.

Receipts are not all deposited in the bank, and expenditures are made both by cheque and cash.

The balance called for in the Municipal Cash Book at December 31st, 1921 was.....	\$1,560 37	
In reconciling this it was found that there was cash on hand of.....		\$158 99
Payments had been made to the Provincial Treasurer on account of the Housing Commission in excess of rents collected from Householders and not entered in the cash book and carried as cash on hand of.....		537 72
Cash in bank, per pass book.....	\$1,629 39	
Less out standing cheques of.....	765 73	
Making a net balance of.....		863 66
Total of these various items amount to.....		<u>\$1,560 37</u>

CASH AND BANK BALANCES

Cash book was balanced off on 13th April, 1923, and the reconciliation of the balance as called for is shown hereunder:—

CASH AND BANK RECONCILIATION AT 13th APRIL, 1923

Balance:

1st January, 1923—

Cash on hand.....	\$158 99

MINUTE BOOK.

This is in loose leaf form and the minutes are typed. Those pertaining to the year 1922 were read over. Reference was also made thereto for a great many other matters.

With the exception of the following points, the minutes were in good order.

Minutes of January 9, 1922, were not signed by the mayor or clerk.

Minutes of October 2nd were not signed by the clerk.

Those for December 15th were not signed by the mayor.

BY-LAWS.

It has been the custom to have the by-laws typewritten, and those in the clerk's care are folded in docket form arranged in serial number, and placed in drawers. This makes reference very difficult and an easy matter for any of these to be extracted and not returned to its place.

Loose leaf form of by-law book has been secured and in future all by-laws will be typed on a sheet specially punched so that they may fit on the binder. Index of by-laws should be kept up to date as under the present system it is a difficult matter for reference purposes.

TOWN LEDGER.

No town ledger was kept wherein was recorded the assets and liabilities of the municipality, and it was necessary to obtain these from several sources.

The town property was secured from the drawing off of a list from the assessment roll. This is attached. Debenture indebtedness was drawn off the debenture register, but had to be checked back to make sure that there was no accrued and unpaid amounts. It was found that debenture interest for the amount of \$546.56 was unpaid.

In like manner all of the other assets and liabilities had to be determined.

A ledger in loose leaf form was obtained and all the assets and liabilities as contained on the balance sheet as of 31st December, 1922, were written therein. Where possible much fuller particulars were written into the ledger account than is shown on such balance sheet. This ledger was left in balance, and it is for the treasurer to keep this written up, so that at the next year end, the town auditor may draw up his balance sheet therefrom.

The necessary entries were explained to the treasurer, and these will be supplemented on request as occasion arises.

Journal was also provided and one important yearly entry is to debit the tax collector with the total amount of the roll and credit up to the several levy accounts the amount contained in that total.

COLLECTION OF TAXES.

Tax bills should be rendered with stub attachment filled in as to the amount to be paid on the specified payment dates. When these are paid to the tax collector, he will detach such stub as refers to that particular payment, and retain this for entry at a convenient time. On the tax bill retained by the ratepayer would be a space with similar particulars as the stub attachment, and it is on this space that he would mark his receipt for that particular payment.

Tax collector's cash book in form similar to sample submitted hereafter, should be entered up from such stub attachments. Daily totals would be made of the tax collections and deposit made into the bank in an account termed "Tax Collections" for that particular year, the amount of such deposit being entered in the space provided in the cash book.

The bank would once each month, or more often if necessary, transfer the amount standing to the credit of the tax collector's bank account to the general town account, the town treasurer making the necessary entries in the municipal cash book. In this way the tax collector would be responsible for all tax collections. They would all be deposited intact daily and no withdrawals can be made by the tax collector from such account.

Collector's cash book will also form a reliable check, as it can be compared with the stub retained by him, and also be checked into the tax roll item by item. This would make a great improvement on the present system.

Discount allowed or interest added to such tax items will be shown in the special columns provided therefor, and in the case of tax arrears being collected, a special column has been provided for the entry of these.

COUNCIL PAY LIST.

Council pay lists form is submitted herewith for use by the clerk in listing the accounts to be presented before council for payment.

Invoices as received are to be numbered in rotation and approved by the superintendent of the department to which they refer.

Clerk will prepare the pay list in ink or typewriting.

Finance committee will show their approval by attaching their signatures in the place provided therefor, and the minutes will state "That council pay list number.....of the amount of \$.....which has been approved by the finance committee is passed in council."

Town clerk will hand the pay list to the treasurer, who will prepare his cheques therefrom, inserting on such list the cheque number against the accounts to be paid.

Invoices should be kept on file according to their numerical number and should be in the clerk's care.

HOUSING COMMISSION.

Balance sheet as at 31st December, 1922, is attached hereto. Cash on hand of \$140.08 is made up of the following rents due 1st January, 1923, but paid prior to that date:

Stephenson, W. J.....	\$21 00
West, Miss C.....	20 67
Cotton, Mrs. H.....	19 40
Marshall, W.....	18 00
Connors, Thos.....	21 00
Spencer, A.....	14 67
Bennett, C. H.....	25 34
	<u>\$140 08</u>

Cash in bank of \$152.04 is the balance of construction account in the Bank of Hamilton.

Sale agreements of \$60,010.89 is the total of the balances as shown in the ledger, list of which is subjoined. The balance now due the Province of Ontario on account of advances made for the construction of the houses and interest accruals is \$59,737.99, and none of this is in arrears. The amount due the town of Paris of \$537.72 represents payments made to the Provincial Treasurer out of the general fund to the town of Paris in excess of rents collected.

Rents due and unpaid making up this amount are as follows:

Edgington, E.....	\$72 00
Connell, Geo.....	216 00
Haggett, J.....	21 57
Jenner, A.....	42 80
McDonald, J.....	42 00
McLaughlin, Robt.....	62 01
Patterson, J. A.....	21 34
Rawcliffe, Robt.....	60 00
	<u>\$537 72</u>

Surplus of \$27.30 is the result of interest being charged to householders for arrears on payments, while on the other hand no interest has been charged to the Housing Commission for payments made to the Provincial Treasurer out of town moneys, to make good such arrears.

Statement of receipts and expenditures for the year 1922 is as follows:

RECEIPTS

Geo. Cornell.....	\$138 00

Balance Unpaid Rentals, 1921.....	\$180 27	
Provincial Treasurer (rents).....	5,171 40	<u>\$5,351 67</u>

Pass books used in connection with the recording of payments by householders were called in and compared with the ledger accounts kept by the treasurer. These were all correct.

The following two pass books were not seen:

Connell, Geo.—Balance due as shown by the ledger, \$3,314.46 at 15th January, 1923. This man has left town, and taken book with him.

Freeman, Ransom—Balance due as shown by ledger, \$2,246.21 at 28th February, 1923. This man has left town and taken book with him. W. Carroll is now renting house, and making payments on same.

The amount due by the Housing Commission on the 14th April, 1923, was \$703.96, and so that the Housing Commission could pay this amount back and in future deal with the transactions through their own bank account, an advance or loan of \$800 was made by the town on this date, and deposited in the Bank of Montreal, under the name of the "Housing Commission." The amount due the town of \$703.96 was paid back. Hereafter all moneys collected from householders will be deposited into this bank account and the monthly cheque to the Provincial Treasurer will be drawn therefrom.

Cash book properly headed is in the hands of the treasurer with instructions as to the proper recording of the transactions as they occur.

RECOMMENDATIONS.

That the office of the town clerk and treasurer be separated from that of the Public Utilities Commission.

That the vault contain only the records of the town.

That a new plan of the town should be prepared as there does not appear to have been one compiled since the year 1856.

CONCLUSION.

In the preparation of the report and the compilation of the statements, all the information possible has been given so that reference can be made thereto in the future.

Instead of reporting on the books to be obtained, and the manner of recording entries, the books were secured and written up so that the treasurer has a good clean start.

Conferences with the collector and treasurer will no doubt result in them following more closely their respective duties as laid down in the various Municipal Acts.

Reference to the pamphlet on file in the town office prepared by the Provincial Municipal Auditor, J. W. Sharpe, K.C., in respect to "Duties of Officials" will soon refresh their memories as to the course they should follow.

The assistance of the clerk and treasurer, C. B. Barker, the tax collector, G. R. Tate and Mr. Fred Bishop, as well as the kind co-operation of His Worship the Mayor, J. M. Patterson, and the chairman of the Finance Committee, Col. A. H. Monteith, and members of the council, is gratefully acknowledged.

Respectfully submitted,

HENRY GLOVER,
Chartered Accountant.

TOWN OF WALLACEBURG, ONTARIO.

PROVINCIAL AUDIT.

REPORT OF SPECIAL INSPECTION, AUDIT AND EXAMINATION OF THE BOOKS, ACCOUNTS, VOUCHERS AND MONEYS OF THE MUNICIPAL CORPORATION OF THE TOWN OF WALLACEBURG, IN THE COUNTY OF KENT.

Upon the authority of an Order-in-Council approved by His Honour, the Lieutenant-Governor of the Province of Ontario, the 9th day of March, 1923, A. F. Falls, Chartered Accountant, of the City of Chatham, was instructed and empowered to make an inspection, examination and audit of the books, accounts, vouchers and moneys of the Municipal Corporation of the town of Wallaceburg, in the county of Kent, under the provisions of chapter 228, R.S.O. 1897.

In pursuance of the said authority and instruction, the said A. F. Falls hereby reports that he has made an inspection, examination and audit of the various accounts of the said corporation.

The audit is made upon the petition of certain ratepayers, addressed to the Provincial Municipal Auditor.

The petition requests that the examination be made for the years 1918 to 1922 inclusive.

SCOPE OF AUDIT.

The inspection and examination under the Order-in-Council covers the accounts of the municipality from January 1, 1918, to December 31, 1922, including Hydro, Waterworks, Public Library Board, Public School Board and High School Board.

OFFICERS.

C. B. Jackson, the present clerk and treasurer of the municipality, has held these offices during the entire period covered by this audit. J. B. Cousins held the office of collector of taxes for the years 1918 to 1922, inclusive. L. G. McNiece has held the positions of secretary of the Hydro Board and engineer of the town, and in charge of the waterworks for the period covered by this audit. A. B. Carscallen has held the position of auditor for the period covered by this audit.

OFFICERS' BONDS.

C. B. Jackson, clerk and treasurer, is under bond in the sum of \$1,500 under policy 772780 in London Guarantee and Accident Company, Limited, expiring December 5, 1923.

J. B. Cousins, collector for 1922, is under bond in the sum of \$2,000 under policy 703717 in London Guarantee and Accident Company, Limited, expiring October 1, 1923.

L. G. McNiece, secretary of the Hydro Board, is under bond in the sum of \$5,000 under policy 056174 in the Dominion of Canada Guarantee and Accident Company, Limited, expiring February 1, 1924.

E. U. Dickinson, secretary of the Board of Education, is under bond in the sum of \$1,000 under policy 772951 in London Guarantee and Accident Company, Limited, expiring March 15, 1924.

The municipal council of 1923 have made changes in officers' bonds and fire insurance policies on municipal property recently in accordance with what they deem necessary.

CASH AND BANK ACCOUNT.

The bank account and all items in the municipal cash book have been checked and, with the exception of a few items entered in the wrong columns, were found to be correct.

One debenture coupon of \$60 was paid twice. On January 8, 1920, the coupon due December 15, 1920, was paid in advance of maturity in error. On December 21, 1920, the holder of the bond missed the 1920 coupon, and wrote to find if it had been paid. The treasurer looked and could not find that it was paid in December of 1920, and took a bond of indemnity and paid the coupon again on March 21, 1921. When this was drawn to the attention of the treasurer during this audit he communicated with the holder of the debenture who, when the matter was explained to him, promptly remitted the \$60, so the matter is now settled.

BOOKKEEPING.

The municipal cash book is the only book of accounts kept by your treasurer; he has no ledger, the cash book being relied on for records and information of the municipal finances. There are reports and statements on file.

The town engineer keeps records of local improvement and other work done under his supervision, the material used and labour and other items that enter into the cost of the work, but this is more of the nature of a memorandum than a properly kept ledger.

The lack of proper books and the means of knowing how the appropriations of each department were being lived up to is one of reasons that the annual estimates were exceeded and deficits created.

The control of the finances of any municipality cannot be carried on satisfactorily without the expenditures of the different departments being watched from month to month to see that the estimates on which the tax rate is based are being lived up to.

WATERWORKS.

The waterworks system of the town of Wallaceburg has never been self-sustaining. The manner in which its finances have been conducted and the

extensions put in is a burden to the taxpayers. The water rates charged have not produced sufficient revenue from users and the town for hydrant rental to meet the operating cost of the plant and pay the annual amount of debentures and interest for installing the waterworks system.

During the years 1918 to 1922, inclusive, there has been expended on water-main extensions, etc., \$31,872.75, not one cent of which was provided for by collection of water rates, special tax rate or sale of debentures for that particular purpose. The income from these extensions from water users in 1922 amounted to \$954.91, not enough to pay 3 per cent. on the capital investment let alone pay for the operating expenses of furnishing these users of water.

In a great many towns in Ontario no extensions of water mains are now made except as local improvements, the property owners paying for them as they would for a pavement.

The property owners in Wallaceburg who have vacant property facing or abutting on streets on which there are watermains do not pay water rates at all on the vacant property. This is not so in many other municipalities.

To be considered self-sustaining the waterworks department should provide sufficient revenue to meet annually all the expenses of operation, maintenance and repair, also the principal and interest of the debenture indebtedness. Had such a condition existed here, the rate of taxation since the waterworks has been installed might have been less.

Under section 37, of the Municipal Waterworks Act the corporation may provide by by-law for the assessment and collection of a special tax or rate in each year, not exceeding four mills on the dollar, upon the several properties according to the assessed value thereof fronting or abutting upon the street in, through and along which the waterworks mains are laid, as well as all other properties which may enjoy the advantage of the use of water from the said main distant not more than 300 feet therefrom for the purpose of protection from fire whether the owners or ratepayers thereof use the water or not for general purposes, to meet the yearly interest on any debenture issued for the purposes of the said waterworks, etc.

The portion of the debenture indebtedness of the town for pumping plant, buildings, mains, etc., together with the cost of maintenance and operation including all allowance for repairs and renewals should be provided by those who actually use water for domestic and other purposes, and those whose property is benefited by the construction of the water system in the municipality.

Different municipalities have different methods of fixing rates for which vacant property contributes to the waterworks.

One municipality collects \$4 net per annum for water rates on each vacant lot 75 feet frontage or under. They tax as a vacant lot all occupied lands fronting on a street on which there are watermains exceeding 75 feet frontage by 150 feet depth; as for example, a property on the corner of King and Queen Streets, on both of which there are watermains with dwelling on it with frontage on King of 100 feet and frontage on Queen 200 feet, the ratepayer would pay for water used in dwelling at rate provided by by-law, also \$4 a year for 25 feet on King Street in excess of 75 feet, and \$4 a year for 50 feet on Queen Street, in excess of 150 feet allowance for depth of lot.

The waterworks by-law of the town of Wallaceburg, should be revised and such rates imposed on property and water users that the waterworks will be self-sustaining and not a burden on the ratepayers in general.

There is no reason why the waterworks of the town should be any more burden on the general taxpayer than the Hydro. If the same methods were

used in connection with water extensions as are insisted on by Hydro, there would not be so much capital outlay on unprofitable sections of the town as there has been during the past five years.

The waterworks department gets no credit for water used in parks, for street sprinkling or storm sewer flushing.

LOCAL IMPROVEMENTS.

During the five years under review there has been considerable paving and other work done by the municipality under the day labour plan.

Materials purchased and charged to local improvement account have not all been used for the local improvement work, some of which have been used to construct private walks, driveways, etc., build walks for Public Library, gravelling cemetery road, repairing old pavements and walks, work done by Park Board, and the construction of storm sewers, etc., which were not part of the local improvements then under construction.

The manner in which this has been handled and without full particulars in the treasurer's office as to how and where the materials were used except on the filing of the annual report by the town engineer, has led to confusion and a disturbed mental attitude of some of the ratepayers as to whether they are being charged in the local improvements that they are assessed for, for material, etc., that went elsewhere. If it were not for the careful record of details of the materials used in the various works as recorded by the engineer it would have been impossible to trace the accounts in connection with the local improvement materials used.

Attached is a statement showing \$6,825.30 of materials, etc., used in various ways, the only record of which is kept by the engineer and reported from time to time to the council in his annual report.

It is far from businesslike that the town should have made roadways, walks, etc., for private parties in 1919, 1920 and 1921 for which there was still unpaid on December 31, 1922, \$1,654.78.

This doing work for private parties by the town should be stopped or some means taken for prompt collection of the amounts as soon as the work is finished and not allow years to go by with the possibility of some of the accounts being a loss by reason of property changing hands or people moving away.

Some ratepayers have been permitted to commute their local improvement taxes against their property after the debentures have been issued and sold. This procedure is absolutely wrong and should be stopped. On March 8, 1923, the Church of England was permitted to commute taxes under By-law No. 692, \$610.59, which amount has gone into the bank to the credit of the general funds of the town and will be used as such. Where is the town going to get the \$62.86 yearly for the next fifteen years to meet that amount of the debentures that the by-law provided against the Church of England property? Where can the council or officials find any law to justify such transaction? During the past five years a number of other items were commuted.

The delay in the sale of local improvement debentures has been very costly to the municipality.

These local improvements were paid for by money borrowed from the bank. The debentures issued to pay for the 1919 and 1920 local improvements were not sold till May 29, 1922. In the meantime interest amounted to a considerable sum.

Interest on 1919 local improvement advances.....	\$5,519 88
Interest on 1920 local improvement advances.....	8,026 12
	\$13,546 00

interest from the time the money was borrowed till the money was received from the sale of debentures, May 29, 1922.

There was included in the figures of cost of work estimated, amounts that would be paid out for interest till the debentures were sold.

By-law 679—1919 local improvement interest included....	\$749 14
By-law 658—1920 local improvement interest included....	2,452 52
	\$3,201 66

When the debentures were sold the municipality received \$3,776.45, premium and accrued interest, which shows a loss of \$6,567.89 in interest on the local improvements of 1919 and 1920.

The 1921 local improvement debentures were not sold until the present year while the interest on bank advances to the time of sale of debentures amounts to \$6,362.45.

There was included in the figures of cost of work estimated amount that would be paid for interest until the debentures were sold, \$4,175.94.

When the debentures were sold, B. L. 692, February 7, 1923, the municipality received for premium and accrued interest \$1,021.91. This shows a loss of interest to the municipality of \$1,164.60.

It is only fair to mention that some delay was caused by litigation.

SCHOOLS.

Attached are statements of the receipts and disbursements of the High School and Public School Boards for the year ending December 31, 1922.

The tax rolls do not contain a table or recapitulation showing name and amount of each rate levied as required under sec. 99, chap. 195, R.S.O.

The school tax computations for the years 1918 to 1922, inclusive, have been gone over and all the school boards have received all the money they were entitled to up to December 31, 1922, except the Public School Board who had drawn \$26,500 against the debenture issue of \$75,000 which left \$48,500 still due them on D. A. Gordon School Debentures.

ASSESSMENT AND COLLECTORS TAX ROLLS.

The tax roll of municipality of the town of Wallaceburg is a combined assessment and collectors tax roll.

The manner in which the tax rolls are prepared does not comply with the requirements of the Act.

The general tax rate which includes all the taxes imposed except local improvement taxes is not entered at all in the general rate column of the tax roll, but is mentally added to the local improvement taxes imposed and included in the total tax. These taxes should appear in the roll against each assessment in the general tax column provided for that purpose. Wallaceburg is the only municipality I have seen in over thirty years of auditing which prepares its tax roll in that way.

R.S.O., chap. 195, sec. 99, subsec. 3, provides as follows:—Appended to every roll made up under subsec. 2 there shall be a table setting forth the total amount of taxes to be collected, name and amounts of each rate and the aggregate proceeds. The clerk is required to furnish to the treasurer of the municipality a copy of such table.

Sec. 100 of the same Act states:—The clerk shall attach to the roll a certificate signed by him according to the form stated in this section and shall deliver the roll so certified to the collector.

These requirements of the Act have not been complied with.

The Act requires the return of the tax rolls to the treasurer from the collector on or before April 30th or such earlier date in that year as the council may appoint. R.S.O., chap. 195, sec. 115. This has not been complied with at all; in fact, there has been no legal return of the 1918, 1919, 1920, 1921 and 1922 tax rolls of the town of Wallaceburg.

Owing to no proper return of the tax rolls there is no arrears of tax ledger kept and as a result no land tax sale has been held for any of the years covered by this audit. Unless the requirements of the Act are carried out, lands cannot be sold for taxes and a tax deed given that will convey a good title to the lands sold for taxes.

Attached herewith, under Schedule 13, are lists of the items in the tax rolls of the years 1918 to 1922, inclusive, that were unpaid on December 31, 1922. These lists include business and income taxes which cannot under any circumstances be a charge against the lands occupied by these persons.

Efforts have been put forth to collect these unpaid taxes, and the business and income taxes not now paid cannot be considered of much value in a financial statement of the municipality.

It is no wonder that the finances of the municipality are in an unsatisfactory condition when five years' tax rolls are permitted to remain in hands of the collector at one time, when each year's roll should have been returned before the roll of the following year was handed to the collector. The loss of interest alone on these arrears is a considerable sum.

The town of Wallaceburg is the only town that I know of in the Province of Ontario that has the alphabetical method of assessment. It is not possible to check an assessment made in that way with a map or plan with that method of assessment in use. They overlook the important fact that it is the land that is liable for the tax in the case of real estate, not the person. The only argument in favour of that method is that it is easier for the clerk to make up his voters' list. To find any property on the roll it is first necessary to find some one who knows the name of the person who owned the property in the year in which the taxes are being looked up.

The usual method of assessing in towns is by streets, blocks, subdivisions and wards, and in a township by concessions. The property cannot be too carefully described as the description of the assessment is the description that a tax deed would be given for. In your assessment roll there are a number of descriptions as part lot 11, con. 2, or part lot 11, con. 1. These descriptions do not comply with the Act, R.S.O. 1914, chap. 195, sec. 22, subsec. (d) which reads: "Where part of a lot in a city, town or village is to be assessed, it shall be a sufficient description of it, if the name of the owner and the tenant, if any, and the number of feet of its frontage are entered on the assessment roll; and the part assessed shall be deemed to be that part of the lot belonging to the owner whose name is so entered."

The assessment of any municipality should be done in such a way that would permit the checking of the work to prove that nothing was omitted.

The taxes on the 1920, 1921 and 1922 rolls are entered in pencil. In the roll of 1920 there were errors in computing and addition amounting to \$124.40, which was a loss to the municipality.

TAX RATE.

The tax rate of the town of Wallaceburg for the year 1923 has been struck at 56 mills, which does not include local improvement taxes.

There is a desire on the part of the ratepayers to find out why the rate is so high.

For a great many years the town has been paying for what councils of the past failed to provide for in the tax rate of the town for that year and will have to continue paying for another decade. For evidence of this all that is necessary is to examine the debenture debt of the municipality.

Four issues of floating debt debentures since 1895 are still a charge on the taxpayers of 1923 as follows:—

	Yearly
By-law 205 —1895 yearly till 1926.....	\$982 26
By-law 93 —1904 yearly till 1934.....	1,473 40
By-law 122 —1906 yearly till 1936.....	1,535 13
By-law 681A—1922 yearly till 1932.....	4,643 37
	\$8,634 16
Total annual payment.....	

The waterworks of any municipality should be self-sustaining; that is, the water users and the town hydrant rental should meet the annual payment of debentures and interest for waterworks construction and the operating expenses of the plant.

In Wallaceburg they are far from that, but impose an extra tax on all the ratepayers to make up the deficiency; this is more fully dealt with under the heading of Waterworks.

The manner of striking the tax rate in the town of Wallaceburg is unique as shown by the figures of 1919 and 1920 estimates, which do not appear in the minutes of council meeting at which the rate was struck but are on loose sheets; the sheets for 1918, 1921 and 1922 have been mislaid and have not come under my perusal. I am informed they were made up in the same manner as 1920.

Included in the estimated receipts to provide funds for the year 1919 there is entered taxes outstanding on old rolls \$9,000, for the year 1920 taxes outstanding on old rolls \$6,700, although these amounts were not a source of revenue for the year in which they were included in the estimates but belonged to previous years, and against these uncollected taxes there were notes or overdrawn bank accounts against which these uncollected taxes should be applied.

It is hard to understand how the mayors, councillors and officials of the town, in preparing figures on which to base the tax rate for different years, included the arrears of taxes of previous years as a source of revenue of the year for which they were calculating the rate, when they must have known perfectly well that the tax arrears were required to pay county rate, notes and overdraft in the bank which had not been paid because the taxes had not been collected.

In all my experience I have never come across such financing and could hardly realize it possible that such could be the case.

The estimates for the 1923 tax rate did not include arrears of taxes as a source of revenue.

FINANCIAL AFFAIRS.

The attached statement of assets and liabilities, Schedule 15, includes as an asset the issue of \$35,000 of debentures authorized by recent special Act of Parliament which were not sold until 1923 and were required to cover amounts expended by the councils in excess of what was provided on the tax rolls of 1922 and previous years.

The \$75,000 of public school debentures were not sold till 1923, but are included as an asset, as the board had been advanced \$26,500 on account, and the \$48,500 balance due the Public School Board is shown as a liability.

The current liabilities, which do not include an account of the town solicitor, are about equal to the available assets, and the 1923 council will have a start on practically an even balance. Any difference in the current liabilities and available assets on December 31, 1923, will show whether they have lived within the 56 mills on the 1923 roll or have gone behind as previous councils had done.

When no ledger is kept by the town treasurer and it is necessary to resort to information procured from other sources than the town treasurer's books, there is always a question whether all the assets and particularly all the liabilities of the municipality are set down. The annual audit report to December 31, 1922, does not include as a liability the county rate of 1922, amounting to \$10,884.90.

The attached statement of assets and liabilities contains all the known assets and liabilities of the municipality (except the solicitor's account) as could be procured from the clerk and treasurer and engineer of the municipality.

It is to be regretted that the financing of the town's affairs has not had the care and attention its importance demands. The frequent change of members of council is no excuse for the amount of loss the town has sustained in interest on delayed sale of debentures, interest on the delayed collection of taxes, and the direct tax on the ratepayers owing to the manner the waterworks extensions have been made without regard to what revenue it would produce.

MUNICIPAL ASSETS.

Included in the fixed assets as shown in the asset and liability statement will be found only such assets as are owned by the municipality and could be sold to satisfy a debt of the corporation.

The high school, public schools and public library are not an asset of the municipality, the title of which is vested in the different boards that control the property.

The bridges and cemetery are not included.

The waterworks, sewers, pavements and sidewalks are included with the passive assets at the value of the principal of the debentures issued to construct them, which was unpaid on December 31, 1922.

The continuation and public schools also appear in the passive assets for the amount of unpaid debentures outstanding on December 31, 1922, as the municipality issued the debentures and is primarily liable for them.

RECOMMENDATIONS.

That assessment be made by streets, blocks, subdivisions or wards as in other municipalities and the alphabetical method of assessment be discontinued.

That the tax roll be prepared as required by the Act, the items entered in ink in the proper columns, recapitulated and certified.

That the collector return the tax roll before receiving that of the following year for collection. That a proper arrears of land tax book be kept so that tax sales can be legally held from time to time.

That when the by-law striking the tax rate is passed by the council the detailed estimates on which it is based, including the appropriations for each department, be entered in the minutes of the council meeting for permanent record.

That proper records of the expenditures of each department be kept and the council be furnished from time to time with statements of each department showing the amount of appropriation and what has been expended and balance available, and it be insisted that the different committees and boards live within the appropriations on which the tax rate is fixed.

That only orders signed by some one authorized to issue them, be given for all material, supplies, etc., for the various departments and boards so that invoices can be checked to see that items are charged against the department for which they are purchased.

That gravel, cement and other materials purchased for local improvement work and used elsewhere, be charged to Library Board, Park Board Cemetery Board, Board of Works or other departments monthly, and not be just taken and used to build walks, gravel roads or construct sewers, repair pavements, etc., without being charged to these departments as has been the case in the past.

That accounts be opened for each local improvement under the name and by-law number by which the expenditure is authorized and each item charged as expended so that the treasurer's books will contain the records of the money spent on each undertaking and be a check on the figures of the engineer when he furnishes the final statement of the cost of the work.

That the authority of the council be recorded in the minutes for the expenditure of money on sewers, drains or bridges and the sale of material to ratepayers and laying of private walks, driveways, sewers or other work for ratepayers be reported to the council and recorded in the minutes so that prompt collection will be made if this system is to be continued. There was \$1,654.78 due the town on December 31, 1922, for work and material of the years 1919, 1920 and 1921.

That no ratepayers be allowed to commute the taxes for local improvements after the debentures have been issued and sold. There is a liability created when the debentures are issued which is to be met yearly by collecting from the property owners each year till the debentures are paid, when they are permitted to commute, the money is spent in the year it is commuted and where is the money coming from in the future years to meet that portion of the payment? It must come out of the general taxes.

That the water rates by-law be revised so as to fix the rates and impose water tax on lands benefited whether occupied or not so that the waterworks will be self-sustaining and not continue to be a burden on the general taxpayer.

That waterworks department get credit for water furnished for street sprinkling, parks or fountains and for sewer flushing, and the proper department charged with the amount.

That the minutes of council proceedings mention besides the number of by-laws under discussion, particulars of what the by-law is for.

CONCLUSION.

It is anything but pleasant to me to have to report on the conditions I find in my audit of the town of Wallaceburg which are not satisfactory.

There is some benefit, however, in my being able to point out to the rate-payers the most important reasons why these conditions exist and how most of the defects can be overcome and avoided in the future.

Any private undertaking carried on in the manner in which the affairs of the town of Wallaceburg have been administered would very soon result in disaster.

The repeated issues of debentures to cover up deficits, no matter how or why they existed, shows that there has not been a proper knowledge of the condition of the finances of the town from year to year, or the council had not courage to face it if they did know it, or a remedy would have been provided to prevent repetition.

Your attention has been drawn in this report to the true state of affairs and how they can be remedied so that in future the affairs of the town can be conducted without having to impose such a high rate of taxation as you are paying for 1923.

The officials are not entirely to blame for the conditions that exist. I believe that they have honestly endeavoured to perform their duties. Frequently they did not get the support in the performance of their duties from members of the council that they should have.

From what information I have been able to get there is very little doubt but that if the members of the council in past years had abstained from interfering with the collector of taxes in the performance of his duties, a considerable amount of the unpaid taxes would have been collected long ago.

Attached hereto are the following schedules:—

LIST OF SCHEDULES.

1. Abstract of receipts and disbursements, 1922.
2. Detailed receipts and disbursements, 1922.
3. Public Library Board receipts and disbursements, 1922.
4. Public School Board receipts and disbursements, 1922.
5. High School Board receipts and disbursements, 1922.
6. Hydro-Electric Commission receipts and disbursements, 1922.
7. Waterworks receipts and disbursements, 1922.
8. Waterworks statement operating expense over revenue.
9. Waterworks capital expenditures and excess of operating cost.
10. Local Improvements, material used in other works.
11. Local Improvements to ratepayers not paid for December 31st, 1922.
12. Outstanding Accounts, December 31st, 1922.
13. Uncollected Taxes, 1918 to 1922 inclusive.
14. Debenture Liability.
15. Assets and Liabilities, December 31st, 1922.

I desire to thank the officials, mayor, members of council and others who have rendered assistance during the continuance of this audit.

I shall be pleased to furnish any further explanation or advise with the council in reference to any of the matters mentioned and recommendations contained in this report.

Yours truly,

A. F. FALLS, F.C.A.

Chatham, Ont.,

November 5th, 1923.

TOWN OF WALLACEBURG

Federal Building,
Toronto, Ontario,
June 19th, 1923.

TO THE REEVE AND COUNCIL,
Township of Mara,
County of Ontario.

Gentlemen,—

Acting under instructions from the Provincial Municipal Auditor, Mr. J. W. Sharpe, K.C., an inspection, examination, and audit of the books, vouchers and moneys of the municipal corporation of the township of Mara was made.

The audit was granted upon a petition signed by numerous ratepayers. The period covered was for the years 1919, 1920, 1921 and 1922 as requested in such petition.

PETITION.

To His Honour the Lieutenant-Governor
of the Province of Ontario.

The petition of the undersigned resident ratepayers of the township of Mara in the county of Ontario.

That John Fox, formerly, for a period of nearly fifty years, treasurer of the township of Mara, departed this life on or about the fifth day of September, A.D. 1922, after a lingering illness. That the books and finances of the said treasurer were duly examined and audited by auditors of the said township from time to time, last of such audits being the fifth of July, A.D. 1922, the same were passed as correct and satisfactory and certified by said auditors.

That a dispute has arisen between the township council and the representative of the estate of the late treasurer regarding the correctness of the financial affairs of the township from the year 1919 to the year 1922 as shown by the books of the late treasurer and as certified by the township auditors.

That the township council have refused to comply with the request made by the estate of the said John Fox for a Provincial audit to settle the matters of dispute aforesaid.

Your petitioners therefore pray that the Provincial Municipal Auditor be required to make an investigation, examination and audit of the books, accounts, vouchers and moneys of the municipality of the said township of Mara for the years 1919 to 1922 inclusive and for such further period as in the judgment of the said auditor may be necessary to determine the matters in dispute.

SCOPE OF AUDIT.

In a preliminary enquiry it was found that the matter in dispute between the township and the estate of the late treasurer was an item included in the Abstract of Payments for the year 1921 stated "Balance due treasurer from 1920" \$1,023.72, and an item shown in the Abstract of Payments for the year 1922 described as "Balance due treasurer from 1921" \$1,023.72.

Resolution was received from the council as follows:—

"That whereas this council has been advised that Thomas Fox has circulated a petition and secured a sufficient number of signers asking for a Provincial audit of the accounts of this municipality; and whereas the above-mentioned petition was signed to clear up a difference existing between the township auditors and the accounts of the late treasurer, Mr. John Fox.

"In view of the great expense which would be incurred by an unnecessary audit of all the township books, we feel that the audit should be confined to the particular item in dispute or to the books of the township treasurer.

"And that a certified copy of this resolution be forwarded to the proper authorities through the township solicitor, Mr. M. M. Roach."

Cash book which contained the above items and the resolution from the council were submitted to the Provincial Municipal Auditor, J. W. Sharpe, K.C., along with verbal explanation.

After giving the matter full consideration, he decided that the audit should be completed for the four years from 1919 to 1922, as it was very evident from the condition of the cash book that other errors may have been made.

This has amply been proven as will be seen upon a perusal of the report.

BALANCE SHEET.

Balance Sheet drawn up as at 31st December, 1922, discloses that there is a deficiency in the current account of \$144.09. This means that the current liabilities exceed the current assets by this amount.

In the treasurer's cash statement as corrected there appears to be a cash credit or overdraft at 31st December, 1922, of \$1,246.41. This is accounted for by the habit of the treasurer in including in his cash book, tax collections that do not take place till January of the following year and also the repayment of bank loans and accrued interest which do not take place until the early part of the next year.

Treasurer's cash balance adjustment at 31st December, 1922, is given hereunder, so that the balance as shown in the consolidated cash statement may be reconciled with the balance as shown in the balance sheet.

By Balance overdraft, per statement 31st December, 1922.....		\$1,246 41
Tax items charged to cash, 31st December, 1922, not received until 1923.....	\$10,500 00	
	6,316 11	
	3,055 77	
	<u>19,871 88</u>	
Interest on same not received until 1923.....		139 10
To Bank loans, treated as redeemed, 31st December, 1922, not repaid until 1923.....	\$25,000 00	
Accrued interest on above notes not paid until 1923.....	621 85	
By Balance corrected at 31st December, 1922.....		4,364 46
	<u>\$25,621 85</u>	<u>\$25,621 85</u>

BALANCE SHEET

This amount of \$4,364.46 being made up of:		
Cash on hand or in bank of.....		\$2,699 65
Cash due from J. Fox Estate of.....		1,664 81
		<u>\$4,364 46</u>
Taxes uncollected 1922 roll are made up as follows:		
Total on roll.....		\$44,005 81
Less Cash actually received by Township at 31st December, 1922		23,500 00
		<u>\$20,505 81</u>
Less Cash in Standard Bank Tax Account.....	\$6,686 87	
Cash in Royal Bank Tax Account.....	5,862 13	
	<u>12,549 00</u>	
		<u>\$7,956 81</u>

These tax items in the Standard and Royal Banks were not transferred into the township account until 1923.

Tax arrears with county treasurer are according to a list received from her. While non-resident taxes with county treasurer are the taxes for the year 1922, which appear on a separate sheet in the collector's roll, and are not included in the total taxes to be collected.

Advances made for the construction of Drain No. 1 have been financed by loans from the bank with the exception of \$267.20 which represents township funds. Debentures are to be issued to cover such construction cost when completed.

Among the current liabilities is included levy made in advance to meet debenture due on January 1st, issued under by-law 492 for School Section No. 2.

Bank loans and accrued interest are made up as follows:—

Township notes outstanding at 31st December, 1922.

Note No.	Principal	Interest	Repaid
Note No. 36.....	\$4,000 00	\$100 60	14 Feb. 1923
“ 38.....	4,000 00	100 60	9 Apr. 1923
“ 40.....	5,000 00	125 75	5 Jan. 1923
“ 41.....	6,000 00	150 90	3 Jan. 1923
“ 43.....	6,000 00	144 00	3 Jan. 1923
	<u>\$25,000 00</u>	<u>\$621 85</u>	

Capital assets have been included at a valuation to offset the capital liabilities. The ratepayers' equity in capital assets amounts to \$8,900, and is represented by the township hall, gravel pit, and road machinery.

DRAIN NOTE.

It was noted that on 15th December, 1919, an item appeared in the Drain cash book entitled “By note \$258.45.” This note was evidently held by the treasurer until 14th November, 1921, when it was discounted at the bank with the accrued interest as \$288.30. No entry was made in the cash book at this date for this transaction. Note was repaid on January 4th, 1922, but charged to the township bills payable instead of the proper drain account. Statements contained in this report show this transaction under its proper heading.

CASH STATEMENT.

Consolidated statement of receipts and expenditures for the years 1919 to 1922 inclusive is attached hereto.

Abstract statements for the various cash accounts are also included. In the compilation of these any errors made by the treasurer were corrected.

Municipal Drain “A” cash account shows an overpayment of \$1,138.49. This means that township funds have been used to this extent. Construction costs have exceeded the estimates and the debenture issue was not sufficient to take care of such costs. The council should take the necessary steps to provide for this.

Ruttle Drain shows a balance on hand of \$57.72. This account is not necessary. The balance could be taken up when the annual levy is made. The debenture levy each year, which is included in tax receipts and annual payment of the debenture, appearing among the expenditures, is all that is needed.

Municipal Drain No. 1 will be dealt with by the issue of debentures and the greatest care should be taken that provision is made in the issue for all costs.

Village of Brechin funds are mixed up with township funds. These should be separated.

Cash statements as submitted hereafter are according to the treasurer's reports with the exception that corrections were made as to errors.

In every year the treasurer has included the total taxes collected as a receipt, although quite a large amount of the money did not get into his hands until the early part of the following year.

Redemption of bank loans have similarly been included among the payments although the transaction did not actually take place until the early part of the next year.

CASH BOOKS

Approved form of municipal cash book was not in use. This was secured and the treasurer instructed as to the entries to be made therein. Several cash books have been kept, namely, one for the police village of Brechin, one for the drain account, and one in which the school grants from the county treasurer and the disposal of same were entered.

With the exception of certain small cash items all receipts were deposited into the bank, only one account being kept.

Payments were made by warrants bearing the signatures of the clerk and reeve. Some of these were paid by the bank. Others were paid in cash by the treasurer, while a few were held by the treasurer who issued a cheque on the township account, bearing only his signature.

A cheque was drawn at frequent intervals by the treasurer for several hundred dollars at a time, so that he would have sufficient cash to pay warrants as presented to him.

The condition of the bank account at any time is very uncertain. The treasurer does not know until the end of the month what warrants have been paid by the bank, as he only makes entry of these in his cash book when he receives the paid warrants from the bank, or when he actually pays the warrants himself.

On account of the wide area of the township, it is stated that it is not possible to make all payments through the bank, and a continuance of cash payments is essential. It is important, however, that the bank should be reconciled at intervals and the cash balance as called for in the cash book, be either in the bank, or actually on hand.

Cash book for the year 1923 was not written up, and it is understood that the transactions will all be written into the approved form of the municipal cash book.

DEBENTURES.

Statement of debenture indebtedness is attached hereto. Debentures paid during 1919 to 1922 were seen and verified.

The Hydro-Electric Commission of the police village of Brechin issued debentures amounting to \$1,500 under by-law 546 on February 17th, 1919, for thirty years at six per cent. These debentures are guaranteed by the township of Mara in default of payment by the Commission.

JOHN FOX ESTATE

IN ACCOUNT WITH TOWNSHIP OF MARA.

Attached statements disclose that there is due to the township from the estate of the late treasurer an amount of \$1,664.81.

Cheque for this is in the hands of Mr. Brown, manager of the Standard Bank, at Brechin, who will place this to the credit of the township bank account when he receives a letter confirming the correctness of this amount.

Up to the time of the late treasurer's illness in the fall of the year 1921 there did not appear to be any difficulty with the recording of the transactions.

In the preparation, however, of the cash abstract statement for the year 1921, the acting treasurer, Mr. Tom Fox, included among his payments an amount of \$1,023.72 stating that it was a balance due treasurer from 1920. His explanation of this was that in the abstract statement of receipts and expenditures for the year 1920, there appeared an item among the expenditures reading: "Balance due treasurer from 1919 \$910.86." To this he added interest making the amount \$1,023.72 and carried this among the expenditures for the year 1921. His argument was that he could not see where his father had received payment for the amount of \$910.86.

In the preparation of the cash abstract statement for the year 1922 this amount of \$1,023.72 was again included among the payments for the same reason as stated previously. It was explained to him that as this amount, which was a credit balance in the township cash account at December 31st, 1919, had been brought forward by the late treasurer and included among the payments in the abstract statement for the year 1920, credit had in this way been taken for the amount. He would, therefore, need to account to the township for these two similar amounts of \$1,023.72.

In checking over the collector's roll for the year 1921, and ascertaining the amounts collected and paid over to the treasurer, it was discovered that the acting treasurer had charged himself in the township cash account with the total amount of taxes collected. He had also charged himself in the village of Brechin cash account with tax receipts of \$1,360.23; Ruttle Drain cash account with tax receipts of \$153.05; School cash account with tax receipts of \$100; making a total overcharge in the cash accounts of \$1,613.28.

When the acting treasurer turned over the township accounts to the newly appointed treasurer on the 4th of July, 1922, and made a settlement with him, the position of affairs was that he had taken credit wrongfully for \$2,047.44, and had debited himself in error with \$1,613.28, this making a balance due by him of \$434.16.

This completes the matters that were the cause of the enquiry and it is for the township treasurer to debit his township cash account with the amount of \$434.16 as balance due from estate of John Fox per auditor's report.

Statement of affairs upon which present treasurer assumed the position as at 4th July, 1922, was drawn up in the township cash book. This is given hereunder in detail.

RECEIPTS

July 4, Receipts.....	\$22,370 88
Balance on hand for Drain "A".....	92 87
" " " "B" (Flood branch).....	261 30
" " Ruttle Drain.....	60 07

Bills Payable.....	4 10
Schools.....	6,619 44
Salaries.....	921 50
Balance due Mara township from police village of Brechin.....	484 42
Balance due retiring treasurer from Drain No. 1.....	5 00
Balance in Bank.....	7,536 37
Cash due incoming treasurer.....	287 22
	\$22,785 12

It will be noted that cash was paid over to the incoming treasurer to the amount of \$287.22, and that the township bank account was also transferred according to the foregoing statement, there being a balance of \$7,536.37. This, however, was the balance as shown by the pass book, and no attention had been paid in respect to cheques issued by the acting treasurer and taken credit for by him, but which had not been presented to the bank for payment up to the time that the pass book was balanced on July 4th, 1922.

From a perusal of the settlement statement it will be noted that there were four outstanding cheques amounting to \$1,364.50. From this is deducted a payment made by the acting treasurer of the amount of \$133.85 and not taken credit for by him, but was taken credit for by the new treasurer. This net amount of \$1,230.65 is to be added to the balance due by the estate in respect to incorrect entries of \$434.16, making a total balance due of \$1,664.81.

As the new treasurer accepted the balance as shown in the bank he is really short in his accounts for the \$1,230.65, so that no entry will be needed in the township cash book of such amount. All that is necessary is that bank cheque be placed to the credit of the township bank account, and the treasurer will debit his cash account with the \$434.16.

TOWNSHIP OF MARA

John Fox Estate,

In account with the Township of Mara.

To item taken credit for, as at 1st January, 1921, entitled "Balance due Treasurer from 1920" which is incorrectly entered in cash book.....	\$1,023 72	
To item taken credit for, as at 1st January, 1922 entitled "Balance due Treasurer from 1921" which is incorrectly entered in cash book.....	1,023 72

To Balance brought down.....	\$434 16	
To net amount due <i>re</i> outstanding cheques, 4th July, 1922, per statement.....	\$1,230 65	

In the settlement by the Estate on July 4th, 1922, the balance in the Standard Bank of \$7,536.37 was handed over to the new treasurer along with cash to the amount of \$287.22. However, certain cheques issued by Thos. J. Fox, acting treasurer, and taken credit for by him, were outstanding at this date, and paid later on. Consequently the estate has to reimburse the present treasurer for such items.

COLLECTOR'S ROLLS, YEARS 1919 TO 1922.

Collector's Rolls for the years 1919, 1920, 1921, and 1922 were checked with the assessment rolls for the same years as to assessments and agreed with the following exceptions:

<i>1919 Roll.</i>			
Roll No.	Name	Address	Assessment
61A.....	Barnes, Rev. J.....	Atherley.....	\$1,100 00 On tax roll, not on assessment roll.
252.....	Cowie, J. A.....	Balsoner.....	2,600 00 " "
1059A.....	Wright, Wm.....	Brechin.....	2,450 00 " "
<i>1920 Roll.</i>			
819A.....	McKeown, T. J.....	Toronto.....	100 00 On tax roll, not on assessment roll.
<i>1921 Roll.</i>			
524.....	Lee, J.....	Uptergrove.....	1,400 00 On tax roll, not on assessment roll.
928.....	Stewart, A.....	Brechin.....	Assessed as \$7,100, extended in collector's roll as \$7,500.00.

Revision of Assessments was authorized through minutes of council meetings.

Tax rolls were reconciled when returned by the collector, details of which are appended hereto. Uncollected taxes at this date have been reconciled with cash received on account of same up to May 1st of each year, when those taxes still remaining unpaid were returned to the county treasurer. Copies of returns made for the years 1919 to 1922 were received from the county treasurer, and agree with those as shown by the reconciliations, details of which are given in this report.

Lists of cancellations during 1919 to 1922 are attached and these were authorized by minutes of council meetings.

Clerk's certificate was seen in all collector's rolls.

Collector's oaths were not seen. These should be attached to the collector's roll.

At or before the return of his roll every collector shall make oath in writing that the date of every demand of payment or notice of taxes required by sections 107 or 108 and every transmission of statement and demand of taxes required by section entered by him in the roll has been truly stated therein. Every other person who has delivered or mailed a notice pursuant to Sections 104, 106, or 108, shall in like manner at or before the return of the roll, make oath that the date of the delivery or mailing of every such notice by him has been

truly stated in the roll. Every such oath may be according to Form 10 and shall be written on or attached to the roll and may be taken before the treasurer or before any of the persons mentioned in Section 228, Chap. 195, Sec. 116.

Page totals were in pencil and sometimes not made at all. It is important that all markings on the roll be made in ink, and any alterations made in red so that the original figures may be seen. When all extensions have been made summary of all page totals should be made and attached to roll showing the total amount of taxes due on each levy.

Recapitulation of tax rolls for years 1919 to 1922, as found in back of rolls, follows:—

Levy	1919	1920	1921	1922
County Rate.....	\$8,195 64	\$11,921 45	\$12,061 03	\$12,965 60
Township Rate.....	13,245 78	18,116 83	17,882 13	15,170 86

Board of Health.....			36 00	
	\$33,687 47	\$46,896 13	\$46,139 47	\$44,005 81

INSURANCE AND BONDS.

Insurance is carried on township hall amounting to \$800 under policy No. 5570203 of The London Mutual Fire Insurance Company of Canada for a premium of \$13.50 expiring July 18th, 1925. Renewal receipt dated July 18th, 1922, was not seen.

Tax collector was bonded during 1922 for \$20,000 jointly and severally by Messrs. Joseph Cox and John Hannon and bond appears in good order, properly signed by the interested parties.

The present treasurer is bonded for \$30,000: \$20,000 by David H. Evans, and \$10,000 by himself. Bond agreement was seen, but is not in good order due to errors and corrections in wording, and a new agreement should be carefully drawn up by your solicitor, setting out the conditions and obligations of each party more fully. The bond is dated July 3rd, 1922.

POLICE VILLAGE OF BRECHIN.

Trustee's order August 27th, 1920, in favour of Ed. Brady for \$4.50 not signed by the township treasurer.

Trustee's order March 27th, 1920, in favour of Brechin Hydro was not endorsed.

Trustee's order November 7th, 1922, in favour of Tom Kehoe for \$14.70 was not endorsed by him.

Trustee's order June 28th, 1922, in favour of Brechin Hydro for \$99 was not endorsed by them.

TREASURERS.

The accounts of the late John Fox, who was treasurer for nearly fifty years, did not call for any detailed explanation. During his illness his son acted as treasurer and not being familiar with the township accounts, no doubt, got a little mixed up.

It is to be regretted, however, that the township auditors did not note the various errors made, and have them corrected.

The present treasurer is not conversant with township accounts either, and unless the greatest care is taken by him, there will be need of further investigations at a later date.

It would be a very wise move on the part of the council if they appointed someone familiar with municipal affairs and accounts to assume the duties of clerk and treasurer, paying therefor an adequate remuneration, so that this official could give all his time in the service of the municipality.

A great deal of improvement could be made in the whole of the clerical work, and in the keeping of the records.

RECOMMENDATIONS.

That separate bank account be opened for the police village of Brechin and all receipts pertaining to the village be deposited therein and all payments made from same. In order to meet expenditures before taxes are received, a loan could be made from the township at the beginning of each year or as often as is needed and paid back when taxes are received.

The Government approved form of municipal cash book as secured be used hereafter for recording of all cash transactions.

That the treasurer's accounts only include those cash items received and paid to December 31st of each year and that items received after that date be included in the next year's records.

The foregoing report and the attached statements are respectfully submitted.

HENRY GLOVER,

Chartered Accountant.

October 31st, 1923.

THE REEVE AND COUNCIL,
Municipality of the Township of Barton,
Ontario.

Sirs,—

Acting under appointment made by J. W. Sharpe, K.C., Provincial Municipal Auditor and approved by Order in Council dated June 1st, 1923, I have made an investigation of the books, accounts, etc., of the Municipality of the Township of Barton.

The scope of the investigation embraced the periods from January 1st, 1919 to December 31st, 1922, and from January 1st, to August 31st, 1923.

My report as a result of the investigation is as follows:—

ASSESSMENT ROLLS.

In some cases the pages of the assessment rolls were not correctly totalled. The assessor's affidavit was attached to each roll but the total assessment as shown therein was not correct. Details of these differences are given in Schedule 1 attached.

During the course of the investigation it was brought to our attention that after the 1923 assessment roll had been handed in as complete, an error of \$11,000 in the addition was discovered.

In the assessment roll for the year 1919, on folio 116, an assessment of \$480 for L. B. Chubbick was added to the roll and initialled as though authorized by the Court of Revision.

In the same year, on folio 3, John Wherry's assessment of \$100, and on folio 13, William Harding's assessment of \$150 were struck off the roll and marked "Court of Revision."

On folio 49, on lots 99 and 100, Houghton Avenue, the original assessment of \$300 was altered to \$240 and \$100 respectively being an increase of \$40 and marked as though authorized by the Court of Revision.

On folio 14 of the South roll a \$150 assessment, E. and B. Dingwall was added.

On folio 19, a \$100 assessment for H. Hodgson was added. On folio 56, a \$360 assessment for Mrs. Hulme was added. These were marked as being authorized by the Court of Revision. The Court of Revision minutes, however, do not record any of these items.

In the year 1921 on the North Assessment Roll, folio 5, the assessment for the Bartonville Sand and Gravel Company, was reduced by an amount of \$5,600. The Court of Revision minutes authorized a reduction of \$4,000 only.

The differences as referred to above would indicate that sufficient care is not being exercised in the preparation and revision of the assessment roll each year.

In this connection you are referred to Section 69, sub-section 22 of the Assessment Act which reads as follows:—

"The clerk shall forthwith alter and amend the assessment roll in accordance with the decisions of the Court of Revision, and shall write his name or initials against every alteration or amendment."

COLLECTOR'S ROLLS.

In many cases the assessments were incorrectly copied to the collector's rolls from the assessment rolls. Schedule 2 attached is a list of these differences for the period under review.

In preparing the collector's roll the clerk should be careful to carry to such roll the exact assessment as recorded on the assessment roll after same has been approved by the Court of Revision.

In checking the totals of the "assessment" column it was found in some cases that the additions were not correct, and in comparing the grand total with the assessment roll total for each year they did not agree.

This would either indicate that the totals of these respective rolls had not been compared each year or that having been compared and found to differ the officials showed great laxity in their duties in passing same.

In this connection it has been the custom for the tax collector to enter the names and assessments on the collector's roll after which the clerk and the collector, jointly, entered the rates and calculated the various levies.

Your attention is called to the fact that the rolls should be completed by the clerk before being handed to the collector, as set out in R.S.O. 1914, Chap. 195, Sec. 99.

"The clerk of every municipality shall make a collector's roll or rolls as may be necessary, containing columns for all information required by the Assessment Act to be entered therein by the collector. In such roll or rolls he shall set down the name in full of every person assessed, the amount and particulars of assessment as finally revised, and in separate columns the amount for which each person is rated for County Rate, General Rate, Special Rate, Local Improvement Rate, Public School Rate, Separate School Rate, Special Rate for School Debts, and other rates, the proceeds of which are required by law or by by-law to be kept distinct and accounted for separately. Rate for collecting the principal or interest for the payment of debentures issued may be included in General Rate."

For the year 1923 a new design of collector's roll in two parts is in use which does not provide for all the information as required in Section 99 quoted above.

Your attention is called to the fact by this keeping the roll in two parts it involved a great deal of extra work in writing the ratepayers names in both parts and in sending out two tax bills. It will also require almost twice as much time in future years in tracing the taxes on any particular lot.

If it is considered advisable to have taxes payable at two different times this could be arranged by including all taxes on one bill and providing for payment in two or more instalments.

As mentioned in my Interim Report the 1923 collector's roll was handed to the tax collector before it was totalled and before the clerk's certificate was attached.

In the 1922 collector's roll an item of \$43.17 was added to the roll but was not included in the total. This would indicate that this item had been entered after the roll was originally completed.

ANNUAL RATES.

Schedule 3 attached shows in comparative form details of the annual levies for all purposes except local improvement debenture levies.

In the year 1922 errors were made in calculating the Separate school requirements and the amounts as calculated were entered on the roll. We checked these calculations in detail and as a result found that certain ratepayers have overpaid while other ratepayers deducted the overlevy when paying their taxes. Such overlevy was struck off by resolution of council in 1923. Details of the above are shown in Schedule 4 attached. The ratepayers who have overpaid are entitled to a refund for the amount as shown in Schedule 4.

Provision has been made in statements attached to provide for this refund and also for an additional \$8.50 which will be required to be struck off by resolution of council.

TAX ARREARS.

There was no evidence that the collector's rolls had ever been "returned" as provided for in R.S.O. 1914, Chap. 195, Sec. 115 as follows:—

"Collector shall return his roll to treasurer on or before the 14th December in each year or on such day in next year not later than 1st February as council may appoint. In towns and villages when council has by by-law provided that the assessment shall be made between 1st July and 1st October under provisions of Sections 56 to 60 of the Act, the collector shall return his roll to the treasurer on or before 30th April in the second year following the completion of the assessment roll or on such earlier date in that year as the council may appoint."

There is also no evidence that any effort had been made to balance the rolls with the cash received and taxes outstanding as at any date. There were arrears' lists prepared each year to which many items were brought forward and subsequently carried from these books to the following years' rolls, but as stated above these were apparently never balanced. In order to determine a correct list of arrears it was necessary to check in detail, the cash received as recorded in the collector's cash books, to the rolls for the various years under review. In the course of this work discrepancies were discovered in the way of the "paid" date on the roll, in many cases being incorrect and the roll number in the cash book being wrong. The cash received did not correspond with the amount due, owing to discounts being allowed and not recorded and in some cases penalties being added and not recorded. This detailed checking required considerable time.

The tax arrears' list for the year 1922 was checked in detail after completing the work referred to above. This revealed the fact that several amounts on the arrears' list were incorrect. Schedule 5 attached is a corrected list as at July 31st, 1923.

In addition to this it was found that there were items in the years 1919, 1920, 1921, and 1922 which had not been carried forward to the subsequent years' rolls nor did they appear on the 1922 arrears' list. These amounts are shown in Schedule 6 attached, and total \$1,009.08.

It was also found that certain items had been carried forward in error to the various years' arrears lists and paid by the ratepayers. These items totalling \$202.70 are shown in detail in Schedule 7 attached.

The collector's cash books recorded receipts for certain tax items which did not appear on the collector's rolls for the years 1920, 1921, and 1922, nor did they appear on the list of arrears brought forward from 1919. Those in 1919 may relate to arrears for previous years which were not brought forward to the 1919 arrears' lists. Details of these which total \$453.57 are shown in Schedule 8 attached.

If as stated above the items appearing on Schedules 7 and 8 are not for arrears prior to 1919 it would indicate that these ratepayers have overpaid these amounts in which event they are entitled to a refund for the respective amounts shown opposite their names in Schedules 7 and 8.

Schedule 9 attached is a reconciliation of the tax arrears shown in Schedules 5, 6, 7, and 8, with the outstanding balance shown December 31st, 1922, and the transactions in the year 1923 to July 31st. This schedule shows an amount of \$15.81 to be accounted for by your former tax collector, Mr. D. Jepson.

You will observe in Schedule 9 that some taxes were paid to the collector and not recorded in his cash books nor were they marked off the rolls. Your attention is drawn to the possibility that there may be other items appearing on the arrears' list which have been paid. Special notices of arrears should therefore be sent to all persons whose names appear in Schedules 5 and 6.

If each year's rolls had been "returned" and balanced lists prepared the above differences would have been located.

The tax arrears' lists referred to above are recorded in an ordinary collector's roll. There is no provision in this roll for special columns in which to enter the arrears of each year. There is a proper ruled Arrears Register in the township vault which has never been used.

GARBAGE COLLECTION.

In checking the collector's rolls it was ascertained that no systematic method was adopted in recording persons benefiting from garbage collections. The Sanitary inspector should each year submit a list of persons benefiting from garbage collections and such persons should be charged on the roll. This would overcome the present difficulty in having to make allowances for persons charged in error for these collections.

TAX BILLS.

It has come to our attention that each year many tax bills have been returned undelivered.

POST DATED CHEQUES.

It has been the custom of your tax collector, in the past to accept some post-dated cheques in settlement of taxes. Your present collector is also accepting some post-dated cheques. If the tax bill is receipted when such a cheque is accepted the position of the township is altered for in the event of non-payment of the cheque the township could sue only on the cheque not for unpaid taxes.

In a few cases cheques which had been received for taxes and deposited were returned unpaid and redeposited. This led to some confusion between the tax collector and the treasurer which is referred to later in this report.

TAX RECEIPTS.

The present system of receipting for taxes at the foot of the tax bill could be improved on. I would recommend the use of a duplicate receipt book, the original and duplicate being numbered by the printer. A record should then be kept of all books obtained from the printer, which should be submitted to the auditors. All receipts should be accounted for either as a duplicate or an original cancelled as not used.

COURT OF REVISION.

The minutes of the meetings of the Court of Revision were examined.

COUNCIL MEETING MINUTES

The minutes of the meetings of the Councils for the period under review were examined.

BY-LAWS.

There is an index to your by-laws which we have checked and with the following exceptions found to be correct.

By-law No. 1335, not signed by clerk nor seal attached.

By-law No. 1341, re Hydro Contract does not have the contract attached.

The seal has not been attached to the following by-laws: 1263, 1264, 1274, 1275, 1276, 1277, 1278, 1279, 1344, 1370, and 1377.

BANK.

As your local auditors had vouched the bank cheques and deposits to December 31st, 1922, we vouched the cheques and deposits, only for the year 1922 and to August 31st, 1923.

Your treasurer had not reconciled the bank balance during the present year. To verify the balance as at August 31st, 1923, it was therefore necessary for us to check the bank items and prepare a reconciliation of the bank balances as per Schedule 10 attached.

Your treasurer did not use the bank columns as provided in the cash book. The individual items of receipts were shown in the total column, but the grouping of the items composing the bank deposit was not even indicated. This should have been done in the bank column. The cheques were not entered in the bank column but carried to the total column.

In the case of a pay roll, only the total amount was entered in the cash book, whereas cheques were issued for each person on the pay roll. In some cases a cheque would cover two or more items which did not appear in consecutive order on the pay roll.

In the case of debentures and coupons due and charged up by the bank, in many cases your treasurer entered in his cash book one amount to cover several bank charge slips. In other cases he entered the total amount of coupons due whether they had been paid or not.

Returned cheques were not entered in the cash book, but in order to account for same they were deducted from the amount entered as a deposit on the bank statement on the day when the cheque was charged back and the net amount only shown in the cash book.

With the exception of the Housing Commission funds, all funds have passed through one general bank account.

CASH BOOK RECEIPTS.

It was the custom of your treasurer to enter the tax receipts in his cash book from the bank statements which showed the amount of the deposit as made by the tax collector. These deposits, however, were not entered as such in the collector's cash book and it was therefore impossible to verify these amounts by reference to this book.

As mentioned above some cheques received for taxes having been returned unpaid were redeposited by your collector. In cases such as these the treasurer would deduct such returns from the deposit made on the same day on which the returns were charged back.

In some cases these deposits did not include the redeposited cheque, in fact the duplicate deposit slips as examined do not give any information as to the maker of the cheques included in the deposit.

With reference to other receipts entered in the cash book these were verified from such memoranda and letters as were rolled up with the treasurer's vouchers.

On April 11th, 1923, the bank statement records a deposit of \$145 and on the same date the cash book recorded a receipt for taxes of \$141. On this date the bank charged back a returned cheque of \$14 from Mrs. W. R. Green. The duplicate deposit slip for this date was examined and no cheque for \$14 appeared thereon.

On April 19th a cheque for this amount was deposited which was entered in the cash book together with other amounts as a receipt. On the duplicate slip, however, there is nothing to indicate the maker and the treasurer has not submitted to us any evidence that this refers to the redeposit of Mrs. Green's cheque.

Enquiry has been made of Mr. Jepson regarding Mrs. Green's cheque. Mr. Jepson had no recollection with reference to this item, in fact he stated that it was quite possible that the cheque had not been paid.

When presenting my Interim Report of September 11th, 1923 the facts as revealed therein, in connection with the cash book were as shown in the cash book. This was discussed with your treasurer, Mr. Gage, and the difference then shown of \$3.54 as due by him was agreed to, which he subsequently deposited, no mention being made to me of the above conditions. Subsequent, however, to my interim report being presented to the council Mr. Gage again went over the cash book and claimed that the receipt of \$141 should have been \$131 and altered his cash book accordingly. From the facts as submitted above I do not consider that this alteration was justified. I do consider, however, a further receipt of \$4 should have been entered in the cash book as the bank statement shows that the collector did deposit \$4 more than shown in the cash book.

CASH BOOK PAYMENTS.

All disbursements with the exception of debenture payments were made by cheque supported by an order signed by the Reeve.

At December 31st, 1922 the cash book showed a balance of 98 cents due to the treasurer. Upon checking the transactions for that year it was found that an outstanding pay roll cheque at December 31st, 1921, of \$817.04 had been entered in the cash book as \$817.02, also that a pay roll item in 1922 of \$781.80 was made up of several cheques totalling only \$780.80. This will account for the difference of 98 cents.

As stated previously in this report there was a charge back of \$14 by the bank and this has not as yet been entered in the cash book. This amount should be entered in the cash book and charged to the treasurer, until he furnishes evidence that this cheque has been redeposited and paid. On the other hand an entry should be made in the cash book crediting him with the \$3.54 deposited in September.

As stated above the disbursements were supported by orders signed by the reeve. There were not, however, detailed invoices supporting these disbursements. Many of these invoices were in the vault but were not arranged in any order, being merely rolled up and tied in bundles. There was, therefore, no attempt made to use these as vouchers.

It might be pointed out that your treasurer should have a proper filing system in which all cheques, orders and invoices should be filed in order of entry in the cash book.

Schedule 11 attached is an abstract of the receipts and disbursements for the period from January 1st to August 31st, 1923. The opening balance has been adjusted to provide for the 98 cents referred to previously in this report.

REVENUE ACCOUNT.

We have prepared for the years under review a revenue account in comparative form which is Schedule 12 attached.

This revenue account is for the purpose of showing whether or not your township, general levy together with other general income was sufficient to meet your general expenditure.

By reference to this Schedule you will notice that in the year 1919 there was a deficit of \$7,717.69; in the year 1920 there was a deficit of \$11,031.58; in the year 1921 there was a surplus of \$5,073.62, and in the year 1922 a deficit of \$1,243.74.

SURPLUS ACCOUNT.

The period of the investigation commenced January 1st, 1919 at which date we took the surplus as then shown by the treasurer's published statement. This surplus is shown in Schedule 13 attached together with the adjustments, deficits and surplus from the revenue accounts for the period under review which results in a net surplus at December 31st, 1922 of \$13,132.10.

In this connection your attention is directed to the fact that in the years 1919, 1920 and 1922 there was a deficit. This would indicate that the council of these years authorized expenditures not provided for in the estimates which is contrary to Section 289, Sub-section 1 of the Consolidated Municipal Act.

"Except where otherwise provided by this or any other Act, a corporation shall not incur any debt the payment of which is not provided for in the estimates for the current year, unless a by-law of the council authorizing it has been passed with the assent of the electors."

Deficits of one year should be provided for in the next year's estimates.

LEDGER.

Owing to the accounts in the ledgers kept by your treasurer not showing the proper classification of transactions it was necessary for us to re-write the accounts from January 1st, 1919 to December 31st, 1922.

Your treasurer should open up a new ledger from our statements attached as at January 1st, 1923 so as to afford information for the successive councils and provide the means whereby the annual statement may be compiled.

It has been customary in the past to prepare one general statement of assets and liabilities at the end of each year. This does not in our opinion give the ratepayers a comprehensive view of the affairs of the township.

CASH ASSETS AND IMMEDIATE LIABILITIES.

We have prepared a statement of cash assets and immediate liabilities, Schedule 14 attached, showing your immediate liabilities and available assets. By reference to this schedule you will see that the cash surplus as at December 31st, 1922 was \$13,132.10.

The opening balances for the assets and liabilities were taken at December 31st, 1918 from the published statement at that date. Any corrections of these items found necessary have been adjusted through the Surplus account, Schedule 13.

You will notice on this statement an asset item, City of Hamilton taxes \$5,036.11, details of these are shown in Schedules 16 and 16a attached. In the present year the township has received from the City of Hamilton on account of these taxes \$3,148.35.

These schedules have been prepared by us from the rolls and are for unpaid taxes and unpaid special assessments at December 21st, 1919 on the "1919 City of Hamilton Annexation." By comparing these schedules with the lists as then submitted to the city, it will be noticed that there is a difference of \$157.23 in favour of the township, indicating that certain items had been omitted.

The asset items "Due by School Sections" represent excess payments to these sections and should be added to next year's levy and retained by the township when collected.

The asset item "Due by Tax Collector \$9.98" is increased to \$15.81 in Schedule 9 as at July 31st, 1923.

The asset item "Underlevy on By-laws" represents the amount that the levy was short of the debenture requirements. When making your next year's levy provision should be made for this amount.

The asset item "Expenditures on By-laws" represents expenditures to be taken care of when these various contracts are completed and the debentures sold.

The asset item "Amount advanced to Housing Commission" represents a loan from the township.

This amount may be absorbed in losses sustained by the Commission before the loans are all repaid. To date some losses have already occurred.

The asset item "Debenture discount" represents the discount on debentures sold in the years under review and requires to be amortized over the period of debentures.

The asset item "advanced to Hydro Commission" is accounted for as follows: In the year 1921 a resolution of council authorized the treasurer to invest the balance of the Hydro Commission funds in Victory Bonds. At this date the balance of the Hydro funds on hand amounted to \$20,608.56, whereas the treasurer invested \$23,000, thereby using the General fund to the extent of \$2,391.44. In the year 1921 the cost of the Hydro construction amounted to \$6,347.67. This was paid for by disposing of Victory Bonds to the value of \$5,000, the balance of \$1,347.67 being paid out of General Fund.

In the year 1922 the cost of the Hydro construction amounted to \$11,615.23, which was paid for by disposing of Victory Bonds to the value of \$11,000, the balance of \$615.23 being paid out of General Fund.

The net result of the above is that the Hydro Commission now owes the General Fund \$4,354.34 which should be retained out of the proceeds of the Victory Bonds sold in the year 1923, or in other words the balance of the Hydro construction should not exceed \$2,645.66.

The asset item "loan to School Section No. 3" represents the amount advanced to this school in the year 1922 over and above the proceeds of the debenture issued. Next year's levy should be increased to repay this amount.

The liability items "overlevy on County Rate, etc." are accounted for by the fact that the levy in each of these cases was greater than the amount required to pay the requisition.

The liability items "due to School section" is accounted for by the fact that each year the schools were not paid the full amount raised from the rate-payers.

The liability items "Debenture levy" represents the amounts raised in the year 1922 for debentures and coupons to be paid in 1923. Details of these are shown on Schedule 14C attached. By referring to this schedule you will observe that in some cases the amount on hand at December 31, 1922 is less and in other cases greater than the amount required.

In the case of the above liabilities the next year's levy for these purposes should be reduced by the amounts over levied so that the amount raised plus the above-mentioned balance will equal the year's requirement.

The liability items "Debenture premiums" represent premiums received on debentures sold to be amortized over the life of the debenture.

The liability item "Clergy Reserve" represents the cash balance which is included in the General bank account. This balance is trust funds and should be deposited in a separate bank account.

The liability items "Proceeds from sale of debentures" represents balances not yet expended on the various by-laws for which debentures were issued.

In this connection we would draw your attention to the fact that it has been the custom to pay for the Improvement constructions, as the work progresses out of the General Fund. In order to replenish the General Fund a loan was obtained from the bank as a general town loan. When debentures were sold the proceeds would be used, in part, to repay such loans.

According to the Local Improvement Act a council may arrange for temporary advances to meet the cost of the work pending the completion, and the proceeds of the debentures when sold used to pay off this loan.

It is advisable to open a separate bank account for each improvement when started and kept separate until closed by the proceeds from the sale of debentures.

The liability item "Separate school" represents the amount levied in 1922 which has been paid in 1923.

The liability item "due to Separate school supporters" represents an overlevy in the year 1922 and is referred to previously in this report, details of which are shown in Schedule 4 attached.

The liability item "Victory Bonds discount" represents discounts received on Victory Bonds purchased and will require to be amortized over the life of the bonds.

PERMANENT ASSETS AND DEBENTURE LIABILITIES.

Schedule 15 attached is a statement of your permanent assets and debenture liabilities as at December 31st, 1922.

The opening balances for these assets and liabilities were taken at December 31st, 1918 from the published statement. Any corrections of these items found necessary have been adjusted through the Surplus account, Schedule 13.

This schedule shows a ratepayers' investment of \$6,843.97 which represents capital assets purchased out of General Funds.

The other assets on this statement appear at an amount equal to the original debenture liability less sinking fund accumulated or instalments paid off, which was the method adopted prior to the year 1919.

SINKING FUND.

Schedule 17 attached is a statement of the sinking funds in comparative form showing the amount now accumulated to be in excess of the amount required at 4 per cent. In the final levies of each by-law if an excess then exists this should be deducted before making the levy.

CLERGY RESERVE.

Schedule 18 attached is a statement of the Clergy Reserve Principal Fund as at December 31st, 1922.

As mentioned previously in this report the cash balance of \$1,860.17 is included in the general town bank account together with the balance of \$276.76 accumulated interest not distributed. These should be transferred to a separate bank account.

The securities are in a safety deposit box at the bank. These have been examined by us and found to be correct.

ANNUAL DEBENTURE REQUIREMENTS.

The local improvement register now in use was not complete in that the requirements under each by-law were not totalled. We have totalled the amounts under each by-law and found that in some cases they did not agree with the annual requirements, resulting in some ratepayers not being levied for the correct amount.

Schedule 19 attached shows the annual debenture requirements compared with the annual debenture levy. By reference to this schedule it will be observed that the annual levy does not agree in some cases with the annual requirement. This indicates that the correct amount was not raised each year.

When a debenture is issued a special rates register should be written up, totalled and balanced before the first year's levy is made.

BONDS.

We have examined the bond on your treasurer, Mr. Cameron Gage. This bond was dated December 27, 1895, and signed by George Walter and John Gage. We are given to understand that these gentlemen have been deceased for some time. There is no amount stated in this bond.

According to section 222, subsection 3 of the Municipal Act the council should each year inquire into the sufficiency of the security given by the treasurer and cause to be entered in the minutes the result of the inquiry.

We have also examined the bond on your present collector, which is for \$5,000 issued by the General Accident Assurance Company, expiring July 18, 1924. Upon examining this policy it was found that Miss Montgomery was described as the tax collector for the city of Hamilton. This was brought to the attention of the clerk who communicated with the insurance agent to have same changed.

INSURANCE POLICIES.

The following policies were examined:—

On Ford fire truck, in Dominion of Canada Guarantee and Accident Company for \$600, expiring April 6, 1924.

On Mountain Fire Hall Building, in Niagara Fire Insurance Company for \$250, expiring April 6, 1924.

On Homeside Fire Hall Building, in Niagara Fire Insurance Company for \$200, expiring April 6, 1924.

On Reo speed truck, in Preferred Accident Insurance Company for \$4,500, expiring June 5, 1924.

On Bickle fire engine, in Niagara Fire Insurance Company for \$450, expiring April 6, 1924.

RECOMMENDATIONS.

In order to avoid the future occurrence of the discrepancies and irregularities referred to in this report the following recommendations are submitted for the consideration of the council.

Collector's Rolls.—It is recommended that each year's roll be complete in itself without showing previous years arrears therein.

That the clerk balance the assessments with the revised assessment roll before the rates are entered and levies calculated.

That the clerk complete the roll, prepare the summary of levies and attach his certificate before it is handed to the collector. (See Municipal Act.) If this work is partly done by the collector there is no check on his collections.

That a copy of the summary be handed to the treasurer at the time the roll is handed to the collector. (See Municipal Act.)

That the collector be more careful in marking the amounts "Paid" and record in this column the date and collector's cash book folio.

That the council set a date each year when the roll is to be "returned" and make a point of ascertaining that it has been "returned" on the date set. (See Municipal Act.)

That the collector furnish to the treasurer a list of arrears together with a statement reconciling the original total of the roll with the cash received, discounts allowed, percentage added and arrears per list. (See Municipal Act.)

Collector's Cash Book.—It is recommended that the collector be more careful in entering the ratepayers' name, lot number, discount allowed, percentage added and cash received. That the amount of the deposit as made is recorded in this cash book. That the collector deposit his receipts in a separate bank account from which account amounts to be transferred to the treasurer's account every two weeks.

That the collector use a carbon copy receipt book numbered by the printer.

Tax Arrears Register.—It is recommended that each year's arrears as shown on the collector's list be carried to the arrears register by the clerk immediately upon receipt of the list.

That payments for arrears be made to the treasurer.

Clerk-Treasurer.—Owing to the fact that the treasurer did not perform his duties in the township office and came in only at irregular intervals the ratepayers were put to some inconvenience.

In the course of the investigation Mr. Gage was most ready and willing to come in at any time we asked and to furnish us with the information desired.

We consider, however, that in many cases the clerk should have been familiar with the information which we required. This was also the case with respect to information required from Mr. D. Jepson who was indisposed and could not always get down to the office on the day we called him.

These several conditions were discussed with the reeve and in the interim report it was recommended that the offices of clerk and treasurer be combined.

We still recommend the combining of these offices, and are of the opinion that the work would not be too heavy for one person.

Local Improvement Register.—It is recommended that a new local improvement register be written up by the clerk and that each year the levies as added to the roll be balanced with the register.

Insurance Register.—It is recommended that the insurance policies be recorded in an insurance register.

Sundry Cash Receipts.—It is recommended that the treasurer be supplied with carbon copy receipt books numbered by the printer, and that a receipt be issued for all money received.

Deposit Slips.—It is recommended that deposit slips be made in duplicate, and in the case of cheques that the maker's name be entered on the deposit slip.

Bank Accounts.—It is recommended that separate bank accounts be opened for local improvements in course of construction, clergy reserve funds, etc. The general township bank account should contain only the township general receipts and expenses.

Cash Book.—It is recommended that the treasurer close off the cash book at the end of each month.

That the bank cheques and deposits be checked and the bank balance reconciled each month.

That the bank columns in the cash book be used showing therein the exact amount of each deposit and of each cheque issued.

Ledger.—It is recommended that the treasurer open a new ledger and keep same entered up each month.

That a trial balance be prepared from the ledger each month and presented to the council.

Budget.—It is recommended that the council adopt the budget system.

SYSTEM.

The following is an outline of suggested changes in the system of accounting for the various officials.

Tax Collector.—The cash book to be kept by the tax collector, to be ruled to provide for date, receipt number, ratepayers' name, lot number, roll number, roll folio, discount allowed, percentage added, cash received, amount deposited.

Clerk—(1) Loose Leaf by-law book.

(2) Insurance register.

(3) Local improvement register.

(4) Vertical file for correspondence.

Treasurer—(1) Carbon copy receipt book.

(2) Deposit slips in duplicate showing full details.

(3) Tax arrears register.

(4) Ledger in which accounts should be opened for every asset and liability item. The opening balance to be the amount shown on Schedules 14, 14A.B, 15, 15A and 15B attached. During the year additional amounts would be posted from cash book and journal. There should also be accounts opened for income and expenditure items to which amounts would be posted from the cash book and journal every month. When the income and expenditure accounts are headed up a memo should be made at the top of the page as to the budget amount for the current year.

(5) Journal in which to record entries other than cash book entries to be posted to the ledger some of which are as follows:—

(a) When the tax roll summary is received from the clerk a journal entry should be made charging the tax collector with the total current year's

taxes and crediting the various accounts with their respective amounts in the ledger as shown on the summary.

(b) When the council allow rebates of taxes an entry should be made crediting the tax collector and charging "Tax allowances."

(c) When the tax collector "returns" his roll and submits a statement an entry should be made charging "Tax Discounts," crediting "Tax Percentages" and crediting tax collector.

(6) Cash Book. The cash book should be closed off each month, and the totals of the various columns posted to their respective accounts in the ledger. The amounts in the tax arrears column should be analyzed as to years for which the taxes received relate and the items posted to their respective accounts. The amounts in the debenture columns should be analyzed as to debenture by-law numbers for which the amounts paid relate, and the items posted to their respective accounts. The amounts in miscellaneous column should also be analyzed and posted to individual accounts in the ledger. The amounts posted to the miscellaneous income and expenditure accounts in the ledger should be as few as possible.

(7) Filing. As stated previously in this report the paid cheques and orders were properly arranged, but they were not in a permanent file in the office vault. These should all be filed away in vertical files in the vault, such files to be tabulated as to months and years. The invoices for purchases should be filed in the vault in a vertical file. The vouchers and memoranda with respect to amounts received should be filed in a vertical file in the vault.

Vault.—The vault at present in use contains many old books and records. These should be gone over and all the old books and records transferred to your storage vault.

Housing Commission.—The accounts kept to record the transactions of the Housing Commission were incomplete and so confusing that it was necessary for us to re-write the transactions.

The account in the treasurer's ledger showed the total amount due to the Government. This amount includes the balances due to the Government on loans to householders as well as a loss of \$2,658 which the Commission is bearing on account of the Donaldson and Stevenson loans that are being spread over twenty years. The treasurer kept no detail accounts in his ledger with respect to Housing Commissions transactions.

When houses were under construction and cheques issued on progress certificates these cheques were all posted to one account in the treasurer's ledger. With the exception of the cheques for solicitors' and architects' fees the entry in the ledger indicated the house against which the charge was to be made. The entries for the fees mentioned above did not show the classification. It was, therefore, necessary for us to spend considerable time searching the records, vouchers, cheques and letters to obtain this information.

Two accounts were opened in the collector's ledger for each householder. The first account was charged with the net loan. Each month the second account was charged with the instalment due. When the householder made a payment both accounts were credited. Interest was charged semi-annually in the first account.

All these entries were made direct to the ledger accounts without first being recorded in a journal or a cash book.

By making the entries originally in the ledger the collector made no provision for reconciling the total cash recorded with the cash deposited and on hand, nor for proving that the total instalments charged each month to householders agreed

with the total repayments made by the treasurer to the Province. Nor was provision made for crediting the Housing Commission with the interest charged to the householder on past due payments.

As stated previously in this report it was necessary for us to re-write the accounts from the inception of the Commission. This has now been done and we attach hereto schedules showing the position of the Commission as at August 31, 1923.

It might be here stated that the Housing Commission transactions should not appear in the township general books and statements.

The schedules attached are as follows:—

(1) Statement showing the balance due the Government on the individual loans, Schedule 20 attached.

We obtained a statement from the Government which showed only the total amount of the loan still unpaid which at August 31, 1923, was \$87,814.66.

In order to ascertain each householder's portion included in this amount, it was necessary for us to write up the accounts and to calculate the interest on each item. The accounts as kept by the collector did not give this information as explained later in this report.

(2) Statement of amounts due by householders for past due payments with interest thereon. Schedule 21 attached.

It was necessary for us to write up these accounts in order to show the amount of the past due payments with interest thereon for each householder. This shows a total of \$2,217.42 which should be paid at once. This information was not revealed in the accounts as kept by the collector.

As stated previously in this report the collector kept two accounts for each householder. The second account, however, did not show the correct amount past due because he did not charge this account with the amount by which the advance exceeded the agreement. Neither did he credit this account with the amount by which the agreement exceeded the advance. Furthermore no charges for past due interest were made in this account.

The above items, however, were shown in his first set of accounts.

The result of this was that neither set of ledger accounts revealed the information required.

By reference to Schedule 21 you will observe that in some cases there is a credit balance. These represent payments in advance which does not include an allowance for interest.

(3) Trial balance of general ledger. Schedule 22 attached.

After having drafted the transactions for the period under review we have prepared the attached trial balance of the general ledger accounts as at August 31, 1923, which is explained in detail as follows:—

Cheque in transit \$661.78 represents a cheque sent to the Government on August 31, 1923, for the September instalments and is not included in the Government statement.

Cash \$48.31, this represented the cash on hand in possession of Miss Montgomery.

D. Jepson \$40.80, this represents a balance due from Mr. Jepson.

Housing Commission profit and loss account \$661.42. Details of this account are shown on Schedule 22A attached.

Township of Barton \$3.662, this represents an advance from the township as shown as an item on Schedule 14 attached.

Agreements.—We have examined the agreements on file. Three agreements were not on file, which fact was brought to the attention of your clerk.

Insurance Policies.—We examined the policies on file which are shown in detail on Schedule 23 attached.

In connection with the policy for John Bailey \$4,000, this policy had expired September 29, 1923, and we were informed that it had been handed to the agent to be renewed.

Minute Book.—We examined the minute book and found pages 35 and 36 were torn out.

System.—As stated previously in this report a separate set of books should be kept to record the Housing Commission transactions.

The following books should be installed:—

- (1) Cash Book.
- (2) Journal.
- (3) General Ledger.
- (4) Sales Agreement Ledger.
- (5) Householders' Current Accounts Ledger.

The cash book (receipts) should be ruled to provide columns as follows:—Date, name, ledger folio, monthly instalments (to be posted to accounts in householders' current accounts ledger), additional repayments, bank deposit.

The cash book (payments) should be ruled to provide columns for date, payee, ledger folio, Ontario Government (regular monthly instalments), Ontario Government (special payments), sundries, bank cheques.

The journal is for the purpose of recording each month, entries for charging the householder in the current accounts ledger and crediting the same person's account in the sales agreement ledger with their instalments due.

Instead of detailing this entry each month in the journal, totals only could be shown in the journal, and a subsidiary book used to show details. A trial balance book would be suitable.

The total of this journal entry each month must agree with the payment to the Government on account of regular monthly instalments.

Entries should also be made in the journal on October 31st and April 30th, charging the individual accounts in the sales agreement ledger, and crediting the Government account in the general ledger with the interest referred to below.

In the event of a householder becoming in arrears in his payments he should be required to include the interest in his next payment, in any case a journal entry should be made charging the householder's account in the current ledger and crediting interest account in the general ledger with such interest.

Ledger.—The sheets in the sales agreement ledger are provided with a fourth column marked "details of interest charges."

Opposite the balance as shown on April 30th, the interest charge for the next six months should be extended in black ink; opposite each monthly instalment thereafter, the credit for interest should be extended in red ink. On October 30th the net interest should be journalized as explained above. Similar entries should be made each six months.

The interest in the householders' current accounts will be similarly calculated and journalized.

Collections.—The collections for the Housing Commission should in my opinion be made by the treasurer.

GENERAL.

Accounts Payable.—There was no record kept of the accounts payable as at any one date, particularly as at December 31, 1922. Owing to the incomplete-

ness of the records and to the fact that the original invoices for purchases were not properly filed we made no effort to segregate the 1923 payments to ascertain as to which applied to 1922 and which to 1923. A record should be kept at the end of each year of the accounts pertaining to that year which are unpaid at December 31st, and the amount of such accounts included as a liability in the yearly statement.

Contract Holdbacks.—A record should be kept of the holdback on the various contracts and as such holdbacks are paid, they should be marked off this list and holdbacks on new contracts added. The attached schedules do not contain the amount of such holdbacks, if any, for the reason that we were unable to ascertain the correct amount of any such holdbacks outstanding.

Ridge Road Expenditure.—It was brought to our attention that in 1921 the "Ridge Road" was constructed, the cost of which was included in the general expenditure. This work should have been constructed as a local improvement and the expenditure on the payrolls, etc., kept separate.

Contract Tenders.—There has been no systematic method of recording the deposits received with tenders for contracts to be awarded by the council. When such deposits are received they should be recorded in a special "Contract Tender" book. This book should show the date received, name of contractor, amount of tender cheque, date contract tender is accepted or rejected, date tender cheque is returned.

There should be a special file for these tenders.

Conclusion.—As will be seen from the condition of affairs revealed in this report the various officials apparently did not realize the importance of balancing their accounts and reconciling them with those of the other officials. Their methods of recording the transactions made it, in many cases, difficult to understand the transaction. Owing to these conditions and the fact that the treasurer was not always in the office, the former tax collector indisposed, and the clerk not familiar with all the records, the length of time consumed in this investigation was unavoidable.

Respectfully submitted,

GORDON A. PETERS,
Chartered Accountant.

PETERS, GLATT, WILKINSON AND RUMBLE.

MUNICIPALITY OF THE TOWNSHIP OF BARTON

INDEX TO EXHIBITS

- (1) Memorandum of Assessment Rolls' errors in additions.
- (2) Memorandum of errors of Assessments in Collector's Rolls.
- (3) Details of 1919, 1920, 1921 and 1922 tax levies.
- (4) Separate School Tax Adjustment Account for the year 1922.
- (5) List of Tax Arrears as at July 31st, 1923.
- (6) Tax Arrears not carried forward for the years 1919, 1920, 1921 and 1922.
- (7) Tax Arrears carried forward in error for the years 1919, 1920, 1921 and 1922.
- (8) Details of Cash Received for tax items not on Rolls for the years 1919, 1920, 1921 and 1922.
- (9) Tax Arrears Reconciliation as at July 31st, 1923.
- (10) Bank Reconciliation as at August 31st, 1923.
- (11) Abstract of Receipts and Disbursements, January 1st to August 31st, 1923.
- (12) Comparative Revenue Account for the years 1919, 1920, 1921 and 1922.
- (13) Surplus Account as at December 31st, 1922.
- (14) Statement of Cash Assets and Immediate Liabilities as at December 31st, 1922.
- (14A) Details of Debenture Levy for sidewalks, etc., as per Schedule (14).
- (14B) Details of Proceeds from sale of Debentures, etc., as per Schedule (14).
- (14C) Statement showing Balance of Local Improvement Debenture Levy on hand as at December 31st, 1922, as compared with the Annual Requirement.

MEMORANDUM OF ERRORS OF ASSESSMENTS IN COLLECTORS' ROLLS
1919 NORTH ROLL.

- (1) J. W. Sutherland's assessment of \$240.00, as shown on Assessment Roll, Folio 29, omitted in Collector's Roll.
- (2) Sidney Sutherland's assessment of \$480.00, as shown on Assessment Roll, Folio 30, carried to Collector's Roll as \$420.00.
- (3) Hannah Lewis' assessment of \$300.00, as shown on Assessment Roll, Folio 49, carried to Collector's Roll as \$360.00.
- (4) C. B. Turness's assessment of \$360.00, as shown on Assessment Roll, Folio 54, carried to Collectors' Roll as \$180.00.
- (5) Edmund Gordon's assessment of \$180.00, as shown on Assessment Roll, Folio 77, carried to Collectors' Roll as \$360.00.
- (6) Percy Howard's assessment of \$550.00, as shown on Assessment Roll, Folio 80, carried to Collectors' Roll as \$500.00.
- (7) R. S. Davis's assessment of \$300.00, as shown on Assessment Roll, Folio 108, carried to Collectors' Roll as \$350.00.
- (8) J. W. Myer's assessment of \$100.00, as shown on Assessment Roll, Folio 108, omitted from Collector's Roll.

SOUTH ROLL.

- (9) J., J.E.H., and C. Marshall's assessment of \$14,950.00, as shown, on Assessment Roll, Folio 25, carried to Collector's Roll as \$14,900.00.
- (10) Thos. Clanfield's assessment of \$100.00, as shown, on Assessment Roll, Folio 37, carried to Collector's Roll as \$200.00.
- (11) J. J. Nairn's assessment of \$110.00, as shown on Assessment Roll, Folio 46, carried to Collector's Roll as \$100.00.
- (12) Jenet Armour's assessment of \$720.00, as shown on Assessment Roll, Folio 50, carried to Collector's Roll as \$120.00.
- (13) Charles Yeager's assessment of \$2,560.00, as shown on Assessment Roll, Folio 116, carried to Collector's Roll as \$2,650.00.
- (14) H. E. McLaren's assessment of \$3,360.00, as shown on Assessment Roll, Folio 116, carried to Collector's Roll as \$3,660.00.
- (15) Chas. Ortwein's assessment of \$3,340, as shown on Assessment Roll, Folio 124, carried to Collector's Roll as \$3,440.00.

MEMORANDUM OF ERRORS OF ASSESSMENTS IN COLLECTOR'S ROLLS
1919 SOUTH ROLL

- (16) On Collector's Roll, Folio 140, Fred Hill is assessed \$840.00, which assessment does not appear in the Assessment Roll.

1920 SOUTH ROLL

- (17) Folio 27, Chas. Austin's assessment of \$200.00, as shown on Assessment Roll No. 456, was omitted from Collector's Roll.

1921 NORTH ROLL

- (18) Folio 33. The assessment for lots 47, 48, 49, were shown on the Assessment Roll as \$450.00, this is carried to the Collector's Roll as \$180.00 on each lot totalling \$540.00.

1921 SOUTH ROLL

- (19) R. A. Dickson, \$560.00 assessment, as shown on Assessment Roll, Folio 17, carried to Collector's Roll as \$360.00.
- (20) A. J. McDonell's assessment of \$33.00, as shown on Assessment Roll, Folio 21, carried to Collector's Roll as \$3,000.00.
- (21) C. Nettleton's assessment of \$120.00, does not appear in the Assessment Roll.
- (22) W. P. Myle's assessment of \$1,500.00, as shown on Assessment Roll, Folio 47, carried to Collector's Roll as \$1,400.00.
- (23) M. Furry's assessment of \$900.00, as shown on Assessment Roll, Folio 87, carried to Collector's Roll as \$950.00.

1922 SOUTH ROLL

(24) S. F. Plummer's assessment of \$100.00, as shown on Assessment Roll, Folio 37, carried to Collector's Roll as \$120.00

(25) R. J. Passmore's assessment of \$4,550.00, as shown on Assessment Roll, Folio 68, carried to Collector's Roll as \$4,500.00

(26) Edward Hunt's assessment of \$1,250.00, as shown on Assessment Roll, Folio 105, carried to Collector's Roll as \$1,050.00.

(27) C. Faustman's assessment of \$250.00, as shown on Assessment Roll, Folio 119, carried to Collector's Roll as \$200.00.

(28) Mary A. Game's assessment of \$200.00, omitted from Collector's Roll.

(29) F. S. Giles assessment \$200.00, omitted from Collector's Roll.

(30) Hamilton Cataract & Power Company, assessment \$4,240.00, as shown on Assessment Roll, Folio 160, carried to Collector's Roll as \$4,200.00

1922 NORTH ROLL

(31) A. C. Condie's assessment \$1,000.00, omitted from Collector's Roll.

(32) Neil Sinclair's assessment \$300.00, omitted from Collector's Roll.

(33) On Folio 30, Samuel Reeve's assessment of \$450.00 is carried to Collector's Roll as \$480.00 and charged to Bertha Becker.

(34) Fred Elmes' assessment \$540.00, as shown on Assessment Roll, Folio 38, carried to Collector's Roll as \$340.00.

October 22, 1923.

TO THE MAYOR AND COUNCIL,

of the Municipal Corporation of the Town of Sudbury, Ontario.

Gentlemen:—

Under authority of an appointment by Mr. J. W. Sharpe, K.C., Provincial Municipal Auditor, confirmed by an Order-in-Council, approved by His Honour the Lieutenant-Governor, of the Province of Ontario, dated July 31, 1923, I, John B. Robertson, chartered accountant, have made an inspection, examination and investigation of the books, accounts and vouchers of the municipal corporation of the town of Sudbury, and submit herewith my report in respect to same supported and amplified by statements and schedules.

Reasons for Audit.—I was informed that the primary cause of the investigation was a difference of \$27,680.14 in the books.

When the investigation was undertaken I, therefore, gave the location of this difference my first consideration. In the course of the search for the \$27,680.14 it was found that the difference existed prior to the year 1922, and that there was a serious difference between the certified balance sheet and the treasurer's ledger accounts as at December 31, 1920. The examination of this difference showed that the balance sheet as at December 31, 1920, was apparently correctly constructed but that the adjusting entries necessary to bring the books into accordance with the balance sheet had not been made. Whether the entries were given to the treasurer, or whether, when given to him, they were not recorded in the books, cannot be said. So many errors were found in the course of the preliminary search for the initial difference that it became evident that the only way to arrive at a balance in the books was to check all the postings from January 31, 1920, to December 31, 1922. The numerous mistakes found during the checking proved the advisability of this proceeding and opened up the way to locate other errors affecting the statement of assets and liabilities, etc. The books were then brought into "double entry" balance. When this was done it appeared that the balances in the accounts did not represent the facts and an examination of the basis of each entry in most of the accounts was necessary to discover omissions or erroneous entries. The errors of commission or omission required over fifty pages of journal entries to correct and are set forth in schedules in the following pages. No comment is needed to emphasize the seriousness of the condition found or the failure to conform with standard accounting principles and practice.

Authority was obtained from the mayor to make all necessary entries to correct the errors and make resulting changes in the ledger balances so that these would agree with the balance sheet annexed to this report. It must be clearly understood that this balance sheet and the corrections only cover the period ending December 31, 1922. No audit or investigation was made of the accounts for the year 1923. By inference we have reason to believe that errors, similar to those mentioned in this report, may have occurred in 1923; but as no doubt the council will appoint auditors for that year these errors will be located and corrected before the auditor's statement as at December 31st, 1923, is prepared.

General Ledger.—In this report frequent reference is made to "General Ledger." This ledger should serve to segregate the total of the various transactions relative to the finances. The details of the totals are usually kept in subsidiary books. Where the general ledger is properly used all subsidiary records are made to "interlock" with "controlling" account in the general ledger. This is not the case in the accounts of the town of Sudbury. For example,

the water and light accounts instead of "interlocking" with the general ledger run "parallel" thereto. This means lost efficiency by not making full use of the standard system.

Bank Account.—The town of Sudbury has one bank account into which all funds are deposited (exclusive of Library Board and Parks Commission cash). This is not in accordance with approved principles and practice. Separate bank accounts should be kept for general cash, for proceeds of debenture issue, and for any trust funds, e.g., Housing Commission funds, etc. The use of one bank account to receive various funds from all sources lends itself to manipulation and gives opportunity for loss. It also deprives the executive officers of the municipality information in respect to the funds and finances under their control. A statement of different bank accounts is a simple and quick method of showing the council the position of various funds, the use of one account only, prevents the information being arrived at as quickly and easily as it otherwise might be.

Permanent Assets on Balance Sheet.—On the balance sheet the permanent assets are stated at the cost figure less a credit for depreciation. In our report the proper method is set out and it would have been very satisfactory to have shown the permanent assets at the cost figure less the amount equal to repayment of debentures. For the present purpose, however, it was not deemed necessary to compile a statement of such depreciation, as it would have meant going back possibly ten or twenty years in order to determine the amount which had been deducted from the permanent asset accounts. It was noted, that in a previous auditor's report, the suggestion was made that the treasurer do this so as to permit the permanent assets to be shown on the balance sheet at cost but apparently it was not done.

Allocation of Debenture Liability.—It is suggested that when a by-law is passed authorizing debenture issue, the amount allocated to cover cost of a specific undertaking be appropriated by proper entry for that purpose and that the cost of such undertaking be charged against this appropriation so that it may be seen whether the cost exceeds the funds provided therefore or otherwise. It is difficult to tell from the records of the treasurer whether the proceeds of a debenture have been sufficient to provide the funds required to pay the cost of the particular public work or whether the proceeds have exceeded such cost. This information should be definite and should be available to the council at all times.

Water and Light Department Profits.—Subject to defects in the system of record and operation of the water and light department there appears to be a profit on the operations. Examination showed that the debenture rate, including the amount required for repayment of water and light debentures was levied without any consideration of the profit derived from the operations; that is, the profit on water and light service is put into the general fund. The profits of the water and light system should be applied, first, in payment of the annual debenture instalment in respect to such facilities and second, in reduction of the water and light rates. All ratepayers do not use the water and light nor do they necessarily use it in the same proportion that they pay taxes. The users should benefit by any profit made from the system, and the present treatment of the profit does not conform with this principle.

General.—Considerable delay may be saved if the town council were to appoint the auditors during the current year and have the books checked at least twice a year. This would give much closer supervision by the auditors of the entries and would enable corrections to be made much more speedily after the date of the transaction, and in most cases would be found to be of

considerable assistance to the treasurer. The practice of changing auditors almost every year, which has been in force in your municipality, is not good. Auditors should in no wise be let to think that they have a mortgage on their client's business; but, provided the work is done satisfactorily, much more value will be received by the client if the auditor continues to carry on the work for a reasonable number of years.

A considerable portion of the annexed report necessarily deals with the application of accounting principles and the explanation of these in reference to the errors. These explanations became a part of the duty of the undersigned with a view to conveying to the council the nature and effect of the errors found.

Recommendations.—On the final page of this report certain specific recommendations are made; added to these certain radical changes in system should be made. I have stated several times that there is a lack of co-ordination between various departments and various officials. This cannot work to the advantage of the town. Unity of control with proper departmental division is the elemental basis of good organization in municipal or commercial enterprise. If the town treasurer (or some similar official) were given control and made responsible for all the funds of the town and for all his financial records much more satisfactory check might be kept on revenue and expenditure.

These comments are submitted to the town council for consideration with the report.

All of which is respectfully submitted,

JOHN B. ROBERTSON,
Chartered Accountant,

ROBERTSON, ROBINSON, ARMSTRONG AND McCANNELL.

BOOKS OUT OF BALANCE DECEMBER 31, 1921.

We confirmed the report that your general ledger was out of balance \$27,680.14, as at December 31, 1921, and submit hereunder statement of errors bringing about the difference in balance, with the dates upon which such errors occurred. (N.B.—We refer here only to mechanical errors which had the effect of throwing the books out of balance. In addition thereto "errors of principle" have been discovered and are dealt with in this report.)

STATEMENT OF ERRORS PRODUCING DIFFERENCES OF \$27,680.14

(a) "Advances for construction re Housing Commission" Account at December 31st, 1920, showed a debit balance of \$45,309.09, representing an asset of the Town. During 1921 an entry was made writing off this balance (and thereby improperly removing an Asset from the books.) This entry was not posted from any book of original entry and no corresponding debit entry was made.	\$45,309 09	
(b) Error in Ledger addition—Year, 1921, account D-38 "Debentures re Bridges"		04
(c) The Public Library Board borrowed \$4,000 from the town several years ago, which has since been repaid. The account showed a debit balance in 1919 of \$3,200. Repayments by the Library Board since that time were credited by your Treasurer, not to the Library Board Account, but to "Revenue Account." The result was that the Town Revenue Account was over-credited \$3,200 and the Library Board still shown as owing \$3,200 after the account had been repaid. On December 31st, 1921, the Treasurer, realizing that the account was paid, but apparently not recognizing the error in his handling of the repayments, wiped out the balance against the Library Board by simply inserting figures to balance the account, making no proper entry to bring in the repayments made by the Board. The result of this was to throw the books out of balance \$3,200, because the Treasurer had not offset this forced credit to the Library Board by a corresponding debit entry of any kind. What should have been done was to credit Library Board Loan Account with payments when and as received.	3,200 00	
(d) Error in addition General Journal, page 135, December 13th, 1921		\$0 10
(e) Error in not posting credit to "Reserve for Debenture Interest" Account from General Journal, December 1921. Items was entered in Memorandum column of the Ledger, but not brought into the addition column and was omitted in the additions. This gave the same effect as though the entry had not been posted at all.		19,362 97
(f) Error in addition of General Journal entry, October 12th, 1921, to record the 1921 Tax Roll in general books.	2,000 00	
(g) All repayments of Debentures in 1921 were debited twice—(1st) to specific debenture paid, (2nd) to Reserve for Unpaid Debentures Account.		58,040 14
(h) Error in addition of General Journal, December 28th, 1921.	1 00	
(i) Entry made under date of December 31st, 1920, subsequent to 1920 audit as follows: Tax Sales, Dr. 10 31 To Taxes. 10 31 Three postings were made for the above entry—one debit, and two credit.		10 31
(j) Error in Ledger addition of 1921 account "Unpaid Accounts"		10 00
(k) Ledger Balance of "Sewer Extension" account at December 31st, 1920, was. 88,886 98 Carried forward to 1921 as. 88,875 28	11 70	
(l) Ledger Balance of "Electric Light Capital" account at December 31st, 1920. 67,586 78 Carried forward to 1921 as. 67,809 53		222 75
(m) Ledger Balance of "Electric Light, Streets Capital" account, December 31st, 1920. 13,736 83 Carried forward to 1921 as. 13,773 40		36 57
(n) Ledger Balance of "Fire Hall Extension and Municipal Building" account, December 31st, 1920. 49,821 57 Carried forward to 1921 as. 50,057 69		236 12

ERRATA.

Monthly or Periodical Balancing of Ledgers.—No trial balance of the general ledger as at any date between January 1, 1920, and December 31, 1922, was found among the town accounting records or produced to us by the treasurer when same was asked for by us. It has not been the custom of the treasurer to balance the general ledger of the town, this duty usually being left to the auditor of each year, although it is clearly no part of the auditor's duties. The treasurer claims that he took trial balances but that he destroyed the slips of paper upon which he had the figures. It is manifest that the trial balances could not have been correct in view of the errors existing in the books and it is a standard requirement of any well ordered office that monthly trial balances of the general ledger should be kept permanently on file. We recommend that this practice be adopted forthwith and that the treasurer be instructed accordingly.

Difficulty occurred in 1921 when the auditors of that year apparently did not check the opening balances of the ledger with the certified balance sheet as at December 31, 1920, and did not take a trial balance at December 31, 1921.

AUDIT FOR YEAR ENDING DECEMBER 31, 1921.

We cannot see where any benefit accrued to the town from the audit of the 1921 accounts performed by the local auditors appointed for that year.

The auditors of the year 1920 found it necessary in preparing the balance sheet as at December 31, 1920, to make a number of corrections and adjustments in the 1920 work. These corrections and adjustments were not entered on the books by the treasurer and consequently the books at December 31, 1920, did not agree with the balance sheet of that date. There were differences in thirteen accounts between the amount as shown on the ledger and on the balance sheet. We are at a loss to understand why the 1921 auditors, despite the fact that they had in their possession the balance sheet as at December 31, 1920, did not attempt to have the opening balances at January 1, 1921, brought into agreement with the balance sheet as at December 31, 1920.

We submit herewith schedule of eighteen errors occurring 1921 (or entered under date of December 31, 1920, subsequent to 1920 audit) which had the effect of throwing the books out of balance \$27,650.14. Apparently the 1921 auditors did not report these errors as no corrections were made and we are informed that neither letter nor memorandum was received by the town office directing attention to any errors in the accounts.

In another section of this report we submit journal entries necessary to correct errors, the larger number being errors which did not have the effect of throwing the books out of balance.

There were no audit stamp impressions or check marks to indicate that interest coupons paid and matured debentures paid in 1921 had been audited—one of the most important features of any municipal audit.

In addition to incorporating in the balance sheet as at December 31, 1921, the errors in the ledger, the 1921 auditors made several additional errors in preparing the balance sheet. The largest items are as follows:

Debenture Liability of the Town overstated by \$63,000.00; Debentures authorized but not sold at December 31st, 1921, were included in the Debenture Liability with no relative amount on the Assets side.

Capital Assets overstated by \$138,419.48. In order to show an offsetting Asset in the Current Balance Sheet against Demand Notes to the Royal Bank of Canada (for money borrowed to pay cost of Capital Improvements pending the sale of Debentures), the expenditure on Capital Improvements not covered by Debenture Issues was entered on the Current Balance Sheet but not deducted from the Capital Balance Sheet. Thus the Asset was shown twice, once under Current Assets and once under Permanent Assets.

The Debenture Liability of the Town *re* Municipal Housing Commission \$147,281.00 was shown on the Balance Sheet (included in total Debenture Liability); but the Asset of the Town representing the loans made to the Housing Commission and accrued interest was omitted from the Balance Sheet. We do not know why this Asset was omitted especially as it is referred to in the auditors' report for that year.

Provincial Housing Commission accounts not shown on Balance Sheet. In connection with the Provincial Housing Commission neither the Liability to the Province of Ontario for advances made nor the Asset representing the Loans made to the Housing Commission and accrued interest was included on the Balance Sheet.

Error in additions. An error of .98c. in addition on the Assets side of the Current Balance Sheet, December 31st, 1921 is noted.

The confused state of the 1921 accounts may probably best be illustrated as follows:—

The excess of Assets over Liabilities (Ratepayers' Equity) at December 31st, 1921, according to the books (General Fund Account) was.....	\$54,471 25
The excess of Assets over Liabilities (Ratepayers' Equity) as at December 31st, 1921, according to the auditors' Balance Sheet, was.....	222,741 18
The Excess of Assets over Liabilities (Ratepayers' Equity) as at December 15th, 1921, according to the Statutory Financial statement published over the signature of the Treasurer (note very slight change took place in last fifteen days of December).....	325,327 66

A reasonable excuse might be advanced by an inexperienced auditor for not locating and correcting or reporting errors of a very technical nature, but mechanical errors such as mistakes in postings and additions should have been located and corrected. Such work is preliminary to the preparation of the trial balance necessary as the basis of the balance sheet. In view of the large difference in the "General Fund" account above mentioned as shown by the ledger and the balance sheet as at December 31, 1921, and of other errors it would appear that the books had not been balanced as at December 31, 1921, and that no trial balance had been prepared as at that date. No accountant of experience would attempt to prepare a balance sheet without first having a trial balance prepared.

In our opinion the balance sheet prepared by the auditors as at December 31, 1921, is worthless as a true exhibit of the financial position of the town. It exhibits a lack of training and experience in municipal finance and accounting.

BALANCE SHEETS AS AT DECEMBER 31, 1922.

Current Balance Sheet.—The current balance sheet of the town as at December 31, 1922, is submitted herewith, subject to the following explanations:

CURRENT ASSETS.

Cash in Hands of Tax Collector \$5,616.11.—This represents the receipts of the tax collector on December 30, 1922, paid to the treasurer (and deposited by him) on January 2, 1923. This was included in the total of unpaid taxes on the balance sheet of the auditor for the year 1922.

Cash Difference \$145.32.—Reference is made to this in another section of the report.

Accounts Receivable \$8,487.20.—Schedules and full explanation of items making up this amount are submitted hereinafter. No reserve for doubtful accounts has been set up.

Unpaid Taxes \$147,480.78.—Schedules of items comprising this amount are submitted herewith. This includes:

1922 arrears of taxes.....	\$89,334 42
Previous arrears of taxes.....	58,146 36
	\$147,480 78

Lands Held on Account Tax Sales, \$5,760.44.—This represents properties offered for sale for arrears of taxes not sold to third parties or redeemed by owners. The amount at which each property is carried represents the arrears of taxes plus cost and interest (penalty) to date offered for sale. Separate schedules are submitted showing the amount unredeemed on the properties offered for sale from 1916 to 1922. The records show that apparently no tax sale was held prior to the year 1916. See another section of this report for full discussion of this subject.

Inventories of Merchandise and Stores, \$30,954.28.—This represents the inventories of merchandise and stores of the departments as listed on the balance sheet. We hold letters from the heads of the respective departments stating that the inventories so listed were taken under their supervision and direction and are priced at cost or market price whichever is lower and that allowance has been made for all old and unsaleable material.

CURRENT LIABILITIES.

Royal Bank of Canada Overdraft, \$66,482.23.—We hold a letter from the Royal Bank of Canada confirming the overdraft as shown.

Accounts Payable, \$200.—This represents a deposit made by J. Babowski. We understand that it has been repaid to him in 1923. It will probably be noted that in the current balance sheet there has not been shown any liability for current accounts payable or accrued pay roll as at December 31, 1922. Neither the accounts payable nor the accrued pay roll, December 31, 1922, had been set up on the books, and in view of the expense which at this date would be necessary in determining the exact amount of such liability we have not dealt further with this matter than to make this report and set up on the balance sheet a reserve for accrued wages and accounts payable, \$5,000, and showing an item for the same amount among the assets on the current balance sheet under the caption of undistributed charges. We think it would be advisable for the town treasurer to use a purchase journal and accounts payable ledger in order that unpaid accounts payable would be automatically shown on the records at all times. This recommendation refers particularly to the water and light department as well as the treasurer's department.

Liability re Overpaid Taxes, \$581.83.—This is a liability for taxes overcharged and is fully discussed at a later point in this report.

Special Rate Levies not Disbursed, \$89,588.68.—Balance of public library levy on the accompanying balance sheet is shown at \$3,189.81 which is \$450.36 more than the actual unpaid appropriation to the Public Library Board at December 31, 1922, but is shown at this figure in order that the cash held by the Library Board (\$450.36) at that date might be shown among the assets of the town on the balance sheet. For a similar reason the balance of the public parks levy, viz., \$2,334.98 is shown as \$816.57 in excess of the actual unpaid appropriation. The other special rate levies call for no comment.

Excess of Current Liabilities over Current Assets, \$27,054.77.—Ordinarily in a municipal balance sheet an excess of current liabilities over current assets does not reflect a very healthy financial condition, but in this case a probable explanation may be advanced as follows:—

Principle:—When local improvement work or other work of a capital nature is undertaken, it is quite usual for a municipality to finance such expenditure (pending the sale of debentures) by bank overdraft against the relative by-law, such overdraft being liquidated by the proceeds of the debentures when sold. If a balance sheet is prepared at any time when there is a bank overdraft or loan, occasioned by the capital expenditure, it is quite in order to show temporarily on the current balance sheet the amount of capital expenditure for which the issue and sale of debentures is pending. The most approved method of recording such transactions is to open an account, say, "Local Improvements in Process" charging such account with all expenditure thereon and crediting such amounts to an account, say, "Bank Overdraft re—Local Improvement," a separate bank account being opened for the purpose. When the expenditure on such local improvements has been completed and the debentures sold, the bank overdraft will be liquidated, "Local Improvement in Process" account will be transferred to "Local Improvement" account.

The Condition at Sudbury.—We found, however, in the books of the town of Sudbury that one bank account only is used for all purposes (except parks and library) and disbursements are made from this account for expenditure of both current and capital nature. We found further that in the books there is no segregation of capital expenditure for which debentures have been issued as distinguished from capital expenditures being financed (temporarily) by current funds or bank overdraft.

The Result.—It was impossible for us to determine from the records how much of the \$66,482.23 bank overdraft at December 31, 1922, represented an overdraft on account of current expenditure and how much represented withdrawals for purposes of capital expenditure, (to be repaid through the sale of debentures). We referred to the published statutory financial statement of the treasurer dated December 15, 1922, and found that he had shown among the current assets items "To be Recovered on Debenture Issues" totalling \$25,601.13. We discussed this item with the treasurer but he could not show us to our satisfaction how he arrived at this amount and we have not seen any records kept in the town office to substantiate this amount. In passing:—this amount, \$25,601.13 is shown among the current assets on the treasurer's statement without deduction from the capital assets and thus by error is shown twice on that statement.

Conclusion.—It is altogether probable that at December 31, 1922, there was a certain amount of capital expenditure paid through current bank overdraft to be recovered on debenture issue. How much, we cannot say. Suppose, however, that the figure of the treasurer was approximately correct and that there was little or no change between December 15 and December 31, 1922, this would mean that this amount should be shown on the current balance sheet,

and the excess of liabilities over assets would then appear as approximately \$1,500 instead of \$27,054.77.

CAPITAL BALANCE SHEET AS AT DECEMBER 31, 1922.

Permanent Assets, \$1,185,145.54.—This does not represent (as might be expected) the cost of the respective assets shown, but does represent the cost of such assets *less* an arbitrary depreciation which has been written off such assets annually. The best practice in dealing with permanent assets of a municipality is to retain those assets on the books at cost and charge against "Revenue" account annually an amount equal to the debenture repayments of that year crediting the same to "Capital Asset Reserve" account or similar reserve account. The present method of charging the "Revenue" account with an arbitrary depreciation and crediting the same to the permanent asset account has the effect of charging "Revenue" with a different amount than that specifically provided for in the tax levy. The following will serve to illustrate. Suppose that the tax levy for any year for purpose of retiring debentures matured in that year amounts to \$60,000 which is credited in the usual way to "Revenue." Suppose further that during the year entries are made to charge "Revenue" and credit permanent assets accounts with an estimated depreciation of say, \$40,000. The result is apparent. There has been created a net credit to "Revenue" of \$20,000. The surplus or general fund is shown on the balance sheet at \$310,414.46. It is possible that the greater part of this may have been created through entries as above.

To summarize the foregoing into the form of suggestions we would say (1) that the treasurer should compile a statement of the total depreciation which has been charged to "Revenue," and that this amount should be credited to "General Fund" and charged to the respective capital asset accounts; (2) that a statement of the total amount of debentures paid off be compiled and this total charged to "General Fund" and credited to "Capital Asset Reserve" account, and (3) that similar entry be made in each year with respect to the annual amount provided to meet debenture repayment; (4) that in future no further depreciation be provided for in the accounts.

Advances to Schools for Construction Purposes, \$248,585.48.—This represents a charge against the Public and High School Boards for the advances made by the town for the purchase of lots and the erection of school buildings. These charges are being reduced annually by the amount provided in the tax levies for redemption of debentures issued against capital expenditure of the School Boards.

Sinking Fund re Parks, \$2,934.40.—See sinking fund balance sheet and report on same.

Housing Commission Assets, \$278,105.30.—See Housing Commission balance sheet and report on same.

Capital Liabilities, \$1,375,367.09.—This liability is made up as follows:

Debentures outstanding.....	\$1,278,520	40
Liabilities to Provincial Government.....	135,198	26
	<u>\$1,413,718</u>	<u>66</u>
<i>Less</i> amount collected in 1922 Tax Levy to meet Debentures accruing due first six months of 1923 (see Current Liabilities).....		38,351 57
		<u>\$1,375,367 09</u>

We submit herewith schedule of unpaid debentures showing liability of \$1,276,520.40. To substantiate this we examined all the debt creating by-laws back to the year 1905. To verify the liability to the Province of Ontario we communicated direct with the Bureau of Municipal Affairs at Toronto.

"General Fund" Account (or Ratepayers' Equity Account) \$310,414.46.—

NOTE—Various terms are used by difference municipalities to indicate the excess of assets over liabilities such as "General Fund" account or "Surplus" account or "Ratepayers' Equity" account. The term used throughout the books and records of the town of Sudbury is "General Fund" and has been used by us in this report.

The excess of Assets over Liabilities as at December 31st, 1919 as per certified Balance Sheet amounted to.....	\$208,643 16
The excess of Assets over Liabilities as at December 31st, 1922, as per Balance Sheet, submitted herewith.....	310,414 46
	<hr/>
The difference represents an increase during the three years of.....	\$101,771 30
	<hr/>
This increase does not represent an excess of Revenue over Expenditure during the three years but may be explained (generally) as follows:	
The Total Debenture repayments during the three years (exclusive of Housing Commission Debenture) were.....	\$167,767 94
The amount charged against "Revenue" account by the Treasurer as Depreciation during the three years, was.....	\$69,868 41
Entries were also made to reduce the charges against "Schools Capital Expenditure" account to the amount of the outstanding Debenture Liability in respect thereto as follows:	
Public Schools.....	18,241 87
High School.....	4,670 14
	<hr/>
	92,780 42
When these charges are deducted from the total Debenture payments there is left.....	74,987 52

This \$74,987.52 represents, not an increase in the excess of assets over liabilities, but the total of debenture instalments paid during the years less the amount charged up as "Depreciation," (\$92,780.42). If we deduct the above \$74,987.52 from the increase of "General Fund" account of December 31, 1922, over "General Fund" account of December 31, 1919, viz., \$101,771.30 the remainder is \$26,783.78 which may be said to represent the excess of revenue over expenditure for the three years. (This figure, of course, is approximate only as we do not feel that the proper method has been adopted in handling discount or premium on debentures sold; see paragraph in this report dealing with debentures).

The question will naturally arise: Where is this increase reflected on the balance sheet as at December 31, 1922? The excess of current liabilities over current assets as at December 31, 1919, was \$29,845.63 as compared to \$27,054.77 as at December 31, 1922. In other words the current (liquid) position of the town as shown by the respective balance sheets was only approximately \$2,800 better at December 31, 1922, than at December 31, 1919, despite the fact that there was approximately \$27,000 excess of revenue over expenditure during that period. This apparent inconsistency is largely accounted for by the fact that on the December 31, 1919 balance sheet the total debenture liability was shown on the capital balance sheet, whereas on the balance sheet of December 31, 1922, the debenture payments to be made in 1923 (but provided for in the 1922 tax levy) are shown as a current liability.

We have not prepared revenue and expenditure statements showing the detail of the items entering into the calculation of the increase in the "General Fund" account as we did not think we would be justified in incurring the expense which would be necessary because in correcting errors located it was necessary

for us to make over one hundred adjusting entries in "General Fund" account, and if revenue and expenditure statements for three years were made it would have been necessary to transfer all these adjustments back to the "Revenue" account of the year to which they apply. This statement can be prepared if the council so directs.

OTHER BALANCE SHEETS.

Sinking fund balance sheet as at December 31, 1922, and Housing Commission balance sheet as at the same date are submitted herewith and discussed at a later point in this report. It will be understood, of course, that the items shown on these balance sheets are also shown in summary form on the general balance sheets of the town, viz., current balance sheet, and capital balance sheet.

GENERAL.

Contingent Liabilities.—There has been deposited with the Province of Ontario non-interest bearing debentures of the town totalling \$240,000 as collateral security for advances \$135,198.26 by the Province of Ontario for Housing Commission purposes. This \$240,000 does not represent a present liability of the town nor is it shown on the balance sheet as such, but if the town defaults in repayment to the Province (\$988.22 monthly) the Province may sell sufficient of these debentures to make good the default. When the liability to the Province has been paid off those debentures will be returned to the town.

In connection with capital liabilities we note that the town is a guarantor of \$75,000 par value first mortgage bonds of the Sudbury and Copper Cliff Railway, and also that the town holds in respect to such guarantee a first mortgage on the assets of the Sudbury and Copper Cliff Railway. Neither the guarantee liability nor the relative mortgage asset on the railway property is shown on the balance sheet as it is a contingent liability only enforceable in the event of defaults by the railway company in respect to the bonds issued by it.

TREASURER'S CASH DIFFERENCE.

In checking the cash receipts of the treasurer it would appear that the following items have not been properly accounted for:—

(1) Tax Roll 1921.....	\$95 42
(2) Tax Sales 1922.....	28 60
(3) Market Receipts 1921 and 1922.....	21 30
	\$145 32

The following explanation of the differences is submitted.

(1) Total cash paid to the Treasurer by collector on account of receipts of taxes and Tax Sales, Sept. 6th, 1921 as evidenced by Tax Collector's cash book initialed by the Treasurer.....	\$83,338 18
Total receipts credited to Tax Collector in Treasurer's cash receipt book with reference to Tax Collector's receipts for Sept. 6th, 1921.....	83,242 76
Difference.....	\$95 42
(2) Duplicate deposit slips on file in the Town office, dated Sept. 6th, 1922, record cheques of Mr. L. O'Connor as being deposited on that date.....	\$169 98
The cash receipt book of the Treasurer shows a credit to Mr. O'Connor with respect to the above transaction of.....	141 38
Difference.....	\$28 60

We submit hereunder explanations in connection with the accounts receivable.

Electric Light and Water Department, \$3,880.59. We attach schedule herewith showing the detail of items making up this amount. A number of these accounts are still unpaid as at the date of this report and we would urge upon the council the advisability of taking prompt action to obtain collection.

Oiling Streets, \$884.29. This item is carried on the books as an asset and we have shown it on the balance sheet, December 31st, 1922, as such but we point out here that it is very doubtful of realization. The explanation given to us is that during the year 1921 certain streets were oiled and under by-law the properties fronting on the streets so oiled were to be charged with the cost. We find, however, that one account only was opened, viz.: "Oiling Streets" and this account was charged with the total cost of oiling and *credited with the cash received from ratepayers* on account of oiling. The difference, a debit balance of \$884.29, represents either the excess cost of oiling over the amount charged ratepayers (in which case it should be written off or an additional charge made against ratepayers) or it represents charges made against ratepayers but not paid (in which case it should be collected.) We made very careful enquiry and found that either there was no record in the town office of charges made against ratepayers specially benefited or if such a record does exist it could not be produced for our examination.

Re Coal and Wood sold by Municipality, \$152.35, and \$127.45, respectively. These are items carried on the books under the caption "Unpaid Accounts" and we have shown them on the balance sheet, December 31st, 1922, as accounts receivable, but they appear to be very doubtful of realization. They are debit balances brought about by charging the accounts with the cost of coal and wood purchased and crediting the respective accounts with cash received on coal and wood sales. The balances, therefore, represent either the loss on handling the coal and wood (in which case it should be written off) or unpaid charges against customers for coal and wood delivered (in which case collection should be made). No accounts receivable ledgers were kept and the records of unpaid balances were in memoranda form in "Delivery" books. The balances shown in such memoranda do not agree with the amount shown above and in fact are considerably less. We did not consider that the amount involved warranted our spending the time and incurring the expense necessary to set up the accounts receivable ledgers, but this matter should receive the immediate attention of the town hall staff.

Sudbury and Copper Cliff Railway, \$1,445.65. This account is being gradually reduced. Interest is added annually.

Electric Light Rates, \$1403.46.

Water Rates, \$510.16. These represent the unpaid balances of the above service as at December 31st, 1922, exclusive of December services.

TAX ROLLS.

From the condition of the tax rolls and the corresponding control account in the general ledger it would appear that the tax rolls are not regularly balanced and brought into agreement with the respective control accounts. We base the above assertion on two facts: (1) No schedule could be produced showing that the tax rolls for 1920, 1921, or 1922 at any time agreed with the corresponding total of unpaid taxes in the treasurer's books. (2) Numerous errors were located both in the tax rolls and in the corresponding record of unpaid taxes in the treasurer's books.

From our examination of the books and records it would appear that the greater part of the differences were caused by the fact that the treasurer and the tax collector do not compare their respective entires at frequent intervals. Following is the nature of some of the errors located and corrected:—

(a) Taxes omitted and later added to the tax roll were seldom charged against the collector by the treasurer.

(b) Transfers by the treasurer from the collector's account of one year to the collector's account of a subsequent year often did not agree with the actual tax arrears transferred by the collector from one roll to the subsequent year's roll. We refer particularly to Income tax arrears.

(c) Errors in addition of the tax rolls and tax collector's cash book.

(d) Errors in addition of discounts allowed and penalties charged as shown in the collector's cash book.

(e) Total of penalties added on the 1st of May each year not correctly charged against the collector by the treasurer.

(f) Alterations and errors on the Court of Revision list as referred to later.

The columns in the tax rolls for payments received, discounts allowed, penalties added, cancellations by the Court of Revision, arrears transferred to tax sales, and balances owing at the closing of the rolls were not totalled. The totalling of these columns would have enabled the collector when closing each roll to balance each page separately and thereby have located many of the errors reported herewith. We understand that this is being done with the current year's rolls.

1922 TAX ROLL

We checked the opening balance of the 1922 Tax Roll and found that the total of such roll (including arrears of taxes from previous years) amounted to.....	\$374,970 54
The total charge against the Tax Collector set up by the Treasurer on his books amounted to.....	373,805 03
	<hr/>
A difference of.....	\$1,165 51

This difference is accounted for as follows:

Arrears of 1921 Income Taxes McCormick Ward as per list in Tax Roll charged by Treasurer against 1922 Tax Roll.....	\$1,428 15	
This list was not correct, the correct total being.....	<hr/> 1,307 24	
		\$120 91
(Error in addition \$72.94 and item cancelled by Court of Revision, June 30th, 1922, \$47.97, total \$120.91)		
Arrears of 1920 and 1919 Income Taxes added to 1922 Tax Rolls but not charged by the Treasurer against collector <i>re</i> 1922 Tax Roll (see Schedule).....	\$868 19	
Errors in addition of Tax Roll (short added).....	\$100 00	
“ “ “ “.....	90 00	
“ “ “ “.....	10 00	
“ “ “ “.....	03	
“ “ “ “.....	<hr/> 01	
		\$200 04
Over added.....	\$10 00	
	<hr/> 10	
		10 10
		<hr/>
Alterations in 1922 Tax Roll not entered in Treasurer's Books		189 94
Taxes omitted on opening roll and later entered.....	\$236 46	
Clerical error—taxes reduced.....	<hr/> 8 14	
		228 32
Taxes overpaid in 1921 Tax Roll and credited to 1922 Tax Roll.....	\$14 61	
Entered in Treasurer's Books as.....	<hr/> 14 58	
		<hr/>
	\$1,285 45	
	<hr/> 120 94	
		\$120 94
		<hr/>
Total difference as above.....		\$1,165 51

FURTHER ERRORS AFTER OPENING OF 1922 TAX ROLL.

Fees paid for collection of overdue taxes in 1922 were in some cases charged in error by the treasurer against the collector re 1922 tax roll instead of to "Collection Expense" account. In other cases the net amount only of taxes received (after the deduction of collection fee) was credited to collector re 1922 tax roll. Total of errors in this respect amounted to \$19.37 (see schedule).

A number of small adjustments were made in the 1922 tax roll but no corresponding entries were made in the treasurer's books, viz.:

Additional discount allowed in thirteen cases totalling \$10.38; additional interest charged in six cases totalling 50 cents (see schedule).

Eleven errors in addition in collector's cash book were made (see schedule).

After correcting the above errors we prepared a schedule of unpaid taxes as at December 31st, 1922, which we submit herewith. The schedule as prepared totalled \$28.48 more than the relative control account in the treasurer's books as corrected and we adjusted the control account to agree by a credit to "General Fund" account.

1921 TAX ROLL

We checked the opening balances of 1921 Tax Roll and found that the total of such roll including arrears of Taxes from previous years amounted to.....	\$322,604 12
The total charge against the Tax Collector set up by the Treasurer on his books amounted to.....	322,770 73
	<hr/>
A difference of.....	\$166 61

The difference is accounted for as follows:

Entries made by the Treasurer charging the collector with amounts purporting to represent additions to 1921 Tax Rolls, viz: 357.33, plus 4.64 or.....	\$361 97	
No information or detail of the item \$357.33 could be given to us by the Treasurer. In checking the roll, however, we found that amounts as follows had been added to the roll being items previously omitted, 12.20 4.64 and 67.43, or.....	84 27	
	<hr/>	\$277 70
Errors in addition of Tax Roll (short added) \$42.66, \$2.74, \$24.00	\$69 40	
Total of one column 1920 arrears carried forward on Tax Roll but omitted by Treasurer in charging the collector with 1921 Tax Roll (last page McCormick Ward).....	41 69	
	<hr/>	\$277 70
	\$111 09	111 09
	<hr/>	<hr/>
Total difference as above.....		\$166 61

FURTHER ERRORS AFTER OPENING OF 1921 TAX ROLL.

Two clerical errors in McCormick Ward, 1921 tax roll, of \$12.65 and \$47.15 were discovered and deducted from the roll before the roll was charged by the treasurer against the collector. The treasurer, by subsequent entry, in error credited these amounts to the collector re 1921 tax roll.

A ratepayer was allowed \$38.01 on his 1921 taxes as a refund on a transient Trader's License and the treasurer correctly credited the collector re 1921 tax roll with this amount. The treasurer later in error reversed the above.

Taxes amounting to \$31.28 were paid twice in error, once on June 13th, 1922, and again on August 25th, 1922. The June payment was correctly credited by the Treasurer to the collector re 1921 Tax Roll. The August pay-

ment was credited to the collector re 1922 tax roll, as the 1921 tax roll was closed at the date the entry was made. The erroneous payment was later discovered and the over pay applied on the 1922 taxes. The treasurer incorrectly made a journal entry charging the collector re 1921 tax roll and crediting the collector re 1922 tax roll with this amount. At a later date this incorrect entry was duplicated (Journal 146 and 151).

The taxes on a McCormick Ward property were calculated on an assessment of \$10,700. The actual assessment was only \$10,200. This error was discovered and corrected in the 1921 tax roll by deducting \$25.53 from the taxes on the property affected but no entry was made in the treasurer's books to record this adjustment.

Penalties for non-payment of taxes before January 1st, 1922, as shown by the collector's records, January 1st, 1922, to July 6th, 1922, amounted to \$895.77. This was recorded in the treasurer's books as \$889.68, charged against the collector.

Penalties as above from July 7th, 1922, to August 20th, 1922, amounted to \$166.73 as shown by the collector's records. No entry was made by the treasurer to charge the collector re 1921 taxes with this amount.

Penalties added to 1921 tax roll before closing the roll and transferring unpaid items to 1922 tax roll amounted to \$6,975.83. The treasurer in error recorded this item in his books as \$6,295.20, a difference of \$680.63, not charged against the collector re 1922 taxes.

No penalty was added to No. 156 on 1921 tax roll, Fournier Ward, when arrears were carried forward to 1922 tax roll.

A number of small adjustments were made in 1921 tax roll, but no corresponding entries were made in the treasurer's books, viz.:

Additional discounts allowed, 25 cases, totalling \$12.92.

Additional interest charged, 20 cases, totalling \$8.69. (See schedules).

Total discount allowed for prompt payment of 1921 taxes according to collector's records amount to \$9,185.84. This is recorded by the treasurer in two entries, \$9,106.33 and \$25.03, a total of \$9,131.36, being a difference of \$54.48. This difference is brought about principally by errors in the collector's records as follows:—

Page 406, two discounts \$20 each, entered and added as 20 cents each.

Page 406, error in addition (short added) \$19.62.

Page 410, item \$26.95, entered in error and cancelled but included in addition.

Page 414, error in addition (short added) \$20.

In the 1921 roll (after closing) we found that there were seven items of arrears which had not been carried forward to the 1922 tax roll totalling \$150.23. (See schedule of unpaid taxes). The collector is correcting this error by bringing such balances forward to the 1923 tax roll.

After making the corrections, necessitated by the above errors, and errors made in entering Court of Revision decisions (referred to later) the treasurer's account with the collector re 1921 tax roll showed a debit balance of \$157.82. Balances remaining in 1921 tax roll (see previous paragraph) amount to \$150.23. Thus there is an unlocated error in the 1921 tax roll of \$7.59. We did not feel justified in spending the additional time (and incurring the expense) necessary to locate this difference, and adjusted the control account to agree by a charge to "General Fund" account.

1920 TAX ROLL.

We made exhaustive tests in connection with the 1920 tax roll and the relative control accounts in the general ledger. The following errors were located:—

Items, being tax arrears, not carried forward to 1921 tax roll, were later discovered and carried forward to 1922 tax roll by the collector. No corresponding entries to record this were made by the treasurer. Total errors in this respect amount to \$85.90. (See report and schedules re 1922 tax roll, part of item S868.19).

Errors in addition of arrears carried to 1921 tax roll. (See report re 1921 tax roll).

McCormick Ward, last page 1921 roll.	\$2 74
Fournier Ward, last page 1921 roll.	24 00
	<hr/>
	\$26 74

Amounts not credited by the treasurer to the collector re 1920 tax roll when transferred to 1921 tax roll were \$58.33. (See report re 1921 tax roll, \$41.69, plus \$16.84).

The total penalty on account of 1920 income tax arrears was incorrectly charged against the collector re 1920 tax roll as \$523.90. Correct penalty was \$432.50; difference \$41.40.

Additions to 1920 tax roll after the roll was opened, amounted to \$57.76. The treasurer charged the collector with \$52.42, a difference of \$5.34, as follows:—

Ryan Ward Tax Roll, page 32—1919 Arrears	\$14 04
“ “ “ 36— “	10 93
“ “ “ 44— “	14 01
“ “ “ 51— “	4 22
“ “ “ 62— “	2 01
“ “ “ 61— “	18 82
	<hr/>
	\$54 03
Less Page 91, 1919 Arrears.	6 27
	<hr/>
	\$57 76
Entered by Treasurer	52 42
	<hr/>
Difference as above	\$5 34

When these errors were located and corrected, the treasurer's account with the tax collector re 1920 tax roll showed a credit balance of \$110.93. This means either that the taxes for the year 1920 were over-collected, or that further errors have been made. We adjusted the treasurer's control account by crediting this \$110.93 to "General Fund" account. If the council so instructs, we shall make a complete analysis of the 1920 tax roll to locate this amount, but pending such instructions we did not feel that the necessary time should be spent and expense incurred.

COURT OF REVISION.

We examined the minutes of the Court of Revision for the years 1920, 1921, and 1922, and report as follows:—

The minutes were not signed by the chairman nor by any other member of the Court of Revision.

The minutes of June 30th, 1920, cancel arrears of taxes as per six lists, but no lists were attached. The amounts given in the minutes are as follows—

Fournier Ward.....	\$648 81	\$90 83
McCormick Ward.....	508 32	1,156 95
Ryan Ward.....	436 15	48 71

The minutes of June 30th, 1921, cancel arrears of taxes as per lists, but the totals of these lists do not agree with the amounts stated in the minutes, as follows:—

	Amount Stated in Minutes	Total of Attached Lists
McCormick Ward.....	\$1,277 83	\$1,174 82
Ryan Ward.....	787 90	788 90
Fournier Ward.....	381 83	401 53
“ “.....	1,568 00	1,598 96

A list of arrears of taxes of Ryan Ward totalling \$313.02 was attached to the Court of Revision minutes June 30th, 1921, but not mentioned therein. The taxes shown on this list were written off the tax rolls and credited by the treasurer to the collector.

Lists supporting the minutes of the Court of Revision are typewritten but additions and alterations were made, in a number of cases, in hand-writing, occasionally only in pencil.

The arrears of taxes, cancelled by the Court of Revision, in the following cases, do not agree with the arrears of taxes as shown in the tax rolls:

				Taxes Cancelled Per Minutes	Arrears Shown on Tax Roll
June 30th, 1921	Ryan	Ward No. 13	on 1919 Roll.....	\$8 95	\$8 45
“ 1922	Fournier	“ 1433	“ 1920 “.....	12 77	12 27
	“	“ 1468	“ 1921 “.....	36 89	38 01
	Ryan	“ 3059	“ 1920 “.....	36 78	36 79
	“	“ 1453	“ 1921 “.....	11 85	11 29
	“	“ 1137	“ 1921 “.....	8 50	7 73
	McCormick	“ 5013	“ 1920 “.....	73 80	73 18
	“	“ 6009	“ 1920 “.....	47 28	37 28
	“	“ 1605	“ 1921 “.....	10 42	9 48

Arrears of taxes \$17 on 1919 roll, Fournier Ward, \$8.02 were cancelled by the Court of Revision on June 30th, 1921, and the same taxes were again cancelled by the Court of Revision on June 30th, 1922.

Arrears of taxes for \$16.26 on 1921 tax roll, McCormick Ward, of \$56.89, were twice on the same Court of Revision list, as \$56.89 and \$56.90, and cancelled by the Court of Revision June 30th, 1922.

List of Fournier Ward tax arrears cancelled by the Court of Revision June 30th, 1922, were incorrectly totalled as \$1,951.32; correct total, \$1,953.32.

Taxes on \$641, 1921 Tax Roll, McCormick Ward, of \$28.44, were cancelled by the Court of Revision June 6th, 1922, but no corresponding entry was made in the treasurer's books.

The following arrears of taxes cancelled by the Court of Revision, as uncollectable, were later collected. These amounts were re-entered in the tax rolls but correct entries were not made in the treasurer's books.

		Entered in Tax Rolls	Entered in Treasurer's Books
<i>1921 Tax Roll:</i>			
Ryan	Ward, No. 1953 on 1919 Roll	\$20 03	\$22 03

Fournier	" 471 " 1919 "	17 69	Nil

TAX SALES—1916 TO 1922.

We examined the records of tax sales from 1916 to 1922, it being necessary to go back in order to trace the history of the transactions. We prepared schedules (submitted herewith) of "Lands Held on Account of Tax Sales," for each of the seven years. "Lands Held on Account of Tax Sales" include:—

- (1) Properties purchased by the Town at Tax Sales and still held by the Town.
- (2) Properties offered for sale at Tax Sales, but not sold; shown at value of unpaid taxes to the date offered for sale, plus penalty and costs.
- (3) Unpaid balances on properties liable to Tax Sale, partially redeemed by the owners.

We found that the properties purchased by the town at tax sales remained registered in the previous owners' names, and usually were left on the assessor's roll, and taxes levied thereon. This resulted in the following:—

- (a) Subsequent years' taxes on several lots were paid by the former owners, but the properties were not redeemed, nor the arrears of taxes paid. (See schedule).
- (b) Several properties, after the arrears of taxes had accumulated for a second period of three years, were again placed on Tax Sales and redeemed by the previous owners for three years' arrears of taxes. The first three years' arrears of Taxes remain unpaid. (See Schedule).
- (c) Two properties, placed on tax sales for the second time, were sold to third parties for three years arrears of taxes. The Town has thus lost the first three years' arrears of taxes on these properties. (See Schedule).
- (d) Properties on Tax Sales more than once were purchased by the Town a second or third time. (See Schedule).

The tax sales accounts in the town general ledger were not complete, inasmuch as the entries for interest charged, adjustment of costs, etc., were not made by the treasurer. We found it necessary to obtain the information and make the entries with respect thereto, before we could agree the schedules of "Lands Held on Account of Tax Sales," above mentioned, with the ledger balances.

SINKING FUND.

All debentures of the town are repayable in equal annual instalments of principal and interest with the exception of "Park Fund Debentures," \$30,000, issued in March 1918, by-law 590.

The said by-law reads in part as follows:—

".....For the purpose mentioned in the preamble, there shall be borrowed on the credit of the corporation, the sum of \$30,000 and Debentures to be called "Park Fund Debentures" shall be issued therefore on the Sinking Fund plan During the currency of said Debentures there shall be raised annually the sum of \$534.90 to form a Sinking Fund for the repayment of the debt, and \$1,500 for the payment of interest thereon, making in all \$2,034.90 to be raised annually for the payment of the debt and interest."

During the years 1919 and 1918 the annual sinking fund requirements of \$534.90 were charged against funds raised for that purpose and sinking fund reserve at December 31st, 1919, showed a credit balance of \$1,069.80. The town purchased as a sinking fund investment one of the Park Fund debentures, \$1,000. During the year 1920 for reasons which we fail to understand, both the sinking fund investment and sinking fund reserve were written off the books to revenue. The auditors for 1920 detected the error and showed the sinking fund investment and sinking fund reserve on the balance sheet as at December 31st, 1920, but no entry was ever made in the books to again set up these amounts so that the \$1,000 debenture belonging to the municipality was not carried on the books as an asset until the entry made during this examination. During the years 1921 and 1922 no entries were made to give effect to sinking fund requirements for those years and investments for sinking fund were not made in accordance with the by-law. This non-compliance with sinking fund by-laws should be remedied at once.

We completed all the necessary entries and submit herewith a sinking fund balance sheet as at December 31st, 1922 which may be explained as follows:—

Sinking Fund Reserve annual requirement \$534.90 for five years.....	\$2,674 50	
Interest at 4% compounded annually (maximum rate permitted by Act).....	222 70	
	<u> </u>	\$2,897 20
Investments:		
Park Fund Debentures.....	\$1,000 00	
Technical School Debenture.....	499 16	
	<u> </u>	\$1,499 16
Coupons cashed and deposited in Royal Bank of Canada in the name of Sudbury Park Commission.....	179 95	
Interest coupons on debentures, due but not paid.....	79 95	
	<u> </u>	1,759 06
Deficiency of Sinking Fund Investment less excess of Interest earnings of \$37.20.....		\$1,138 14

Interest accrued but not due has not been taken into consideration in the preparation of the statement showing the condition of the sinking fund. It would be advisable for the \$179.95 carried as a deposit in the Royal Bank of Canada with other funds of the Parks Commission, to be withdrawn and deposited in a savings (interest bearing) account in the name of, say, Parks Commission Sinking Fund or other suitable name.

HOUSING COMMISSION.

We found the records of the Housing Commission to be incomplete and inaccurate. There were no accounts to show the results of the operations of the commission. The ledgers recording the loans had never been balanced and no provision had been made for controlling them in a general ledger. There were no records in the books of the town to show the liability of the town to the Province of Ontario for advances made by the Province for Housing Commission purposes. This condition prevailed despite the fact that on the books there was carried an account purporting to represent the loans made by the town out of the funds received by the province. That is, it was shown as an asset but not as a liability.

The town sold \$150,000 debentures to provide further funds for the housing commission. This liability was shown in the debenture account and as the money so raised was disbursed it was charged against the housing commission. At a later date for reasons which we again cannot comprehend, the charges against

the housing commission were written off by crediting the housing commission and charging "General Fund" account (surplus account). At the end of the year 1922 it was apparently noticed that there was no off-setting asset on the books of the town for the debenture liability in respect to the housing commission debentures and an entry was made charging an account called "Advances for Construction" with \$244,816.54 crediting the same amount to "General Fund" account. This entry was absolutely wrong from any point of view.

It is a most extraordinary method of handling the accounting records. The records should show in natural sequence the transactions as they progressively occur. Not only were the records incomplete and the method faulty but the figures do not correctly state the facts. For instance, \$244,816.54 is supposed to represent the amount of loans made by both the Municipal housing commission and the Provincial housing commission less repayments to December 31st, 1922, but this amount does not include any interest. The actual balances owing on loans as at December 31st, 1922, according to the borrowers ledgers were:

Provincial Housing Commission	\$135,232 45
Municipal Housing Commission	137,531 35
	\$272,763 80

In the same connection it was found that in setting up the asset "Advances for Construction" the loans re the Provincial housing commission were included but the liability to the province not credited. The absurdity of such erroneous treatment provokes surprise but needs little comment.

Most of the records kept by the former secretary of the housing commission were memoranda only and not kept in accordance with the practice of standard double entry bookkeeping, and permitting of ordinary balancing tests. We believe it should have been the duty of the secretary to keep accounts showing clearly the results of housing commission operations. This was not done.

We opened a housing commission general ledger and wrote it up from the commencement of housing commission operations to December 31st, 1922, balancing it at the latter date. This ledger shows the result of operations, and assets and liabilities of the commission.

A very serious difficulty has arisen in the borrower's ledger of the housing commission with regard to interest charged to borrowers. We are informed that monthly repayments were made to the former secretary, who entered such payments in the pass books and periodically calculated and entered interest charges in the pass book. In the town treasurer's office interest was also calculated on the loans and charged to the respective accounts in the borrowers ledgers but without reference to, or comparison with, the interest entered in the pass books by the secretary. The result was that out of 48 balances in the Provincial housing commission ledger, 46 did not agree with the pass book balances. In the Municipal housing commission ledger 26 out of 38 did not agree. The difference varied from a few cents to over \$100. When these differences were noted by the town treasurer the balances in his ledgers were changed to agree with the pass book balances without changing the entries which produced his former balances. That is, where the treasurer had charged John Doe with \$10 for interest and found the pass book to show \$5.50 he changed the balance in the account to the same balance which would have been produced had his entry been an interest charge of \$5.50 against John Doe. He made no correcting

entry in the Journal to make up the difference. These changes were made despite the fact that the treasurer claims his interest calculations are right. This difficulty can only be remedied by calling in all the pass books and having interests recalculated back to 1919 and adjustments made either in the pass books or in the borrowers accounts in the ledgers. For purposes of balancing the ledgers we used the interest as calculated by the treasurer.

All receipts and disbursements of the commission were handled through the general bank account of the town and charged or credited to the commission. This method is wrong. A separate bank account should be kept for the transactions of the commission.

We have analysed the receipts and disbursements of the commission and have prepared accounts as at December 31st, 1922 necessary to control the loan account and to show the results of operations. These are reviewed below under two headings, viz.: Provincial Housing Commission and Municipal Housing Commission.

Provincial Housing Commission:

Summary of Receipts and Disbursements is as follows:

Received from Provincial Government	\$148,530 00	
Received from Borrowers for extras, etc.	5,052 84	
Received from Borrowers as repayments on loans and interest.	30,171 70	
		<u>\$183,754 54</u>
Less interest deducted by Government during construction	1,933 67	
		<u>\$181,820 87</u>
Total receipts		\$181,820 87
Disbursed on account of loans, building contracts and expenses of the commission	\$150,526 50	
Repayments to Government including interest	30,988 53	
		<u>181,515 03</u>
Balance represents amount owing by the town to the Commission	505 84	

The liability was shown on the books as \$280.71, the difference represents errors in charging Municipal housing commission with items which should have been charged to Provincial housing commission.

Profit on Construction of Houses and in making loans—(Provincial Housing Commission):

We examined the loan agreements and found that the total loans made amounted to	\$148,530 00	
The cost of these loans to the Commission was	\$150,326 50	
Less extras refunded by Borrowers	5,052 84	
		<u>145,273 66</u>
		\$3,256 34
Deduct interest charged during construction	1,933 67	
		<u>\$1,322 67</u>
Balance represents an excess of loans over cost of loans and expenses		\$1,322 67

Summary of Borrowers' Accounts—(Provincial Housing Commission):

The total loans made to borrowers amounted to	\$148,530 00	
Add interest (which has been added periodically to Borrowers' Accounts but entirely ignored elsewhere)	16,874 15	
		<u>\$165,404 15</u>
Deduct repayments:		
1919	\$40 00	
1920	7,005 16	
1921	12,053 42	
1922	11,073 12	
		<u>30,171 70</u>
Balance owing by Borrowers, December 31, 1922. (See schedule)		<u>\$135,232 45</u>

Liability to Province of Ontario re Provincial Housing Commission:

The total advanced by the Provincial Government was.....	\$148,530 00
Add interest to December 31, 1922.....	17,656 79
	<hr/>
	\$166,186 79
Deduct repayments:	
1919.....	\$40 00
1920.....	7,005 21
1921.....	12,083 68
1922.....	11,858 64
	<hr/>
	30,988 53
Balance owing Provincial Government, December 31, 1922.....	<hr/>
	\$135,198 26

This amount has been confirmed by direct communication with the Department of Municipal Affairs, Toronto.

Municipal Housing Commission:

The summary of Receipts and Disbursements with respect to Municipal Housing Commission to December 31, 1922, is as follows:

Debentures sold by town (6%).....	\$150,000 00
Less discount.....	5,935 00
	<hr/>
	\$144,065 00
Add accrued interest received.....	1,586 31
Repayments of principal and interest by Borrowers.....	18,648 34
Received from Borrowers for extras.....	500 00
	<hr/>
Total receipts.....	\$164,999 65
Disbursed on account of loans and expenses of the Commission.....	\$144,336 46
Debenture repayments.....	6,960 50
Debenture interest paid.....	14,930 43
	<hr/>
	166,227 39
Balance represents amount owing by the Commission to the town.....	<hr/>
	\$1,227 74

As the town owes the commission \$505.84 on account of "Provincial" transactions, only the difference between \$1,227.74 and \$505.84, viz.: \$721.90 is shown on the housing commission balance sheet.

Profit in making loans (Municipal Housing Commission):

We examined the loan agreements and found that the total loans made by the Commission amounted to.....	\$145,000 00
Cost of the loans to the Commission was.....	\$144,336 46
Less extras refunded by Borrowers.....	500 00
	<hr/>
	143,836 46
Balance represents excess of loans over cost of loans and expenses of Commission.....	<hr/>
	\$1,163 54

Summary of Borrowers' Account (Municipal Housing Commission):

The total loans made to Borrowers amount to.....	\$145,000 00
Add interest (which has been added periodically to Borrowers' Accounts, but entirely ignored elsewhere).....	11,379 69
	<hr/>
	\$156,379 69
Deduct repayments to December 31, 1922.....	18,848 34
	<hr/>
Balance owing by Borrowers, December 31, 1922. (See schedule).....	\$137,531 35

The excess of interest paid over the amount received re Municipal housing commission was \$1,964.43. This excess of interest is due principally to the fact that when the debentures were sold the money was deposited to the town

account and not loaned by the housing commission for several months. The housing commission, however, was charged interest on debentures from date of sale. Another contributing factor is that, we have not taken into consideration accrued interest on loans since the dates of last charging in the ledger by the treasurer. We believe that to have done so before making corrections previously mentioned would have further confused the borrower's accounts.

VERIFICATION OF DISBURSEMENTS ON ACCOUNT OF HOUSING COMMISSION.

An attempt was made to check the disbursements on account of housing commission with the authorization contained in the minutes of meetings of the housing commission, but found impracticable, as there were so many corrections and changes in the minutes.

The disbursements on account of the housing commission were substantiated as follows:—

(1) By examination of the orders for payment signed by the Secretary of the housing commission.

(2) By examination of the paid cheques issued by the town on account of the housing commission.

Schedule of disbursements made for which we have not seen signed orders is submitted with this report.

RECOMMENDATIONS RE HOUSING COMMISSION.

(1) The housing commission general ledger should be kept written up to date and balanced regularly. This ledger has been written up by us to December 31st, 1922, and balanced as at that date.

(2) A more systematic method should be adopted for charging interest against borrower's accounts by use of an interest register. Heretofore the interest was charged against borrower's accounts without first having been entered in a primary book, and no corresponding credits were made.

(3) The date of payment of each amount should be entered in the borrowers' ledgers as well as the date to which each payment covers. A great deal of confusion could be saved by doing this as there are scores of items of the same amount being entered.

(4) Trial balance of borrowers' ledgers should be taken monthly and agreed with controlling account.

(5) All funds of the commission should be kept in a bank account separate from the general funds of the town.

(6) More co-ordination between the work and records of the town treasurer and the housing commission, and the elimination of differences by frequent comparisons.

DEBENTURE LIABILITY.

Total \$1,278,620.40. This is the figure as shown by the balance sheet as at December 31st, 1922, submitted herewith. The correctness of same has been verified by examination of the by-laws authorizing the issue of debentures.

TREATMENT OF DISCOUNT ON DEBENTURES SOLD.

Since January, 1914, the total discount on debentures sold (exclusive of housing commission debentures) amounted to \$84,518.63. The total accrued interest received from purchasers of debentures (exclusive of housing commis-

sion debentures) since January, 1914, amounted to \$21,258.41. The difference between the discount allowed and the accrued interest received was charged by the treasurer to "Revenue" account as at the time of sale.

This treatment of discount is manifestly wrong. It should be clear that discount on debentures sold should not be a charge against the "Revenue" account of the period during the which debentures are sold. Such discount should either be amortized over the life of debenture, that is, (in general terms) an equal amount written off each year until the maturity date of the debenture; or the amount of such discount should be added to the cost of the capital expenditure which necessitated the sale of the debenture. Accrued interest received at time of sale is and should be treated as an offset to debenture interest of the current period to be paid at a later date.

We submit schedule of unpaid debentures as at December 31st, 1922. This schedule includes debentures due and not presented December 31st, 1922, as shown on separate schedule \$2,701.75.

OVERPAID TAXES.

We located what appeared to be two cases of overcharged taxes totalling \$581.83. We understand that the treasurer is making a special enquiry into this matter before applying to the council for authority to make refund. We show this amount on the balance sheet as a current liability.

LOCAL IMPROVEMENTS.

There are no Local Improvement accounts in the ledger of the Town of Sudbury. The charges properly belonging to local improvement account being shown in the accounts known as "Streets" account, "Sewers" account, etc.

The method of accounting adopted by the treasurer to record local improvements transactions had the effect of crediting "General Fund" account with an amount equal to the excess of debenture levy with respect to local improvements over an arbitrary charge for depreciation; and to reduce the book value of local improvements by the amount of depreciation. This is not correct. The total debenture levy for repayment of debentures in respect to local improvements should be represented by a credit to a reserve account. That is, levies on account of debenture liability for local improvements should be dealt with in exactly the same way as levies on account of other debentures namely, by crediting the amount levied each year for repayment of local improvement debentures to the special reserve account, entitled, in this report, "Capital Asset Reserve" account, being the total amount which has been paid off from time to time by the ratepayers of the town on account of capital expenditure made by the town.

Expenditure for local improvements should be recorded in such a way as to show the total amount payable by the town and the total amount payable by the owners specially benefited.

COMMUTATION OF LOCAL IMPROVEMENT RATES.

Upon enquiry it was learned that the Dominion Government commuted the local improvement rates upon the Sudbury Post Office property. Money so raised should have been placed in a trust fund and withdrawn therefrom in annual instalments covering the period provided for when the local improvement rate was fixed. This was not done and we have given the treasurer a

memorandum of the amounts. The treasurer stated that the Post Office property was the only property in the town upon which local improvement rates had been commuted, and no record showed any other commutation.

WATER AND LIGHT DEPARTMENT.

The method of bringing the transactions of the water and light department into the general books of the town is not in accordance with standard practice and numerous errors might be made in the water and light department without detection by the treasurer. We refer particularly to the fact that there are no control accounts either in the treasurer's office or in the water and light department with respect to customers' accounts. We have seen audit reports of previous years which have brought this matter very forcibly to the attention of the council.

More satisfactory results would be obtained if the accounts in the treasurer's general ledger affecting the water and light department were transferred to a separate "Water and Light" general ledger. A detailed analysis of the expenditures would be possible and the control of subsidiary accounts payable and accounts receivable ledgers would be simplified. In this connection we quote "Suggestions Touching the Duties of Officials in Town, Township, and Village Municipalities," a pamphlet published by the Bureau of Municipal Affairs.

"Accounts in connection with Public Utilities should be kept in such manner that the profit or loss resulting from the operations of the Utility may be definitely ascertained. As a matter of bookkeeping, the Utility should be treated as one foreign to the municipality, precisely as if it were owned and operated by a person or corporate body having no other connection with the municipality. Interest on all Capital Funds furnished by the municipality and a reasonable tax should be debited against the Utility. On the other hand, the Utility should have credit for all services supplied to the municipality. In no other way can the financial result of operating the Utility be definitely ascertained, so that each branch of the public service may bear its own burdens."

The system of accounts in force in the water and light department is not in conformity with this suggestion. It is not a system designed to give the maximum accounting efficiency. It does not lend itself to the usual audit verification and a system of internal check is almost entirely lacking. We strongly recommend that the council take immediate measures to remedy these deficiencies by the installation of a proper system.

There is a marked lack of co-ordination between the office of the treasurer and that of the light and water department. We cannot say that any actual loss resulting from this condition has been found by us but there is opportunity for loss and a lack of efficiency. In the absence of any by-law to the contrary the treasurer has charge of all the funds of the town including the water and light department, and therefore should exercise more direct supervision, either personally or by properly deputed authority over such funds and the records of such funds.

PUBLIC LIBRARY BOARD.

The books at December 31st, 1922, showed but one open account with the Public Library board, viz.: "Public Library Levy" with a credit balance of \$2,754.15 representing the balance of library board appropriation not paid to the board. No account was carried on the books of the town to represent the cost of the library site.

In a previous paragraph we referred to an error of \$3,200 in connection with the records relative to a loan of \$4,000 from the town to the public library board. We now submit full detail and explanation:—

On December 16, 1917 the Library Board borrowed from the Town of Sudbury the sum of.....	\$4,000 00
This was reduced by a credit for a portion of the 1917 Tax Levy in respect to Public Library the credit being.....	800 00
Leaving the balance against the Public Library Board as referred to above..	\$3,200 00
Later repayments by the Library Board including interest were as follows:	
1919..... x \$692 28	
1920 (charged against levy)..... x 1,000 00	
1921..... x 1,586 75	
	<u>3,279 03</u>
	\$79 03
Interest on loan (\$2,800 of which was financed through the Royal Bank of Canada) was as follows: .	
1918 and 1919.....	\$273 62
1920.....	111 68
1921.....	93 73
	<u>\$479 03</u>
Leaving a balance owing by the Library Board to the town of.....	\$400 00

We discussed this balance with the secretary of the library board and were informed by him that provision had already been made in the levies for the total repayment of the loan, that being so the balance at credit of the levy should be charged with this amount \$400. This we have done.

The repayments by the library board as shown above marked "X" amounting to \$3,279.03 had been credited by the treasurer of the town in error to "Revenue" account instead of to the loan account, thus leaving the open balance of \$3,200 in loan account previously referred to.

It was found that on December 31st, 1921, a "single" entry had been made crediting "Loan to Public Library Board" account with \$3,200 thus closing the account. This entry was not posted from any book of original entry and there was no corresponding debit entry in the ledger. The explanation given to us was to the effect that the library board having paid the loan the money was not owing to the town and therefore the account should be closed. This as a statement of facts may be correct but the method adopted was altogether wrong and objectionable on any and all grounds of correct accounting. When the above-mentioned erroneous "single" entry was cancelled the books showed at December 31st, 1922, a balance owing by the library board to the town of \$3,200. This balance was wiped out when the correct entries were put through during the examination.

Revised Balance of Unpaid Appropriation to the Library Board.

Balance per ledger, December 31, 1922.....	\$2,754 15
Deduct balance of loan owing by the Library Board to the town. (See previous page).....	400 00
	<u>\$2,354 15</u>
Add interest on loan charged against the "Library Board Levy Account" and also included in repayments of the Library Board:	
1918 and 1919.....	\$273 62
1920.....	111 68
	<u>385 30</u>
Revised balance at credit of "Library Board Levy" account, December 31, 1922..	\$2,739 45

To this balance at credit of "Library Board Levy" account we have added the sum of \$450.36 representing the cash in the hands of the public library board and cash on deposit to the credit of the public library board as at December 31st, 1922. This is done in order that such cash may be shown as an asset of the town on the balance sheet but specifically appropriated for public library purposes. The entry made to record the above \$450.36 should be reversed as at January 1st, 1923.

No ledgers are kept by the public library board, the financial records consisting only of cash receipt and cash disbursement book. The board's accounting records should be extended to include ledger and journal.

PARKS COMMISSION.

The records of the Sudbury Parks Commission were incomplete. The books were in memoranda form and did not accurately show the condition of the finances of the commission. We did not rewrite these books but suggest and strongly recommend that books be obtained and written up along standard lines to show:—

- (1) Assets and liabilities of the commission.
- (2) Revenue and expenditure of the commission.

This being done, a trial balance should be abstracted regularly and the secretary of the commission should see that the accounts of the commission with the town are kept in agreement with the town's account with the park commission.

It would be of advantage to have trustees of the sinking fund appointed and sinking fund cash kept separate from the cash of the commission. At December 31st, 1922, there was included in the park commission bank account \$179.95 sinking fund cash. For balance sheet purposes this is shown separately.

THE TREASURER'S ACCOUNT WITH THE PARKS COMMISSION.

The account with the parks commission in the town general ledger was not correct and entries made therein would almost indicate a lack of understanding of the purposes of the account.

For instance: The annual sinking fund requirements is \$534.90 for years 1921 and 1922 were not charged against this account despite the fact that the annual levy therefor is credited to this account. The proper method would have been to credit the annual provision of \$534.90 to a separate account to show the accumulated sinking fund reserve in respect to park fund debentures, so that from year to year the total amount which should be available on account of the ultimate redemption of the park fund debentures will be shown on the balance sheet. In 1922 the reverse of the correct entry was made by crediting "Parks Commission" account with sinking fund requirements for that year instead of charging account. This erroneous credit would have had the effect of showing a larger amount available to the parks commission than is actually the case if it had not been for the error next described.

The town purchased a debenture in 1921 of \$499.16 for the sinking fund and the "Parks Commission" account was charged with this amount. This was in error. "Sinking Fund Investment" account should have been charged and a record of the investment thus set up. The way it was dealt with left no account to show the ownership of the debenture.

Interest on \$30,000 parks debentures, viz.: \$1,500 should be charged annually against "Parks Commission" account. During the last three years, however, only \$1,450 was charged annually, the reason apparently being that as the parks

sinking fund held one of the parks debentures (\$1,000) the interest on this \$1,000 debenture should not be charged against the "Parks Commission" account. This is absolutely incorrect as it does not provide for interest on the sinking fund investment.

Among the journal entries to correct errors (submitted herewith) will be found full explanations of above and other similar errors made in connection with the "Parks Commission" account.

On the balance sheet we have shown park lands at the same figure as shown on the certified balance sheet, December 31st, 1920, as none of the expenditure made by the parks commission since January 1st, 1920 has been capitalized. It is possible that a small amount of the expenditure has been in the nature of capital improvements and when the books of the parks commission are written up as suggested in the first paragraph dealing with this subject it would be well for this matter to be kept in mind.

The parks commission cash on hand and on deposit December 31st, 1922 amounting to \$816.57 (exclusive of sinking fund cash) was shown only on the parks commission books and not on the town treasurer's books. In order to show this on the balance sheet of the town we entered this in the town books as at December 31st, 1922, by a credit to the "Parks Commission" account thus showing it as an asset of the town definitely appropriated for a specific purpose. Under date of January 2nd, 1923, this entry should be reversed.

PUBLIC SCHOOLS.

The payment made by the town to the public school board were compared with the corresponding receipt entries in the cash book of the public school board. In all cases they were found to agree. Statement of receipts and disbursements as submitted by the auditor for the year ending December 31st, 1922, agreed with the books of the secretary of the public school board.

Entries in town books re cost of new school disclose the following:—

Amount paid to Public School Board to be disbursed for construction purposes:		
Year 1920.....	\$45,000 00	
" 1921.....	3,310 00	
" 1922.....	703 22	
		\$49,013 22
Expended by the town and charged against Public School Board <i>re</i>		
construction purposes (principally interest).....	\$74 00	
	57 03	
	52 30	
	10 79	
	137 90	
	9 40	
	1,035 31	
		1,376 73
Total amount paid by the town to the Public School Board to be dis-		
bursed for construction purposes and amount expended by the		
town and charged against Public School Board <i>re</i> construction...		\$50,389 95
The town realized on the sale of Debentures <i>re</i> Public School the		
following:		
Par value of Debentures sold.....	\$53,000 00	
Less discount.....	5,022 68	
		\$47,977 32
Add accrued interest. (N.B.—Interest accrued at date of sale		
has been treated by the Treasurer as a deduction from		
discount all through the records).....	1,959 45	
		49,936 77
Apparent excess of payments to, and disbursements on account of,		
Public School Board over amount realized on Debentures.....		\$453 18

The books did not show this apparent deficiency. No alteration was made in the books but this amount having come out of the general tax rate should be reimbursed to the treasurer by being included in the next budget of the public school board.

HIGH SCHOOL BOARD.

The payments made by the town to the high school board as recorded in the town books agreed with the corresponding receipt entries in the cash books of the high school board. The cash receipts and disbursements statement for the year ending December 31st, 1922, as submitted by the auditors for 1922 agrees with the books of the high school board.

Entries in town books re advances for construction of the Technical and Mining school disclose the following:—

Amount paid to High School Board to be disbursed for construction purposes:		
Year 1920.....		\$48,000 00
“ 1921.....	\$33,000 00	
Less repaid.....	20,000 00	
		<u>13,000 00</u>
1922.....		30,000 00
		<u>\$91,000 00</u>
Expended by the town and charged against High School Board re construction purposes (principally interest):		
1920.....	\$1,327 74	
1921.....	1,146 13	
1922.....	198 97	
		<u>2,672 84</u>
		\$93,672 84
Less charged against levy.....		<u>1,366 68</u>
		\$92,306 16
Total.....		<u>92,090 51</u>
The town realized on sale of Debentures re High School the following.		
The High School Board therefor apparently has been overpaid with respect to the amount realized on Debentures sold.....		\$215 65

This amount has not been charged against the high school board as it would appear that the 1922 charge of \$198.97 should have been debited to the public school board although we were not able to obtain sufficient information to warrant our doing so. The deficiency and the difference of \$16.68 should be adjusted in the next budget. In connection with these transactions, however, there appeared on the books of the town a liability to the high school board brought about by entries not in accordance with the foregoing statement which appeared to us to be incorrect. We discussed this matter very carefully with the treasurer and showed him the summary of the amounts realized on debentures sold and the record of payments made by the town to, and on account of, the high school board. The treasurer was unable to show that our figures were not according to the facts and we therefore transferred this liability (as shown by the books) to “General Fund” account.

MISCELLANEOUS ACCOUNT.

We found an account in the general ledger under this caption and the name probably best describes the nature of the items entered therein.

The balance of this account was closed out annually to “Revenue” account but we would point out that numerous entries found in this account are items

which are not "Revenue" items. For instance: dishonoured and post-dated cheques are charged to this account until such time as they are paid. When they are paid this account is credited. It will be seen that if post dated or dishonoured cheques are charged to this account, but not paid before the end of the year such items are charged to "Revenue" because the open balance is transferred to revenue account. In the next year they will be credited to "Revenue." There is always a possibility that an item once written off to "Revenue" will be forgotten and never collected.

Among the credits to "Miscellaneous Account" (carried to "Revenue" at the end of the year 1922) was \$1,612.43 owing by a customer of the water and light department, but paid direct to the treasurer. This account had been originally charged to the customer and credited, quite properly, to water and light revenue, therefore, by crediting "Miscellaneous Account" the customers' account was left open and a double credit to "Revenue" made. This was adjusted.

We would suggest that a separate account be opened for items in "Suspense" such as post dated and dishonoured cheques and that under no circumstance should the balance of the account be carried to "Revenue."

AUTHORIZATION OF PAYMENTS.

Payments of accounts and payrolls are authorized by the council and recorded in the minutes. The minutes record only the total of accounts or payrolls of the different departments to be paid, the detail being recorded elsewhere. We believe it would be advisable to have the list of accounts and wages signed in order that they might be finitely allocated as the specific lists covered in the resolution of the council.

We could not find authorization in the minutes for the following payments made in the year 1921.

Jan. 11, 1921—Brown & Williams <i>re</i> Fire Hall Extensions.....	\$1,208 00
Feb. 4, 1921— " " " " "	1,700 00
Mar. 26, 1921— " " " " "	1,000 00
May 30, 1921—D. G. Brown " " " "	3,061 62
Sept. 13, 1921—G. Duncan <i>re</i> Cement Walks.....	3,887 32
Oct. 1, 1921— " " " " "	4,611 64
Dec. 17, 1921—Miscellaneous Pay Roll, Dec. 1-15.....	1,426 79
" 17, 1921—Roads, Streets and Bridges Dept., Pay Roll, Dec. 1-15.....	607 00
" 17, 1921—Light, Water and Sewers Dept., Pay Roll, Dec. 1-15.....	1,859 75
" 30, 1921—Sudbury Star <i>re</i> advertising and printing.....	585 65

In addition to the above there were a number of small items of a miscellaneous nature apparently not authorized in the usual way by resolution of the council.

In connection with authorization for 1922 payments we made exhaustive tests to assure ourselves that this matter had been carefully checked by the auditor for that year, and we confirmed the report that cheque No. 756 payable to H. Elman, May, 1922, for \$36.74 was entered twice, and that two cheques were issued and entered for each of the following payments.

Leonard Fabbro.....	\$3 15 (Nos. 996 and 1614)
John Raivic.....	150 90 (Nos. 277 and 422)

Cheques Nos. 422 and 996 were not paid at December 31, 1922, and we understand that payment has been stopped at the bank. Entries were made to correct the above three items.

We also confirmed the report that two accounts apparently had been overpaid in 1922 as follows:—

St. John's Industrial School. . . .	892 00 (Nos. 3875 and 605)
Sudbury Battery Service.	2 75 (Nos. 2184 and 2693)

TREASURER'S ANNUAL PUBLISHED STATUTORY FINANCIAL STATEMENT.

The statements of assets and liabilities as published by the treasurer as at December 15th, each year do not agree with the facts nor with the books of the town. For example:—

Statement as at December 15, 1921 shows an excess of Assets over Liabilities:		
Capital.....	\$323,017 54	
Current.....	2,310 12	
	<hr/>	\$325,327 66
Statement as at December 15, 1922, shows an excess of Assets over Liabilities:		
Capital.....	\$547,128 87	
Current (excess of Liabilities over Assets).....	3,047 55	
	<hr/>	544,081 32
According to these statements there has been an increase in the excess of Assets over Liabilities of (which is absurd).....		\$218,753 66

In the ordinary course of events an increase of surplus can only be brought about by an excess of revenue over expenditure or by including the amount levied for debenture repayment. Some of this large increase may be accounted for as follows:—

(1) On the statement of December 31, 1921, there is shown among the Capital Liabilities, Debentures totalling \$147,281.00 issued by the Town to provide funds for Housing Commission purposes, but the Assets (loans) created by funds so raised are not shown among the Assets.

(2) On the statement of December 31, 1922, there is shown among the Assets an amount purporting to represent Housing Commission Loans, \$244,816.54. This is supposed to represent loans created with funds raised by Debenture issue (Municipal Housing Commission) and funds loaned by the Province of Ontario (Provincial Housing Commission) yet the only Liability shown in respect thereto is the Debenture Liability, the Liability to the Province of Ontario, \$135,198.26 being omitted.

(3) Capital Assets on both statements are overstated by the amounts of "Capital Expenditures to be recovered on Debenture Issues," such amounts being shown twice, once among the Current Assets and again among the Permanent or Capital Assets.

(4) High Schools are shown on the statement as at December 15, 1922, at a figure over \$20,000.00 in excess of the amount as shown on the books.

No attempt was made to reconcile these statements further, but time was devoted to determining the true condition of the town's affairs as at December 31, 1922, and having the books represent that condition.

CONCLUSION.

We believe that the following general recommendations if carried out will go far towards preventing a recurrence of the confusion in the accounts recited in the previous pages.

(1) Trial balances of the general ledger should be prepared monthly and kept on file permanently.

(2) All subsidiary ledgers should be controlled and balanced monthly. This includes all records of accounts receivable, such as water and light accounts, oiling streets account, coal and wood accounts, etc., and housing commission account.

(3) The accounting of all departments should be under the supervision and direction of one man.

(4) Tax rolls should be balanced at regular and frequent intervals and records of such balancing retained in the office.

(5) Separate bank accounts for current and capital expenditure and special or trust funds should be kept and no funds diverted from their intended use.

(6) Petty cash should be placed on Imprest system.

(7) Books should not be closed at the end of each year until after the audit has been made and necessary adjustments (if any) entered, preliminary trial balance only being taken off pending audit.

All of which is respectfully submitted,

JOHN B. ROBERTSON,
ROBERTSON, ROBINSON, ARMSTRONG AND McCANNELL,
Chartered Accountants.

SCHEDULE 5A

Sudbury, Ont., August 24th, 1923.

THE AUDITORS,

Corporation of the Town of Sudbury,
Sudbury, Ontario.

DEAR SIRs:

As requested by you we beg to advise that at the close of business on December 31st, 1921, the accounts of the Town of Sudbury on our books stood as follows:

Loan, School Expenditure Account.....	\$20,000 00
Loan, Local Improvement Account.....	132,000 00
Overdrawn Current Account.....	30,910 18

On December 31st, 1922, the Corporation Account was as follows:

Current Account Overdraft.....	59,024 18
--------------------------------	-----------

Trusting that these are the figures you require, we remain,

Yours truly,

G. A. GODDARD,
pro Manager, Royal Bank.

SCHEDULE 5B

Sudbury, Ont., November 1st, 1923.

MESSRS. ROBERTSON, ROBINSON, ARMSTRONG & Co.,
24 King St. West,
Toronto, Ont.

DEAR SIRs:

Re: Town of Sudbury.

Advances by way of overdraft to the above Municipality on the 31st of December, 1922, were covered by By-law No. 732, authorizing the borrowing of \$100,000 for current expenditure for the year 1922.

Yours truly,

(Sgd.) L. H. HILLARY,
Manager, Royal Bank.

SCHEDULE 5C

Sudbury, Ont., October 31st, 1923.

ROBERTSON, ROBINSON, ARMSTRONG & Co.,
316 Federal Bldg.,
Richmond and Sheppard Sts.,
Toronto, Ont.

DEAR SIRs:

Re: Town of Sudbury Inventory. Water, Light and Sewer Dept.

We have your inquiry of the 29th, with reference to the Inventory Values as at December 31st, 1922, and in reply I beg to say that the stock-taking was done under my direction, and the pricing of same was supervised by the writer personally. I believe these prices and values to be correct, and some allowance has been made for depreciation of stock and equipment in the pricing of same.

I trust this is the information you desire, and beg to remain,

Yours truly,

(Sgd.) R. H. MARTINDALE,
Supt.

SCHEDULE 5D

Sudbury, Ont., November 6th, 1923.

MESSRS. ROBERTSON, ROBINSON, ARMSTRONG & Co.,
Federal Building,
Toronto, Ont.

DEAR SIRs:

Your letter of the 27th ult. received. A few days' absence from the office explains my delay in replying.

The inventories of the Roads, Streets and Bridges Department,

Tools.....	\$465 40
Supplies.....	2,961 81

were taken under my direction and the items priced by myself at what I considered their actual market value at December 15th, 1922.

Yours truly,

(Sgd.) F. C. LANE,
Town Engineer.

SCHEDULE 30

TAX SALES

Schedule of properties appearing on Tax Sales on two different occasions for three years arrears of taxes each. These properties were purchased by the town on the first occasion for three years arrears of taxes, penalties and costs. Three years later these properties were again put on Tax Sales and sold to third parties for only three years' arrears of taxes, penalties and costs. The first three years of taxes were lost by the town as follows:

Ryan Ward, Lot 661, Mabel St., year 1917.....	\$16 87
“ “ “ 876, Tedman St., “ 1918.....	10 57

SCHEDULE 31

TAX SALES

Schedule of properties on Tax Sales, 1921, which according to the Treasurer's records were purchased by the Town, but in error were placed on Tax Sales, 1922, for one year's arrears of taxes and costs. The amount shown on Tax Sale, 1922 lists, were paid by former owners. The three years' arrears of taxes necessitating the 1921 Tax Sales have not been paid and are shown on the books as "Lands held on account Tax Sales."

Ryan Ward, Lots 117, 155, 157, 178, 333, Ethelbert St.
" " " 207, 299, Maple St.
" " " 170, 158, Poplar St.
" " " 341-409, Reginald St.
" " " 464, 473, 482, 487, McKim St.
" " " 82, Hickory St.

N.B.—Amounts are not shown, as Taxes owing on these lots were included in total with taxes owing on other lots on same sheets on Tax Sales, 1921.

SCHEDULE 32

TAX SALES

Schedule of properties appearing on Tax Sales on two different occasions for three years arrears of taxes each. These properties were purchased by the Town on the first occasion for three years arrears of taxes, penalties and costs. Three years later these properties were again put on Tax Sales list and apparently redeemed by former owners by payment of only three years' arrears of taxes, penalties and costs. The first three years' arrears of taxes have not been paid and are shown on the books as "Lands held on account Tax Sales" for the following amounts:

Fournier Ward, Lot 126, Louis St., year 1916.....	\$100 72
Ryan " " 227, Bessie St., " 1918.....	19 77
Fournier " " 27, Pearl St., " 1918.....	38 21
" " " 15, Argyle St., " 1918.....	26 71
Ryan " " 513, Antwerp, " 1919.....	14 19
*Fournier " " 158, 159, 160, King St., year 1916.....	12 56

*Balance unredeemed by owner on first Tax Sale.

SCHEDULE 33

TAX SALES

Schedule of properties purchased by the Town at Tax Sales and shown on the books of the Town as "Lands held on account Tax Sales," but registration still shown in the former owner's name and subsequent taxes paid by the former owner without redemption of the arrears of taxes which brought about the Tax Sales.

DECEMBER 31ST, 1922

Fournier Ward, Lot 109, Coniston Rd., (109 York St.) not segregated from 115 Coniston Rd., 1917.		
Ryan	" " 34, Regent St., year 1916.....	\$49 81
Fournier	" " 7 pt. 8, St. Joseph St., " 1916.....	4 94
Ryan	" " 711, Margaret St., " 1917.....	4 96
"	" " 204, Albinson St., " 1919.....	18 18
"	" " 455, Antwerp St., " 1919.....	13 99
"	" " 786, pt. 785, Frank St., " 1919.....	9 59
"	" " 4, Mabel Lane, " 1920.....	9 75
Fournier	" " 69, Coniston Rd., " 1920.....	14 53
Ryan	" " 22, Ash St., " 1921 (not segregated from Lots 195, 231 and 306 Ash St.)	
"	" " 722, Edith St., " 1921.....	7 42

CORPORATION OF THE TOWN OF SUDBURY

SCHEDULE 36

HOUSING COMMISSION OPERATING STATEMENT, MAY, 1919, TO DECEMBER 31ST, 1922

Excess of Loans over

Cost of Loans and Expenses of Commission

Municipal Housing Commission.....		\$1,163 54
Provincial Housing Commission.....	\$3,256 34	
Less Interest during construction.....	1,933 67	
		<u>1,322 67</u>
		\$2,486 21

Excess of Interest paid over

Interest Earned

Municipal Housing Commission.....	\$1,964 43	
Provincial Housing Commission.....	782 64	
Discount on Debentures amortized.....	593 50	
		<u>3,340 57</u>
Deficit carried to Balance Sheet.....		<u>\$854 36</u>

N.B.—Excess of interest paid over interest earned is due to two causes (1) Debentures were sold by the Town and deposited in the Town bank account and disbursed by the Town from time to time as required by Housing Commission. No allowance was made by the Town to the Housing Commission for interest. (2) Interest accrued on loans from the dates last figured by the Treasurer and interest in the borrowers' account has been omitted in order to avoid further confusion in the accounts until interest is refigured. (See report.)

HOUSING COMMISSION, DECEMBER 31ST, 1922

In order to accurately determine the position of the Housing Commission as at December 31st, 1922, it was necessary to open a Housing Commission General Ledger, and to do so, the following Journal entries were made by us:

(HC1)	Town of Sudbury, Debit.....	\$90,089 42	
	Interest Debit.....	648 72	
	To Provincial Government.....		\$89,900 00
	Extras.....		798 14
	Loans from applicants.....		40 00

Explanation: The above entry summarizes the cash receipts by the Town of Sudbury, on account of the Provincial Housing Commission for the year ending December 31st, 1919, as follows:

From Provincial Government.....	\$89,900 00	
Less Interest Deducted.....	648 72	
	<u>89,251 28</u>	
From borrowers who desire extras installed in their houses.....	\$798 14	
From borrowers, being monthly repayments.....	40 00	
Total Cash received by the Town in 1919, to be disbursed on account of Provincial Housing Commission.....	<u>90,089 42</u>	

* Orders for December, 1921, and corresponding summary sheet mislaid and not available at time of audit for inspection.

(HC2)	Disbursements on account of loans to applicants (Provincial), Dr.....	84,731 88	
	Provincial Government, Dr.....	40 00	
	To Town of Sudbury.....		\$84,771 88

Explanation: The above entry summarizes the cash disbursements by the Town of Sudbury, on account of the Provincial Housing Commission, for year ending December 31st, 1919. There is a charge against the cost of the loans of all disbursements by the Town on account of Housing Commission, such as direct loans made, contracts for building houses, pay rolls and sundry expenses of the Commission. The charge to Provincial Government represents a repayment on account of advances received.

(HC3)	Town of Sudbury, Dr.....	\$68,466 08	
	Interest, Dr.....	1,284 95	
	To Provincial Governments.....		\$58,630 00
	Extras.....		4,065 87
	Loans to applicants (Provincial).....		7,005 16
	Disbursements on account of loans to applicants (Provincial).....		50 00

Explanation: The above entry summarizes the cash receipts by the Town of Sudbury on account of the Provincial Housing Commission for the year ending December 31st, 1920, as follows:

From Provincial Government.....	\$58,630 00	
Less Interest Deducted.....	1,284 95	
		57,345 05
From borrowers who desired extras installed in their houses.....	4,065 83	
From borrowers, being monthly repayments received.....	7,005 16	
From contractors, being an allowance for scaffolding.....	50 00	
Total cost received by Town in 1920, to be disbursed on account of Provincial Housing Commission.....		68,466 04

(HC4)	Disbursements on account of loans to applicants (Provincial), Dr.....	63,931 85	
	Provincial Government, Dr.....	7,005 21	
	To Town of Sudbury.....		70,937 06

Explanation: The above entry summarizes the cash disbursements by the Town of Sudbury on account of the Provincial Housing Commission for the year ending December 31st, 1920. Disbursements on account of loans to applicants (Provincial) includes direct loans made—contracts, payrolls, and sundry expenses of the Commission. The charge against the Provincial Government represents repayment on account of advances received.

(HC4a)	Town of Sudbury, Dr.....	\$12,242 25	
	To Loans to applicants (Provincial).....		\$12,053 42
	Payments by borrowers for extras.....		188 83
			\$12,242 25

Explanation: The above entry summarizes the cash receipts of the Town of Sudbury on account of Provincial Housing Commission for year ending December 31st, 1921, and represents repayments by Borrowers.

(HC4b)	Provincial Government, Dr.....	\$12,084 68	
	Disbursement on account of Loans to applicants (Provincial).....	1,557 62	
	To Town of Sudbury.....		\$13,642 30

Explanation: The above entry summarizes the cash disbursements by the Town of Sudbury on account of the Provincial Housing Commission for the year ending December 31st, 1921, and represents repayments to the Provincial Government, \$12,084.68, and disbursements on account of loans, \$1,557.62.

(HC5) Town of Sudbury, Dr. \$11,073 12
 To Loan to applicants (Provincial) \$11,073 12

Explanation: The above entry summarizes the receipts of the Town of Sudbury on account of the Provincial Housing Commission for the year ending December 31st, 1922, being monthly repayments from borrowers.

(HC6) Disbursements on account of Loans to applicants (Pro-
 vincial) Dr. \$155 15
 Provincial Government, Dr. 11,858 64
 To Town of Sudbury \$12,013 79

Explanation: The above entry summarizes the disbursements of the Town of Sudbury on account of Provincial Housing Commission for the year ending December 31st, 1922, and represents repayments to the Provincial Government, \$11,858.64, and sundry expenditures of the Commission, \$155.15.

(HC7) Loans to applicants (Provincial) Dr. \$148,530 00
 To Disbursements on account of Loans to applicants (Provincial) . . . \$148,530 00

Explanation: An examination of all the loan agreements revealed the fact that the total loans created by the disbursements on account of loans to applicants (Provincial) by the Town of Sudbury amounted to \$148,530.00. This entry is to charge "Loans to Applicants (Provincial)" with this \$148,530.00, crediting the account which was originally charged with the expenditure by the Town to create the loans.

(HC8) Extras, Dr. \$5,052 84
 To Disbursements on account of loans to applicants (Provincial) . . . \$5,052 84

Explanation: The total amount charged against disbursements on account of Loans to applicants (Provincial) included funds provided by the borrowers for extras, and is here reversed.

(HC9) Loans to Applicants (Provincial) Dr. \$16,874 15
 To Interest \$16,874 15

Explanation: Interest charged against borrowers in Borrowers' Ledger to December 31st, 1922, by Treasurer.

(HC10) Interest, Dr. \$17,656 79
 To Provincial Government \$17,656 79

Explanation: Interest on Loans from Ontario Government, as to December 31st, 1922, as confirmed by direct communication with the Department of Municipal affairs, as follows:

\$1,251 45
2,571 00
3,433 23
3,527 58
3,467 54
3,405 99
\$17,656 79

(HC11) Provincial Government \$135,198 26
 To Town of Sudbury, re Provincial Government advances \$135,198 26

Explanation: The Liability to the Provincial Government was never previously set up on the Town books. Entries were made by us in the Town books to set up this liability. The liability of the Housing Commission, therefore, is a liability to the Town for assuming the liability to the Province. This entry gives effect in the books of the Housing Commission to the above.

(HC12) Town of Sudbury \$145,651 31
 Discount on Debentures 4,348 69
 To Debentures \$150,000 00

Explanation: The Town of Sudbury sold Debentures to provide funds for Municipal Housing Commission. Cash realized from the sale of Debentures was retained by the Town and disbursed by the Town on behalf of the Commission from time to time. This entry charges the Town the amount realized.

(HC13) Town of Sudbury \$500 00
 To Extras \$500 00

Explanation: Cash paid by borrowers who have extras installed in houses.

(HC14)	Disbursements on account of Loans to Applicants (Municipal).....	\$144,211 46	
	To Town of Sudbury.....	\$144,211 46	
	Explanation: The above entry summarizes the total disbursements made by the Town to December 31st, 1922, on account of Loans to Applicants with respect to the Municipal Housing Commission. This includes Loans to Applicants less percentage retained and sundry expenditure of the Commission.		
(HC15)	Loans to Applicants (Municipal).....	\$145,000 00	
	To Disbursements on account of Loans to Applicants (Municipal)....	\$145,000 00	
	Explanation: An examination of all the loans agreements revealed the fact that the total loans created by the disbursements on account of Loans to Applicants (Municipal) by the Town of Sudbury amounted to \$145,000.00. This entry is to charge Loans to Applicants (Municipal) with this \$145,000.00, crediting the account which was originally charged with the expenditure by the Town to create the loan.		
(HC16)	Debentures.....	\$2,719 00	
	Interest on Debentures.....	6,000 00	
	To Town of Sudbury.....		£8,719 00
	Explanation: Interest on Debentures and Debenture instalments paid by the Town in 1921, in connection with Debentures issued to provide funds for Housing Commission purposes.		
(HC17)	Debentures.....	\$4,409 46	
	Interest on Debentures.....	8,930 43	
	To Town of Sudbury.....		\$13,339 89
	Explanation: Interest on Debentures and Debenture instalments paid by the Town in 1922 in connection with Debentures issued to provide funds for Housing Commission purposes.		
(HC18)	Loans to Applicants (Municipal).....	\$11,379 69	
	To Interest.....		\$11,379 69
	Explanation: Interest charged against borrowers in Borrowers' Ledger to December 31st, 1922, by Treasurer.		
(HC19)	Town of Sudbury.....	\$18,878 62	
	To Loans to Applicants (Municipal).....		\$18,878 62
	Explanation: Total monthly repayments by borrowers made to the Town to December 31st, 1922.		
(HC20)	Discount on Debentures.....	\$1,586 31	
	To Interest.....		\$1,586 31
	Explanation: In Town books accrued interest on Housing Commission Debentures at date of sale was deducted from the discount on the Debentures. This is to correct in the Housing Commission books.		
(HC21)	Interest.....	\$593 50	
	To Discount on Debentures.....		\$593 50
	Explanation: The above entry made to amortize discount figured at 5% per annum for two years.		
(HC22)	Town of Sudbury.....	\$167 96	
	To Debentures.....		\$167 96
	Explanation: This entry is made because of an error made in the Town books charging the Housing Commission with the wrong amount of Debenture repayment. The total charge by the Town (also entered in the Housing Commission books at this figure) was.....		
	Actual repayments.....	\$7,128 46	
		\$2,719 00	
		2,882 00	
		1,000 00	
		359 50	
		<hr/>	
			6,960 50
	Difference.....		\$167 96

(HC23)	Debentures.....	\$143,039 50	
	To Town of Sudbury, re Debentures.....		\$143,039 50

Explanation: The liability of the Town re Municipal Housing Commission Debentures is shown on the Town books. Hence it is necessary to show on the books of the Housing Commission only the liability to the Town for assuming the Debenture liability on behalf of the Commission. This entry is to transfer the liability from "Debentures" to "Town of Sudbury re Debentures."

(HC24)	Extras.....	\$500 00	
	To Disbursements on account of Loans to Applicants (Municipal)....		\$500 00

Explanation: The total amount charged against disbursements on account of Loans to Applicants (Municipal) included funds provided by borrowers for extras and is here reversed.

(HC25)	Disbursements on account of Loans to Applicants (Municipal).....	\$125 00	
	To Town of Sudbury.....		\$125 00

Explanation: To correct an incorrect charge of August, 1920, made by the Town against the Municipal Housing Commission.

(HC26)	Loans to Applicants (Municipal).....	\$30 28	
	To Town of Sudbury.....		\$30 28

Explanation: J. S. Miller paid \$30.28 on October 31st, 1921. He is credited again with the same amount on November 9th, and the explanation received is that the latter entry is a duplicate of the former. The amount was entered in general Cash Book but once and deposited once.

(HC27)	Disbursements on account of Loans to Applicants (Provincial).....	\$3,256 34	
	Disbursements on account of Loans to Applicants (Municipal).....	1,163 54	
	Deficit and Surplus.....	854 35	
	To Interest (Provincial).....		\$2,716 31
	Interest (Municipal).....		2,557 93

Explanation: The above entry is made to close out to Deficit and Surplus the excess of loans created over a cost of loans, and the excess of interest paid over received.

CORPORATION OF THE TOWN OF SUDBURY

SCHEDULE 50

SCHEDULE OF JOURNAL ENTRIES MADE IN THE BOOKS OF THE TOWN OF SUDBURY TO CORRECT ERRORS LOCATED TO DECEMBER 31ST, 1922

Tools and Equipment, Dr.....	\$10,454 91	
Sinking Fund Investment, Dr.....	1,000 00	
Sewers Merchandise, Dr.....	507 53	
Electric Light Merchandise, Dr.....	4,781 53	
Debenture Instalments provided for in levy, Dr.....	36,221 83	
Parks Levy, Dr.....	169 43	
Interest, Dr.....	80	
Parks Board Cash, Dr.....	416 57	
To General Fund.....		\$53,552 60

General Fund, Dr.....	7,714 12	
To Waterworks Merchandise.....		1,743 79
To Park Lands.....		427 15
To Sidewalks.....		4,286 78
To Sinking Fund Reserve.....		1,069 80
To Taxes, 1920.....		186 60

Explanation: The above two entries are made as at December 31st, 1920, to bring the ledger into agreement with the Langley and Company Balance Sheet as at that date.

Proof—Surplus per books.....	\$157,221 35
Add above adjustment.....	53,552 60
	<u>\$210,773 95</u>
Deduct second adjustment above.....	7,714 12
Balance per Balance Sheet.....	\$203,059 83

A number of the above items will have to be reversed in 1921 or 1922, e.g., Merchandise accounts at December 31st, 1922, are physical inventory balances and fall into the operation of the next year.

(2) General Fund, Dr.....	\$4,781 93	
To Electric Light Merchandise.....		\$4,781 93

Explanation: Difference between Electric Light Merchandise per Balance Sheet, December 31st, 1920, and Ledger (\$4,781.53) charged to ledger account to agree with Balance Sheet will have to be reversed as at December 31st, 1922, as Inventory at December 31st, 1922, is a physical inventory. This entry also corrects a 40 cent error in posting 1922 accounts.....

(3) Roads, Streets and Bridges Maintenance, Dr.....	\$4,217 02	
---	------------	--

Explanation: The above "single" entry is made to correct error, January 1st, 1922, in not bringing forward the inventory in this account.

(4) General Fund Dr.....	\$4,217 02	
To Roads, Streets and Bridges Maintenance.....		\$4,217 02

Explanation: The inventory of Roads, Streets and Bridges Account as at December 31st, 1922, was a physical inventory, hence the maintenance cost of Roads, Streets and Bridges for the year 1922, was increased by the account of Inventory, January 1st, 1922, which was not brought forward in the books until the previous entry was made.

(5) General Fund, Dr.....	\$507 53	
To Sewer Department Merchandise.....		\$507 53

Explanation: See explanation of entry No. 2; explanation of this entry similar.

(6) Taxes, 1920, Dr.....	\$186 60	
To General Fund.....		\$186 60

Explanation: Error corrected on Journal Entry No. 1, later located and corrected by the Treasurer, necessitating the above reversal (.90, \$52.42, \$113.38, \$20.00).

(7)	Waterworks Department Merchandise, Dr.....	\$1,743 79	
	To General Fund.....		\$1,743 79

Explanation: Difference between Waterworks Department merchandise as shown by the Ledger and Balance Sheet, as at December 31st, 1920, must be reversed as the Waterworks Department Merchandise Inventory, December 31st, 1922, is a physical inventory.

(8)	Fire Hall Extension, Dr.....	\$236 12	
	To General Fund.....		\$236 12

Explanation: On page 127 of Town Journal, December 31st, 1920, the entry to set up accrued pay roll for Capital Expenditure was made charging "Revenue" and crediting the Capital Asset Accounts \$190.47, plus \$45.65. When the item was paid in 1921, it was charged to Capital Asset Account. This leaves the Capital Asset Account not charged with the item \$236.12. This entry to charge Capital Assets Account and credit General Fund to correct the former charge.

(9)	Fire Hall Extension, Cr.....		\$236 12
-----	------------------------------	--	----------

Explanation: In bringing down the balance in Fire Hall Extension Account from 1920 to 1921 an error was made necessitating the above single entry.

Balance, December 31st, 1920.....	\$49,821 57
Carried forward as.....	50,057 69
	\$236 12
Difference.....	\$236 12

(10)	Pay Roll, Dr.....	\$262 95	
	To General Fund.....		\$262 95

Explanation: At December 31st, 1920, an entry was made on Journal 137, to set up accrued Pay Roll. Revenue was charged and Pay Roll Account credited.

(Note—Entry shows Capital Asset Credit, but as it was not posted, auditors credited the correct account, viz., pay roll.) When the Accrued Pay Roll was paid, Waterworks Capital Account was charged, hence it is only necessary to reverse the revenue to Pay Roll entry.

(11)	Pay Roll, Dr.....	\$34 88	
	To General Fund.....		\$34 88

Explanation: See explanation of Entry No. 10. This entry is of a similar nature and refers to Sewers Extension.

(12)	Sewers Extension, Dr.....	\$91 70	
	To General Fund.....		\$91 70

Explanation: On Journal, page 127, December 31st, 1920, an entry was made purporting to set up Accrued Pay Roll, but instead of charging Sewers Extension and crediting Pay Roll, the entry charged Revenue and credited Sewers Extension. When the item was paid in 1921, Sewers Extension was charged, thus cancelling the credit on Journal 127, and not increasing the book value of Sewers Extension by this amount. This entry to correct.

(13)	Sewers Extension, Dr.....	\$11 70	
------	---------------------------	---------	--

Explanation: The above "single" entry corrects the incorrect carrying forward of Sewers Extension Balance, as at December 31st, 1920.

Balance of Sewers Extension Account, December 31st, 1920.....	\$88,886 98
Carried forward to 1921 as.....	88,875 28
	\$11 70
Difference.....	\$11 70

(14)	Electric Light Streets Capital, Dr.....	\$36 57	
	To General Fund.....		\$36 57

Explanation: On Journal 127, December 31st, 1920, entry was made to set up accrued Pay Roll, but in error charged Revenue and credited Electric Light Streets Capital. When the account was paid in January, 1921, Electric Light Streets Capital was charged, thus cancelling the credit on Journal 127, and not increasing the book value of Electric Light Streets Capital by this amount. This entry to correct.

- (15) Electric Light Streets Capital, Cr..... \$36 57
 Explanation: The above "single" entry corrects an error in carrying forward the balance of Electric Light Streets Capital, January 1st, 1921.
 Balance of Electric Light Streets Capital,
 December 31st, 1920..... \$13,736 83
 Carried forward to 1921 as..... 13,773 40
 Difference..... \$36 57
- (16) Electric Light Capital, Dr..... \$222 75
 To General Fund..... \$222 75
 Explanation: See explanation of Journal Entry No. 14. Explanation of this entry similar.
- (17) Electric Light Capital, Cr..... \$222 75
 Explanation: The above "single" entry corrects an error in carrying forward the balance of Electric Light Capital Account, January 1st, 1921.
 Balance of Electric Light Capital, December
 31st, 1920..... \$67,586 78
 Carried forward to 1921 as..... 67,809 53
 Difference..... \$222 75
- (18) Advances for construction, Municipal Housing Commission, Dr. \$45,309 09
 Explanation: "Single" entry to correct above account made by the Treasurer was not posted from any book of original entry and there was no corresponding debit entry in the accounts.
- (19) Public Library Loan from Corporation, Dr..... \$3,200 00
 Explanation: The above is a "single" entry to correct a credit to above account not posted from any book of original entry and made with no corresponding debit.
- (20) Reserve for Debenture Interest, Cr..... \$19,362 97
 Explanation: The above "single" entry corrects a posting omitted from Journal, page 139. Note—The item was posted to the memorandum column of the Ledger, but not included in the totals or in the balance brought forward.
- (21) Tax Sales, 1920, Dr..... \$10 31
 Explanation: The above "single" entry corrects a posting to Tax Sales, 1920, account which was not posted from any book of original entry, no corresponding debit being made.
- (22) J. A. Holmes. Cr..... \$0 10
 Explanation: This "single" entry corrects error in addition Journal, 1921, page 133.
- (23) General Fund, Dr..... \$1 00
 Explanation: This "single" entry corrects error in addition of Journal, page 136, December, 1921.
- (24) General Fund, Dr..... \$2,000 00
 Explanation: This "single" entry corrects error in addition of Journal, page 133, October, 1921, in setting up the 1921 Tax Roll.
- (25) Interest, Cr..... \$0 80
 Explanation: A debit posting to this account, December 31st, 1920, of the above amount is an error. No primary entry was made for this account, and no corresponding credit posted.
- (26) Debentures, Dr..... \$0 04
 Explanation: The above "single" entry corrects error in addition in Bridges Debenture By-law 306, December, 1921.
- (27) Unpaid Accounts, Cr..... \$10 00
 Explanation: The above "single" entry corrects error in Ledger Addition Account U3, 1921.

(28) Unpaid Accounts, Dr..... \$10 00
 To General Fund..... \$10 00

Explanation: This is closed out as Unpaid Accounts. Account is not an accumulating balance account, but is set up at the end of the year, and closed out to Revenue Account when the following year's balance has been determined (not in accordance with standard practice).

(29) Debenture Instalments provided for in levy, Cr..... \$58,040 14

Explanation: The above "single" entry corrects duplicate debit postings with respect to debenture repayments in 1921 as follows: (1) Reserve for Debenture instalments were charged, and (2) Specific Debentures were charged with all payments on Debentures made.

(30) Debenture Instalments provided for in levy, Cr..... \$62,509 21

Explanation: See previous entry. This amount represents Debenture repayments during the year 1922 for which duplicate debit postings were made in error. (See report of Auditor for year 1922.)

(31) General Fund, Cr..... \$18 92

Explanation: The above "single" entry corrects an error in addition of Miscellaneous Expense Account in 1922. This account was closed out to General Fund, December 31st, 1922, and necessitates this entry.

(32) Electric Light Department Merchandise, Dr..... \$0 40

Explanation: The above "single" entry corrects incorrect posting in this account from Cash Book 116.

(33) General Fund, Dr..... \$1,000 00
 To Public Library Loan..... \$1,000 00

Explanation: Repayment of loan from Corporation was credited to Revenue instead of to the Loan Account as evidenced by entry on Town Journal, page 122. This entry to correct.

(34) General Fund, Dr..... \$692 28
 To Public Library Loan..... \$692 28

Explanation: See explanation of previous entry.

(35) General Fund, Dr..... \$1,586 75
 To Public Library Loan..... \$1,586 75

Explanation: See explanation of Journal Entries 34 and 35. In December, 1921, this account was received from the Library Board to apply on Loan and interest. It was credited to Revenue in error.

(36) Library Board Levy, Dr..... \$400 00
 To Public Library Loan..... \$400 00

Explanation: The records show that on December 18th, 1917, the Town loaned the Public Library Board \$4,000.00. Of this amount \$800.00 was repaid by being charged against the 1917 levy, leaving a balance owing of \$3,200.00. On February 16th, 1918, \$2,800.00 was borrowed from the Bank re this Library Loan. This \$2,800.00 was paid by the Library Board at different times or charged against the Library Board levy. The result is that the balance, \$400.00, is owing by the Library on account of the original loan which is here charged against the Levy Account. (See full explanation in P.M.A. report.)

(37) Library Loan, Dr..... \$479 03
 To Library Levy..... \$385 30
 To General Fund..... 93 73

Explanation: Summary of the Public Library Loan is as follows:

Total Loan.....		\$4,000 00
Repayments by Library.....	\$692 28	
	1,586 75	
	1,000 00	
Charged on levy 1917.....	800 00	
" " See Journal Entry No. 36.....	400 00	
	<u> </u>	4,479 03

Difference—Interest..... \$479 03

Library Levy was charged with interest as follows: (Note—Credit should be given to Library Levy for this interest because interest was paid in full by the library as well as being charged against the Library Levy by Journal entries.)

1918 and 1919.....	\$273 62	
1920.....	111 68	
	<u> </u>	\$385 30
		<u> </u>
		\$93 73

In December, 1921, on Journal 136, Revenue (General Fund) was charged with this \$93.73, necessitating the above reversal.

- (38) Park Board, Dr..... \$534 90
- To Sinking Fund Reserve..... \$534 90

Explanation: The above represents Sinking Fund requirements for the year 1921 not previously charged to the Park Board. Note—Park Board is credited annually with the Park Levy such levy is supposed to take care of interest on Parks Debentures and Sinking Fund requirements, and therefore, should be charged with the annual instalments.

- (39) Park Board, Dr..... \$534 90
- To Sinking Fund Reserve..... \$534 90

Explanation: The above represents Sinking Fund requirements for the year 1922 not previously charged to Park Board. (See previous entry for full explanation.

- (40) Sinking Fund Investment, Dr..... \$179 95
- To Sinking Fund Reserve..... \$179 95

Explanation: Coupons on Sinking Fund Investments received and deposited by the Park Board 3 x 50—150, and 1 x 29.95.

- (41) Sinking Fund Investment, Dr..... \$1,175 34
- To Liability of Town re Sinking Fund..... \$1,175 34

Explanation: Total Sinking Fund instalments should be \$534.90 x 5, \$2,674.50. The Town has paid, i.e., has purchased securities, as follows:

\$1,000 00	
499 16	
<u> </u>	\$1,499 16

Balance..... \$1,175 34

- (42) General Fund, Dr..... \$534 90
- To Sinking Fund Reserve..... \$534 90

Explanation: On December 31st (Journal 118) an entry was made purporting to record the Sinking Fund requirements for year 1920, but credited Revenue instead of Sinking Fund Reserve. This to correct.

- (43) Sinking Fund Investment, Dr..... \$79 95
- To Sinking Fund Reserve..... \$79 95

Explanation: The above represent coupons of Debentures held by Sinking Fund due, but not presented for payment. The Debentures referred to are Town of Sudbury issues.

- (44) Park Board, Dr..... \$150 00
- To General Fund..... \$150 00

Explanation: During the last three years the Park Board was charged with interest, \$1,450.00 on Debentures. Interest on \$1,000.00 Town of Sudbury Parks Debentures being deducted because this \$1,000 Debenture was held by the Park Sinking Fund. This should not affect the charge against the Park Board, which is here charged for the \$50.00 annually for three years.

- (45) Sinking Fund, Dr..... \$499 16
- To Parks Board..... \$499 16

Explanation: The Town purchased for the Parks Board Sinking Fund a Debenture of the Town of Sudbury re Technical School and charged this in error against the Parks Board, March 1st, 1921. This to correct.

(46)	Park Board, Dr.....	\$584 90	
	To General Fund.....		\$584 90

Explanation: This entry is to reverse and to correct an incorrect Journal entry made in July, 1922, page 146.

(47)	Parks Board, Dr.....	\$69 80	
	To General Fund.....		\$69 80

Explanation: On July 26, Journal, page 117, an entry was made (incorrect) charging the excess of Sinking Fund Reserve over Sinking Fund Investment, \$69.60, to Miscellaneous Expense. This entry is to correct. Note—In 1920, Sinking Fund Reserve was charged off against Revenue in error, but brought back by the Auditors of year 1920, and shown on the Balance Sheet. See Journal Entry No. 1 and 2.

(48)	Park Board Bank Account, Dr.....	\$400 00	
	To General Fund.....		\$400 00

Explanation: Cash received and deposited for 1921 Park privileges. Balance of Park Board Bank Account at December 31st, 1922, was \$996.52, made up as follows:
Balance as shown on Langley & Co. report,

December 31st, 1920.....	\$416 57	
This entry.....	400 00	
Sinking Fund Moneys Deposited.....	179 95	
	<hr/>	\$996 52

(49)	General Fund, Dr.....	\$1,612 43	
	To Electrical Department unpaid accounts.....		\$1,612 43

Explanation: Payment of an account by J. G. Lowe, re 1920 High School Board purchases from the Electrical Department was made to the Treasurer and credited by him in error to Miscellaneous Expense Account. The Miscellaneous Expense Account was closed out to General Fund and the account with the School Board showed an open balance, as at December 31st, 1922.

(50)	Provincial Housing Commission, Dr.....	\$135,198 26	
	To Provincial Government.....		\$135,198 26

Explanation: Liability of the Town to the Provincial Government re Advances by the Provincial Government to supply funds for Housing Commission purposes, as at December 31st, 1922. This Liability had not been previously set up in the books.

(51)	General Fund, Dr.....	\$290,125 63	
	To Advances for construction.....		\$290,125 63

Explanation: The above items incorrectly set up and credited to General Fund. See full report re Housing Commission submitted herewith.

(52)	Municipal Housing Commission, Dr.....	\$225 13	
	To Provincial Housing Commission.....		\$225 13

Explanation: Items as follows posted wrongly:

	\$16 68	
	26 68	
	79 48	
	125 00	
	<hr/>	\$247 84
Less.....	22 71	
	<hr/>	\$225 13

Municipal Housing Commission Cash Book, page 130, credits P. Sauve with \$16.68. This man has a loan under the Provincial Housing Commission.

April, 1922, payment P. P. O'Gorman credit in General Cash Book to Municipal Housing Commission instead of Provincial Housing Commission.

On Cash Receipt Book, page 294, May, 1922, receipts as follows were entered twice:

Government Housing Commission.....	\$114 96	
Municipal Housing Commission.....	151 41	
	<hr/>	\$266 37

An attempt was made to correct this on page 298. On that page there were receipts as follows:

Government Housing Commission.....	\$199 18	
Municipal Housing Commission.....	71 93	
	<hr/>	\$271 11
The previous item is shown deducted on this page	\$266 37	

Leaving a balance..... \$4 74
 which was credited to Government Housing Commission. This is evidently wrong, and is corrected herewith as follows:

	Government Receipts	Municipal Receipts
	\$199 18	\$71 93
Deduct error.....	114 96	151 41
	<hr/>	<hr/>
	\$84 22	\$79 48
Already credited Government Housing Commission.....	4 74	79 48

The above \$79.48, therefore, must be debited to Municipal Housing Commission and credited to Provincial Housing Commission.

Disbursement, August, 1920, to U. Howard should have been charged to Municipal instead of Provincial Housing Commission. (\$125.00).

Beauchamp payment, November 25th, 1922, credited in error in General Cash Book to Provincial Housing Commission, should be Municipal.

- (53) J. A. Holmes, Dr..... \$0 10
 To General Fund..... \$0 10

Explanation: Balance of account written off.

- (54) General Fund, Dr..... 169 43
 To Parks Board..... 169 43

Explanation: See Journal Entries Nos. 1 and 2, \$169.43 was there brought into the books to agree the books with the certified Balance Sheet as at December 31st, 1920. The Treasurer in 1921 discovered this error and corrected the same in the books. Therefore, the original entry as set up by us will have to be reversed as above.

- (55) Reserve for Debenture Interest, Dr..... \$19,362 97
 To General Fund..... \$19,362 97

Explanation: On December 31st, 1921, Journal, page 139, an incorrect entry was made charging Revenue and crediting Reserve for Debenture Interest, \$19,362.97. This account was already included in Reserve for Debenture Interest \$50,525.67, on Journal, page 133, and hence should not again be credited. The item was not posted by the Treasurer, thus throwing the books out of balance by this amount. In order to strike a balance it was necessary for us to post the item and this entry is made to reverse the former entry.

- (56) Municipal Housing Commission, Dr..... \$150,000 00
 To General Fund..... \$150,000 00

Explanation: On December 31st, 1920, and December 31st, 1921, Journal, pages 114 and 136, entries were made the effect of which was to credit Municipal Housing Commission with \$150,000.00 and charge General Fund. This duplicates the Liability of the Town which was already shown in the Debenture Liability. This entry to correct.

- (57) Debenture Instalments provided for in levy, Dr..... \$115,718 59
 To General Fund..... \$115,718 59

Explanation: The amount levied for Debenture repayments in 1921 and 1922 was as follows:

1921.....	\$52,835 09
1922.....	62,883 50
	<hr/>
Total.....	\$115,718 59

These amounts were credited to Reserve for Debenture Liability. When Debenture Repayments were made they were charged to the Specific Debenture Account, and also to this account.

(58) Debenture Instalments provided for in levy, Dr. \$7,128 46
 To Municipal Housing Commission \$7,128 46

Explanation: See Entry No. 56 which charges Municipal Housing Commission with total Debenture Liability re Housing Commission. During the years 1921 and 1922 repayments on account of principal were made as follows:

1921.	\$2,719 00	
1922.	4,409 46	
		\$7,128 46

These were debited by the Treasurer to Specific Debentures. A "single" entry was also made charging Reserve for Unpaid Debentures with this amount. At the end of each year the amount charged in Reserve for Debenture Interest Account on account of Housing Commission Debentures was transferred to the debit of the Municipal Housing Commission Account by Journal entry. The total single entries were completed by the P.M. Auditors crediting Debenture Instalment as provided for in Levy Account with the amount. This leaves Debenture Instalments provided for in Levy Account with an over credit of \$7,128.46, and Municipal Housing Commission with an over debit of the same amount. This to correct.

(59) Revenue, Dr. \$5,569 62
 To General Fund \$5,569 62
 This entry "closes" Revenue Account left open at December 31st, 1921.

(60) Reserve for Unpaid Debentures, Dr. \$167 96
 To Debenture Instalments provided for in levy \$167 96

Explanation: Entry was made by Treasurer crediting Reserve for Unpaid Debentures and charging Municipal Housing Commission with payments made on Housing Commission Debentures. \$7,128 46
 The actual payments were as follows:

\$2,719 00	
2,882 00	
1,000 00	
359 50	
6,960 50	

Difference \$167 96

This difference will have the effect of changing entry No. 58 as above.

(61) General Fund, Dr. \$140 09
 To Tax Sales, 1916 \$140 09

Explanation: Total of 1916 Sales Tax sheets, \$9,025.28.
 Total as journalized (Journal 52), \$9,165.37.

(62) General Fund, Dr. \$5 36
 To Tax Sales, 1916 \$5 36

Explanation: Property redeemed for less than taxes and cost as follows:

<i>McCormick Ward:</i>	
John McAdams	\$0 53
<i>Ryan Ward:</i>	
J. A. McDougall	59
A. McDonald	3 02
<i>Fournier Ward:</i>	
F. Vallier	1 20
Sudbury Flour Mills	02
	\$5 36

(63)	General Fund, Dr.....	\$70 00	
	To Tax Sales, 1916.....		\$70 00
	Explanation: Expenses charged in Cash Book to:		
	Tax Sales, 1916.....	\$468 37	
	Less Cash Receipts from purchasers for Tax Sale Deeds credited to Tax Sales, 1916.....	11 46	
		<hr/>	
		\$456 91	
	Costs charged against property on Tax Sales sheets.....	386 91	
		<hr/>	
		\$70 00	
(64)	Tax Sales, 1916, Dr.....	\$234 08	
	To General Fund.....		\$234 08
	Explanation: Similar explanation to that of last entry.		
(65)	Tax Sales, 1916, Dr.....	\$15 62	
	To General Fund.....		\$15 62
	Explanation: Cash received Cash Book 111, on account of tax redemption and credited in error to Tax Sales, 1916. The balance of Tax Redemption is closed out annually to Revenue, hence this amount is credited to General Fund.		
(66)	General Fund, Dr.....	\$70 00	
	To Tax Sales, 1916.....		\$70 00
	Explanation: Cash Received by Tax Collector during May, 1916, on account of Tax Sales, 1916, was credited to Tax Roll, 1915. As the balance of Tax Roll, 1915, was closed to Revenue Account it is necessary to transfer this amount to General Fund.		
	Lot 5, High St.....	\$10 00	
	Lots 20-22, Pearl St.....	40 00	
	Lot 19, Leslie St.....	20 00	
(67)	General Fund, Dr.....	\$2 32	
	To Tax Sales, 1916.....		\$2 32
	Explanation: Cash Received, November 22nd, 1916, on account of Tax Sales, 1916, credited in error to Tax Redemption Account. See explanation of Entry No. 65.		
(68)	Tax Sales, 1916, Dr.....	\$182 37	
	To General Fund.....		\$182 37
	Explanation: Reversing amount incorrectly written off on December, 1917, Journal, page 77.		
(69)	Tax Sales, 1916, Dr.....	\$71 10	
	To General Fund.....		\$71 10
	Explanation: On December, 1917, Journal, page 77. Balance of Tax Redemption Account was closed out to Revenue instead of to Tax Sales, 1916, Account. This entry to correct.		
(70)	General Fund, Dr.....	\$22 48	
	To Tax Sales, 1916.....		\$22 48
	Explanation: On Journal, page 75, December 31st, 1916, credited this amount from Tax Sales to Revenue. This is now reversed.		
(71)	General Fund, Dr.....	\$15 00	
	Tax Sales, Dr. (1917).....	6 46	
	To Tax Sales, 1916.....		\$21 46
	Explanation: This reverses incorrect entry made on August 13th, 1917, Journal page 67.		
(72)	Tax Sales, 1917, Dr.....	\$105 96	
	To General Fund.....		\$105 96
	Explanation: Cash received on Cash Book 127 on account of Tax Redemption credited in error to Tax Sales, 1917. This entry to correct.		

(73) General Fund, Dr. \$303 77
 To Tax Sales, 1917..... \$303 77

Explanation: Expenses charged through Cash Book to:
 Tax Sales, 1917..... \$710 73
 Less Cash Receipts from purchasers for Tax
 Sale deeds credited to Tax Sales, 1917..... 37 74

 \$672 99
 Cost charged against property on Tax Sale Sheets 369 22

 \$303 77

(74) Tax Sales, 1917, Dr. \$62 65
 To General Fund..... \$62 65

Explanation: Interest charged on property redeemed, credited to Tax Sales Account, 1917. As Tax Sales, 1917, did not include this charge for interest the entry had the effect of reducing Tax Sales, 1917, Account.

J. P. Caulson \$24 08
 A. Silverman 2 23
 J. Fisher..... 15 16
 S. Larnonrens..... 2 61
 C. H. Taylor..... 10 05
 P. Murphy..... 4 72
 L. O'Connor..... 3 75
 M. Cyr..... 05

 \$62 65

(75) Tax Sales, 1917, Dr. \$108 49
 To General Fund..... \$108 49

Explanation: Total of Tax Sale List..... \$7,988 01
 Journalized as follows: J. 70...2... \$7,851 58
 78..... 27 94

 7,879 52

 \$108 49

When entry above-mentioned (J. 70 and 78) the credit was made to 1916 Tax Roll. On Journal 72, balance of 1916 Tax Roll as shown by the General Ledger after transfer to the 1917 Tax Roll was charged off to Revenue. Thus any adjustments on 1916 Tax Roll should be credited to General Fund.

(76) General Fund, Dr. \$3 30
 To Tax Sales, 1917..... \$3 30

Explanation: Property redeemed for less than taxes and cost. Note—These small balances were marked paid and written off Tax Sales List but not adjusted through the Tax Sales Account in the General Ledger.

Fournier Ward:
 No. 922—1916 Roll..... \$1 62
 730—1916 “ 10
Ryan Ward:
 No. 1028—1916 “ 1 58

 \$3 30

(77) Tax Sales, 1917, Dr. \$0 35
 To General Fund..... \$0 35

Explanation: See Journal 119. Errors in Tax Sales, 1917, so counter balanced that only a difference of 35 cents remained. This was written off to Revenue, but here brought back as all errors have been located.

(78)	Tax Sales, 1917, Dr.	\$1 59	
	To General Fund.		\$1 59

Explanation: This amount received from B. S. Cummings on account Tax Roll, 1916, credited from Cash Book to Tax Sales, 1916; adjusted on J. 66, Dr. Tax Sales, 1916, and Cr. Tax Sales, 1917. Tax Roll, 1916, should have been credited. Balance of 1916 Roll over list was written off to Revenue, hence this adjustment must be carried to General Fund.

(79)	Tax Sales, 1917, Dr.	\$100 00	
	To General Fund.		\$100 00

Explanation: See Journal entry, page 70, crediting Tax Sales, 1917. This \$100.00 has no relation whatever to 1917 Tax Sales now reversed. See explanation, previous entry. Explanation of this similar.

(80)	General Fund, Dr.	\$151 31	
	Tax Sales, 1918.		\$151 31

Explanation: Expenses paid through Cash Book and charged to Tax Sales, 1918. \$318 44
 Less receipts from purchasers for Tax Sales Deeds 18 95

 \$299 49
 Cost shown on Tax Sales Sheets. 148 18

 \$151 31

(81)	Tax Sales, 1918, Dr.	\$30 73	
	To General Fund.		\$30 73

Explanation: Interest charged on property redeemed, credited to Tax Sales, 1918. As Tax Sales, 1918, did not include this charge for interest the entry had the effect of reducing Tax Sales, 1918, Account.

(97)	Tax Sales, 1921, Dr.....	\$69 79	
	General Fund, Dr.....	13 78	
	To Liability re overpaid Taxes.....		\$83 57
	Explanation: Lots 1078, 1113, 1167 on 1920 Roll. Fournier Ward redeemed by L. O'Connor for \$110.01, on September 6th, 1921, just previous to Tax Sales. In error two of these lots, 1113 and 1167, were sold at Tax Sales for \$69.79. On October 11th, 1922, L. O'Connor again redeemed these two lots by paying \$83.57 (\$69.79 plus interest). Therefore, amount owing to L. O'Connor is \$83.57. This was taken up with Mr. O'Connor, Tax Collector and Treasurer, and no evidence has been submitted that the above is in error. Mr. O'Connor submitted his cancelled cheque for \$110.01.		
(98)	General Fund, Dr.....	\$10 00	
	To Tax Sales, 1919.....		\$10 00
	Explanation: Allowance of \$10.00 made to Geo. Regimbal (No. 922 Fournier Ward on 1918 Roll) on 1919 Tax Sale Sheets. No record of reason or authority for this allowance available.		
(99)	General Fund, Dr.....	\$44 68	
	To Tax Sales, 1918.....		\$44 68
	Explanation: Lots 1-51, Coniston Road entered on 1918 Tax Sales for \$59.56, and Lots 1-11 redeemed for \$14.88. Arrears for Lots 1-51 later carried to Tax Roll, 1918, as, \$56.85, but balance of \$44.68 was left in Tax Sales, 1918. This balance should have been transferred to Tax Roll, 1918, Account, but as this account has been closed out to Revenue this amount is now debited to General Fund.

Fournier Ward Tax Roll:

Pages 1 to 59. Total Roll as charged.		
J. 147 to Tax Collector.....	\$81,135 12	
Revised Total of Tax Roll.....	81,122 98	
	<u>77 14</u>	7 14
Sheet 24, \$8.14 deducted from No. 622.		
Sheet 44, \$1.00 added to No. 1183.		

Ryan Ward Tax Roll:

Pages 1 to 93. Revised Total of Tax Roll...	\$100,165 31	
Total Roll as charged to Tax Collector:		
J. 147.....	\$99,759 72	
J. 156.....	93 06	99,852 78
	<u>99,852 78</u>	\$312 53
Arrears increased and altered in summary of Tax Roll, but not adjusted in Journal....	\$119 59	

Sheet No.

10, added to No. 254.....	25	
24, error in addition.....	90 00	
35, " " ".....	03	
39, " " ".....	100 00	
77, added to No. 2049.....	3 66	
	<u>\$313 53</u>	
79, error in addition.....	1 00	
	<u>\$312 53</u>	

The total roll showed for this Ward is over \$513.19 and is explained as follows:

Sheet No. 3: No. 75, A. Silverman (No. 120, on 1918 Roll)	\$177 95
Sheet No. 3: No. 77, A. Silverman (No. 121, on 1918 Roll)	320 31
	<u>\$498 26</u>

These properties were placed on 1919 Tax Sales and later totally redeemed. In error the above amounts were brought forward to 1922 Roll as arrears and credited to 1921 Roll. This amount credited now to Liability re Overpaid Taxes. These arrears were included in 1923 Tax Sales and paid with interest and costs (\$542.24) August 25th, 1923.

Sheet No. 53, No. 1409, Dougal McPhee, arrears from No. 1365, 1921 Roll...	\$14 92
Arrears as carried to 1922 Roll	29 85
	<u>\$14 93</u>
Forward.....	\$312 53
	\$7 14

(Re \$14.93). No further information could be obtained re this, and the Assessor has been given full detail and is investigating. In the meantime, this has been credited to General Fund, and if found to be incorrect can be adjusted later.

(117) Tax Roll 1921, Dr. \$59 80
 To General Fund. \$59 80

Explanation: Two clerical errors in figuring taxes of 1921 Roll, McCormick Ward (\$12.65 and \$47.15), were discovered and deducted from the Roll before it was journalized. These items were again deducted from the 1921 Tax Roll Account by journal entry on page 142.

(118) Tax Roll, 1921, Dr. \$98 06
 To Tax Sales, 1921. \$98 06

Explanation: Property of Mrs. Savard No. 5 Leslie St., Fournier Ward, No. 754, on 1920 Tax Roll placed on Tax Sales 1921, but on payment of one year's taxes, property was not sold, balance remaining on 1921 tax sales of \$98.06. This property was entered on 1921 tax roll, but no arrears were shown. This property was placed on Tax Sales 1922, including arrears of \$98.06 and the total amount credited to 1921 Tax Roll. These arrears of \$98.06 are now transferred from Tax Sales 1921 to Tax Roll 1921.

Note:—No percentage was added to this property when it was placed on 1922 tax sales.

(119) Tax Roll, 1921, Dr. \$62 56
 To Tax Roll, 1922. \$62 56

Explanation: No. 1372 on 1921 Roll, McCormick Ward of \$31.28 paid twice (June 3 and August 25, 1922) credited once to 1921 and once to 1922 Rolls. Double payment was discovered and allowed on 1922 taxes. Journal entry was made charging 1922, and crediting 1921, explaining that 1922 Tax Roll was credited with \$31.28 of 1921 Taxes. This entry was then duplicated. See Journal 146 and 151. Neither entry being required, they are both here reversed.

(120) General Fund Debit. \$38 01
 To Tax Roll, 1921. \$38 01

Explanation: Allowance on transient trader's license paid, made on 1921 taxes. Entry was made on J-135 to charge Revenue. This was later reversed on J-142 and is here set up again (No. 199, McCormick Ward, 1921 Roll).

(121) Tax Roll, 1921, Dr. \$14 13
 To General Fund. \$14 13

Explanation: Balance shown on 1921 Tax Roll, before adjustments, written off to Revenue. When all errors are located, this must be reversed.

(122) Tax Roll, 1920, Dr. \$0 50
 To General Fund. \$0 50

Explanation: Court of Revision June 30, 1921, No. 13 on 1919 roll, Ryan Ward included in list (List 765.90) as \$8.95 amount in roll only \$8.45.

(123) General Fund, Dr. \$41 40
 To Tax Roll, 1920. \$41 40

Explanation: 1920 Income Tax arrears, including 10% penalty, carried forward to 1921 roll as follows:

Fournier Ward, J 134. \$2,330 53
 McCormick Ward, J 134. 1,860 10
 Ryan Ward, J 134. 1,048 44

Total debited to 1921 roll and credited to 1920 roll. \$5,239 07

1920 roll should then be debited with this 10% penalty or 1/11 of \$5,239.07. \$482 50

This was journalized in error as 1/10 of 5,239.07 extended. 523 90

To Correct. Credit 1920 Tax Roll. 41 40

(124) Tax Roll, 1920, Dr. \$5 34
 To General Fund. \$5 34

Explanation: Additions made to 1920 roll, Ryan Ward, after total of roll was journalized.

Sheet No. 32, 1919 arrears. \$14 04
 " 36, " " 10 93
 " 44, " " 14 01
 " 51, " " 4 22
 " 62, " " 2 02
 " 51, " " 18 81

Less deducted sheet No. 91, 1919 arrears. \$64 03
 6 27

The above was journalized on No. 129 debit to 1920 roll and credit Revenue. \$57 76
 52 42

To be debited 1920 roll. \$5 34

Note—To Correct: \$57.76 should be credited to Tax Roll, 1919, and \$52.42 debited to Revenue, but as Tax Roll 1919 account has been closed out to Revenue the necessary entry is to credit General Fund (Revenue) with \$5.34.

(125) General Fund, Dr. \$3,747 72
 To Roads, Streets and Bridges Maintenance. \$3,747 72

Explanation: Inventory of supplies on hand December 31st, 1922, credited to Revenue. \$6,429 53

Actual amount per stock book. 2,681 81

\$3,747 72

(126) Public Library Real Estate, Dr. \$4,000 00
 To General Fund. \$4,000 00

Explanation: Purchase of Real Estate for Library Board financed from moneys raised to tax levies.

(127)	General Fund, Dr.	\$21 37	
	To Tax Sales, 1918.		\$17 20
	Tax Sales, 1919.		4 17

Explanation: Lot No. 70 Coniston Road on 1918 Tax Sales for \$17.20 also carried to 1918 roll as arrears and later placed on 1919 tax sales. The 1918 Tax Sales amount \$16.92 (including interest) paid and credited to 1919 tax sales, leaving balance of \$4.17 on 1919 tax sales. Note:—1918 current taxes not paid as at December 31st, 1922.

(128)	General Fund, Dr.	\$7 59	
	To Tax Roll, 1921.		\$7 59

Explanation: After locating and correcting errors recited in the last twenty or thirty pages of this report the difference between the 1921 roll and the control was found to be \$7.59. Every effort has been made to locate this difference but it is thought unwise to spend further time and it is here written off. See report re tax roll 1921.

(129)	Royal Bank of Canada, Dr.	\$36 74	
	To General Fund.		\$36 74

Explanation: Cheque No. 756—\$36.74 entered twice, on Roads, Streets, Bridges Pay Roll Sheet, May 1-15, 1922, and on Cash Book folio 108. This amount has thus been charged twice to Revenue and is here reversed.

(130)	Royal Bank of Canada, Dr.	\$154 05	
	To General Fund.		\$154 05

Explanation: Two cheques, Nos. 996 and 1614 issued for \$3.15 covering same invoice and charged to Board of Health. Two cheques, Nos. 277 and 422 issued for \$150.00 covering same invoice and charged to Charity. The above cheques Nos. 996 and 422 have not been presented nor paid and we are informed have been "stopped" at the bank and are herewith cancelled.

Note—As "Board of Health" and "Charity" have been carried to Revenue later transferred to General Fund this amount is now credited to General Fund.

(131)	Tax Roll, 1920, Dr.	\$110 93	
	To General Fund.		\$110 93

Explanation: After correcting and locating errors previously recited in this report, it was found that the balance of the 1920 roll as transferred to 1921 and then to 1922 roll exceeded the ledger account by \$110.93 which is here transferred to General Fund.

(132)	Tax Roll, 1921, Dr.	\$4 46	
	To Tax Roll, 1922.		\$1 71
	General Fund.		2 75

Explanation: Tax Collector apparently overpaid Treasurer re Tax Roll, 1921, by \$4.46. See Journal entry, No. 134. Tax Collector apparently underpaid Treasurer re 1922 Tax Roll, \$1.71. See page 567, collector's cash receipt book for 1922.

(133)	Library Board Cash, Dr.	\$450 36	
	To Library Board.		\$450 36

Explanation—This entry is made to record on the books at December 31st, 1922, the cash on hand, Library Board, \$33.12, and cash on deposit to credit of Library Board. This entry is to be reversed at January 1st, 1923.

(134)	Cash Difference Account, Dr.	\$95 42	
	To Tax Roll, 1921.		\$95 42

Explanation—Cash received by collector, September 6th, 1921:

Total per page 415, collector's cash book.	\$83,610 58
Less errors listed on page 377, collector's cash book.	481 07
	<hr/>
	\$83,129 51
Plus No. 498, McCormick Ward, not entered in collector's cash book.	94 20
	<hr/>
Total receipts on account, 1921 Tax Roll.	\$83,223 71
Received from L. O'Connor re 1921 Tax Sales.	110 01
	<hr/>
	\$83,333 72

Cash paid to Treasurer by collector per collector's cash book:

Page 415, Treasurer initialed for.	\$83,080	18
" 415, " " " " \$530	50	
Collector states amount given to		
Treasurer was only.....	\$258	00
	<u>\$83,338</u>	<u>18</u>

Collector apparently overpaid Treasurer..... \$4 46

Treasurer's Cash Book shows as follows, with respect to September 6, 1921, receipts

September 10, 1921, page 268.....	\$83,080	18
" 12, 1921, " 269.....	530	50
" 12, 1921, " 269.....	363	07
" 30, 1921, " 270, error deducted;		
no further explanation given.....	734	75
	<u>\$83,239</u>	<u>50</u>

November 26, 1921, page 276, adjustment added; no explanation..... 3 26

Total receipts from collector (See above)..... \$83,242 76

Difference..... \$95 42

Note—All cash credited to 1921 taxes was checked to collector's cash book and agreed with the exception of the above. No explanation was given re the deduction of \$734.75 and the addition \$3.26, and it is presumed that these apply to receipts of September 6, 1921, the only date upon which the cash receipts reported by the Treasurer did not agree with the collector's cash book.

(135) Cash Difference Account, Dr..... \$28 60
 To Tax Sales, 1922..... \$28 60

Explanation—Arrears of taxes and costs charged on 1922 Tax Sales as follows:

Fournier Ward 1222, on 1921 roll.....	\$36	92
" " 1251, " 1921 ".....	34	06
" " 1253, " 1921 ".....	36	92
" " 1284, " 1921 ".....	36	92
" " 1336, " 1921 ".....	25	16
	<u>\$169</u>	<u>98</u>

Following cheques were received from L. O'Connor on September 5, 1922 (As shown by deposit slip of September 6)..... \$124 74
 36 92
 8 32

Treasurer's cash book, September 6, 1922, credits L. O'Connor on account of 1922 Tax Sales.. 141 38

Difference..... \$28 60

(136) Tax Roll, 1922, Dr..... \$28 48
 To General Fund..... \$28 48

Explanation—Excess of list over control after locating and correcting all foregoing errors.

(137) Cash Difference, Dr..... \$21 30
 To General Fund..... \$21 30

Explanation—Excess of receipts as shown by Market records over corresponding records in Treasurer's cash receipt book.

September 6, 1921.....	\$3	80
November 8, 1921.....	5	70
July 31, 1922.....	3	60
October 2, 1922.....	2	40
November 7, 1922.....	3	60
December 4, 1922.....	2	20
	<u>\$21</u>	<u>30</u>

\$21 30

(138) Unpaid Accounts, Dr..... \$840 38
 To General Fund..... \$840 38

Explanation—An entry was made to set up unpaid accounts as at December 31, 1922, re Water Works Department and Electric Light Department as..... \$3,040 21
 List amounts to..... 3,880 59

Difference..... \$840 38

(139) New High School, Dr..... \$866 48
 To General Fund..... \$866 48

Explanation—A liability was shown on the books to High School Board of \$866.48 said to be the balance of funds raised by the town by the sale of debentures re new school, as yet unpaid to the High School Board. From the records it would appear that the High School Board had been paid in full as follows:—

Paid to High School Board, 1920.... \$48,000 00
 " " " 1921.... \$33,000 00
 Less repaid..... 20,000 00
 Paid to High School Board, 1922... 13,000 00
 30,000 00
 Total..... \$91,000 00

The town charged against advances for new school the following interest, etc.:

Year 1920..... \$1,327 74
 " 1921..... 1,146 13
 " 1922..... 198 97
 2,672 84

Less amount charged against levy..... \$93,672 84
 1,366 68

Total cost to town..... \$92,306 16

Town raised on Debentures:

By-law No. 674..... \$57,602 57
 " " 745..... 28,832 29
 " " 669..... 5,655 65
 92,090 51

Apparently overpaid..... \$215 65

Note—This is not charged back against the High School Board, as apparently the charge shown above (\$198.97) should have been made against Public School Board.

(140) General Fund, Dr..... \$816 57
 To Park Levy..... \$816 57

Explanation—This represents the cash in hands of Park Board which at various times was brought into the General Ledger as a credit to General Fund. This is now reversed and shown (1) the cash is shown as a Town Asset; (2) this Asset is specifically allocated to a definite purpose, i.e. Park Board. On January 1, 1923, entry will have to be made charging Park Levy and crediting Park Fund cash.

(141) Tools, Dr..... \$1,007 24
 To General Fund..... \$1,007 24

Explanation—The tools account in General Ledger, shows a debit balance of..... \$10,454 91
 Physical inventory of tools is as follows:

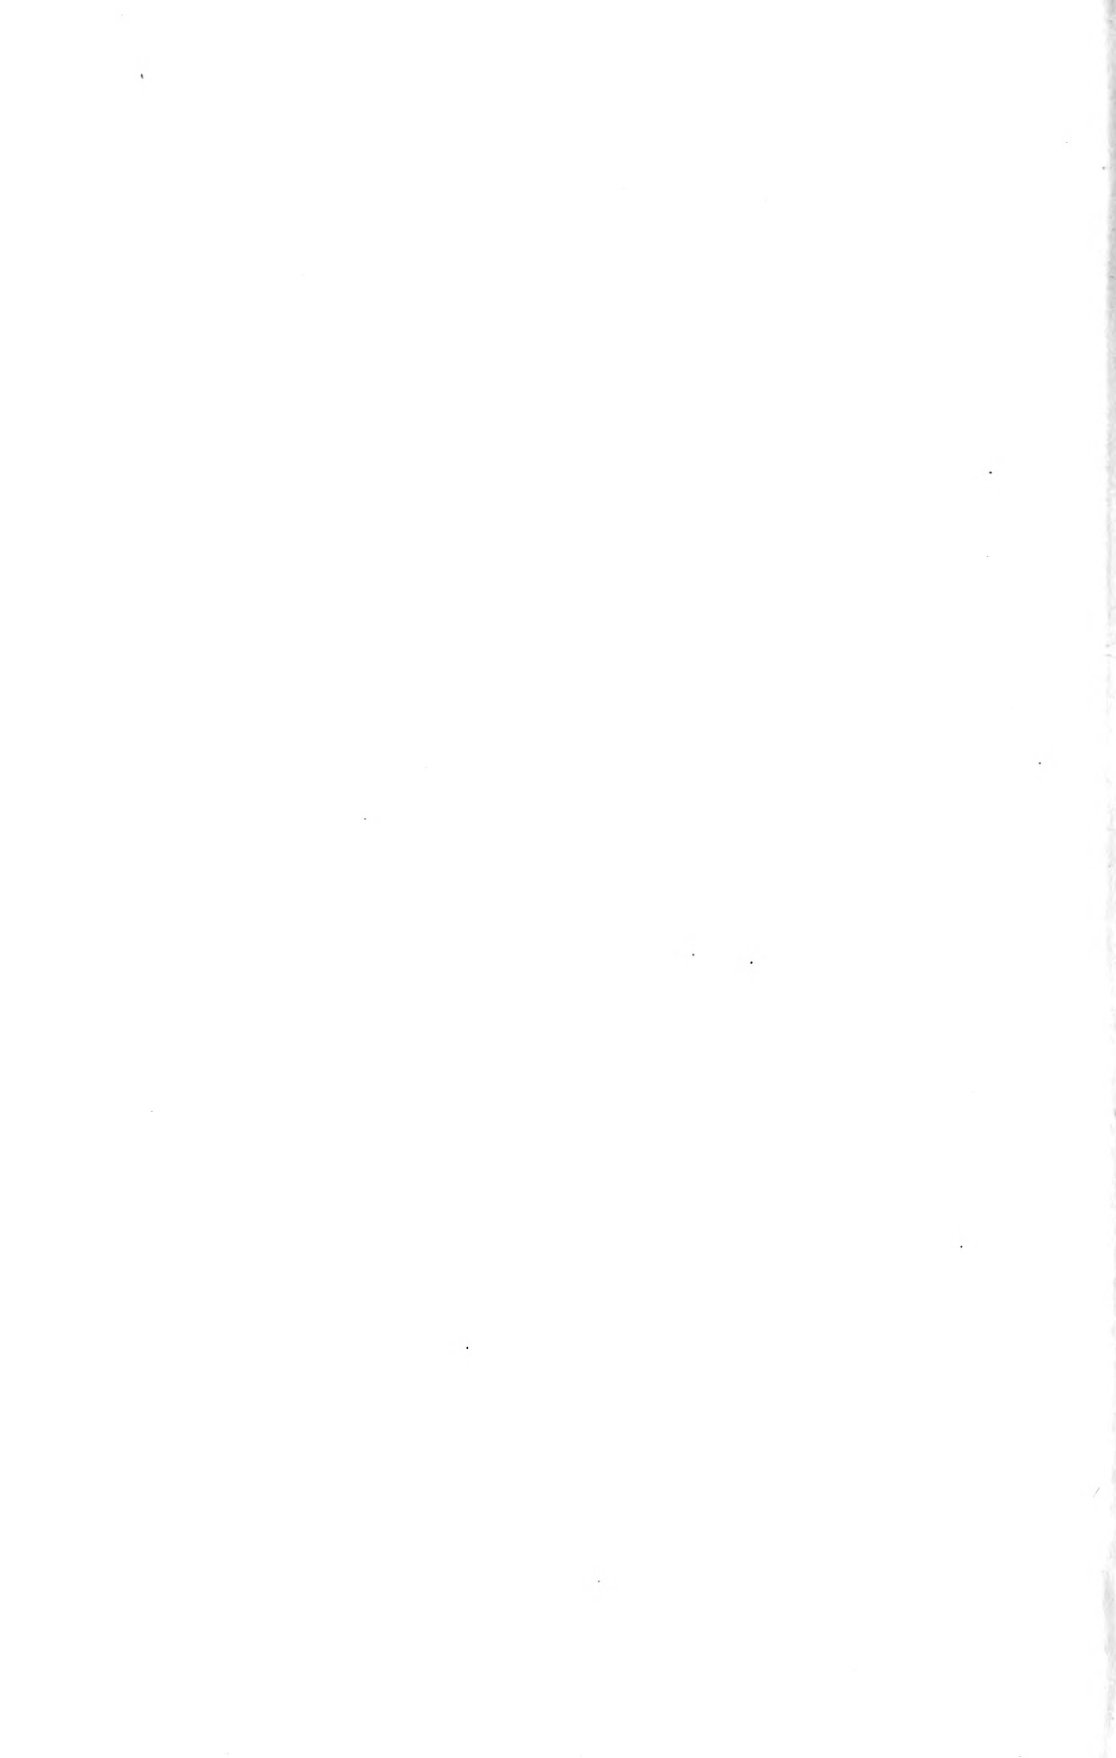

Electric Light..... \$2,990 80
 Sewer..... 1,903 50
 Water Works..... 6,102 45
 Roads, Streets and Bridges..... 465 40
 11,462 15

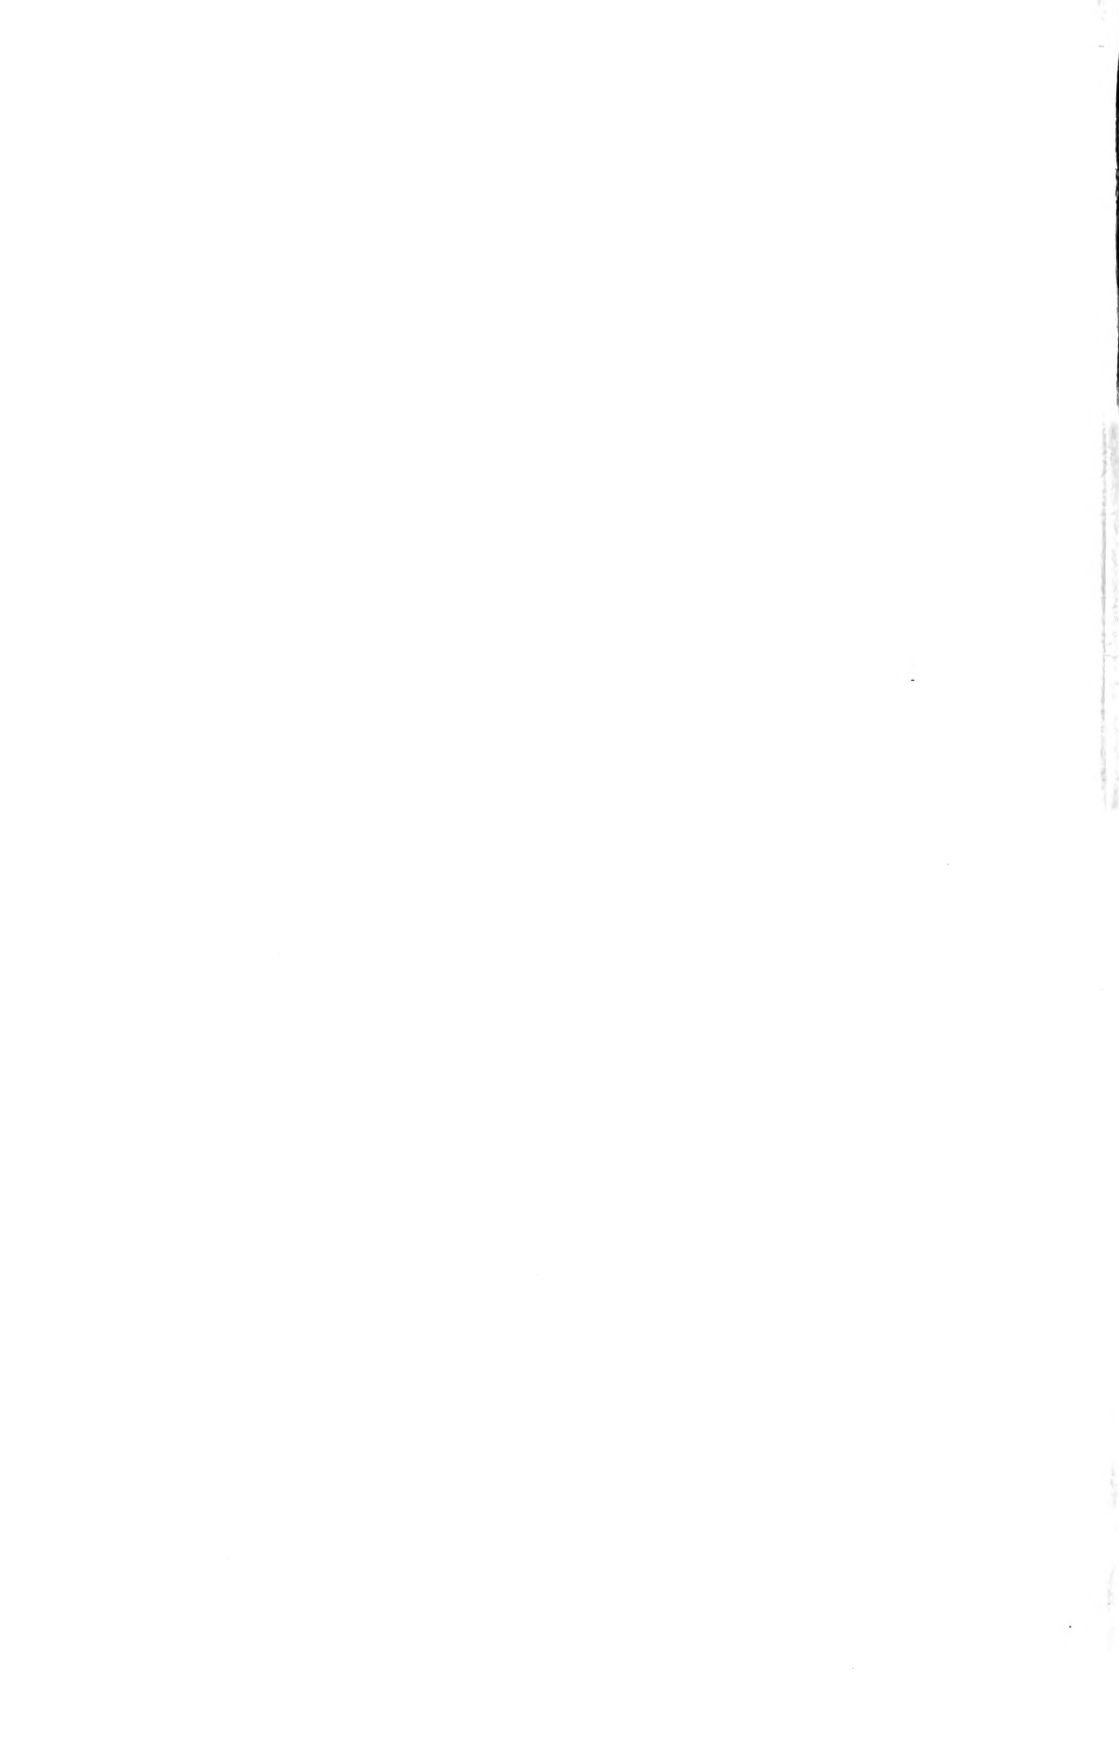

Difference..... \$1,007 24

As tools have been charged to Maintenance Account, increase in value of total tools should be credited to these accounts. All revenue and expense accounts being closed, difference is carried direct by this entry to General Fund.
